Message from HIS MAJESTY THE KING.

To my People

The world-wide struggle for the triumph of right and liberty is entering upon its last and most difficult phase. The enemy is striving by desperate assault and subtle intrigue to perpetuate the wrongs already committed and stem the tide of a free civilization. We have yet to complete the great task to

which more than three years ago we dedicated ourselves. At such a time I would call upon you to devote a special day to prayer that we may have the clearsightedness and strength necessary to the victory of our cause. This victory will be gained only if we steadfastly remember the responsibility which rests upon us and in a spirit of reverent obedience ask the blessing of Almighty God upon our endeavours. With hearts grateful for the divine guidance which has led us so far towards our goal let us seek to be enlightened in our understanding and fortified in our courage in facing the sacrifices we may yet have to make before our work is done. I therefore hereby appoint January 6th the first Sunday of the year to be set aside as a special day of prayer and thanksgiving in all churches throughout my dominions and require that this proclamation be read at the services held on that day.

The Governor directs the publication for general information of the appended Report made by the Geological Survey on certain mineral specimens collected at Port Sussex, East Falkland.

By Command,

Colonial Secretary.

M.P. 1045/17.

FALKLAND ISLANDS. Specimens collected by the Rev. C. McD. Hobley, and transmitted by the Colonial Office to the Geological Survey for identification.

The specimens consist of:—

- (1) A hard black bedded material "A" of Hobley's Report.
- (2) Friable black material "B" "
- (3) Yellowish white substance associated with "B"
- (4) Hard rock composed of yellow and brown fragments in a ferruginous matrix "D" of Hobley's Report.
- (5) Two samples of Water "C" of Hobley's Report.

(1) The hard black material soils the fingers. It is well bedded in layers up to $1\frac{1}{4}$ ins. in thickness, but shows signs of slickensiding by the development of black lustrous surfaces that give to the rock the appearance of coal. A section F.2384 cut from this material shows abundant but minute grains of quartz and other crystalline matter embedded in an opaque matrix. Also, a small amount of finely divided iron-pyrites may be detected in reflected light. (H.H.T.)

On heating to redness in air, it changes rapidly in colour the residue becoming practically white.

This residue was examined microscopically and was found to consist of quartz, finely divided micaceous matter and impalpable siliceous material stained slightly by ferric oxide. (H.H.T.)

During the ignition it was noticed that water, carbon dioxide, sulphur-dioxide, and, after a while, ammonia were evolved. No oil or tarry matter were seen but a faint tarry odour was perceptible.

The formation of carbon dioxide and the change in colour when the substance was heated indicated carbonaceous matter; sulphur dioxide, some mineral such as iron-pyrites; while the ammonia could only be present in the form of a nitrogenous-carbonaceous compound.

As, probably, the nitrogenous compound would be decomposed on heating by the action of sulphur dioxide in the presence of water, the nitrogen would be liberated as ammonia, and estimated as such would be 0.47% of the material.

The following is an analysis of the hard black material:—

Residue on ignition	77.89
Iron Pyrites, FeS_2	.89
Carbon	16.35
Water at 105°C .	2.48
Water above 105°C .	2.14
Nitrogen	.39
Total.	<u>100.14</u>

only a trace of manganese was found in this specimen.

(2). The friable black material is very similar in composition to the harder variety (1), the same compounds being evolved when the substance is heated, but the greater amount of water present possibly accounts for the friability.

Compared with (1) this material contains more iron-pyrites, but the nitrogen content is less. Apparently the nitrogenous compound has been leached out by water. The amount of manganese is not perceptibly greater than in the hard material.

The percentage of carbon in the samples is far too great to be all in combination with such a small quantity of nitrogen as 0.39%; the greater part of the carbon found must, therefore, be in a free state either as amorphous carbon or more probably as graphite.

In order to prove the presence or absence of graphite, experiments were made on the electrical conductivity of the solid material, and from the comparative ease with which a film of copper was electrolytically deposited it would appear that the carbon exists mainly in the form of graphite, although possibly not to the exclusion of amorphous carbon.

Such a condition of the carbon is not uncommon in carbonaceous shales all the world over.

(3). The yellowish white substance exuded from (2) consists of a basic sulphate of iron produced by the oxidation of iron-pyrites; the presence of this basic sulphate was also detected in the sample (1) of hard black material. (E.G.R.)

(4). This compact mass is what is usually described as "iron pan" and consists of fragments of green shale, shale stained yellow or brown by ochre, and angular pieces of dark brown iron-stone cemented together by a dull brown ferruginous cement. Such a rock arises when any fragmental material is steeped for lengthy periods in ferruginous waters under the oxidizing influence of the air. (H.H.T.)

(5). The two samples of water W.A. and W.B. were subjected to a qualitative chemical analysis only as it was thought that the samples did not merit a detailed quantitative investigation.

W.A. contains too much sea-water to be worth examination.

W.B. is fairly pure water containing a little iron in the ferrous state, a little carbondioxide, and a very little sodium chloride. It is practically free from dissolved sulphates. No oil was found and the oily scum mentioned in the report is in all probability due, as suggested, to the oxidation of the ferrous iron. (E.G.R.)

We consider that the materials submitted have no commercial value, the hard black coaly substance being only carbonaceous shale and of no use as a fuel. Further the contained graphite is so intimately mixed with impurity that it could not be mechanically separated; it is possible however that natural segregations of graphite might occur within the district, and if so probably in the neighbourhood of faults or shearplanes.

MISCELLANEOUS.

DOWNING STREET,
29th June, 1917.

Sir,

I have the honour to transmit to you the accompanying account of a ceremony at which Her Royal Highness Princess Alexander of Teck presented, on behalf of the "League of the Empire," silk union jacks and commemorative shields to the Falkland Islands Volunteer Corps and other Colonial Forces, on the 5th May last.

2. A letter has since been received from the League of the Empire in which it is stated that Her Highness Princess Marie Louise greatly regretted that she was unavoidably prevented from being present at the ceremony.

3. It is proposed that the flag and shield of the Falkland Islands Volunteer Corps should be kept by the Corps.

4. The gifts will not be sent out to the Colony until after the war, but will be retained for the present in the Colonial Office.

5. I am confident that these emblems and the expressions of appreciation which accompanied them will be highly prized both by the members of the Falkland Islands Volunteer Corps and by the people of the Colony.

6. I request that you will give all possible publicity to this despatch and its enclosures.

I have etc.,

WALTER H. LONG.

GOVERNOR

Presentation at the Colonial Office.

The presentation of a silk Union Jack and Shield to each of the Regiments furnished by the Crown Colonies took place at the Colonial Office by kind invitation of the Secretary of State for the Colonies on Saturday, May 5th at 3.30 o'clock. Her Royal Highness Princess Alexander of Teck presented the emblems which were received by the Right Hon. Walter Long, on behalf of the Regiments.

The flags and shields are the gifts of the women and children of the British Isles, and the inscription engraved on the shields is as follows:—

"To the soldiers of who have fought in the cause of the Empire during the Great War, from the women and children of the British Isles, in high admiration of their valour and devotion."

LIST OF REGIMENTS.

THE BRITISH WEST INDIES REGIMENT, drawn from:— Jamaica, The Bahamas, British Honduras, British Guiana, Trinidad & Tobago, Barbados, Grenada, St. Lucia, St. Vincent, The Leeward Islands.

THE KING'S AFRICAN RIFLES, drawn from:— British East Africa. Uganda, Nyasaland, Zanzibar.

THE WEST AFRICAN FRONTIER FORCE, drawn from:— Nigeria, Gambia, Sierra Leone, The Gold Coast.

THE FALKLAND ISLANDS VOLUNTEER CORPS.

THE SAINT HELENA VOLUNTEERS.

THE SOMALILAND CAMEL CORPS.

Colonial Office, Saturday, May 5th, 1917.

Presentation of Union Jacks and Commemorative Shields to The British West Indies Regiment, The West African Frontier Force, The King's African Rifles, The Somaliland Camel Corps, The Falkland Islands Volunteer Corps and the Saint Helena Volunteers, from the Women and Children of the British Isles, made on their behalf by Her Royal Highness Princess Alexander of Teck, and received by the Right Hon. Walter Long, Secretary of State for the Colonies, on behalf of the soldiers.

SPEECH BY MISS CHAMBERLAIN.

Your Royal Highness,

It is a matter of deep gratification to the Ladies' Committee, of which Your Royal Highness is Patroness, that the last of the presentations on our long list should be graciously made by yourself in person. This Committee was formed under the auspices of the League of the Empire to find expression for the admiration and gratitude of the Women and Children of the British Isles towards the men of the Overseas Contingents fighting for the Empire in the Great War. In Europe, in Asia, in Africa, our fellow subjects and partners in the Empire uphold the cause of freedom and justice, side by side with the men of this country, and we know not whom most to praise, where each one we consider seems to have attained the utmost height of heroism.

The soldiers and sailors of the United Kingdom hear the voice of our pride and thankfulness; their deeds shall be remembered among us while the land they serve and save retains her liberty. Nor yet shall we forget the tide of loyalty and patriotism which flowed deep and full from every part of the Empire overseas towards the points of danger, seeking the grim conflict for righteousness' sake. Lest they should remain ignorant of our deep sense of the new bond uniting all subjects of the British Crown in mutual help and common sacrifice for the noblest ends, lest any of the men who offer their lives for us should not know how we honour them in our heart of hearts, the women and young people here at home have found a symbol in the Flag of the Empire and have provided the accompanying record in these shields.

Many such emblematic gifts have already passed to the overseas soldiers through Royal and gracious hands. To-day those Colonial Regiments who are serving in lands distant from these shores receive our tribute through the Secretary of State for the Colonies, their natural representative in this Country. They fight afar, but their valour and devotion are known and are dear to us, and you, Madam, have graciously consented in presenting the gifts, which will be brought to you by a deputation of the givers, to be our intermediary and to enhance the value of our commemoration.

We send the message of our admiration to the BRITISH WEST INDIES REGIMENT whose units fight in France, in East Africa, in Mesopotamia and in Egypt, where they take their part in protecting that now prosperous land from a return of Turkish misrule.

THE WEST AFRICAN FRONTIER FORCE bear already upon their shield the legend Togoland and Cameroons. They will add another name before the end, for they fight now in German East Africa.

Here they find themselves close comrades of the KING'S AFRICAN RIFLES, whose first work was to expel the invader from a portion of their own territory and who go on to the final deliverance from the German yoke of the last stretch of African soil, a consummation which now seems close at hand.

There has been fighting in every corner of the African continent; the remotest contingents have struck their blow for the weak against the cruel. Thus the SOMALILAND CAMEL CORPS, in operations culminating with the victory of Shimer Barris, have repelled the Mad Mullah's adherents and justified the faith reposed in us.

Finally there are two Corps of Volunteers, who have not been called upon to fight, but who have done all they could in making ready for the call. One of these saw dire peril very near to them. Theirs was no idle boast when they offered life and limb if the need should arise. These are the FALKLAND ISLANDS VOLUNTEERS and the SAINT HELENA VOLUNTEERS.

To all we offer the symbol of Loyalty to our King and love of our country, the sign of our common partnership in a great Empire, maintaining everywhere the ideals of humanity and justice, the flag that brings freedom in its folds, the Union Jack.

H. R. H. PRINCESS ALEXANDER OF TECK.

In handing the flags to the Right Hon. the Secretary of State, Princess Alexander expressed her gratitude at being associated with those who were paying that tribute to the loyal devotion which had brought the sons of the Empire from every corner of the world to fight beside the Motherland.

SPEECH BY MR. WALTER LONG.

Mr. Walter Long in accepting the flags on behalf of the regiments said that although all of them had not been in active fighting, it might be frequently driven home that whether a man found himself in the fighting line or doing his duty in any part of the British Dominions, he was equally deserving of the gratitude and appreciation of his fellow countrymen. "We are apt," he said, "to give insufficient recognition to men fighting in all parts of the world under climatic and more arduous difficulties perhaps than on some of the fronts. To all alike our thanksgiving is extended, and I thank the League of the Empire for its efforts in consolidating the goodwill of the peoples of the vast British Empire in the determination to serve King and country in the interests of freedom and justice, which is the spirit of the whole civilized world. In our Overseas possessions men are, as I know from letters which reach me daily, eating their hearts out because they are not allowed to take part in the fighting line. They cannot be allowed to go because they are needed for the Government of the Colony in which they live, although they have begged and implored to be allowed to go. But necessity imposed upon us the duty of keeping them where they are.

Of all who faithfully serve in whatever national work they might be called upon to perform it might be said that they were doing their duty equally with those who fought the common foe. There was hardly a home in the Kingdom which was not darkened by the black shadow of sacrifice and sorrow. But the sacrifices were not made in vain. We were fighting not for the possession of this or that territory, but for the great ideals which had appealed to us from childhood upward, for those liberties and rights and so-called privileges, and which made the world a place worth living in.

The regiments and contingents honoured that day would appreciate their emblems the more because they had received them from the hands of a member of the illustrious family which was always ready to lend its aid to every good cause. This characteristic of the King and of members of his Royal House was familiar, and happily his personality and that of other members of his family were familiar also in many distant parts of the Empire."

SPEECH BY SIR PHILIP HUTCHINS, K.C.S.I.

Your Royal Highness,

As Chairman of the League of the Empire I have to express the League's gratitude to your Royal Highness.

As you have heard from Miss Chamberlain this afternoon's ceremony has brought one of our latest undertakings to a conclusion. On former occasions thanks to assistance most graciously given by other members of the Royal Family we have been privileged to present flags and shields to the contingents which have rushed to the aid of the Mother Country from the four great Overseas Dominions, from India and from Newfoundland; and also to the Rhodesians who are fighting for the Empire in East Africa and elsewhere. Now, thanks to your Royal Highness, we have the pleasure of handing over to the official custody of the Secretary of State similar gifts for the soldiers who have come from Crown Colonies. Thus we can congratulate ourselves that this scheme of ours has now been successfully accomplished.

I offer you, Madam, our most grateful thanks for your kind interest and support in this matter.

And I may also thank Mr. Long for his cordial participation in this ceremony, and for having consented to take these Emblems into his keeping until they can be forwarded to their proper destination.

10th January, 1917.

The Governor directs it to be notified, for general information, that the Peat Banks on Crown Land to the south of the Town of Stanley have been inspected by a Committee composed of Messrs. R. B. Baseley (Colonial Engineer), D. J. Sullivan (Acting Chief Constable) and John G. Aldridge, and that a survey and plan of these banks have been made.

The Peat Banks and the working thereof have been placed under the general direction of the Colonial Engineer to whom application must be made before any new bank be opened.

By Command,
C. F. CONDELL,
Colonial Secretary.

SAVINGS BANK, 1916-17

(MANAGER'S REPORT).

TREASURY,
STANLEY, FALKLAND ISLANDS,
24th December, 1917.

SIR,

I have the honour to forward the following report of the transactions of the Government Savings Bank, for the year ended 30th September, 1917.

Summary of year's transactions.

2. During the year 111 new accounts were opened and 35 accounts closed; leaving a total of 738 deposit accounts, amongst which the balance in hand, amounting to £112,895 19s. 8d, was distributed. This gives an average of £152 19s. 6d, for each account, or £49 per head of the population of the Falkland Islands, computing the population at 2,300.

Capital Account.

3. The Balance in hand, credited to the different accounts on the 1st October, 1916, was	£103,578 : 19 : 2
During the year the deposits received amounted to	25,217 : 14 : 6
And the accrued interest credited to the different accounts, was	2,555 : 8 : 0
making a total of:—	£131,352 : 1 : 8
On the other hand, the withdrawals, during the same period, amounted to	18,456 : 2 : 0
leaving an outstanding balance on the 30th September, 1917 of	£112,895 : 19 : 8
4. The amount expended in the purchase of Stock, up to the 30th September, 1917, was	£86,016 : 4 : 2
leaving an uninvested balance of	£26,879 : 15 : 6

Profit and Loss Account.

5. The income derived from the Investments, during the year, amounted to	£3,026 : 10 : 4
which less expenses for management, &c.,	2,609 : 8 : 0
leaves a profit on the year's transactions of,	£417 : 2 : 4

6. Had the uninvested balance shewn above as amounting to £26,879 : 15 : 6, been invested in 5% War Stock, to the credit of the Savings Bank, during the year, the profit on the year's transactions would have amounted to over £1761 instead of £417.

7. The uninvested balance of £26,879 : 15 : 6 mentioned above, is in the hands of the Crown Agents, and the interest derived therefrom is credited direct to the Ordinary Revenue of the Colony, and does not therefore appear in the Savings Bank Accounts.

Assets and Liabilities.

8. The total amount standing to the credit of the depositors, representing the Liabilities of the Bank, on the 30th September, 1917, amounted to £112,895 : 19 : 8

The Assets of the Bank, as shewn by
the assumed Market Value of the Securities, £72,310 : 0 : 0
together with the uninvested monies with
Crown Agents, 26,879 : 15 : 6

99,189 : 15 : 6

leaves a surplus of Liabilities over Assets, of £13,706 : 4 : 2

9. The great depreciation in the Market Value of Securities, owing to the present War conditions, explains the very large surplus of Liabilities over Assets shewn above, which, no doubt, will recover itself in course of time.

I have, etc.,

W. A. THOMPSON,

Manager, Savings Bank.

The Honourable

The Colonial Secretary.

No. 6.

Colonial Secretary's Office,
Stanley, Falkland Islands.
14th February, 1918.

The Governor desires to acquaint the residents and people of the Falkland Islands that he has received a letter from Admiral Sir F. C. Doveton Sturdee, Bart., K.C.B., K.C.M.G., C.V.O., informing him that it has been decided to raise a Fund to commemorate His Majesty's Ship "Invincible" and the Admiral, Officers, and Ship's Company who laid down their lives for their Country on 31st May, 1916.

A Committee has been formed in England for the purpose and, after consultation with different authorities, has decided that the best object to which this Fund can be devoted, will be to assist in the higher education of the daughters of any Commissioned Officers of Ward Room Rank, who lost their lives in H. M. S. "Invincible" and, subsequently, similarly to assist daughters of Officers of the Royal Navy and Royal Marines of the above-mentioned Rank who have lost their lives on Active Service.

The Fund will be known as the "Invincible Memorial Fund".

The residents of the Falkland Islands have every reason to cherish a deep and grateful remembrance of the action of the British Squadron under the command of Admiral Sturdee on the Flagship "Invincible" on the 8th December, 1914, when the German squadron was destroyed in these waters and the Falkland Islands saved from bombardment and possibly occupation by the enemy.

The Governor feels sure that the residents and owners of property in the Falkland Islands will be glad of this opportunity to shew what in any case must amount to but a small measure of their heartfelt thankfulness for this deliverance from the enemy, and will contribute accordingly to the "Invincible Memorial Fund".

Subscriptions to the Fund will be received by the Governor, Government House, Stanley.

By Command,
C. F. CONDELL,
Colonial Secretary.

Proclamation

[L.S.]
W. DOUGLAS YOUNG,
Governor.

By His Excellency WILLIAM DOUGLAS YOUNG, Esquire, Companion of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief in and over the Colony of the Falkland Islands and its Dependencies.

Whereas by the Geneva Convention Act, 1911, of the Imperial Parliament, it is enacted that it shall not be lawful for any person to use, for the purpose of his trade or business, or for any other purpose whatsoever, without the authority of the Army Council, the heraldic emblem of the Red Cross on a white ground formed by reversing the Federal colours of Switzerland, or the words "Red Cross" or "Geneva Cross",

And whereas it is also enacted that the said Act shall extend to His Majesty's Possessions outside the United Kingdom subject to such necessary adaptations as may be made by Order in Council,

And whereas an Order in Council dated at the Court at Buckingham Palace the 23rd day of October, 1917, cited for all purposes as "The Geneva Convention Act, 1911, (Colonies) Order in Council, 1917," has been made and it is therein ordered by His Majesty, by and with the advice of His Privy Council, that The Geneva Convention Act, 1911, in its application to the Colonies affected by the Order, shall be adapted as follows:—

- (1) The powers by the said Act vested in the Army Council shall be vested in the Governor in Council, or, if there shall be no Executive Council in the Colony, in the Governor.
- (2) Proceedings under the said Act shall not be instituted without the consent of the Principal Law Officer of the Colony, or, if there be no such Law Officer, of the Colonial Secretary.

And whereas it is further provided that "The Geneva Convention Act, 1911, (Colonies) Order in Council, 1917" shall come into force in each Colony affected by the said Order on a date to be fixed by the Governor,

Now therefore know ye that I do hereby proclaim that "The Geneva Convention Act, 1911, (Colonies) Order in Council, 1917," shall come into force and have effect in this Colony as from the first day of March, 1918.

By Command,

C. F. CONDELL,

Colonial Secretary.

Government Notice

No. 16.

Colonial Secretary's Office,
Stanley, Falkland Islands.
15th March, 1918.

The King has been graciously pleased to give orders for the following appointment to the Most Excellent Order of the British Empire, for services in connection with the War.

To be an Officer of the Most Excellent Order:—

MRS. MURIEL HARRIET FELTON,

Fitzroy, Falkland Islands.

By Command of the Governor,

C. F. CONDELL,

Colonial Secretary.

M.P. 273/18

SURGEON'S QUARTERS,
STANLEY.

February, 1918.

Sir,

I have the honour to forward the Annual Medical Report for the year 1917.

Vital Statistics for Stanley.

	MALES.	FEMALES.	TOTAL.
Births	17	15	32
Deaths	4	4	8

K. E. M. Hospital.

Miss K. Yule arrived in the Colony on 22nd September as Government Nurse and was appointed Nurse Matron on 1st December in the place of Miss M. Niven resigned.

Twenty-one (12 males and 9 females) patients were admitted to the Hospital during the year. There was one death in the Hospital.

Cases admitted:—

Gynecological	5	Morbus Cordis	3
Burns	2	Septic Leg	1
Pulmonary Tuberculosis	1	Fractured Fibula	1
Fractured Tibia	1	Poisoning (Sulphuric acid)	1
Acute Bronchitis	1	Pelvic Peritonitis	1
Fractured Ribs	1	Epithelioma of lip	1
Rheumatic Fever	1	Appendicitis	1
		Total	21

31 patients were treated by the Nurse Matron in their own homes, 21 being gynecological.

Government School.

The children were medically examined at intervals during the year. Over 20% of the children in Stanley suffer from enlarged tonsils or adenoids. Urgent isolated cases may be treated, but it is difficult to operate on large numbers without adequate assistance and in consequence little can be done until the arrival of a second Medical Officer. A few cases of Nits were treated and two cases of Ringworm. On the occasion of the last Medical inspection only 4 cases of Nits were seen and 1 suspected case of Ringworm. The condition of the teeth of most of the school children is still very unsatisfactory and parents should avail themselves more of the opportunity of sending their children regularly to the Colonial Dentist's Surgery; Saturday mornings are reserved exclusively for school children.

Shipping & Quarantine.

25 vessels were given Pratique during the year as against 51 the preceding year. 3 cases were admitted to the K. E. M. Hospital, 2 from whaling vessels (surgical) 1 from a sailing vessel (medical).

Public Health.

Exanthems, 2 cases of chicken pox. Phthisis, 3 cases, 1 Death.

With regard to the latter, none of the Patients were inhabitants of Stanley. Owing to there being no suitable accommodation in Stanley for the proper isolation treatment of such cases, patients suffering from this disease are advised to remain in camp, as open air treatment is easier to carry out there and there is less risk of the disease spreading than if they live in the crowded houses in Stanley; a suitable diet is also easier to obtain. The Board of Health made an exhaustive survey of the Roads, Drains, etc. in Stanley with a view to the possibility of improving the present conditions. The matter is still under consideration. During the later months of the year, November and December, a large percentage of the population of Stanley suffered from Gastritis and Enteritis. This was probably due to the very dry weather, followed by two or three days heavy rain. Residents in Stanley, relying as they do on rain water collected from the roofs, should realize that their tanks of drinking water should be thoroughly cleaned periodically, as the sediment that collects at the bottom of the tank almost invariably cause intestinal trouble when stirred up by a heavy fall of rain following a prolonged drought. The only cases (3) coming under my notice from Camp were from a station on which the water used was partly roof water and partly spring water.

General Remarks.

The general health of the Colony was better than during the two previous years.

STANLEY.

There was less sickness than in 1916; possibly this was owing to the fact that about 150 workmen had left Stanley and there was consequently less crowding in the houses.

THE CAMP.

Teal Inlet,	Douglas Station,	Salvador,	Fitzroy,
Rincon Grande,	Port Louis N. & S.	Johnson's Harbour.	

There was less sickness than usual; several stations were not visited at all during the year except in passing through and the cases at the rest were chiefly accidents.

I am, Sir,
Your obedient Servant,
JOHN CRADDOCK,
Acting Colonial Surgeon.

The Honourable
The Colonial Secretary.

TREASURY,
Stanley, Falkland Islands.
10th May, 1918.

The Honourable,
The Colonial Secretary.

I have the honour to submit herewith returns (numbered 1 to 13), called for under Colonial Regulation 396, together with a draft of the Supplementary Appropriation Ordinance in respect of the year ended 31st December, 1917.

2. The Ordinary Revenue and Expenditure for the year amounted to £36490 : 18 : 8, and £28479 : 14 : 4, respectively. The total expenditure, exclusive of disbursements under "Live Stock" amounted to £29386 : 5 : 8, and was under the Ordinary Revenue by £7104 : 13 : 0. This last named sum of £7104 : 13 : 0, added to the £18468 : 13 : 9, at the beginning of the year, makes a surplus of available assets on the 31st December 1917, of £25573 : 6 : 9.

Revenue.

3. The General Revenue for the year amounted to £45588 : 9 : 11, and exceeded the original estimate by £4725 : 9 : 11. It included a sum of £8492 : 4 : 3 (instalments of Land Purchase) as well as a sum of £605 : 7 : 0 (collected under the Live Stock Ordinance) leaving an ordinary revenue of £36490 : 18 : 3, which exceeded the original estimate by £4809 : 18 : 8, but was less than that collected in the previous year by £2614 : 12 : 9. In the revenue for 1917 is included, a sum of £1835, collected at South Georgia during the previous year.

4. The following statement shews the revenue collected under the several Heads during the year 1917, the two previous years, and ten years ago:—

Expenditure.

Certain disbursements made during the year under "Military", can hardly be regarded as recurrent expenditure.

AND WHEREAS doubts have arisen as to the extent of the rights reserved to the Crown in respect of lands the subject of such grants or leases:

AND WHEREAS it is desirable to put an end to such doubts and to make provision for authorising and regulating the prospecting for and working of minerals in or under such lands in manner hereinafter appearing:

Short Title.

BE IT ENACTED by the Governor of the Colony of the Falkland Islands, with the advice and consent of the Legislative Council thereof, as follows:—

Definition of Mineral.

1. This Ordinance may be cited as "The Mining Ordinance, 1918."

Lands to which this Ordinance applies.

2. In this Ordinance and any Regulations made thereunder the word "mineral" means and includes precious stones, precious metals, metals and all minerals of any kind whatsoever including coal, bituminous shale and mineral oil.

3. This Ordinance shall apply only to unalienated Crown Lands and to lands the subject of an existing Crown grant or Crown lease the effect of which is to confine the user of such land by the grantee or lessee to pastoral purposes only and to reserve to the Crown all mines of silver, gold and other precious metals and all mines of coal; or all diamonds and all mines of gold, silver, and other metals and all mines of coal, as the case may be.

4. No person shall prospect for or mine or take away any mineral found upon or under any land to which this Ordinance applies, unless he be first granted by the Governor a prospecting licence or a mining lease, as the case may be, entitling him to do so. Provided that no licence shall be required by the holder of a Crown grant or Crown lease to quarry or take Stone, Flint, Chalk, Gravel, Sand, Peat and such other substances as the Governor may permit, on application in writing, to be quarried or taken, whether under or upon the land the subject of such grant or lease. Any Stone, Flint, Chalk, Gravel, Sand, Peat or other substance so quarried or taken shall be used exclusively upon such land and no part thereof shall, except by permission of the Governor expressed in writing, be sold, given away, dealt with or disposed of in any other manner whatsoever. Any person acting in contravention of this section shall be guilty of an offence under this Ordinance.

No person to prospect or mine without authority.

5. (1) It shall be lawful for the Governor to grant licences to prospect for and leases to mine, take, win, and carry away any mineral upon or under any land to which this Ordinance applies, on such terms and for such periods of time as the Secretary of State for the Colonies may approve, and subject to any Regulations which, from time to time, may be in force.

Governor may grant licences and leases to prospect and mine.

(2) No licence or lease granted under this Ordinance shall be disposed of or transferred without the written sanction of the Governor being first applied for and obtained.

Licences and leases not to be transferred.

(3) Every prospecting licence and every mining lease granted under this Ordinance shall provide that the holder thereof in the exercise of the right conferred shall do as little damage as possible, and shall be subject to the payment by the licensee or lessee, as the case may be, of reasonable compensation to the grantee or lessee of the land in respect of which the licence or lease is granted, for any actual damage done by him, in the exercise of such right, to any buildings, roads, or pastoral rights on or over the land.

Payment by holder of licence or lease of compensation for damage.

6. (1) Any claim for compensation for actual damage done by the holder of a prospecting licence or mining lease or by his agent or servants to any buildings, roads or pastoral rights, shall be made by the grantee or lessee of the land and lodged with the Colonial Secretary within four months from the date of the alleged damage sustained.

Claim for compensation to be brought within four months.

(2) Every such claim shall within six months from the date of its being lodged with the Colonial Secretary be inquired into and the damage if any assessed by a Board of three Arbitrators composed of the Magistrate of the District in which the alleged damage occurred, or such other officer as the Governor may appoint, and two persons resident in the Colony, one of whom shall be nominated by the grantee or lessee of the land lodging the claim and the other by the person to whom the licence or lease is granted.

Claim to be assessed by Board of Arbitrators.

(3) An appeal from the finding of the majority of the Board of Arbitrators shall lie to the Chief Justice whose decision shall be final.

Appeal to Judge against finding of Arbitrators.

7. A licence to prospect and a lease to mine shall be in such form as may be approved by the Governor, and shall whilst in force, and for the purposes for which it is granted, entitle the holder thereof as well as his authorized agents and servants, together with his or their animals, carts, vehicles, and all things and appliances necessary for the working of the undertaking, to freely enter and to pass at all times on to and over the land named therein, and, subject to the conditions specified therein, to prospect for or to mine, take, win and carry away any mineral found upon or under the land to which the licence or lease shall apply.

Form of licence and lease and rights conferred by same.

Applications for licences and leases to be sent to Colonial Secretary.

8. Every application for a prospecting licence or for a mining lease shall be made in writing to the Colonial Secretary and shall state the position and approximate area and boundaries of the land in respect of which the application is made, and such further particulars as may be required by the Governor.

Protection of holder of licence or lease against interference.

9. Any person who interferes with or obstructs the holder of a prospecting licence, or of a mining lease, or his agents or servants in the exercise of the rights and privileges conferred on him in pursuance of this Ordinance or of any Regulation made thereunder shall be guilty of an offence under this Ordinance.

Work to be actively carried on.

10. In every prospecting licence there shall be implied and deemed to be inserted therein a condition that the person to whom the same is granted shall actively carry on the work of prospecting to the satisfaction of the Governor, in default of which, the licence may, with the sanction of the Secretary of State, be cancelled by the Governor, when it shall become null and void and all works and property of the licensee on the land shall be forfeited to the Government of the Falkland Islands or otherwise dealt with as the Governor may order.

Forfeiture of minerals taken in contravention of Ordinance or Regulations.

Any mineral raised, taken, won or carried away in contravention of the provisions of this Ordinance, or any Regulation made thereunder, shall be forfeited to the Government of the Falkland Islands, and any person so acting in contravention of this section shall be guilty of an offence under this Ordinance.

Making of Regulations.

12. (1) The Governor in Council may make and from time to time vary Regulations for carrying out the provisions and intent of this Ordinance, and for protecting owners and occupiers of land against undue interference with their rights by operations of mining enterprises.

Regulations may provide payment of royalties and fees.

(2) The Regulations may provide for the payment of such Royalties and fees as the Governor in Council may see fit to impose.

The Governor has the honour to convey to the People of the Falkland Islands the following message addressed by the Right Honourable David Lloyd George, P.C., Prime Minister, to the People of the British Empire.

By Command,
T. N. GODDARD,
for Colonial Secretary.

M. P. 607/18.

The message which I send to the people of the British Empire on the 4th anniversary of their entry into the war is "HOLDFAST".

We are in this war for no selfish ends. We are in it to recover freedom for the nations which have been brutally attacked and despoiled and to prove that no people however powerful can surrender itself to the lawless ambitions of militarism without meeting retribution swift certain and disastrous at the hands of the free nations of the world. To stop short of victory for this cause would be to compromise the future of mankind.

I say HOLDFAST because our prospects of victory have never been so bright as they are to day. Six months ago the rulers of Germany deliberately rejected the just and reasonable settlement proposed by the Allies. Throwing aside the last mask of moderation they partitioned Russia enslaved Roumania and attempted to seize supreme power by overwhelming the Allies in a final and desperate attack. Thanks to the invincible bravery of all the Allied armies it is now evident to all that the dream of universal conquest for the which they wantonly prolonged the war can never be fulfilled but the battle is not yet won. The great autocracy of Prussia will still endeavour by violence or guile to avoid defeat and so give militarism a new lease of life. We cannot seek to escape the horrors of war for ourselves by laying them up for our children. Having set our hands to the task we must see it through till a just and lasting settlement is achieved.

In no other way can we ensure a world set free from War.

HOLDFAST.

AT THE COURT AT BUCKINGHAM PALACE,
The 22nd day of March, 1918.

PRESENT,

THE KING'S MOST EXCELLENT MAJESTY.

LORD PRESIDENT.

SIR GEORGE BUCHANAN.

LORD STEWARD.

SIR FREDERICK PONSONBY.

Whereas by the Falkland Islands Currency Note Order, 1899, (hereinafter referred to as "The Principal Order"), provision was made with respect to the issue of currency notes in the Colony of the Falkland Islands:

And whereas by Section 7 of the Principal Order it was provided that the coin received in exchange for currency notes should form the Note Guarantee Fund, and that a portion thereof, referred to as the coin portion of the Fund, and being not less than the fixed proportion of the notes for the time being in circulation, should be in coin and should be held in the Colony in the custody of the Commissioners:

And whereas it is expedient that during the War, and for twelve months after the termination thereof, part of the coin portion of the Fund shall be kept in the United Kingdom:

Now, therefore, His Majesty is pleased, by and with the advice of His Privy Council, to order, and it is hereby ordered, as follows:—

1. This Order may be cited as the Falkland Islands Currency Note (Temporary Amendment) Order, 1918, and shall be read and construed with the Principal Order.

2. There may be kept in the United Kingdom, either in coin or invested in such manner as a Secretary of State shall approve, for the period of the War, and for twelve months after the termination thereof, such part of the coin portion of the Note Guarantee Fund as a Secretary of State may from time to time direct, notwithstanding that by reason hereof the coin portion of the Fund in the custody of the Commissioners in the Colony may become and be less than the fixed proportion of the notes for the time being in circulation.

3. The Governor of the Colony may, at any time during the War, or during a period of twelve months after the termination thereof, declare by Proclamation that the currency notes issued in the Colony are inconvertible and thereupon, notwithstanding anything in the Principal Order to the contrary, the holder of a currency note shall not be entitled to demand from the Commissioners, and the Commissioners shall not be liable to make, payment in current coin of the amount expressed in the note until the

said Proclamation shall be revoked, or until the period of twelve months after the termination of the War shall have expired, whichever shall first occur.

4. Any such Proclamation may at any time be revoked by the Governor without prejudice to the issue of a new Proclamation in pursuance of Article 3 of this Order.

5. This Order shall come into operation from and after a day to be fixed by Proclamation by the Governor.

6. His Majesty may from time to time revoke, alter, add to, or amend this Order.

STOCK DEPARTMENT,
STANLEY,
9th August, 1918.

Sir,

I have the honour to submit the Annual Report of this Department for the Season, 1917-1918.

I have the honour to be,

Sir,

Your obedient Servant,

W. ATKINS,

Acting Chief Inspector of Stock.

The Honourable
The Colonial Secretary,
Stanley.

M.P. 668/18

Sheep.

2. It is satisfactory to be able to report that the general health of the flocks continues to be good, with the exception of certain flocks which have been infected with Lice and are under notice to clean.

Every effort is being made to clean these sheep, but owing to the fog and continual rain in the Autumn, the gathering and dipping of these sheep has not been able to be carried out as satisfactorily as it would have been had the weather been favourable.

Ophthalmia.

3. This disease is still prevalent among some of the flocks, but I am glad to state that it is becoming less frequent each season.

Statistics.

4. The Returns for 1918 shew the number of the sheep in the Colony to be 699,284 an increase of 2,309 on the 1917 returns.

The price of wool still continues good, and I am glad to say that the clip of the present season has been a record one as regards the weight of wool.

The chief increase is to be found in the number of sheep canned for exportation, and no doubt this will continue under present conditions.

Lambing.

5. The Lambing this season was exceptionally good; no doubt this was due to the fine weather in the Spring. It will be seen from the Comparative Table appended that there is a big increase on the number returned last season.

Canning.

6. Only one factory was working during the season (The Falkland Islands Company's factory at Goose Green). Owing to the need of canned meat for export a considerably increased number of sheep were canned this season, viz:— 61,181, shewing an increase of 18,470 on the previous season.

The sheep were purchased outright from the various stations, the average price paid being 10/3½d. per sheep.

Cattle.

7. The number of cattle at present in the Colony is 7,263 shewing an increase of 419 on last year's returns. The health of the cattle is very good.

Horses.

8. The returns of the present season shew a small decrease on the numbers of last season. The number of foals returned also shew a slight decrease. The general health of the horses is satisfactory.

Imports.

9. During the season the Imports have been:—

6 Bulls, 1 Stallion (Highland Pony), 16 Romney Marsh Rams, from the United Kingdom, and 23 horses from Punta Arenas, Chile.

The Farmers are to be congratulated on their efforts to improve the stock in general of this Colony, as will be seen from the importations made from time to time, not only in the way of improving the sheep, but also the cattle and horses, and I consider the recently imported Highland Pony Stallion an excellent type of horse, and well adapted for this Colony.

Exports.

10. No stock has been exported from the Colony this season. A considerable quantity of Canned Meat, Wool, Hides and Tallow has been exported.

Cultivation.

11. The progress made in this direction increases year by year. The quantity and quality of the hay grown and stored this season is much greater than those of the previous season.

At two of the stations another valuable foodstuff is prepared, namely Ensilage.

"YORK COTTAGE, SANDRINGHAM, NORFOLK.

On the occasion of "Our Day", 1918, I have much pleasure in congratulating the Red Cross Society and the Order of Saint John on the magnificent work which they in conjunction have achieved during more than 4 years of warfare, and in expressing the confident hope that their efforts may continue to receive from my people the financial support which they require. By personal observation in the United Kingdom and on the Western Front I am convinced that the appeal by the Joint Committee for funds is more than justified in the manner in which they carry on their widespread and responsible labours in co-operation with the Medical Services of the Forces. In Flanders, France, Italy, and Malta, in Palestine, Macedonia and Egypt, in Mesopotamia and East Africa, and in Russia, Roumania and Siberia, the Joint Societies have relieved the suffering, healed the sick and saved valuable lives for the service of the Empire in War and Peace. They have also been able to give welcome assistance to our Allies, and in making provision for the sick and wounded have not forgotten the Prisoners of War whose privations they have done much to alleviate. But it must be remembered that Peace even when declared will not bring a cessation of the work of the Hospitals, and indeed the demands on the resources of the Red Cross must inevitably continue for some time after hostilities have ended. Impressed as I am by the vast obligations which must still fall on the Joint Societies I have much pleasure in contributing the sum of Ten Thousand Pounds.

Falkland Islands.

Be it resolved that under the provisions of the Stanley Rating Ordinance, 1905, this Council hereby sanctions the rate to be charged for the year 1919 on house property in the Town of Stanley at one shilling and threepence for every twenty shillings of its annual value, and the same shall be paid accordingly as provided by law.

Passed by Legislative Council this 29th day of October, 1918.

T. N. GODDARD,
Clerk of the Council.

Meeting of the Legislative Council held on the 29th October, 1918.

Minute by the Governor introducing the Estimates for the year 1919.

Honourable Gentlemen of the Legislative Council,

I have the honour to submit for your consideration and approval the draft Estimates for the public service of the Colony for the year 1919.

The revenue, based on present taxation, is estimated at £30,337, and the expenditure at £34,517, leaving a deficit of £4,180 to be met from other sources.

The expenditure has been kept down with a due regard to economy. With the exception of £500 to enable trials to be made for the installation, after the War, of a Wireless Telegraph Station at South Georgia, no new works have been provided for under public works extraordinary.

At the time the Estimates for the current year were passed by your Council in November, 1917, and provision was made for an expenditure of £32,730, it was estimated that the revenue for the year would fall short of the expenditure by a sum of about £2,480. I am now able to inform you that it is considered that the revenue of this year will be sufficient to meet the expenditure, the revised estimates being, revenue £30,154, within £100 of the original estimate, and expenditure £28,510, a sum of £4,220 less than the original estimate. There may however be an increase in the expenditure on account of the cost for carriage of overseas mails if charged and paid within the year.

The Wireless Telegraph Installation at Fox Bay, for which provision is made on the current year's estimates, was completed by Mr. R. B. Baseley, A. M. I. Mech. E, Colonial Engineer, and communication with Stanley satisfactorily established on the 25th instant. Among the first messages received by me is one from the Farmers and residents of West Falkland, expressing for "the great benefit conferred" their appreciation and thanks, which I have the pleasure to convey to your Council.

On the 1st January, 1918, the surplus of assets over liabilities were, Crown Lands Fund £134,925, Stock Fund £2,608 and Surplus Balances £25,573. The revenues derived from the Dependencies have brought about the nest egg the Colony possesses in its surplus balances.

Of recent years the general revenue of the Colony has been largely added to by the revenue derived from the Dependencies, and by the interest received from the investments on account of the Crown Lands Fund, Crown moneys to which it may be considered the Colony can have no legal claim.

For the years 1915, 1916, and 1917, the average annual revenue of the Colony was,

From the Falkland Islands, including the interest	
£4,580, on invested moneys of the	
Crown Lands Fund - - -	£22,007
From the Dependencies - - -	£14,640,
whilst the average annual expenditure	
on the Falkland Islands was - - -	£28,250
and the direct expenditure	
on the Dependencies - - - - -	£860

To the expenditure of the Dependencies, however, a fair proportion of the cost of the administration of the Colony should be added, and assuming that proportion to be one third, the adjusted figures for the average annual expenditure would be, for the Falkland Islands £26,100, and for the Dependencies £3,000.

The Government expenditure on the Dependencies has, for the past four years owing to the War, been confined for the most part to what may be called establishment charges.

The possibilities of the Dependencies have however been engaging attention. At the present time an Inter-Departmental Committee is at work in London, to enquire into and report what can be done to facilitate action, at the conclusion of the War, in regard to the preservation of the whaling industry and the development of other industries in the Dependencies. The Committee will consider not only economic questions and the scheme for the employment of a research vessel, but also what purely scientific investigations are most required to further the objects in view.

It can be foreseen that an increased expenditure on the Dependencies, more proportionate to the revenue derived from them, will in the near future be incurred, and that funds which have hitherto been available and applied for other services of the Colony will be considerably lessened. When the time arrives the Colony must be prepared to meet its obligations in this respect to the best of its resources.

The Estimates for next year shew that the revenue based on present taxation is estimated,

From the Falkland Islands - - - -	£14,851
From the Crown Lands Fund, interest -	5,500 and
From the Dependencies - - - -	9,986
	<hr/>
	£30,337

whilst the expenditure is estimated at,

For the Falkland Islands - - - -	£32,802, and
For the Dependencies - - - -	£ 1,715
	<hr/>
	£34,517

The situation reviewed, it is not only imperative that the estimated deficit of £4,180 on next year's transactions of the Colony should be met, but that a beginning should be made to produce more closely equilibrium between the revenue and expenditure of the Falkland Islands apart from the revenue derived from the Dependencies.

To make up the amount required to meet next year's expenditure, two alternatives have suggested themselves, to increase the export duties under the Tariff Ordinance, 1900, on the produce of the sheep industry, or to increase the tax on land under the Live Stock Ordinance, 1901, as a contribution to general revenue.

After due consideration it is considered expedient, in lieu of these two sources of revenue, to introduce a land tax on the graduated scale of,

- One farthing per acre on lands under 5,000 acres,
- One half-penny per acre on lands of 5,000 acres and under 50,000 acres,
- Three farthings per acre on lands of 50,000 acres and under 100,000 acres and
- One penny per acre on lands of 100,000 acres and over.

The Stock Department heretofore charged to the tax on land under the Live Stock Ordinance, 1901, to become a charge on general revenue.

It is estimated that by these changes an additional sum of £4,800 will be contributed annually to the general revenue of the Colony.

Draft Ordinances to give effect to the proposals put forward, and to place an export duty of 8½d per barrel on seal oil, will be submitted for your consideration.

Adjusted on the basis proposed, the revenue for the year 1919, is estimated,

From the Falkland Islands - - - -	£20,230
From the Crown Lands Fund, interest -	5,500 and
From the Dependencies - - - -	10,046
	<hr/>
	£35,776

and the expenditure,

For the Falkland Islands	-	-	-	-	£33,373 and
For the Dependencies	-	-	-	-	1,715
					<hr/> £35,087

leaving an available balance of £689 to meet unforeseen charges.

Representations on behalf of the largest and oldest of the land owners in the Colony were made to me some time ago, to the effect that the land owners do not favour the present export duties on the sheep industry. They consequently would not welcome any increase in those duties. As I understand it, the land owners consider the export duties to be a tax on good farming and a premium on bad. To put it in other words, that the export duties operate in favour of the careless and slovenly farmer, and unduly hit the man who through application and energy makes the very best he can of his farm. The land owners represent, and in this I am in accord with them, that the land is the only permanent source of wealth, and that when it is necessary to raise more revenue unquestionably the money needed should be raised by a tax on land.

As the time has arrived when more revenue is required, I am ready so far to apply the principle advocated by the land owners as now submitted for your consideration. In so doing I have no reason to suppose that the graduated land tax based on the low rates stated will be otherwise than as acceptable to the thrifty holder of lands of comparatively moderate extent, as I hope it will be to the larger proprietor.

During the last ten years the total trade of the Colony has advanced from £320,054 in 1907, to a declared value of £3,127,909 in 1917.

Of the total imports last year, valued at £1,257,306, coal represented £505,252, timber and empty oil barrels £308,161, and hardware and machinery £139,970.

Of the total exports the produce of the sheep industry was declared at £303,184 and the whale and seal industries at £1,565,985. The values given would appear however to have been somewhat understated. With the average price of 1s. 2d. per lb. realized for wool f.o.b. Stanley Harbour (some wool fetched as much as 1s. 3d. per lb.) and £6 per barrel for whale oil, the value of the exports may be stated at £343,000 for the sheep industry, and £2,280,000 for the whale and seal industries.

Compared with the exports of the year 1907, these figures shew an increase of £154,300 and £2,264,300 on exports of the sheep and whale industries respectively. The exports of whale oil have increased from 14,400 barrels in 1907, to 380,489 barrels in 1917. The wool exported last year amounted to 4,711,271 lbs. and exceeds by 261,672 lbs. the wool exported in 1907.

I cannot however think that the sheep industry in the Falkland Islands has reached its limit of production. It has been stated that there are many lands in the Falkland Islands which are not being farmed as they should. In fact in some cases the lands are not being made use of at all, and that if the land were taxed it might possibly have a stimulating effect on farming to the immediate benefit of the farmer generally. I am led to believe it is possible that on some stations if more energy and care were paid to farming and improvements made to both land and stock the industry would respond by an increased yield.

I make these remarks not by way of criticism but in the light of friendly counsel, with the hope they will be accepted in the spirit in which they are made, having alone for their object the advancement of the interests of the farmer in particular and the Colony in general.

VOL. XXVIII.

JANUARY 1st, 1919.

No. 1.

Falkland Islands.

W. DOUGLAS YOUNG,
Governor.

Order made by the Governor in Council.

Declared acreage of "Lafonia" and adjacent Islands.

Whereas by an instrument dated the 28th September, 1859, the lands forming the Peninsula or tract of land on East Falkland Island known as "Lafonia", more particularly described in the said instrument, together with all the Islands in Choiseul Sound, and all other Islands adjacent to the coast of the said Peninsula or tract, were granted to the Falkland Islands Company,

And whereas the acreage of the said lands and Islands had not been ascertained by survey made and set out in the grant of the same,

And whereas under the Live Stock Ordinance, 1901, the said lands and islands were, for the purposes of the Ordinance, assumed to be seven hundred thousand acres,

And whereas it is now necessary for the purposes of the Land Tax Ordinance, 1918, to declare the acreage of the said lands and islands for the purposes of the said Ordinance until such time as a survey of the lands shall have been made and the acreage of the land ascertained,

Now therefore it is hereby ordered and declared that the acreage of the lands forming the Peninsula or tract of land on East Falkland Island known as "Lafonia," more particularly described in the grant of the same dated the 28th September, 1859, together with all the Islands in Choiseul Sound, and all other Islands adjacent to the coast of the said Peninsula or tract, shall for the purposes of the Land Tax Ordinance, 1918, be deemed to be seven hundred thousand acres.

Made by the Governor in Executive Council, under the provisions of the Land Tax Ordinance, 1918, this fifth day of December, 1918.

T. N. GODDARD,
Clerk, Executive Council.

W. DOUGLAS YOUNG,
Governor.

GOVERNMENT NOTICES.

No. 55.

Government House,
Stanley, Falkland Islands,
5th December, 1918.

The Governor has the honour to convey to the Women of the Falkland Islands the following gracious message from Her Majesty the Queen to the Women of the Empire.

"A few months ago at the height of our anxiety and strain I sent a message in the name of the women of our lands to our men fighting for us across the seas. Now in an hour of thankfulness and hope I should like to give a message to the women of the Empire.

During the war they have been given the high privilege of service, they have risen to the great opportunity and have proved their courage, steadfastness and ability.

I have been allowed to watch and appreciate their work in many parts of the country and my heart is full of admiration and gratitude for what I have seen.

I earnestly trust that though the thrill and glamour of war are over the spirit of self-sacrifice and helpfulness which it has kindled will not wane in the coming days. A new era is dawning upon the world bringing with it many difficulties, fresh responsibilities and serious problems to be faced.

Parliament has secured for the whole country greater opportunities of more thorough and varied education but it will depend upon the parents whether these opportunities are used to the full.

We all rejoice that plans are afoot for bringing to an end all existence of such bad and crowded housing as makes home life almost impossible.

To-day more than ever the Empire needs her daughters for in the larger world of public and industrial work women are daily taking a more important place.

As we have been united in all our work whether of head or hands in a real sisterhood of suffering and service during the war let us go on working together with the same unity of purpose for the resettlement and reconstruction of our country.

[Signed] MARY R."

Report on the Government Savings Bank for the year 1917-18.

TREASURY,

STANLEY, FALKLAND ISLANDS,

3rd March, 1917.

SIR,

I have the honour to forward the following report of the transactions of the Government Savings Bank, for the year ended 30th September, 1918, with Returns (numbered 1 to 6) called for under Section 13 of the Savings Bank Ordinance, 1888.

Summary of year's transactions.

2. During the year there were 88 new accounts opened and 30 accounts closed, leaving a total of 796 depositors amongst which the balance in hand (£125,682 3s. 5d.) was distributed. The average for each account was £157 17s. 10d, or £55 11s. 9d. per head of the population of the Falkland Islands.

3. On the 30th September there were 2 depositors with over £3,000 each, another with over £2,000., 13 with over £1,000., 42 with over £500., 120 with over £200., 122 with over £100., and 146 with over £40., leaving 350 with less than £40 each. It would therefore seem that other than savings are deposited with the Treasurer. This may be explained by the fact that there are no banking institutions in the Colony, and in consequence it may be said that many of the depositors would seem to do a certain amount of their business through the Government Savings Bank.

4. The Ordinance provides for the Treasurer receiving on deposit "savings" of no less amount than one shilling, and to repay the same, but there does not appear to be any limit to the amount which any person may deposit in one year, over that sum, nor is there a limit placed on the amount standing on deposit in the name of any one depositor, on which interest may be allowed, as in the United Kingdom.

Capital Account.

5. The amount standing to the credit of the different accounts on the 1st October, 1917, was	£122,895 : 19 : 8
During the year the savings received on deposit amounted to,	28,726 : 2 : 7
The accrued interest paid to the different depositors was,	2,693 : 17 : 1
	<hr/>
	£144,315 : 19 : 4
6. On the other hand, the withdrawals, amounted to,	18,633 : 15 : 11
	<hr/>
Leaving on deposit,	£125,682 : 3 : 5
The securities purchased amounted to	£109,766 : 4 : 2
	<hr/>
leaving a cash balance of,	£15,915 : 19 : 3

7. The Ordinance provides for all monies deposited in the bank to be invested in approved securities, if convertible at short notice.

Profit and Loss Account.

8. The income derived from the Investments, during the year, amounted to	£3,733 : 15 : 2
During the year the interest paid to depositors and expenses for management was,...	2,748 : 17 : 1
	<hr/>
leaves a profit of,	£984 : 18 : 1

The dividends received for the half-year, from the £25,000., 5%, War Stock purchased in May 1918, was duly credited to the income of the bank.

9. The profit on the year's transactions was credited as in former years to Ordinary Revenue. Since the establishment of the Bank in 1888, the income derived from the securities has been credited to the Ordinary Revenue of the Colony and the interest paid to depositors with the expenses for management, have been charged as part of the Expenditure of the Colony.

10. Under the provisions of the Ordinance, the income derived from the securities shall form a Fund for defraying the interest due to depositors, and all expenses incurred in the execution of the Ordinance.

11. Return No. 5 shews that since the establishment of the bank in 1888, the Ordinary Revenue of the this Colony has benefited to the extent of £11,179 - 17 - 7., In future the profit on each year's transactions will be expended in the following year in the purchase of securities, to form a Savings Bank Depreciation Fund, in accordance with the instructions received from the Secretary of State.

12. The interest payable to depositors under the Ordinance is at the rate of $2\frac{1}{4}\%$ per annum, on every complete pound, that is to say, sixpence on every pound left on deposit for a complete year. It should be remembered that interest is paid only on the pound, (not the odd shillings): it is reckoned from the first day of JANUARY, APRIL, JULY, or OCTOBER following the day of deposit, and ceases as from the last day of MARCH, JUNE, SEPTEMBER, or DECEMBER preceding the day of withdrawal.

13. The Ordinance and the Regulations made thereunder provide for the payment of withdrawals of over £50, by Bill of Exchange. Minors over 7 years are authorized to sign as if of full age. Each depositor is provided with a Pass Book in which he is required to sign his name and state his address, in the place provided.

Pass Books have to be produced when a deposit is made or money withdrawn, and such books have to be forwarded to the Treasurer for audit purposes, on or before the 30th September in each year.

Assets and Liabilities.

14. The moneys received by the Treasurer and standing to the credit of the different Depositors forms the liabilities of the Bank, and on the 30th September, 1918, the savings so deposited amounted to, £125,882 : 3 : 5

On the other hand the assets were:—

Market Value of Securities,	£91,507 : 0 : 0
Cash, uninvested	15,915 : 19 : 3
	<hr/> 107,422 : 19 : 3

leaving an excess of Liabilities over Assets, of ... £18,459 : 4 : 2

15. Owing to the Crown Agents September 1918 Accounts, not arriving in the Colony before the 1st March, it was not possible to complete this report at an earlier date, in accordance with Section 13 of the Ordinance.

I have the honour to be,

Sir,

Your obedient Servant,

W. A. THOMPSON,

Manager, Savings Bank.

The Honourable

The Colonial Secretary.

Report on the Education Department for the year 1918.

COLONIAL SECRETARY'S OFFICE,

STANLEY, FALKLAND ISLANDS,

22nd March, 1919.

His Excellency

W. DOUGLAS YOUNG, C.M.G.,

&c., &c., &c.

Governor.

Sir,

I have the honour to submit herewith the Annual Report on the Education Department for the year 1918.

Government School.

2. The number of pupils on the roll on the 31st December, was:—

	1916	1917	1918
Boys	87	82	83
Girls	69	68	56
	165	150	139

3. The number of pupils in average attendance was:—

	1916	1917	1918
Boys	81	79	69
Girls	59	61	51
Total	140	140	120

4. The number of pupils examined was:—

	1916	1917	1918
Boys	83	81	74
Girls	64	66	51
Total	147	147	125

5. The number of openings of the school, each morning and each afternoon being regarded as an opening, was:—

1916 - 463, 1917 - 453, 1918 - 436

The decrease shown in the number of openings during the year 1918 is accounted for by the fact that a break of one week (1st to 5th July) was made in the long winter term, and by certain holidays which were granted to the School on the occasion of the signing of the Armistice with Germany.

6. The expenditure on the Government School during the year amounted approximately to £809. The total amount received in fees was £108, and £18 was taken by sale of stationery, &c., to the pupils.

7. Miss Lena Poppy, who in January, 1918, passed her fourth annual and final examination as a pupil teacher, was appointed to act temporarily as an additional Assistant Mistress at the Government School.

Government Travelling Teachers.

8. The number of children under instruction from the Government Travelling Teachers during the years 1916, 1917 and 1918, was:—

	1916	1917	1918
Boys	18	32	12
Girls	30	17	7
Total	48	49	19

9. This very considerable decrease is accounted for by the fact that on the 14th November, 1917, Mr. F. P. Thomson completed his extended period of service as a Travelling Teacher, since when there has been only one Travelling Teacher employed by the Government instead of five for which the establishment makes provision. Owing to the war it has been found impossible to fill, as they occurred, the vacancies in the posts of Travelling Teacher. In 1912 the number of children under instruction by Government Travelling Teachers was 92, as compared with 19 as recorded in the above table for the year 1918.

Roman Catholic Convent School, Stanley.

10. The number of pupils on the roll on the 31st December was:—

	1916.	1917.	1918.
Boys	19	20	22
Girls	61	65	76
Total	80	85	98

11. The number of pupils in average attendance was:—

	1916.	1917.	1918.
Boys	15	19	21
Girls	57	54	72
Total	72	73	93

12. The number of pupils examined was:—

	1916.	1917.	1918.
Boys	14	15	17
Girls	50	56	68
Total	64	71	85

Falkland Islands Company's School and Camp Teachers.

13. The number of children receiving instruction in the Falkland Islands Company's School in Darwin was:—

	1916.	1917.	1918.
Boys	8	8	6
Girls	7	7	8
Total	15	15	14

14. The number of children receiving instruction from the Falkland Islands Company's Camp Teachers was:—

	1916.	1917.	1918.
Boys	18	27	22
Girls	20	24	27
Total	38	51	49

Examinations.

15. By Your Excellency's instructions I examined the children of the Government School, and also the Pupil Teachers, in December, 1918. Appendix B to this Report gives the results of the examination of the Pupil Teachers.

General.

16. On the 15th May, 1918, the Inspector of Schools, the Honourable C. F. Condell, Colonial Secretary, left the Colony on an official visit to South Georgia. During his absence he received the appointment of Commissioner, Montserrat, West Indies, and proceeded to assume the duties of that office without returning to the Colony.

17. My thanks are due to the Reverend Father Migone and to Mr. Alexander Moir for their courtesy in furnishing the information relating to the Roman Catholic Convent School and the Falkland Islands Company's School and Camp Teachers respectively.

I have the honour to be, Sir,

Your obedient Servant,

Whereas it has pleased Almighty God to bring to a close the late widespread and sanguinary war in which we were engaged against Germany and her Allies;

We therefore adoring the Divine Goodness and duly considering that the great and general Blessings of Peace do call for public and solemn acknowledgment have thought fit by and with the advice of Our Privy Council to issue this Our Royal Proclamation hereby appointing and commanding that a general Thanksgiving to Almighty God for these His manifold and great mercies be observed throughout Our Dominions on Sunday the sixth day of July; and for the better and more devout solemnization of the same We have given directions to the Most Reverend the Archbishops and the Right Reverend the Bishops of England to compose a form of prayer suitable to this occasion

to be used in all Churches and Chapels and to take care for the timely dispersing of the same throughout their respective Dioceses; And to the same end We do further advertise and exhort the General Assembly of the Churches of Scotland and all Spiritual Authorities and Ministers of Religion in their respective Churches and other places of Public Worship throughout Our United Kingdom of Great Britain and Ireland and in all quarters of Our Dominions beyond the Seas to take part as it may properly behove them to do in this great and common act of Worship and We do strictly charge and command that the said public day of Thanksgiving be religiously observed by all as they tender the favour of Almighty God and have the sense of His benefits.

Proclamation.

[L.S.]
W. DOUGLAS YOUNG,
Governor.

By His Excellency SIR WILLIAM DOUGLAS YOUNG, Knight Commander of the Most Excellent Order of the British Empire, Companion of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief in and over the Colony of the Falkland Islands and its Dependencies.

Whereas the Governor by Proclamation issued on the 5th day of August, 1914, made known in this Colony the state of War between His Majesty the King and the German Emperor, and, under the provisions of the Volunteer Ordinance, 1892, called out every Officer and Volunteer belonging to the Falkland Islands Volunteer Corps for active service:

And Whereas a definitive Treaty of Peace between His Majesty's Government and the Associated Governments and the German Government was concluded at Versailles on the 28th day of June, 1919:

And Whereas it is provided under the Volunteer Ordinance, 1892, that when any Volunteer Corps is called out for active service, such service shall continue so long as the Governor shall consider necessary, and shall end only by order of the Governor:

And whereas I consider it no longer necessary that the Falkland Islands Volunteer Corps and Force should continue called out for active service:

Now therefore I do hereby order that the active service of every Officer and Volunteer belonging to the Falkland Islands Volunteer Corps, required by the Governor by Proclamation of the 5th day of August, 1914, as well as by the subsequent Proclamation issued on the 10th day of August, 1914, shall end, and that the Force shall revert to normal peace conditions as from this date.

Given under my hand and the Public Seal of the Colony at Government House, Stanley, this eighteenth day of July, in the year of our Lord one thousand nine hundred and nineteen.

By Command.

Meeting of the Legislative Council held on the 19th August, 1919.

Minute by the Governor introducing the Estimates for the Year, 1920.

Honourable Gentlemen of the Legislative Council,

I have the honour to lay before you the draft Estimates of the Colony of the Falkland Islands and its Dependencies for the service of the year 1920.

The revenue of the Colony is estimated at:—

For the Falkland Islands - - - -	£26,897	
(Including £5,800 interest from Crown Lands Fund, and £800 interest on Surplus Balances), and		
for the Dependencies - - - -	£32,576	
		£59,473

The expenditure is estimated at:—

For the Falkland Islands - - - -	£31,159	
For the Dependencies - - - -	£28,159	
		£59,318

leaving a surplus balance of £ 155

The Estimates have for the most part been framed on the lines of the Estimates for the present year. In a few instances the salaries of certain of the lower paid Government servants have been slightly increased.

Provision has been made:—

Under Head VII Legal, for the post of a Deputy Magistrate at South Georgia, the increased importance of the Dependency rendering the appointment of a second resident Magistrate desirable;

And under Head IX Medical, for the temporary services of an additional Medical Officer for East Falkland, to ensure, if possible, a medical practitioner being available at all times in the Town of Stanley. Under this head of service it may be found necessary to make further increases at a later date.

Under Public Works Extraordinary provision has been made for the installation of a Wireless Telegraph Station at South Georgia, at an estimated cost of £6,000. This provision is one that will no doubt commend itself to the Council, as it is considered wireless communication with this isolated and remote Dependency, will greatly facilitate matters connected with the Whaling Industry of the Dependency.

Now that the great War for justice and freedom is over, is won, and the great and general blessings of peace have been restored to our King and Country, and to our Allies, it may not be out of place to briefly consider how far this distant Colony has been affected by the War.

As Honourable Members are aware the capture of the Falkland Islands was, amongst others, a pronounced aim of the enemy, and the Colony was one of the first of His Majesty's vast possessions to be threatened by attack and occupation. But the enemy reckoned himself to be alone in these waters, when on the 8th December, 1914, his ships approached within close range of Port Stanley, prepared to attack.

In readiness stood the British Navy, the strength and shield of our Empire's Defence, and by glorious victory, the German Squadron destroyed, the "Good Hope" and "Monmouth" vindicated, the Colony and the people of the Falkland Islands were saved from harm and capture.

From that time to the termination of hostilities in November last, can it be said that the four years of war have materially changed the conditions of life in the Falkland Islands? - I think not. The people of the Falkland Islands have enjoyed immunity from privations due to the war. They have suffered naught in their everyday pursuits. Though prices have risen throughout the world as a sequel to the disturbed conditions of peace and trade, commodities of life, local and imported, have been plentiful with us and essential supplies, available in price to all, uncontrolled by any measure of rationing or otherwise.

At the time the Estimates for the year 1915 were passed by the Council in November, 1914, it was not possible to forecast conditions, and in providing the ways and means for the year, including the cost for a local measure of self defence, it was anticipated that the expenditure would exceed the revenue by a sum of £15,950. The decisive victory of the 8th December, 1914, and the measures taken by the Admiralty for the protection of the Colony, however, lightened the situation. The public revenue continued as in normal years and largely exceeded the estimate, and it became possible to curtail the special expenditure provided for. The result was that in place of a deficit, the year closed with a surplus credit balance of £1,346. A near margin but one on the right side.

In each of the three succeeding years, owing to the prosperous condition of the whaling industry, and to the suspension during the War of all new public works extraordinary, the surplus balances of the Colony were largely added to. In 1916 the year ended with a balance of £14,161; followed in 1917 by a sum of £7,104; and in the year 1918 by a sum of £11,530, thus increasing the surplus balances of the Colony from £2,961 at the end of 1914, to £37,104 at the end of 1918.

The revenue derived from the Falkland Islands has, I regret to say, not been a contributing factor. To the Dependencies must be given the full credit of the satisfactory state of the financial balances of the Colony.

The annual revenue derived from the Falkland Islands falls short of the annual expenditure of the Islands, as is well known to Honourable Members.

During the period of the War the prices obtained in the British Market have ruled high throughout for the staple produce of the Colony - the sheep industry of the Falkland Islands, and the whaling industry of the Dependencies -

The declared values of the annual average exports of the sheep and whaling industries for the last four years, compared with the previous four years, as shown by Blue Books of the Colony, are as follows:—

SHEEP INDUSTRY - Annual Average.

	1915-18 inclusive.	1911-14 inclusive.
Wool Exported - - - - -	4,665,937 lbs.	4,681,937 lbs.
Valued at - - - - -	£277,767	£149,273
Value of other sheep products -	5,661	31,861
Total	£283,428	£181,134

WHALING INDUSTRY - Annual Average.

	1915-18 inclusive.	1911-14 inclusive.
Oil exported - - - -	417,403 barrels.	350,539 barrels.
Valued at - - - -	£1,573,050	£1,010,422
Value of other products - -	28,699	40,664
Total	£1,601,749	£1,051,086

The total declared value of the exports for the year 1918 of the sheep industry was £340,600 (4,809,500 lbs of wool valued at £294,810) and, of the whaling industry £1,711,600 (298,019 barrels of oil valued at £1,703,320).

At the meeting of the Legislative Council held on the 29th October, last year, I informed the Council that at the conclusion of the War the matter of the further development of the Dependencies, and the preservation of the whaling industry would be proceeded with. At the same time I stated that increased expenditure for this service would of necessity have to be incurred, and that when the time arrived the Dependencies would no doubt be called upon to meet it.

It has now been decided to create a Dependencies Research and Development Fund, out of which expenses incurred in the special work of research and development can be met. To finance this Fund it is proposed to increase, from the 1st October, 1919, the export duty on Whale Oil and Seal Oil from 3½d. a barrel to 1/6 a barrel, and to pay into the Fund the increased duty at the rate of 1/2½ on every barrel of oil exported. A draft Ordinance will be submitted for your consideration to give effect to this proposal. A new heading has been opened in the Estimates under Head XIV for the Fund, with an estimated payment into it of £20,500 for next year.

I regret I am not in a position to inform the Council to-day of any arrangement having been come to for the resumption of a regular steamer service with the Colony. So far as I am aware, no such arrangement has been made, but the matter is engaging attention. In the meantime provision has been made on the Estimates for next year for the payment of a mail subsidy at the former rate: out of this provision the cost at present being incurred for the sea carriage of our mails will be met.

Sir,

Your obedient Servant,

Sheep.

2. The general health of the sheep in these islands is very good, and it is satisfactory to be able to state that the number of Stations infected with Lice is considerably less.

Statistics.

3. The Returns for 1919 shew the number of sheep in this colony to be 669,996, a decrease of 29,372 on the returns of 1918. There is a marked decrease on the whole in the Returns as compared with the figures of last year, the greatest decrease being in the total number of sheep, this was due no doubt to the exceptionally bad winter followed by a bad spring. There is also a decrease shewn in the number of sheep canned this Season. The price of wool still continues good, comparing closely with prices obtained last season. Average price 1/4d. per lb. The clip this season was much lighter than last season.

Lambing.

4. The lambing this season was considerably below the average, as will be seen from the Comparative Table, which shews a big decrease, this was no doubt due to weather conditions.

Canning.

5. The Falkland Island Co's. factory at Goose Green, East Falkland, was the only one working during the season. The number of sheep canned for Export was 43,224 shewing a decrease of 18,957 on the numbers canned last season. The average price paid per sheep was 10/10³ shewing a slight increase in the price paid last season. The number of sheep boiled down this season shews a big increase in the figures of last season. Whereas 1,000 only were dealt with in this manner last year, 9,413 were boiled down this year, 5,910 of these being boiled down at San Carlos North.

Cattle.

6. The number of cattle at present in the Colony is 6,794, shewing a decrease of 469 on last year's returns. The general health of the cattle is very good.

Horses.

7. The Returns of the present season shew the number of horses in the Colony to be 2,611 or an increase of 55 on the returns of the previous season. This slight increase was due no doubt to the imported animals. The health of the horses on the whole is satisfactory.

Imports.

8. During the season the imports have been
- 27 Romney Marsh Rams from the United Kingdom.
 - 2 Pigs from South Georgia.
 - 6 Pigs from Argentina (By special permission of His Excellency the Governor).
 - 75 Horses from Argentina.

Exports.

9. During the Season 965 sheep and 1 horse were exported to Argentina. In addition to the Live Stock exported there was the usual considerable quantity of Canned Meat, Wool, Hides, and Tallow to the United Kingdom.

Cultivation.

10. The progress made in the cultivation of Hay is shewn in the increase of quantity grown and stored this season.

Season.

13. The period of Season for Stock in the Falkland Islands extends from October to March.

Colonial Secretary's Office,

7th November, 1919.

The Administrator directs the publication for general information of the appended Message from HIS MAJESTY THE KING which His Excellency has received from the Right Honourable the Secretary of State for the Colonies.

Message from His Majesty the King.

TO ALL MY PEOPLE

Tuesday next November 11th is the first anniversary of the Armistice which stayed the world-wide carnage of the four preceding years and marked the victory of right and freedom. I believe that my people in every part of the Empire fervently wish to perpetuate the memory of that great deliverance and of those who laid down their lives to achieve it.

To afford an opportunity for the universal expression of this feeling it is my desire and hope that at the hour when the Armistice came into force, the eleventh hour of the eleventh

day of the eleventh month, there may be for the brief space of two minutes a complete suspension of all our normal activities. During that time except in the rare cases where this might be impracticable all work, all sound, and all locomotion should cease so that in perfect stillness the thoughts of everyone may be concentrated on reverent remembrance of the glorious dead.

No elaborate organization appears to be necessary. At a given signal which could be easily arranged to suit the circumstances of each locality I believe that we shall all gladly interrupt our business and pleasure whatever it may be and unite in this simple service of silence and remembrance.

GEORGE R. I.

No. 64.

7th November, 1919.

With reference to the above Government Notice No. 63 of this date, the Administrator directs it to be notified, for general information, that the Cathedral Bell will be rung from 10.55 a.m. to 11.0 a.m. precisely on Tuesday the 11th instant, after which two guns will be fired in rapid succession from the front of the Headquarters of the Falkland Islands Volunteer Force. On the firing of the guns there will be a cessation of all work, and other activities for a period of two minutes, after which one gun will be fired.

His Excellency hopes that the people of the Falkland Islands will loyally carry out both the spirit and the letter of the King's Message.

SURGEON'S QUARTERS,
STANLEY,

20th November, 1919.

Sir,

I have the honour to forward my Annual Medical Report for the year 1918.

Vital Statistics in Stanley.

	Males.	Females.	Total.
Births	25	19	44
Deaths	5	5	10

K. E. M. Hospital.

3 patients remained in from 1917. 16 patients admitted (3 Females 13 Males).

Cases admitted:—

Gynecological	3	Prepatellar Bursa	1
Colitis	1	Debility	1
Injury to the Head	1	Cellulitis	1
Epidemic Cold	1	Influenza	1
Neuritis	1	Cut throat	1
Appendicitis	1	Inguinal abscess	1
Pleurisy	1	Malignant growth	1

Deaths 1. Cured 12. Relieved 3.

Two patients were admitted from ships. (Both Whaling vessels).

The K. E. M. Hospital is still not sufficiently used by Gynecological patients resident in Stanley. More general operations might have been done had it not been for the unavoidable inadequate Medical and Nursing staff in Stanley. While only one qualified Nurse and one Medical man are available it is quite impossible to perform serious operations other than emergency cases and as a result many patients were advised and actually went to South America for Surgical Treatment. Twenty four Patients (21 Gynecological) were treated by the Nurse Matron in their own homes.

Government School.

The children were Medically examined at intervals. The difficulty of the treatment of children requiring minor operations was similar to the previous year pending the arrival of a second Medical Officer. The condition of the children's teeth was still very unsatisfactory owing to the children not attending the Colonial Dentists Surgery regularly.

Quarantine.

49 vessels were given pratique. No infectious cases were seen; two cases were admitted to the K. E. M. Hospital, one a head injury from Monte Video, one a case from South Georgia.

Public Health.

Exanthems 6 cases of chicken pox. Phthisis 6 cases. Of the latter 5 cases were either from the camp or outlying Islands and consequently treatment was commenced too late to be of much service.

The Board of Health reported fully on the condition of the Roads and Drains in Stanley; unfortunately owing to the difficulty of materials and labour little could be done at the time to carry out its suggestions.

During the latter months of the year there was a mild epidemic of Influenza. (During this time "Spanish Influenza" was raging in Europe and South America). No deaths occurred from it on the East Falkland but two cases, I understand, died on the West Falkland from Broncho-pneumonia following Influenza.

In Stanley two forms appeared; one in which the intestines were affected; this was chiefly in younger patients, the second in older people in which the lungs and bronchial tubes were chiefly affected.

The Camp.

There was very little sickness in the Camp, the majority of cases being either accidents or Midwifery cases. Some of the stations were not visited at all and some only in passing.

I am, Sir

Your obedient Servant,

JOHN CRADDOCK,

Acting Colonial Surgeon.

To

The Honourable,

The Colonial Secretary.

4. The number of openings of the school, each morning and each afternoon being regarded as an opening, was:—

1917 - 453, 1918 - 436, 1919 - 440

As in 1918 a break of one week (7th to 11th July) was made in the long winter term.

5. The expenditure on the Government School during the year amounted to £772 approximately. The total amount received in fees was £92, and £21 was taken by sale of books, stationery. &c., to the pupils.

Government Travelling Teachers.

6. The number of children under instruction from the Government Travelling Teachers during the years 1917, 1918, and 1919, was:—

	1917	1918	1919
Boys	32	12	14
Girls	17	7	6
Total	49	19	20

7. The reason for the decrease in the number of children receiving instruction from the Government Travelling Teachers during recent years is explained in my Report on the Department for the year 1918. Until the last month of the year there was only one Government Travelling Teacher in the Colony, viz., Mr. W. U. Currie, who was employed on the East Beat of the East Falkland. On the 8th December, 1919, the following arrived in the Colony and were appointed as Travelling Teachers:—

Mr. John Stewart Scott,
Mr. Joseph Sturrock,

Mr. Charles Fife Daer,
Mr. George Lyon Dailie,

At the end of the year Mr. Currie was transferred to the South Beat, West Falkland, (Fox Bay, Port Stephens, and Weddell Island), while Mr. Dailie took over, East Beat, East Falkland, (Salvador, Rincon Grande, Port Louis, Bluff Cove and Fitzroy), Mr. Scott being appointed to West Beat, East Falkland, (San Carlos South, San Carlos North, Douglas Station and Teal Inlet), Mr. Sturrock to West Beat, West Falkland, (Chartres, Hill Cove, Roy Cove and Saunders Island), and Mr. Daer to North Beat, West Falkland, (Port Howard and Pebble Island). The staff of Travelling Teachers is now complete, although the newly appointed members did not reach their beats in time to begin work before the present year, but the returns for the current year will shew a large increase in the number of children under instruction in the camps.

The Report on the Examination of the Pupil Teachers is not included in full in this Report but Appendix B gives the results of the examination.

Appendix A.

Report on Examination of the Government School, Stanley, December, 1919,

Stanley,
Falkland Islands,
17th December, 1919.

Sir,

As in 1916, 1917 and 1918, I have again by the Administrator's instructions, conducted the Annual examination of the Government School, and now have the honour to submit my Report for His Excellency's information.

2. I attended at the Government School on Thursday, Friday and Monday, the 11th, 12th and 15th December, and conducted the examination on lines similar to those followed in the two previous years, that is to say, by oral questioning, inspection and examination of work done previously, rather than by written tests or set papers, the utility of which, after four years experience in examining the Government School I am convinced is practically non-existent.

3. As last year I have refrained from awarding any individual or competitive mark to each child and shall confine my report to remarks on the various subjects taught.

General Remarks on the various Subjects.

ARITHMETIC.

4. In 1916 I commented somewhat unfavourably on this subject but in the two succeeding years noted a general improvement. This year I have again to remark on the very notable improvement that has been made in this subject, the advance being very much more observable than those noted in 1917 and 1918. This improvement is not so much an advance in the capacity of the best two or three children in each class as a steady improvement in the average ability and reliability of the whole classes. The proportion of children in each class which approximated to 75% of marks in any series of tests set was considerably higher than in previous years, while the presence of errors due to mere carelessness was far less noticeable.

DICTATION AND SPELLING.

This subject is up to the standard of last year.

ENGLISH COMPOSITION.

There is no appreciable improvement or deterioration in English Composition, a subject that is perhaps the most difficult and certainly one of the most important in the curriculum. A good standard is maintained throughout the School, but several of the faults which were apparent last year are still to be found, *e.g.*, a lack of coherence and unity in the treatment of the subjects, very occasional lapses into gross errors such as "I seen" for "I saw," and an unnecessary predilection for the short disconnected sentence that involves a repudiation of the utility of the relative clause. For English Composition purposes the word "nice" should be wiped out of the School vocabulary.

HYGIENE.

The children have a good knowledge of the principles of health, sanitation, cleanliness and the more simple functions of the human body.

SINGING.

The reading from the blackboard of unseen exercises in staff and tonic solfa notations was particularly well done by the top division. This division also sang some songs of considerable difficulty with confidence and success. The children take an interest in their singing and it was seldom that I was able to detect any "passengers" while a song was in progress. The only noticeable fault of any importance is the somewhat natural tendency to sing too loud with its consequent unavoidable loss of tone. Breathing exercises are always done at the beginning of a singing lesson and it is difficult to overestimate their value.

HISTORY AND GEOGRAPHY.

These subjects were treated well and the children appeared to be interested in them. It was seldom that the majority of any class was not able and anxious to answer any question asked.

The "Piers Plowman" History Readers in use at the School are admirably suited for the teaching of the manners and customs of our forefathers and with their assistance History in the Government School is rendered a more living and interesting subject than it often appears to be among children of school age.

Similarly, in the lower forms particularly, Geography is taught not so much with the idea of filling the mind with a knowledge of boundaries, physical features, imports and exports &c., as with the intention of interesting the children in the appearance, mode of life and peculiarities of the races inhabiting different parts of the world, thus forming an interesting and attractive foundation on which the equally useful but less attractive superstructure of hard facts and figures can be erected later, and this intention meets with the success it deserves.

READING.

I was last year compelled to make a somewhat unfavourable report on the Reading of the School. This year I am glad to be able to say that I found a marked improvement in this subject. Far more care was taken by the children to give full (but not too full) effect to the values of punctuation marks, to lay stress where stress was due, and to read not only with understanding but also with appreciation. The attitude, or "stance," adopted for reading, on which I commented unfavourably last year, was very much improved throughout. I was particularly pleased with the reading of Standard II.

WRITING.

The writing throughout showed improvement.

DRAWING (*Boys only*).

Scale Drawing with graduated rulers was done with care, neatness and accuracy, the boys making their own measurements from objects in or about the School premises and reducing them to the required scale. Several good freehand drawings from objects or copies were shewn up.

NEEDLEWORK (*Girls only*).

I inspected the work on which the girls had been engaged during the year. The amount of work got through shewed much industry and all the work appeared to be done with skill and neatness. I have nothing to add to my previous reports on this subject. I believe the standard of plain sewing at the Government School to be a very high one.

POETRY.

I was less favourably impressed by the recitation of selected poems this year. There was a lack of vigour and life. The pieces had however been well studied and the children knew something of the subject matter of the poems.

PHYSICAL EXERCISES.

The physical exercises were done with more briskness and precision than were apparent in previous years and were a considerable improvement on last year's performance.

INFANTS.

The high standard of the Infants' divisions of the School, on which I had occasion to comment in previous reports, was in all directions well maintained.

General Remarks.

5. In making my first report on the Examination of the School in 1916 under the heading "General Remarks" I expressed the following opinions:—

"The results of the examination appear to me to be without question good and full of promise for the future. The children are with few exceptions interested in their lessons and submitted to examination with enjoyment I believe that the work the Headmaster and Mistress are doing at the school to be of the greatest benefit to the future generation of Falkland Islanders, though much time must elapse before such work can come to full fruition. The discipline and order maintained at the School are, as far as an examiner can judge, excellent."

Having conducted three annual examinations since writing the above, I see no reason for revising any of the opinions expressed at that time, and I have no hesitation in reporting that in my opinion the standard of knowledge, intelligence, keenness and order is appreciably higher at the present time than on any previous occasion when it has been my privilege to conduct the Annual Examination of the Government School.

6. I desire to express my appreciation of the cordial co-operation of the Headmaster and Staff which greatly facilitated my work as Examiner.

7. In concluding I would venture to suggest for the Administrator's consideration that this Report be printed as an Appendix to the Education Report for the year 1919, for the benefit of parents and others interested in the Government School.

I am, Sir,

Your obedient servant,

T. N. GODDARD, B.A., (OXON).

PASSPORTS.

It has been reported by the United States Consul General in England that British subjects proceeding to the United States of America from outlying parts of the British Empire experience delay and difficulty through failure to obtain the necessary United States visa before departure.

The rules of the Department of State, Washington, require all travellers to obtain visa of their passports from the American Consul nearest to the applicant's home; and it is desirable that all persons other than citizens of the United States proceeding to that Country, whether direct or via London, should comply with this requirement.

In the case of persons proceeding from a Colony or Protectorate in which no Consular Officer of the United States is stationed the provisions of Government Notice No. 14 of the 17th March, 1919, page 14 of the Official Gazette of April, 1919, will apply.

Government School.

The physique of the children is poor, the number of thin and anaemic children being very noticeable. They have been examined, with a view to ascertaining, those among them who would benefit by tonsillotomy and to devote one morning weekly at the hospital for such work.

Public Health.

Hitherto outstanding features are:—

- (1) Rarity of malignant diseases.
- (2) Rarity of venereal disease.
- (3) Rarity of all forms of tuberculosis.
- (4) Freedom from infectious diseases.
- (5) Prevalence of alimentary disorders.

During the last quarter, the dentist was absent from the Colony and consequently 48 persons applied to me for extractions. Never before have I seen a community where caries and oral sepsis is so widespread. Oral sepsis and the usage of tank water are the principal causative factors of the numerous gastro-intestinal disorders. The native Falklanders are prone to periodical attacks of deafness and tinnitus aurium, due to recurrent inflammation of middle ear (otitis intermittens). What appears to be an epidemic of such aural attacks, is accounted for by the season of the year, presence of defective drains and sewerage. A great number of children suffer from chronic tonsillitis and during the first year from laryngismus. I attribute the latter to a nervous erethism begotten by close confinement to ill-ventilated rooms. The question of intermarriage is becoming more serious every year and is slowly but surely imparting the stamp of degeneration on the race.

Camp.

On my calls at different stations, I was struck by the number of children, who very rarely visited Stanley and also how sadly their education had been neglected. The fatal effects of the disuse of the mental faculties, are strikingly observable in some of these children, who are more or less solitarily confined for long periods. Loss of power and health of mind, from imperfect or partial exercise of the faculties, is only natural. In general their education is giving them only a few accomplishments. Education, if properly conducted would go far to prevent these evils.

Sanitation and Water supply.

There is no such thing as systematic drainage. The only method of discharge is by open gutters, which on warm days are very offensive. There are hardly any underground channels or sewers. The earth closet system is adopted, throughout the colony. The excreta are received into an iron pail, underneath a seat, which pail can be removed from outside, and into which a small quantity of dried peat coom is placed, either daily or as often as the closet is used. Peat coom has a great power in retaining the nitrogenous constituents of urine and will quite fix the ammonia. The pail is removed weekly, but the sewage is not utilised in any way. No danger can possibly arise, from this system, if strictly followed. The deodorising effects of this coom, are quite remarkable, a slight covering effectually prevents effluvia. Yet if we contemplate the influence, of winds, in the economy of human life, the township of Stanley, will find them highly beneficial, as they contribute greatly to preserving the health of the people, by the dissipation of the noxious exhalations arising from sluggish drains and heaps of putrefying matter. Most of the houses are ill-ventilated and are not fitted up with accommodation for hot and cold bathing. I venture to suggest the erection of a public bathing establishment. The improvement in health and cheerfulness of the parties benefited would more than compensate for the necessary outlay.

Departmental Notes.

To meet the requirements of the people, the installation of an X ray apparatus in the hospital, is an immediate necessity. Miss Layton, the Government Nurse and myself arrived in the colony 15th September, 1919.

Acting Colonial Surgeon.

House of Lords.

Die Mercurii, 6^o Augusti, 1919.

Resolved, Nemine Dissentiente, by the Lords Spiritual and Temporal in Parliament Assembled,

STOCK DEPARTMENT.

Report for Season 1919-1920.

Sheep.

1. The general health of the sheep on the islands is very good and several stations that were affected with lice have now a clean bill of health regarding the same, although the East Island is not quite clear.

Statistics.

2. As will be seen from the comparative table of returns, there is a marked difference from last years return of sheep, owing to the extremely wet and cold lambing season. Horses have also decreased notwithstanding the importation of 315, apparently not enough horses are bred in the country, and therefore there is not a supply sufficient to counteract the wastage from old age sickness, etc. Also as the importation from the coast, of all livestock including horses is liable to be stopped owing to infectious or contagious disease, it would be well to pay more attention to horse breeding.

Lambing.

3. The lambing this season was below the average due to the extremely bad weather in the spring.

Canning.

4. The Falkland Islands Co.'s factory at Goose Green was the only one working this season. The number of sheep canned for export was 24832 showing a decrease of 18,392 from last year. The average price paid for sheep was 11/1. Only 4,640 sheep were boiled down this year.

Cattle.

5. The number of cattle in the Colony in this years return is 5,406 a decrease of 1388 from last year. The general health of the cattle is good.

Horses.

6. Last year's return of horses was 2611; this year the return shows 2486 giving a decrease of 235 from last year, although 315 were imported this year and only 75 the year before, showing that with much larger importation the stock is decreasing.

Pigs.

7. Several boars and sows have been received from South Georgia and no doubt there will be more pigs in the camp in the near future.

CASH ON DELIVERY SERVICE.

RULES GOVERNING THE EXCHANGE OF POSTAL PARCELS
SUBJECT TO TRADE CHARGES BETWEEN THE POST OFFICE
OF GREAT BRITAIN AND IRELAND AND THE POST OFFICE
OF THE FALKLAND ISLANDS.

ARTICLE 1.

Parcels subject to the collection of Trade Charges can be exchanged between the United Kingdom and the Post Office Stanley, Falkland Islands.

ARTICLE 2.

1. The maximum amount of Trade Charges in the case of parcels for delivery in the United Kingdom is fixed at £40 per parcel, and, in the case of parcels for delivery in Stanley, Falkland Islands, at £40 per parcel.

2. In calculating the amount of Trade Charges, fractions of a penny are ignored.

ARTICLE 3.

1. Each Administration fixes the special fee to be levied from the sender of a parcel subject to a Trade Charge. This fee must not exceed:

(a) $2\frac{1}{2}$ d. for each £1 or fraction of £1 to be collected, in the case of parcels posted in the United Kingdom.

(b) $2\frac{1}{2}$ d. for each £1 or fraction of £1 to be collected, in the case of parcels posted in Stanley, Falkland Islands.

2. Each Administration shall communicate to the other the special fee fixed in its service by virtue of the preceding paragraph, as well as any alteration subsequently made in it.

3. This fee is shared between the Administration of the country of origin and that of the country of destination in the manner prescribed in the Detailed Regulations.

ARTICLE 4.

1. In addition to the special fee fixed by the preceding Article the Post Office of the country in which a parcel subject to a Trade Charge is posted may collect a posting fee from the sender, and the Post Office of the country of destination of a parcel subject to a Trade Charge may collect a delivery fee from the addressee.

2. The posting fee must not exceed:—

(a) In the case of a parcel posted in the United Kingdom, 2d. per parcel.

(b) In the case of a parcel posted in Stanley, Falkland Islands, 2d. per parcel.

3. The delivery fee must not exceed:—

(a) In the case of a parcel delivered in the United Kingdom, 4d. per parcel.

(b) In the case of a parcel delivered in Stanley, Falkland Islands, 4d. per parcel.

4. Each Administration shall communicate to the other the special fees fixed in its service by virtue of this Article, as well as any alterations subsequently made in them.

5. These fees shall be retained by the office which collects them.

ARTICLE 5.

The amounts of Trade Charges collected are liquidated by means of Trade Charge Money Orders, which are issued free of all charges. The amount of a Trade Charge Money Order which cannot be delivered remains at the disposal of the Administration of the country of origin of the parcel on which the Trade Charge is payable.

ARTICLE 6.

In principle the amounts of Trade Charges should be paid in by the addressee of the parcel and paid out to the sender in gold; but each Administration shall have power to receive and employ for this purpose any other money legally current in its country, provided that due allowance is made for any difference in the exchange value.

ARTICLE 7.

1. The loss of a parcel subject to a Trade Charge entails responsibility upon the Postal Service in the conditions fixed by the Regulations for the exchange of parcels by Parcel Post between the United Kingdom of Great Britain and Ireland and the Falkland Islands.

2. After the delivery of the parcel the Post Office of the country of destination is responsible for the amount of the Trade Charge, unless it can prove that the parcel and the relative Despatch Note (if one is used) did not, when transmitted to its service, bear the indications prescribed in the Detailed Regulations for parcels subject to Trade Charges. Nevertheless, an application as to the disposal of the amount of a Trade Charge is only entertained if made within a year of the posting of the parcel.

ARTICLE 8.

The sender of a parcel posted under this arrangement may not have the amount of the Trade Charge cancelled or reduced after posting.

ARTICLE 9.

The two Administrations undertake to admit parcels subject to Trade Charge in transit through their services. Nevertheless, the accounts relative to the Trade Charges collected will be drawn up and settled directly between the Post Offices of origin and destination of the parcels subject to Trade Charges.

ARTICLE 10.

The two Administrations are authorized to fix by common consent the measures of detail necessary for ensuring the performance of the present Rules and to modify them from time to time in accordance with the needs of the service.

ARTICLE II.

These rules shall come into force on the date to be agreed upon between the two Administrations. They will remain in force until the expiry of one year from the date on which either Administration shall give notice to the other of its intention to terminate them. The date agreed upon by the Administrations for the purposes of these instructions is the 1st January, 1920.

DETAILED REGULATIONS FOR CARRYING OUT THE RULES
GOVERNING THE EXCHANGE OF POSTAL PARCELS SUBJECT
TO TRADE CHARGES BETWEEN THE POST OFFICE OF
GREAT BRITAIN AND IRELAND AND THE POST OFFICE OF
STANLEY, FALKLAND ISLANDS

ARTICLE I.

1. On parcels subject to Trade Charges, and on the Despatch Notes, if any, relating to them, the word "Remboursement" must be written or printed boldly beside the address, and after it, the amount of the Trade Charge must be shown, in Latin characters, in the money of the country of origin, without erasure or correction, even if certified.

2. Each parcel subject to a Trade Charge must be accompanied by a separate Despatch Note, in services in which Despatch Notes are used.

3. Each parcel subject to a Trade Charge and the relative Despatch Note, if one is used, must bear a red label with the word "Remboursement" in Latin characters.

4. Each parcel subject to a Trade Charge posted under this arrangement must bear on the cover and on the back of the relative Despatch Note, if one is used, a request signed by the sender that if the parcel is undeliverable at the expiration of 15 days from its arrival at the place of destination, it is to be (a) abandoned or (b) returned to him at his expense.

ARTICLE II.

Each parcel subject to a Trade Charge is entered on the parcel bill with a note of the amount of the Trade Charge.

ARTICLE III.

1. Every parcel subject to a Trade Charge is accompanied by a Trade Charge Money Order in conformity with or analogous to the specimen B annexed to the present Rules. This Money Order, which is attached to the Despatch Note or to the parcel bill when no Despatch Note is used, should bear a statement of the amount of the Trade Charge in the currency of the country of origin, and should show, as a general rule, the sender of the parcel as payee of the Order. It is free to each Administration, however to have the Orders relating to the parcels originating in its service addressed to the offices of origin of the parcels or to other offices.

2. Entries in pencil will not be allowed on Trade Charge Money Orders.

ARTICLE. IV

Except by contrary agreement between the Administrations of origin and of destination, the amounts of the Trade Charge Orders are converted into the currency of the country of destination by the Post Office of that country, which uses for this purpose the same rate of conversion as it uses for the conversion of ordinary Money Orders drawn on the country of origin of the parcels.

ARTICLE. V

1. Immediately after collecting the Trade Charge, the Office of destination, or any other Office designated by the Administration of the country of destination fills in the part "Indications deservice" of the Trade Charge Money Order and, after impressing it with its date stamp, returns it free of Postage to the country of origin in the manner prescribed by Article XXIV, § 1, of the Detailed Regulations for the execution of the Principal Convention of the Postal Union, or any Article which may be substituted therefor.

2. Trade Charge Orders are paid under the conditions determined by each Administration with a view to ensure the payment of the amounts of the Trade Charges to the senders of the parcels.

ARTICLE VI.

1. Parcels subject to the collection of Trade Charges can be redirected if the new country of destination maintains with that of origin an exchange of Trade Charge parcels. The parcels are, in case of redirection, accompanied by the Trade Charge Orders made out by the service of origin. The new office of destination acts in the settlement of the Trade Charge as if the parcel had been directly consigned to it.

2. In the case of an application for redirection to a country which does not maintain with that of origin an exchange of Trade Charge parcels, the parcel is treated as one which cannot be delivered.

ARTICLE VII.

1. Trade Charge Orders relating to parcels which, for any reason whatever, are returned to origin should be cancelled by the Office which returns the parcels and should be annexed to the Despatch Notes, or, if no Despatch Notes are used, to the bill on which the parcels are advised.

2. Trade Charge Orders mislaid, lost, or destroyed before the collection of the Trade Charge, are replaced, without formalities, by new orders bearing the heading "Duplicate." The request for a duplicate is addressed directly to the Office of origin of the parcel.

3. Trade Charge Orders mislaid, lost, or destroyed after the collection of the Trade Charge are likewise replaced by duplicates, or by authorities to pay, after proof by the two Post Offices that the orders have not been paid or refunded.

ARTICLE VIII.

1. Trade Charge Orders which it has not been possible to deliver to the payees within the period of validity fixed by the agreement concluded between the two Administrations for the exchange of Money Orders are, at the expiration of the period of validity, receipted by the Office of the country of payment, and are claimed from the Office which issued them.

2. Trade Charge Orders which have been delivered to the payees and of which the payees have not claimed payment within the period of validity fixed by the Rules for the transaction of Money Order business between the two Administrations are replaced by authorities to pay. These authorities to pay are drawn up by the Office which issued the orders, as soon as it has been able to ascertain that the originals have not been paid within the period of validity. They are receipted by the Post Office of destination and claimed by it in the first account rendered after their receipt.

ARTICLE IX.

1. Trade Charge Money Orders of which payment cannot be effected for one of the following reasons:—

- i. Incorrect, insufficient or doubtful description of the name or residence of the payees;
- ii. Differences or omissions of names or amounts;
- iii. Erasures of, or additions to, the entries;
- iv. Omission of stamps, signatures or other service indications;
- v. Use of irregular forms;

shall be corrected by the Post Office which has issued them.

2. For this purpose, the Orders shall be returned as soon as possible, officially registered, to the Office of origin by the Office of destination.

ARTICLE X.

1. The settlement relative to Trade Charges paid by each Post Office on behalf of the other Post Office is effected by means of Trade Charge Accounts (specimen A annexed) the final totals of which are carried to the General Account between the United Kingdom and the Falkland Islands, under the heading "Trade Charge Money Orders."

2. In the Trade Charge accounts, which are accompanied by the paid and receipted Trade Charge Orders, the Orders are entered in alphabetical sequence of the Offices of issue and in numerical sequence of their issue at that Office. At the end of the account the Office which has drawn it up deducts from the total sum of its credit a half per cent., representing the share of the other Office in the Trade Charge fee.

3. The verification of the Trade Charge accounts is effected according to the rules for the transaction of Money Order business between the two Post Offices.

ARTICLE XI

The present Regulations shall be brought into operation on the day on which the Rules come into force. They shall have the same duration as the Rules.

Approved by the Administrator in Council, under the provisions of The Post Office Ordinance 1898 this 5th day of February 1920.

Minute by the Acting Governor introducing the Estimates for the year 1921.

Hon. Gentlemen of the Legislative Council,

I have the honour to lay before you the draft Estimates of the Colony of the Falkland Islands and its Dependencies for the service of the year 1921.

The Revenue, (exclusive of Land Sales) is estimated at £115,511 of which £29,945 is in respect of the Falkland Islands and £85,566 of the Dependencies.

The Expenditure is estimated at £114,355 of which £39,661 is in respect of the Falkland Islands and £74,694 of the Dependencies leaving a Surplus of Revenue over Expenditure amounting to £1,156.

From these figures it will be seen that there is an estimated excess of Revenue over Expenditure for the Dependencies of £10,872 and an estimated deficit for the Colony of £9,716.

2. These Estimates have been framed on the same principle as those for the current year.

It was in 1914 that the Revenue and Expenditure of the Dependencies were first shown in detail, separately from those of the Colony proper, in the body of the Estimates. No summary of this Revenue and Expenditure was published, however.

The current year's Estimates were the first to contain such a summary, and to show at a glance the relative positions of the Colony and the Dependencies in respect of the excess of or deficit in Revenue as compared with Expenditure.

3. An examination of the Estimates for the year 1914 and subsequent years will show that in every year a deficit has been estimated for the Colony proper, and an excess for the Dependencies; while an examination of the Returns of Actual Revenue and Expenditure for the completed years 1914 to 1919 inclusive will show that in every year the Actual combined Revenue exceeded, and the Actual combined Expenditure fell short of the amounts estimated, with the exception of the year 1914, in which there was a nett deficit of £1,740.

The Actual excess of Revenue over Expenditure during the years 1915 to 1919 has been carried to the "Surplus Balance" of the Colony, which, on 31st December 1913 stood at £4,701 and on the 31st December 1919 at £58,690.

4. In the Estimates for the current year a sum of £20,500. (out of an estimated export duty on whale oil from the Dependencies amounting to £25,500) has been earmarked for the Dependencies' Research Fund; similarly in the Estimates for 1921 a sum of £72,500 has been earmarked for the same Fund out of an estimated export duty of £77,500; £5,000 being retained in each case to the credit of the Dependencies' accounts, and thus helping to make up the excess of Revenue over Expenditure.

This sum of £5,000 (representing approximately 3½d. per barrel of the export duty expected from oil in 1921) might with propriety be transferred to the Revenue of the Colony proper, as also might a sum representing a proportion of the cost of the Central Administration, say £3,000; thus reducing the Colony's deficit to £1,716 as against an excess of £2,872 in favour of the Dependencies.

5. The Secretary of State for the Colonies has pointed out the desirability of the Colony attaining such a position financially as to show an equilibrium between its own Revenue and Expenditure after charging the Dependencies with their share of the cost of the Central Administration; the nett excess of the Dependencies' Revenue over Expenditure being transferred to the "Dependencies' Research Fund, and only such excess of Revenue over Expenditure as the Colony proper can show in its own accounts, being transferred to its "Surplus Balance."

This is, of course, the object which we should endeavour to attain, but, in framing the estimates on the conservative principle of the past seven years, I have not been able to estimate an excess of Revenue over Expenditure in the case of the Colony proper: on the contrary a deficit of £9,716 is anticipated, less the £8,000 above referred to.

There would appear to be no reason, however, why the actual Revenue for 1921 should not exceed the estimate as in past years.

6. Though the estimated Revenue of the Colony proper is £3,084 greater than that estimated for the current, year, the estimated Expenditure shows an increase of £8,797.

This latter amount is made up as follows:

	£	s.	d.
Increases in Salaries and Pensions	5125	0	0
(including the expenses connected with the New Scientific Department).			
Ocean Passages for Officers	640	0	0
General Departmental Expenses	987	0	0
Public Works Recurrent and Extraordinary	1995	0	0
Miscellaneous	50	0	0
Total ...	£8797	0	0

These increases are necessary, having regard to efficiency of service and Departmental requirements, and on account of the general rise in the price of all commodities.

7. Should the result of the year's working show that the Colony's Revenue has exceeded its Expenditure there would be no need to draw on the excess obtained by the Dependencies, and only such excess of Revenue should be transferred to the "Surplus Balance" of the Colony, while the Dependencies' excess would be transferred to the Dependencies Research Fund. Should however the Colony's accounts show an actual deficit, and those of the Dependencies an actual excess, it would be equitable if the former were met from the latter, and only the balance remaining transferred to the Research Fund, this balance being in addition to the £72,500 already earmarked. In the event of no such balance being available it would be necessary to reduce the contribution to the Research Fund, in order to obtain an equilibrium between Revenue and Expenditure.

The only alternative would be to increase the existing rates of both direct and indirect taxation, which the Colony is not at present able to bear.

8. I need not enter into detail regarding the Revenue items, but would, in passing call the attention of Hon. Members to the large increase anticipated in Customs Export Duty on whale and seal oil, the duty on which was increased from 1/6 to 5/- per barrel by The Tariff (Export Duty) Amendment Ordinance 1920. As has already been stated, a sum £72,500 out of this anticipated Duty has been earmarked for the Dependencies Research Fund.

9. Under the Expenditure side of the Estimates several items call for remark :

HEAD I.

Pensions.

The increase under this head has been authorised by the Pensions Increase Ordinance, 1919.

Salaries.

The general increase of salaries for all departments was passed by a Resolution of this Hon. Council on the 26th of May, 1920, with the exception of the Governor's salary which I now ask you to pass as suggested by the Secretary of State.

It will be seen that the substantive salary of the Governor has been increased by £50, the entertaining allowance of £250 cancelled, and a duty allowance of £500 per annum provided for.

HEAD VI.

Port and Marine.

Item 2. A new engineer for the Government Steam Launch has been appointed recently owing to the fact that the person who has held the post for the past eight years has left the Colony.

It was necessary that the post should be filled without delay, and this was done locally in order to save both time and expense. The engineer thus appointed is a married man with a family, and quarters have had to be provided for him which have not been allowed for in the Estimates now before you. A note will require to be made to this effect on page 13 of the Estimates.

HEAD XI.

Medical.

It will be noted that increased salaries have been provided for the new officers appointed to the posts of Colonial Surgeon, and Dentist. It is not now possible to obtain officers for these posts at lower salaries.

Provision has been inserted for a new post viz: that of a Dispenser for the King Edward Memorial Hospital who will also act as X Rays Operator.

The provision made for maintenance of the Hospital Staff and Patients is in accordance with the general rise in the price of foodstuffs.

An item of £200 has been inserted for furniture, as the existing furniture is inadequate for the needs of the Hospital.

HEAD XII.

Transport.

The increase of £640 is accounted for by the fact that the sum provided for in the current year was greatly under-estimated.

HEAD XV.

Scientific Dept.

This new Department is provided for after careful consideration of the needs of the Colony with a view to furthering its development.

The Secretary of State is taking steps to appoint a Forest Officer and a Geologist, and Mr. J. E. Hamilton, the Stipendiary Magistrate, West Falkland, has been selected for the post of Naturalist while carrying out the duties of his substantive post.

Time alone will prove the benefits that it is hoped will accrue to the Colony from the institution of this new Department; but there can be no doubt that the experiment is justifiable.

The Forest Officer will be engaged for a term of five years, the Geologist for a term of two years, and Mr. Hamilton's services as Government Naturalist will be available, in the first instance, till the completion of his present agreement which has still two years to run.

HEAD XVI.

Military.

Item 10 under this Head I propose with your approval to transfer to Head XIII, Miscellaneous, in the corrected Estimates, as being more appropriate.

HEAD XVII.

Post Office.

Provision has again been made under this Head for £2,500 in respect of the carriage of mails between the Colony and the United Kingdom, though no arrangement has yet been made for the resumption of a regular mail service, nor have any accounts yet been received from the Pacific Steam Navigation Company for carriage of mails during the current year.

HEAD XXII.

Colonial Engineer.

Provision will require to be made under this Head in respect of House Allowance for the new Blacksmith whom the Crown Agents for the Colonies have been asked to appoint, as there are no Government quarters available for him. The sum of £24 per annum should therefore be inserted as Item 24 "House Allowance to Blacksmith."

10. In conclusion I would remark, that, while the items under Head XXIV do not appear to call for comment, a number of Major works are urgently needed for the benefit of both the Capital in particular and the Colony in general, which it is not possible to provide for out of the Ordinary Revenue. These will form the subject of representations which I propose shortly to make to the Secretary of State for the Colonies, and, if approved, will require to be paid for out of the Surplus Balances.

Government Notice.

The following telegrams from the Secretary of State for the Colonies are published for general information :—

“November 2nd: It has been decided that, on Thursday, 11th November, it being the second anniversary of the Armistice, the Cenotaph in Whitehall shall be unveiled by His Majesty the King, and that, as part of the Ceremony on that day there shall be buried in Westminster Abbey, an unknown British warrior whose body shall be taken from amongst those buried in France. Every precaution will be taken to prevent his identity being known. The coffin will be brought to the Cenotaph where it will be met by the King, attended by Representatives of the whole of the Empire. There will be a short service at the Cenotaph consisting of the singing of the hymn “O God our Help in Ages Past” and the “Lord’s Prayer.” This service will be so timed that the unveiling of the Cenotaph takes place at 11 a.m. exactly, after which there will be two minutes silence followed by the “Last Post.” Wreaths will then be laid by His Majesty, the Prime Minister, and Representatives of the Empire. The funeral procession will then proceed to the Abbey where the funeral service will take place on the body being buried in a grave in the nave of the Abbey. It is proposed, just as last year, there should be during the two minutes silence complete suspension of all normal business, work, and locomotion throughout the United Kingdom that the thoughts of all may be concentrated in reverent remembrance of the Glorious Dead.”

"November 6th : With reference to my telegram of the 2nd November, His Majesty the King has expressed the wish that on Armistice Day, 11th November, there should be a complete suspension of all normal business, work, and locomotion throughout the British Empire during the two minutes silence commencing at 11 a.m."

IT IS HOPED THAT ALL WILL UNITE IN GIVING EFFECT TO THE WISH EXPRESSED BY HIS MAJESTY THE KING AT THE APPOINTED HOUR, viz; 11 a.m. on THURSDAY, the 11th instant.

FOR THE TOWN OF STANLEY THE FOLLOWING ARRANGEMENTS WILL BE MADE TO MARK THE HOUR:—

THE CATHEDRAL BELL WILL BE RUNG FROM 10.55 a.m. to 11 a.m. PRECISELY; AFTER WHICH TWO GUNS WILL BE FIRED IN RAPID SUCCESSION FROM "VICTORY GREEN." ON THE FIRING OF THESE GUNS THERE WILL BE A CESSATION OF ALL WORK AND OTHER ACTIVITIES FOR A PERIOD OF TWO MINUTES, AT THE END OF WHICH TIME ONE GUN WILL BE FIRED.

AUSTRO-HUNGARIAN BANK NOTES.

Holders of Currency Notes issued by the Austro-Hungarian Bank are referred to Article No. 206 of the Treaty of Peace with Austria, which contains provisions for the liquidation of the Austro-Hungarian Bank.

All such notes held in this Colony should, at the earliest opportunity and not later than the 15th April, be forwarded to the Colonial Secretary for transmission to the Reparation Commission.

In order to identify the notes, a memorandum, stating the name and address of the holder, and the distinctive number and denomination of each note, should be attached in every case. The holder of such notes will also be required to fill up a form, stating whether the notes were held by him in this Colony prior to the 15th June, 1919.

Draft.

No. 0.

1921.

FALKLAND ISLANDS.

()

A Bill to facilitate the enforcement in the Colony of Maintenance Orders made by courts in England and Ireland and vice versa.

BE IT ENACTED by the Governor of the Colony of the Falkland Islands, by and with the advice and consent of the Legislative Council thereof, as follows :—

Short title.

1. This Ordinance may be cited as the "Maintenance (Facilities for Enforcement) Ordinance, 1920."

Definitions.

2. For the purposes of this Ordinance, the expression "maintenance order" means an order, other than an order of affiliation, for the periodical payment of sums of money towards the maintenance of the wife or other dependants of the person against whom the order is made, and the expression "dependants" means such persons as that person is liable to maintain; the expression "certified copy" in relation to an order of a court means a copy of the order certified by the proper officer of the court to be a true copy, and the expression "prescribed" means prescribed by rules of court.

Enforcement in the Colony of maintenance orders made in England and Ireland.

3.—(1) Where a maintenance order has, whether before or after the passing of this Ordinance, been made against any person by any court in England or Ireland, and a certified copy of the order has been transmitted by the Secretary of State to the Governor, the Governor shall send a copy of the order to the prescribed officer of a court in the Colony for registration; and on receipt thereof the order shall be registered in the prescribed manner, and shall, from the date of such registration, be of the same force and effect, and, subject to the provisions of this Ordinance, all proceedings may be taken on such order as if it had been an order originally obtained in the court in which it is so registered, and that court shall have power to enforce the order accordingly.

(2) The court in which an order is to be so registered as aforesaid shall, if the court by which the order was made was a court of superior jurisdiction, be the Supreme Court, and, if the court was not a court of superior jurisdiction, be a court of summary jurisdiction.

Transmission of maintenance orders made in the Colony.

4. Where a court in the Colony has, whether before or after the passing of this Ordinance, made a maintenance order against any person, and it is proved to that court that the person against whom the order was made is resident in England or Ireland, the court shall send to the Governor for transmission to the Secretary of State a certified copy of the order.

5.—(1). Where an application is made to a court of summary jurisdiction in the Colony for a maintenance order against any person, and it is proved that that person is resident in England or Ireland the court may, in the absence of that person, if after hearing the evidence it is satisfied of the justice of the application, make any such order as it might have made if a summons had been duly served on that person and he had failed to appear at the hearing, but in such case the order shall be provisional only, and shall have no effect unless and until confirmed by a competent court in England or Ireland.

Power to make provisional orders of maintenance against persons resident in England or Ireland.

(2) The evidence of any witness who is examined on any such application shall be put into writing, and such deposition shall be read over to and signed by him.

(3) Where such an order is made, the court shall send to the Governor for transmission to the Secretary of State, the depositions so taken and a certified copy of the order, together with a statement of the grounds on which the making of the order might have been opposed if the person against whom the order is made had been duly served with a summons and had appeared at the hearing, and such information as the court possesses for facilitating the identification of that person, and ascertaining his whereabouts.

(4) Where any such provisional order has come before a court in England or Ireland for confirmation, and the order has by that court been remitted to the court of summary jurisdiction which made the order for the purpose of taking further evidence, that court or any other court of summary jurisdiction sitting and acting for the same place shall, after giving the prescribed notice, proceed to take the evidence in like manner and subject to the like conditions as the evidence in support of the original application.

If upon the hearing of such evidence it appears to the court that the order ought not to have been made, the court may rescind the order, but in any other case the depositions shall be sent to the Secretary of State and dealt with in like manner as the original depositions.

(5) The confirmation of an order made under this section shall not affect any power of a court of summary jurisdiction to vary or rescind that order: Provided that on the making of a varying or rescinding order the court shall send a certified copy thereof to the Governor for transmission to the Secretary of State, and that in the case of an order varying the original order the order shall not have any effect unless and until confirmed in like manner as the original order.

(6) The applicant shall have the same right of appeal, if any, against a refusal to make a provisional order as he would have had against a refusal to make the order had a summons been duly served on the person against whom the order is sought to be made.

6.—(1) Where a maintenance order has been made by a court in England or Ireland, and the order is provisional only and has no effect unless and until confirmed by a court of summary jurisdiction in the Colony, and a certified copy of the order, together with the depositions of witnesses and a statement of the grounds on which the order might have been opposed has been transmitted to the Governor, and it appears to the Governor that the person against whom the order was made is resident in the Colony, the Governor may send the said documents to the prescribed officer of a court of summary jurisdiction, with a requisition that a summons be issued calling upon the person to show cause why that order should not be confirmed, and upon receipt of such documents and requisition the court shall issue such a summons and cause it to be served upon such person.

Power of court of summary jurisdiction to confirm maintenance order made by courts in England and Ireland.

(2) A summons so issued may be served in the Colony in the same manner as if it had been originally issued or subsequently endorsed by a court of summary jurisdiction having jurisdiction in the place where the person happens to be.

(3) At the hearing it shall be open to the person on whom the summons was served to raise any defence which he might have raised in the original proceedings had he been a party thereto, but no other defence, and the certificate from the court which made the provisional order stating the grounds on which the making of the order might have been opposed if the person against whom the order was made had been a party to the proceedings shall be conclusive evidence that those grounds are grounds on which objection may be taken.

(4) If at the hearing the person served with the summons does not appear or, on appearing, fails to satisfy the court that the order ought not to be confirmed, the court may confirm the order either without modification or with such modifications as to the court after hearing the evidence may seem just.

(5) If the person against whom the summons was issued appears at the hearing and satisfies the court that for the purpose of any defence it is necessary to remit the case to the court which made the provisional order for the taking of any further evidence, the court may so remit the case and adjourn the proceedings for the purpose.

(6) Where a provisional order has been confirmed under this section, it may be varied or rescinded in like manner as if it had originally been made by the confirming court, and where on an application for rescission or variation the court is satisfied that it is necessary to remit the case to the court which made the order for the purpose of taking any further evidence, the court may so remit the case and adjourn the proceedings for the purpose.

(7) Where an order has been so confirmed, the person bound thereby shall have the same right of appeal, if any, against the confirmation of the order as he would have had against the making of the order had the order been an order made by the court confirming the order.

7. The Secretary of State may make regulations as to the manner in which a case can be remitted by a court authorised to confirm a provisional order to the court which made the provisional order, and generally for facilitating communications between such courts.

Power of Secretary of State to make regulations for facilitating communications between courts.

FALKLAND ISLANDS.

()

A Bill to facilitate the enforcement in the Colony of Maintenance Orders made by courts in England and Ireland and vice versa.

BE IT ENACTED by the Governor of the Colony of the Falkland Islands, by and with the advice and consent of the Legislative Council thereof, as follows :—

Short title.

1. This Ordinance may be cited as the "Maintenance (Facilities for Enforcement) Ordinance, 1920."

Definitions.

2. For the purposes of this Ordinance, the expression "maintenance order" means an order, other than an order of affiliation, for the periodical payment of sums of money towards the maintenance of the wife or other dependants of the person against whom the order is made, and the expression "dependants" means such persons as that person is liable to maintain; the expression "certified copy" in relation to an order of a court means a copy of the order certified by the proper officer of the court to be a true copy, and the expression "prescribed" means prescribed by rules of court.

Enforcement in the Colony of maintenance orders made in England and Ireland.

3.—(1) Where a maintenance order has, whether before or after the passing of this Ordinance, been made against any person by any court in England or Ireland, and a certified copy of the order has been transmitted by the Secretary of State to the Governor, the Governor shall send a copy of the order to the prescribed officer of a court in the Colony for registration; and on receipt thereof the order shall be registered in the prescribed manner, and shall, from the date of such registration, be of the same force and effect, and, subject to the provisions of this Ordinance, all proceedings may be taken on such order as if it had been an order originally obtained in the court in which it is so registered, and that court shall have power to enforce the order accordingly.

(2) The court in which an order is to be so registered as aforesaid shall, if the court by which the order was made was a court of superior jurisdiction, be the Supreme Court, and, if the court was not a court of superior jurisdiction, be a court of summary jurisdiction.

Transmission of maintenance orders made in the Colony.

4. Where a court in the Colony has, whether before or after the passing of this Ordinance, made a maintenance order against any person, and it is proved to that court that the person against whom the order was made is resident in England or Ireland, the court shall send to the Governor for transmission to the Secretary of State a certified copy of the order.

5.—(1). Where an application is made to a court of summary jurisdiction in the Colony for a maintenance order against any person, and it is proved that that person is resident in England or Ireland the court may, in the absence of that person, if after hearing the evidence it is satisfied of the justice of the application, make any such order as it might have made if a summons had been duly served on that person and he had failed to appear at the hearing, but in such case the order shall be provisional only, and shall have no effect unless and until confirmed by a competent court in England or Ireland.

Power to make provisional orders of maintenance against persons resident in England or Ireland.

(2) The evidence of any witness who is examined on any such application shall be put into writing, and such deposition shall be read over to and signed by him.

(3) Where such an order is made, the court shall send to the Governor for transmission to the Secretary of State, the depositions so taken and a certified copy of the order, together with a statement of the grounds on which the making of the order might have been opposed if the person against whom the order is made had been duly served with a summons and had appeared at the hearing, and such information as the court possesses for facilitating the identification of that person, and ascertaining his whereabouts.

(4) Where any such provisional order has come before a court in England or Ireland for confirmation, and the order has by that court been remitted to the court of summary jurisdiction which made the order for the purpose of taking further evidence, that court or any other court of summary jurisdiction sitting and acting for the same place shall, after giving the prescribed notice, proceed to take the evidence in like manner and subject to the like conditions as the evidence in support of the original application.

If upon the hearing of such evidence it appears to the court that the order ought not to have been made, the court may rescind the order, but in any other case the depositions shall be sent to the Secretary of State and dealt with in like manner as the original depositions.

(5) The confirmation of an order made under this section shall not affect any power of a court of summary jurisdiction to vary or rescind that order: Provided that on the making of a varying or rescinding order the court shall send a certified copy thereof to the Governor for transmission to the Secretary of State, and that in the case of an order varying the original order the order shall not have any effect unless and until confirmed in like manner as the original order.

(6) The applicant shall have the same right of appeal, if any, against a refusal to make a provisional order as he would have had against a refusal to make the order had a summons been duly served on the person against whom the order is sought to be made.

6.—(1) Where a maintenance order has been made by a court in England or Ireland, and the order is provisional only and has no effect unless and until confirmed by a court of summary jurisdiction in the Colony, and a certified copy of the order, together with the depositions of witnesses and a statement of the grounds on which the order might have been opposed has been transmitted to the Governor, and it appears to the Governor that the person against whom the order was made is resident in the Colony, the Governor may send the said documents to the prescribed officer of a court of summary jurisdiction, with a requisition that a summons be issued calling upon the person to show cause why that order should not be confirmed, and upon receipt of such documents and requisition the court shall issue such a summons and cause it to be served upon such person.

Power of court of summary jurisdiction to confirm maintenance order made by courts in England and Ireland.

(2) A summons so issued may be served in the Colony in the same manner as if it had been originally issued or subsequently endorsed by a court of summary jurisdiction having jurisdiction in the place where the person happens to be.

(3) At the hearing it shall be open to the person on whom the summons was served to raise any defence which he might have raised in the original proceedings had he been a party thereto, but no other defence, and the certificate from the court which made the provisional order stating the grounds on which the making of the order might have been opposed if the person against whom the order was made had been a party to the proceedings shall be conclusive evidence that those grounds are grounds on which objection may be taken.

(4) If at the hearing the person served with the summons does not appear or, on appearing, fails to satisfy the court that the order ought not to be confirmed, the court may confirm the order either without modification or with such modifications as to the court after hearing the evidence may seem just.

(5) If the person against whom the summons was issued appears at the hearing and satisfies the court that for the purpose of any defence it is necessary to remit the case to the court which made the provisional order for the taking of any further evidence, the court may so remit the case and adjourn the proceedings for the purpose.

(6) Where a provisional order has been confirmed under this section, it may be varied or rescinded in like manner as if it had originally been made by the confirming court, and where on an application for rescission or variation the court is satisfied that it is necessary to remit the case to the court which made the order for the purpose of taking any further evidence, the court may so remit the case and adjourn the proceedings for the purpose.

(7) Where an order has been so confirmed, the person bound thereby shall have the same right of appeal, if any, against the confirmation of the order as he would have had against the making of the order had the order been an order made by the court confirming the order.

Power of Secretary of State to make regulations for facilitating communications between courts.

7. The Secretary of State may make regulations as to the manner in which a case can be remitted by a court authorised to confirm a provisional order to the court which made the provisional order, and generally for facilitating communications between such courts.

Mode of enforcing orders.

8.—(1) A court of summary jurisdiction in which an order has been registered under this Ordinance or by which an order has been confirmed under this Ordinance, and the officers of such court, shall take all such steps for enforcing the order as may be prescribed.

(2) Every such order shall be enforceable in like manner as if the order were for the payment of a civil debt recoverable summarily :

Provided that if the order is of such a nature that if made by the court in which it is so registered, or by which it is so confirmed, it would be enforceable in like manner as an order of affiliation, the order shall be so enforceable.

(3) A warrant of distress or commitment issued by a court of summary jurisdiction for the purpose of enforcing any order so registered or confirmed may be executed in any part of the Colony in the same manner as if the warrant had been originally issued or subsequently endorsed by a court of summary jurisdiction having jurisdiction in the place where the warrant is executed.

9. The Summary Jurisdiction Ordinance, 1902 shall apply to proceedings before courts of summary jurisdiction under this Ordinance in like manner as it applies to proceedings under that Ordinance, and the power of the Chief Justice to make rules under section seventy of the Summary Jurisdiction Ordinance, 1902, shall include power to make rules regulating the procedure of courts of summary jurisdiction under this Ordinance.

Application of Summary Jurisdiction Ordinance, 1902.

10. Any document purporting to be signed by a judge or officer of a court in England or Ireland shall, until the contrary is proved, be deemed to have been so signed without proof of the signature or judicial or official character of the person appearing to have signed it, and the officer of a court by whom a document is signed shall until the contrary is proved, be deemed to have been the proper officer of the court to sign the document.

Proof of documents signed by officers of court.

11. Depositions taken in a court in England or Ireland for the purpose of this Ordinance may be received in evidence in proceedings before courts of summary jurisdiction under this Ordinance.

The Governor directs the publication, for general information, of the following Press Notice regarding the establishment of the Imperial Bureau of Mycology.

9th August, 1921.

C.S. 582/21.

(Enclosure in Circular Despatch of
31st December, 1920.)

The Imperial Bureau of Mycology is the outcome of a proposal unanimously adopted by the Imperial War Conference in 1918 that a central organisation should be established for the encouragement and co-ordination of work throughout the

Empire on the diseases of plants caused by fungi, in relation to agriculture. The Committee of Management consist of some of the foremost biologists in the Country with Viscount Harcourt as their Chairman, and includes the following members:- Professor I. Bayley Balfour, M.D., D.Sc., F.R.S., Mr. W. Bateson, F.R.S., Professor V. H. Blackman, F.R.S., Professor F. O. Bower, F.R.S., Mr. A. D. Cotton, F.L.S., Professor H. H. Dixon, F.R.S., Professor J. B. Farmer, F.R.S., Captain A. W. Hill, F.L.S., Professor W. H. Lang, F.R.S., Sir Daniel Morris, K.C.M.G., Mr. J. Murray, Mr. G. H. Pethybridge, B.Sc., Sir David Prain, C.M.G., C.I.E., F.R.S., Dr. A. B. Rendle, F.R.S., Mr. H. N. Ridley, C.M.G., F.R.S., Professor R. A. Robertson, F.R.S.E., Sir A. E. Shipley, F.R.S., Professor W. Somerville, F.R.S., and Dr. H. W. T. Wager, F.R.S.

Dr. E. J. Butler, late Imperial Mycologist, Director of the Research Institute, Pusa, and Agricultural Adviser to the Government of India, has been appointed Director and has started work at the headquarters of the Bureau, No. 17, Kew Green, Kew (Telephone Richmond 603). This site has the advantage of proximity to the fine library and collections of the Royal Botanic Gardens, Kew, with the Director and staff of which the Bureau will work in co-operation.

The funds of the Bureau are entirely provided by contributions from the various self-governing Dominions, India, Egypt, and Soudan, and the non-self-governing Colonies and Protectorates. It will work broadly on the lines of the existing Imperial Bureau of Entomology at South Kensington, and will aim at doing for the other great class of destructive agencies in agriculture, namely the diseases and blights of plants caused by fungi, what the older Bureau has so successfully done in regard to injurious insects. It will be a central agency for the accumulation and distribution of information and for the identification of specimens sent in from all parts of the Empire. It is proposed to issue, as soon as funds permit, a periodical journal through which those interested in mycological work in regard to agriculture will be kept informed of progress

elsewhere. There are at present over fifty officials engaged in this work in the overseas parts of the Empire, while the number of agriculturists, planters and the like practically interested is legion.

The effect of fungus diseases in reducing crop production is great beyond calculation. A Canadian scientist has estimated the loss caused by rust in wheat in the prairie region of Canada in 1917 at 100,000,000 bushels, representing a value of between £25,000,000 and £50,000,000. For the same year the loss in the five chief cereals in the United States exceeded 400,000,000 bushels. The effect of this on the provisioning of the world may be easily imagined.

No. 56.

It is hereby notified, for general information, that an Anglo-German Mixed Arbitral Tribunal has been established under Article 304 of the treaty of Versailles, and is about to begin work in London.

A great part of the work of the Tribunal is to decide as to debts under Article 296 of the Treaty where a difference has arisen between an enemy debtor and an enemy creditor or between the British and German clearing offices. Under Article 297 the Tribunal can determine compensation to be borne by Germany in respect of damage or injury inflicted on the property, rights or interests of British Nationals in German territory as they existed on August 1, 1914, by the exceptional war measures or measures of transfer mentioned in the Annex to that Article. The other matters within the jurisdiction of the Tribunal are set out in Articles 299, 300, 304, 305, and 310 of the Treaty.

The procedure before the Tribunal is to some extent regulated by Sections III to VII of part X of the Treaty, but the Tribunal has settled further and more detailed rules dealing with the manner in which claims must be submitted.

The following rules deal with the time for presentation of Claims:-

RULE 1. The time within which claims are to be submitted to the Tribunal shall be as follows:-

- (a) Appeals under Article 296, Annex, paragraph 20.

Within thirty days of the communication of the joint decision of the two clearing offices to the Appellant.

- (b) Claims under Article 297.

Within twelve months from the date of the publication of these rules in the place at which such claimant is residing, or within six months from the date on which the claimant learnt that damage or injury had been inflicted on his property, rights or interests, or within six months from the date on which the Claimant learnt that restitution under section (f) of the said Article had been made or refused, whichever period is the longer.

- (c) Claims under Article 305.

Within twelve months of the publication of these rules in the place at which such Claimant is residing, or within twelve months of the date on which the decision was given, or within six months of the date on which such decision came to the knowledge of the Claimant, whichever period is the longer.

- (d) In all other cases.

Within twelve months from the date of the publication of these rules in the place at which such Claimant is residing, with the exception of those cases provided for in Rule 22 where the lim-

itations of time imposed by these rules are stated not to apply.

After the expiration of the times prescribed by this rule, no claim will be accepted without the special leave of the Tribunal.

RULE 2. All claims, answers and other written proceedings must be delivered or sent by post to the Tribunal Secretariat at 21 St. James's Square, London, S.W. 1.

A complete copy of the Rules of Procedure of the Tribunal may be seen at the Colonial Secretary's Office.

Prevalence of Sickness.

With the exception of a non-virulent but troublesome type of Coryza which was practically always present during the year, there has been no epidemic of infectious or contagious diseases during the year ending 1920.

The general sanitary condition is not good, but this does not appear to play the same part as in other places; if the absence of disease be taken as an index.

The children at the Government School were examined. They were clean, well-dressed and taken on the whole a bright-looking lot of children, several of them had tonsils and adenoids, but none of them presented the distressing features of mouth breathing and barrel chest; they were fairly robust.

Report on Currency Note Accounts for the year 1920.

The Note Guarantee Fund.

1. Under the provisions of the Principal Order 1899, the coin received by the Commissioners in exchange for the notes issued, (put into circulation) has to form the Note Guarantee Fund.

2. On the 1st January 1920 this fund amounted to £18,000. During the year the "Note Issue" was increased to £20,000, and the £2,000 received in coin by the Commissioners was allocated as follows:—

Placed to the credit of the "Coin Portion"	£1,000
" " " " "Investment Portion"	1,000
	<hr/> £2,000.

3. Under the provisions of the Principal Order, the Note Guarantee Fund has to be divided into two parts (a) The Coin Portion, and (b) The Investment Portion. Under the provisions of the Currency Note (Amendment) Order 1920, there may be kept in the United Kingdom either in coin or invested in such manner as the Secretary of State shall approve, such part of the coin portion of the Note Guarantee Fund, not exceeding two-thirds thereof, as the Secretary of State from time to time may direct, notwithstanding anything to the contrary contained in the Principal Order.

(a) **THE COIN PORTION.** During the year the coin portion was increased from £9,000 to £10,000, and is divided between the Commissioners and the Crown Agents, viz:— £4,000 in the Commissioners safe in the Colony, and £6,000 with the Crown Agents, deposited with the London County Westminster and Parrs' Bank.

(b) **THE INVESTMENT PORTION.** During the year the Investment portion was increased by a sum of £1,000, which was expended in the purchase of approved Securities, and the total sum so expended on behalf of the Fund amounts to £10,000.

The Note Depreciation Fund.

4. Under the provisions of the Principal Order, a sum equal to one per cent of the cost price of the Securities forming the Investment Portion of the Note Guarantee Fund has to be set aside annually to form a Depreciation Fund, until such time as the latter is not less than ten per cent of the cost price of the Securities forming the said Investment Portion. A separate account has to be kept of the Depreciation Fund to form part of the Investment Portion of the Note Guarantee Fund.

5. During the year the Note Depreciation Fund was increased by a sum of £109 : 4 : 5, which was expended in the purchase of approved Securities. No. 78.

By direction of His Excellency the Governor the following despatch from His Britannic Majesty's Minister at Buenos Aires to the Secretary of State for Foreign Affairs is published for general information.

3rd, September, 1921.

C.S. 869/21.

BRITISH LEGATION,
Buenos Aires,
August 5th 1921.

My Lord,

Your Lordship is aware that owing to the claim of Argentina to the ownership of the Falkland Islands, or Islas Malvinas" as they are invariably called here, foreign vessels have not been allowed to trade between the Argentine and the Islands on the ground that such trade would be a violation of the Argentine law which confines the coastal trade to vessels flying the national flag.

The Ministry of Finance was consulted recently by the Representative of certain Shipping Companies as to whether vessels flying foreign flags may trade between Argentine ports and ports in the Falkland Islands and a reply in the form of an opinion by the Solicitor to the Treasury has been issued to the following effect:-

"However legitimate may be the rights of the Argentine Republic to the Malvinas Islands so long as these islands remain in the possession of the British Government, even though unlawfully so held, the ports of the islands, for the purposes of Argentine customs and coastal laws, must be considered as foreign. In consequence there is no legal obstacle in the way of vessels under foreign flags trading between Argentine ports and Port Stanley or any other port in the Malvinas Islands".

It remains to be seen whether the Argentine Government will accept this opinion and give effect to it by means of a Decree.

I am sending a copy of this Despatch to the Governor of the Falkland Islands.

I have the honour to be,
with the highest respects,
My Lord,
Your Lordship's most obedient,
humble Servant,

(Signed) RONALD MACLEAY.

The Right Honourable,
EARL CURZON OF KEDLESTON, K.G.
etc. etc. etc.
FOREIGN OFFICE.

By Command,
W. A. THOMPSON,
Acting Colonial Secretary.

1. The Minutes of the Meeting held on the 6th December, 1920, were read and confirmed.
2. The Hon. M. C. Craigie-Halkett took the prescribed oath as Acting Treasurer.
3. The Hon. the Acting Colonial Secretary, by Command, laid on the table the following documents:-

 - (3) A Statement of the imports of milk, butter, and cheese for the years, 1918, 1919, and 1920.

4. The Governor invited the Council to consider, having regard to the decision of the Admiralty notified in the Secretary of State's telegrams of the 12th and 22nd of March, the means by which telegraphic communication should be maintained.

The following resolutions were moved by the Hon. the Acting Colonial Secretary and seconded by the Hon. G. I. Turner :-

- (1) That the cordial thanks of the Colony should be conveyed to His Majesty's Government for the generous proposal that the Naval Wireless Station should be transferred to the Colonial Government as a free gift.
- (2) That telegraphic communication should be maintained but at a less cost than would be incurred in working the Naval High Power Wireless Station.

The resolutions were adopted.

5. With reference to the Statement of the Imports of milk, butter and cheese, which had been laid on the table, the Governor invited the Council to consider the measures which should be adopted for the improvement of the milk supply of Stanley.

The following resolution was moved by the Hon. the Acting Colonial Secretary and seconded by the Hon. G. I. Turner:

The Council approves in principle of the following measures being adopted for the improvement of the milk supply of Stanley:-

- (1) The gradual improvement of the existing pasturage by the draining of marsh land and by the sowing of suitable grasses.
- (2) The provision of a larger area for grazing.
- (3) The importation of stock for crossing with local cattle.
- (4) The provision of winter food by planting of tussac grass on suitable areas on the coast.

The resolution was adopted.

6. The Governor invited the attention of the Council to the scale of fees payable, under the Regulations of the 6th of November, 1920, by patients in the King Edward Memorial Hospital. His Excellency stated that with the approval of the Council and pending reconsideration of the scale of fees, he proposed that the fee payable for midwifery cases should be fixed temporarily at £2 and that this fee should include care, treatment, and medical attendance, irrespective of the period for which the patient remained in hospital.

The Council concurred.

FALKLAND ISLANDS.

Ordinance No. 1 of 1921.

I ASSENT,

J. MIDDLETON,

Governor.

(27th September, 1921.)

An Ordinance

To facilitate the enforcement in the Colony of Maintenance Orders made by courts in England and Ireland and vice versa.

BE IT ENACTED by the Governor of the Colony of the Falkland Islands, by and with the advice and consent of the Legislative Council thereof, as follows :—

Short title.

1. This Ordinance may be cited as the "Maintenance Orders (Facilities for Enforcement) Ordinance, 1921."

Definitions.

2. For the purposes of this Ordinance, the expression "maintenance order" means an order, other than an order of affiliation, for the periodical payment of sums of money towards the maintenance of the wife or other dependants of the person against whom the order is made, and the expression "dependants" means such persons as that person is liable to maintain; the expression "certified copy" in relation to an order of a court means a copy of the order certified by the proper officer of the court to be a true copy, and the expression "prescribed" means prescribed by rules of court.

Enforcement in the Colony of maintenance orders made in England and Ireland.

3.—(1) Where a maintenance order has, whether before or after the passing of this Ordinance, been made against any person by any court in England or Ireland, and a certified copy of the order has been transmitted by the Secretary of State to the Governor, the Governor shall send a copy of the order to the prescribed officer of a court in the Colony for registration; and on receipt thereof the order shall be registered in the prescribed manner, and shall, from the date of such registration, be of the same force and effect, and, subject to the provisions of this Ordinance, all proceedings may be taken on such order as if it had been an order originally obtained in the court in which it is so registered, and that court shall have power to enforce the order accordingly.

(2) The court in which an order is to be so registered as aforesaid shall, if the court by which the order was made was a court of superior jurisdiction, be the Supreme Court, and, if the court was not a court of superior jurisdiction, be a court of summary jurisdiction.

4. Where a court in the Colony has, whether before or after the passing of this Ordinance, made a maintenance order against any person, and it is proved to that court that the person against whom the order was made is resident in England or Ireland, the court shall send to the Governor for transmission to the Secretary of State a certified copy of the order.

Transmission of maintenance orders made in the Colony.

5.—(1). Where an application is made to a court of summary jurisdiction in the Colony for a maintenance order against any person, and it is proved that that person is resident in England or Ireland the court may, in the absence of that person, if after hearing the evidence it is satisfied of the justice of the application, make any such order as it might have made if a summons had been duly served on that person and he had failed to appear at the hearing, but in such case the order shall be provisional only, and shall have no effect unless and until confirmed by a competent court in England or Ireland.

Power to make provisional orders of maintenance against persons resident in England or Ireland.

(2) The evidence of any witness who is examined on any such application shall be put into writing, and such deposition shall be read over to and signed by him.

(3) Where such an order is made, the court shall send to the Governor for transmission to the Secretary of State, the depositions so taken and a certified copy of the order, together with a statement of the grounds on which the making of the order might have been opposed if the person against whom the order is made had been duly served with a summons and had appeared at the hearing, and such information as the court possesses for facilitating the identification of that person, and ascertaining his whereabouts.

(4) Where any such provisional order has come before a court in England or Ireland for confirmation, and the order has by that court been remitted to the court of summary jurisdiction which made the order for the purpose of taking further evidence, that court or any other court of summary jurisdiction sitting and acting for the same place shall, after giving the prescribed notice, proceed to take the evidence in like manner and subject to the like conditions as the evidence in support of the original application.

If upon the hearing of such evidence it appears to the court that the order ought not to have been made, the court may rescind the order, but in any other case the depositions shall be sent to the Secretary of State and dealt with in like manner as the original depositions.

(5) The confirmation of an order made under this section shall not affect any power of a court of summary jurisdiction to vary or rescind that order: Provided that on the making of a varying or rescinding order the court shall send a certified copy thereof to the Governor for transmission to the Secretary of State, and that in the case of an order varying the original order the order shall not have any effect unless and until confirmed in like manner as the original order.

(6) The applicant shall have the same right of appeal, if any, against a refusal to make a provisional order as he would have had against a refusal to make the order had a summons been duly served on the person against whom the order is sought to be made.

6.—(1) Where a maintenance order has been made by a court in England or Ireland, and the order is provisional only and has no effect unless and until confirmed by a court of summary jurisdiction in the Colony, and a certified copy of the order, together with the depositions of witnesses and a statement of the grounds on which the order might have been opposed has been transmitted to the Governor, and it appears to the Governor that

Power of court of summary jurisdiction to confirm maintenance order made by courts in England and Ireland.

the person against whom the order was made is resident in the Colony, the Governor may send the said documents to the prescribed officer of a court of summary jurisdiction, with a requisition that a summons be issued calling upon the person to show cause why that order should not be confirmed, and upon receipt of such documents and requisition the court shall issue such a summons and cause it to be served upon such person.

(2) A summons so issued may be served in the Colony in the same manner as if it had been originally issued or subsequently endorsed by a court of summary jurisdiction having jurisdiction in the place where the person happens to be.

(3) At the hearing it shall be open to the person on whom the summons was served to raise any defence which he might have raised in the original proceedings had he been a party thereto, but no other defence, and the certificate from the court which made the provisional order stating the grounds on which the making of the order might have been opposed if the person against whom the order was made had been a party to the proceedings shall be conclusive evidence that those grounds are grounds on which objection may be taken.

(4) If at the hearing the person served with the summons does not appear or, on appearing, fails to satisfy the court that the order ought not to be confirmed, the court may confirm the order either without modification or with such modifications as to the court after hearing the evidence may seem just.

(5) If the person against whom the summons was issued appears at the hearing and satisfies the court that for the purpose of any defence it is necessary to remit the case to the court which made the provisional order for the taking of any further evidence, the court may so remit the case and adjourn the proceedings for the purpose.

(6) Where a provisional order has been confirmed under this section, it may be varied or rescinded in like manner as if it had originally been made by the confirming court, and where on an application for rescission or variation the court is satisfied that it is necessary to remit the case to the court which made the order for the purpose of taking any further evidence, the court may so remit the case and adjourn the proceedings for the purpose.

(7) Where an order has been so confirmed, the person bound thereby shall have the same right of appeal, if any, against the confirmation of the order as he would have had against the making of the order had the order been an order made by the court confirming the order.

7. The Secretary of State may make regulations as to the manner in which a case can be remitted by a court authorised to confirm a provisional order to the court which made the provisional order, and generally for facilitating communications between such courts.

Power of Secretary of State to make regulations for facilitating communications between courts.

8.—(1) A court of summary jurisdiction in which an order has been registered under this Ordinance or by which an order has been confirmed under this Ordinance, and the officers of such court, shall take all such steps for enforcing the order as may be prescribed.

Mode of enforcing orders.

(2) Every such order shall be enforceable in like manner as if the order were for the payment of a civil debt recoverable summarily :

Provided that if the order is of such a nature that if made by the court in which it is so registered, or by which it is so confirmed, it would be enforceable in like manner as an order of affiliation, the order shall be so enforceable.

(3) A warrant of distress or commitment issued by a court of summary jurisdiction for the purpose of enforcing any order so registered or confirmed may be executed in any part of the Colony in the same manner as if the warrant had been originally issued or subsequently endorsed by a court of summary jurisdiction having jurisdiction in the place where the warrant is executed.

9. The Summary Jurisdiction Ordinance, 1902 shall apply to proceedings before courts of summary jurisdiction under this Ordinance in like manner as it applies to proceedings under that Ordinance, and the power of the Chief Justice to make rules under section seventy of the Summary Jurisdiction Ordinance, 1902, shall include power to make rules regulating the procedure of courts of summary jurisdiction under this Ordinance.

Application of Summary Jurisdiction Ordinance, 1902.

10. Any document purporting to be signed by a judge or officer of a court in England or Ireland shall, until the contrary is proved, be deemed to have been so signed without proof of the signature or judicial or official character of the person appearing to have signed it, and the officer of a court by whom a document is signed shall until the contrary is proved, be deemed to have been the proper officer of the court to sign the document.

Proof of documents signed by officers of court.

11. Depositions taken in a court in England or Ireland for the purpose of this Ordinance may be received in evidence in proceedings before courts of summary jurisdiction under this Ordinance.

Depositions to be evidence.

With reference to Government Notice No. 25 of the 19th of April 1920, the Governor directs it to be notified, for general information, that the special arrangement as regards the issue of permits to persons travelling from the Falkland Islands to the United States of America, published in Government Notice No. 14 of the 17th of March 1919, has been superseded by new instructions requiring that all persons, other than citizens of the United States proceeding to the United States from a British Colony or Protectorate in which no Consular Officer is stationed, should make application for visa of their passports to the United States Consul in the locality through which they pass.

While favourable consideration will be given to any case in which it is shewn that a British subject, arriving in the United States without a visa, has not passed through such a locality, travellers from the Falkland Islands are warned that any one arriving in the United States without a visa may be detained pending the necessary inquiries.

It is therefore desirable that, as far as possible, the journey to the United States should be arranged so as to pass through a locality where there is an American Consul.

2. His Majesty has also been pleased to approve that the privilege of retaining rank by such officers should be extended to be effective throughout His Majesty's Dominions.

STOCK DEPARTMENT,
Stanley,

September 17th 1921.

Sir,

I have the honour to submit the Annual Report of this Department for the season 1920-1921.

I have the honour to be,

Sir,

The Hon.

The Colonial Secretary,
Stanley.

Your obedient servant,

B. A. BROWN,
Chief Inspector of Stock.

Seasons.

2. The late spring and summer were much better than the previous year for stock. The winter has been more severe, with less rain but more snow than usual.

Sheep.

2. I am pleased to be able to report that the general health of the sheep continues to be good.

(a) There has been no infectious or contagious diseases among the animals in the Islands, and the sheep on the East Island are freer from parasitic disease than last year, there being only a few isolated cases of Lice, and this pest bids fair to be shortly stamped out. The West Falklands and the Islands are free from lice.

(b) The total number of sheep in the Islands is now 667,677 showing an increase of 21,939 over last years total, this is partly due to the better lambing season, also to there being no export of sheep, and to the fact that there was no Canning this year, owing to the factory at Goose Green being closed down for the season.

(c) The lambing season was good, some of the stations showing a high rate of increase.

(d) 30 Rams were imported from England, the number would have been larger, but exportation was stopped owing to an outbreak of Foot and Mouth disease.

(e) There were no sheep canned this season, but a larger number were boiled down, the largest percentage being from the East Island.

Cattle.

4. The number of cattle in this years return is 7,674 showing an increase of 307 from last year. On some of the stations new blood is badly needed, and there does not seem sufficient care and thought taken in the production of milk and butter.

Horses.

5. This years return of horses shows the number to be 2,436, showing a decrease of 50 for the year. Last years return was 2,486, a decrease of 235 from the year previous, although 315 were imported in 1919-20. I consider it most important that the farmers should breed their own horses, and not trust too much to importations, as that is both unreliable and also the animals have to become acclimatised, which takes at least a year. If more stallions of useful breed were introduced, and larger and more productive manadas kept, it would certainly make the question of shortage of horses much easier than it is at present.

Exports.

6. No live stock were exported this season owing to there being no boats coming from the Coast.

Cultivation.

7. It is pleasing to note that some stations have been trying new methods of cultivation, and that the cultivation of hay has been persevered with, also that some stations are planting more Tussac, which if planted and protected will give a quantity of valuable feed for the stock.

Annual Stock Return for 1921.

Prepared from information furnished in accordance with Section 13 of
The Live Stock Ordinance, 1901.

THE RUSSIAN FAMINE.

His Excellency the Governor has received from the Lord Mayor of London a copy of the National Appeal, recently issued in view of the terrible calamity which has overwhelmed Russia:-

It is stated that "The Appeals from Russia are unparalleled in their urgency, and in the presence of such misery and want no humane man, whatever his opinion of recent events in Russia may be, will allow his instinct of sympathy to be silenced. Among these hungry and desperate peasants there are millions of children, and of the elders not one in a hundred belongs to any political party. The totally destitute population of the stricken districts, which will perish unless prompt help is rendered, numbers at the very lowest computation ten millions."

Members of the public are invited to contribute to the Fund to be raised locally. Subscriptions will be received by the Colonial Treasurer and forwarded to the Mansion House for the general fund, the administration of which will be under the control of the Joint Council of Red Cross.

The attention of intending importers is drawn to the "Dangerous Drugs Act, 1920" (Imperial) under which the importation and exportation of morphine, cocaine, ecgonine, and diamorphine (commonly known as heroin), and their respective salts, and medicinal opium, and any preparation, admixture, extract or other substance containing not less than one-fifth per cent of morphine or one-tenth per cent of cocaine, ecgonine or diamorphine, is prohibited except under certain conditions. It will therefore be necessary for the importer to furnish Government with a statement in quadruplicate of his requirements, guaranteeing that the consignment in question is required exclusively for legitimate scientific and medicinal purposes, and that re-export is not intended. The importer should also state the name of the firm who is to supply the drugs. These statements should reach the Colonial Surgeon, Stanley, before the 1st June and the 1st December, each year: at the time the importer sends his indent for transmission to the Board of Trade, he should send a copy of his indent to the supplying firm with his usual arrangements as to payments etc.; his firm will then in due course get from the Board of Trade a duplicate copy of the indent with a licence to export from England, the drugs mentioned therein.

TRANSLATION.

MINISTRY OF FINANCE.

BUENOS AIRES,

OCTOBER 20TH, 1921.

In view of the petition of Messrs. W. Allinson Bell and Rodolfo E. Gomez for permission for the vessels of the Johnson Line and Pacific Steam Navigation Company to carry out operations between national ports and those of the Falkland Islands, as well as the reports thereon, and considering,

That as stated by the Solicitor to the Treasury, the juridical position of the Falkland Islands is in no way altered by treating them as foreign land for Customs purposes,

That, moreover, putting aside the aforementioned circumstance, the Coastwise Trade Law cannot be strictly applicable as the navigation between these islands is not carried on by national shipping and therefore this cannot suffer the competition which the said law seeks to prevent.

It is resolved

To temporarily authorize vessels under foreign flags to effect operations between the ports of the Falkland Islands and the others of the Republic.
