*What land tax was Mrs Scott
paying please?*

*Has any wool tax been paid by
her this year?*

Hon. Col. Sec.

Land Tax on New Island was
£12-10-0 p.a.

2. No Wool tax has been paid
by Mrs Scott this year. The tax on
Wool would not make very much difference.
New Island would produce about 10,000 lbs of
Wool the tax on which would amount
to £20 —

To
The Colonial Secretary

Dear Sir

having seen in the Gazette that a New Export Taxe has come in force instead of the Land Taxe I am writing to protest against the same, as I think it is very heavy for a small place like New Island, it will come much heavier than what the Rent was, the working expenses of a small farm is heavier than a large farm & not only that do what we will to improve our Stock, we cannot get the good Prices, other farms do for their Wool, as ours is always very sandy which we can not prevent. We run just about 2000 Sheep on the Island & it takes two men to work it that is one man to each 1,000 Sheep. Other larger stations do not have to keep near that amount of men, also on a large station they can save in freight by pressing the Wool by Hydraulic Presses, but a small farm cannot afford to do so as it costs so much to install one, therefore I think it is rather unfair for a small farm to have to pay so much.

Yours Obediently
Fannie H. Scott
