on his visit to South Georgia, December, 1959.

(Original filed in 1022/B)

Application for British Naturalisation.

Dr. Sustring's application now falls away. He has told Salvesen that he wants to break his contract and get away from South Georgia and whaling as soon as possible. He does not meet the residence qualifications and in any event is now considering emigrating to Canada. He quite understood that we could not proceed with his application.
