There is no date on notification of importation. It was obviously received about a fortnight before actual importation.

The certificate from Veterinary surgeon is carefully prepared and is not calculated to inspire much confidence. The importer should I think be warned that stricter compliance with the intention of the regulations is necessary especially at a time when foot and mouth disease is rife in W. & S.

1. Mr. Pole Evans did not know the ship in which the pens could be brought. He told us of them on his arrival and said that the delay was caused by f. & m. disease in England as the pens could not even be taken through Liverpool while that was on. I understand that there is no disease in Ireland where the sheep were imported.

Dear Sir,

I am arranging to send to Port Stanley about the end of this month for Mr John Hamilton, Weddell Island, six Shetland ponies which he intends to have for breeding purposes, and they are to be shipped on board the S.S. "Ballena" from Glasgow about the end of this month. The date has not yet been definitely fixed.

I understand that according to the regulations in force at the Falkland Islands you will have to get one month's notice from the importer. There are five young mare ponies and one stallion pony. The Veterinary Surgeon's certificate will be sent along with the ponies by the Captain of the vessel, but to prevent any difficulty which may arise through the certificate going amissing, I am sending herewith a duplicate of the certificate.

Yours faithfully,

The Chief Inspector of Stock,
Port Stanley,
FALKLAND ISLANDS.
