BRITISH ANTARCTIC SURVEY

Please quote in reply

No. S/102/L2

PORT STANLEY,
FALKLAND ISLANDS.

..... 10th May, 19 71

The Town Council,
Town Hall,
Stanley.

Dear Sirs,

The British Antarctic Survey propose to perform the following works between the Public and FIC East jetties:-

1. Widen the seawall by approximately 3' for a distance of 130' eastwards from the Public jetty.
2. Construct a loading platform 40' in length and 24' northwards from the existing seawall. (See drawing for precise locations).

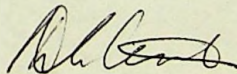

You will see from the attached letter that the Survey has qualified approval from the F.I.G. The Falkland Islands Company have also written to the Survey to say that they have no objections to the proposal.

We should certainly make provision for the easy renewal of the water main should it become necessary.

The basic method we intend to employ is to drive sheet steel piles into the seabed on the line shown in the drawing, back fill with rock rubble and cap over with reinforced concrete and kurling. We also propose to install a gate, as shown.

I hope the drawings are self explanatory. If not please contact me for further information.

Yours faithfully,

R.D. Clements,
Logistics Officer,
British Antarctic Survey,
Stanley.

No. 1987/A

(It is requested that, in any reference to this letter, the above number and the date may be quoted.)

COLONIAL SECRETARY'S OFFICE,

STANLEY, FALKLAND ISLANDS.

5th May 1971

Dear Sir,

Seawall and Jetty Extension

With reference to your letters No S/12/1A of 19th February 1971 and No S/12/3A of 20th April 1971, on site inspections have been made by me and by the Superintendent of Public Works before he went on leave and there is no objection from government to your proposal regarding the Seawall and jetty extension subject to what is written in paragraph 2 below. However, planning permission should be sought from the Town Council.

2. In connection with paragraph 4 of your letter the Superintendent of Public Works has commented:-

"The water main mentioned in paragraph 4 (of the B.A.S. letter under reference) is that used for watering ships. If the B.A.S. can complete their works without disturbing it, well and good. It would be advisable however, with future developments in view, for the Survey to make some provision for possible renewal, such as a form of ducting to cater for a new main should the existing one give trouble in the future. There are no specifications with the sketch but I presume that it will have a concrete pad over the main: the provision should be to give (government) an alternative to breaking through the concrete."

I assume that Mr Royans advised you orally in the foregoing terms during his inspection. Perhaps you can confirm that this is so and that your plans take his ideas into account.

Yours faithfully,

(J.A. Jones)
COLONIAL SECRETARY

Mr. D. Clements,
Logistics Officer,
British Antarctic Survey,
Supplies Office,
Stanley.

Sorry about the delay on this
Jim - but, you know how it's been
of late.

I don't see any problem here, it was
agreed verbally a long time ago, with
the exception I made about not
allowing another Nissen Hut in the
precinct of the main Public Buildings.

The land is Crown Property and
the green signal given allowing the
Youth Club to get on with it.

K. G. Berntsen, Town Clerk.

Property of Mr R Morrison

Public Works Department,
Stanley, Falkland Islands.

.....19-8-22.....19.....

I don't know if Town Council
are prepared to accept this method
of application "of separate drawings etc."

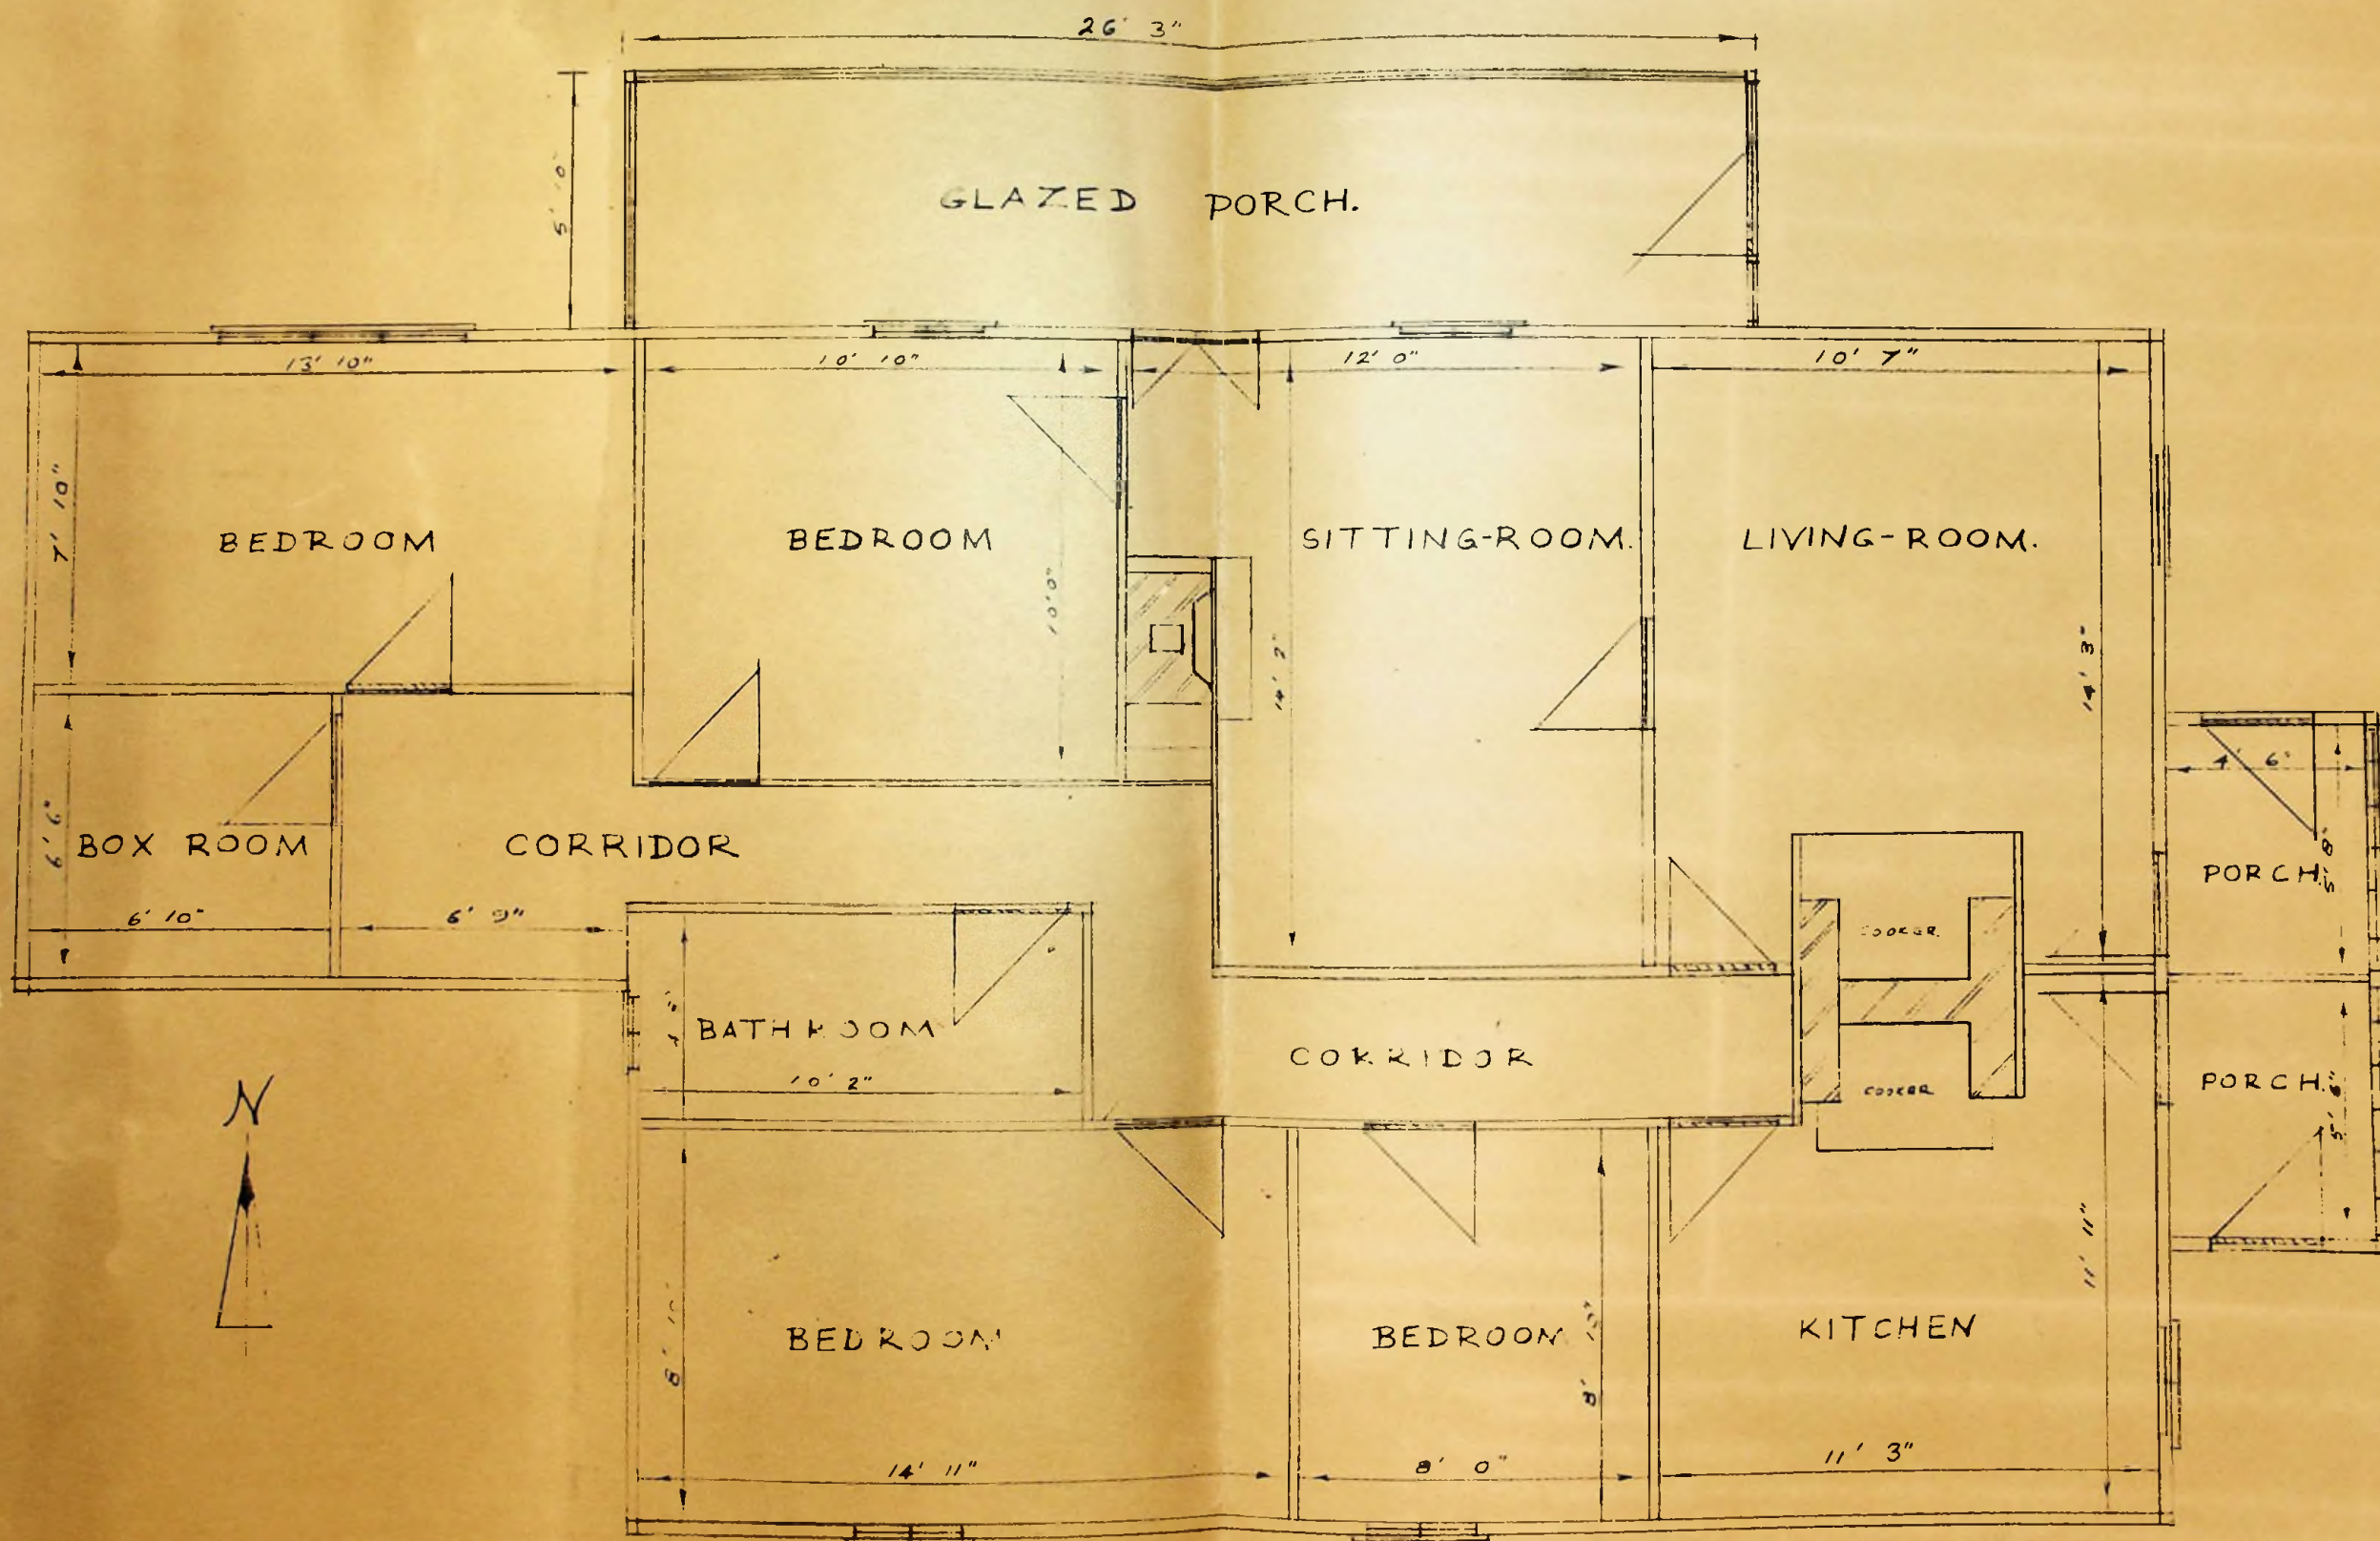

My opinion is: unnecessary extra paperwork.

The proviso on the application form
is quite adequate.

The application forms are simplicity
in itself, no need to complicate them, they
only need completing as it states in
the notes.

If Town Council want to accept separate documents
it must amend and reprint the existing application
forms, accordingly.

FLOOR PLAN OF BUNGALOW, - FOR MR. P. T. JOHNSON. STANLEY.

DRAWN-WEB.

11-VIII-72.

PROPOSED EAST ELEVATION

Public Works Department,
Stanley, Falkland Islands.

.....21st. August, 1972.

Ref: PWD 019

To: Town Clerk,

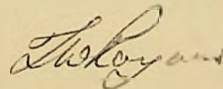

STANLEY:

BRISBANE ROAD DWELLING:

Dear Madam,

I must decline any responsibility with this application, the work is already complete. I received the application form on the 17:8:72, and inspected the building on the 19:8:72 but found the work already completed.

Please Note: Total disregard to the required application form ruling, and Town Council regulations. The matter is now out of my hands, and Council should now decide what action it is to take, I can only add I see no reasonable excuse for the parties concerned to ignore Town Council rules and regulations.

Superintendent of Works.
