Yk. Various seeds have been received in the past from New Zealand but have proved unsuitable for growing here. I send the seeds as the Govt. Gardeners might try them.

July 1935.

To the Authorities of the
Falkland Islands.

Sirs

The enclosed tree-seeds
may be of use to you, & in
that hope I send them,
especially as the handsome
& useful pohutakawa
has no objection to the
sea-winds that are so
disastrous to most
trees. The germination

is the difficulty, but I
hope you will have luck.
I have myself an inter-
-est in your Islands
for the first governor
Admiral Sullivan was
a great-uncle of mine
or my mother's, & she used
to tell me the family
stories -

With good wishes to
all the Islanders

& a wish that they
may be able to enjoy
the benefit of shelter
& their own timber in
the future

Yours sincerely

1st November,

35.

Madam,

Red 1.

I am directed by the Governor to acknowledge and thank you for your letter of July 1935, together with the tree-seeds enclosed therewith.

2. Some of the seeds will be planted in the Government House Gardens and some have been sent to outlying Stations. It is hoped that the experiment will prove successful.

I am,

Madam,

Your obedient servant,

MCH

Colonial Secretary.
