① Service advice from Bergen Radio Stn ^{18/11/30}

I asked Mr. Mercer to ascertain by service message whether special rates could be arranged for Christmas Greetings Red 2 is in reply.

2. Half the usual rate for messages not exceeding 10 words including address and signature might be a suitable arrangement. If your Excellency approves a service message in that sense will be sent with the request that the through transmission to the UK might be arranged by the Norwegian Administration.

Arrangements were made with Bergen to transmit & receive these messages between LGB and VPC, including South Georgia. The rate was fixed at 4/4 per message 2/2 being claimed by Bergen and 2/2 being claimed by Falkland Is. There was no reduction in rates to UK or anywhere outside Norway.

I would suggest that on next occasion the Norwegian Administration should be asked if they would accept X.L.H. messages from the Falklands at $2\frac{3}{8}$ for 10 words made up as follows:

4/4 between Falklands and Norway of which this Government would get 2/2.

3/4 for 10 words at usual cable charge of 4/4 between Norway and UK.

Govt. telegraphs of Norway agree to XLH Service being extended to Falkland Is. on same terms as whales. The Service may also be extended to U.K. at the rate of $4/4$ plus cable charge of $3/4$ for a ten word message.

Bergen asks us to express our opinion as to what the XLH message to U.K. are to be - what tests would we suggest using?

Most Colonies about Xmas time arrange for long-fide cables of Xmas greeting to be sent at a very cheap rate. Could we not do this also? Please send to SgD for his views and remarks & return in due course with yours added.
