Sir,

I am directed to write to you with reference to the interview you had with His Excellency the Governor, at which I was present, on the 14th inst. with respect to your letter of the 29th June in which you stated that you understood in question that the charge of 10/- per diem "under clause 3 of the Customs Ordinance No 5 of 1891" would only be enforced during the time in which the Government had to employ extra hands as Customs Officers pending the arrival of three new Constables.

I have to inform you, as His Excellency did at the interview, that he was unaware of any such understanding.

In view however of the facts placed before His Excellency, who reciprocating the view taken by yourself, "that the desire of the Government is to provide a foster & not to obstruct by restrictive measures the trade of the Colony," he is prepared to sanction that Officers employed, other than those on board of vessels, in the inspection of goods dutiable or otherwise, shall only receive payment at the rate of 1/- one shilling, per hour.

This Excellency is also prepared to remit.

Sir,

I am directed to reply to your letter of the 5th inst. to His Excellency the Governor, in which you complain that the schooner "Columba Maria" was not allowed to enter at once at San Carlos. I would point out to you that San Carlos is not a Port of Entry & that there is no Customs Staff there. Under the law here all over-sea ships have to report to the Collector of Customs at Stanley, or if arriving at any other Port to such Officer of Customs as may be appointed there. The only two Ports having Customs Officers appointed to them are Stanley & Fox Bay.

Any claim against the Government cannot be entertained it being the duty of individuals to make themselves conversant with the laws & regulations of the Customs.

In this there is no difficulty as the Laws are published, both separately & in the Official Gazette.

Sir,

I am directed to acknowledge the receipt of your letter of the 30th inst. drawing attention to the bad condition of the road in front of the Rose Hotel and asking that it may be repaired.

His Excellency the Gov., to whom I have referred your letter, directs me to say that he is very sensible of the general need of repairs to the roads in the town of Stanley; but, looking to the amount that has already been expended on this road and to the state of your premises and the immediate vicinity of the Rose Hotel, His Excellency is not prepared to go to any further expense till other roads have had a proportionate share of expenditure on them.

Sir,

I am directed to acknowledge the receipt of your letter of the 14th July, N^o H. 5341, regarding the erection of quarters for the lighthouse keepers at Cape Pembroke lighthouse.

His Excellency the Governor is still of opinion, looking to the period that the present buildings have stood the winds and storms, that a galvanized iron structure, similar to that designed by Messrs Rowell and Co. but perhaps of a thicker description of iron than that proposed by them, would answer the purpose required though undoubtedly one of stone would be better but could not be erected for £650/- and it was for this reason, as explained in my letter of the 11th April, that His Excellency was not prepared to recommend it.

His Excellency leaves it to the Board to take such steps as it may deem

advisable and will give every assistance in his power to carry out the action which it has proposed.

Sir,

In order to fully compile the daily meteorological readings at the Cape Pembroke lighthouse here it has been suggested that an anemometer and a rain gauge should be added to the instruments already supplied to the lighthouse. The lighthouse keeper however reports that these instruments would be stopped up with sand and adds that the rain gauge which was at one time in use soon got out of order.

I am therefore directed by His Excellency the Governor to enquire of you as to whether some means might not be found of utilising these articles

articles and if so to ask your good Office in sending out the same through the Crown Agents addressed to the Chief Storekeeper, Stanley, Falkland Islands.

Gentlemen,

I have the honor to ack: the rec^d of 8th letter of the 25th June last regarding the deceased Thomas Seymour.

I have interviewed some of the people here with whom deceased had lived on intimate terms more especially one of the name of Moore with whom he served in the camp for many years.

I find from Moore's account that Seymour was born in Ireland in the County of Wexford. Seymour is also credited with having lived under an assumed name and was a man of good education and believed to have come from a good family adopting the name we doubt as a disguise.

The most convincing fact however that deceased and the person referred to by your client Mr. T. J. He cannot have been one and the same person

person is the date of Mr. Jyke's father's marriage 1842. Assuming them to have been the same and allowing Mr. Jyke's father to have married at the age of 21 he would have been at the time of his death in 1891 a man of 70 years and I am informed that Seymour had not nearly attained to that age.

I may mention however that the fund to part of which deceased was entitled as one of the salvors of a wrecked vessel has not realised the amount expected and instead of there being any estate belonging to the deceased there will be a balance of debt to be met.

In reply to the last paragraph of your letter I have the honour to enclose a letter detailing the nature of the risk run by the crew of the "Result" in the rescue of the Viscount's crew.

The danger incurred and the personal risk run by the crew of the "Result" is well known to all acquainted here with the approach to the spot where, with a heavy surf rolling, the ship = wrecked men were picked up, and I entirely endorse the recommendation made in the letter from this office of the 8th April last that some recognition be given to the master and crew for their services on this occasion.

Sir,

I have the honour to acknowledge the receipt of your letter of the 23rd July respecting the traveling expenses of the wife and daughter of Mr. Greenbank, late Master of the "Crown of Italy".

I have submitted your letter to His Excellency Sir Roger Goldsworthy who says that Mr. Greenbank's statement that "I was distinctly informed by Sir Roger Goldsworthy Governor of the Falkland Islands, would not be charged against me" is not correct.

What His Excellency did say was that he found that the Shipping Master was empowered to provide passage under the circumstances for his wife and daughter.

Mr. Greenbank appears to be rather misinformed. On his arrival on the "Cleopatra" and hearing of the loss he had sustained, His Excellency opened a subscription list for payment of the passage of his wife and child home and told

R^d

Mr. Greenbank that he was doing so. Subsequently hearing from the Senior Naval Officer, Captain Leuey R.N., that it was unnecessary to get up a subscription as Mr. Greenbank was not dependent upon such aid. His Excellency saw the latter and told him that he feared he must have looked upon what he had said somewhat in the light of an insult as it appeared he was not still in necessitous circumstances and added that he understood from the Shipping Master that passage could be provided for his wife and daughter in the usual manner. The Shipping Master was in London and as he is in England (c/o the Colonial Office) reference can be made to him.

His Excellency adds that he asked Mr. Greenbank if he were then in want of funds and on his saying a few pounds would be useful His Excellency gave him a cheque which was only repaid on his arrival at Monte Video.

The enclosure to your letter respecting "Relief of Masters" has been noted in this Office.

Sir,

I am directed by the Governor to inform you that when he instructed me to draw your attention to section 220 of the Colonial Office Regulations he was perfectly well aware of what had transpired when Governor Kern took exception to the Secretary of the Falkland Islands Company in London communicating direct with the Colonial Office, but His Excellency cannot accept that what was conceded to the Head Office in London was intended to apply to yourself as local agent of the company and as representative of certain sheep farmers here. Further, when drawing your attention to this clause, His Excellency was

was desirous that you should know that the Secretary of State before acting, refers any communication, memorial, &c., to the Governor for the purpose of its being "duly verified and reported on".

This was in fact done in the case above alluded to when Governor Kerr took exception to the Company's action in London. Indeed it was only from Lord Derby's despatch, referring the correspondence to him, that Governor Kerr was made aware that the Company had been in correspondence with the Colonial Office, the result being that Governor Kerr's explanations were considered "sufficient".

His Excellency especially directs me to point out that inevitable delay from the course you propose to take must ensue, for it is not probable that the Secretary of State will act upon a protest not forwarded through the Governor when there is no justifiable cause for its not being done; as it may not unreasonably be surmised that the reason for not doing so is the fear that the explanation the Governor might afford to the Secretary of State, would once more prove "sufficient".

A copy of this correspondence will be forwarded to the Secretary of State.

Sir,

I have the honor to acknowledge the receipt of your letter of today's date and in reply to state that His Excellency would like to know how the water was collected during the last rain if it being assumed that all the old spouting was not removed together it is difficult to understand how there can be a want of water.

I am to request you to be as sparing as possible in the use of water and, in referring you again to the last paragraph of my letter No 370 of the 27th ultimo in which I directed the use of spring water for cooking and washing purposes, to impress upon you that you appear to make unnecessary difficulties in the working of your department as compared with other departments here.

I am to add that there is no necessity to fix stoves when it is in contemplation to erect new buildings.

Your request that the stoves remaining over in store here may be sent to you is noted and they will be sent as opportunities arise.

13 Oct. 1892

Gentlemen

I have the honor to acquaint you that at a meeting of the B. P. M. of this Colony held on the 7th inst. two wooden houses situated at the west end of Stanley belonging to your client Mr. Boomer widow of the late John Boomer of

of 17 Part St. Louisport and formerly of the Falkland Islands were on the complaint of the neighbouring proprietor condemned as a nuisance. Another apartment was warned to leave their houses as they in the present condition are unfit for habitation and the nuisance now complained of is that they are affording a shelter to vermin to the great annoyance of the neighbours.

I have resolved that notice should be at once sent to Mr. J. Bonner Junr of San Carlos of the resolution come by the Board in the hope that he as representative of the late John Bonner in the Islands might authorize the repair or removal of the structure.

His Excellency the Governor however has directed me to communicate the resolution of the Board to you as Agents for the late Mr. Bonner's estate & to request you to be good enough to reply by return enclosing instructions from Mr. Elliott. I have the houses put into habitation repair (which I understand is possible) or to order their immediate removal.

In the want of no reply being received as above mentioned the Board can have no alternative left it but to exercise the power possessed by it under the old-
 of the Colon (copy of which enclosed) &
 order the immediate removal of the towers so that the nuisance complained of may be abated. To this extreme measure the authorities are unwilling to have recourse until the propriety has been ascertained
 of the matter action is no doubt by a
 little outlay the houses can be made
 habitable & rendered profitable

Sir,
I had the honour to receive your letter of the 4th
instant enclosing cheque for £3 being amount
due by David Jones to the Govt for the months of
Sept. and Oct. as per agreement.

I think the arrangement I made with you
regarding this payment was that you would
instruct your agent Mr Williams to hand the
monthly instalment to the government and I
accordingly asked Mr Williams for the sum of 30/-.
He informed me that you had not mentioned it
but all the same he would settle it and did so.
You will therefore have to retain 30/- yourself
out of the next payment by Jones. In future I
shall look for the order to come in from you direct
unless you advise otherwise.

Will you be so good as to hand your servant
George Clarke the letter addressed to him herewith
enclosed. Clarke sent in by Dean Brandon the
sum of 22/- to pay cost of transfers of the property
purchased by him but the arrangement was
that the seller should pay the same. I have
therefore paid that sum to your credit with
Charles Williams and would ask you to hand
the amount to Clarke as I consider this the
simplest mode of refunding the money to Clarke.

I have the honour to report that the ship "Clz de Gaulle" Capt. James Connell, of Glasgow, 893 tons, and owned by G. Gray Macfarlane put in to Port William on the 24th ult. in distress.

The Pilot answered the ship's signals and on being informed that there was sickness on board returned to Stanley and obtained the services of the Colonial Surgeon and Staff Surgeon A. Dallas, R.N. who reported (vide copy of certificate enclosed) that the crew were suffering from scurvy. An enquiry into the circumstances was immediately instituted and relief as far as possible obtained for the crew. I enclose a copy of this enquiry from which it will be seen that the provisions on board were deemed generally satisfactory but that, so far as could be ascertained, the food supplied at Santa Rosalia

Rosalia was defective.

Since the vessel's arrival I regret to say that the casualty list has been added to by the death of one of the men while three men have been discharged as being unable to serve. The other four are still on board the ship. They are reported to be doing well, and as the master is unable to obtain a crew here, may never sufficiently to serve before the ship's complement is satisfied from Monte Video.

Copies of the endorsement made on the articles on the discharge of the men and of the analysis of the water, lime juice and vinegar made by the Col. Surgeon are also enclosed. A bottle of the lime juice is forwarded by this mail.

Gentlemen, I have to acquaint you that on the 23rd day of
July last the Schooner 'Hadersah' belonging to this
Govt became temporarily stranded at Port Howard, West
Falklands. I enclose a copy of the protest made
by the Master regarding the stranding.

On her return from the West a survey was
held on her by two competent surveyors and a report
(copy enclosed) was made.

When she made the next trip to the West owing
to the absence of the Inspector from San Carlos the
port at which it was considered most advisable
to have her beached for examination as re-
commended in the report this was found impossible.

Subsequently on the Schooner on the 1st Nov
last when returning into Stanley Harbour from
Pilot

Alot Service took the ground on Tussock Point.

All attempts to get her off having failed, a survey of the wreck was held by two surveyors and after receiving their report & copy enclosed it was decided by the Gov^t in Council that the only advisable course to adopt was to repose the wreck for sale. The wreck was accordingly exposed for sale by public auction on the 8th day of November an upset price of £100 being put on her. There being no bid beyond this sum the wreck was knocked down at that figure.

An enquiry was held at the request of the Master of the Schooner into the stranding thereof and a copy of the finding of the Court is herewith attached.

The schooner was insured with the London Assurance Corporation for the sum of £600 and will be obliged if you will recover on behalf of this Gov^t from the Assurance Company the balance due on the policy after crediting the Company with the sum realized by the sale of the wreck, &c. as shown in the account annexed. Vouchers for deductions are also enclosed.

You will have the goodness also to take as cancelled the instructions contained in my letter No 143 of the 4 April last regarding the continuance of the payment of the premium insurance on the policy after Thomas had died.

Gentlemen,

Owing to the Dismissal of two of the
Police Constables and Revenue Officers engaged
by you in March last for service under this
Government it is necessary to have their places
filled by others.

Be good enough to select and send
out two men on the usual agreement as Police
and Revenue Officers at the rate of £60 per unit
unfurnished quarters and all allowance for
fuel.

Both, if possible, should be tradesmen,
one a printer. The name of a man called
Francis Edward Adams of 75 Shorwolds Road,
Fulham, has been furnished to me by his father
who is in the service here as a person who would
probably be inclined to proceed to this Colony.
He is a printer by trade.

The men engaged ought to have
uniforms (including overcoats) furnished to
them before leaving similar to those requisitioned
for this unit to be sent out for the men at
present in the Force.

I trust you will take every possible
care to ascertain the characters of the men
engaged as it is very necessary to have men
in the Police and Revenue Service here of
undoubted sobriety.

For the sake of securing the best discipline in the Gaol the course adopted by you of expressing your opinion of the conduct of the gaoler and warders in the presence of the prisoners is unadvisable.

Gentlemen,

In reply to your letter of the 23 July last No ²⁰¹/₇₄₇ relative to the disposal of the furniture and other property left by the deceased Dr Anderson, I enclose a copy of a letter and list of goods received from Mr Goodheart the Hon Secretary of the West Falkland Doctors Committee which I think explains the matter satisfactory. In addition I have had an interview with Mr Blake therein referred to and he informs me that the £33 mentioned were paid over to Mrs Anderson. As regards the Medical Books mentioned in Mr Goodheart's letter, I have endeavoured to trace the disposal of them but Mr Jameson having left the Colony the only information I can obtain is from his Brother-in-law Dean Brandon who thinks they were sold by Mr Jameson and the money which must have been trifling realised by the sale thereof as the books were of little or no value here submitted to Mrs Anderson. Mr Jameson's residence is now at Cape Coast Castle from whom further information might be had regarding the books.

As regards the spirits mentioned in Mr Goodheart's letter I doubt if a price could be realised for them at home sufficient to cover the freight and certainly they cannot be sold here

Sir,

In reply to your letter of yesterday's date informing me of the death of Louis Bernard, I shall be obliged if on receipt hereof you will search in deceased repositories for any will he may have left so as to see whether any directions have been left as to the disposal of his effects. If such be found I shall be obliged if you forward it to me at once so that I may be able to judge whether it will be necessary to have all his goods sent into Stanley. Should you find no document of this kind be good enough to cause the whole of the effects belonging to the deceased to be sent here. I imagine we shall realise more for any saleable article here than is likely to be got for such in Darwin.

Sir,

I am directed by the Govt to acknowledge the rec^d of 6th Dec of y^r letter of to-day's date in wh^{ch} you ask to purchase a block of land in Stanley with wharf privilege.

In reply I am to state that if on receipt of further informⁿ from you giving a brief outline of the project you propose to undertake the Govt be satisfied that the undertaking is a bona fide one and such as would be likely to further the interests of the Colony &c will be willing to vote the S^o of S for the Colonies for permission to lease to you the quantity of land stipulated by you either on the block between the stone jetty and the Falkland Islands Company's store or on that to the west of the "First & Last Hotel". On a term of years conditional on such lease not being transferable and the insertion of a stipulation that all claim to the land so leased shall, in the event of your company ceasing to carry on the business for which found, immediately revert to the Crown.

His Excellency is not prepared to sell any land as requested by you but should at any time, during the existence of your lease, this decision be altered the right of pre-emption will be considered as vested in you as leaseholder in so far as the same can consistently be done in accordance

accordance with the requirements of the law relating to the disposal of Crown lands in the Colony.

Any information you may give as herein requested will be considered "confidential" should you so desire and I am to request that all communications should be addressed to the Colonial Secretary for submission to the Governor.

I have the honour of replying to your letter of the 6th instant as to the charge of a Customs officer on board the "Concord". I was of opinion that it was clearly understood that the fact of Constables doing the duty did not exempt any ships from these fees, as the men are taken away from their ordinary duty to attend individual cases.

The cases of the "Ruth Waldron" & the "Boylesta" are different, the one having no dutiable goods on board and being easy to rummage & the other lying at the Government Jetty and nothing being moved out of the dockyard without permission.

I return you the receipt.

I have the honour to acknowledge the receipt of your letter of the 31 August last No C 3593 and in reply to inform you that when the Consolidation Customs Ordinance was being drafted the

repeal of the former Ordinance was inadvertently omitted but steps to introduce an Ordinance regarding the exemptions were deferred until the matter of the repealing Clause had been referred to the Secretary of State.

As an Ordinance has lately been introduced exempting from duty articles for official use by Consulates the opportunity was taken of rectifying the error that was made and which was pointed out in your letter above mentioned.

Sir,

It has come to the knowledge of this Government
that sealing has been carried on during the past
year by the Socy, or a person acting on her behalf,
of the Carcer and Prison Islands.

The correspondence which has passed
between yourself and the Govt on this subject has
clearly shown that you were fully aware that
the intention of the Govt in suspending the
issue

issue of sealing licences, especially off the Coasts and Jason Islands where as you have yourself mentioned "you could destroy the rookery in less than a day", was to protect the sealing industry by allowing the propagation of these species.

I am therefore directed to inform you that, failing a proper explanation of the seals having been killed and shipped, O.R. Clausen will be notified that the Govt will resume occupation of the Coasts and Jason Islands which were leased on special conditions up to September 1893.

I am to request an immediate reply to this letter.

Inquiries have been made by the Rev. B. Boltanley, Sunny Bank, Coventry, England, as to whether one of the crew of the "Knight Commander", Stanley by name, is residing in these Islands, it having come to his knowledge that he (Stanley) was imprisoned here.

So far this Govt. has been unable to ascertain or trace any information as to Stanley having landed here, but it is suggested that he might have migrated to the coast of Patagonia.
