I would just like to know the use of the dog in his work

Subsequent Paper.

Hon. Col. Sec.

McPherson states that he keeps a dog for his safety against the Bull. I do not consider the excuse sufficient to justify keeping a dog without a licence.

I would have agreed with Mr. Binion
had I not been informed ^{recently or apparently} ~~by~~ reliable authority
that these bulls have not infrequently been
known to turn on their attendants although
appearing quite peaceful, and that dogs
have safeguarded their masters. I would
like further confirmation of this and the
application can stand over for the return
of the Ch. Inspector of Stock
