Your Ref.

Our Ref. 0229/RSW

Chief Secretary,
Secretariat,
Stanley.

Dear Sir,

I am pleased to submit a copy of the data recorded from the examination of offal at Stanley butchery. These figures cover the period November 1981 to February 1983 but are incomplete due to the occurrence of the war and the subsequent absence of any agricultural department inspection.

You will notice that the progress of the campaign is still in the right direction :-

6 month periods :-	July - Dec 1980	3.9%	hydatid cysts.
	Jan - June 1981	3.3%	" "
	July - Dec 1981	2.8%	" "
12 months of	1982	2.1%	" "
First two months of	1983	0.4%	" "

Yours Sincerely,

R.S. Whitley

R.S. Whitley.

cc Senior Medical Officer.
Chairman Hydatids Committee.
Ag Officer (to await arrival).
Executive Secretary SOA.

Your Ref.

Our Ref. 0247/RSW

Chief Secretary,
Secretariat,
Stanley.

Dear Sir,

Further to my letter of 11th March 1983 concerning the Offal statistics from Stanley butchery, I enclose some ammended figures for the year of 1982.

This correction has been brought about by finding the butchery report for March of 1982 which Adrian Monk completed on April 7th !

Contrary to my previous comments about the trend of the campaign, the figures from San Carlos and Port Louis are so high that they have "dragged" the average up considerably.

6 month periods :	July-Dec 1980	3.9%	Hydatid Cysts
	Jan-June 1981	3.3%	" "
	July-Dec 1981	2.8%	" "
12 months of 1982		2.9%	" "
First 2 months of 1983		0.4%	" "

Yours Sincerely.

R.S.W.
