May 6<sup>th</sup> 1890

Sir  
 I have the honor to forward for  
 the information of His Excellency the  
 Governor a copy of the minutes of  
 meeting of the Board of Health  
 held at the Court House Stanley  
 May 4<sup>th</sup> 1890.

The Hon<sup>ble</sup>  
 the Colonial Secretary

I have the honor to be  
 Sir

Your Obedient Servant  
 S. Hamilton

Minutes of a Meeting of the  
Board of Health of the Falkland  
Islands held in Stanley Monday  
the 4<sup>th</sup> May 1891.

Present The Hon<sup>ble</sup> The Colonial Surgeon <sup>President</sup>  
" " The Colonial Secretary  
" " J. J. Felton  
The Rev<sup>d</sup> Father O'Grady  
The Chief Constable Inspector  
of Nuisance

The President read over the  
minutes of the two previous meetings  
of the 7<sup>th</sup> & 9<sup>th</sup> February which were  
confirmed

In an opening address  
he congratulated the Board on  
obtaining the services of the Rev<sup>d</sup>  
Father O'Grady, recently appointed,  
and said that with the Rev<sup>d</sup>  
Gentleman and the Chief Constable  
he had visited nearly all parts of  
the Settlement and was highly  
satisfied with its improved  
appearance, but that a few  
of the drains remained still in  
a stagnant condition viz:-  
one at the back of the premises

of the Falkland Islands Company  
also one on the piece of land in  
front lately acquired by them.  
and one which discharged itself  
opposite Mr. Lellman's house in  
John's Street.

The Hon<sup>ble</sup> J. J. Feltow called  
attention to a few clauses of the  
Summary Jurisdiction Ordinance  
and suggested the said clauses  
might be brought to the notice  
of His Excellency the Governor so  
as to be the means of having them  
inserted in the Official Gazette  
of the Colony and also to have them  
printed on slips to be supplied  
to all householders. This suggestion  
met with the approval of the entire  
Board.

The fact is, that the only means I should have of sending out the Government Pilot to a vessel entering the Port, would be by the steam launch "Lissie"; (the Company's other launch, the "Wasp", being at present

Stanley 27<sup>th</sup> April 1891.

Sir.

I beg to acknowledge the receipt of your letter (No 128 + dated 25<sup>th</sup> April 1891) + to state that a copy of the letter sent to The Coroner at the inquest (which your letter referred to) was sent to the Jury + that I hoped reference to the matter by the Jury would bring about an investigation.

Your kind statement that His Excellency should have so graciously intimated that "the necessity of a Public Jetty should receive early consideration" will be a source of considerable satisfaction to most of the settlers in Stanley, and raises the hopes of the Public that so considerate a Governor will also take into consideration other important matters which the late Governor ignored - such for instance as

1 The vexation, delay + increased expense caused by the "Cosmos Company" in requiring that all cargo shipped by their steamers be first shipped to Hamburg or Antwerp.

Their excessive freight charges viz 50<sup>/-</sup> £ ton - while at the same time allowing only about 35 to 36 English Cubic feet to a ton in their measurements whereas 40 Cub feet is the ton of shipping.

The F.I Company who refuse to bring goods in their sailing vessels for private individuals get I am told a considerable reduction from the Cosmos Company's charges which balances the disadvantages from which other importers suffer.

2 The necessity of the most thrifty + energetic Colonists leaving this Colony for Colonies of Chile + Argentina because

because

— of "The Officer administering The Government"  
here hitherto conniving at the perpetual monopoly  
of the whole of the grazing land of the Falklands  
by about 26 sheep farmers a few only of whom have  
moderate sized allotments & most of whom have a large  
excess of acreage above that which they have leased.  
— which excess of land a readmeasurement & wise policy  
would probably furnish many opportunities for leasing  
other (small) farms without depriving present leaseholders  
of the land supposed to be leased to them.

The statement originated by Governor Kerr & lately reprinted  
in the "Scotsman" (newspaper) is that the produce of the Falkland  
Islands represented in value £60  $\frac{7}{8}$  head of the Population  
should have been coupled with the fact that all this wealth  
was in the hands of about a score or so of sheep farmers.

With many apologies for writing so profusely

I have the honour to be

Sir

Yours obediently

Stanley January 17<sup>th</sup> 1891

To the Honourable

Fred. Shedden Sanguinetti,  
Acting Colonial Secretary  
Sir

I have the honour to request that you will submit the following to His Excellency the Governor for his careful consideration

The minutes of the proceedings of the Legislative Council as reported in the Falkland Islands Gazette, are incorrect and in fact, in <sup>fact</sup> several places, viz

1. The Hon. J. J. Felton did not move the amendment to the Land Bill. Your Excellency drew a slip of paper from under the paper, from which you had read your prepared speech, and read from it the proposed amendment, after which Mr Felton rose and said that he would not read the paper he held in his hand, as the amendment which your Excellency had now brought forward was almost a fac simile of what it contained but he fully agreed with your Excellency.

2. The Hon. the Colonial Surgeon rose and said that he objected to the Bill for four reasons, first Secrecy, neither the Colonial Chaplain nor himself knew anything of the matter until brought before them in Executive Council

Council, when they had both objected. Your Excellency then said this is not the time to object, nor the place to rehearse what took place in Executive Council. Further discussion followed after which the Colonial Surgeon stated his objection.

(1). Secrecy. Neither the Colonial Chaplain nor himself knew any thing of the matter until brought before them in Executive Council.

(2). Undervalue. The land twenty years ago was worth  $\frac{1}{2}$  per acre and worth that now if not more.

(3). The land should not be sold at all but kept in the hands of the Government.

(4). He considered that the Hon. Members Messrs Cobb, and Felton should not vote both being interested parties.

3. The Hon. F. E. Cobb said that after what his son, friend Dr. Hamilton had said, that he would not have voted, had not the sale been already settled by the Secretary of State.

4. Respecting the Second, and Third, reading of the Bill. Neither of those readings were seconded, in fact Your Excellency pronounced the bill passed after the second reading, but immediately after. Moved the third reading and passing. I am quite prepared to take oath on this statement.

5. I here beg to state that according to the Land Ordinances of this Colony (which at this time have been thrown aside) the whole affair is illegal. But taking the misrepresentations which now appear in the Official Gazette, (and to which I now call your attention) as a specimen of your correspondence with the Secretary of State His part of the transaction is not to be wondered at. Lord Knutsford in a speech a short time ago, stated that he knew very little about the Colonies, and in my opinion with some correspondents not likely to learn the true state of affairs.

6. Did not your Excellency at one time inform me that you had communicated with the Secretary of State for the Colonies recommending that a Chart of these Islands on a large scale be prepared and the land re-surveyed which would soon pay itself as the present system was nautical measurement and the sections as it were a mere guess, each tenant having far more land than they paid rent for, many amounting to thousands of acres, which if gone over by Imperial measurement would cause many more 6,000 acre sections. What can now have so altered your Excellency's dreams; if your above proposals were put in operation, many of the depositors in the Savings

Savings Bank might have an opportunity of  
investing in land, and begin with more  
Capital than did many who are now independent  
it would also prevent the necessity for their  
endeavours to form settlements elsewhere,  
the Colonial Treasury would also be benefited  
seeing many have offered £ 50. per Section  
of 6,000. Acres per Annum.

To The Coroner Stanley

At the Inquest to be held to Day at Stanley Arms - Hotel.

Sir I wish to call your attention to the fact that Delay in rescuing a drowning person, in Stanley Harbour, as in the sad fatality of yesterday may be attributed in a great measure, to the <sup>E</sup>insufficient administration of the Government in this place - seeing that there is no place on the Stanley side of this Harbour, from East to west, where a boat can be hauled up - or from which a boat can be <sup>quickly</sup> launched without the greatest danger, from smashing to pieces on the rocky beach - The privileged & secured right of the Public to embark etc. from the present Jetty in the centre of the Town (called Dean's Jetty) which Jetty was locked up yesterday so that the rescuing party had to clamber over the high Iron fence) - This originally secured right to use the said Jetty has been sold by ex Governor Kerr, without the wish & consent of the Taxed populace of Stanley and no adequate provision made to place a similar convenience for the use of the Public

I desire with all due respects, to call the attention of the Coroner & Jury to this fact.

The Honble J. Shedden Gauquinette

Sir.

On account of the delay in the arrival of the S. S. "Bailey" and the week steamer being due on the 15<sup>th</sup> inst. I took the liberty of asking Wilmer to wait here to enter and clear her, I hope that I have acted right, and in accordance with your wishes by so doing. If I have not, there is no blame attached to Wilmer in the matter, as he was anxious to leave when the S. S. Bailey was cleared, but I told him that he would

his arrival in Stanley, to enter  
and clear the S.S. "Star of Victoria"  
expected here on the 15<sup>th</sup> inst, and  
at my persuasion he consented to  
stay. I think, if you approve, that  
it will be best for Wilmer to stay  
here to clear the "Haugjick" expected  
to be ready to leave about the  
end of this month.

Dear Mr. Sanguinette,

 We have now done with  
sheep killing for this year, and  
there has been killed here at  
San Carlos 8,700. The last  
steamer only took 2,100. It  
was expected that she would  
have taken 3,000.

We are much obliged to you  
for having allowed Wilmer to  
stay with us until the finish,  
and I must say that he  
did his duty thoroughly,  
and at the same time in a

quick and un-officious way,  
and the Captains of both  
Steamers spoke very highly of  
him, Had you not consented  
to his staying, I don't know  
how we should have done,  
With many thanks.

Dear Sir,

I received your kind

to Wilms remaining here until  
the 31<sup>st</sup> if necessary.

I am glad to have to say  
that the "Henzick" will be loaded

weather keeps favourable. The  
S.S. Steer of Victoria left here  
this week. she only took over

I intend some time ere long, to write to you officiously  
to see if some arrangement cannot be made whereby  
vessels can enter and clear at this port, which  
is a safe and convenient one.

I will see that the Constables expressers while  
here are duly paid, with kindish wishes.

Sir,

Under this cover you  
 will find the proceedings of  
 an Inquest, held by me as  
 Coroner, and the body of Ernest  
 Wilson or Witham, one of  
 the ordinary names in the  
 barrow "Edith Waldron" at  
 present lying in Put Howard.

2. Sufficient evidence of cardiac  
 mischief was found post-  
 mortem to account for his  
 premature and somewhat  
 sudden death.

3. The cause hoped by the  
 Jury in the ordinary manner

James Wilson was humbly  
deemed.

4. I do not think that the  
lady's death can in any  
way be attributed to alcohol.  
I made particular inquiries  
as to whether <sup>any</sup> the cause of the  
"Edith Waldron" had been  
indulging in that form of  
poison, and could not find  
any evidence of such indulgence.

Have the honor to be,

Sir,

Your most obedient servant.
