4. We expect to arrange shipment in a boat sailing from this country towards the end of October.

5. At the request of Mr. W. Davies we have asked the Director of the Rothamsted Experimental Station, Harpenden, to prepare cultures necessary for the sowing of this seed and in this connection I append an extract from a letter from the Director of the Station -

"We have prepared cultures on artificial media in test tubes, one of which will inoculate 14 lb. of seed, and another set in soil which may last the journey better. The soil should be mixed with skim milk and each bottle used for 28 lb. of seed."
