Letter from Mr. J. A. King of 27/4/39.

Acting Super:

What lights are there in this road? Can anything be done for the residents by putting in another light.

Hon. Col. Sec.

There are two street lights in Brandon Road. No fittings are available for additional street lighting. I would recommend installation of one light in mid position when fittings available.

Is there any material on order for street lighting? If not the matter should be gone into and an estimate prepared. Two small lights are required for Gov. House path and another lamp by "Italy" and one further west of the Bungalows.

No street lighting material has been ordered. Requirements will be investigated and an estimate prepared without delay.

First of all you might put in an estimate of cost for another lamp in Brandon Road. If another lamp is required to the westward of Bungalows between existing lamps presumably no extra cable will be necessary but merely lamp standards etc. I understand that if any lights are required for Gov. House drive cable will be necessary.

Sheet No. 1.....

Hon. Col. Sec.

Cost of materials for
installation of street lamp in Brandon Road.
£4-12-0. Freight 8/=. Total £5.

If additional lamps are required between
existing street lamps on main road
a short length of cable will be necessary
to make connection to lamp standard. We
have in stock 20 yards of this cable
sufficient for several such connections.
Cable will have to be bought for lamps
if installed on Govt. house drive.

If there is any money
available two or three
lamps and fittings better
be ordered.

Hon. Col. Sec.

Four of these lamp fittings could
be ordered. One replacement is required
this would leave two in stock - sufficient
for present. Other light fittings are
required & could be included on indent.
Total cost approx. £35. Available £100.

£100. If approval an indent will be prepared.

Additional:

Hon Col. Sec.

Actual cost of street lamps as installed on main road £15-10 each complete less freight. If two of these are ordered in addition total estimate including freight £71-0-0. This amount is available. For your approval please.

Submitted. There are no spare lamp standards or materials for setting up additional lighting, if required. I think certain material should be kept in stock.

2. I asked the Elec. Dept. in 1937 to put two small lights such as at the passageway along the Govt House drive but no material has been available.

3. The Sup^r might order the materials for which he has funds? MCH

The light should certainly be obtained for Brandon Road and any others necessary. I do not want lights in G. H. drive

To

The Hon. - Colonial Secretary

Dear Sir,

May I draw attention to the fact that Brandon Road is in such condition and insufficiently lit at night to be extremely unsafe for pedestrians.

Myself with most other residents in Brandon Road step into the street in total darkness and in view of the recent increase in assessments to properties in this block it is time some interest was taken in the lighting and reconditioning of our 'Public Highway'.

I trust this will receive your earliest attention, yours faithfully

J. J. King

3rd May, 39.

Sir,

With reference to your letter dated the 27th of April, 1939, regarding the insufficiency of street lighting on Brandon Road, I am directed to inform you that an additional light will be installed as soon as the necessary fittings become available.

I am,

Sir,

Your obedient servant,

WCH

Colonial Secretary.

J. A. King,
STANLEY.
