May it please Your Excellency

I have applied to Sergt Warren don to be taken on the Govt Works, and he has referred me to apply either to J. N. L. Js or to J. Phillips but as your Excellency told me when I left your service to apply to your Excellency in case that I wanted Employment therefore I make the present application in the full confidence that your Excellency will be as good as your word.

Knowing that the situation I held a Crier of the Supreme Court and Bailiff it would help me if I was on the Works

I beg to remain &c

(Signed)

H. Williams

To His Excellency
The Governor.

School House, Stanley
May 10th 1847

Sir.

I have the honor to request your Excellency will be pleased to allow me to purchase the undermentioned articles from the Gov't Store for the purpose of building a small stove as I believe your Excellency stated that you would not be able to grant me that convenience this winter

2 handsaw files
2 lbs of 3 Inch Clasp nails
2 pocket chalks one inch
735 feet of 5/8 Boards - 147 (4 Cuts)
44 do of 3 inch deals.

Trusting Your Excellency will give me an early answer as I wish to remove the wood before leaving for Anson

I have &c

(Signed)

James Leith Moody
Col Chaplain

British Consulate General
Monte Video 20th April 1847

Sir

I have the honor to forward to you two Mail bags sealed with my Official seal & addressed to you containing Official Despatches from Her Majesty's Government, Private Letters, & and Newspapers, addressed to yourself and to the persons resident at the Falkland Islands

I have to inform you that these Letters & have been accumulating at this Office and have not been forwarded previously from the want of a Conveyance.

I beg that you will have the goodness to return to me the Bags which belong to the Post Office

I have the honor to be
Sir
Your most obedient
humble servant

Port Louis 11th May 1817

To His Excellency Gov. Hoody

Sir

I have the pleasure of adviseing your Excellency of my safe arrival at this Port in compleny with Mr. Martinez and others, details of which I hope to have the honor of communicating verbally to your Excellency in a few days, that is as soon as I have landed the Men Horses &c &c In the mean time would you be kind enough and advise me if I can dispose of the Govt House (Barracks) at this place for a few days to accommodate ourselves, I think I mentioned this to your Excellency previous to my sailing for Mont°) in case you accede to my Suplication please send the Keys, Mr Whitington says he has only two Keys belonging to the House.

I also advise you having on board a Mail consisting of two large sacks, could you send for them by water they are too large to be carried by land

I shall also be under the obligation of asking your Excellency the loan of a few Horses, in Order to pass your time round the Island, Vidal the bearer of this can conduct the Horses you may be kind enough to send me

I inclose & accompany a communi-

cation

cation from the British Consulate of Monte Video.

Having nothing further to communicate at present I have the honor to subscribe myself your Excellency's in haste

Most obedient Servant

(Signed)

H. Williams

P.S. Would your Excellency be kind enough and present my compliments to Mrs and Mr Hamblin — please despatch the bearer to enable him to be back here by tomorrow early

Laden on board the Nautilus
(Transport) Thomas Surflen Master, the
Naval Stores undermentioned, in good order
and condition, measuring tons, (dangers
of the Seas excepted,) to The Governor of the
Falkland Islands and to receive the Freights
for the same in due course of Office at
after having produced to the proper Officer the
requisite Receipt or Certificate on this Bill of
Lading of the due delivery of the said Stores
at the aforesaid Place of Destination. Dated
at Woolwich this 2nd day of June 1846

"The Officer who gives the Receipt for the
"Articles mentioned in this Bill of Lading
"is to specify thereon the date of the Vessel's ar-
"rival and the date of her being finally un-
"loaded, and to put the date of his signing
"the Receipt immediately under his own
"signature, and if any delay arises in un-
"loading the Vessel, the cause of such delay
"is to be expressed by the said Officer in his
"Receipt. If the Stores receive damage, the na-
"ture of that damage is to be stated, together
"with the expense of repairing them, should
"they be repairable upon the spot."

Montevideo
15th. April 1847

Sir

I have already addressed Your Excellency by this conveyance in reply to those you did me the honor to write me under date of 1st. January and any object in again doing so, is to inform you that in consequence of the continued disturbances in this Country I wrote to my Brother in England requesting he would endeavour to obtain from Her Majesty's Government some promotion of the term for commencing the Contract. In reply to which he informs me that he had laid the matter before the Colonial and and Emigration Commissioners who, as was to be expected, concurred in the justice of my request.

The number of horses I now send down falls much short of what I had anticipated, for the delays, annoyances and increased expenses which the State of the country has caused me are great - the cost of obtaining peons has been even more so. In fact Your Excellency may well imagine the difficulties with which I have had to contend if you recollect that this dreadful war has been desolating the country for upwards of four years

I have the honor to be

Sir

In reference to the conversation I had the honor to have with your Excellency respecting to the purchase of the Cattle to be delivered over by Mr Lafone in November next - although I can not at present give your Exy a definite answer I have little doubt that I shall be able to relieve the Govt from the trouble of keeping so small a herd and at the same time enable settlers to make immediate purchase of tamer cattle especially Cows broken to haul at reasonable prices and in small lots.

But in order to do so in a manner satisfactory to the Govt and myself I shall require some place to turn up Corals &c I therefore request your Excellency to rent to me the Station at the Head of Port Fitzroy containing about 2,400 Acres for twelve months with to my ultimate purchase of at least one block of 640 acres - my present object is early in the spring to cover of the ground in the Narrow end by turnips and potatoes

= Names =

Dated this day of 1847

By His Excys Command

Secy.

Stanley F. June 17

Sir

Having learned accidentally yesterday that the supply of Beef for the Settlement had arrived in a Whaleboat no public notification whatever having been given! this morning sent my servant with money to purchase Beef for the next ten days that being the interval before the next supply when he was informed by the Butcher that he had no Beef: under these circumstances I am deprived of this main and only article of food this wretched place supplies for the next ten days. The above are the plain facts - the fault lies somewhere - and I submit to your Excellency that you will not allow it to occur in future that one of Her Majesty's Subjects should be deprived of the means of subsistence for 10 days. - What trouble would it be for the Butcher for ten minutes to go round the Settlement with a Book and take orders for the amount required for each family as in England -

I must situated as I am. most respectfully submit to your Excellency that a better and efficient management has not as yet been made to supply the Public with Meat. -

Schoolhouse Stanley
June 28. 1847

Sir

I trust you Ex^e will excuse my reminding you of a promise you made to me early in April last namely "that when the new Wing to the "Barracks was finished you would (would be "able to provide Mr Brown with the Quarters "then occupied by the Serj^t in charge of the Sap-"pers". This you Ex^y stated would be sometime in May but certainly by the end of June

On my informing you that Mr Hamblin had told Mr Brown that Gov^t would not be able to grant him Quarters until the Hospital was built you replied that Mr Hamblin knew nothing about it acting on the faith of this promise and statement I raised a subscription to provide a house in the interim. This subscription amounted to £4. 15. 0 the rent I stand already paid amounts to £7. 16. 0 leaving a balance for me to pay as Rent of £3. 1. 0. Under these circumstances I trust the Gov^t will be prepared to relieve me from the rather unusual expense of providing from my private a School and Schoolhouse for the Colonial Schoolmaster at the end of June has arrived. —

Thanks

July 8th 1847.

Sir

In reference to your Ex.y letter of this day's date enclosing the proclamation respecting land I have the honor to request your Ex.y to allow me to inspect the land survey'd Col. Fitzroy as soon as the necessarily to define the land which I purchase as also the land which I rent from the Canadian Company Majesty's Solicitor Gen.l. I should prefer being allowed to purchase the land which I rent my buildings as I do not like to pay the money and trouble and the 100 acres will not exceed 1/4 the land I require is I believe 182 acres but should the two rid acres cause any inconvenience I can do without them perhaps your Ex.y will be kind enough to appoint an hour on Monday which it will be convenient to see me at the office

Sir

I shall feel extremely obliged if your Excellency will give direction to Mr Langdon to make appointments with the schoolmaster between the hours of 12 and 2 PM. when it can be done without material inconvenience to the public service. Applications in the school house cause the school to be dismissed and the parents immediately complain not to mind on account of the loss of schooling as to their having their children at home and in the way.

I should have written to your Excellency on this subject before but thought you would have agreed to the arrangement when I brought it before your notice in the case of Williams the late schoolmaster.

Stanley P. July 1847.-

Sir

I yesterday received your Excellency's letter enclosing the depositions of Natives taken before Mr. Williams at Otaua in a case where two Foreigners (Spaniards) in the service of Mr. Lafone an Agricultural Labourer appeared before him when one of them named Manuel Morales charged the other named Manuel Pacheco upon a assault knife in hand with a felonious intent during the last week, and requesting me to have it investigated in the usual manner.

I have handed the Natives over to the Native Head Constable and he now remains in the Police Office. I will only be necessary that the depositions be sworn and that the translation of the Spanish depositions be proved on oath to be true and correct. Should they not be already sworn it would be advisable I should suggest to return them to Otaua for the purpose and the Constable Andreas Petalinga on their return could prove the translation to be correct.-

Monte Video
March 25th 1844.

Sir

I have the honor to return your Excellency my very sincere thanks for the attention and facilities which were so liberally shown to my Agent Mr. Martinez, in his late visit to the Falkland Islands.

The report which Mr. Martinez has made respecting the probability of reducing the Wild Cattle now existing in the Settlement to a state of such comparative domestication as would render them subservient to the purposes of Commerce and to the Stocking of Cattle Farms throughout the Islands has induced me to again send this gentleman to the Colony with the object (if possible) of arranging the heads (or even the details) of proposals which may meet the views of Her Majesty's Government. Mr. Martinez is fully empowered to discuss this subject with your Excellency on my behalf and I have furnished him with written Memoranda which will explain my Object and intentions relative to the undertaking upon which I propose to enter.

No 1

No 2

The enclosed copy of a letter to Lord Stanley will explain to your Excellency my reasons for sending Mr. Martinez a second time to the Settlement prior to submitting any proposition to Her Majesty's Government but from this I would not be induced to infer that I expect your Excellency to agree to any proposals Mr. Martinez may bring forward to as to be considered

His Excellency
Governor Moody &c &c
Port Williams.
Falkland Islands

considered in any manner binding on your Excellency or on Government. my only wish is, if it can be done consistently with propriety, that your Excellency would in your communications with M. Martinez as to the main points upon which my proposals to Her Majesty's government are to be based which would enable you to sanction their ground-work with your approbation.-

Could this be done so that your Excellency's final communication on the subject to Lord Stanley might accompany my proposals it would, should it become, greatly abridge the time necessary for its final arrangement, and my journey might perhaps commence next summer.—

If M. Martinez should consider it necessary to confirm his opinions by a second visit to the country, may I beg that your Excellency will kindly grant him permission to do so and assist him in accomplishing his object.

Any attention which your Excellency may show to the gentleman or to any other who accompanies him as an interpreter will be gratefully received by them and by myself.—

I have &c &c

(Signed)

Chas. T. Lapsie.—

No 1

How many square miles do you propose to purchase and what do you offer if you bring your own people?

The extent of the land asked for is marked out in the "three important points" forming the basis of the whole undertaking—

What guarantee do you offer to bring an immediate & adequate proportionate to the land should they require it?—

In case of need a guarantee could be given to satisfy the Government

Do you positively engage to import certain descriptions of stock such as—good mares, a few—and sheep in large quantities—& what quantities do you propose to import?

For the interests of the Establishment a few picked mares shall be sent from the River Plate and never less good halfbred Stallions from England to improve the breed in each Falkland—a few fine pigs for the same purpose and about 20 or 30,000 sheep from the River Plate.—

What Capital do you propose to raise in England and what elsewhere?—

Nothing definite is resolved on this point.

What Agency, if any, do you propose to establish in England?

An Agency will be named in England—most likely in London

Do you bind yourself to establish some fund for schools and for the support of Clergymen of the Protestant faith?

In taking Schools must be established and an increasing fund arranged to secure Education to all classes of people; also a prime Clergyman of the established Church.—the idea is to send out a small Ivy Church for the purpose and establishing Divine Service for the whole of the settlers as the Church of England Service can be read in Spanish to those speak that language as we have done in our Establishment here in Monte Video.

Yours

Do you propose to re-sell land as portions of your Land and at what price per acre?-

No sales of land would be made until all the Cattle are sold and small farms stocked - the price then would depend on Government prices as no person would pay higher rates as long as good land could be purchased from the Crown on more advantageous terms -

Do you propose to sell the land with stock of different kinds and at what prices?

Sales would be made hereafter if they could be realized at fair rates but this is a future operation and the object in part is to be independent of these sales - the Cattle can be realized and an income secured by other means -

How do you propose to house them till their buildings are erected?

The present idea is to purchase a large vessel say an old one of 500 to 700 tons to go out to the Falklands with a few families here and there and land and sundries with the view of making her a storeship and afterwards converting her up and using the materials but immediately on her arrival her Captain will answer for that on shore

From whence and in what numbers do you intend to bring these artificers? - Of what materials do you propose to construct these houses and whence do you propose to bring the materials?

A few artificers only will be requisite as the plan is to bring from homes out - ready made with every piece numbered & these houses would be sent out in the Spring

Mr

How do you propose to supply the whole party with fuel and what kind of fuel until they are settled and able to cut fuel?

Have you a list of stores made out? namely provisions - Building materials of all kinds - Tools & implements including carpenters, masons, miners, smiths, shoemakers, boat-builders, clothing of all kinds Agricultural implement seeds - — Household furniture including stoves - grates - crockery - cutlery - and Ironmongery -

Among the people might not there be a tailor and a shoemaker with tools and materials of their trade?

Is there a small library for circulating of useful books (cheap editions) to lend or hire out?

Is there any Stationary Shop Ironmongery Chandlery of every kind?

Some coal would be sent out in the vessel and the people from the shetland would be sent to work immediately to prepare peat for the whole establishment -

A complete list of <u>actual necessaries</u> would be made out and the orders sent to be executed to the different places where suitable things are to be met with, but on a scale of prudent economy - —

Where trades men could be sent out on an arrangement to work for the settlers - there would be full employment for them by piece work - The materials can be provided for them and sold in the store which will be attached to the Establishment. The library of useful books on a small scale at first would be easily arranged - Stationery &c would be found in the store as also the most saleable articles of Ship-chandlery. perhaps the Interested might find it necessary and advantageous to establish a store and agency of business in Port William -

How do you propose that Canadian Farmers investing Capital in the Cream Lands be remunerated?

The hope of remuneration is in establishing cattle farms and utilizing the products with in sale of stock and in killing Hides and Cows for the Old Country.

What amount of Capital do you consider necessary and laid in what Instalments?—

A definite amount of Capital cannot be named as in case of carrying on with success the enterprize the proportion will for some time constantly operated and Multiplying of Stock will represent with safety and increase—

How do you propose Paying Government for the Lands and in what terms?—

See the "principal points" in the reply to this Question.

What Guarantee do you offer to fulfil your contract?—

All that can be said is that the necessary amount will be found and it is believed that the results of the first year or two will greatly overpass the expectations of the British Government and if the confidence of the Government is once gained by the extensive Contractors and the beneficial results to the Islands then greater and more extensive plans may be entered upon to laid before Government for its consideration. If after hearing the proposals terms are agreed upon with the Govt. there will be no difficulty in giving a guarantee if any should be required.—

Yes

Yes

Do you propose to confer any portion of the Lands in your own hands upon your own officers or leave that to be done by Government with the information received from you?

Do I understand that you propose to establish a company for the Colonization of these Islands as well as to carry on a fishing pursuit that the two are to be simultaneously carried on that the profits of the latter are to be appropriated to the former?

What description of Emigrants do you propose to introduce? And from whence? - In what proportion to the first two years do you propose to employ them & give them employment & how to dispose of them afterwards?

The principal points for the attention to this question. -

The intention is to place the way for the Colonization and Civilization of the Falkland Islands - it will be done either by individuals as a private undertaking or by a company most likely to start first a private undertaking - Naturally agricultural pursuits, beyond the immediate daily necessaries of the settlers, must be subservient to Cattle grazing &c. -

I do not consider the Falkland Islands as they are barren and inhospitable & often with dark religious men may be found as in the annals of the Islands it is said the inhabitants received the first and thus good morals will be introduced into the Falkland Islands grounded in the heart of the settlers -

I do not intend men for captaincies from the River Plate for the management of the Cattle farms as necessary from their knowledge and experience in the business -

I do not consider the Inhabitants of Chile as the people there are more docile and honest than the inhabitants of the River Plate -

I do

How do yr propose to obtain these Emigrants and to make known to them and to be appreciated by them the advantages that would accrue to them here? - How overcome the prejudices against this place? - At what period of the year do yr propose they should arrive? - How do yr propose to house them until their buildings are erected? -

Who do yr propose to erect these buildings and at whose expence?

Yr Excellency's despatches and Canadian from Monte Video - Upon account to need work at the Saladeros and in erecting new buildings. -

The number in the first two years will be 300 & 400 persons. The first year all the men from the River Plate and Chile and from 25 to 30 families from the Netherlands - these Catholics men women also boys will be employed in the Establishment on Wages until the Farms are organized and then a system will be adopted giving the men that are found worthy small farms on shares -

The Emigrants will be taken to the Falklands through the Agency of the Contractor: the contract will be clear and the remuneration expected - by rates of wages for a given time. The people will be told where the Islands are situated their disadvantages and advantages - trusting that subordinates will have confidence in the managers who undertake to accompany them in person - As soon as practicable the people will be sent to and to arrive in the Spring particularly the first settlers. -

* See preceding pages. -

Upon the whole provisional Work will be contract - the Islands & erecting the Buildings will be on account of the Contractor or account of the Government as may be agreed upon subject to the nature of the general arrangement -

Memoranda —

The only objection I have to companies or an individual obtaining possession of the Cattle are = the danger that he would destroy the whole of the Cattle for immediate profit and so ruin the future prospects of the Colony, by enriching a few at present, and that there would be a monopoly and that Cattle and Beef be sold to settlers and ships at high prices which would discourage them. A judicious agent would obviate this because he would lose by it but can a judicious agent be reserved? —

I do not consider that the Govt are desirous of any great profit from the Cattle except from the hides but they are desirous that the resources of the Islands should be wasted or destroyed. —

Sheep would form the chief stand in the speculations of a settler —

Under existing circumstances I do not think that Cattle farming can be profitable except by exporting Cattle to Europe

The intention is not to destroy the Cattle but from them to multiply for the Cattle now on the Islands in time and with care to increase and with that increase to stock the whole of the Islands. — In one word I think in concurrency — the undertaking would be those plans I hope on them depend that would be both for the Government & for the Individuals interested, & to secure this the Contract would must include an guaranteeing that only ones two Cows, & those the old ones, in every ten Cows in the whole quantity now on the Islands, would be killed for a length of time, also to stipulate a fixed selling price, and a fixed quantity as a minimum of Stock Cattle, at low rates, with the Govt, for the benefit of Settlers for several years to come & a stipulated low rate for fresh Beef for the Shipping by these express conditions, the the objects of the Government are entirely met, with a measure conciliating the interests of all concerned — The Proprietors will provide a judicious Agent. & one who will have sufficient foresight to perceive the necessity of a march dictated by discretion & prudence.

It is fair to suppose & hope that the views of H. M. Government are for the future benefit of the Islands: The advantage they may give to the first enterprize will not hold out to the Islands as the

-land as well as hides &c —

The Climate is admirably adapted for fattening Stock all the year round - more so than any place in the world.

The profit, & increase on the Stock now existing, will remain on the Islands until the Lands are populated, as the breeding of Cattle will be the staple of the Colony for many years to come: the Contractor will be the loser if the Islands are not worth the pains & trouble of Cattle grazing, & upon the plan proposed, the resources of the Colony would be neither wasted nor destroyed. It is expected that the Govt would make great profits to the Contractor as the fruit of the undertaking - Ship in large quantities would be introduced when once matters were organized & the plan adopted of giving the Sheep farms out on shares to the poor settlers. - The Cattle farms ought to yield a favorable result, as long as the Land can be purchased at a low rate in comparison with Land in other Countries, or to be had on lease at a nominal rate. However the Grazier can either sell Stock, or increase it, or kill off each year surplus Stock, taking advantage of the Climate for preparing the produce of the Animal —

No 2.

Montevideo March 16th 1844

My Lord

I have the honor to acquaint your Lordship that having had my attention drawn to the Falkland Islands, in the early part of December last I sent a Gentleman possessing the requisite practical knowledge & experience to that Settlement with the object of obtaining correct informations as to the practicability of subjugating the wild Cattle now existing in the Islands, to that degree which is necessary before they can be made serviceable to either the purposes of Commerce or the supply of Settlers with Stock for their Farms, or Beef for consumption.

The Report which I have received has induced me to determine to draw up proposals, based upon what I conceive to be the views recommended by the Colonial Land & Emigration Commissioners, and which appear to have been adopted by Your Lordship, suitable to the peculiar wants & condition of the Infant Colony, by which the Settlement will derive the greatest benefit, at the same time insuring to an Individual, undertaking so weighty a project, a prospect of ultimate success.

Under the impression that time will be saved by submitting the proposals to which I allude to the inspection of His Excellency Governor Moody prior to laying them before your Lordship, I shall transmit them forthwith in a vessel of my own, and if as I trust will be the case, they meet the views of His Excellency the Governor I shall immediately place them before your Lordship in a manner which will

To the
Right Honorable
Lord Stanley
&c &c &c

will at once shew the sincerity & good faith with which I am induced to enter upon the undertaking.

The expense necessarily incurred in arranging the preliminary points will be considerable, and should, by any chance, in the mean time proposals be made to Her Majesty's Government, which, if accepted, would supersede those which I shall shortly have the honor to submit, all this expense would be incurred in vain, I therefore respectfully hope that Your Lordship will consider me entitled to a hearing before propositions from any other Party are agreed to.

I have the honor to be,
My Lord,
Your Lordship's
Most Obedient
Humble Servant
(Signed) Samuel F. Lafone.

Anson 15th July 1847

To His Excellency
Colonel Moody

Sir

I duly acknowledge the receipt of your Excellency's letter dated 13th instant and in compliance thereof transmit under cover to your Excellency the required documents as per the Magistrate's request, all of which I hope may be found in due order and form.

My delay here depends on Captain Smiley's arrival and Mr. Martinez dispatches. I am very anxious to return to the Southward and hope soon to have the pleasure of seeing your Excellency. Meantime wishing yourself and Household well

Stanley
13th August 1849

Sir

Agreeable to the suggestion contained in Your Excellency's letter of yesterday I have prepared certain Rules to be observed by the Jailor and Turnkeys of the temporary Prisons which I now have the honor to enclose for Your Excellency's approbation on receipt of which they shall be published & acted on

I have &c
(Signed) Wm Henry Moore

To His Excellency
Governor Moody

Rules and Orders by the Visiting Magistrate for the Jailor and Turnkeys of the Temporary Jail at Stanley

Prisoners committed to your Custody are to be taken out every day from half-past eleven till twelve o'clock in the forenoon for Exercise outside the Jail door, besides a few minutes morning and evening for necessary purposes. No person whatever to approach near or to speak to prisoners during the half hour allowed for Exercise. Those Committed for hard labour are to go to their labour and return at Bell hours in charge of a Turnkey. Prisoners may see a friend Male or Female on Tuesdays and Fridays from Seven o'clock to half past eleven o'clock of the forenoon. The person wishing to see a Prisoner must be strictly searched to ascertain that they do not convey any offensive weapon, spirit, tobacco, wine, cards, pills, or any Instrument by which they might cause injury or effect an escape.

The Jailor or a Turnkey must be present during the entire of the half hour allowed for the interview.

A Prisoner not Committed for hard labour may employ his leisure in the exercise of his Craft if an Artisan such as a Tailor or Shoemaker for his own benefit.

His beds must be locked up by the Jailor every night in a separate room and given out again every morning.

English

English Prisoners may attend Divine Service on Sundays at eleven o'clock in charge of the Jailor or one of the Turnkeys.

One Pound of Bread one Pound of Meat and three pints of Coffee with a sufficient supply of water to be constitute a Prisoners Rations

No Spirit or Tobacco to be allowed under Penalty of forfeiture of Bond

No Wood or Shavings to be kept in the Jailors room nor any person whatever but Jailor and the Turnkeys to stay there except Corporal Watts or the non commissioned Officer in Jail who is to be admitted every morning to inspect the premises no Clothes or other Articles to be placed or hung behind the fire place.

The ashes of the fire to be taken up each morning and thrown in such place as may be pointed out by that purpose by Corporal Watts the non commissioned Officer in charge of the Government Stores the greatest caution to be observed by the Jailor & Turnkeys in the management of the fire as there is Gunpowder in Store at a short distance from it

The Chimney flue to be swept once a fortnight. Should any prisoner procure knife or Knives he or they must be placed in safe custody and kept until the Jailor or Turnkeys think proper to restore them. Refractory and violent prisoners must be deprived of all rations and

just

put in Irons and so kept until released by Jailor or Turnkeys

A copy of these rules to be hung up on a board in the Jailors room to be shewn to any of the public outside wishing to see them.

Augt 17th 1847

Sir

I have the honor to inform your Exy that I have given Corporal Watts the receipts for the articles which I have been allowed to purchase from the Government Store and beg to thank you for the same

With respect to the Shingles alluded to in Mr Longden's Note of the 16th I fear they are beyond my means and therefore with many thanks decline availing myself of your Exy's offer permitting me to purchase them
