TAKING in consideration that the industry of the fishery of seals or sea-dogs, otters, and "chungungos" can constitute a considerable source of wealth on the coasts of the Archipelago of Chiloe, Territory of Magallanes, and Islands of Juan Fernandez, if its exercise be suspended by a temporary prohibition so as to provide for the propagation of these species, which are almost extinct owing to the immoderate manner in which they have been pursued;

At a Meeting of the LEGISLATIVE COUNCIL held at Government House on Wednesday, the 28th day of December, 1892.

Present: His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor
(President).

Hon. R. M. Routledge, Colonial Secretary.
Hon. C. A. Fraser, Colonial Treasurer.
Hon. S. Hamilton, Colonial Surgeon.
Hon. A. E. Baillon.
Hon. J. J. Felton.

The minutes of the previous Meeting were read and confirmed.

His Excellency drew attention to the difference between the Bill entitled "An Ordinance to make further provision for the Postal Service of this Colony," as Gazetted, and that now laid before the Council.

The Colonial Treasurer, as Postmaster, took charge of the Bill and, in moving the Second reading and consideration in Committee, explained that it was intended to provide for the regularity and uniformity of the postal system, wherever possible, throughout the Islands.

The Colonial Secretary seconded and the Bill was read a second time.

The Council then resolved itself into Committee.

The following amendments were agreed to:—

In line 3, after the word "transmitted," the words "by vessel" were added, as the unofficial members considered that as at present drafted much inconvenience would be caused if communication with certain ports, such as Port Howard or San Carlos, could only be carried on through Port Stanley.

In line 8, after the word "same" the words "make such appointments and frame such Rules and Regulations as may be necessary for the carrying out such postal communication" were added.

Clause 2. Some discussion as to the time of delivery and despatch of postal matter took place on the reading of this clause. It was eventually agreed that that was a matter which should be dealt with by the Governor in Council as he should deem fit under Clause 1.

In line 5, the word "six" was inserted before the word "ounces."

Clause 3. After the word "letter" in line 2, the following words were added in parenthesis "except letters relating to the vessel and cargo or bills of lading." and in line 3 the words in parenthesis "except such as relate to the vessel or cargo" were deleted.

Clause 4, line 5. The words "the sum of" were struck out and the words "one half the rate of postage" inserted in lieu thereof; and in line 6 the words "the sum of for every" were struck out. In line 9, after the word "penalty" the words "not exceeding five pounds" were inserted.

Clause 5, line 3. The words "five pounds" were inserted after the word "exceeding."

Clause 6, line 7. The words "twenty pounds" were inserted after the word "exceeding."

The Council resumed its sitting.

The Colonial Treasurer gave notice that at the next meeting of the Council he would move the Third reading and passing of the Bill.

The Colonial Secretary moved the introduction and First reading of a Bill entitled "An Ordinance to provide for the appointment of Visiting Justices for the Gaol in Stanley." The Colonial Surgeon seconded and the Bill was read by title.

The Standing Orders were suspended with a view to the Bill going through its various stages.

The Colonial Secretary in moving the Second reading explained that the Bill had been brought forward in accordance with instructions received from the Secretary of State. The Honourable the Colonial Surgeon seconded and with the omission in Clause 1, agreed to in Committee, of the words "for the proper management of the Gaol" which had been unintentionally inserted and if retained, as pointed out by His Excellency, might be assumed to give powers to the Visiting Justices over the Colonial Secretary, the Bill went through its Second and Third reading and was passed.

(To be continued).

The following list of Persons between the ages of Twenty-one and Sixty years resident in the Falkland Islands who are liable to be called to serve as Jurors from the First day of January One-thousand-eight-hundred and ninety-three to the Fourteenth day of January One-thousand-eight-hundred and ninety-four, is published in accordance with clause 3, of Ordinance 6 of 1882.

Any objections thereto are to be made in writing to the Police Magistrate within fourteen days from this date.

Stanley,
29th December, 1892.

By Command.

R. M. ROUTLEDGE,
Police Magistrate.

(Continued from last week's Gazette).

The Honourable the Colonial Secretary moved the Introduction and First reading of "the Pound Ordinance."

The Honourable J. J. Felton agreed that a tax should be levied on animals grazing on the Commonage immediately the fence dividing the Commonage from Mr. Dettleff's was completed, but asked that the provisions of the Bill, inflicting penalties for animals wandering in the town and the impounding thereof, might be held in abeyance until the fence round the town is erected, as the Commonage would not produce sufficient food for the animals until next spring, which would naturally drive them into the Settlement in search of food.

After some discussion His Excellency replied that Mr. Dettleff's fence was already nearly finished, and as all sheep-stock will be shortly removed from the Commonage, horses and other animals will become accustomed to the Commonage, where there would be grazing for them before the fall of the year. His Excellency however expressed himself willing to request the Colonial Secretary, as Legal Adviser, to consider the matter with a view to the Bill being so amended in Committee as to meet the views of the Honourable Member as far as possible.

The Colonial Secretary gave notice that at the next meeting he would move the Second reading and consideration in Committee of an Ordinance entitled "The Pound Ordinance, 1893."

The Council adjourned until 4 a.m., on Thursday, the 29th December, 1892.

The following list of Persons between the ages of Twenty-one and Sixty years resident in the Falkland Islands who are liable to be called to serve as Jurors from the First day of January One-thousand-eight-hundred and ninety-three to the Fourteenth day of January One-thousand eight hundred and ninety-four, is published in accordance with clause 3, of Ordinance 6 of 1889.

Any objections thereto are to be made in writing to the Police Magistrate within fourteen days from this date.

With reference to the notice which appeared in Gazette No. 48, of the 1st December, 1892, relating to the prohibition of seal fishing in Chilian waters, His Excellency directs the publication of a copy of a further correspondence on the subject, which has been received through the Colonial Office.

Mr. Maude to the Earl of Rosebery.—
(Received October 3).

(No. 89).

Santiago, August 25, 1892.

My Lord.

WITH reference to my despatch No. 61 of the 18th June, I have the honour to forward herewith translation of an Ordinance regulating the seal fisheries, which has been published in the Official Gazette.

A supplementary Decree which has just appeared, of which I also inclose a copy, suspends for the period of one year all seal fishery on the coasts therein mentioned.

I have, &c.

Inclosure 2 in No. 3.

Extract from the "Diario Oficial" of August 23, 1892.

(Translation.)

No. 1642.—Santiago, August 20, 1892.

TAKING in consideration that the industry of the fishery of seals or sea-dogs, otters, and "chungungos" can constitute a considerable source of wealth on the coasts of the Archipelago of Chiloe, Territory of Magallanes,

and Islands of Juan Fernandez, if its exercise be suspended by a temporary prohibition so as to provide for the propagation of these species, which are almost extinct owing to the immoderate manner in which they have been pursued ;

Making use of the power with which I am empowered by Article 10 of the Ordinance of the 17th instant, I have agreed and decreed that the fishery of seals or sea-dogs, otters, and "chungungos" be suspended for the period of one year in the regions included in the Maritime Governments of Chiloe and Magallanes, and on the coasts of the Islands of Juan Fernandez.

(Signed) MONTT.

And it shall be lawful for any one of the Visiting Justices to examine any person touching such offences and to determine thereupon, and to punish such offences by ordering the offender for any time not exceeding three days to close confinement to be kept there upon bread and water.

If any criminal prisoner is guilty of repeated offences against prison discipline, or is guilty of any offence against prison discipline which one Visiting Justice is not empowered by these Regulations to punish, the Gaoler shall report the same to the Visiting Justices, and the Visiting Justices shall have power to enquire upon oath and to determine concerning any matter so reported to them, and to order the offender to be punished by confinement in a punishment cell for any term not exceeding one month, or in the case of prisoners convicted of felony or sentenced to hard labour by personal correction not exceeding 36 lashes, in the case of prisoners over 18, and half that number of strokes with a birch when the prisoner is 18 years of age or under.

ROYAL ORDER.

Sir,

In reply to the Royal Order which your Excellency was good enough to address to me asking my opinion on the question whether, in virtue of international arrangements, the Island of Newfoundland and the Coast of Labrador have a right to the enjoyment of the benefits of the Second Column of the present tariff as being British Possessions.

His Majesty the King (whom God preserve!), and in his name the Queen Regent has been pleased to direct that your Office be informed that it would not be reasonable to refuse to the British Colonies the same Commercial treatment that is conceded to the Mother Country, seeing that England concedes the same commercial treatment to Spanish Colonies as to Spain, and that it must be in consequence of an unintentional omission that this is not stated in the Royal Order of the 29th June.

By Royal Order, communicated to me by the Minister of State, I acquaint your Excellency with this for your information, and to enable you to give any necessary orders in the direction indicated to the Custom Houses of the Peninsula and the adjacent Islands.

This is published in the "Boletin" for the information of the Custom Houses, in order that the treatment of the Second Column of the present Tariff may be conceded to products of British Possessions, as provided in the preceding Royal Order.

God preserve you many years!

On behalf of the gentlemen whose signatures are appended to the enclosed documents, I have the honour to request that you will be good enough to tender to His Excellency the Governor their resignations as Justices of the Peace, and further to ask His Excellency to be kind enough to cause the same to be published in the Falkland Islands Gazette in due course.

Sir,

We, the undersigned, have the honour to request that you will kindly inform His Excellency the Governor that, having lost all confidence in him as Governor of these Islands, and in his ability to understand the equitable rights of the Settlers,—men who have, in many cases, given the best part of their lives and

sunk their fortunes in building up a small, though hitherto prosperous Colony, we hereby tender our resignations as Justices of the Peace, and hope that our names will be removed from the Commission as soon as possible.

Stanley, 14th July, 1893.

Sir,

I have the honour, by command of the Governor, to acknowledge the receipt through the Colonial Secretary, of your letter of the 10th January, forwarding communications from certain Justices of the Peace of the East and West Falklands, (in which former your signature appears) tendering their resignations of their positions as Justices.

Firstly. The Governor in Council is desirous of pointing out that the Governor is unable to accept a tender of resignation of these Justices *en bloc*, and of reminding you that all applications to resign should be made individually in writing by the Justice immediately concerned, and addressed through the proper channel.

Secondly. The Governor in Council would remind you that all applications should be couched in courteous and respectful terms to the Governor as representing Her Most Gracious Majesty the Queen.

Thirdly. The Governor in Council suggests that Justices holding other offices under the Crown should take into consideration the advisability of resigning such offices, or state the reasons for their not doing so, *i. e.*, if they desire to act consistently.

Fourthly. The Governor in Council cannot but regret that a body of English gentlemen should so far forget their obligations as such, and what is due to Her Majesty's representative as to act as they have done, and he must deprecate most strongly the fact of the agent of a powerful Corporation, such as that of the Falkland Islands Company, not only lending himself to a conspiracy to defeat the conscientious action of the Governor in Council, but even being a party to the discourtesy evinced in the correspondence forwarded through him.

In view of the opinion of the Justices the Governor in Council only feels it right to inform

THE FALKLAND ISLANDS GAZETTE.

you that he has already asked for a Commission of Enquiry on the Land Question, and that the expression of opinion as to his "*ability to understand the equitable right of the settlers*" must tend to His Lordship the Secretary of State acceding to his request.

As the Legal Adviser of the Government considers it doubtful whether the Governor is bound to accept the resignation as tendered, the Council advises that, on the receipt of the individual resignations, in accordance with paragraph 2 of this letter, a new Commission, from which the names of those resigning will be cancelled, will issue, and such Commission, with the correspondence which has taken place, will then be duly published in the Government Gazette.

I have the honour to be,

GOVERNMENT NOTICES.

His Excellency the Administrator directs the publication of the following despatch received from the Right Honourable the Secretary of State.

By His Excellency's Command.

R. M. ROUTLEDGE,

Colonial Secretary.

Stanley, 14th March, 1893.

Downing Street,
3 1st January, 1893.

Copy.

Sir.

With reference to my despatch No. 12 of the 16th instant, I have the honour to convey to you my views upon the proposals for the reservation for sale of certain lands comprised in expired leases which were submitted to me in Sir R. Goldsworthy's despatch No. 127 of the 15th November last and some of which were the subject of correspondence enclosed in his despatch No. 132 of the 28th of November and upon the Memorial of certain leaseholders in the East Falkland Island transmitted with his despatch No. 128 of the 15th of November.

2. I am unable to accede to the contention of the Memorialists that the reservation for the purpose of sale of any of the lands comprised in an expired lease is contrary to the letter or

spirit of the Ordinance—they appear to found this contention on a construction of the Ordinance which would limit the sales contemplated by section 2 to sales for public purposes but such a construction is inconsistent with the 3rd section of the Ordinance which provides for the case of the lessee himself being the purchaser.

3. The Leaseholders also rely on assurances given either explicitly or implicitly by Governor Kerr but any such assurance could not override the provisions of the statute under which it was expressly given.

4. If therefore there is a real demand for the purchase of land in the Colony, I consider it to be the duty of the Government to provide for meeting that demand by putting up for sale a sufficient part of the land comprised in expired leases, but it would not be right or expedient to reserve for the purpose of sale more land than can reasonably be expected to be required to meet the demand, and in selecting the land to be reserved regard should be had to the convenience of occupation of the remainder of the land comprised in the same expired lease or in other leases of adjacent land held by the same lessee.

5. So far as I am able to judge on the information at present before me the area of the land which the Governor and Executive Council propose should be reserved appears to be in excess of any demand then likely to exist and the selection in some cases appears to have been made without sufficient regard to the legitimate interests of the late lessee.

6. This is no doubt partly, if not entirely due, to the view which was adopted by the Governor and Executive Council pending my decision on the point, that land comprised in an expired lease, which before it was leased,

has been treated as a Government reserve must in any case be excluded from the renewed lease. I am advised however that such land when it was leased, ceased to be a Government reserve and that it must be dealt with on the same footing as any other land comprised in a lease.

7. In two instances reservations proposed on the ground that they were formerly Government reserves are mapped out in such a way that they would most injuriously affect the lessees. viz:—two sections leased to Mr. Greenshields, known as Rincon del Moro and the Station leased to Mr. Cameron known as Fannings Head:—in each of these cases, if it should finally be decided to reserve for sale part of the land held by the lessee under his expired leases, some other part should be selected. This was indeed contemplated in Mr. Greenshield's case as stated in paragraph 11 of Sir R. Goldsworthy's despatch No. 127. I enclose an extract from a letter which I have received from Mr. Cameron on the subject of Fanning's Head Station.

8. With regard to paragraph 12 of Sir R. Goldsworthy's despatch No. 127, it is I think quite clear that the expression "within six miles by land" must be construed to include only land which can be reached by land without going more than six miles from Stanley or any township, this construction was adopted by Governor Callaghan and accepted by the Earl of Carnarvon in the correspondence noted in the margin* the question therefore of reserving for sale Kidney Island Station and part of Port Harriet Station must be dealt with on the assumption that they are not suburban but country lands. Captain Packe has strongly objected to the reservation of these stations, and has in a letter, of which I enclose an extract, made a proposal to surrender his leases of certain other stations on the conditions mentioned in his letter—I should wish you to consider this proposal.

9. I do not think it necessary to remark specifically upon any of the other proposed reservations as it would be necessary before I could come to any decision upon them that the several lessees should have an opportunity of making any representations or raising objections affecting the particular properties apart from the general objection which I have overruled to any reservation.

10. I request that you will carefully reconsider the whole question of the reservations—first endeavouring to ascertain the probable demand for the purchase of land by inhabitants of the Colony and then proceeding to select land for reservation for sale in concurrence as far as possible with the former lessees who will I trust on learning my decision assist in giving effect to it by coming to an agreement with the Government as to the land to be reserved for sale.

11. I am taking steps to obtain the services of a surveyor which will be required for surveying the lands to be put up for sale and also for surveying blocks of land which have been compulsorily purchased by lessees under the Ordinances but have not yet been allocated. In the case of expired leases where part of the Station is reserved for sale such blocks should

of course be allocated on the part not so reserved and if the whole station (except the purchased block) is reserved the former lessee should have the option of (1) having the block purchased by him allocated at the extremity of the Station (2) having such block allocated on another Station leased to him or (3) having such block sold with the rest of the reserved Station he joining in the conveyance to the purchaser to the extent of the number of acres which he had compulsorily purchased and receiving a proportionate amount of the purchase money for the whole Station.

12. I do not object to the proposal of the Governor and Executive Council that by the conditions of sale of land reserved from expired leases and put up for sale the purchasers should have the option of paying the purchase money by instalments with interest on the unpaid balances. This proposal follows the precedent set in the case of the large sales to the Falkland Islands Company and others under Ordinance 9 of 1890.

13. It will also be necessary to impose conditions as to fencing the land sold, and I should wish you to consider what such conditions should be.

14. With regard to the difficulty suggested in paragraph 3 of Sir R. Goldsworthy's despatch No. 127 of fixing the rent under a renewed lease if part of the land were reserved for sale and proved on survey to contain a greater acreage than that ascribed in the old lease to the entire station, such a case does not seem likely to arise; as if so large a proportion of the Station were reserved for sale it is scarcely probable that the lessee would care to renew the lease of the remaining portion.

15. It should be understood that if, when land reserved for sale is put up to auction, there is no bidding at or above the upset price, the former lessee will have the option of having a renewed lease of such land as if it had not been reserved for sale.

16. I have carefully considered the reasons stated by the Colonial Secretary for dissenting from the views of the majority of the Executive Council, but I am unable to concur in his views as to either the effect of the Ordinance or the injurious consequences to be apprehended from the sale of comparatively small areas of land; having learnt my views on the general question I have no doubt that he, as well as the other members of the Executive Council, will render you valuable advice and assistance in carrying them into effect.

17. If these questions are, as I trust they will be, approached in a spirit of moderation and conciliation, and with a determination to give full consideration to all reasonable representations, there should be no occasion for so exceptional a course as the appointment of the Special Commission recommended by the majority of the Executive Council.

18. I request that you will communicate a copy of this despatch to the memorialists.

I have the honour to be,

Sir,

Your most obedient,
humble servant,
RIPON.

SAVINGS' BANK REPORT, 1891---2.

Stanley, 16th March, 1893.

Sir,
I have the honour of forwarding for submission to His Excellency the Balance Sheet of the Savings' Bank for 1891---2.

The number of depositors and the amount of deposits have been as follows in the financial years since the opening of the Bank on 1st April, 1888 :—

Year.	No. of Depositors.	Amount of Deposits.		
		£	s.	d.
1888	32	4,201	1	5
1889	100	15,139	4	3
1890	157	17,810	12	2
1891	175	21,627	12	10
1892	196	24,940	9	5

The amount deposited has increased by £3,312 16s. 7d., and the number of depositors by twenty-one. Forty-two depositors have closed their accounts during the year, and sixty-three new accounts have been opened.

The average amount standing to the credit of each account is £127 4s. 11½d., and computing the population of the Colony at 1800, the average savings per head of population is £13 17s. 2d., a result which shows that wages are high and the investment of capital difficult.

The amount of deposits received during the year was £8,112 5s. 3d., and deposits repaid amounted to £5,355 9s. 2d.

The depositors have been credited with £556 0s. 6d. in interest during the year,

On 30th September, 1892, the sum of £20,661 13s. 1d. stood invested on account of the Savings' Bank, leaving a balance of £4,278 16s. 4d. due to the Savings' Bank by the Colonial Treasury. This balance is unduly large and should be decreased by investing a considerable amount as soon as possible.

The income earned by the Bank has been £583 6s. 0d., and the expenses incurred £560 4s. 6d., leaving a small profit of £23 1s. 6d., but no charge for management has been debited against the Bank this year; had this been done there would have been a loss. On the other hand the Bank has not been credited with any interest on the large balance held by the Colonial Treasury.

Should the business of the Bank increase at the present ratio it will be necessary before long to appoint a special manager for it.

I have the honour to be, Sir,

Your Obedient Servant,

CHARLES A. FRASER, *Treasurer.*

J. J. FELTON.

At a Meeting of the LEGISLATIVE COUNCIL held at Government House on Thursday, the 29th day of December, 1892.

Present: His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor
(President).

Hon. R. M. Routledge, Colonial Secretary.

Hon. C. A. Fraser, Colonial Treasurer.

Hon. S. Hamilton, Colonial Surgeon.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The minutes of the previous Meeting were read and confirmed.

His Excellency informed the unofficial members that, previous to meeting, he had held an Executive Council to consider the proposal made by Mr. Felton in the Legislative Council yesterday, when the Pound Order was introduced into the Council, that a tax should be levied on animals grazing on the commonage before the fence round the town was erected and that the Council considered it would be inadvisable to act on the Honourable Member's suggestion and that therefore he was glad to learn that, consequent on a conversation with the Colonial Secretary, in which it was explained to Mr. Felton that there were legal difficulties in the way, the Honourable Member had expressed his willingness not to press his proposal further.

On the motion of the Colonial Treasurer being carried that the Council should resolve itself into Committee for the re-consideration of the Ordinance entitled the Postal Ordinance some discussion took place in the matter of compensation as to the distinction to be made between "Imperial" and "Local" letters when the following amendments were proposed and agreed to:—

In clause 4, line 5 before the word "rate" the insertion of the word "local," line 6 after the word "letter" the insertion of the word "local."

In clause 5 the following words were added: "and shall come into operation on the First day of February, 1893."

The Council resumed its sitting.

The Honourable the Colonial Treasurer moved the third reading of the Bill, the Colonial Surgeon Seconded.

The Honourable A. E. Baillon stated that as the practice hitherto in force had met local wants and as the present Bill would not increase the revenue to any great extent, as admitted by the Colonial Treasurer, he felt compelled to record his dissent to it.

The Honourable the Colonial Secretary moved the second reading and consideration in Committee of the "Pound Ordinance, 1893." The same being carried the following amendments were agreed to:—

Clause 1, line 8. After the word "exceeding" the insertion of the words "two pounds."

Line 9. After the word "offence" the insertion of the words "one half thereof to be paid to the informer."

Clause 3, line 2, After the word "of" the insertion of the words "five shillings."

Line 3. After the word "of" the insertion the words "one shilling."

Line 8. After the word "of" the insertion of the words "five pounds."

Clause 4, line 2. After the word "within" the insertion of the words "ten days."

Clause 6, line 6. After the word "of" the insertion of the words "five pounds,"

The Bill was left in Committee stage.

The Council adjourned *sine die*.

J. J. FELTON.

At a Meeting of the LEGISLATIVE COUNCIL held at Government House, on Thursday, the 27th day of April, 1893, at 11 a.m.

Present: His Excellency George Melville, Esq., C.M.G., Administrator.
(President).

Hon. R. M. Routledge, Colonial Secretary.

Hon. C. A. Fraser, Colonial Treasurer.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The minutes of the previous Meeting were read and confirmed.

His Excellency referred to the measures on the Orders of the Day, all of which, with the exception of the Volunteer Ordinance and the Ordinance for incorporating the Trustees of Christ Church, Stanley, Falkland Islands, as a Body Corporate, had already been put before the Council and did not call for any special observation.

The principal object of the Volunteer Ordinance was to provide for the organisation of a Volunteer Force and to legalise a capitation grant.

The reasons for introducing an Ordinance for incorporating the Trustees of Christ Church as a Body Corporate will be explained by the Colonial Secretary when the Ordinance comes on for reading. His Excellency added that it would seem but discourteous if he did not express his pleasure in meeting the Members of the Council for the first time, and he felt a conviction that he would receive the loyal support of the Council so as to enable him to give effect to the Secretary of State's instructions in the matter of the Land Question and such other measures as might be brought before them to advance the welfare of the Colony.

His Excellency then laid on the table a despatch, No. 16, of 31st January, 1893, giving the Secretary of State's views in detail on the Land Question. The Honourable J. J. Felton thanked His Excellency on behalf of the Honourable A. E. Baillon and himself, for his kind remarks, and assured His Excellency that he would receive their loyal support in every way. If differences of opinion should exist they would, the Honourable Member added, arise as a purely business matter.

On the Council resolving itself into Committee the Honourable the Colonial Secretary suggested that the consideration of the Ordinance to provide for the better protection of property in Stanley against injury from the trespassing of animals within the town should remain in abeyance until the fencing round the town was completed, as it would be impossible at the present time to fix a date on which the Bill should come into operation.

His Excellency was of opinion that the consideration of the Bill should be proceeded with as it could be brought into operation by proclamation at any time.

The Honourable J. J. Felton & A. E. Baillon asked that the Bill might be allowed to remain in Committee stage, as it could be brought up again before next Spring, by which time the fence would be completed, and the towns people would have brought in their animals from the Camp for pasturage on the Commonage. This was agreed to.

The Honourable the Colonial Treasurer moved the introduction and First reading of a Bill entitled "An Ordinance to amend the Local Taxation Ordinance of 1892."

The Honourable the Colonial Secretary seconded and the Bill was read by title.

On a motion duly made and carried the Standing Orders were suspended with a view to the Bill going through its various stages.

The Honourable the Colonial Treasurer in moving the Second reading explained that the Bill was introduced in accordance with instructions received from the Right Honourable the Secretary of State. The Bill went through its second and third readings and was passed.

His Excellency explained that the introduction of an Ordinance to repeal Ordinance No. 8 of 1892, and to provide for the Service of the Colony of the Falkland Islands for the year 1892, was necessitated by the amendments made in the Estimates for 1893, in accordance with instructions contained in the Secretary of State's despatches No. 3 & 4 of 4th January, 1893, which were read, and that, as in making the amendments, it was found that the totals differed from those in the Schedule of Ordinance No. 8 of 1892, it was considered more convenient to repeal that Ordinance and introduce the present one.

During the explanation by the Honourable the Colonial Treasurer of the various amendments in the Estimates the Honourable A. E. Baillon called attention to the fact that the addition to the Mail Subsidy for San Carlos Mail had not been sanctioned. The Honourable the Colonial Treasurer explained that the vote

"Mail Schooner" was taken as the "Hadassah" was then running, and that consequently no item providing for a subsidy for a local Mail service was ever before the Council. It was now proposed to eliminate the vote "Mail Schooner," and to insert an amount in lieu of that item.

The Honourable the Colonial Treasurer having further explained the differences in the Estimates as amended moved the introduction and first reading of a Bill entitled—"An Ordinance to repeal Ordinance No. 8 of 1892, and to provide for the service of the Colony of the Falkland Islands for the year 1893." The Hon. J. J. Felton seconded the motion, and the Bill was read a third time.

On motion duly made and seconded the Standing Orders were suspended and the Bill went through its various stages and was passed.

The Honourable the Colonial Treasurer moved the introduction and first reading of a Bill entitled—"An Ordinance to make further provision for the service of the Colony of the Falkland Islands for the year 1892." The Honourable the Colonial Secretary seconded and the Bill was read by Title.

On motion duly made and seconded the Standing Orders were suspended in order that the Bill might be proceeded with.

The Honourable the Colonial Treasurer moved the second reading and consideration in Committee. The Honourable J. J. Felton seconded, and the motion was carried.

The Council then resolved itself into Committee.

The Honourable the Colonial Treasurer explained in detail the reasons for the various excesses.

The Honourable J. J. Felton observed that the expenditure on Pilotage exceeded that of the revenue, and remarked on the unsatisfactory state of the Pilot Service.

His Excellency said he thought it would be better to license pilots, especially as the Government had not at present any pilot boat; and stated that any resolution of the Council moved with a view to rendering the pilot service more efficient would receive consideration.

After the Honourable J. J. Felton had related the system of licensing pilots which had been in force in previous years, the Honourable the Un-official Members expressed a hope that before any permanent arrangement as to Pilotage was made for 1894 His Excellency would consider whether it would not be better to return to the former system as provided by Ordinance No. 5 of 1871.

The Honourable the Un-official Members also expressed a hope that there would be no excess of expenditure on the £350 voted by the Council last year for the erection of a Custom and Bonded Warehouse and Drill Hall. His Excellency informed the Council of the cost up to the 15th April, and expressed the opinion that if a portion of the building were partitioned off as a Bonded Warehouse insufficient space would be left for the purposes of a Drill Hall. He added that the present Queen's Warehouse met the requirements of the Colony.

The Council having resumed its sitting the Honourable the Colonial Treasurer moved the third reading and passing of the Bill, the Honourable A. E. Baillon seconded and the Bill was read a third time and passed.

The Honourable the Colonial Secretary moved the introduction and first reading of an Ordinance for "Incorporating the Trustees of Christ Church, Stanley, as a Body Corporate." The Honourable J. J. Felton seconded and the Bill was read by Title.

On motion duly made and seconded the Standing Orders were suspended, and on the second reading being moved the Honourable the Colonial Secretary explained that the Bill showed what had taken place under the Constitution of the Church, and gave the Trustees the usual powers as a Body Corporate.

The motion for the second reading being carried the Council resolved itself into Committee and the Bill was considered.

On the Council resuming its sitting the Honourable Member in charge moved the third reading, this was seconded by the Honourable A. E. Baillon, and the Bill was read a third time and passed.

The Honourable the Colonial Treasurer moved the introduction and first reading of "An Ordinance to provide for the establishment of a Volunteer Force." The Honourable the Colonial Secretary seconded and the Bill was read by Title.

The Council adjourned until the 28th instant.

J. J. FELTON.

At a Meeting of the LEGISLATIVE COUNCIL held at Government House, on Monday, the 1st day of May, 1893, at 11 a.m.

Present: His Excellency George Melville, Esq., C.M.G., Administrator,
(President).

Hon. R. M. Routledge, Colonial Secretary.

Hon. S. Hamilton, Colonial Surgeon.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The minutes of the previous Meeting were read and confirmed.

His Excellency observed that according to adjournment the Council should have met on the 28th of April, but had been postponed till the 1st of May, as the Admiral of the Pacific Station had visited the Port and had desired to see His Excellency on business matters.

In the absence of the Honourable the Colonial Treasurer the Colonial Secretary took charge of the Bill to provide for the establishment of a Volunteer Force. The Honourable Member having explained that the Bill had been framed on the basis of the Volunteer Ordinance in force in the Straits Settlements, and had been brought forward, with the approval of, and as amended by the Right Honourable the Secretary of State, moved the introduction and first reading of the Bill. The Honourable the Colonial Surgeon seconded and the Bill was read by title.

On a motion duly made and carried the Standing Orders were suspended with a view to the consideration of the Bill being proceeded with.

The Honourable the Colonial Secretary moved the Second reading, the Hon. J. J. Felton seconded and the Bill was read a Second time.

The Council then went into Committee.

The Honourable J. J. Felton questioned the need of legislating for the provisions set forth in the Draft Bill, and asked if it was considered that the feeling displayed was such as to prove the true wish of the people to join the movement. So far he considered legislation on the lines before the Council was premature, but thought that perhaps it would be necessary to legislate for the enrolment of Volunteers and for the proper care of the arms, accoutrements, &c., which had been supplied by the Imperial Government. The Honourable Member asked for information as to the minimum number of efficient men that would be required to entitle the Corps to be deemed in a state of efficiency and the extent to which the Colony would be liable by the expense that would be entailed by way of capitation grants.

The Honourable A. E. Baillon expressed a doubt as to the necessity of the movement, as he was of the opinion that the security of the Colony would be better conserved by its defenceless position. The Honourable Member added that last year he had opposed the vote for a Drill Instructor, and felt that an extra expense would be unnecessarily incurred under the proposed Bill if it were passed.

His Excellency said that the Bill was a Government measure, but that he had not received definite instructions from the Secretary of State to pass it. It would however be as well to go through the clauses of the Draft Bill and, if necessary, to leave it in Committee stage that a report might be made to the Secretary of State on any views that might be expressed in opposition to it. His Excellency added that it would be a pity that the movement having gone so far, and having regard to the liberal way in which the Imperial Government had assisted it, that it should be now discouraged. Regulations would be framed, His Excellency farther added declaring what would be required by a volunteer to earn the capitation grant, but the Colony would not render itself liable to any extent unless the Corps was passed as being in an efficient state. A report, showing the attendance at drills, &c., would be called for and submitted to the Council.

After some questions had been put to the Drill Instructor, who was summoned to give information as to the strength, arrangements for the armoury, opportunities of inspecting arms, and as to the number of parades, and had been replied to, the Bill was left in Committee stage.

Before adjourning to the Council His Excellency stated that, owing to neglect, extra expenditure would probably have to be incurred to prevent the Government House garden from getting beyond reclamation. The Council agreed with His Excellency and unanimously approved of the vote being exceeded under the circumstances explained.

Read and confirmed this 12th day of June, 1893.

SATURDAY, JUNE 17, 1893.

His Excellency the Administrator in directing the publication for general information of the following Resolutions dealing with the conditions under which any land to be reserved for sale will be exposed to public auction, directs also that the following extracts from a Despatch of the Right Honourable the Secretary of State dated 12th March, 1892, be now made public, so that the inhabitants of the Colony generally may be informed as to why there is no land available for leasing to applicants for grazing leases.

Downing Street,
12th March, 1892.

Falkland Islands,
No. 25.

Sir,

With reference to previous correspondence respecting the rights of the Government of the Falkland Islands in relation to certain lessees and purchasers of Crown Lands in that Colony, I have the honour to inform you that in view of the claims put forward by the lessees and the possibility of the Colonial Government being involved in litigation, I have consulted the Law Officers of the Crown upon the rights of the Colonial Government in respect of the Crown Lands, and I am advised that, if a survey should prove that the quantity of land occupied by any lessee and comprised within the boundaries defined in his lease exceeds the quantity which was stated in the lease and upon which the rent reserved by the lease was computed at the rate prescribed by the Ordinance under which the lease was granted, the Colonial Government is not legally or equitably entitled to have the lease rectified either by correcting the statement of the acreage of the land leased in accordance with the survey and increasing the rent in proportion to the increased acreage or by altering the boundaries of the land leased so as to include only the quantity of land stated in the lease.

2. I am further advised that upon the expiration of a lease the Colonial Government is not legally or equitably entitled in granting a new lease to the former lessee under Section 2 of Ordinance 9 of 1882 to comprise in the new lease so much only of the land comprised within the boundaries defined in the old lease as shall be ascertained by survey to contain the number of acres specified in the old lease and to lease to any other person or persons the surplus of such land—

or to comprise in the new lease the whole of such land and to reserve the rent at the rate of £20 for every six thousand acres of the actual quantity of such land as ascertained by survey.

3. Having regard to this opinion I am * * * to instruct you to grant to the holders of the expired leases new leases of such of the lands comprised in the expired leases as the Governor in Executive Council shall not think it expedient to sell, or reserve for public uses, at the rate of £20 for every six thousand acres of the quantities stated in the expired leases without any stipulations for increase or diminution of rent in the event of such quantities proving on survey to be greater or less than the actual quantities of land comprised within the boundaries stated in the leases and defined in the official chart.

4. The effect of this will be that there will be no land available for leasing to the applicants for grazing leases, but it is possible that some of them may be willing to purchase land, and you should consider with your Executive Council and report to me whether it is expedient that any portions of the land comprised in any of the expired leases should be put up for sale under Sec. 2 of Ordinance 9 of 1882, and you should reserve out of the new lease any land which you think it expedient to sell pending the decision of the Secretary of State.

5. I am also advised that in the case of a lease in which the boundaries were not completely defined but were stated as extending for a specified distance from a given point, if it appeared that the lessee had occupied no more land than according to the practice and interpretation at the time of the granting of the lease he was entitled to occupy, the Colonial Government would not be legally or equitably entitled (a) to resume possession of any land occupied by the lessee beyond the boundaries stated in the lease as ascertained by survey, or (b) to recover back rent for the use and occupation of such land.

* * * * *

8. You will have the goodness to inform the Memorialists, whose petition accompanied your despatch No. 118 of 19th August last that, having regard to the advice which I have received from the Law Officers of the Crown as to the legal rights and powers of the Colonial Government, I am unable to comply with their petition.

In these circumstances it is obviously inexpedient that the Colony should incur the expense of a general survey and it will depend upon your reply to paragraphs 3 and 5 of this despatch whether there will be any necessity for a surveyor to proceed to the Colony for the purpose of making particular surveys.

I have, &c.,

Resolutions referred to above.

Whereas the Right Honourable the Secretary of State for the Colonies by a Despatch No. 25, of the 12th of March, 1892, issued an instruction to the effect that there was no land available in the Falkland Islands for the purpose of leasing, and by further instructions contained in Despatch No. 16 of the 31st January, 1893, directed certain steps to be taken for the purpose of ascertaining the probable demand for the purchase of land by the inhabitants of the Colony; and

Whereas applications have been received from certain inhabitants of the Colony for the purchase of land; and

Whereas it is now deemed expedient to carry out the several

instructions of the Secretary of State as set forth in His Lordship's Despatch of last-mentioned date ;

Be it resolved that the following conditions be published for the information of intending purchasers as the conditions under which any land to be reserved for sale will be exposed to public auction :

- I.—That the latest date up to which applications for the purchase of reserved land by intending purchasers shall be received by the Government shall be the 31st July, 1893 ;
- II.—That all land reserved shall be exposed to public auction at an upset price of four shillings per acre ;
- III.—That the purchasers shall be allowed ten years to complete the purchase of the land bought by equal yearly payments ;
- IV.—That the first instalment of the purchase money shall be paid by the purchaser immediately after the sale to him, and interest at the rate of $2\frac{1}{2}$ per centum per annum shall be payable half yearly on the unpaid balance of the purchase money.
- V.—That no title shall issue to the purchaser until the last instalment of the purchase money shall have been paid ;
- VI.—That any payments to be claimed by the outgoing lessee for improvements shall be payable by the purchaser on valuation at date of entry, or at some later date by special agreement with the outgoing lessee, approved of by the Government ;
- VII.—That before any stock shall be placed by the purchaser on the lands so purchased, a suitable dwelling-house shall be erected ; proper arrangements for the dipping of sheep provided ; and the lands shall be completely fenced in by a proper sheep-proof fence, the cost to be borne equally by the purchaser and the lessee of the surrounding land ;
- VIII.—That any alienation of the lands purchased before the purchaser shall have paid up all instalments of the purchase-money due under the said purchase shall render the purchase null and void, and the lands so alienated shall revert to and become the property of the Crown ; provided always that on the death of any purchaser before the completion of the purchase and the issue of the title to him shall have been made, the Governor in Council shall in the event of the heirs of the purchaser declining to fulfil the contract for purchase direct a sale of the said lands to be made by public auction and allow compensation to the heirs of the deceased for any improvements on the land so directed to be sold. Provided, however, that any purchase made under the foregoing proviso shall not entitle the purchaser to any extension of the period of purchase over and above the original period of purchase.

Passed and approved in Legislative Council this 14th day of June, 1893.

Minutes of Proceedings at a Meeting of the LEGISLATIVE COUNCIL held at Government House on Monday, the 12th day of June, 1893.

Present : His Excellency George Melville, Esq., C.M.G., Administrator.
(President).

Hon. R. M. Routledge, Colonial Secretary.

Hon. C. A. Fraser, Colonial Treasurer.

Hon. S. Hamilton, Colonial Surgeon.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The minutes of the previous Meeting were read and confirmed.

His Excellency, in referring to the Orders of the Day, observed that the Pound Ordinance would remain in Committee in accordance with the decision of the Council expressed at a meeting held on the 27th day of April, 1893.

With regard to the next item of business before the Council, His Excellency reminded the Council of what had passed at the last meeting in connection with the Volunteer Ordinance, but after the correspondence that had subsequently taken place, in which the origin and history which led to the introduction of the Bill was expressed, said that the consideration of the Bill would now be proceeded with.

On a motion by the Honourable the Colonial Treasurer, seconded by the Honourable the Colonial Secretary, the Council resumed its sitting, and the Honourable the Colonial Treasurer moved the third reading and passing of the Bill. The Honourable the Colonial Surgeon seconded and the Bill was read a third time and passed.

His Excellency then laid before the Council Resolutions showing the conditions under which it was proposed that intending purchasers should purchase land, the need for the drafting of which was shown in a preamble to the Resolutions which had been drawn up in Executive Council for submission to the Legislative Council before being published, and for the information of the several applicants who had asked for details as to such conditions.

His Excellency read through the Resolutions touching on certain clauses which would require especial attention, remarking that there might be some difficulty as to the question of fencing.

The Hon. J. J. Felton asked that the position of the lessee might be considered before that of the purchaser. So long as two years ago Governor Goldsworthy had cautioned lessees not to proceed any further with fencing. Lessees were now called upon to surrender land, and as perhaps they may have to surrender more than they have already offered the Hon. Member asked to be informed whether any more land would be required. The Hon. Member dwelt on the hardship of having to pay for fencing again simply because a needy farmer was introduced to land adjoining that of the leaseholder. He mentioned the difficulty, trouble and expense experienced in keeping sheep clean, and the risk of the welfare of the Colony being jeopardised by the introduction of dirty sheep. All previous records, the Hon. Member continued, of small holdings had practically proved a failure; and if the Government was going to try it again it would be only an experiment and the Government ought to protect the leaseholder on whom, together with other conditions, a condition as to stocking to a certain amount within a given time had been imposed.

His Excellency replied that applicants for land must be first informed of the conditions of their liabilities, and on which an answer to the Hon. Member's question much depended; but that sufficient land had in his opinion been already offered to meet the present demand of applicants. The Government could therefore safely inform the leaseholders who had come forward and met the Government half-way that no further land would be required from them.

The Hon. the Colonial Secretary then moved the clauses of the Resolutions *seriatim*.

On Clause 1, the Hon. A. E. Baillon asked if the conditions now before the Council would be embodied in an Ordinance.

His Excellency replied that the former land laws would probably be repealed and an Ordinance, in parts, introduced containing the conditions under discussion; if the former Ordinances were not repealed an Ordinance would be introduced embodying the conditions.

The Hon. J. J. Felton asked if the sales would take place under the conditions as they stood.

The Hon. the Colonial Secretary explained the action that had been taken and which had led to the framing of the Resolutions. He did not altogether agree with the terms of the conditions. It was proposed, however, that the sale of land should take place under these conditions, and if an Ordinance were subsequently introduced they would be embodied in it.

The Hon. the Colonial Secretary then moved that Clause 1 should remain part of the Resolution. The Hon. J. J. Felton seconded and the motion was carried.

Clause 2 on being moved by the Hon. the Colonial Secretary, and seconded by the Hon. A. E. Baillon was carried.

On Clause 3 being read, the Hon. the Col. Sec. remarked that the words "or longer" did not meet with his approval, it was not in the original draft as the Secretary of State had stated that the terms of sale should follow the precedent set in the case of sales to the Falkland Islands Company and others under Ordinance 9 of 1890 which only allowed ten years. If the time were prolonged some trouble would be caused to Government Officials, and but little assistance would be given to the purchaser as it would delay the issue of a title. He thought that if the time were extended the interest of two-and-a-half per centum per annum would be too small. He, however, did not object to the clause as it stood, as the decision of the Secretary of State would be required before it could be acted upon.

The Hons. J. J. Felton and A. E. Baillon quite agreed that ten years was ample time within which all instalments should be paid up, and thought the interest too low if time were extended.

The Hon. the Col. Treasurer said he was in favour of an extension of time, but it would not prevent a man from paying up before the 10 years if he wished to do so so as to obtain his title. He thought two-and-a-half per centum per annum was a fair rate taking the present price of consols as the Government would receive a larger amount than hitherto per acre as the price would be fixed on a surveyed and accurate acre.

His Excellency thought it would be well to keep the words as they stood but asked that the sense of the Council as to the limit of time might be recorded, if necessary, in an amendment.

The Honourable J. J. Felton then moved that the words "or longer should the Secretary of State sanction it" be removed from the Clause, the Honourable A. E. Baillon seconded.

The Council then divided.

For the amendment.

The Honourable A. E. Baillon.

The Honourable J. J. Felton.

The Honourable the Colonial Secretary.

Against the amendment.

The Honourable the Colonial Treasurer.

The Honourable the Colonial Surgeon.

The amendment was therefore carried and read as follows :—

3.—"The purchaser shall be allowed ten years to complete the purchase of the land bought by equal yearly instalments."

His Excellency stated that in forwarding the Resolutions he would inform the Secretary of State of the debate that had taken place on the Clause.

Clause 4 on being moved by the Honourable the Colonial Secretary and seconded by the Honourable J. J. Felton was carried.

Clause 5 on being moved by the Honourable the Colonial Secretary and seconded by the Honourable A. E. Baillon was carried.

Clause 6 on being moved by the Honourable the Colonial Secretary and seconded by the Honourable J. J. Felton was carried.

Clause 7. Referring to what had already fallen from the Honourable J. J. Felton, His Excellency was aware of the difficulty experienced in framing this clause, and perhaps it would be necessary to refer the matter again to the Secretary of State before a decision was arrived at. His Excellency explained that, as to the cost, he had added the words "the cost thereof to be met equally by the purchaser and the lessee of the surrounding land" but that the question as to what

would be a fair way of settling the matter should be fully discussed. In reply to the Honourable J. J. Felton's question as to what liability would be incurred if the cost of fencing was not paid up and as to the kind of fence to be erected, His Excellency said that it would not be practicable to enter into details in these Resolutions, but that they would probably be met either by the provisions in a new Ordinance or by regulations passed under such an Ordinance.

The Honourable J. J. Felton repeated that it was hard on leaseholders who had already been obliged to fence in to pay up for another, and having given up a sea boundary to be now obliged to pay for the half of the cost of a divisional fence. A leaseholder, moreover, might have two or more freeholders round him and it would fall hard upon the leaseholders to manage the cost within the time defined; he quite recognised the difficulty on the other hand to the incoming tenant to have to pay for the whole cost.

It was explained to the Honourable member that compensation to the leaseholders for existing fences would be compulsory on the new tenant, and perhaps if the clause were amended so as to leave it optional to the leaseholders to call upon the incoming tenant to fence it would meet the views of both parties.

The Honourable A. E. Baillon thought that Clause 7 should run concurrent with Clause 8, so as to ensure the risk of the leaseholder against any infection from dirty sheep.

After further discussion His Excellency thought that it would be better to defer the discussion on this clause to another meeting by which time the clause might be amended and re-submitted for the consideration of the Council.

This was agreed to.

The Honourable the Colonial Treasurer moved the following Resolutions :—

“Resolved that a vote of £6 2 9 be taken to settle claims received for compensation in respect of parcels lost in the wreck of the steamer “Neko.”

The Honourable A. E. Baillon seconded and the motion was carried.

“Resolved that a free grant of certain materials be given to Dean Brandon towards the erection of a lean-to to the South side of the Government building known as the Par-sonage.”

The Honourable J. J. Felton seconded and the motion was carried.

“Resolved that a vote be taken for a contribution of £15 12 towards the maintenance of an idiot child in an English asylum.”

After consideration an amendment to the Resolution was made, and the Resolution stood as follows :—

“Resolved that a vote be taken for the contribution of £6 18 0 and that it be placed on the Estimates for 1894, towards the maintenance of an idiot child in an English Asylum for the period 1st January to 10th June, 1894, when the Government guarantee of 3 years would terminate.

The Honourable A. E. Baillon seconded and the Resolution as amended was carried.

“Resolved that a vote of £7 9 be taken towards the erection of a partition fence between Church and Government land on the South side of Christ Church.”

The Honourable J. J. Felton seconded and the motion was carried.

The Council adjourned until Wednesday the 14th instant.

Minutes of Proceedings at a Meeting of the LEGISLATIVE COUNCIL held at Government House, on the 14th day of June, 1893.

Present : His Excellency George Melville, Esq., C.M.G., Administrator,
(President).

Hon. R. M. Routledge, Colonial Secretary.

Hon. C. A. Fraser, Colonial Treasurer.

Hon. S. Hamilton, Colonial Surgeon.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The minutes of the previous Meeting were read and confirmed.

Before resuming the consideration of Clause 7 of the Resolutions relating to the proposed sale of land, His Excellency said that he desired it recorded on the minutes that he had read the Secretary of State's despatch No. 25 of March 12th, 1892, which it was his intention to publish as a prefatory notice to the Resolutions as, among other things, it would clearly show to the inhabitants of the Colony that the Government had no land available for leasing in these Islands. His Excellency added that had such a notification been made directly after the receipt of this despatch in April, 1892, he was of opinion that it would have saved a good deal of misunderstanding and have limited the applications which had been received to those for purchase and not for lease and the applicants would no doubt then have been only genuine small sheep farmers.

The Hon. J. J. Felton expressed the hope that if His Excellency was satisfied with the offers made by the lessees, who, in their desire to comply with the request of the Secretary of State, had surrendered portions of their holdings, and that the same were sufficient to meet the probable demand that they might be notified to that effect and that their leases might be renewed accordingly; as it was important that they should be relieved from the uncertainty which for the last two years they had been subjected to and as it had seriously retarded a lot of necessary work.

The Hon. A. E. Baillon also asked His Excellency if he were not now in a position, in accordance with the instructions laid down in the despatch which had just been read, to renew the leases at once as enquiries were constantly being made of him on the subject. The Hon. member referred to the position of the long-suffering leaseholders who had borne the heat and burden of the day and thought they ought to be considered now that the position of the new comers in the shape of the small freeholders was under discussion.

His Excellency replied that in sending the Resolutions home, as they may be passed by the Council, he would recommend to the Secretary of State that the leases should be renewed to those who had given up portions of their leaseholds in accordance with paragraph 10 of the Secretary of State's despatch of January 31st. His Excellency reminded the Hon. member that the leaseholders had not been made aware of the terms of the despatch of March 12th, 1892, as to there being no land available for leasing until December 21st of the same year and then only the Falkland Islands Company and Mr. Smith, the latter presumably as the representative of the memorialists whose petition accompanied Sir R. Goldsworthy's despatch of August 19th, 1891, a copy of which petition by the way, or of the reply to it, His Excellency, had been unable to find. Meanwhile he would point out that the large reservations proposed by Sir R. Goldsworthy had been notified to the leaseholders.

The Hon. the Colonial Treasurer mentioned that certain leaseholders had refused to accept the renewal of their leases after reservations had been proposed, and, that being so, they had no cause of complaint as to their non-renewal.

The Hon. J. J. Felton remarked that he was well aware of the fact that leaseholders were naturally disinclined to accept the renewal of their leases under the state of matters as existed when the first reservations were being made.

The Honourable the Colonial Secretary explained that unquestionably leaseholders had refused to accept renewals of their leases as offered to them by Governor Goldsworthy and rightly so, when, by a fell scoop, the leaseholder in many cases was to be deprived of his homestead and plant and left with an unworkable station but that action was now being taken under the despatch of January 31st, 1893. By despatch of March 12th, 1892, the Governor was instructed that reservations for

sale should be made and that the leases of the remaining portions should be renewed. Certain portions, as directed by paragraph 10 of the Secretary of State's despatch of January 31st, with the concurrence of the leaseholders, were now being reserved for sale and it entirely rested with His Excellency to act upon the instructions laid down in despatch 25 of March 12th, 1892, and at once renew the leases of the remaining portions to the leaseholders if His Excellency considered a sufficiency of land had been given up.

The consideration of Resolution No. 7 was then resumed.

The Honourable the Colonial Secretary remarked that the greatest difficulty met with at the last meeting was that of fencing under Clause 7. Suggestions had been made so as to protect the interest of the leaseholders against the risk of the freeholder introducing new flocks which might have scab, and he hoped that the amended Resolution he was now about to move would meet with general approval.

He then moved that Clauses 7 and 8 be deleted and that the following clause be substituted, namely :—

Clause 7. "That before any stock shall be placed by the purchaser on the lands so purchased, a suitable dwelling-house shall be erected, proper arrangements for dipping of sheep provided, and the lands shall be completely fenced in by a proper sheep-proof fence, the cost of the erection of such fence to be borne equally by the purchaser and the lessee of the surrounding land."

The Honourables J. J. Felton and A. E. Baillon having regard to the great object of preventing as far as possible the spread of scab, approved of the amended clause, as they were willing to give way to the cost of the fence being met equally by the purchaser and the lessee, if the fence were to be put up before stock was brought on to the land.

The Honourable the Colonial Treasurer said he preferred the former Clauses 7 and 8 as they were not so drastic as the amended one which would run too much into a man's capital at first. He thought that the views expressed as to the risk of infection had been somewhat exaggerated.

His Excellency in comparing the two Resolutions observed with reference to the remarks of the Hon. Member who had just spoken, that the words "providing for the cost of fencing being met equally by the leaseholder and the small freeholder" had been added by himself (His Excellency) and that he understood now that, on the guarantee given in the new clause, security so far would be given against the risk of the spread of disease from the sheep of small holders who might not have the proper arrangements for dipping; the leaseholders were willing to meet half the cost of the fencing of those portions of their leaseholds which they had given up to assist the Government in meeting a genuine demand for land. His Excellency also pointed out that whereas in the clause as first submitted three years might probably elapse before sheep could be put on the farms of intending purchasers they would be enabled by the clause now proposed to stock whenever fencing was completed and proper arrangements for sheep farming had been made. His Excellency was under the impression that the first arrangements a sheep farmer would make would naturally be to set up his plant for managing his farm before stocking. His Excellency concluded by saying that in dealing with this question it had been his duty to endeavour to settle it amicably, and to show fair play and justice all round.

On His Excellency asking to be favoured with the views of all members on the question under discussion, the Honourable the Colonial Surgeon stated that he was of the opinion that if small farmers wish to start on their own account, they ought to be encouraged, there should be a give and take between the leaseholder and the new tenant. It is imperative upon the Government, he considered, to give the head shepherds encouragement and their interests, as hard working men, should be fostered; they should not be over encumbered with the cost of fencing as they may not have the wherewithal to meet it, though they have the knowledge and experience of sheep farming. The money lying dormant in the Savings' Bank, if these men were to obtain freeholds, would, he considered, be properly utilised.

His Excellency stated that in the opinions expressed by the Colonial Surgeon he entirely agreed and he took it that every member of the Council did the same. His interpretation of the words "real demand for the purchase of land" in the 4th paragraph of the Secretary of State's Despatch of the 31st January, was a demand

for land by the class of men mentioned by the Colonial Surgeon—the head shepherds in these Islands—and to these men every help and encouragement should and would be given.

After some further discussion between the Honourable the Colonial Secretary and the Honourable the Colonial Surgeon as to the probable effect of the introduction of small holders,

The Honourable J. J. Felton seconded the motion as amended.

The Council then divided.

For the amendment,

The Honourable A. E. Baillon.

„ J. J. Felton.

„ Colonial Secretary.

Against the amendment.

The Honourable the Colonial Surgeon.

„ Colonial Treasurer.

The amendment was therefore carried.

The Honourable the Colonial Secretary explained that the last Clause which now stood as Clause 8, would require, in order to secure compliance with Clause 3 as passed, the deletion of the words, “as under condition No. 3,” and with permission he would move the Clause accordingly.

The Honourable A. E. Baillon seconded and the motion was carried.

The Resolutions as passed were then ordered to be recorded on the Minutes.*

His Excellency laid before the Council certain papers relating to a promise made by Sir R. Goldsworthy that the son of the Treasury Clerk, William Coulson, who appears on the Estimates under “Governor” as Office-Keeper and Messenger, but who is also messenger to the Government Offices, should have an increase of salary. He explained that this young officer had been now two years in the service, and recommended that he should have a slight increase of salary which could be added to if he continued to perform his duties in a satisfactory manner.

The Honourable the Colonial Secretary then moved the following Resolution:—

“Resolved that a sum of ten shillings per mensem be voted as an increase in the salary of the Office-Keeper and Messenger.”

The Honourable J. J. Felton seconded and the motion was carried.

His Excellency then referred to the estimated cost of putting in windows and doors and for flooring the new Customs Shed which, as it exceeded the funds in hand, would necessitate the work being postponed for the present.

The Council left it open to His Excellency to decide what would be the best way to turn this building to some account as also as to how the Stable at Government House should be best disposed of.

The Council was then adjourned *sine die*.

Clerk to Legislative Council.

N.B.—These Minutes have not been confirmed in *propria forma*, but in order to prevent delay in publication have been circulated amongst the Honourable Members of Council who have recorded their assent to them.

SATURDAY, SEPTEMBER 9, 1893.

His Excellency the Administrator directs the publication, for general information, of the following Minutes of Proceedings of the Legislative Council held on the 4th September.

By Command.

R. M. ROUTLEDGE,
Colonial Secretary.

Government Secretariat.

Stanley, 9th September, 1893.

Minutes of Proceedings at a Meeting of the LEGISLATIVE COUNCIL held at Government House, on the 4th day of September, 1893.

Present : His Excellency George Melville, Esq., C.M.G., Administrator.
(President).

Hon. R. M. Routledge, Colonial Secretary.
Hon. C. A. Fraser, Colonial Treasurer.
Hon. S. Hamilton, Colonial Surgeon.
Hon. J. J. Felton.
Hon. A. E. Baillon.

Before proceeding with the business standing on the Orders of the Day, His Excellency referred to two matters upon which Resolutions had been passed by the Executive Council, and which at this meeting, being the first meeting since the events to which they relate had been made known here, His Excellency desired to bring before the Legislative Council for the acquiescence of honourable members, the one recorded, His Excellency said, the condolences on behalf of the Colony on the occasion of the loss of H. M. S. "Victoria," the other, of a different nature, conveyed congratulations to the Royal Family on the occasion of His Royal Highness the Duke of York's marriage to Her Serene Highness Princess Victoria Mary of Teck. After the reading of the Resolutions by His Excellency the unofficial members fully endorsed the terms in which they were couched, and, on the motion of the Honourable the Colonial Secretary, seconded by the Honourables J. J. Felton and A. E. Baillon, respectively, the Resolutions were unanimously carried.

On referring to the Orders of the Day His Excellency stated that in the Draft Estimates of Revenue and Expenditure for 1894, which would be shortly laid before the Council, an item of £60 had been inserted under Head 7, as a prospective Estimate of Revenue to be derived from the rents of the Commonage, which would become leviable under the Bill now in Committee entitled "An Ordinance to provide for the better protection of property in Stanley against injury from the trespassing of animals within the town."

It had not been deemed necessary that this Bill should be passed before the Estimates were taken into consideration, as, until the provisions of the Bill had been put into operation for some time, it would be difficult to arrive at the amount that would be collected under it. The same sum as that estimated last

year had therefore been inserted. Now, however, that the Town Fence had been completed, His Excellency thought it would be well to obtain information, especially as to the charges to be levied under the Schedule to the Draft Ordinance, and for this object the papers, His Excellency added, will be circulated amongst the unofficial Members, so that the Bill may be proceeded with at the next meeting of the Council on the 21st instant.

After explanation by His Excellency that a vote of £6 was required as an increase of £1 per month, from the 1st July inclusive, to the wages of the Government House Gardener in lieu of a supply of peat, a motion was made for this vote by the Honourable the Colonial Secretary, and, being seconded by the Honourable A. E. Baillon, was carried.

His Excellency stated that a vote of £22 11 7 as wages for an Assistant Gardener and Labourer at Government House, from the 16th August, was necessitated by the inconveniences arising from the former Labourer being also employed on the Public Works Department as Carter, which would be removed by dividing his duties and assigning to him those of an Assistant Gardener when he would be also available as horsekeeper. The motion for this vote being made by the Honourable the Colonial Secretary, and seconded by the Honourable J. J. Felton was carried.

The Honourable the Colonial Treasurer then moved for a vote of £100, being a refund to J. Luchtembourg of the amount paid for a Sealing Licence. After some information had been asked for by the Honourable J. J. Felton as to the disposal of the skins already taken, and replied to by His Excellency, who explained that the refund had been ordered by the Right Honourable the Secretary of State by Despatch No. 43 of the 23rd May, 1893, which was read to the Council, the Honourable J. J. Felton seconded the motion and it was carried.

The draft Estimates of Expenditure for 1894 were then laid before the Council. In going through the various items the Honourable the Colonial Treasurer explained the sums to be appropriated and pointed out where they differed from those voted for the present year.

Under Vote 8, Police, the Honourable J. J. Felton asked for the conditions under which the constables were employed, as during the past few years the increase of the department had caused an increased expenditure not only in wages but in transport and in the supply of peat, and stated that we now had the Volunteers to fall back upon in cases of emergency. Formerly, when a greater number of ships visited the Port there was but one constable, and this increase of constables would lead anyone to believe that there is also an increase of crime in the Colony, which was not the fact.

His Excellency said that the constables were engaged for a term of three years and most of them had only been recently engaged, but considered that the staff of six which was now up to its complement, was sufficient.

The Vote was agreed to.

Under Vote 15. The Honourable J. J. Felton considered that the item of £360 for the West Falklands Mail Subsidy was a large amount for a schooner that called in at three stations only, and that there was but little benefit extended to the San Carlos station, as the schooner only called in on her return voyage. The Honourable Member proposed that the mails for the North Camp should be run to Salvador and then be taken across by land to Douglas Station and Teal Inlet.

The Honourable the Colonial Treasurer drew the Honourable Member's attention to the fact that the schooner called twice at San Carlos, on her way out and on her return journey, and that if she only called in once on any occasion it was exceptional.

His Excellency, after being informed that the present contract had not been put up to tender, stated that when it expires tenders should be called for in the usual way for the performance of this service, which should be carried out on the principle of convenience being given to the greater number.

The Vote was agreed to.

Under Vote 17—Public Works—The Honourable J. J. Felton asked if there might not be some means of increasing the item “for maintenance and repair “of roads, &c.,” as the greater portion of the £250 now proposed to be voted would have to be expended on undoing certain bad work done by prison labour on a road in the town during the course of last year. The Honourable Member said that as these repairs are very necessary he would like to see a larger vote, if possible, without a burden by taxation being placed on the people. It would give employment to men from the camp during the winter months.

His Excellency informed the Honourable Member of the Secretary of State's instructions to economise under this Head of Expenditure and pointed out, as already explained by the Honourable the Colonial Treasurer, that the amount of £250 now proposed represented not only the wages of carting but the expenditure on the up-keep of carts and horses, previously charged against the Votes “Maintenance, and Repairs of Roads, Drains and Public Buildings,” and that these Votes had consequently been reduced by the sums of £50 and £100 respectively, so that there was no actual reduction on the Votes for Public Works. Any additional revenue for Public Works, His Excellency added, might fairly, and without being an undue burden, be obtained by increasing the Customs Duties on Spirits and Tobacco.

The Vote was agreed to.

The totals under the various heads were read and the Estimates as submitted were agreed to and passed.

The Honourable the Colonial Secretary then moved the introduction and first reading of a Bill entitled—“An Ordinance to make provision for the service of the “Colony of the Falkland Islands for the year 1894,” the Honourable the Colonial Treasurer seconded and the Bill was read by title.

J. J. FELTON,
Administrator of the late Casimero Pinazo.

Stanley,

18th October, 1893.

At a Meeting of the LEGISLATIVE COUNCIL held on the 9th day of October, 1893.

Present : His Excellency George Melville, Esq., C.M.G., Administrator,
(President).

Hon. R. M. Routledge, Colonial Secretary.

Hon. C. A. Fraser, Colonial Treasurer.

Hon. S. Hamilton, Colonial Surgeon.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The Minutes of the previous meeting were read and confirmed.

His Excellency mentioned, with reference to the first items on the Orders of the Day for a vote of £50 towards the cost of the reconstruction of the Conservatory and an alteration to the front entrance at Government House, that the Executive Council had already unanimously concurred in the need for this work being carried out; and, after remarking on the inconvenience of the present arrangements, stated that the matter was now brought before the Council for its favourable consideration. His Excellency further informed the Council that expenditure had already been incurred upon the roof over the Hall, which had now been made waterproof, and as this, with other works, had cost larger sums than had been anticipated, it was more than likely that the item Vote B of the Public Works Vote would be exceeded. After consulting the Honourable the Colonial Treasurer he however trusted there would be savings on the other sub-heads and that the total vote would not be exceeded. The Council unanimously considered that this work, and the execution of the other works which had been carried out, had been justified and approved of the sums that had been expended upon them.

With reference to the second item, His Excellency said that he had well considered the application which had been received through Dean Brandon for a Medical Practitioner and Surgeon Dentist before bringing the matter forward. The correspondence relating thereto had been transmitted to the Right Honourable the Secretary of State, who had been informed that it would be brought before the Council to obtain further information as to the general wishes of the people. His Excellency said that he had ascertained that the people did not want another Government Medical Officer, but a private Medical Practitioner, of course in such a case, His Excellency added, any man would be at liberty to come out and endeavour to obtain a practice for himself.

The Honourable the Colonial Surgeon said, that with all due respect, it would have been better to have first brought such information before the Executive Council for its advice in the first instance. He took exception to the Colonial Chaplain having brought the matter forward, and he was convinced that there was no need for such assistance as he had only been called out two or three times into the North Camp during his fourteen years residence here. It would be against the interests of the Government to afford such assistance as there were no officials to be attended, and the sheep farmers were quite in a position to support their own doctor if he were required, for the same reason he was opposed to the Government providing for an Assistant Colonial Surgeon on the West Falklands. The Honourable Member added, that on receipt of a private letter from the Colonial Chaplain, referring to this matter, he had visited one of the Members of the Council, who was now present, and he had been told by the Honourable Member that the scheme was a stroke aimed against him (the Colonial Surgeon) in consequence of his unswerving hostile action towards the farmers in relation to the Land Question.

The Honourable the Colonial Treasurer mentioned that it remained to be proved whether this medical assistance was really required as it had not yet been so shewn, and asked for some further information as to how the matter originated, as

this desire had apparently come forward suddenly from the movers, though fully armed, at present only a bald statement was before the Council. His Excellency asked the Honourable Member if he had not seen the papers on the subject, and received a reply that he had not.

His Excellency then read Dean Brandon's letter, dated 6th September, and stated that he had pointed out to the Colonial Chaplain that he had disapproved of his advertising for the assistance of an "Assistant Colonial Surgeon" in the Falkland Islands Magazine, but that he was quite at liberty to call attention to the necessity of a private medical practitioner.

The Honourable the Colonial Treasurer pointed out that the letter does not name any guarantors and he was without information on this point. The Honourable Member thought that three doctors amongst a population of 1700 was sufficient. He added that he would like to know how this agitation had commenced. He would not recommend that Government should assist more than it does already.

His Excellency expressed it as his opinion that the Colonial Chaplain was acting on behalf of the Community, and that there was no personal feeling against the Colonial Surgeon. It was for assistance to private persons.

The Honourable the Colonial Surgeon referred to the meetings that had been held by the Colonial Chaplain; to the Colonial Chaplain's house to house visits to obtain guarantors and questioned his action throughout as a brother official. The Honourable Member further added that he did not think that a selection as proposed should be given to Mr. Cobb, as he thought, if Government did assist, it ought to be able to manage its own affairs. The Honourable the Colonial Surgeon asked His Excellency why an expression of opinion had been asked of the Legislative Council on this matter, and thereby increasing the importance of a scheme which had been first secretly formulated without a previous reference to himself as head of the Medical Department. To find a Medical Practitioner combined with a Surgeon Dentist would be difficult, if not impossible, as Medical Practitioners do not become tradesmen, such offices were not found together, they were entirely separate. The Honourable Member did not consider that Government should be burdened with any extra amount for such medical aid.

The Honourable the Colonial Secretary, on rising, said he would like to have heard an expression of opinion from the unofficial members, especially the senior unofficial member of the Council, before giving his own. He, however, took exception to the Honourable the Colonial Surgeon's view, as to the non-combination of the offices of a Medical Practitioner and Surgeon Dentist. He stated that since the Colonial Surgeon had arrived in the Colony—fourteen years ago—the profession had changed, as a qualified medical man does now take out a dentist's qualification and, in fact, it is not at all unusual that he qualifies in medicine, surgery and dentistry. The Honourable Member continued that the letter referred to had been received in the usual way through the Secretariat from Dean Brandon, and had been immediately forwarded to the Honourable the Colonial Surgeon for his observations and report. There had been no secrecy in the matter. Dean Brandon on visiting had been informed of, and had seen, the need of another medical man, and he agreed with Dean Brandon that such was necessary. The Honourable Member asked the Colonial Treasurer and Colonial Surgeon if there is a place in the United Kingdom with a population of 700 with only one doctor? He pointed out that we are now in the hands of one doctor, and if anything happened to him, such as sudden decease, at the very shortest space of time three months would elapse before another man could arrive. In the meantime an epidemic might occur with very serious results; and he considered that any Government would be reprehensible with such facts staring it in the face that did not provide against such a contingency. This alone, he felt convinced, would be sufficient for the Secretary of State to approve of a Government grant in aid. Authorities here should guard themselves against any medical aid not being forthcoming in case of need.

The Honourable J. J. Felton took exception to the Honourable the Colonial Surgeon's assertion that this scheme had been got up by parties to injure him on

account of his loyalty to the Government, that was most unfounded. The Honourable Member stated that he himself was a guarantor. He thought accidents might happen, epidemics might break out, and Government ought to prepare itself especially as it was the wish of the people. He recommended that a small sum should be voted for this extra medical assistance, but did not make such a recommendation because of any personal feeling against the Colonial Surgeon. He supposed, should the Government make any provision, that it would be considered as a grant-in-aid, and would not carry any Government control with it.

His Excellency acquiesced in the Honourable Member's supposition.

The Honourable A. E. Baillon said he was somewhat diffident in speaking on the matter owing to his short residence here. He had, however, made most careful enquiries into the matter, and those enquiries in addition to several voluntary statements made to him, enabled him to say without hesitation that there was a much-felt and wide-spread need for extra medical assistance. The Honourable Member repudiated any personal feeling towards the Colonial Surgeon in this matter, and said that the guarantee fund spoke for itself as, in his opinion, a man's pocket was a sure guide to his feeling and opinions, and that the amount subscribed was a complete answer to the questions put. If the Secretary of State did not approve of any Government grant being given, he thought that the scheme would be carried out independent of Government aid.

His Excellency thanked the Honourable Members for their opinions.

His Excellency then informed the Council that he had been informed by the Secretary of State that Governor Goldsworthy's leave had been extended for a month from September, and that he therefore expected His Excellency to arrive by this Mail. He thanked the members, both official and unofficial, on this the last occasion that he would have the honour of presiding over them, for their assistance, and especially in dealing with the Secretary of State's instructions conveyed in His Lordship's despatch of 31st January, last, regarding the Land Question. As a parting request His Excellency asked the Members, in order to complete the settlement of this question, to give Governor Goldsworthy the same loyal support as they had given him.

The Honourable J. J. Felton said he felt sure that Honourable Members, but no one more than himself, would regret His Excellency's departure which, however, he hoped would be a gain to his Excellency, and added that he would support the Governor if he met us in the same spirit as Mr. Melville had done in carrying out the instructions as conveyed in the despatch from the Marquis of Ripon.

The Honourable A. E. Baillon thanked His Excellency for the consideration and courtesy which always attended the Meetings of the Council; and in fully endorsing the expressions which had just fallen from his colleague wished His Excellency "God-speed."

The Council was then adjourned *sine die*.

Read and confirmed this Thirtieth day of October, 1893.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows:—

1.—From and after the coming into operation of this Ordinance it shall be lawful for the Governor in Council to grant leases of town lands in Stanley or in any other township which hereafter may be proclaimed, with such reservations, conditions and restrictions, as may by him be deemed expedient.

Short title.

2.—This Ordinance may be cited as the "Town Lands Ordinance, 1893." and shall be read with and form part of the Land Ordinance, 1871.

No. 9 of 1893.

An Ordinance to provide for the payment of certain Fees into the Colonial Treasury.

Whereas it is expedient to provide for the payment into the Treasury of the Falkland Islands of certain Fees of Office payable under Ordinances 3 and 12 of 1853.

Enacting clause.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows:—

Amendment of Ordinance 3 of 1853, as to the disposal of fees.

1.—The words "received to the use of the officers and persons therein mentioned" in Section 11 of Ordinance 3 of 1853, are hereby repealed, and the words "shall be paid into the Colonial Treasury for purposes of General Revenue," substituted therefor.

2.—Section 16, of Ordinance 12 of 1853, is hereby repealed and the following Section substituted in place thereof:—

That any Clergyman may demand and receive to his own use the fees allowed to him in Schedule E, but those payable to the Registrar in the aforesaid Schedule E, shall be received by him and paid into the Colonial Treasury for purposes of General Revenue, and it shall be lawful for the Governor from time to time, with the advice and consent of the Executive Council, to make any alteration in the said Schedule.

At a Meeting of the LEGISLATIVE COUNCIL held on the 30th day of October, 1893.

Present: His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.
(President).

Honourable the Acting Colonial Secretary.
Hon. S. Hamilton, Colonial Surgeon.
Hon. the Acting Colonial Treasurer.
Hon. J. J. Felton.

Absent: Hon. A. E. Baillon.

The Minutes of the previous meeting having already been circulated and assented to as recorded were taken as read and, on the motion of the Honourable the Acting Colonial Secretary, seconded by the Honourable J. J. Felton, were confirmed.

His Excellency mentioned that Mr. C. W. Hill would take the Minutes as Clerk while sitting as a Member of the Council.

His Excellency stated that as the original Resolutions regarding the Sale of Land had been considered in Legislative Council, he now brought them up again amended in certain respects according to instructions received from the Secretary of State, His Excellency added that in the absence of one of the unofficial members any final decision on them would be postponed to a subsequent meeting to be held after the Honourable A. E. Baillon's return to Stanley, so as to give the unofficial members an opportunity of conferring together. Of course, His Excellency added, if the other unofficial member now present desired to say anything now he would be glad to hear it.

The Amended Resolutions were then considered *seriatim*.

On Clause 2, Mr. Felton observed that he agreed to the proposed extension of time to 15 years within which the purchaser should be allowed to complete the purchase. He pointed out that the period of ten years was inserted in order to carry out the Secretary of State's wishes expressed in His Lordship's despatch of 31st January, 1893. He would even agree to a further extension of 20 years, as he did not consider that land was worth four shillings an acre. It is evident, he thought, that by an extension of time being deemed necessary there was a doubt as to the actual value of, and real demand for, land, or otherwise land would be put up for sale on terms cash.

His Excellency explained the object of the Government reserving land and using the powers given by Clause 2, of Ordinance 9 of 1882. His Excellency referred to the opinion of the Law Officers of the Crown as to the disposal of the excessive acreage over the survey of certain stations, and added that it was fair

average land that the Government considered should be put up for sale. With regard to the price of the land, and the time within which such should be paid, His Excellency reminded the Honourable Member that in the case of the large sales in 1890, the Falkland Islands Company, and others even did not pay cash down although land was then sold to them at three shillings an acre. It was the desire of the Government that the terms of payment should be made as easy as possible for those who may desire to purchase land. Government would not thereby be the loser as interest would be payable. His Excellency hoped that the unofficial members would give every help to the Government they could in dealing with this matter, and said that he was glad to hear from Mr. Felton that he considered that even 20 instead of 15 years would not be too long within which the purchase-money should be paid up; and thought it would be a graceful act on the part of the unofficial members to make such a proposal.

On discussing Clause 3 the Honourable J. J. Felton said that he thought that it was somewhat inconsistent with Clause 4 of the Resolutions of 17th June, 1893. He did not consider that a mere bid constituted a sale, and could not agree that power should be given to the Government to do what it liked with the land if the first instalment had not even been paid. Land would be alienated from the present lessee by the mere fact of a bid having been made for it.

His Excellency reminded the Honourable Member that he was arguing on the assumption of a *mala-fide* transaction. His Excellency hoped that if a bid were made it would be made in all good faith.

The Honourable the Acting Colonial Secretary pointed out that such a case would be met by the provisions of the Auction Laws. The defaulter would have to pay for all expenses and the land would be put up for sale again.

With reference to Clause 4 the Honourable J. J. Felton observed that this clause opened the door to what he might call gambling and a land-jobbing business. A man might run up the sale price with the object of obtaining the balance, and might clear a few hundred pounds by buying it in at the second sale.

His Excellency remarked that what the Honourable Member had pointed out was not intended, but as there might be some misunderstanding if the clause were left as it now stands, the wording of it would be altered.

There was no discussion on Clauses 5 and 6.

On Clause 7 His Excellency informed the Council that the Secretary of State desired to receive the views of the Council as to the necessity of the condition requiring the erection of a suitable dwelling-house before the tenant stocked his land. His Excellency thought that it would be hard on a man if he were prevented from entering simply because he may not have sufficient money to meet the cost of building a suitable house. He thought it was unnecessary, and in view of the expenses that he would have to incur under the conditions, hoped that the Members would be unanimous in considering that this condition should be omitted.

The final discussion on these conditions was then postponed until the next meeting of the Council.

On the motion of the Honourable the Acting Colonial Secretary, seconded by the Honourable the Colonial Surgeon, an Ordinance entitled "An Ordinance to give authority to lease Town Lands," was read a first time.

The Honourable the Acting Colonial Secretary gave notice of the Second reading of the Bill at the next meeting of the Council.

The Honourable the Acting Colonial Treasurer moved the first reading of a Bill entitled "An Ordinance to provide for the payment of certain fees into the Colonial Treasury."

The Honourable the Acting Colonial Secretary seconded and the Bill was read a first time.

The Members in charge of the Bill gave notice of its Second Reading at the next meeting of the Council.

The Honourable J. J. Felton then laid two petitions on the table and gave notice that at the next meeting of the Council he would move that the same be read.

The Council adjourned until Monday, the 6th proximo.

Read, amended and confirmed, this 6th day of November, 1893.

Penalty for disobedience	Provided that if the Justice shall be of opinion that the person is improperly brought before him, and shall refuse to make any order for the vaccination of the child, he may order the informant to pay to such person such sum of money as he shall consider to be a fair compensation for his expenses and loss of time in attending before the Justice.

At a Meeting of the Executive Council held on the 6th of November, 1893.
Present: His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.
(President).

Honourable the Acting Colonial Secretary.

Hon. S. Hamilton, Colonial Surgeon.

Hon. the Acting Colonial Treasurer.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The Minutes of the previous Meeting were read, amended and confirmed.

After the reading of the Orders of the Day, the Honourable J. J. Felton moved the reading of 2 petitions received from Mr. R. Aldridge and the widow of the late Mr. Pinazo, asking for a mitigation of the penalty imposed on them for selling tobacco on which Customs Duties had not been paid. The same being read, the Honourable Member stated that although he had no sympathy with the offenders, yet the circumstances which had since occurred, which he reviewed, might perhaps allow the Members of the Government to reconsider the matter.

His Excellency explained the action which had been taken in the matter by Administrator Melville and by himself, and, as the power was vested in the Governor, and not with the Members, to deal with the case, if the Honourable Members wished him to move in the matter he would be willing to reconsider it. The unofficial Members then asked His Excellency if he could see any grounds to mitigate the penalty inflicted they hoped he would do so.

His Excellency said that he would consider what the Honourable Members had said.

The Council then went into Committee and proceeded to amend the Conditions of Sale of Land, dated 14th June, 1893, clause by clause, in accordance with the Secretary of State's suggestions made in Despatch No. 74, of 11th of September, 1893.

The Honourable the Acting Colonial Secretary explained the reasons for the various amendments.

It was explained by Mr. Felton that the reason for the insertion of Clause 1 in the conditions dated 14th June, 1893, was to fix a certain time within which information could be obtained as to the real demand for land, and so as to have some basis to work upon. It was not intended to debar persons who might wish to purchase from coming forward after the 31st July. The Clause was then expunged.

Before discussion took place on Clause 2, the Honourable J. J. Felton remarked that he could hardly be expected to vote for what he had already opposed, and which was inconsistent with the views already expressed by Lord Ripon, he thought that it was needless to enter upon a further discussion, the more especially as the Secretary of State's instructions on which the now proposed conditions had been framed could not be amended.

His Excellency informed the Honourable Member that the conditions as amended by the Secretary of State were referred back to the Council for discussion. The Secretary of State had not given an instruction, but a request that the conditions might be amended in accordance with his suggestions. The fact that the Secretary of State sent them back to the Legislative Council showed that he wished the amendments to be further discussed. His Excellency thought that it would be better that the Clauses which were not discussed at the last meeting of the Council should be now passed, and that the unofficial Members should express their opinions in writing on any alterations, after hearing the views of the Government on them, for submission to the Secretary of State.

The Honourable Members thanked His Excellency, and considered this the better course to adopt.

The discussion on the Clauses then proceeded. Clause 2 was re-numbered Clause 1 in the amended resolutions. Clause 3 was re-numbered Clause 2. The Honourable the Acting Colonial Secretary explained that this Clause, as amended, was suggested, as the former Clause was not considered elastic enough. He referred to the remarks made at the last Meeting of the Council, and agreed with

the Honourable J. J. Felton that the time within which the purchase money might be paid should be extended to 20 years.

The Honourable J. J. Felton observed that the period of 10 years had been inserted in accordance with the Secretary of State's Despatch of 31st January, 1893, (No. 16), which was the same period as that extended to the large purchasers in 1890.

The Honourable A. E. Baillon thought the words "not exceeding 15 years" should be allowed to stand. He thought that the words "Governor in Council" were superfluous, and that it would be hard on the lessee, if he bought in the land, for the Governor to fix the time within which he should pay.

His Excellency said that the Clause would effect one and all alike, and that if the term in one case were fixed for a certain number of years it must be the same in all: Mr. Baillon expressed himself satisfied.

The words "ten years" were struck out, and the following words "such period not exceeding 15 years, as the Governor in Council may think fit," were substituted therefor, and the Clause was passed as so amended.

Clause 4 was re-numbered Clause 3, and on the words "and in default of payment of any instalment of purchase money or interest the land may be re-sold" being proposed to be added, the Honourable J. J. Felton referred to his contention, at the previous Meeting, that there could be no re-sale when no sale had taken place. He remarked on the hardship that the present lessee had to undergo by conditions which had compelled him to sink all his capital in the land. He objected to the re-sale.

The Honourable the Acting Colonial Secretary pointed out that if the conditions which were applicable to the lessee were hard, that was no reason that the present conditions should be made hard.

The Honourable A. E. Baillon did not agree with the proposed amendment, as with it he could not reconcile the condition with paragraph 15, of the Secretary of State's despatch, 31st January, 1893. He did not consider a bid constituted a sale.

His Excellency told the Honourable Member that he could include his objection to this Clause in any protest that he might put in writing.

His Excellency then read the Clause as proposed to be amended.

The Council divided.

For:—His Excellency.

The Honourable the Acting Colonial Secretary,

The Honourable the Colonial Surgeon.

The Honourable the Acting Colonial Treasurer.

Against:—The Honourable J. J. Felton.

The Honourable A. E. Baillon.

The Clause was declared carried, and was inserted in the conditions.

Before Clause 5 a Clause numbered 4 was inserted but consideration of it postponed to a subsequent meeting.

Clause 5 remained unaltered.

In Clause 6 the words "approved of by the Governor" were struck out.

Clause 7 was rescinded and read as follows:—

That, except with the consent of every owner or lessee of land adjoining the land no stock shall be placed on the land purchased until proper arrangements for the dipping of sheep are provided, and the lands completely fenced in by a proper sheep-proof fence, half the cost of fencing to be borne by the purchaser, and the other half by the lessee or lessees or owner or owners of the adjoining land, and, if more than one, in proportion to the length of the fence, separating their respective lands from the purchased lands.

Reference was made by His Excellency to the retention of the words, "suitable dwelling-house shall be erected," and asked the unofficial Members for their views on this subject.

The Honourable J. J. Felton said that so far as he was personally concerned he did not care whether these words were omitted or not. But if a man had no house and fell ill he would have to fall back upon his neighbour, a lessee probably, for shelter, to whom he might become a burden, and so might tend to increase the expenses of the lessee. He did not think that a man could carry on his work properly without the comforts a house would give him, and it would be going backwards if a man were allowed to live in a hovel or under a peat-bank. He thought that, as in the town of Stanley, huts should not be allowed to be erected under certain dimensions. As a small farmer, he added, would not employ labour at

the rates given by the present lessee he feared that this might cause the introduction of foreign labour.

His Excellency reminded the Council that the provision in the former Ordinances for lessees to erect suitable dwelling-houses did not hold good now in the case of proposed purchasers. That provision was made to ensure a man settling on his land and not to throw it up after having killed off all the cattle. This necessity had now disappeared.

The Honourable the Acting Colonial Secretary thought that the Honourable Member had overlooked the intention of the Clause as it at present stood, namely, that a suitable house should be built before the land was stocked. He referred to the system of Club Farms in the United Kingdom, where one plant provided for wants of one or more farms. He proposed that the words be struck out.

On a division. For:—His Excellency.

The Honourable the Acting Colonial Secretary.

The Honourable the Colonial Surgeon.

The Honourable the Acting Colonial Treasurer.

Against:—The Honourable J. J. Felton.

The Honourable A. E. Baillon.

The Clause was declared carried.

The Conditions were then left in Committee Stage so that Clause 4 might be re-considered and brought up again.

The Council having resumed its sitting, the Honourable the Acting Colonial Secretary moved the Second Reading and consideration in Committee of an Ordinance entitled "An Ordinance to give authority to lease Town Lands." The motion being carried, the Council resolved itself into Committee. In Clause 1, the Honourable J. J. Felton proposed that the words "or in any other township" which hereafter may be proclaimed" be expunged, as it was premature to legislate for such, and people who might reside in any township to be hereafter created might like to have a say in the matter.

His Excellency mentioned that these words appeared in the Ordinance dealing with the Sale of Town Lands.

The Honourable the Acting Colonial Treasurer thought that the same principles which led to the introduction of the Ordinance as dealing with the Town of Stanley should apply to any towns that might come into existence in the future. It would be inexpedient to have a Bill affecting one town and not another.

The Honourable A. E. Baillon suggested that leases should be put up to auction as provided by Clause 9, of Ordinance 4, of 1871.

It was pointed out to the Honourable Member that law only provided for sales by auction, and if the Honourable Member's suggestion were adopted the whole object of the Bill would be defeated, namely, the prevention of the man with the longest purse becoming a Town Land monopolist.

The Honourable Member thought that some provision should be made for the individual rights, as freeholders would not care for a blacksmith's shop, for instance, in front of them.

On it being put to the vote, Clause 1 stood part of the Bill and was passed as drafted.

In Clause 2, the word "Town" was inserted in line 1, before the words "Land Ordinance, 1893."

In the preamble the words "subject to the approval of Her Majesty's Principal Secretary of State for the time being" were struck out, the unofficial Members dissenting.

The Council having resumed, the Honourable the Acting Colonial Secretary gave notice of the Third reading of the Bill at the next Meeting of the Council.

The Honourable the Acting Colonial Treasurer then moved the Second reading of a Bill entitled "An Ordinance to provide for the payment of certain fees into the Colonial Treasury." The same being carried the Council resolved itself into Committee, and the Bill passed through the Committee Stage without amendment.

The Council adjourned until Wednesday the 8th instant.

Read, and confirmed, this 8th day of November, 1893.

Clerk to Council.

At a Meeting of the Executive Council held on the 8th of November, 1893.
Present : His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.
(President).

Honourable the Acting Colonial Secretary.
Hon. S. Hamilton, Colonial Surgeon.
Hon. the Acting Colonial Treasurer.
Hon. J. J. Felton.
Hon. A. E. Baillon.

The minutes of the previous meeting were read and confirmed.

The amended conditions of sale of land were brought up again so that Clause 4 might be considered. It was however suggested in place of amending this Clause that the following words should be added to Clause 3, "at an upset price not less than that bid by the defaulting purchaser," in order that Government should not be the loser if the land were sold at a lower price than Government previously obtained for it.

The Honourable J. J. Felton said that he had already opposed the Clause and did not agree to the additional words as it would alter the constitution of the conditions of sale, which provided for 4/- being the upset price. He asked what would become of the land if there were no bid at the higher price and suggested that the payment of any instalment should give a man a title to a block of so many acres and become the freeholder of such.

His Excellency replied that in the event of there being no bid at the higher price the Government would have to consider if any circumstances had altered the value of the land as to justify the land being put up at the original upset price. He did not agree with the Honourable Member's suggestion for the purchase of a title of a small block by payment of an instalment, as the man who failed to complete his purchase might thus retain a small block and lower the value of the remainder.

His Excellency, on further consideration, thought that it would be better perhaps, after all, to leave Clause 3 as amended by the Secretary of State, and asked the unofficial members to insert their views on the Clause in their memorial regarding the various amendments proposed in the conditions of sale of June, 1893, this was agreed to. Clause 4 was then read and on a division.

For the Clause.—His Excellency.

The Honourable the Acting Colonial Secretary.
The Honourable the Colonial Surgeon.
The Honourable the Acting Colonial Treasurer.

Against :— The Honourable J. J. Felton.
The Honourable A. E. Baillon.

The Honourable the Acting Colonial Secretary then moved the Third reading of an Ordinance entitled "An Ordinance to give authority to lease Town Lands." The Honourable the Colonial Surgeon seconded.

The Honourable A. E. Baillon on asking if he would be in order in speaking on the Bill at its present stage was allowed by His Excellency, with the consent of the Council, to state what he wished to say regarding it.

The Honourable Member then stated that he considered that the system that has obtained of dealing with town lands by auction, as provided by Clause 9 of Ordinance 4 of 1871, should be followed when they are leased. As for the man with the longest purse being so able to lease, he thought that this would tend to the benefit of the Revenue as the sites would be the most valuable to such a man.

His Excellency informed the Honourable Member that such might be so, but that it would prevent a man, who is not in business, setting up for himself, as the longest purse would carry the day and thus prevent fair competition in trade.

The Honourable J. J. Felton thought that the rental of a lease should bear a fair proportion to that what it would fetch if sold by public auction. He considered that individual rights should be protected.

The Bill was then read a Third time and was passed.

The Honourable the Acting Colonial Treasurer moved the Third reading of an Ordinance entitled "An Ordinance to provide for the payment of certain fees into the Colonial Treasury," and being seconded by the Honourable the Acting Colonial Secretary was read a Third time and passed.

The Council was adjourned *sine die*.

Read, amended and confirmed, this 14th day of November, 1893.

20.—Any merchant vessel, having on board more than one hundred pounds of gunpowder, must be anchored either in Port William or in Stanley Harbour, East of Navy Point, until the Master shall have deposited the same (for the term of his stay) in the powder magazine, for which a charge of sixpence per package will be made; but it shall be in the power of the Governor to grant certain privileges for the ready discharge of ammunition consigned for the use of the Government or Merchants of this Colony, should such be deemed advisable by him.

21.—No master or other officer commanding any vessel (except a vessel of war) shall keep, or cause or permit to be fired on board such vessel, any cannon loaded with ball, while such vessel shall lie or be in Stanley Harbour.

By His Excellency's Command.
CHARLES A. FRASER,
Acting Colonial Secretary.

1.—That all land reserved shall be exposed to public auction at an upset price of four shillings per acre.

2.—That the purchasers shall be allowed such period, not exceeding 15 years, as the Governor in Council may think fit, to complete the purchase of the land bought by equal yearly payments.

3.—That the first instalment of the purchase money shall be paid by the purchaser immediately after the sale to him, and interest at the rate of $2\frac{1}{2}$ per centum per annum shall be payable half yearly on the unpaid balance of the purchase money, and in default of payment of any instalment of purchase money or interest the land may be resold.

4.—That in such an eventuality of resale, the Government shall, after retaining out of the purchase money on the resale, the cost of sale and the amount due from the original purchaser for unpaid purchase money and interest, pay over the balance to the original purchaser. Should there be no bid at the second sale the land will revert to the Crown.

5.—That no title shall issue to the purchaser until the last instalment of the purchase money shall have been paid.

6.—That any payments to be claimed by the outgoing lessee for improvements shall be payable by the purchaser on valuation at date of entry, or at some later date by special agreement with the outgoing lessee.

7.—That, except with the consent of every owner or lessee of land adjoining the land no stock shall be placed on the land purchased until proper arrangements for the dipping of sheep are provided, and the lands completely fenced in by a proper sheep-proof fence, half the cost of fencing to be borne by the purchaser, and the other half by the lessee or lessees or owner or owners of the adjoining land, and, if more than one, in proportion to the length of the fence, separating their respective lands from the purchased lands.

His Excellency the Governor directs the publication for general information of the following Resolution of the Executive and Legislative Council expressing the grief of this Colony on the occasion of the intelligence received of the loss of Her Majesty's Ship "Victoria," and of the Right Honourable the Secretary of State's reply thereto.

By Command,

C. A. FRASER,

Acting Colonial Secretary.

Colonial Secretary's Office,

Stanley, 30th December, 1893.

To the Right Honourable the Marquis of Ripon, K.G., &c., &c., &c., Her Majesty's Principal Secretary of State for the Colonies.

The Administrator and Members of the Executive and Legislative Councils of the Colony of the Falkland Islands desire on their own behalf and on behalf of the inhabitants to convey an expression of their deep sorrow at the sad calamity which, through the loss of Her Majesty's Ship "Victoria," has deprived the nation of the services of so many brave and distinguished officers and men of Her Majesty's Navy.

To a Colony such as this, whose sole sense of security may be said to lie in the one link of union with Great Britain through the Navy, a catastrophe such as the one we now deplore has come home in these Islands with a most saddening force intensified by the fact that the gallant Admiral, whose death the British Nation now mourns, had in years gone by, when serving on the South East Coast of America, endeared himself to many of the inhabitants of this Colony. We desire further to offer our most sincere condolences to the relatives and friends of the officers and men who have so sadly but heroically perished.

3.—All fowl-houses, fowl-coops, pig-stys, or any buildings in which animals are kept, must be placed in such position as the Board of Health may seem best for the prevention of a nuisance, and the protection of the inhabitants of the neighbourhood.

4.—Until a proper hospital or building has been provided, to which cases of contagious or infectious diseases can be removed, every person on whose premises any case of a disease of a contagious or infectious nature occurs, shall be bound to take whatever precautions the Board of Health may deem necessary to order such person to adopt for the purpose of preventing the spread of such contagious or infectious disease. 5.—Before any building intended to be used as a Slaughter House can be erected or converted into such, the Board of Health must have submitted to it, for approval, a statement detailing the position of such building, and must be satisfied of the necessity for the same, and may withhold or grant its sanction under such regulations as may be considered necessary.

6.—Before any person intending to carry on any noxious or offensive trade, as that of a soap-boiler, tallow-melter, or such like, shall commence to take steps for the starting such trade, it shall be necessary for such person to obtain in writing the sanction of the Board of Health, and the Board of Health taking into consideration the district in which it is proposed to carry on such trade, shall have power to define what is a noxious or offensive trade, and shall satisfy themselves before granting such sanction, that every precaution is taken to prevent any noxious exhalations from chimneys and such like.

7.—Before any markets shall be held the Board of Health must first approve of the same, and sanction some place for the holding of such markets, and such markets shall be conducted under rules and regulations to be issued by the Board of Health at the time of giving its sanction.

8.—If it shall become necessary to alter in any way the existing Burial Grounds, or to lay out any new Burial Grounds, the alterations or laying out of the same, as the case may be, must be submitted by the Burial Board or Committee of Management to the Board of Health for its approval, the same to be submitted to the Governor in Council for his approval.

9.—All lots lying to the Westward of the boundary of the Cemetery extending Westward to the Government Reservoir, North to the Sea shore, and South facing the North of Fitzroy road, also including all Pensioners allotments, whether occupied or not, must be carefully fenced in by a substantial fence, the sufficiency of which shall be determined by the Board, and the owner or occupier shall be required to keep such fence in repair. In the case of mutual fences, it shall be lawful for the person who repairs the fence, to recover a moiety of the cost of such repair from the mutual owners. Every owner or occupier must see to the cleanliness of the lot occupied by him, and it shall be competent for the Board of Health to inspect any lot, and to cause any removal of any nuisance found to exist. If any person fail to comply with the requirements of any of the above Bye-Laws or Regulations, or any hereafter to be made, or neglect to carry out any orders issued by the Board of Health, such offender shall be liable for each time of offending, to such fine not exceeding five pounds (£5) or term of imprisonment, as the Court may determine.

The following is a statement of the transactions of the Bank since its establishment on 1st April, 1888, to 30th September, 1893.

Year.	Accounts opened.	Accounts closed.	Number of Deposits.	Number of Withdrawals	Amount of Deposits with accrued interest.			Amount of Withdrawals.

The result of the establishment of the Bank therefore shows that there are 220 Depositors with a balance of £30,073 7 4, or an average of £136 13 10, standing to the credit of each account.

Computing the population of the Colony at 1890 the average savings per head is £16 14 1 $\frac{3}{4}$, an increase of £2 16 11 $\frac{3}{4}$ over last year.

The Depositors have been credited with £633 14 8 in interest during the year, being £77 14 2 in excess of that credited last year, while the balance of deposits over withdrawals is £4,499 3 3 as against £2,756 16 1 at the end of the previous year.

The Investments on account of the Bank are in English Consols and Colonial Inscribed Stock, bearing interest at the rates of 3 3 $\frac{1}{2}$ and 4 per centum. On the 30th September, 1893, they stood thus:—

Consols	£3199	1	3
Inscribed Stock	£22,200	3	8
Uninvested	£4674	2	5

Since the above date, however, a further sum of £1800 was in transit for Investment on account of the Bank.

The income earned by the Bank has been £675 16 9, and the expenses incurred £637 18 8, leaving a profit of £37 18 1. No charge for management has been debited against the Bank, nor has any allowance been credited to it for the uninvested balance.

At a Meeting of the Legislative Council held on the 9th of February, 1894.

Present : His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.
(President).

Honourable the Acting Colonial Secretary.

Hon. S. Hamilton, Colonial Surgeon.

Hon. the Acting Colonial Treasurer.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The minutes of the previous meeting were read and confirmed.

Despatches No. 84, 83 and 92 of 27th October and 7th December, recording the thanks of the Royal Family to the Executive and Legislative Councils and the inhabitants of the Colony for their congratulations on the occasion of the marriage of their Royal Highnesses the Duke and Duchess of York, and those of the Lords Commissioners of the Admiralty, for an expression of grief received from this Colony on receipt of the news of the loss of H. M. S. "Victoria," were read by His Excellency.

The Acting Colonial Secretary moved the First reading of a Bill entitled "An Ordinance to extend the provisions of Ordinance 5 of 1891, entitled 'An Ordinance to consolidate and amend the Laws relating to Customs Duties and Trade'" and being seconded by the Honourable the Colonial Surgeon, the Ordinance was read a first time.

The suspension of the Standing Orders having been carried so that the consideration of the Bill might be proceeded with, the Honourable the Acting Colonial Secretary in moving the Second reading and going into Committee, which was seconded by the Honourable the Colonial Surgeon, explained that the reason for the introduction of the Bill was owing to a statement made by the Master of the "Ruth Waldron" that he would make it uncomfortable for the officer if he was put on board, and by his subsequent action in providing him with accommodation in the fore-castle with the crew. It had therefore become necessary to make arrangements for the accommodation of these officers and for their return passage so that, as had been the case, they should not purposely be landed at an out of the way place from which it is not easy for them to return.

The Council went into Committee.

Question put—that Clause 1 stand part of the Bill. Carried. The unofficial Members dissenting.

Question put—that Clause 2 stand part of the Bill. Carried. The unofficial Members dissenting.

Question put—that Clause 3 stand part of the Bill. Carried. The unofficial Members dissenting.

On the preamble being read the Honourable J. J. Felton asked "is it expedient" and after referring to the necessity of the terms of Ordinance No. 5 of 1891 and its working, asked if the Government had any information as to whether smuggling was being carried on by lessees, or if the provisions of the laws were being obstructed.

His Excellency informed the Honourable Member that the reasons for introducing the recent Ordinance had already been explained and old ground could not be gone over in arguing as to the necessity or not of the provisions of the Ordinance already in existence. His Excellency added that it was to accommodate the consignee and owner that a Customs Officer was put on board.

The Honourable A. E. Bailion asked if Government could guarantee the respectability of Customs Officers and referred especially to the Customs Officer who had been put on board of the Falkland Islands Company's Schooner "Thetis." He also asked if any menu would be laid down to be provided for 2/- a day: and stated that there was no provision made for expenses if a ship were blown away.

His Excellency replied that the Government would always endeavour to obtain the most respectable men possible, but the Government could not be put to expense in the eventuality just mentioned by the Honourable Member.

The Honourable A. E. Bailion said it only remained then for him to make his protest in writing to the Secretary of State.

His Excellency said he would be most happy to forward any protest or memorial he might receive on the subject.

Questions put—that the preamble, enacting clause and title stand part of the Bill. Carried. The unofficial Members dissenting.

The Council resumed.

The Honourable Colonial Secretary gave notice that he would move the Third Reading of the Bill entitled 'An Ordinance to extend the provisions of Ordinance No. 5 of 1891, entitled "An Ordinance to consolidate and amend the Laws relating to Customs Duties and Trade,"' on to-morrow the 10th instant.

The Honourable Colonial Secretary also gave notice that, at the next Meeting, he would move a Resolution for provision being made for the expenses of the Survey for the year 1894.

Read and confirmed this 10th day of February, 1894.

Clerk to Council.

By His Excellency's Command,

Draft.

Bill entitled "An Ordinance to amend the Land Ordinance, 1882."

Be it enacted, &c.,

1.—The following provisions shall have effect with respect to any land comprised in a lease of Crown lands which upon the expiration or determination of such lease or at any time after such expiration or determination and the grant of a new lease to the former lessee under the provisions of the Land Ordinance 1882, the Governor in Council shall deem it expedient to sell and with respect to any land comprised in a lease of Crown lands which shall be or shall have been surrendered by the lessee to the Crown for the purpose of being offered for sale;

(1) The land shall be put up for sale by public auction in such lots as the Governor in Council shall determine at the upset price for the time being for country lands.

(2) Every lot of land so put up for sale shall before the sale be surveyed by a Surveyor employed by the Government and a plan shewing the situation and boundaries of the lot, the number of acres which it contains as ascertained by the survey, the names of the owners or lessees of the adjoining lands, and the length of the boundary line between the lot and the land of each adjoining owner or lessee shall be made by such Surveyor and exhibited at the sale by the Auctioneer and a copy or plan of the tracing shall be given to the purchaser. The matters hereby required to be shewn on the map shall also be stated in printed particulars of Sale.

(3) The purchase money shall be payable by such number (not exceeding 15) of equal yearly instalments as the Governor in Council shall determine and as shall be notified in the Government Gazette before the sale. The first instalment shall be paid at the conclusion of the sale and each subsequent instalment together with interest at the rate of $2\frac{1}{2}$ per centum per annum on the unpaid balance of the purchase money for the time being from the date of the payment of the last previous instalment shall be paid at the expiration of one year from the day on which the last previous instalment was payable. But the purchaser may at any time pay the whole of the purchase money remaining unpaid with the interest thereon which has accrued since the date of the last previous payment of an instalment.

(4) The highest or only bidder for every lot put up for sale at or above the upset price shall be the purchaser.

Immediately upon the conclusion of the sale the purchaser shall pay the first instalment of the purchase money and sign an agreement to complete the purchase and to fulfil the conditions of sale. If any purchaser, whether the original purchaser or a purchaser substituted under this sub-section, shall fail to pay the first instalment or to sign the said agreement, the sale to him shall be void and the next highest bidder (if any) at or above the upset price shall be the purchaser.

(5) If any purchaser shall fail to pay the second or any subsequent instalment of purchase money or any interest for the time being payable by him on the day on which such instalment or interest becomes payable or within 21 days thereafter, the Governor may, and if such default shall continue for 3 months from the day on which such instalment or interest becomes payable, the Governor shall cause the land purchased by such purchaser to be again put up for sale by public auction at the same upset price and on the same conditions as at the previous sale.

(6) If any land shall be again put up for sale as aforesaid the previous sale thereof shall thenceforth become void and the purchaser at the previous sale shall give up possession thereof and shall have no further right or interest in or lien upon such land.

(7) If after payment in full of the purchase money and interest payable by the purchaser at the second sale the Government shall have received in respect of such purchase money and interest an amount exceeding the purchase money and interest which the Governor would have received from the purchaser at the previous sale if he had complied with the conditions of sale then out of such excess, after deducting therefrom the expenses of the second sale the Government shall repay to the purchaser at the previous sale the amount of the instalments of purchase money and interest which he shall have actually paid or so much thereof as such excess shall suffice to repay but in no other event shall a purchaser have any claim for repayment of instalments of purchase money or interest paid by him.

8.—Every purchaser whether at a first or second sale shall be let into possession of the land purchased by him upon payment of the first instalment of purchase money and upon his signing the above-mentioned agreement, but no grant of the land shall be issued to him until he shall have paid the whole of the purchase money and all interest payable under the conditions of sale.

9.—The sum of money (if any) payable by the purchaser of each lot put up for sale to the former lessee of such lot as the value of improvements thereon under Sec. 3 of the Land Ordinance 1882, shall be determined in the manner provided by that section before the lot is put up for sale and shall be stated in the Particulars of Sale, and shall be paid by the purchaser to the former lessee, or his legal personal representatives, within 7 days from the date of the sale or at such later date as may be agreed upon by the parties. If the purchaser at a first sale shall not pay the said sum of money within the said 7 days, or on the day agreed upon, as the case may be, the lot shall be again put up for sale by auction in the same manner, and with the same consequences as if such purchaser had made default for three months in payment of an instalment of purchase money.

10.—No stock shall be placed on any lot so sold as aforesaid until proper arrangements for the dipping of sheep to the satisfaction of the Governor in Council have been provided thereon, or on some adjoining land occupied by the same person, or occupied by some other person if such lot and such adjoining land are farmed in common, or until such lot has been completely fenced in by proper sheep-proof fence to the satisfaction of the Governor in Council, provided that with the consent of the owner or lessee of any land adjoining such lot the erection of a fence between such and such adjoining land may be dispensed with.

11.—The purchaser of every lot, his heirs or assigns shall, before the expiration of 2 years from the date of the sale, erect on such lot a suitable and substantial dwelling house to the satisfaction of the Governor in Council. Default in compliance with this sub-section shall entail the same consequences as default in pay-

ment of a second or subsequent instalment of purchase money for three months.

12.—In either of the following cases—viz.: (i) If at any sale, whether an original sale or a resale under sub-section (5) there shall be no bidding for a lot put up for sale equal to or above the upset price: (ii) if at any sale whether an original sale or a resale under sub-section (5) the purchaser and every purchaser (if any) substituted under sub-section (4) of any lot shall fail to pay the first instalment of purchase money on the day of sale: (iii) if the purchaser at a second sale of any lot shall fail to pay to the former lessee the money payable under sub-section (9) within 7 days from the date of the sale or on the day agreed upon (as the case may be): then the former lessee (if any) of such lot shall be entitled to have a new lease thereof on the same terms as if the Governor in Council had not deemed it expedient to sell such lot, or if such lot had been surrendered for the purpose of being put up for sale, then it shall revert to the lessee for the residue of the term of the lease as if it had not been surrendered.

13.—Land comprised in an expired lease which the Governor in Council shall deem it expedient to put up for sale shall, if the former lessee so desires, remain in his possession until it has been actually sold, subject to the payment of the same rent therefor as if it had been comprised in a new lease to him under the provisions of Section 2 of the Land Ordinance 1882, but the Surveyor employed by the Government shall be entitled to enter on and survey such land for the purpose of the sale thereof and for the purpose of determining the value of the lessee's improvements thereon.

14.—The cost of the fences to be erected between any lot which shall be sold as aforesaid and the adjoining lands shall be borne by the purchaser of the lot and the owner or lessee of the adjoining land in equal shares. In the absence of any agreement to the contrary the fence shall be erected by the purchaser, and he shall have the right to recover from each adjoining owner or lessee a proportion of the half of the entire cost thereof according to the length of the fence between the lot and the land of such adjoining owner or lessee.

His Excellency the Governor directs the publication of the following notice, which has been received from the Board of Trade.

12.—Any Visiting Justice of the Gaol shall have authority upon the same being recommended by the Colonial Surgeon as being desirable and necessary to direct and permit any lunatic confined in Gaol, when his state of health requires it, to take exercise without the grounds of the Prison under the control of an Officer or Officers in such manner as the Colonial Surgeon may direct. Lunatics whilst being allowed this privilege shall be deemed to be in custody under the warrant by virtue of which they were originally detained and may be taken back to Prison and there again kept without any further or other authority than the original warrant.

13.—If upon the trial of any person charged with any offence not punishable summarily it shall appear that such person was insane at the time of the commission of the offence and such person shall be acquitted on that ground, or if any person charged with any such offence shall be found to be insane, or if, during the trial of any person upon the charge of any offence not punishable summarily it shall be found that such person is insane such verdict and finding shall be recorded and the Judge of the Supreme Court shall order such person to be conveyed to the Gaol there to be kept until discharged or removed by order of the Governor in Council.

14.—The Judge of the Supreme Court may whenever he deems it expedient make enquiries as to the property of any person detained as a lunatic and summon and examine such parties as he may think proper; and require all statements which he may consider necessary, in order to discover particulars of the property of the lunatic and generally exercise all powers necessary for the proper discovery application and protection of this property. The Judge of the Supreme Court may also order any property of the lunatic to be sold or dealt with as the Judge thinks most expedient for the purpose of raising or securing money for the payment of or provision for the expenses of the lunatic's future maintenance or for any purpose which in the opinion of the Judge is for the benefit and restraint of the said lunatic.

15.—(i) And as there is no Lunatic Asylum or Institution for the proper care and custody of Lunatics in these Islands be it enacted that whenever any person shall be confined as a

lunatic in the Gaol it may be lawful for the Governor in Council, whenever it shall be made to appear desirable and necessary, to order the said lunatic to be removed in safe custody to the United Kingdom there to abide such order as may be necessary for securing the detention of the said lunatic in a fit and proper Asylum or Institution for the care of lunatics in the said Kingdom.

ii) In all such cases a transcript of the proceedings in the matter of the lunacy of such person shall be transmitted by the Governor to Her Majesty's Secretary of State for the Colonies.

16.—It shall be lawful for the Governor in Council from time to time to make alter or rescind all rules and orders and to incur all expenses which may be found necessary for carrying this Ordinance into execution.

17.—All Proceedings, Inquiries, Warrants and Orders which have been at any time begun made and issued by the Officials of this Government for the custody care and control of lunatics are hereby recognized as good and valid as if begun made and issued under the authority of this Ordinance.

18.—This Ordinance may be cited for all purposes as the Lunacy Ordinance, 1894; and shall come into operation on the passing thereof.

At a Meeting of the Legislative Council held on the 8th of March, 1894.
Present : His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.
(President).

Honourable C. A. Fraser, Colonial Secretary.

Hon. S. Hamilton, Colonial Surgeon.

Hon. J. J. Felton.

Hon. A. E. Baillon.

A Commission appointing His Honour T. A. Thompson, Judge, to be a Member of the Council, was read, and the Honourable Member took his seat on the Council.

His Honour the Judge moved the introduction and first reading of a Bill entitled "An Ordinance to amend the Land Ordinance, 1882." The Honourable the Colonial Secretary seconded and the Bill was read a First time.

The suspension of the Standing Orders being duly carried, His Honour the Judge moved the Second reading and consideration in Committee of the Bill, and explained its general principles. The Honourable the Colonial Secretary seconded.

The Council then went into Committee and considered Clause 1 and the sub-sections one by one.

Sub-section (1). The Honourable J. J. Felton asked if the Law under consideration would affect existing rights of lessees or deprive them of such rights as they already held under Ordinance 9 of 1882, as it had not been always certain as to the meaning of certain conditions. He asked His Honour the Judge the intention of the words "should be sold or reserved for any public purpose" in Sec. 2 of Ordinance 9, 1882.

His Honour replied that the proposed law did not interfere with existing rights, that the Governor in Council has the power to reserve for sale under the section referred to, but that was not affected at all by the present law. He was surprised at any legal man putting any other interpretation on the meaning of the words quoted.

The Honourable A. E. Baillon asked if the lots offered for surrender for sale to Mr. Melville would be the lots that would be put up for auction.

His Excellency said he was not prepared at the present moment to say which lots will be put up for sale as there were several questions to be settled first.

Sub-section (1) was passed.

Sub-sections (2) and (3) on being read were passed.

Sub-section (4). His Honour the Judge, in reply to the Honourable J. J. Felton, explained that in the case of a failure to obtain bids the land would revert to the original lessee.

The sub-section was passed.

Sub-sections (5), (6) and (7) on being read were passed.

Sub-section (8). The Honourable J. J. Felton asked that the present lessee might be allowed some time within which to move his stock off the land, as a new man being let into possession immediately on payment of a first instalment might cause injury and inconvenience to the lessee.

His Excellency agreed with the Honourable Member, and did not consider that the incoming tenant should be allowed to make use of his powers of possession over the stock until the original lessee had had reasonable time in which to remove them. His Excellency also considered that as the rents were paid in advance the balance of rent in respect of the unexpired portion of the lease should be refunded to those lessees whose lands were sold. After some discussion it was unanimously agreed that the above should be referred to the Secretary of State for his favourable consideration and the insertion in the Particulars of Sale of the time granted for the removal of stock in each case, it being considered better to leave the Ordinance intact.

Sub-section (9). The Honourable J. J. Felton asked if the present Surveyor was competent to assess the value of improvements, and proposed that the lessee should be able to demand a board to make such assessments, and to remove his buildings, &c.

His Excellency said that he was unaware if Mr. Creegan was a sworn Surveyor, but this could be ascertained. If he was not considered fit there was nothing under Section 3 of Ordinance 9 of 1882 to prevent him from obtaining the assistance of experts. The Committee agreed to this question being referred to the Secretary of State.

Sub-section (9) was passed.

Sub-sections (10), (11), (12), (13) and (14) on being read were passed,

On the Council resuming, his Honour the Judge moved the Third reading and passing of the Bill. The Honourable the Colonial Secretary seconded and the Bill was passed.

After an explanation by His Excellency as to the necessity of asking for a sum of £500 from the surplus fund for Expenditure on Public Works; the Honourable the Colonial Secretary moved the following resolution:—"For a sum of £500 as a special vote towards the expenses to be incurred on local roads, sea walls and jetties during the year 1894." This sum, the Colonial Secretary added, was not taken last year from the Reserve Fund although voted, it having been met out of General Revenue which had proved more elastic than had been anticipated. The Council was therefore really now asked to vote for what it had voted last year, the Reserve Fund still standing at £2,000. After some discussion as to the way labour was performed and the system of employment peculiar to the place, which it was unanimously agreed might be advantageously altered if possible, his Honour the Judge seconded the resolution, and the resolution was adopted.

On his Honour the Judge withdrawing.

The Honourable the Colonial Surgeon moved the following resolution:—"For a vote of £20 per annum as an allowance for the services of an Auditor." It was explained that this duty would be performed by his Honour the Judge, and would thus provide for a pre-audit and post-audit in the Colony in conjunction with the Imperial Audit.

The Honourable A. E. Baillon seconded and the resolution was adopted.

The Honourable the Colonial Secretary then moved the following resolution:—"For a vote of £100, being the refund of the amount paid by Messrs. Luchtenberg and H. Grant for a Sealing Licence in 1893." This vote it was explained was passed last year under the circumstances then given, but lapsed owing to the parties failing to make a demand for the payment. Application having been recently made caused it now to be brought forward.

His Honour the Judge seconded and the resolution was adopted.

The Council adjourned *sine die*.

Read and confirmed this 11th day of April, 1894.

C. W. HILL,

Clerk to Council.

By Command,

CHARLES W HILL.

Acting Colonial Secretary.

Stanley,

31st May, 1894.

At a Meeting of the Legislative Council held on the 11th of April, 1894.
 Present: His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.
 (President).

His Honour T. A. Thompson, Judge.
 Honourable C. A. Fraser, Colonial Secretary.
 Hon. S. Hamilton, Colonial Surgeon.
 Hon. J. J. Felton.
 Hon. A. E. Baillon.

The Minutes of the previous Meeting were read and confirmed.

His Honour the Judge moved the introduction and first reading of a Bill entitled "An Ordinance to provide for the custody and control of Lunatics." The Honourable the Colonial Surgeon seconded and the Bill was read by title.

The suspension of the Standing Orders having been proposed by His Honour the Judge and seconded by the Honourable the Colonial Secretary, His Honour the Judge moved the second reading and going into Committee of the Bill. The Honourable the Colonial Secretary seconded.

The following amendments were made in Committee:—

Clause 2, line 1. The word "officer" was substituted for the word "constable."

Clause 4, line 1. The word "officer" was substituted for the word "constable."

Clause 5, Sub-section (ii) line 3. The word "direct" was substituted for the word "summon" and after the word "Surgeon" the following words were inserted "or any Medical Practitioner."

Clause 11, line 6. After the word "Governor" the insertion of the word "in Council," and the substitution of the word "may" for the words "is hereby empowered to."

Clause 13, line 4. The words "or if any person charged with any such offence shall be found to be insane" were deleted.

Clause 16, line 2. The words "alter or rescind all" were deleted.

Clause 1 was inserted before the final Clause 18 and the numbers of the preceding clauses were altered accordingly.

The Bill was left in Committee.

On the Council resuming, the Honourable the Colonial Secretary moved the introduction and first reading of a Bill entitled "An Ordinance to make further provision for the Service of the Colony of the Falkland Islands for the year 1893." The Honourable the Colonial Surgeon seconded and the Bill was read a first time.

The suspension of the Standing Orders being duly carried the Honourable the Colonial Secretary moved the second reading and going into Committee of the Bill. The Honourable the Colonial Surgeon seconded.

The Colonial Secretary explained the items of excess and savings on the various votes. The Committee considered that the expenditure of £76 10 5 by the Crown Agents on the drawing up of the Mail contract should not be allowed to pass without comment. The Honourable the Colonial Treasurer promised to furnish the accounts at the next Meeting.

In reply to a question from the Honourable A. E. Baillon, His Excellency informed the Honourable Member that Mr. Smith, though acting as Foreman of Works, received the ordinary wages of 1/- an hour. Replying also to the Honourable Member, His Excellency stated that when a vote was exceeded it was the correct principle to ask for a Supplementary vote before incurring extra expenditure, at the same time it was not always possible, as the Crown Agent's accounts sometimes exceeded the estimated cost, added to which the saving generally ascertainable only at the end of the year under one sub-head often balanced the excess in expenditure on another sub-head under the same vote.

The Bill was left in Committee.

The Council resumed and was adjourned until Friday, the 13th, at 11 a.m.

Read and confirmed this 25th day of May, 1894.

(Signed)

W. COULSON,
 Acting Clerk to Council.

NOTICE TO MARINERS.

SOUTH ATLANTIC OCEAN.

ICE ISLANDS AND BERGS.

With reference to Notice to Mariners, No. 617 of 1893, on Ice-islands and bergs in the South Atlantic Ocean:—

Mariners are warned that reports are still being made of the existence of icebergs within the boundary last mentioned in the foregoing Notice. This boundary line roughly stretches from lat. 55 deg. S., long. 43 deg. W., to lat. 51 deg. S., long. 45 deg. W.; then to lat. 49 deg. S., long. 43 deg. W.; and to lat. 37 deg. S., long. 20 deg. W. To eastward of it is ice.

Large masses of ice in this area were first seen in April 1892, and have been constantly reported since by vessels passing this locality. There seems to be at present no sign of any diminution in the number or size of the bergs reported, and the area must therefore still be considered dangerous for some considerable period.

This Notice affects the following Admiralty Charts:—Ice chart of the Southern Hemisphere, No. 1241; South Atlantic ocean, Nos. 2203, 2202b; Atlantic and Indian oceans, No. 2483; Also South America Pilot, part I., 1885, page 3; and Supplement, 1890, relating to South America Pilot, part I., page 1.

Scab Ordinance, 1894.

The attention of the owners of Sheep Stations is called to the following synopsis of a Scab Ordinance passed unanimously by the Legislative Council and which will come into operation upon the publication of a Notice in the Government Gazette that Her Majesty has not been advised to disallow the same.

The Ordinance will be rigidly enforced against all who wilfully violate its provisions, but every care will be taken not to embarrass or harass those who endeavour, as far as possible, to conform to its requirements.

It will be advisable for the owners of Stations who may possess only a limited supply of proper medicaments for dipping sheep or of material for erecting paddocks and suitable dipping places to obtain these articles as soon as practicable.

By Command,

CHARLES W. HILL.

Acting Colonial Secretary.

3rd July, 1894.

The term "Infected Sheep" means not only sheep suffering from Scab but also those which within three months have been subject to infection from scabby sheep.

Every owner as soon as he becomes aware that any of his sheep are infected shall keep them separate from other flocks which are not infected and at once give notice in writing to the occupiers of adjoining Stations and to an Inspector. The owner shall also follow the instructions given by the Inspector in such cases.

The owner shall within twenty-one days after he learns that his sheep are infected dip them properly with approved medicaments and also as soon as practicable brand or mark them on the rump or back with the letter S six inches long at least and renew this so as to prevent the letter becoming illegible. He must also when required by the Inspector disinfect all premises or articles used by infected sheep.

No person shall slaughter for sale or expose for sale or export the carcass of infected sheep.

The Inspector on becoming satisfied that the sheep on any Station are infected will issue an order to clean them within six months. If they are not clean at the end of that period the owner will be liable to pay two-pence for every infected sheep and so on for every succeeding period of three months. At the end of a year or within three months thereafter such infected sheep may be destroyed by order of two Justices of the Peace.

It will be most important to owners if scab has disappeared in a flock and there has been no fresh outbreak after the lapse of three months to obtain a clean certificate from the Inspector. If this be obtained and scab reappears then a new order to clean will issue and the owner will then be in the same position, so far as regards these particular sheep, as when the original order issued.

No person will be allowed to drive sheep whether infected or not across a Station not belonging to the owner of the Station without a written notice to the adjoining proprietor. See 17 Section.

No infected sheep shall be driven upon other Stations without the consent of the owners thereof and a permit from the Inspector. See 13 Section.

No person shall abandon infected sheep or leave the carcase of infected sheep unburied or undestroyed by fire. When it is impossible to bury or destroy the carcase it must be skinned and the skin taken away carefully in a bag.

Sheep imported from abroad shall not be landed without a permit. See Section 21. Nor shall sheep whether newly imported or not be landed on any Station without notice to the owner of the Station and a permit. See Section 22.

The ear marks of sheep must be sent to the Colonial Secretary within three months after the Ordinance comes into force.

The Governor in Council is empowered to make Rules for establishing proper paddocks on Stations in which sheep may be kept.

The owners of sheep will be required to pay into the Treasury on the 31st of July in each year a rate of £1. 0. 0 for every one thousand sheep. A true return of the number of sheep kept on the 1st of March preceding, signed and declared to by the owner before a Justice of the Peace, must be sent to the Colonial Secretary before the 31st day of May in each year.

Scab Ordinance, 1894.

The attention of the owners of Sheep Stations is called to the following synopsis of a Scab Ordinance passed unanimously by the Legislative Council and which will come into operation upon the publication of a Notice in the Government Gazette that Her Majesty has not been advised to disallow the same.

The Ordinance will be rigidly enforced against all who wilfully violate its provisions, but every care will be taken not to embarrass or harass those who endeavour, as far as possible, to conform to its requirements.

It will be advisable for the owners of Stations who may possess only a limited supply of proper medicaments for dipping sheep or of material for erecting paddocks and suitable dipping places to obtain these articles as soon as practicable.

By Command,

CHARLES W. HILL.

Acting Colonial Secretary.

3rd July, 1894.

The term "Infected Sheep" means not only sheep suffering from Scab but also those which within three months have been subject to infection from scabby sheep.

Every owner as soon as he becomes aware that any of his sheep are infected shall keep them separate from other flocks which are not infected and at once give notice in writing to the occupiers of adjoining Stations and to an Inspector. The owner shall also follow the instructions given by the Inspector in such cases.

The owner shall within twenty-one days after he learns that his sheep are infected dip them properly with approved medicaments and also as soon as practicable brand or mark them on the rump or back with the letter S six inches long at least and renew this so as to prevent the letter becoming illegible. He must also when required by the Inspector disinfect all premises or articles used by infected sheep.

No person shall slaughter for sale or expose for sale or export the carcass of infected sheep.

The Inspector on becoming satisfied that the sheep on any Station are infected will issue an order to clean them within six months. If they are not clean at the end of that period the owner will be liable to pay two-pence for every infected sheep and so on for every succeeding period of three months. At the end of a year or within three months thereafter such infected sheep may be destroyed by order of two Justices of the Peace.

It will be most important to owners if scab has disappeared in a flock and there has been no fresh outbreak after the lapse of three months to obtain a clean certificate from the Inspector. If this be obtained and scab reappears then a new order to clean will issue and the owner will then be in the same position, so far as regards these particular sheep, as when the original order issued.

No person will be allowed to drive sheep whether infected or not across a Station not belonging to the owner of the Station without a written notice to the adjoining proprietor. See 17 Section.

No infected sheep shall be driven upon other Stations without the consent of the owners thereof and a permit from the Inspector. See 19 Section.

No person shall abandon infected sheep or leave the carcase of infected sheep unburied or undestroyed by fire. When it is impossible to bury or destroy the carcase it must be skinned and the skin taken away carefully in a bag.

Sheep imported from abroad shall not be landed without a permit. See Section 21. Nor shall sheep whether newly imported or not be landed on any Station without notice to the owner of the Station and a permit. See Section 22.

The ear marks of sheep must be sent to the Colonial Secretary within three months after the Ordinance comes into force.

The Governor in Council is empowered to make Rules for establishing proper paddocks on Stations in which sheep may be kept.

The owners of sheep will be required to pay into the Treasury on the 31st of July in each year a rate of £1 0 0 for every one thousand sheep. A true return of the number of sheep kept on the 1st of March preceding, signed and declared to by the owner before a Justice of the Peace, must be sent to the Colonial Secretary before the 31st day of May in each year.

Scab Ordinance, 1894.

The attention of the owners of Sheep Stations is called to the following synopsis of a Scab Ordinance passed unanimously by the Legislative Council and which will come into operation upon the publication of a Notice in the Government Gazette that Her Majesty has not been advised to disallow the same.

The Ordinance will be rigidly enforced against all who wilfully violate its provisions, but every care will be taken not to embarrass or harass those who endeavour, as far as possible, to conform to its requirements.

It will be advisable for the owners of Stations who may possess only a limited supply of proper medicaments for dipping sheep or of material for erecting paddocks and suitable dipping places to obtain these articles as soon as practicable.

By Command,

CHARLES W HILL.

3rd July, 1894.

Acting Colonial Secretary.

The term "Infected Sheep" means not only sheep suffering from Scab but also those which within three months have been subject to infection from scabby sheep.

Every owner as soon as he becomes aware that any of his sheep are infected shall keep them separate from other flocks which are not infected and at once give notice in writing to the occupiers of adjoining Stations and to an Inspector. The owner shall also follow the instructions given by the Inspector in such cases.

The owner shall within twenty-one days after he learns that his sheep are infected dip them properly with approved medicaments and also as soon as practicable brand or mark them on the rump or back with the letter S six inches long at least and renew this so as to prevent the letter becoming illegible. He must also when required by the Inspector disinfect all premises or articles used by infected sheep.

No person shall slaughter for sale or expose for sale or export the carcass of infected sheep.

The Inspector on becoming satisfied that the sheep on any Station are infected will issue an order to clean them within six months. If they are not clean at the end of that period the owner will be liable to pay two-pence for every infected sheep and so on for every succeeding period of three months. At the end of a year or within three months thereafter such infected sheep may be destroyed by order of two Justices of the Peace.

It will be most important to owners if scab has disappeared in a flock and there has been no fresh outbreak after the lapse of three months to obtain a clean certificate from the Inspector. If this be obtained and scab reappears then a new order to clean will issue and the owner will then be in the same position, so far as regards these particular sheep, as when the original order issued.

No person will be allowed to drive sheep whether infected or not across a Station not belonging to the owner of the Station without a written notice to the adjoining proprietor. See 17 Section.

No infected sheep shall be driven upon other Stations without the consent of the owners thereof and a permit from the Inspector. See 19 Section.

No person shall abandon infected sheep or leave the carcass of infected sheep unburied or undestroyed by fire. When it is impossible to bury or destroy the carcass it must be skinned and the skin taken away carefully in a bag.

Sheep imported from abroad shall not be landed without a permit. See Section 21. Nor shall sheep whether newly imported or not be landed on any Station without notice to the owner of the Station and a permit. See Section 22.

The ear marks of sheep must be sent to the Colonial Secretary within three months after the Ordinance comes into force.

The Governor in Council is empowered to make Rules for establishing proper paddocks on Stations in which sheep may be kept.

The owners of sheep will be required to pay into the Treasury on the 31st of July in each year a rate of £1 0 0 for every one thousand sheep. A true return of the number of sheep kept on the 1st of March preceding, signed and declared to by the owner before a Justice of the Peace, must be sent to the Colonial Secretary before the 21st day of May in each year.

The following lists showing the persons holding Dog, Tobacco, Publican's retail, Billiard or Bagatelle, and Wholesale Licences, under Ordinances 6 of 1853, 5 of 1878, and 11 of 1882, and the dates on which such expire, are published for general information.

By Command,

CHARLES W. HILL,
Acting Colonial Secretary.

Colonial Secretary's Office,
Stanley, 1st August, 1894.

An Ordinance for the Preservation of Public Health.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows:—

1.—There shall be a Board of Health for the Falkland Islands composed of the following Members:—

The Colonial Surgeon, who shall be President of the Board; the Colonial Secretary, and such other Members not exceeding five as shall be appointed annually by the Governor, or Officer Administering the Government, and it shall be lawful for the Governor or Officer Administering the Government from time to time to fill up any vacancy or vacancies which may occur during any year on the said Board.

2.—The Board shall meet from time to time as may be necessary by order of the Governor, or Officer Administering the Government, or on a Summons from the President, or in his absence the senior Member present in Stanley.

3.—At all Meetings of the Board four Members shall form a quorum for the transaction of business and in the absence of the President the senior Member present shall preside, seniority being determined by the date and order of appointment as published in the Government Gazette.

4.—Minutes of the Proceedings of the Board shall be entered in a book kept for the purpose by the President and a copy of the minutes shall be forwarded as soon as practicable to the Governor or Officer Administering the Government of the Colony.

6.—If it shall be represented to the Board of Health either by one of their own officers or by any other person that the water in any well, tank, pump or cistern used or likely to be used for any drinking purposes or for manufacturing drinks, or for domestic purposes, is so polluted as to be injurious to health, it shall be lawful for the Board to cause such water to be tested or analysed, and if necessary to direct the said well, tank, pump or cistern to be temporarily or permanently closed, or the water to be used for certain purposes only, or to make such other order as may appear to them to be requisite to prevent injury to the health of persons drinking the water.

Provided that no Public Fountain, Reservoir, or Well shall be closed without the sanction of the Governor, to whom the Board shall make such report upon its condition as may be necessary.

Any person failing to comply with an order made under the above section shall be liable to a penalty not exceeding Five pounds, and should he still fail to comply with the order, it shall be lawful for the Board to do whatever may be necessary for the execution of that order and to recover any expenses incurred in so doing from the person on whom the order was made.

7.—The Governor is hereby empowered from time to time to appoint an Inspector or Inspectors of Nuisances to carry out the provisions of this Ordinance at such salary or salaries as may be determined by the Governor in Council and it shall be the duty of any Inspector so appointed to ascertain what nuisances exist calling for abatement, and upon order of the Board to enter any building, house, or premises for the purposes of inspection.

8.—The following shall for the purpose of this Ordinance be deemed to be nuisances:—

Any building, house, yard or premises in or about which any deposit or collection, fluid or otherwise, so foul or in such a state as to be injurious to health shall be allowed to remain.

Any pool, ditch, gutter, water-course, pig-stye, stable, cow-house, sheep or goat-pen, fowl-house, poultry yard, privy, urinal, cesspool, drain, ash-pit, or dung-heap, so foul or in such a state as to be injurious to health.

Any animal so kept as to be a nuisance or injurious to health.

Any house so over-crowded with residents as to be injurious to the health of the inmates.

Any accumulation or deposit, fluid or otherwise, so foul or in such a state as to be injurious to health.

Any factory, workshop, or other place not kept in a clean and perfectly sanitary condition.

9.—It shall be lawful for the Board of Health to make bye-laws for regulating the duties of Inspectors of Nuisances in like manner as the bye-laws hereinafter mentioned, and any person wilfully obstructing any Inspector of Nuisances in the execution of his duty shall be liable to a penalty not exceeding £5, or in default of payment imprisonment for any term not exceeding one month.

10.—On receipt of information from an Inspector of Nuisances or any two inhabitant freeholders of any nuisance the Board of Health shall if satisfied of the existence of a nuisance serve a notice on the person by whose act, default, or sufferance, the nuisance continues, or if such person cannot be found on the owner or occupier of the premises on which the nuisance arises requiring him to abate the same within a time specified in such notice and to execute such works and do such things as may be necessary for the purpose. Provided that where the nuisance arises from the want or defective construction of any structural convenience or where there is no occupier of the premises notice shall be served on the owner and where the person causing the nuisance cannot be found and it is clear that the nuisance does not arise or continue by the act default or sufferance of the owner or occupier of the premises the Board may themselves abate the same without further order.

11.—In the event of the owner of any premises being absent from the Colony the agent or the person entitled to receive on the owner's behalf the rents for the same shall be considered for all the purposes of this Ordinance as the owner.

12.—Should any house or building complained of as uninhabitable and a nuisance be unoccupied and the owner be absent from the Colony without leaving any known agent the Board shall report the matter to a Court of Summary Jurisdiction and upon satisfactory proof being afforded to the said Court that the removal or demolition of the said premises or any part thereof is necessary the Court is hereby empowered to issue orders to the Board of Health for the removal or demolition of the said premises or such part thereof as may be necessary and the Board shall immediately carry such orders into effect.

13.—If the person on whom a notice to abate a nuisance has been served makes default in complying with such notice the Board shall cause a complaint to be made before a Justice of the Peace and such Justice shall thereupon issue a summons requiring such person to appear before a Court of Summary Jurisdiction.

14.—If the Court is satisfied that the nuisance exists it shall make an order on such person requiring him to comply with all or any of the requisitions of the notice or otherwise abate the nuisance within a specified time. The Court may also impose a penalty not exceeding £5 on the person on whom the order is made and shall also give directions as to the payment of all costs incurred up to the time of hearing or making the order. Any person not obeying the order of the Court to comply with the requisitions of the

Board shall if he fails to satisfy the Court that he has used all diligence to carry out such order be liable to a penalty not exceeding five shillings per day during his default. And the Board of Health may abate the nuisance and recover the expenses of so doing from the defaulting party.

15.—Where the nuisance proved to exist is such as to render a house or building in the judgment of the Court unfit for human habitation the Court may prohibit the using thereof for that purpose until in its judgment the house or building is rendered fit for human habitation.

16.—The occupier of any house or the owner or agent of the owner of any uninhabited house within the town of Stanley shall at all times keep the same and the yards and enclosures thereto attached and all ways, paths, roads, drains and water-courses in front of such house and also the piece or lot of land whereof he may be occupier or owner or agent clean or clear of filth or of decaying or offensive animal or vegetable matter under a penalty not exceeding £2 or in default of payment of imprisonment for any term not exceeding two weeks for each offence.

17.—Any Inspector of Nuisances shall have power to enter any market-place, wharf, shop, yard or building used for the sale of butcher's meat and also to enter into any slaughter-house and examine any animal, carcase, meat, or flesh intended for the food of man and if it shall appear that the same is unfit for food it shall be seized and the matter at once reported to a Justice of the Peace and if it appears to the said Justice that any such animal or any of the said articles are unsound or unfit for the food of man he shall order the same to be destroyed and the person to whom the same belongs or in whose possession or on whose premises the same was found shall be liable on conviction before two Justices or the Police Magistrate of the Colony to a penalty not exceeding £10 for every such offence or at the discretion of the Justices or Police Magistrate without the infliction of a fine to imprisonment for any term not exceeding two months.

18.—The Board of Health shall have power whenever the Board shall deem it necessary for the preservation of the public health so to do to require by written notice the owner or agent of the owner of any lot of land in the town of Stanley to properly fence to the satisfaction of the said Board any such lot within a specified time and if any owner being so required shall refuse or neglect to carry out the requirements of the notice the Board shall cause a complaint to be made before a Justice of the Peace who shall thereupon issue a summons requiring the person on whom the notice was served to appear before a Court of Summary Jurisdiction which Court shall make an order on such person directing him to comply with all of the requisitions of the notice within a specified time. The Court may also impose a penalty not exceeding £5 on the person on whom the order is made and any person disobeying such order of the Court shall if he fails to satisfy the Court that he has used all diligence to carry out such order be liable to a penalty not exceeding five shillings per day during his default. In the case of fences common to the lands of two or more owners it shall be lawful for the person who erects the fence under the authority of this Section to recover a moiety of the expense of erection from the adjoining owner or owners.

19.—The Board of Health may make bye-laws and from time to time amend or rescind bye-laws so made with respect to the following matters:—

I. The level width and construction of new streets and the cleaning drainage or sewerage thereof.

II. The structure of new buildings in any town or settlement and the drainage, water closets, earth closets, urinals, privies, ashpits and cesspools to be provided in the erection of such buildings.

IV. The keeping of animals in or near dwelling-house so as to prevent their becoming a nuisance or injurious to health.

V. The checking and preventing the spread of any contagious or infectious disease.

VI. The carrying on of any offensive trade in any town or settlement so as to prevent or diminish the causes or injurious effects thereof.

VII. The abatement or removal of nuisances.

VIII. The proper regulation of markets and slaughter-houses.

IX. The keeping of burial grounds and the proper interment of the dead.

X. The cleaning and keeping of lots of land whether adjoining dwelling-houses or not.

XI. The cleansing and disinfecting of houses and buildings.

XII. The inspection, drainage, accommodation and cleansing of common lodging houses.

XIII. The inspection of shipping in the harbour of Stanley and the cleansing and disinfecting of the same.

XIV. The protection of drains from injuries by cattle or otherwise.

XV. The removal or demolition of buildings so ruinous as to be dangerous to the public safety.

XVI. The payment by parties in default of expenses incurred thereby by the Board under this Ordinance.

20.—The Board of Health is also empowered to make bye-laws for enforcing such other sanitary measures for the prevention and mitigation of disease and for the care and preservation of the public health as the said Board may deem fit and proper and the Board may by all bye-laws made under this Ordinance impose upon offenders against the same such reasonable penalties as it may think fit not exceeding the sum of two pounds for each offence and in case of a continuing offence a further penalty not exceeding five shillings for each day after written notice of the said offence from the said Board. Provided that all such bye-laws imposing a penalty shall be so framed as to allow of the recovery of any sum less than the full amount of the penalty and all bye-laws made by the Board shall upon approval by the Governor in Council and publication in the Government Gazette have the same effect as if inserted in this Ordinance.

21.—All fines and penalties under this Ordinance shall be recovered in a Court of Summary Jurisdiction before two Justices or the Police Magistrate of the Colony who are hereby empowered to issue a Warrant or Warrants of Distress for levying the same by distress and sale of the defendant's goods and chattels or if needful all such proceedings shall be had as in cases of a conviction imposing a penalty.

22.—All moneys recoverable for expenses incurred by the Board against any person or persons under this Ordinance may be recovered in a summary way in the name of the President of the Board before two Justices or the Police Magistrate for the Colony in the same manner as fines and penalties are directed to be recovered by this Ordinance.

Ordinance No. 1 of 1886 and Ordinance No. 3 of 1891 are hereby repealed.

This Ordinance may be cited for all purposes as "The Public Health Ordinance of 1894," and shall come into operation on the passing thereof.

1.—There shall be a Board of Health for the Falkland Islands composed of the following Members:—

The Colonial Surgeon, who shall be President of the Board; the Colonial Secretary, and such other Members not exceeding five as shall be appointed annually by the Governor, or Officer Administering the Government, and it shall be lawful for the Governor or Officer Administering the Government from time to time to fill up any vacancy or vacancies which may occur during any year on the said Board.

2.—The Board shall meet from time to time as may be necessary by order of the Governor, or Officer Administering the Government, or on a Summons from the President, or in his absence the senior Member present in Stanley.

4.—Minutes of the Proceedings of the Board shall be entered in a book kept for the purpose by the President and a copy of the minutes shall be forwarded as soon as practicable to the Governor or Officer Administering the Government of the Colony.

6.—If it shall be represented to the Board of Health either by one of their own officers or by any other person that the water in any well, tank, pump or cistern used or likely to be used for any drinking purposes or for manufacturing drinks, or for domestic purposes, is so polluted as to be injurious to health, it shall be lawful for the Board to cause such water to be tested or analysed, and if necessary to direct the said well, tank, pump or cistern to be temporarily or permanently closed, or the water to be used for certain purposes only, or to make such other order as may appear to them to be requisite to prevent injury to the health of persons drinking the water.

Provided that no Public Fountain, Reservoir, or Well shall be closed without the sanction of the Governor, to whom the Board shall make such report upon its condition as may be necessary.

Any person failing to comply with an order made under the above section shall be liable to a penalty not exceeding Five pounds, and should he still fail to comply with the order, it shall be lawful for the Board to do whatever may be necessary for the execution of that order and to recover any expenses incurred in so doing from the person on whom the order was made.

7.—The Governor is hereby empowered from time to time to appoint an Inspector or Inspectors of Nuisances to carry out the provisions of this Ordinance at such salary or salaries as may be determined by the Governor in Council and it shall be the duty of any Inspector so appointed to ascertain what nuisances exist calling for abatement, and upon order of the Board to enter any building, house, or premises for the purposes of inspection.

8.—The following shall for the purpose of this Ordinance be deemed to be nuisances:—

Any building, house, yard or premises in or about which any deposit or collection, fluid or otherwise, so foul or in such a state as to be injurious to health shall be allowed to remain.

Provided that where the nuisance arises from the want or defective construction of any structural convenience or where there is no occupier of the premises notice shall be served on the owner and where the person causing the nuisance cannot be found and it is clear that the nuisance does not arise or continue by the act default or sufferance of the owner or occupier of the premises the Board may themselves abate the same without further order.

11.—In the event of the owner of any premises being absent from the Colony the agent or the person entitled to receive on the owner's behalf the rents for the same shall be considered for all the purposes of this Ordinance as the owner.

12.—Should any house or building complained of as uninhabitable and a nuisance be unoccupied and the owner be absent from the Colony without leaving any known agent the Board shall report the matter to a Court of Summary Jurisdiction and upon satisfactory proof being afforded to the said Court that the removal or demolition of the said premises or any part thereof is necessary the Court is hereby empowered to issue orders to the Board of Health for the removal or demolition of the said premises or such part thereof as may be necessary and the Board shall immediately carry such orders into effect.

The Court may also impose a penalty not exceeding £5 on the person on whom the order is made and any person disobeying such order of the Court shall if he fails to satisfy the Court that he has used all diligence to carry out such order be liable to a penalty not exceeding five shillings per day during his default. In the case of fences common to the lands of two or more owners it shall be lawful for the person who erects the fence under the authority of this Section to recover a moiety of the expense of erection from the adjoining owner or owners.

At a Meeting of the Legislative Council held on the 25th May, 1894.

Present: His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.
(President).

His Honor the Judge.

Hon. C. W. Hill, Acting Colonial Secretary.

Hon. S. Hamilton, Colonial Surgeon.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The Minutes of the previous Meeting were read and confirmed.

The Council resolved itself into Committee with a view to further considering the Bill providing for the "Custody and control of Lunatics."

The following further amendments were then made:

Clause 6. The words "or in any Institution or place which may be approved by the Governor in Council as a fit and proper place for the care of Lunatics" were added at the end of the Clause.

Clause 2. The word "Gaol" was substituted for the word "Prison."

Clause 12. Lines 3 & 7. The word "Lunatic" was substituted for the word "insane."

Clause 17. After the word "Officer" the words "or special Constable" were added.

The Council having resumed, on the motion of the Acting Colonial Secretary the Council went into Committee on the Supplementary Appropriation Ordinance.

The Acting Colonial Secretary explained how the item of £76 10 5 for professional charges in drawing up the Mail Contract, charged by the Crown Agents, was arrived at, the Contract having been drawn up in the interest of both the Government and the Kosmos Company, while the whole cost had been met from Colonial funds.

His Excellency asked the opinion of the Un-Official Members upon this item of expenditure.

The Honourable A. E. Baillon thought that both the contracting parties should bear part of the expense.

The Honourable J. J. Felton said, it being an agreement made as much to protect the interests of the Kosmos Company it would be only fair that they should pay part of these charges.

It was unanimously agreed that the Crown Agents attention should be drawn to the views now expressed by the Council.

The Council then resumed, and the Standing Orders having been suspended, on the motion of the Honourable the Acting Colonial Secretary, seconded by His Honour the Judge, the Bill entitled "An Ordinance to make further provision for the Service of the Colony of the Falkland Islands for the year 1893," was read a third time and passed.

His Honor the Judge then moved the introduction and First reading of a Bill entitled "An Ordinance to make provision for the eradication of Scab and other Infectious or Contagious diseases in Sheep," the Acting Colonial Secretary seconded and the Bill was read by title.

His Honor the Judge then gave notice that at the next Meeting he would move the introduction and First reading of a Bill entitled "An Ordinance for the preservation of Public Health."

With reference to the remarks made by the Honourable A. E. Baillon at a Meeting held on 9th February last, His Excellency laid on the table, for the information of the Council, papers connected with the respectability of Customs Officers, and stated that from enquiries made the Customs Officer referred to had been well reported on by his superiors who had expressed satisfaction at the way on which he had performed his duties.

The Honourable A. E. Baillon said that he could endorse that expression of opinion from what the master of the "Thetis" had reported on the Officer while he was engaged as Customs Officer on board the "Thetis."

The Council then adjourned until Friday, 2nd June.

Read and confirmed this 12th day of June, 1894.

W. COULSON,

Clerk to Council.

The Plan of the Land can be seen on application at the Colonial Secretary's Office; that is to say :—

That portion or section of land situated on East Falkland Island and known as Whittington Rincon, and by the number 68, containing as ascertained by survey 17,777 acres, bounded on the North by Section 67 (A. Pitaluga) 2 miles 580 yards; on the N W by Section 33 (A. Pitaluga) 3 miles 800 yards, and the East side of Horse Shoe Bay; on the South by the shore of Port Salvador and Section 5 (R. C. - One Sheep Dip, Pens, and Draining Stage.
- Paddock.
- Landing Stage.
- Tanks for Dipping.
- Shepherd's Cottage.
- Small Shepherd's House.

Contribution towards the erection of four miles of boundary fence dividing Section 68 from Sections 14 and 65.

Contribution towards the erection of the boundary fence dividing Section 68 from Section 5, including water fence

It has been determined by the Administrator in Council that the purchase money of the above land may be paid by fifteen equal yearly instalments, but, as will be seen by the conditions, the value of the lessee's improvements on the land, namely:—£1,067, shall be paid by the purchaser within seven days from the date of the sale or at such later period as may be agreed upon by the lessee and purchaser.

CONDITIONS OF SALE.

—o—

The Conditions of Sale will be found in the following clauses of Ordinance No. 2 of 1894.

The purchase money shall be payable by such number (not exceeding 15) of equal yearly instalments as the Governor in Council shall determine and as shall be notified in the Government Gazette before the sale. The first instalment shall be paid at the conclusion of the sale and each subsequent instalment together with interest at the rate of $2\frac{1}{2}$ per centum per annum on the unpaid balance of the purchase money for the time being from the date of the payment of the last previous instalment shall be paid at the expiration of one year from the day on which the last previous instalment was payable. But the purchaser may at any time pay the whole of the purchase money remaining unpaid with the interest thereon which has accrued since the date of the last previous payment of an instalment.

The highest or only bidder for every lot put up for sale at or above the upset price shall be the purchaser.

Immediately upon the conclusion of the sale the purchaser shall pay the first instalment of the purchase money and sign an agreement to complete the purchase and to fulfil the conditions of sale. If any purchaser, whether the original purchaser or a purchaser substituted under this sub-section, shall fail to pay the first instalment or to sign the said agreement, the sale to him shall be void and the next highest bidder (if any) at or above the upset price shall be the purchaser.

If any purchaser shall fail to pay the second or any subsequent instalment of purchase money or any interest for the time being payable by him on the day on which such instalment or interest becomes payable or within 21 days thereafter, the Governor may, and if such default shall continue for 3 months from the day on which such instalment or interest becomes payable, the Governor shall cause the land purchased by such purchaser to be again put up for sale by public auction at the same upset price and on the same conditions as at the previous sale.

If any land shall be again put up for sale as aforesaid the previous sale thereof shall thenceforth become void and the purchaser at the previous sale shall give up possession thereof and shall have no further right or interest in or lien upon such land.

If after payment in full of the purchase money and interest payable by the purchaser at the second sale the Government shall have received in respect of such purchase money and interest an amount exceeding the purchase money and interest which the Governor would have received from the purchaser at the previous sale if he had complied with the conditions of sale then out of such excess, after deducting therefrom the expenses of the second sale the Government shall repay to the purchaser at the previous sale the amount of the instalments of purchase money and interest which he shall have actually paid or so much thereof as such excess shall suffice to repay but in no other event shall a purchaser have any claim for repayment of instalments of purchase money or interest paid by him.

Every purchaser whether at a first or second sale shall be let into possession of the land purchased by him upon payment of the first instalment of purchase money and upon his signing the above-mentioned agreement, but no grant of the land shall be issued to him until he shall have paid the whole of the purchase money and all interest payable under the conditions of sale.

The sum of money (if any) payable by the purchaser of each lot put up for sale to the former lessee of such lot as the value of improvements thereon under Section 3 of the Land Ordinance 1882, shall be determined in the manner provided by that Section before the lot is put up for sale and shall be stated in the Particulars of Sale, and shall be paid by the purchaser to the former lessee, or his legal personal representatives, within 7 days from the date of the sale or at such later date as may be agreed upon by the parties. If the purchaser at a first sale shall not pay the said sum of money within the said 7 days, or on the day agreed upon, as the case may be, the lot shall be again put up for sale by auction in the same manner, and with the same consequences as if such purchaser had made default for three months in payment of an instalment of purchase money.

No stock shall be placed on any lot so sold as aforesaid until proper arrangements for the dipping of sheep to the satisfaction of the Governor in Council have been provided thereon, or on some adjoining land occupied by the same person, or occupied by some other person if such lot and such adjoining land are farmed in

common, or until such lot has been completely fenced in by proper sheep-proof fence to the satisfaction of the Governor in Council, provided that with the consent of the owner or lessee of any land adjoining such lot the erection of a fence between such and such adjoining land may be dispensed with.

The purchaser of every lot, his heirs or assigns shall, before the expiration of 2 years from the date of the sale, erect on such lot a suitable and substantial dwelling-house to the satisfaction of the Governor in Council. Default in compliance with this sub-section shall entail the same consequences as default in payment of a second or subsequent instalment of purchase money for three months.

The cost of the fences to be erected between any lot which shall be sold as aforesaid and the adjoining lands shall be borne by the purchaser of the lot and the owner or lessee of the adjoining land in equal shares. In the absence of any agreement to the contrary the fence shall be erected by the purchaser, and he shall have the right to recover from each adjoining owner or lessee a proportion of the half of the entire cost thereof according to the length of the fence between the lot and the land of such adjoining owner or lessee.

—o—

The Conditions of Sale will be found in the following clauses of Ordinance No. 2 of 1894.

The purchase money shall be payable by such number (not exceeding 15) of equal yearly instalments as the Governor in Council shall determine and as shall be notified in the Government Gazette before the sale. The first instalment shall be paid at the conclusion of the sale and each subsequent instalment together with interest at the rate of $2\frac{1}{2}$ per centum per annum on the unpaid balance of the purchase money for the time being from the date of the payment of the last previous instalment shall be paid at the expiration of one year from the day on which the last previous instalment was payable. But the purchaser may at any time pay the whole of the purchase money remaining unpaid with the interest thereon which has accrued since the date of the last previous payment of an instalment.

The highest or only bidder for every lot put up for sale at or above the upset price shall be the purchaser.

Immediately upon the conclusion of the sale the purchaser shall pay the first instalment of the purchase money and sign an agreement to complete the purchase and to fulfil the conditions of sale. If any purchaser, whether the original purchaser or a purchaser substituted under this sub-section, shall fail to pay the first instalment or to sign the said agreement, the sale to him shall be void and the next highest bidder (if any) at or above the upset price shall be the purchaser.

If any purchaser shall fail to pay the second or any subsequent instalment of purchase money or any interest for the time being payable by him on the day on which such instalment or interest becomes payable or within 21 days thereafter, the Governor may, and if such default shall continue for 3 months from the day on which such instalment or interest becomes payable, the Governor shall cause the land purchased by such purchaser to be again put up for sale by public auction at the same upset price and on the same conditions as at the previous sale.

If any land shall be again put up for sale as aforesaid the previous sale thereof shall thenceforth become void and the purchaser at the previous sale shall give up possession thereof and shall have no further right or interest in or lien upon such land.

If after payment in full of the purchase money and interest payable by the purchaser at the second sale the Government shall have received in respect of such purchase money and interest an amount exceeding the purchase money and interest which the Governor would have received from the purchaser at the previous sale if he had complied with the conditions of sale then out of such excess, after deducting therefrom the expenses of the second sale the Government shall repay to the purchaser at the previous sale the amount of the instalments of purchase money and interest which he shall have actually paid or so much thereof as such excess shall suffice to repay but in no other event shall a purchaser have any claim for repayment of instalments of purchase money or interest paid by him.

Every purchaser whether at a first or second sale shall be let into possession of the land purchased by him upon payment of the first instalment of purchase money and upon his signing the above-mentioned agreement, but no grant of the land shall be issued to him until he shall have paid the whole of the purchase money and all interest payable under the conditions of sale.

The sum of money (if any) payable by the purchaser of each lot put up for sale to the former lessee of such lot as the value of improvements thereon under Section 3 of the Land Ordinance 1882, shall be determined in the manner provided by that Section before the lot is put up for sale and shall be stated in the Particulars of Sale, and shall be paid by the purchaser to the former lessee, or his legal personal representatives, within 7 days from the date of the sale or at such later date as may be agreed upon by the parties. If the purchaser at a first sale shall not pay the said sum of money within the said 7 days, or on the day agreed upon, as the case may be, the lot shall be again put up for sale by auction in the same manner, and with the same consequences as if such purchaser had made default for three months in payment of an instalment of purchase money.

No stock shall be placed on any lot so sold as aforesaid until proper arrangements for the dipping of sheep to the satisfaction of the Governor in Council have been provided thereon, or on some adjoining land occupied by the same person, or occupied by some other person if such lot and such adjoining land are farmed in

common, or until such lot has been completely fenced in by proper sheep-proof fence to the satisfaction of the Governor in Council, provided that with the consent of the owner or lessee of any land adjoining such lot the erection of a fence between such and such adjoining land may be dispensed with.

The purchaser of every lot, his heirs or assigns shall, before the expiration of 2 years from the date of the sale, erect on such lot a suitable and substantial dwelling-house to the satisfaction of the Governor in Council. Default in compliance with this sub-section shall entail the same consequences as default in payment of a second or subsequent instalment of purchase money for three months.

The cost of the fences to be erected between any lot which shall be sold as aforesaid and the adjoining lands shall be borne by the purchaser of the lot and the owner or lessee of the adjoining land in equal shares. In the absence of any agreement to the contrary the fence shall be erected by the purchaser, and he shall have the right to recover from each adjoining owner or lessee a proportion of the half of the entire cost thereof according to the length of the fence between the lot and the land of such adjoining owner or lessee.

CONDITIONS OF SALE.

—o—

The Conditions of Sale will be found in the following clauses of Ordinance No. 2 of 1894.

The purchase money shall be payable by such number (not exceeding 15) of equal yearly instalments as the Governor in Council shall determine and as shall be notified in the Government Gazette before the sale. The first instalment shall be paid at the conclusion of the sale and each subsequent instalment together with interest at the rate of $2\frac{1}{2}$ per centum per annum on the unpaid balance of the purchase money for the time being from the date of the payment of the last previous instalment shall be paid at the expiration of one year from the day on which the last previous instalment was payable. But the purchaser may at any time pay the whole of the purchase money remaining unpaid with the interest thereon which has accrued since the date of the last previous payment of an instalment.

The highest or only bidder for every lot put up for sale at or above the upset price shall be the purchaser.

Immediately upon the conclusion of the sale the purchaser shall pay the first instalment of the purchase money and sign an agreement to complete the purchase and to fulfil the conditions of sale. If any purchaser, whether the original purchaser or a purchaser substituted under this sub-section, shall fail to pay the first instalment or to sign the said agreement, the sale to him shall be void and the next highest bidder (if any) at or above the upset price shall be the purchaser.

If any purchaser shall fail to pay the second or any subsequent instalment of purchase money or any interest for the time being payable by him on the day on which such instalment or interest becomes payable or within 21 days thereafter, the Governor may, and if such default shall continue for 3 months from the day on which such instalment or interest becomes payable, the Governor shall cause the land purchased by such purchaser to be again put up for sale by public auction at the same upset price and on the same conditions as at the previous sale.

If any land shall be again put up for sale as aforesaid the previous sale thereof shall thenceforth become void and the purchaser at the previous sale shall give up possession thereof and shall have no further right or interest in or lien upon such land.

If after payment in full of the purchase money and interest payable by the purchaser at the second sale the Government shall have received in respect of such purchase money and interest an amount exceeding the purchase money and interest which the Governor would have received from the purchaser at the previous sale if he had complied with the conditions of sale then out of such excess, after deducting therefrom the expenses of the second sale the Government shall repay to the purchaser at the previous sale the amount of the instalments of purchase money and interest which he shall have actually paid or so much thereof as such excess shall suffice to repay but in no other event shall a purchaser have any claim for repayment of instalments of purchase money or interest paid by him.

Every purchaser whether at a first or second sale shall be let into possession of the land purchased by him upon payment of the first instalment of purchase money and upon his signing the above-mentioned agreement, but no grant of the land shall be issued to him until he shall have paid the whole of the purchase money and all interest payable under the conditions of sale.

The sum of money (if any) payable by the purchaser of each lot put up for sale to the former lessee of such lot as the value of improvements thereon under Section 3 of the Land Ordinance 1882, shall be determined in the manner provided by that Section before the lot is put up for sale and shall be stated in the Particulars of Sale, and shall be paid by the purchaser to the former lessee, or his legal personal representatives, within 7 days from the date of the sale or at such later date as may be agreed upon by the parties. If the purchaser at a first sale shall not pay the said sum of money within the said 7 days, or on the day agreed upon, as the case may be, the lot shall be again put up for sale by auction in the same manner, and with the same consequences as if such purchaser had made default for three months in payment of an instalment of purchase money.

common, or until such lot has been completely fenced in by proper sheep-proof fence to the satisfaction of the Governor in Council, provided that with the consent of the owner or lessee of any land adjoining such lot the erection of a fence between such and such adjoining land may be dispensed with.

The purchaser of every lot, his heirs or assigns shall, before the expiration of 2 years from the date of the sale, erect on such lot a suitable and substantial dwelling-house to the satisfaction of the Governor in Council. Default in compliance with this sub-section shall entail the same consequences as default in payment of a second or subsequent instalment of purchase money for three months.

The cost of the fences to be erected between any lot which shall be sold as aforesaid and the adjoining lands shall be borne by the purchaser of the lot and the owner or lessee of the adjoining land in equal shares. In the absence of any agreement to the contrary the fence shall be erected by the purchaser, and he shall have the right to recover from each adjoining owner or lessee a proportion of the half of the entire cost thereof according to the length of the fence between the lot and the land of such adjoining owner or lessee.

"(1.) If forthwith upon a Proclamation of Neutrality being issued by Her Majesty he gives notice to the Secretary of State that he is so building, causing to be built, or equipping such ship, and furnishes such particulars of the contract and of any matters relating to, or done, or to be done under the contract as may be required by the Secretary of State:

"Where any ship is built by order of or on behalf of any foreign State when at war with a friendly State, or is delivered to or to the order of such foreign State, or any person who to the knowledge of the person building is an agent of such foreign State, or is paid for by such foreign State or such agent,

and is employed in the military or naval service of such foreign State, such ship shall, until the contrary is proved, be deemed to have been built with a view to being so employed, and the burden shall lie on the builder of such ship of proving that he did not know that the ship was intended to be so employed in the military or naval service of such foreign State.

"If any person within the limits of Her Majesty's dominions, and without the licence of Her Majesty—

"Prepares or fits out any naval or military expedition to proceed against the dominions of any friendly State, the following consequences shall ensue:

"(1.) Every person engaged in such preparation or fitting out, or assisting therein, or employed in any capacity in such expedition, shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

"(2.) All ships and their equipments, and all arms and munitions of war, used in or forming part of such expedition, shall be forfeited to Her Majesty.

"Any person who aids, abets, counsels, or procures the commission of any offence against this Act shall be liable to be tried and punished as a principal offender."

And whereas by the said Act it is further provided that ships built, commissioned, equipped, or dispatched in contravention of the said Act may be condemned and forfeited by Judgment of the Court of Admiralty; and that if the Secretary of State or chief executive authority is satisfied that there is a reasonable and probable cause for believing that a ship within Our dominions has been or is being built, commissioned, or equipped contrary to the said Act, and is about to be taken beyond the limits of such dominions, or that a ship is about to be dispatched contrary to the Act, such Secretary of State, or chief executive authority, shall have power to issue a warrant authorising the seizure and search of such ship and her detention until she has been either condemned or released by process of law: And whereas certain powers of seizure and detention are conferred by the said Act on certain local authorities:

Now, in order that none of Our subjects may unwarily render themselves liable to the penalties imposed by the said Statute, We do hereby strictly command that no person or persons whatsoever do commit any Act, matter, or thing whatsoever contrary to the provisions of the said Statute, upon pain of the several penalties by the said Statute imposed and of Our high displeasure.

And we do hereby further warn and admonish all Our loving subjects and all persons whatsoever entitled to Our protection, to observe towards each of the aforesaid States, their citizens, subjects, and territories, and towards all belligerents whatsoever, with whom We are at peace, the duties of neutrality; and to respect, in all and each of them, the exercise of those belligerent rights which We and Our Royal predecessors have always claimed to exercise.

And We hereby further warn all Our loving subjects, and all persons whatsoever entitled to Our protection, that if any of them shall presume in contempt of this Our Royal Proclamation, and of Our high displeasure, to do any acts in derogation of their duty as subjects of a neutral Sovereign in a war between other States, or in violation or contravention of the law of nations in that behalf, as more especially by breaking, or endeavouring to break, any blockade lawfully and actually established by or on behalf of either of the said States, or by carrying officers, soldiers, despatches, arms, ammunition, military stores or materials, or any article or articles considered and deemed to be contraband of war according to the law or modern usages of nations, for the use or service of either of the said States, that all persons so offending, together with their ships and goods, will rightfully incur and be justly liable to hostile capture, and to the penalties denounced by the law of nations in that behalf.

And we do hereby give notice that all Our subjects and persons entitled to Our protection who may misconduct themselves in the premises will do so at their peril, and of their own wrong; and that they will in nowise obtain any protection from Us against such capture, or such penalties as aforesaid, but will, on the contrary, incur Our high displeasure by such misconduct.

Given at Our Court at *Osborne House, Isle of Wight*, this *Seventh* day of *August*, in the year of Our Lord one thousand eight hundred and ninety-four, in the fifty-eighth year of Our reign.

GOD SAVE THE QUEEN.

Foreign Office,

My Lord,

August 7, 1894.

HER Majesty being fully determined to observe the duties of neutrality during the existing state of war between the Emperor of China and the Emperor of Japan, and being moreover resolved to prevent, as far as possible, the use of Her Majesty's harbours, ports and coasts, and the waters within Her Majesty's territorial jurisdiction, in aid of the warlike purposes of either belligerent, has commanded me to communicate to your Lordship, for your guidance, the following rules, which are to be treated and enforced as Her Majesty's orders and directions:—

Her Majesty is pleased further to command that these rules shall be put in force in the United Kingdom, the Isle of Man, and the Channel Islands, on and after the twelfth day of this month, and in Her Majesty's territories and possessions beyond the seas, six days after the day when the Governor, or other chief authority of each of such territories or possessions, respectively, shall have notified and published the same; stating in such Notification that the said rules are to be obeyed by all persons within the same territories and possessions.

1. During the continuance of the present state of war, all ships of war of either belligerent are prohibited from making use of any port or roadstead in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of Her Majesty's colonies or foreign possessions or dependencies, or of any waters subject to the territorial jurisdiction of the British Crown, as a station, or place of resort, for any warlike purpose, or for the purpose of obtaining any facilities for warlike equipment; and no ship of war of either belligerent shall hereafter be permitted to sail out of or leave any port, roadstead, or waters subject to British jurisdiction, from which any vessel of the other belligerent (whether the same shall be a ship of war or a merchant ship) shall have previously departed, until after the expiration of at least twenty-four hours from the departure of such last-mentioned vessel beyond the territorial jurisdiction of Her Majesty.

2. If any ship of war of either belligerent shall, after the time when this Order shall be first notified and put in force in the United Kingdom, the Isle of Man, and the Channel Islands, and in the several colonies and foreign possessions and dependencies of Her Majesty, respectively, enter any port, roadstead, or waters belonging to Her Majesty, either in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of Her Majesty's colonies or foreign possessions or dependencies, such vessel shall be required to depart and to put to sea within twenty-four hours after her entrance into such port, roadstead, or waters, except in case of stress of weather, or of her requiring provisions or things necessary for the subsistence of her crew, or repairs; in either of which cases the authorities of the port, or of the nearest port (as the case may be), shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours, without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such vessel which may have been allowed to remain within British waters for the purpose of repair shall continue in any such port, roadstead, or waters, for a longer period than twenty-four hours after her necessary repairs shall have been completed. Provided, nevertheless, that in all cases in which there shall be any vessel (whether ships of war or merchant ships) of the said belligerent parties in the same port, roadstead, or waters within the territorial jurisdiction of Her Majesty, there shall be an interval of not less than twenty-four hours between the departure therefrom of any such vessel (whether a ship of war or merchant ship) of the one belligerent and the subsequent departure therefrom of any ship of war of the other belligerent; and the time hereby limited for the departure of such ships of war respectively shall always, in case of necessity, be extended so far as may be requisite for giving effect to this proviso, but no further or otherwise.

3. No ship of war of either belligerent shall hereafter be permitted, while in any port, roadstead, or waters subject to the territorial jurisdiction of Her Majesty, to take in any supplies, except provisions and such other things as may be requisite for the subsistence of her crew, and except so much coal only as may be sufficient to carry such vessel to the nearest port of her own country, or to some nearer destination, and no coal shall again be supplied to any such ship of war in the same or any other port, roadstead, or waters subject to the territorial jurisdiction of Her Majesty, without special permission, until after the expiration of three months from the time when such coal may have been last supplied to her within British waters as aforesaid.

4. Armed ships of either party are interdicted from carrying prizes made by them into the ports, harbours, roadsteads, or waters of the United Kingdom, the Isle of Man, the Channel Islands, or any of Her Majesty's colonies or possessions abroad.

I have, &c.,

Gentlemen,

It is with much pleasure that I have received on arrival once more amongst you such kind and friendly greetings, though the assurance that the expressions of sympathy which you offered me on my departure for England were "true and sincere" was scarcely necessary in view of the sympathy shown to me during my illness.

The friendly feelings invariably evinced towards me by the community in general, show that my desire to benefit the Colony has not been unappreciated by you, and you may be assured that your kind and sympathetic address cannot but strengthen the desire I have ever felt to afford every assistance to the working class and thus to further the best interests of the Colony.

BY THE QUEEN, A PROCLAMATION.

VICTORIA, R.

WHEREAS We are happily at peace with all Sovereigns, Powers, and States ;

And whereas a state of war unhappily exists between His Majesty the Emperor of China and His Majesty the Emperor of Japan, and between their respective subjects and others inhabiting within their countries, territories, or dominions ;

And whereas We are on terms of friendship and amicable intercourse with each of these States, and with their subjects and others inhabiting within their countries, territories or dominions ;

And whereas great numbers of Our loyal subjects reside and carry on commerce, and possess property and establishments, and enjoy various rights and privileges, within the territory of each of the aforesaid States, protected by the faith of Treaties between Us and each of the aforesaid States ;

And whereas We, being desirous of preserving to Our subjects the blessings of peace which they now happily enjoy, are firmly purposed and determined to maintain a strict and impartial neutrality in the said state of war unhappily existing between the aforesaid States ;

We therefore have thought fit, by and with the advice of Our Privy Council, to issue this Our Royal Proclamation ;

And We do hereby strictly charge and command all Our loving subjects to govern themselves accordingly, and to observe a strict neutrality in and during the aforesaid war, and to abstain from violating or contravening either the Laws and Statutes of the realm in this behalf, or the law of nations in relation thereto, as they will answer to the contrary at their peril ;

And whereas in and by a certain Statute made and passed in a Session of Parliament holden in the 33rd and 34th year of Our reign, intituled " An Act to regulate the Conduct of Her Majesty's Subjects during the Existence of Hostilities between Foreign States with which Her Majesty is at Peace," it is, amongst other things, declared and enacted as follows :—

" (1.) Every person engaged in such preparation or fitting out, or assisting therein, or employed in any capacity in such expedition, shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

" (2.) All ships and their equipments, and all arms and munitions of war, used in or forming part of such expedition, shall be forfeited to Her Majesty.

" Any person who aids, abets, counsels, or procures the commission of any offence against this Act shall be liable to be tried and punished as a principal offender."

And whereas by the said Act it is further provided that ships built, commissioned, equipped, or dispatched in contravention of the said Act may be condemned and forfeited by Judgment of the Court of Admiralty; and that if the Secretary of State or chief executive authority is satisfied that there is a reasonable and probable cause for believing that a ship within Our dominions has been or is being built, commissioned, or equipped contrary to the said Act, and is about to be taken beyond the limits of such dominions, or that a ship is about to be dispatched contrary to the Act, such Secretary of State, or chief executive authority, shall have power to issue a warrant authorising the seizure and search of such ship and her detention until she has been either condemned or released by process of law: And whereas certain powers of seizure and detention are conferred by the said Act on certain local authorities:

Now, in order that none of Our subjects may unwarily render themselves liable to the penalties imposed by the said Statute, We do hereby strictly command that no person or persons whatsoever do commit any Act, matter, or thing whatsoever contrary to the provisions of the said Statute, upon pain of the several penalties by the said Statute imposed and of Our high displeasure.

And we do hereby further warn and admonish all Our loving subjects and all persons whatsoever entitled to Our protection, to observe towards each of the aforesaid States, their citizens, subjects, and territories, and towards all belligerents whatsoever, with whom We are at peace, the duties of neutrality; and to respect, in all and each of them, the exercise of those belligerent rights which We and Our Royal predecessors have always claimed to exercise.

And We hereby further warn all Our loving subjects, and all persons whatsoever entitled to Our protection, that if any of them shall presume in contempt of this Our Royal Proclamation, and of Our high displeasure, to do any acts in derogation of their duty as subjects of a neutral Sovereign in a war between other States, or in violation or contravention of the law of nations in that behalf, as more especially by breaking, or endeavouring to break, any blockade lawfully and actually established by or on behalf of either of the said States, or by carrying officers, soldiers, despatches, arms, ammunition, military stores or materials, or any article or articles considered and deemed to be contraband of war according to the law or modern usages of nations, for the use or service of either of the said States, that all persons so offending, together with their ships and goods, will rightfully incur and be justly liable to hostile capture, and to the penalties denounced by the law of nations in that behalf.

And we do hereby give notice that all Our subjects and persons entitled to Our protection who may misconduct themselves in the promises will do so at their peril, and of their own wrong; and that they will in nowise obtain any protection from Us against such capture, or such penalties as aforesaid, but will, on the contrary, incur Our high displeasure by such misconduct.

Given at Our Court at *Osborne House, Isle of Wight*, this *Seventh* day of *August*, in the year of Our Lord one thousand eight hundred and ninety-four, in the fifty-eighth year of Our reign.

GOD SAVE THE QUEEN.

Foreign Office,

My Lord,

August 7, 1894.

HER Majesty being fully determined to observe the duties of neutrality during the existing state of war between the Emperor of China and the Emperor of Japan, and being moreover resolved to prevent, as far as possible, the use of Her Majesty's harbours, ports and coasts, and the waters within Her Majesty's territorial jurisdiction, in aid of the warlike purposes of either belligerent, has commanded me to communicate to your Lordship, for your guidance, the following rules, which are to be treated and enforced as Her Majesty's orders and directions:—

Her Majesty is pleased further to command that these rules shall be put in force in the United Kingdom, the Isle of Man, and the Channel Islands, on and after the twelfth day of this month, and in Her Majesty's territories and possessions beyond the seas, six days after the day when the Governor, or other chief authority of each of such territories or possessions, respectively, shall have notified and published the same; stating in such Notification that the said rules are to be obeyed by all persons within the same territories and possessions.

1. During the continuance of the present state of war, all ships of war of either belligerent are prohibited from making use of any port or roadstead in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of Her Majesty's colonies or foreign possessions or dependencies, or of any waters subject to the territorial jurisdiction of the British Crown, as a station, or place of resort, for any warlike purpose, or for the purpose of obtaining any facilities for warlike equipment; and no ship of war of either belligerent shall hereafter be permitted to sail out of or leave any port, roadstead, or waters subject to British jurisdiction, from which any vessel of the other belligerent (whether the same shall be a ship of war or a merchant ship) shall have previously departed, until after the expiration of at least twenty-four hours from the departure of such last-mentioned vessel beyond the territorial jurisdiction of Her Majesty.

2. If any ship of war of either belligerent shall, after the time when this Order shall be first notified and put in force in the United Kingdom, the Isle of Man, and the Channel Islands, and in the several colonies and foreign possessions and dependencies of Her Majesty, respectively, enter any port, roadstead, or waters belonging to Her Majesty, either in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of Her Majesty's colonies or foreign possessions or dependencies, such vessel shall be required to depart and to put to sea within twenty-four hours after her entrance into such port, roadstead, or waters, except in case of stress of weather, or of her requiring provisions or things necessary for the subsistence of her crew, or repairs; in either of which cases the authorities of the port, or of the nearest port (as the case may be), shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours, without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such vessel which may have been allowed to remain within British waters for the purpose of repair shall continue in any such port, roadstead, or waters, for a longer period than twenty-four hours after her necessary repairs shall have been completed. Provided, nevertheless, that in all cases in which there shall be any vessel (whether ships of war or merchant ships) of the said belligerent parties in the same port, roadstead, or waters within the territorial jurisdiction of Her Majesty, there shall be an interval of not less than twenty-four hours between the departure therefrom of any such vessel (whether a ship of war or merchant ship) of the one belligerent and the subsequent departure therefrom of any ship of war of the other belligerent; and the time hereby limited for the departure of such ships of war respectively shall always, in case of necessity, be extended so far as may be requisite for giving effect to this proviso, but no further or otherwise.

3. No ship of war of either belligerent shall hereafter be permitted, while in any port, roadstead, or waters subject to the territorial jurisdiction of Her Majesty, to take in any supplies, except provisions and such other things as may be requisite for the subsistence of her crew, and except so much coal only as may be sufficient to carry such vessel to the nearest port of her own country, or to some nearer destination, and no coal shall again be supplied to any such ship of war in the same or any other port, roadstead, or waters subject to the territorial jurisdiction of Her Majesty, without special permission, until after the expiration of three months from the time when such coal may have been last supplied to her within British waters as aforesaid.

4. Armed ships of either party are interdicted from carrying prizes made by them into the ports, harbours, roadsteads, or waters of the United Kingdom, the Isle of Man, the Channel Islands, or any of Her Majesty's colonies or possessions abroad.

At Stanley, 6th November, 1894.

Your Excellency,

I have much pleasure in bringing to your notice the brave conduct of Sergeant W. Quianlan and a party of five men of the Falkland Islands Volunteers who gallantly rescued two of the "Acorn's" crew, near Sparrow Cove, on the morning of 4th Nov.

The Sergeant and his men, hearing of the absence of our people, offered their services to go in search of them, and borrowing one of the Company's cutters succeeded in finding the missing party in an exhausted condition, (they had been absent from the ship about 18 hours) bringing them and their boat back to the "Acorn" at 3-30 a.m.

If it meets with your Excellency's approval, I should deem it a favour if the thanks of myself, the Officers and crew of the "Acorn" might be conveyed to the Officers, Non-commissioned Officers and men of the Falkland Islands Volunteers for their gallant conduct in so promptly rescuing two of our ship-mates from such a perilous position.

I would add that the sergeant and his men, who were in uniform, had been at drill until late that evening, therefore the willingness and promptitude they displayed were all the more creditable.

I have the honour to be,

The friendly feelings invariably evinced towards me by the community in general, show that my desire to benefit the Colony has not been unappreciated by you, and you may be assured that your kind and sympathetic address cannot but strengthen the desire I have ever felt to afford every assistance to the working class and thus to further the best interests of the Colony.

Glad we are your Excellency to see you again among us.

It was with deep regret that we saw you leave us three months ago, and the expressions of sympathy in your illness that we then tendered to you were true and sincere.

We trust that your visit home, short as it has been, has restored you to health and strength, and that your continued—and we hope lengthy—stay with us will be as pleasant to you as we know it will be beneficial to us and to the best interests of the Colony.

Gentlemen.

It is with much pleasure that I have received on arrival once more amongst you such kind and friendly greetings, though the assurance that the expressions of sympathy which you offered me on my departure for England were "true and sincere" was scarcely necessary in view of the sympathy shown to me during my illness.

The friendly feelings invariably evinced towards me by the community in general, show that my desire to benefit the Colony has not been unappreciated by you, and you may be assured that your kind and sympathetic address cannot but strengthen the desire I have ever felt to afford every assistance to the working class and thus to further the best interests of the Colony.

ROGER TUCKFIELD GOLDSWORTHY.

Government House, Stanley,
Falkland Islands,
4th November, 1894.

H. M. S. "Acorn,"

At Stanley, 6th November, 1894.

Your Excellency,

I have much pleasure in bringing to your notice the brave conduct of Sergeant W. Quianlan and a party of five men of the Falkland Islands Volunteers who gallantly rescued two of the "Acorn's" crew, near Sparrow Cove, on the morning of 4th Nov.

The Sergeant and his men, hearing of the absence of our people, offered their services to go in search of them, and borrowing one of the Company's cutters succeeded in finding the missing party in an exhausted condition. (they had been absent from the ship about 18 hours) bringing them and their boat back to the "Acorn" at 3-30 a.m.

If it meets with your Excellency's approval, I should deem it a favour if the thanks of myself, the Officers and crew of the "Acorn" might be conveyed to the Officers, Non-commissioned Officers and men of the Falkland Islands Volunteers for their gallant conduct in so promptly rescuing two of our ship-mates from such a perilous position.

I would add that the sergeant and his men, who were in uniform, had been at drill until late that evening, therefore the willingness and promptitude they displayed were all the more creditable.

I have the honour to be,

Your Excellency's most obedient Servant,

F. S. INGLEFIELD,

Commander, R.N.,

H. M. S. "Acorn."
