In respect of proposed formation of a Falkland Island Romney Marsh Sheep Breeders Association, I have considered it in the light of the Companies Ordinance No.7 of 1922 to which you referred me that such an Association should be formed under.

*Gazettes
1922 p.151*

I think as reference to Schedule B attached to that Ordinance is sufficient to exemplify; that such Articles of a Commercial Nature would be out of keeping with the Dignity and Status which a Breed Society must embody.

1922 p.167

If in the future its certificates and correspondence are to be of any value abroad which is the ultimate object of being able impartially to back with Pedigrees, Rams and the like sold and exported from these Islands.

As this is a matter appertaining to the future development of the Colony I feel that I must beg of you to lay the matter before His Excellency for His consideration.

To this end I attach copy of my previous minute to you and roughed outline of Articles of Proposed Association.

*P.151

Discussed with H.S. The Assoc. can be used under the Companies Act 1922 in the first place. Should its activities merit a pastoral society and one can be laid before the Co.

Mr. Gilruth and Mr. Bonner initially wish that a Romney Marsh Sheep "lock Book and Breed Society be set up in the Islands so that their imported sheep might be registered and the progeny maintain some value even to the point where they might export such sheep.

To this end on their behalf I approached the New Zealand Society to whom they wished to become affiliated.

But reply has now reached me that that Society has no power to accept registration of Flocks domiciled outside the jurisdiction of the Dominion of New Zealand.

It is therefore desired that matter be pressed on with, a start made and affiliation with the English Romney Society (whose sheep are of a rather more divergent type) left in abeyance.

To this end I attach a draft of such an Association together with Memorandum and Articles of Association, adapted from the English Romney Marsh Association.

I gather that such an Association in its inception should be Incorporated by a Special Charter under the Provisions of an Agricultural or Pastoral Societies Ordinance.

Such an Ordinance does not exist in these Islands; could one be drafted and enacted with all due speed to aid the formation of such a desirable Society.

It should be such that other Associations could spring from it, such as a Corridale Breeders Association.

But otherwise I would be grateful to rely on your vast knowledge of drawing up of Ordinances and the like in so far as this matter is concerned.

John P. Blair
Agricultural Officer.
