

\*: Super y<sup>e</sup> suggestion of 8 hours on duty - giving one man available - 10pm to 6 am 6am to 2 pm 2pm to 10 pm - I think we shall have to relieve myself but the present standard the D.S. C. see this & write.

Scheme submitted to His Excellency The Governor for the reorganization of Police Duty

Number of Constables to be four  
Constables to be employed on police duty only.  
To be allowed free quarters as under present system, with an addition, to their present salary of £5.00 per month, in lieu of the money they are allowed to earn while off duty

"The hours of duty being at present twenty-four consecutive hours for each man is much too long and prejudicial to its due performance

- 5. Relief could be arranged as follows
  - 1<sup>st</sup> Relief 10 pm to 6 am
  - 2 --- 6 am to 12 noon
  - 3 --- 12 noon to 4 pm
  - 4 --- 4 pm to 8 pm
  - 1<sup>st</sup> --- 8 pm to 10 pm

Three men on duty eight hours each the fourth to be available for other duties.

For Customs duty two men would be required to be appointed to do duty occasionally, at daily wages

AGENT FOR LLOYD'S.

Stanley, 9<sup>th</sup> June, 1891.

Dear Sanguinetti,

With reference to the  
enclosed letter, the only answer I  
can suggest is that the decrease in the  
Export of Hides from these Islands is  
explained by the fact that the wild cattle  
have been almost entirely killed off.

Of course no Hides are exported to any  
other country than England.

As to the Breed of cattle existing on  
the Falklands, I should say that it is a  
decidedly mongrel one & that probably

SUBJECT

Hides

Dear Sir,  
Hides  
Falkland Isles.

Quand No 167 et 10. 5. 91

We notice in the Consular Reports for the year 1889 that the Export of Hides from the Falkland Isles had very much decreased in quantity.

Would you be kind enough to inform us the reason of this decrease, & whether the Hides are being exported to any country other than Great Britain.

Could you also kindly tell us what breed of Cattle exists on the Falkland Isles & whether you know of any precisely similar breed existing in any other country.

We require this information for the

reason that the Falkland Isles Hides, as we used to buy them in large quantities were exactly adapted to our requirements & we are anxious to find, if possible, a further supply in the event of our being unable to purchase them in quantities from the Falkland Isles.

We are

Yours respectfully  
R. J. Pullman

We refer only to ox and Cow hides.

A. & C. A. Acknowledge the letter and say that it should have been  
 addressed through, directly and not the private secretary - and that effort  
 further from their letter, what information they have or have not obtained  
 Morris - That whilst thanking them for endeavoring to obtain information  
 for the Government - I have taken such steps as I have thought advisable  
 all the arrangements. And after consultation with the pilot, who would be  
 supposed to be acquainted with the actual matters at issue. The letter  
 myself can be sent to the Government.

282

W. H. W. 10/6.

Stanley

June 10. 1891

Sir

By order of the Government

10. 6. 91.

We have the honor to report  
 for the information of His Excellency  
 that we have heard reports of the ship  
 which Wilmer was placed on the 7<sup>th</sup>  
 constant being short handed &c.  
 that in consequence we questioned  
 Morris, the sailor who put Wilmer on board.  
 that Morris was not straight-forward,  
 contradicted his self and acted rudely.  
 that as the American Consul is prepared  
 to employ men to assist the ship, we most  
 respectfully suggest that His Excellency  
 should send out the "Hedarsah" without  
 delay.

We have the honor to be

Sir

your obedient servants

The Honble J. Shedden Esq. (Cape Horn)

Dear Sir,

I am sorry to have to acquaint you that we have had another boat accident here by which my Carpenter here, James Hubbard has lost his life. I was not at home when the accident is supposed to have happened, but shortly after my return home, the Third Officer of the Barque 'Heugisch' came to my house, and informed me that Hubbard was lost. I beg to enclose Mr. Graham's statement, I do not know why he left his work and went on board of the 'Heugisch' he certainly had no business to be there, I and some of the men here went around the beaches with lanterns last night (June 6<sup>th</sup>) but we found nothing. The dinghey in which he went on board the 'Heugisch', and out of which he must have been lost, belongs to me, and is a very good and safe boat, it was found some distance to leeward of the jetty here by

James W. B. 6 91.

the beaver William Selmer. one paddle seemed to have been carefully placed across the thwarts in the centre of the boat, the other paddle was amissing, but we afterwards found it on the beach near the jetty, by about three hundred yards from the boat, where the boat was found is quite half a mile to seaward of the landing place for which Hubbard was trying to make, He was an excellent hand in a boat, but unfortunately it seems that, according to Mr Graham's statement, he was the worse of drink which no doubt was the cause of the accident, It is supposed that he must have laid one paddle down in the boat and that he must have tried to scull the boat with the other and over balanced himself, and so have fallen overboard, taking the paddle which we found on the beach with him,

We were dragging the Harbour to try and find his body today, but were unsuccessful, should we find the body I will at once inform you

I am  
Dear Sir,

Yours truly  
J. Keith Cameron,

Statement of Mr Graham 3<sup>d</sup> Officer  
of "Henzish"

Hubbard went on board "Henzish" at  
9 o'clock on Saturday June 6<sup>th</sup>.

He stayed on board until dinner  
time, and had dinner on board.

After dinner he went on shore  
with Captain Fish, and then stayed

Came back on board again with  
Captain Fish about 1.30 P.M.

He seemed to be the worse of  
drunk. He stayed on board until  
4 o'clock P.M. then he went away

in Dinghey over to Bonnie's  
side. he then pulled back  
alongside of ship, spoke to  
Captain Fish, left the ship

and went in to the inner

harbour,

The Steward and I came on shore  
to get some vegetables which  
Hubbard had promised to send.  
That was about 6.30 O'clock P.M.  
and on going to his house found  
that he had not arrived. ~~we went~~

J. V. Graham.

Stanley  
11<sup>th</sup> June 1891

To the Honorable  
The Actg Col Secretary  
+                    +                    +

At the request of His  
Excellency the Governor I have the  
honor to forward a brief record  
of my services whilst employed  
under this Colonial Government.

I have the honor to be  
Sir  
Your most obedient servant  
William Conlon

William Coulson joined the Colonial Government Schooner "Foam" running the mails between Stanley and Montevideo in February 1864 as 2<sup>nd</sup> Mate continued until July 1866 when he left to work on shore for the Government under directions of the Harbour Master and Surveyor General until 1867.

He then went into the employment of the Rev<sup>d</sup> C Bull Colonial Chaplain then acting Administrator under the Crown to the Estate of J. N. Goss deceased principally in charge of the Schooner "Sophy" until October 1869 when he was again engaged by the Colonial Government as Office Keeper and Messenger from which time has never been absent from those duties.

He has served under Governor Mackenzie R.N. Sir J<sup>m</sup> C F Robinson K.C.M.G., Colonel G.A.K D'Orey, Governor Callaghan C.M.G., Governor Kerr C.M.G., Governor Barkly C.M.G. and now under His Excellency Sir Roger J Goldsworthy K.C.M.G., also under the following Administrators Messrs Bailey Packer Brooks & Sanguinetti.

William Coulson was placed by Governor Kerr C.M.G. under orders to assist H F Blissett Esq C.M.G. in clearing up the confusion of accounts left by the late Mr Collins and received the thanks of His Excellency in the appended testimonial.

His

His Services other than those of  
Office Keeper and Messenger have been  
various but principally in connection  
with the Post Office and upon  
Application in 1889 he received a  
rise in Salary of £10 as Sorter in  
the Post Office.

Sir

I have the honour to forward  
for His Excellency's information  
a copy of the minutes of the  
Board of Health Meeting  
held at the Court House Stanley  
May 26<sup>th</sup>,

The Hon<sup>ble</sup>  
The Colonial Secy

I have the honour to be

Sir

Your obedient servant

S. Hamilton

President of Board of Health.

I trust you made a distinctly understood that I did not wish any steps taken against Messrs. Sulliman & Williams on this occasion as I considered that the Govt. were in a measure to blame for allowing their drains to get out of repair - I also suggested that their gentlemen should be written to, saying that their cases would not be pressed for the above reason, but that when the Govt. drains were in order that they <sup>gentlemen</sup> would be held responsible if the existing state of things continued.

P. G. 3. 6. 91

President of Board of Health.

For your information and guidance,

P. G. 3. 6. 91

Minutes of a Meeting of the  
Board of Health of the Falkland  
Islands held on May 26<sup>th</sup> 1891.

Present The Hon<sup>ble</sup> The Colonial <sup>President</sup> Surgeon  
" " J. J. Felton  
The Rev<sup>d</sup> Father O'Grady  
The Chief Constable Inspector of Nuisances

The President read a letter he had received from the Inspector of Nuisances reporting upon various defective drains and premises in the Settlement. He then reported separately upon each case to the Board.

The two following letters from Messrs Lellman and John Van Harten were also read.

Stanley  
May 25<sup>th</sup> 1891

Dr. S. Hamilton

President Board of Health

Honoured Sir,

I have been threatened by the Inspector of Nuisances with Summary proceedings in respect of a hole lying in front of my premises into which my drain leads. Nothing of an offensive nature goes through this drain only surface drainage of my ground and soapuds.

In

In the year 1884 I purchased my land direct from the Crown at the rate of £200 per acre and my Deeds state distinctly that I am bounded on the North by John Street during the erection of my building and while considering drainage of same His Excellency Governor Kerr requested me to take up the road and lead my drain to this same hole and build it large so that Government might make use of it at any further time.

This drain in question was built at my expense (in fact the whole road to the extension of my premises was made at my expense) and almost under Governor Kerr's supervision.

Since the Government has used this drain and is still using it in letting a great part of the water of the Barrack Road run through it into this obnoxious hole.

The same hole being surrounded by high ground will always be a swamp unless some escape is effected at the North end of same.

The definition of the word Street I leave to the Members of your Honourable Board.

I have the honour to be  
your obedient servant  
Joseph Lellman

Port-Stanley, Falkland Isds

May 26<sup>th</sup> 1891

To the President of the Board  
of Health.

Sir,

Having been notified by the Inspector of Nuisances concerning the premises occupied by the Crew of the "Peronelle", I have to state that drainage from the paddocks of the Falkland Islands Company causes much of the unsightly appearance in rear of the said premises and during the Administration of His Majesty's Esq workmen were allowed to excavate in front of the same by whom the drain in front was destroyed so leaving the place in a filthy condition for neither of which do I consider myself responsible as a complete drain was originally there conveying all impure matter to the beach.

At the East end of Crozier Place those premises occupied by Mr. Brown at their west corner is a swamp on Government ground for which I cannot be held responsible as it is a natural swamp which Government has never tried to clear, but which if once put in good order will use my endeavours to keep so.

J

I have the honour to be  
Sir

Your obedient servant  
John Von Harten  
for Charles Williams

The President said His Excellency  
had been around with himself and  
Father D'Grady and had made himself  
aware of the defects mentioned and  
the Board would do nothing in these  
matters for the present.

The papers were ordered to be  
on the table.

The Board then adjourned.

J. Hamilton  
President

310  
Stanley 14<sup>th</sup> June 1891

To His Excellency,  
Sir Roger Tuckfield Goldsworthy,  
K.C.M.G.

May it please your Excellency:

The undersigned begs to acknowledge the receipt of £2. from Father O'Grady Cath. Priest, the generous donation of your Excellency towards providing music for the Catholic Church here.

As the representative of the Choir there of, I thereby wish to express my personal thanks, and convey to your Excellency, at their request, the gratitude and deep sense of appreciation of my fellow-members for this act of kindness on your part - which reveals to us sentiments, that we most gladly and proudly recognise, sentiments truly worthy of you as Governor of this Colony, and which are bound to secure you the lasting affection and attachment of the Colonists at large.

It is most gratifying, and encouraging to feel, as we do, that Divine Providence has sent us in your person, as the Guide of our social destiny, a noble heart which has already given proof of being gifted with those excellent, praiseworthy, superior qualities of mind and heart, which are the portion of the privileged few, and which when combined in the person of one filling so

So high a dignity as yours, and productive of the most happy results. Foremost amongst these rare virtuous qualities it is our good fortune to notice impartiality, and paternal interest in, all classes of the Community, irrespective of religious persuasions.

May Almighty God bless you abundantly and grant you many long years of happiness to enjoy the fruits of your labours for the well being of the inhabitants of these Islands and the great and splendid success which we are all sure will attend your exertions in this respect — if we may only judge from your happy beginning.

With the renewed thanks of the Choir and myself, I beg you accept our hearty assurance that we will use our utmost efforts to merit your future notice and continued benevolence, as well as the flattering opinion which — as Mr. O. Grady informs us — you are pleased to entertain of Catholic Choirs in other places.

I beg to remain Your Excellency's  
Most Obedt. & Humble Servant  
Ellen Biggs.

I hope you will excuse my not writing earlier, several successive days' Illness prevented my doing so.  
E. B.

Sir Roger Luckfield Goldsworthy  
H. C. M. G.

May it please Your Excellency:

I am about asking you for a slight favour which, I feel sure, your kind, compassionate, paternal heart will concede with pleasure.

You are aware, as you have been pleased to observe to me, that my poor sheep (allegorice loquendo) have rather a rough track leading to their corral or fold (symbolic). Consequently plaintive, half-suppressed utterances, especially from the tenderer portion of the little flock, occasionally reach my ears and my heart, and affect me not a little. I would gladly relieve the poor sufferers if it were in my power. But what I can't do in this respect, you can easily, and I feel confident that you will too, for these sheep are also yours, and I do sincerely hope they will prove not the least worthy, faithful and grateful — if only for the very great kindness hitherto shown to them in the person of their humble pastor (in particular) by your Excellency.

Let me have your hand-roller please,  
 as soon as convenient, and 3 carts more  
 of sand, for the one which has been sent  
 by Mr Turner is quite insufficient for the  
 work you so kindly suggested should  
 be done. They, having smoothed  
 the way — would it were to the celestial  
 regions! — I hope it will soon be my  
 pleasing lot to hear instead of gentle  
 --- moans from tender-footed sheep,  
 hearty exclamations of

"Long live our most Excellent  
 Governor!"

Please to excuse my trespassing on  
 your precious time for such a  
 trifle, and believe me  
 With respectful regards to  
 Lady Goldsworthy

Your most obed. & humble Servt.

J. J. O'Grady  
 Cath. Priest.

Se.

Se.

Se.

Stanley, June 17<sup>th</sup> 1891.

May it please your Excellency,

By trying to remember the substance of your conversation with me on Monday June 16<sup>th</sup> I am for that you promised if I were convicted by the Magistrate for the offence for which the summons was issued against me you would let me off as I had already apologised to Paul (two days previous to information having been laid against me) & having accepted my apology - also as I had assured your Excellency that I had not had the remotest intention or desire of showing any disrespect to you or yourself. I write now lest there should be any misunderstanding as to present (later on) your Excellency thinking I had not been straightforward

Nearly all the time I have been in Stanley I have been a Sunday school teacher & have otherwise identified myself with religious movements etc. Your Excellency will perceive that if I am forced to appear in the Prisoner's dock to answer a charge of breaking the law - the indignity to which I am put will be greater to me than to one who has not so identified himself - In fact to speak straightforwardly I would not after such an indignity being put upon me (for such a trivial matter) thank your Excellency (I speak with all respect) for such consideration

I feel convinced that no jury after hearing my explanation of the matter will find me guilty of breaking the law

My conscience does not accuse me of breaking the law  
& I fear that an appeal to a Jury for such a trivial  
offence as I committed would engender feelings  
amongst us which Your Excellency on Monday  
last counselled me to avoid engendering.

I therefore humbly hope that Your Excellency  
may be pleased to order that the charge be withdrawn  
seeing that I have done what I could to make  
amends for what I did.

Paul expressed himself as perfectly satisfied last  
Saturday - & I again reiterate that no thought of  
offence to Your Excellency entered my head -  
indeed it is a fact that previously to last Sunday  
evening I was not aware that you had ever expressed  
any desire for what Paul suggested - I simply  
thought it was a notion that came into his head  
in connection with the Rifle Club.

With greatest respect & submission,

I have the honour to be ma

Your Excellency

answered 317  
23<sup>rd</sup> June

Stanley June 22<sup>nd</sup> 1891.

Your Excellency.

I have taken the liberty of forwarding the enclosed unsolicited and unsuspected evidence on the Land question which might be useful ~~to~~ in considering that subject.

The unprompted statement of the two men at Port San Carlos (from Port Howard N. F.) will furnish Your Excellency with a fact as to how Captain Packer has utilised the large blocks of land he has leased from the Government to the exclusion of industrious emigrants & others born in the place -

The writer my second son Frank O. Lewis was born in Stanley and the Colonial Chaplain Rev. C. Bull informed us at his birth that Frank made exactly the 800<sup>th</sup> islander. He has learned as best he could carpentering & has had gained by practice in each department a knowledge of the management of a sheep-farm - yet he and such as he will perforce have to emigrate from this Colony & go to Chile or Argentina unless Your Excellency succeeds in the noble cause you have embarked in.

F. O. Lewis made an application to the Government a short time ago for one section of land but to no purpose and that while (as the Port Howard men state) a block of land that would carry eighteen thousand sheep was stocked with only 400 and those few for years running with wool dragging the ground.

There is at the present time a visitor at my house awaiting the Mail a Mr. Poppy - he emigrated from here to Patagonia & has a share in a small farm at Santa Cruz - He would be pleased to afford any information Your Excellency requested as to

farming in Patagonia etc. He also has some  
knowledge of the "Truck system" in the Falkland  
Islands & from his position independent of  
the Falkland farmers not afraid to tell what he  
knows. He would see Your Excellency if agreeable  
& convenient to you this afternoon

I have the honour to be  
Your Excellency  
Your most obedient servant  
James Lewis.

 His Excellency

The Governor of Port Stanley

The British Steam ship "Waudle"  
 of London under my command  
 arrived in this Port on the 21<sup>st</sup> inst  
 @ 2 Pm

At 10.30 am of the 22<sup>nd</sup> I personally  
 appeared before you delivered the Ships  
 papers and answered all questions  
 put to me - The above ship sailed  
 from the port of Antwerp on the 4<sup>th</sup> of  
 May 1891 and was duly cleared at  
 that Port as per Customs the papers  
 being all in perfect order

Having a quantity of Coals for sale  
 also requiring provisions I called  
 at this Port

On presenting ships Papers to you  
 Personally you inform me the above  
 ship is placed under arrest without  
 giving me any reasons for so doing

I now therefor must  
Protest against the proceedings

Recd No 173 dt 23. 6. 91

you have thought fit to talk  
 And beg you will favour me  
 by giving the necessary information  
 On what grounds you  
 detain a British ship with clean  
Papers

I beg to notify that the  
 aforesaid "Wardle" is now ready  
 for sea it now being noon of  
 the 22<sup>nd</sup> inst

And further I may mention for  
 your guidance that the ships  
 expenses amount to £ 40 per day  
 it is also possible that it may  
 amount to far more

I beg to remain

Sir I have the honor to acknowledge the receipt of yr letter of the 22<sup>nd</sup> instant and by direction of H. S. the Governor to inform you that in the first place yr answers to questions put by the Inspectors <sup>on the 22<sup>nd</sup> inst</sup> were not satisfactory and that under these circumstances yr ships papers were detained for a reasonable time to enable enquiries to be made

Secondly ~~that~~ yr statement that on previous occasions ~~the~~ <sup>the</sup> Governor <sup>has</sup> <sup>never</sup> <sup>stated</sup> <sup>in</sup> <sup>any</sup> <sup>form</sup> <sup>that</sup> <sup>he</sup> <sup>should</sup> <sup>detain</sup> <sup>the</sup> <sup>ships</sup> <sup>papers</sup> <sup>for</sup> <sup>security</sup> as there were suspicious circumstances connected with yr arrival - but the word "arrest" was never used.

I may however inform you that a ~~summons~~ <sup>summons</sup> has been ~~issued~~ <sup>issued</sup> for proceedings are now pending ag<sup>t</sup> you for an infraction of the Mercantile Shipping Act 1876 and that therefore until some order has been heard <sup>from</sup> the court yr <sup>ships</sup> papers must be detained.

I have etc.

Received June 25<sup>th</sup>

Port Stanley June 24<sup>th</sup> 1891

My dear General

Anticipating that should your Excellency's most desirable scheme of readjustment of allotments of land in this Colony for the further provision of Colonists be carried out certain portions will be at the disposal of the Government for eligible applicants - and I venture in applying for an allotment on that piece of land marked on the Chart as "Government Reserve" at the SE head of Salvoadore - I am prepared to give £35 per annum or whatever the Government shall deem to be a just rental - I have applied for this piece of land as it certainly in the first instance could not have been reckoned on by surrounding farmers - therefore there would be less apparent hardships in yielding up that which was not in the original leases - moreover no great expense if any can have been incurred on it - and further more being situated at the extreme eastern limit of the land occupied by Mr. J. Felton would be farthest away from his homestead -

The land I apply for is between the "Arroyamalo" and "Teal Inlet" My application for one section has been lying in Goot Office together with applications from

William J. Lewis and also Frank Ooshooia Lewis  
for years - I petitioned the home Government on the  
matter but without any practical result.

Hoping my application may be allowed  
to hold good should His Excellency succeed in  
your laudable efforts for bettering the position  
of, & retaining, the Colonists in this Colony  
I have the honour to be, Sir,  
Your Excellency's

Your most obedient servant,  
James Lewis

3. I much regret  
to be obliged therefore  
to return to you Mr.  
Michael's letter - but  
I am sure that Mr. E. will  
be glad to consider any  
communications from Mr.  
Michael addressed through  
Self as representative of the  
F. I. Corp<sup>y</sup> - if the same  
be couched in terms customary  
in official correspondence.

Agreed with the addition made by

myself

P.S. 29.6.91

H. C. The Governor

Submitted.

4. 7. 91.

W. C. A. Acknowledges Mr. Baillou's  
letter and enclosure and says that  
what has been used in the letter  
will receive due consideration -  
I have numbered the paragraphs  
in relation for which will propose  
to enter into a discussion on the enclosure  
from Mr. Nichol - There are one or  
two points on which perhaps it may be  
desirable to touch and the Passes being  
mentioned will render <sup>presumably</sup> ~~reference~~ ~~to~~ ~~the~~ ~~same~~ ~~points~~ ~~as~~ ~~in~~ ~~the~~ ~~enclosure~~ ~~from~~ ~~Mr.~~ ~~Nichol~~ ~~in~~ ~~the~~ ~~letter~~ ~~of~~ ~~the~~ ~~21st~~ ~~of~~ ~~the~~ ~~10th~~ ~~of~~ ~~1882~~ - The  
wording as he has it - runs "The leave  
leave to be granted x x" let him  
add after the words leave "(of any  
as in the Ordinance and the fruits  
of leave is not so apparent as he  
makes out - Sec 3 of the same Ord.  
deals with the compensation to be made <sup>to the same</sup> ~~to be made~~,"  
if it is considered advisable to do  
the same at the expiration of the leave

En passant I would remark that  
 Accuracy in quoting figures and  
 facts is very necessary to enable a  
 Governor to come to an equitable  
 decision -

In Para 2. Mr. Nichol says "Clamorers"  
 "for a share in the land are raised by"  
 "me in or" Quite so!! and  
 this for this very reason because those  
 who are clamorous and believing as  
 I do that they are right in their con-  
 -fession ~~that~~ I am anxious for a survey  
 as it will then be settled without the  
 shadow of a doubt whether there are  
 surplus lands available -

The following figures may prove  
 useful.

The entire household country land  
 inclusive of 7,411. unoccupied lots of  
 1,587,106 acres - ~~which~~ if these  
 be added 780,488 - 2 - 34 the farms  
 and household lands of the Colony will  
 be found to amount to 2,367,594 - 2 - 34  
 acres - Now the area of the Colony,  
 exclusive of Georgia, was computed by  
 Col. Moody - R. E. at 4,659,969 acres  
 i. e. nearly 6500 sq. miles - so that there  
 would remain 1,792,374 - 1 - 6  
 acres unaccounted for.

. 2

3

In Para 3. I observe that Mr. Nichol repeats a hearsay remark which I have already contradicted - what I did say and I now repeat it - <sup>was the</sup> his honourable man would wish to keep quiet to which he was not entitled. I therefore cannot see why a survey should be objected to -

In Para 5. Mr. Nichol suggests the estimating the areas in a chart. This was I presume done leaving a large & capricious allowance for mountains & ponds - and hence the need of a survey now -

If His Excellency cannot mean that "the settlers and the government of the day entered into a conspiracy to make" "state the increase of the leases to be" why suggest such an idea - surely such a supposition, if correct, would be equally derogatory to the Govt. and the settlers -

No. 7. In other words defer the question of the "small men" leaving land till the Greek-Calendar & however, <sup>with</sup> a large farmer holding a brief for the "small men" one could scarcely expect otherwise

appt. by me to consider this very  
important question -

Robert Smith: Treasurer

~~1877~~  
7.7.91

*[Faint, mostly illegible handwriting in red and black ink, likely bleed-through from the reverse side of the page.]*

Corporation of the  
Fatheland Islands Co.

Darwin Harbour June 22<sup>nd</sup> 1891

My dear Bailton

Your letter of the 18<sup>th</sup> Inst.

received.

1. I know very little about the history of the land question - beyond what may be gathered from the different Ordinances; but it is worth remarking that the Government has always acted on the principle of giving the lessee security of tenure. In section 2 of Ordinance 9 of 182 it says: "xx the new lease to be granted xx to the former lessee" and in the earlier Ordinance of 171 there is a clause to the same effect. In other words the Government held out a prospect of security of tenure to induce farmers - by no means an easy matter - to take up cattle on the land.

2. The land at any rate was taken up, and the lessees after years of hardship & hard work have, (some of them, by no means all) done

2.

fairly well out of their farms. Now, when the hardest pioneering work is done and the fact demonstrated that some profit may be got out of the waste lands, clamours for "a share in the land" are raised by men, who, in many cases, had they been enterprising enough, might have leased as much land as they liked in the old days, & who, now, prefer to ignore the fact that they might get what they want, honestly, if they chose, by purchase. The pretext advanced is, that the areas of the leases have been underestimated & the clamourers are demanding that the surplus should be handed over to them.

3 This Excellency the Governor has told the Settlers that he believes that their leases are underestimated by about 1/7<sup>th</sup> and that in his opinion, they are bound as men of honour to petition for a survey, to discover the exact acreage, & to hand over the surplus to the Government for the benefit of a class of present proprietors.

4 I know nothing about the facts connected with the original estimates of the areas of

3. the leases - neither have I the necessary <sup>334</sup> data here, to discover, by measuring on a chart, if the areas are, or are not underestimated. I have always understood though that the boundaries were arranged and the areas estimated by Surveyors and it appears to me to be incredible that a surveyor should have laid out boundaries in nautical miles and estimated the areas of the leases as if the nautical miles were statute miles.

5 Of course a survey of the land is not necessary to discover if the areas have or have not been underestimated. The coast line is accurate enough and the boundaries of the leases laid down on the chart. The areas of the leases might be estimated on a chart in a week for £5 - while a land-survey might take years and needlessly cost the Colony £5,000. I cannot understand how the honour of the Settlers is implicated one way or the other in this question. His Excellency cannot mean that the Settlers and the Government

of the day, entered into a conspiracy to understate the acreages of the leases for the benefit of the settlers' pockets & to the detriment of the revenue of the Colony!

6 There are three things to be considered in connection with the project for confiscating part of the land at present held by the settlers & planting small farmers on it: how will the Colony be affected? how will the lessees be affected? and how will the small farmers get on?

7 I suppose nobody who knows anything about the matter will expect the Colony to be affected for the better. The land will only carry a certain number of sheep, whom now owns it, & the present lessees' stock will have to be reduced in proportion as their land is taken away. The multiplication of owners, especially of small farmers, would certainly mean the perpetuation of Seat. If I held a brief for the "small men", I certainly would not dream of bringing forward their "claims" before Seat was eradicated. Personally, I cannot see how

5. 335

a small farm is to be profitably worked. Fencing would cost something (although in equity the small farmer should pay the whole cost of the fence, as, of course, if he were not there a fence would not be wanted round his holding) still I suppose the original lessees will not only have to find the land, but also the capital for the erection of the fence + half the interest on it - The cost of the management of a farm may be said to be proportionally greater, the fewer sheep there are on it. In fact it may be fairly laid down as a principle that South of the corn-growing latitudes, there is no chance for peasant-proprietors - The land is not good enough to carry them - The sooner it is recognized, that, while the Colony offers a good living and the means of saving money to a steady working man, it does not afford him the means of making a fortune, the better it will be for the place -

8 I think I have said enough to show you how deeply the interests of the farmer

are affected by the proposals of the Government.  
Surely the Government will not lightly take  
a step, which is far more likely to ruin  
both the present lessees & their successors,  
than benefit the latter. There is no doubt  
that if the chance were given to them  
any amount of so called practical men  
could be found, who would be foolish enough  
to leave good employment and <sup>- to settle -</sup> settle on  
small farms - but that is a phenomenon  
that I have seen over & over again in  
Australia; it simply means that men of  
that class do not make calculations and  
are attracted by the bait of being their own  
masters.

9 There is another point which should be  
pressed upon the Government - Are they not  
in honour bound to treat to ~~deal~~ deal with  
common fairness the present lessees - certainly  
the men who have made the Falklands as  
prosperous as they are to-day - It is  
proposed to oust them of their ~~lands~~  
lands on the ground that the areas of  
their leases are underestimated. Even if

336  
that proves to be <sup>7</sup> the case, it is the Government who is responsible for the estimates; yet it is proposed to punish the lessees for a mistake, which, if made, the Government has made itself.

10 It is a great pity that the Government should be possessed with the erroneous idea that the sheepfarming industry is such a prosperous one. The industry as I have said before, is certainly not strong enough to stand such an experiment as the one His Excellency is proposing to try. In sheepfarming countries it is considered an axiom that a farm infected with Scab will not pay, and unfortunately that disease is only too general in the Fellslands.

11 Of course the object of good government is to promote the prosperity of the Colony in general and not to attempt to bolster up one class at the expense of another. I wish that the present Government could be induced to see that their best policy to promote the prosperity of the

8.

Colony in general, would be to forward  
legislation that would efficiently, but  
inexpensively, deal with Seal.

Love, My dear Baillon

Yrs truly  
Robert Nichol
