DATE.....

From Governor to Colonial Secretary.

Mr. Miller has told me on several occasions, that
 great economy can be effected by using a
 Chaff cutting machine for oat hay. I think
 I spoke to the Colonial Engineer about this & I
 understand that a chaff cutting machine was being
 used ^{regularly} here this is not the case.

2. Will you please request the Colonial Engineer
 to give instructions that all oat hay &
 lupine which is taken from his house is put
 through a chaff cutting machine.

3. The Colonial Engineer must see personally
 that his instructions are carried out.

Yours,
 G. H.
