

Government House,
Stanley, 3. March, 1876.

Sir,

I have the honour to acknowledge the receipt of your despatch of the 18th February forwarding an inventory of the estate of William Riere and a receipt for the same from Frank Brown to whom you delivered the articles belonging to the deceased.

F. Brown.
2 March 1876

2. From the enclosed copy of a statement by Frank Brown, it will be seen that he repudiates the accuracy of the above and on his being asked to explain how the matter lay stated that he received the articles but handed them back to yourself before embarking on board the steamer in which he proceeded to this Port. He made the enclosed statement on the representation and in the presence of his wife the mother of the deceased.

3. I would therefore be glad to be informed if any further transaction took place between you and Frank Brown prior to his departure and subsequent to the posting of your despatch under acknowledgment and whether the above allegation is true.

Sir,

In reply to your letter of the 20th ultimo
enquiring on what terms various portions of sub-
urban land, as marked on an accompanying
chart, can be acquired for admiralty purposes

in case of works being undertaken in this Colony, I have the honour to inform you that the block of land lying west of the existing Naval Reserve, known as Navy Point, is the freehold property of the Falkland Islands Company. This Company purchased at different times for £637.17.9 some 272 acres odd situated adjacent to Navy Point Reserve and extending to a line drawn north and south from Wall to Fairy Cove.

A part of the parcel of land east of the slaughter house outside of the town is also freehold property standing in the name of Mr. J. Smith but I do not anticipate any difficulty in procuring this site as the Government would be quite willing to part another piece such as would not place Mr. Smith at any disadvantage and there would then be no objection to the price surrendered together with the rest being reserved.

Mr. J. Smith is also the leaseholder of that portion on Engineer Point which you make reference. He holds the lease from Government of the whole of the Peninsula at a rental of £15 p.a. and has been promised an extended lease which will not expire for some years. In the event of this price being required it would be therefore necessary to compensate this leaseholder who would probably have to vacate the entire farm rather than run the risk of his flocks being disturbed, the greater proportion of which depasture on the very part required or in its immediate vicinity.

I have not deemed it expedient at the present moment to interview Mr. Smith on this matter, but with regard to his leasehold property, when the time arrives, some arrangement might perhaps be made by which

Govt 1898

which the Government could find some other piece of land to give on lease in exchange, which, if not equivalent in value, might at any rate reduce the amount of the compensation to be made should Mr Smith be compelled to quit the land he at present occupies.

The spot indicated on the Chart at Sappers Hill could be set apart as a Reserve for naval purposes on the same basis as was the was the site for the Ravel in 1895.

Sir,

With reference to your letter of the 3rd inst: and my reply thereto, I have the honour to enclose for your information a minute from the Officer Commanding the Falkland Islands Volunteers. It is with regret I learn that only some 15 file could attend at the present time any "Inspection Parade" owing to the absence of the majority of the force in the Camp.

The number of volunteers on the Roll has fluctuated considerably since the formation of the Corps in 1892 but at the present time some fresh impetus has been given by recruits

joining

joining and I am in hopes that it will continue. The constant departure from the Colony of men seeking fresh fields for their energies is also another cause of the Corps not increasing numerically.

The guns, two 9 pounders, M & R field guns, loaned to the Colony by the Imperial Government are practically useless where the ground is of such a soft and boggy nature. And I trust you may be able to endorse the late Senior Naval Officer's (Capt. Phipps) opinion. That machine guns would be more useful and that, so supported, my representations may meet with a more favourable reply than on the last occasion when application was made through the Colonial Office to the War Department for them.

To save time you may wish to communicate direct with Captain Halkett, the Commanding Officer, who will do everything in his power to enable you to carry out the instructions referred to in your letter of the 3rd instant.

It may be interesting to you to know that the Volunteer movement, though previously suggested, was initiated owing to the visit of the Chinese revolutionary steamer "Maipu" to this port, it being felt that Stanley would be quite at the mercy of any small filibustering expedition were we entirely without means of defence.

Sir,

I have the honor to acknowledge the receipt of your letter of the 13th instant informing me of your proposed departure for Sandy Point in Her Majesty's ship "Retribution" on receipt of despatches for H.M.S. "Beagle", for the purpose of visiting that port & others within your command.

I appreciate your offer to accommodate an office should I so require & also the promise of your services which I may avail myself of in asking you to arrange for the quick despatch of the missing Fathaland Islands mails should they be at Sandy Point.

With regard to the appointment of an officer to take charge of the range, and stores in your absence, that duty I propose to defer to carry out.

It affords me much pleasure to learn that such assistance, as it has been in my power to afford yourself & the naval service has been found of practical use, indeed it has been long a matter of surprise to me that advantage was not long ere this taken of the proximity of the only English Colony in these parts to establish a range for Her Majesty's ships rather than be under an obligation to a foreign power. That this port may become "a recognized and important naval depot" in the near future is my earnest hope because any one who has paid attention to the subject cannot but realize its importance.

lying as it does in the centre of more than one of our most valuable trade routes, as a strategical base for their protection & as a depot for the supply of coal &c. to Her Majesty's ships of war.

I cannot conclude without thanking you for your readiness at all times to co-operate with and aid me with your advice & assistance & last, though by no means least, to bear testimony to the fact that through your prompt action the underwriters have been saved the loss of thousands of pounds by the salvage of "the Pass of Balnaha" and cargo which otherwise would have become total wreck, there not being any tug available to tow off vessels similarly situated from the rocks.

I lay stress upon this as I believe that had we had in the port a powerful tug in the Colony, Lloyd's & other underwriters would have been saved hundreds of thousands in the last few years and this at the cost of the yearly upkeep of the tug (her services would defray her expenses) amounting to a few hundreds annually.

This duplicate copy is required as a check upon the movement of the vessel concerned, while that issued to the Master would ensure his being able before sailing to be afforded the latest intelligence as to the Customs regulations of these ports.

I have the honour to acknowledge the receipt of your letter dated the 27th April enquiring for specimens of the Sea Elephant and of the Emperor or King Penguin.

I have instructed all holders of Sealing Licenses who are at this moment and will until the end of the open season on the 30th September be at work on the rookeries, to be on the look out for the desired specimens.

I regret however that I have no cause to anticipate success the King Penguin being almost extinct in this group while the Sea Elephant is rare and would require really special appliances to procure.

The latter is hauled in several places on the Patagonian Coast and King Penguins are still to be found off Staten Island.

The South Georgia group are comprised within this Government but are not yet

Sir,

I have the honour to acknowledge the receipt of your letter of the 10th Instant, inviting my views with reference the localities in which you should endeavour to afford protection to the seals for which purpose you have received orders to cruise in these waters.

2. I am of opinion that the Fasons, South Flat, Grand and Steple should be visited and a very good look out kept for any vessel or boat in those waters.

3. Should any vessel be sighted every endeavour should be made to ascertain her nationality and upon what business she is engaged.

4. I would urge that a party should be landed on the S.W. Corner of South Fason which I believe is the Chief breeding ground, and a thorough search made for traces of any recent visit to the rookery.

5. I think also that the Sea Lion Islands should be visited and I shall be glad to hear whether there appears to be a prosperous rookery there.

It is proposed to issue these bills here to
enable traders to purchase supplies in the Republic

It will be convenient if replies to the following
questions can be obtained.

Highest & lowest exchange during 1897 on London

- (a.) for bills drawn at sight

would the highest current rate be given for bills
and if not, what rate?

would bills for small amounts be objected to, &
if so what would be the smallest amount that bills
should be drawn for —
would rates differ for bills of small & large amount

would bills be discounted at sight
Should bills be drawn by Government in favour
of the bank or of the trader in the Falklands.

would bills be discounted in gold, silver or paper?

Could the payee determine which & if so what would in each case be the difference in exchange? I trust you will pardon the trouble I am causing in asking for the foregoing information.

Sir,

I very much regret the misunderstanding that has arisen in regard to the question of remuneration for the school examinations. My intention in proposing $\frac{1}{3}$ a head was to approach but not exceed the amount of £10 already sanctioned by the S of S —

2 I feared if I named £10 that the number of children might exceed the number estimated and that consequently a doubt might arise as to what number the £10 had been understood to cover. —

I certainly did not realize that the number examined had fallen short of my estimate and I should in any case have been glad

glad to sanction the full amount of £10 had the matter been brought to my notice.

3. In inviting Mr Richards to undertake the work I felt that we were offering a slender honorarium in recognition, not in payment of the great service he was rendering to the colony, for which unfortunately it was not in our power to make an adequate return.

Dr

I have the honour to acknowledge the receipt of your despatch of the 5th instant enquiring, by direction of the Lords Commissioners of the Admiralty, the name of the Medical Practitioner considered most suitable for attendance on the men to be employed at the boaling Depot during the time that H. M. Ships are absent from Stanley.

2. I transmit a copy of the scale of fees which the Colonial Surgeon, Dr Hamilton is authorised to charge, but in the absence of information as to the number of men likely to be employed and as to whether they will reside in Stanley or at the Depot Dr Hamilton is unable to form an estimate as to what would be a suitable sum to name as an inclusive salary.

3. If the men employed are to reside at the Depot it will be necessary for the Admiralty to furnish transport.

Yours faithfully,

Wood

Import of
Buenos Aires

May I ask you to be so good as to endeavour to ascertain whether any importers of "Douglas fir lumber" (commonly known as Oregon Pine) or other Pacific Coast woods would entertain the idea of making provision for a ship charter for Buenos Aires to call at the Falkland Islands (Stanley) to deliver for this Government say 150 to 200,000 feet of wood (American lumber measure of 144 cubic inches to the foot). As the price of the lumber will depend on the specification and market value it will probably only be possible to obtain a quotation for the concession of calling the freight per 1000 feet being the price in the Charter party for Buenos Aires and the price of the lumber being the standard rate at a time of shipment as determined by the specification of the assortment required. If any merchant will entertain the idea I would ask that he may be requested to forward an export price list of the lumber Merchant dealer with so that a specification may be drawn up therefrom. The quotation for the concession should state the number of days that will be allowed to discharge and the rates of demurrage for extra days. The ship calling would be free from every description of Port and other local dues and arrangements could be made to tow the vessel into Stanley Harbour should the wind be foul when she arrives. Payment would be made

in London at 3 days sight on the Crown Agents, London.
 The British Columbia Mills Lumber and Trading Co of
 Vancouver quote £ 4-10-0 per 1000 feet of lumber
 delivered in Stanley for an entire cargo of say 1,000,000 feet
 and if this is the company dealt with no price list need
 be forwarded.

Your Excellency,

With reference to my despatch of 26th October, I have the honour to inform Your Excellency that the bearer of this despatch is Mr. S. H. Riches, a Police Constable in the service of this Government who is empowered to receive C. Poole. He is provided with a duplicate copy of the original warrant of arrest and is able to identify the prisoner.

2. It is presumed that the Chilean authorities will place Poole on board the mail steamer and that Riches will take delivery of him there, but, in any case, I shall be much obliged if Your Excellency will advise Riches as to his proper course of action and that you will facilitate matters as much as possible.

3. I beg to enclose a copy of a despatch I have addressed to His Majesty's Consul General at Valparaiso on this subject.

Sir,

I have the honour to inform you that the bearer of this despatch is Mr. S. H. Riches, a Police Constable in the service of this Government who proceeds to Chile in order to receive one Charles Poole whose extradition to this Colony on a charge of cattle stealing has been granted by the Chilean Authorities. He is provided with a duplicate copy of the warrant for Poole's arrest and is able to identify the prisoner.

2. Riches also bears a despatch from me to the British Minister at Santiago but, as it may not be necessary for him to proceed to that place should the prisoner be handed over at Valparaiso, I venture to ask you to afford him all the advice and assistance in your power in the undertaking with which he has been entrusted.

3. Riches has been supplied with a sum of money which it is hoped will be sufficient for his requirements, but, should this prove not to be the case, I shall be much obliged if you will advance such further amount as he needs. Repayment will be made to you by Bill of Exchange on the Crown Agents or in such other mode as you may prefer.

about a year old, and this, when the plant is once established appears to be the quickest and best way of propagating it.

As to whether a native of the Falkland Islands, or rather South America, will grow advantageously at Antigua Island which is at about 5 South latitude I am unable to say.

Needless to add there are no expenses incurred in sending you this small quantity of seed.

In reply to your letter C.P. 15414 of 29 November asking for a small quantity of Falkland tussock grass, I send you herewith under separate cover in a small airtight tin box all the seed I have been able to collect, your request having unfortunately just missed the seeding season. Had it been received some six weeks earlier I should have been able to send you several pounds weight.

I am not attempting to send you tussock plants. I have already tried one or two small shipments to England which have been failures, not that I think, with sufficient persistence and care, they would not arrive safely.

As the tussock grass is a gross feeder it likes rich soil, preferably peaty, with good drainage, and does well near penguin rookeries. It thrives best near the sea coast, and flourishes when well manured with seaweed. A heavy rainfall is not necessary.

While here I have made one or two small tussock plantations and find that satisfactory results have been obtained by placing the plants about 6 ft apart.

Here it is possible to subdivide the plant when

Sir,

In reply to Your Excellency's confidential despatch of the 7th February last, asking for information as to the status of the Canada Sealing Company of Halifax and the personal standing of its President Mr. A. W. Redden, I have the honour to enclose copy of an approved Minute of the Privy Council for Canada recommending Mr. Redden to Your Excellency's favourable consideration.

P. C. 2024 M.

Certified copy of a Report of the Committee of the Privy Council, approved by His Excellency the Governor General on the 27th June, 1908.

The Committee of the Privy Council have had under consideration a despatch, dated 7th February, 1908, from the Governor of the Falkland Islands, stating that the Canadian Sealing Company, of Halifax, has applied for a monopoly of the fur-sealing privileges in the Falkland Islands for a term of years, and that the Company is composed of Mr. A.W.Redden, President: Secretary, Mr. A.G. Wooten: Captain Mathew Ryan, and another, all of Halifax, Nova Scotia.

The Minister of Marine and Fisheries, to whom the said despatch was referred, observes that before proceeding with negotiations the Governor of the Falkland Islands asked for any information which Your Excellency could supply with regard to the status of the Company and the standing of Mr. Redden.

The Minister reports that from information which he has procured he is able without hesitation to recommend to the favourable consideration of His Excellency the Governor of the Falkland Islands, the President of the Company Mr. A.W.Redden, who has for many years carried on an extensive business in Halifax in the boot and shoe trade, and so far as he had the means of knowing, his business has always been successful and his financial standing good.

The

Stanley,

My Lord,

The Canada Sealing Coy of Halifax, Canada, have applied to this Government for a monopoly of fur sealing in the Falkland Islands for a term of years. The rock-cries are at present both few and small, but if properly protected and judiciously worked, would become very much more valuable in the course of a few years.

2. Captain Matthew Ryan of the sealing schooner 'Alice Gertrude' who is here at present and holds the Company's Power of Attorney empowering him to negotiate with this Government, has informed me:-

- (a) that the Company is composed of a Mr Reddon, the President, a man of good financial standing who is engaged in the shoe and leather trade, Mr G.A. Ewotten the Secretary, himself, and another;
- (b) that the capital of the Company is some £2000 in paid up shares of about £10-10 each; and
- (c) that the last dividend declared by the Company was about 20% net.

Your Excellency,

I have the honour to inform you that there is reason to suppose that Canadian sealers and others are under the impression that there is no necessity for applying to this Government for a license to capture seals at South Shetlands and South Orkneys.

2. I therefore beg to invite your kind cooperation and assistance in correcting this mistaken belief, in so far as may be in your power, by warning the Masters of British sealing vessels calling at Monte Video that it is illegal to take seals in the waters of South Shetlands and South Orkneys without a license, to be obtained on application at the office of the Colonial Secretary in Stanley.

3. It would be an additional favour should you be able at any time to convey warnings in this respect to Masters of sealing vessels of other nationalities.

August 9th 1908.

Sir,

I have the honour to transmit herewith a copy of a letter which has been addressed by Mr Louis Williams to the Colonial Secretary with reference to his cutter the 'Progreso', and would ask Your Excellency to be good enough to comply with the request contained in the concluding paragraph of Mr Williams' letter as great anxiety is felt here for there on the board.

The 'Progreso' was built at Punta Arenas in 1906, and has a registered tonnage of out to 11 tons. It is possible that Captain Miller, not being a naval officer, will remit hereafter all expenses in connection with telegrams on learning from you the amount of same.

I have the honour to be, Sir, Your most obedient, humble servant,

Port Stanley

Falkland Islands.

August 9th 1908.

Sir,

I have the honour to inform you that my cutter "Progresso" under the command of Captain Archie Miller sailed from this port on the 1st day of July, bound for the West Falkland.

According to the latest information received yesterday from Captain Osborne of the "Lafonia", she has not yet arrived.

The day after she left Stanley a gale sprang up from the South West and continued to blow ^{very} hard for some three or four days.

I am of opinion now that she has been blown out to sea and it is possible that Captain Miller, not being a navigator, has not been able to make the land again.

I shall therefore feel much obliged if His Excellency the Governor will sanction a copy of my letter being sent to H.B.M. Consul at Montevideo, at the same time requesting him to be good enough to send a telegram to the Vice Consul at Punta Arenas Chile, making enquiries as to her arrival at any Port on the Patagonian Coast.

I have &c.,

(Signed) Louis Williams.
