THE ASSAULT-AT-ARMS.

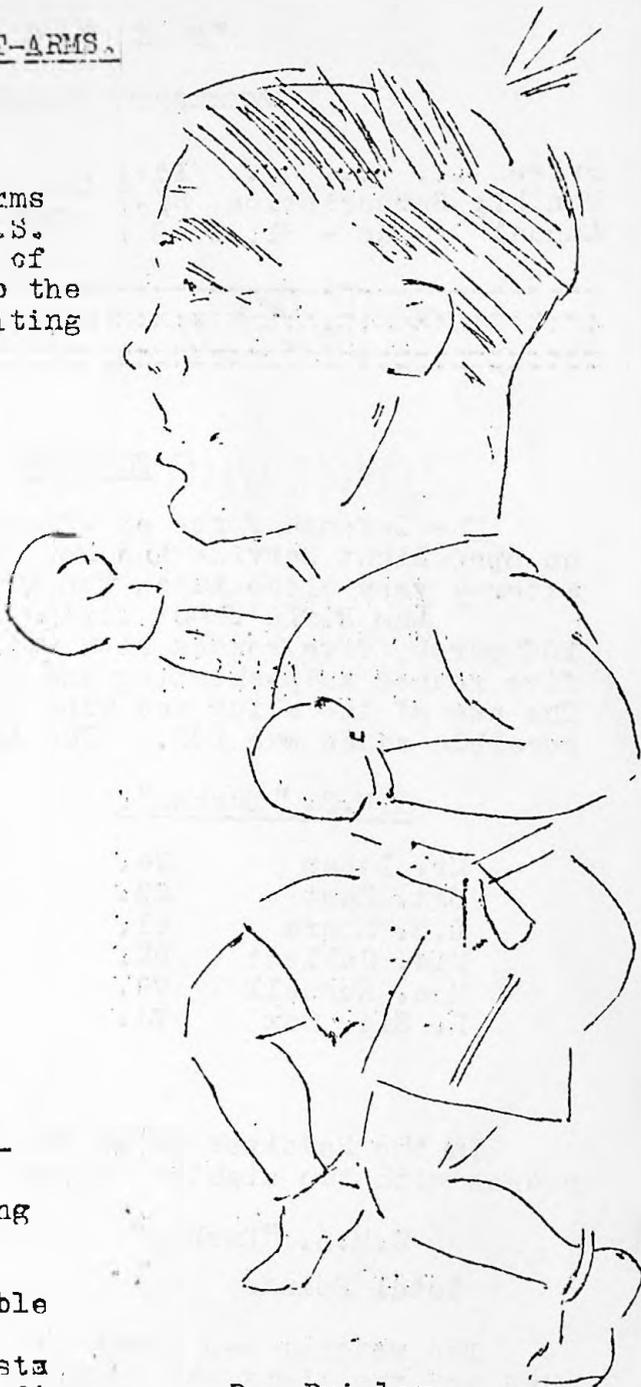

Always a popular event in Stanley during the stay of His Majesty's Ships, the Assault-at-Arms given in the New Gymnasium by H.M.S. "Durban" with the kind permission of the Commodore, was no exception to the rule and was perhaps the most exciting and interesting presented to the Islanders. The performance took place last night when there was a large attendance. Among those present were His Excellency the Governor, the Commanders of H.M.S. "Durban", the Hon. J.M. Ellis (Colonial Secretary) and Major the Hon. J. Innes Moir.

The programme opened with three boxing bouts, two being fights between contestants from the Ship and the R.R.S. "William Scoresby". In the first Mr. Ginger retired leaving the ring to Sub-Lieut. Hammond, in the first round; and in the second - a four-round contest (2 minutes) - Mr. Bessell of the Ship beat Mr. James of the "Scoresby" after a good 'scrap'. The remaining contest between A.B. Boswood and Boy Brimley of the Ship was an exhibition bout.

Perhaps the most interesting and instructive event of the evening was the gymnastic work of Ldg. S. Burley P.M.P., A.B. Fielding and A.F. Newman; the first-named appeared in a solo effort on the horizontal bars; giving a remarkable display. There is no doubt that the work of these efficient gymnasts captured the attention of their audience and the applause they received after each item was thoroughly deserved.

The Drill Display by a squad from the Royal Marine Detachment of the Ship was also deservedly applauded. The precision of the movements could not have been more perfect. A word may now be written praising the Royal Marines' Band whose selections were an added attraction. Great enthusiasm prevailed in the sabre, foils and bayonet contests between A.P. Newman & L.S. Moore, Mid. Hallett & E.S. Burley, and A.B. Sweatman & Mrs. Baker. The best contest, however, was between Mid. Hallett & L.S. Burley won by the former by 3 - 2 in hits.

At the conclusion His Excellency spoke a few words emphasising that the outstanding feature of the Display, such as they had been witnessing was its attraction for the young folk, particularly to the boys who he was sure could see that they could not do those exercises with such grace and ease unless they lived clean lives. One always had to be in good form and fettle, particularly for boxing which was a splendid exercise.

Boy Brimley.

WEST STORE NEWS AND CHIT CHAT.

Chatterbox Page.

We are glad to take this opportunity of wishing all our customers and friends a very happy and prosperous New Year and have much pleasure in advising the following price reductions in spirits as a New Year gift. In doing this we would like to emphasise the fact that this gift is equivalent to a substantial cash distribution, as duty on our entire stock has been paid at the old rate, and we feel sure that this gesture of goodwill on our part will be appreciated.

We thank all our customers for their support during the past year and hope that during 1932 this will be continued and increased thereby enabling us to offer better and still better service than before.

LAST NIGHT'S CONCERT.

The Town Hall was crowded for the Variety Concert given last night by H.M.S. "Durban" with the kind permission of Commodore R.H.O. Lane-Poole, O.B.E., and everybody spent a thoroughly enjoyable two hours. The programme was admirably arranged and excellently carried out, and since this was the first effort of the Concert Party on this commission the finish and stage presence of those taking part was admirable. With the talent at their disposal future audiences can look for even better performances than the one which gave so much pleasure to the people of Stanley last night.

First of all one must mention the delightful selections rendered by the Royal Marines' Band under Bandmaster J. Woodcock - the overtures and music during the interval added special charm to the performance. The next item was the rendering of songs by L. Davies whose rich and light baritone voice immediately brought him to the fore as a singer of no mean accomplishment. R. Marsden's realistic recitations were well applauded while R. Sweatman as Mrs. Uggins and later as a Careful Country Parson brought the House down. K. Grant, as the programme stated, was an enthusiastic entertainer - most! Then there was Professor Zoffsko and His Manager who created quite a 'buzz' with novel thought reading exploits. A refreshing touch was effected by L. Hodson, W. Phillips, H. Beer and L. Burleigh three of whom were later seen in a contrasting scene with A Dismal Darkie (J. Sullivan). Two of the most interesting items were the Meanderings of Monte realistically portrayed by Capt. Pym R.N. and the Illuminated Club Swinging given by L. Burleigh - the applause they received left no doubt as to their popularity. Others who so ably assisted in the success of the concert were K. Sommerton & J. Hodson at the piano, Messrs. Toogood, Dewey & Reid who were in charge of the lighting effects, while the the highest praise is due to Lieut. W.F.R. Segrave (the producer), L. Davies (the Musical Director) and R. Sweatman (the stage manager.)

At the conclusion a few words of appreciation were expressed by His Excellency the Governor for whom three hearty cheers were given on the calling of Commodore Lane-Poole.

"SMASHER" BIGGS STILL SMASHING.

Keeping His End Up At 73.

We are indebted to Mr. A.F. Cobb of "Woodview", St. Botolph's Road, Worthing, for the following interesting news item :-

"I thought that perhaps the following incident might be of interest to the numerous relations and friends of Fred Biggs (commonly known as 'Smasher' Biggs when he worked in the Falkland Islands Company's Camp and on Lively Island before going to Patagonia, where he has been a farm manager now for some years.)

"He was waiting at a rather busy corner in Worthing one day in August to catch a 'bus. A cyclist was tearing round the corner followed by a motor car, and an old lady in a bath chair was also cruising in the vicinity. Fred Biggs said that he saw in a flash that he would be bowled over by the cyclist and that when on the ground the car would go over him and probably kill him. He also saw that if he could get in the first blow and wreck the cyclist he would stand a sporting chance of continuing his journey in a 'bus and not in an ambulance or hearse.

"Fortunately he was carrying an umbrella and he jabbed this through the front wheel of the bicycle. The cyclist shot up sky high and when he came down to earth again picked himself up, saying to Fred Biggs 'Well you're damned smart for an old man' to which Fred Biggs (who is 73) replied 'I have to be with people like you about.'

"The old lady in the bath chair said 'You did quite right sir' and the 'bus conductor, who had just driven up, said he had seen the whole incident and congratulated Fred Biggs on his escape. When I asked him what became of his umbrella, he admitted that it was 'torn a bit'."

FALSE RUMOUR DISPELLED.

The "Daily Mail" motoring correspondent states : "I am able to dispel the rumours which have gained ground in certain circles that the Anglo-American oil Company, one of the world's three greatest distributors of petrol and oil, is to go out of business in England having suffered from the onslaught on the market by the independent companies which sold petrol at 'Cut prices' during the past summer.

"Also that this Organisation rejected an invitation to join a 'Shell' and 'B.P.' merger. Shell Mex and British Petroleum have linked up and are already benefiting from the economies which have resulted."

AMERICAN AIRSHIP TO VISIT BRITAIN ?

A message from London states that there is every possibility that the new American Naval Airship "Akron" may visit Britain next summer. As several long cruises are included in her programme the English friends of Colonel Deeds, the principal United States organiser of the commercial aspects of Airship development, have been trying to persuade him to use his influence with the Navy Department to this end.

SPECTACULAR DRAMA POSTPONED.

3,000 holiday-makers were turned away from the London Hippodrome last Saturday when they arrived to take their seats for the new spectacular drama "Bow Bells" which was postponed at the last moment owing to mechanical difficulties.

Murray Anderson the famous Scottish-American producer was specially brought from America to produce this review and states that he found it so elaborate that it was impossible to work the actual scenery in the space available.

Mr. R.H. Gillespie the managing director of Moss's Empires said that the stage of the Hippodrome is not big enough to accommodate the production on the scale originally conceived. The wings are stacked so closely with scenery that there is scarcely an inch intervened between one screen and another.

It is said that it was tremendously difficult to find the £700 required to refund the cost of the advance bookings as the banks were not open. Appeal had to be made to Box Offices in other theatres for ready money.

CONTRACT BRIDGE CONTEST.

With the half-way rubber passed in the Contract Bridge Contest the Culbertson team has a lead of 10705 points over Messrs. Lenz and Jacoby. On Tuesday night Culbertson playing with Mr. Lightner who is deputising for Mrs. Culbertson had his former lead of 11120 points reduced by 415.

There was bright, brilliant and indifferent play with some startling penalty losses. Messrs. Culbertson and Lightner suffered most, the former going down a hundred points on a five of diamonds call when vulnerable.

Seventy-eight rubbers have now been played out of 150, Mr. Culbertson winning 42, Lenz 36. Of the games Culbertson has won 105, Lenz 93. Altogether 475 hands have been dealt, nine of which were thrown in.

BANK FAILURES IN U.S.A.

The Annual report of the Currency Comptroller at Washington, to the House of Representatives, reveals that for the year ended October 31st last, 2,242 United States Banks with aggregate deposits of over 40<sup>0</sup> millions sterling failed.

In larger cities only 37 banks with capital of over £200,000 failed.

The crashes are not attributed entirely to economic depression but to "the continuation of the conditions existing for over a decade, accelerated by the intensification of adverse economic conditions confronted by the banks in rural districts."

TO TRISTAN DA CUNHA.

A message from Cape Town reports that H.M.S. "Carlisle" is loading stores at Simonstown for the island of Tristandada Cunha.

The cargo includes presents to the islanders from the King and Queen. Tristan, which is the loneliest place in the British Empire has not been visited by any ship (so the message states) for two and a half years.

THE 8TH DECEMBER COMPETITION.

Result Of "Stanley" Cup Shoot.

The above annual competition which was postponed on the 8th of December owing to the inclement weather prevailing, was eventually fired off on Sunday, the 3rd January. It was an ideal day for shooting and some good scores were returned. 2nd Lieutenant A.I. Fleuret brought back a card registering 97 points which won the dual event - the Stanley Cup and the McAtasney Handicap Cup. Twenty-eight members took part in the Shoot. This year the competition was open to retired members of the Force. The results were :-

GANDHI AT WORK.

The "Daily Telegraph" Bombay correspondent states that the Viceroy, Lord Willingden, is returning to Delhi from Calcutta on Saturday next.

The Viceroy's Executive Council will probably meet on Sunday to formulate the final reply to Gandhi's rejoinder.

Meanwhile the Congress Executive has authorised its president, Vallabhdai Patel, to suspend the Working Committee's constitution and to nominate his successor in case he should be arrested.

It is learned that the details of the Disobedience Campaign stipulate that no district shall take up the movement unless the people understand fully the "non-violent" nature of the struggle.

If demonstrations are organised only those should participate who can face lathi charges or even bullets without yielding their places.

Women are generally carrying on the picketing of cloth-shops and the manufacture and collection of salt is being resumed.

All "unjust orders" under the Ordinances, so the Campaign stipulate, may be disobeyed and civil breaches of the general laws and orders "injurious to the people" may be practised.

It is considered the coming struggle is pregnant with worse dangers than the former campaign. It is believed, however, that the Government is more fully prepared to deal with eventualities.

---o---o---

WELSH JEMS.

A message from Aberystwyth states that the aims of Welsh Nationalism unfolded when the constitution of the proposed Welsh National Party was discussed privately by the Executive on Saturday last reveal that full Dominion status is claimed. Other ideals include the repeal of the Act of Henry VIII annexing Monmouthshire County; and its return to Wales.

---o---o---

BARRACKS ON FIRE.

A fire at Risborough Barracks, Shorncliffe, Folkestone, on Saturday, destroyed a number of rooms of the 1st Battalion of the Sherwood Foresters.

The King's and the Regimental Colours with the Army Football Cup and a large quantity of valuable historic silver-plate and curios were saved by the officers and mess staff who dashed into the blazing building regardless of personal risk.

The damage is estimated at 27,000.

WINTER AT HOME.

The northern part of Europe, including the British Isles, is experiencing unseasonably mild weather while in Southern Europe the winter is extremely vigorous.

In London last Saturday night was the warmest for sixty years while trains were snow-bound in Hungary and railways and roads were impassable in Jugo-Slav via. The unprecedented cold has caused a number of deaths in Spain and Portugal, and peasants have been frozen to death in Rumania.

FALKLAND ISLANDS DEFENCE FORCE

RIFLE ASSOCIATION.

A Club Shoot was held on the New Range on Saturday last but owing to a tricky wind the scores were not up to the usual standard. The best returns were :

	300.	500.	600.	Total.
Pte. W.T. Aldridge	29	30	31	90.
Sgt. J.R. Cleadell	28	29	30	87.
Pte. C. Thompson	30	30	27	87.
Mr. J.W. Grierson	30	27	29	86.
Cpl. L. Aldridge	29	29	28	86.

Members are reminded that the Falkland Islands Company's Cup (Handicap), will be shot off on Sunday the 17th instant, shooting to commence at 10.0 a.m. sharp.

A Committee Meeting will be held at Headquarters this evening at 8.30 p'clock.

GANDEHI IN PRISON.

A press message from Bombay states that Mahatma Gandhi and Vallabhai Patel arrived under escort and in motor cars at Yeravda Gaol, near Poona on Tuesday.

The Government of India has struck another blow at the forces of disorder by declaring the Working Committee of the All India Congress to be an illegal organisation throughout India, under one of the new ordinances promulgated on Tuesday. Under them the Rajendra Prasad of Bihar, who succeeded Vallabhai Patel as the President of the Congress was arrested at Patna with several other Congress members.

NEWS IN BRIEF.

Montreal : A Combined Oxford and Cambridge Skiing team beat a team from the Canadian Universities by 3 points against 2 yesterday.

Berlin : A sudden thaw of the deep snow, accompanied by a deluge of rain threatens serious floods in nearly all parts of Germany. The River Rhine at Strasbourg is three or four feet higher than two days ago and the Mosell at Treves four or five feet. The Upper Neckar has risen 16 feet and overflowed its banks in many places. In the Hartz mountains villages are threatened by the swollen torrents.

AGAINST PROHIBITION.

In the House of Commons, during a debate on Prohibition, a Member of Parliament asked : "Does the mover of the Motion know that during the South African War, fifty per cent of the teetotallers in a certain Scottish regiment died ? You may think this is an exaggeration," he continued, "but I knew the man who died."

DARING JEWEL ROBBERY.

George Baker, the manager of A. G. Chalco, the diamond merchant of Maddox Street, was collecting jewels on Monday from a bank thirty yards away where they had been deposited over the week-end when a man jumped from a motor car, crashed the banker's hat over his eyes, flung him to the ground and grabbed his jewel case, making away in the motor car again, all within twenty-seconds.

The bandit got clean away.

Shortly afterwards a man smashed a window in New Bond Street and escaped in a motor car with £2500 worth of jewels.

BRITAIN & DISARMAMENT.

Reduction In Size Of Battleships.

It is understood, says the "Daily Telegraph", that Britain's programme at the Disarmament Conference next month, will embrace proposals for : the reduction in the size of battleships from the existing standard of 35,000 tons to a figure below 25,000 and a reduction in their guns from 16 in. to 12 in. or 13.5 in.; in future cruisers should not exceed 8,000 tons or carry guns over six inches; and the complete abolition of submarines.

These proposals are to be submitted as a preliminary to any serious relief from the burden of naval armaments, and every effort should be made to secure their full discussion.

Hitherto suggestions for the pruning of battleship and cruiser dimensions have been opposed by the United States and for that reason they have not been persisted in.

At the forthcoming Conference, however, the proposals are to be pressed despite instructions reported to have been given by the American Executive to its Geneva delegates that they must resist any cut in the existing tonnage standards for battleships and cruisers.

The British proposal for the abolition of submarines is also to be pressed to a formal debate.

Germany will seek an amendment of the Versailles Treaty which debars her from building her own submarines.

NEWS IN BRIEF.

Washington : The Federal deficit on December 31st totalled 1,345,000,000 dollars as compared with a surplus of 66,000,000 at the end of 1930. The financial year ends in June.

Geneva : In view of the fact that the Japanese have now occupied practically the whole of Manchuria, the Chinese Government has requested an immediate meeting of the League Council. The next ordinary meeting of the League Council is on the 26th of January.

Leicester : Heine Muller, the German holder of the European heavy-weight boxing championship, defeated Reggie Keen, the British Champion, who retired in the fourth round with a cut eye.

THE OUSTRIC BANK.

Misappropriation Of Shares.

Judgment was given in Paris on Tuesday on the lawsuits wherein the banker Oustric is involved.

The court found, says the "Daily Telegraph" that 70,000 shares deposited in the Oustric Bank had been used for the bank's own purposes.

Oustric was sentenced to eighteen months imprisonment and fined 5,000 francs, and M. Erlich, the managing director, received a year's imprisonment with suspended application, and fined 3,000 francs.

Both were charged with abuse of confidence.

GERMANY'S SHORT TERM CREDITS.

Standstill Negotiations Stand Still.

Reuter's Berlin bulletin reports that the German and foreign bankers conducting the "Standstill" negotiations in connection with Germany's short term credits are obviously unable to reach a solution.

A provisional arrangement is, therefore, considered advisable and it is expected that the existing standstill agreement will be prolonged for at least a year with certain modifications.

ALL INDIA CONGRESS CAMPAIGN.

Signs of Widespread Unrest.

A message from Bombay states that 11,000 volunteers have enrolled there and plans have been completed for the boycotting of British undertakings and goods. The hospitals have been equipped to accommodate the injured law-breakers.

The Congress funds are being distributed among private individuals to prevent the authorities seizing them. It is said that the contributions received at Bombay towards the campaign total over £150,000.

Meanwhile the Viceroy, Lord Willingdon, has cancelled his visit to Alwar. Ordinances against dis-order are being strongly enforced. The confiscation of Congress property continues and many more arrests have been effected.

At Benares on Tuesday, it was reported that the police had to fire on the angry crowd which had stoned them. The number of casualties inflicted is unknown.

Impressive military and naval demonstrations are being made in the streets of various cities. At Dacca the police march, headed by the band, quickly ended with a hartal after their progress through a few streets.

At Calcutta and Bombay precautions are being taken to protect prominent Europeans against threats of assassination by terrorists.

In Chittagong the recent ordinances resulted in the formation of organisations by the villagers to combat terrorism.

In Punjab, however, perfect calm prevails.

---o---o---

COMMUNISTS STRUCK BY STRIKERS.

Communist efforts on Tuesday to exploit the strike of the Thames watermen and the Birkenhead dockers ended in an ignominious failure.

Three Reds addressing 2,000 dockers at Rotherhithe, South London, were pelted with bags of flour and red and blue ochre and finally escaped only under police protection.

At Birkenhead the local communist speakers were pulled from their platforms and rolled in the mud. Again the police had to rescue them.

SHIPS OF THE ATLANTIC FLEET.

Visit To British West Indian Ports.

On Tuesday and Wednesday the ships of the Atlantic Fleet left the home ports of Portsmouth, Chatham and Devonport to concentrate for the Spring Exercises.

For reasons of economy the cruise has been somewhat curtailed and the ships will return to England about the middle of March - a fortnight earlier than usual. The exercises will be carried out while the Fleet is proceeding south towards Gibraltar and in a few days a detachment, consisting of His Majesty's Ships Hood, Repulse, Dorsetshire, Norfolk, Exeter and York, under Rear-Admiral Tomkinson, will leave the main fleet on a visit to the British West Indian Ports.

THE THIN EDGE OF THE WEDGE ?

U.S.A. & Drink.

At the forthcoming Democratic National Convention in New York, John Rascob, the Party National chairman will ask the Convention to adopt the resolution that " Nothing in the United States Constitution shall prevent any State from taking over the complete control of the liquor traffic in its own territory."

If the Convention adopts the plan it is estimated that it will take four years to carry out the necessary referenda in the various States and so bring about the demise of prohibition.

TRUCE IN HARBIN BROKEN.

A press message from Mukden reports that the breaking of the truce whereunder the Russians left barricades in the main street of Harbin has resulted in the police organising a man hunt throughout the city for the ring-leaders of the revolution against official oppression.

It is reported that indiscriminate firing is general and one child has been killed by police bullets. Chinese students who have secured arms have joined the police and soldiery in attacking the Russian quarter. Martial Law has been declared.

FOUR SKIERS LEFT TO DIE.

Party's Callous Action.

A press message from Vienna reports that, after leaving the Krumbach, on the Hoch Alps on Monday night a party of seven German skiers saw another party of four, including a girl, buried in an avalanche.

Instead of going to their rescue or returning to Krumbach for help they continued on their journey and only reported the mishap when they reached Mittelberg six hours later. A rescue party left immediately but was held up constantly by avalanches and did not reach the scene until late on Tuesday when they found the four bodies beneath five feet of snow.

GOLF.

Red Cross Society Trophy.

A handsome Trophy, an illustration of which is given below, is offered for competition by the Joint Council of the Order of St. John and the British Red Cross Society, to the Stanley Golf Club, to be won outright.

The Trophy consists of the shields of the Order of St. John and the British Red Cross Society richly enamelled, supported by golf clubs, a scroll and laurel leaves, surmounted on a golf ball which rests upon a heavily silver plated plinth. The silver work is carried out in bold relief.

The Committee has decided that the Trophy is to be played for under the following conditions :

At any time until the end of February, 1932, any member can take out a card at a fee of 1/-. The form of competition will be 18 holes medal play on full handicap, and the lowest return on handicap at the end of the period wins the Trophy. No restriction is placed on the number of cards a member may take out.

Cards, signed by the Secretary may be obtained from him, or from any member of the Committee, on payment of 1/- per card.

Cards must be signed by the other competitor, and members are asked to return completed cards to the Secretary as soon as possible after play.

A minimum of £3. 3s. is required to be sent to the Red Cross Society, and it is hoped that all members of the Club will support this deserving cause. Any monies received in excess of the above amount will be forwarded to the Red Cross Society.

A "sealed number" Competition will be played on Saturday and Sunday, the 9th and 10th January, 1932, under the usual medal competition conditions, viz: : 18 holes on full handicap. Signed cards are to be handed in to the Secretary or any member of the Committee by noon on Monday, the 11th of January, 1932, and the player returning a score the same as, or nearest to the sealed number will receive the prize. Members may play more than one round over the two days.

The J.M. Coutts' Challenge Cup.

Entries for this competition will close on Noon on Saturday, the 9th of January, 1932. This competition is a men's 2 ball foursomes, 18 holes match play with handicap allowance of three-eighths ( $\frac{3}{8}$ ths) of difference of the combined handicaps.

In addition to the above the following Competitions will take place during the next two months. The Royal Red Cross Trophy; The W. Morrison Challenge Cup - Ladies' two-ball foursomes, 18 holes match play (In February.) The Hay Challenge Cup - 36 holes match play, Open to Ladies and Men (In February.) It has been decided that no competition will take place unless a minimum of 10 entries is received.

It's a shame to throw expensive china at your husband when he comes home late. If you are determined to throw crockery at him use something cheap and nasty. Now we have some real china tea-sets at very low prices for disposal on Saturday. Although they are very cheap they are not nasty, in fact, when you see them you will be very much surprised as they compare favourably with china costing four or five times as much. This is a real bargain and should not be confused with the low priced earthenware sets so often advertised.

PREPARING FOR LAUSANNE.

The Cabinet Committee set up to consider the question of Reparation in view of the forthcoming conference at Lausanne, met on Wednesday, the Chancellor of the Exchequer, Mr. Neville Chamberlain, the Foreign Secretary, Sir John Simon, and Viscount Snowden attending.

Sir Frederick Leith Ross of the Treasury, who is returning to Paris today to resume an exchange of views with the experts of the French Ministry of Finance on the subject, was also present.

The Prime Minister returned to London yesterday morning from Lossiemouth. A full meeting of the Cabinet is expected next week.

SIR JOHN SIMON EXPLAINS.

Emergency Measures Only.

Speaking to representatives of the foreign press on Wednesday, Sir John Simon said that the very stringent action the Government in London had to take lately to maintain currency and to correct the balance of trade was an emergency action to meet an emergency situation.

The Government had not the smallest desire to inflict any injury or inconvenience which could be avoided. It would be a great mistake to suppose these very firm and, in some respects, very severe measures were in themselves part and parcel of a deliberate fiscal policy.

The fiscal policy to be adopted was a matter for future consideration and decision.

CONGRESS HOUSE SEIZED.

Government Action In India.

A round-up of Congress leaders on Wednesday resulted in fifty arrests being made in Bombay. Congress House has been seized and the campaign funds at the banks have been commandeered.

Meanwhile business in Bombay is at a standstill and the Indian owned foreign cloth shops are being picketed. The "untouchables" are making a common cause with the agitators in Bombay but elsewhere they are threatening direct action to suppress civil disobedience.

It is now learned that two persons were killed and a hundred injured when the police fired on the mob at Benares. Many arrests have been made at Cawnpore, Poona, Surat and other places. The Salt Laws have been broken at Karachi where six volunteers gathered salt on the seashore and afterwards sold it at a public meeting. The police did not interfere.

A REMARKABLE DUEL.

Two Italians Blind Each Other.

One of the most remarkable duels ever fought has just taken place at Afragola, near Naples.

The duellists were both twenty-two years of age and both were named Jazzetta, although they were not related. They agreed to settle their quarrel with shot guns loaded with small shot.

Having taken up their positions they fired at one another simultaneously. No further exchange of shots was possible. In each case the duellist had aimed at his opponent's face and both were blinded.

The cause of their quarrel was a woman.

HOLE-IN-ONE RECORD.

Thrice In One Day In Same Course.

Recently, three golfers, playing separate matches, each accomplished a hole in one on the same day on the Addington Club's new course.

The players were Alan Pray, who holed his tee shot at the ninth hole (165 yards), and H. Carver and R.E.M. Casares, who accomplished "the perfect fluke" at the eleventh, a hole of 135 yards. Mr. Casares, an Argentine merchant who usually makes himself responsible for the welfare of Argentine professionals who visit England, was engaged in a round with Lord Tennyson.

There is an instance on record of a player accomplishing a hole in one three times during a round and there have been several cases of two such feats in one game, including "halves in one", but there is no precedence for the happenings at Addington.

Further action, it is understood, of a more sweeping character has also been taken the details whereof have not yet been revealed.

The Nine-Power Treaty provides that none of the signatories shall acquire special privileges or rights in Manchuria to the detriment of any other power.

WHOLESALE ASSASSINATION PLOT DISCOVERED.

5 Bombs In Darjeeling Train.

An Indian plot for the wholesale assassination of Europeans has been revealed at Patna.

On Thursday the police found five live bombs in a first class compartment of the Darjeeling express when it arrived at Calcutta.

Hazarilal, one of the eleven Indians accused of revolutionary conspiracy, turned King's evidence and stated that a terrorist gang had plotted to fling the live bombs into an English Church at Sunday evening's service, but he persuaded them to abandon the project.

Later they decided to blow up the European Club but the plot was frustrated by a close watch being kept on the Club.

The Viceroy, Lord Willingdon, granted the first of a series of interviews on Thursday with the moderate Indian leaders who attended the Round Table Conference.

It is denied that the Viceroy intends to call a conference of the political leaders.

The latest world's record to be broken in sport is the proposal of the French Government to vote a credit of 2240,000 to the French national sports development scheme. There is little doubt that this is the biggest windfall the sport of any country has ever received from a Government.

The intention to press for the voting of this sum was revealed by the Prime Minister, M. Laval, when he received a delegation of the National Sports' Committee recently.

Most of it will be applied to the provision of sports grounds all over the country.

ONE-DAY "WET" CRUISE.

1,700 Americans Spend £10,000

On Drink.

One day cruises from New York and back have been inaugurated by the Red Star's "Belgenland". This has established a precedent which is likely to lift the shipping companies out of the depression of the northern winter, if Prohibition or Customs officials are not able to interfere.

On one occasion when the "Belgenland" steamed out of harbour at an early hour, she carried 1,700 thirsty New Yorkers. They had paid £2 each for the privilege of going to sea beyond the twelve mile limit for a few hours and drinking their fill of real beer and liquor.

The "Belgenland" has six bars, and, according to witnesses, each was crowded four and five deep for the duration of the voyage, which ended about midnight.

Some £10,000 was spent for liquid refreshment alone, it is estimated.

### LIFE OF ADVENTURE ENDS AT 101.

#### Visit To The Falklands.

After a life of many adventures and escapes in different parts of the world, Mrs. Birt has died at her home in Fernshaw road, Fulham, at the age of 101.

She retained her faculties to the last. Her four children were with her when she died.

At the age of three she was kidnapped with her twin sister, in one of the main streets of Bath in daylight. They were only released when the town crier shouted that a reward would be offered for their recovery.

When the February revolution of 1848 broke out she was in a convent school in France. The Sister Superior took her to Havre and placed her on board an English-bound fishing smack. A few months later she met in Brazil, Dr. Birt, the man whom she afterwards married. She married the doctor when she was only eighteen.

Later she accompanied her husband to the Crimea where she met Florence Nightingale, who tended her at the birth of her first child.

She went to Chili and was in the bombardment of Valparaiso. She was put in a windjammer with another woman and rounded Cape Horn in a terrible storm. So badly had the ship been buffeted that it was forced to put into the Falkland Islands in order that the damage could be repaired. After an adventurous voyage during which the two women took turns to hold the binnacle lanterns over the compass, the vessel reached England.

### EXPRESS CRASHES INTO LORRY.

#### Cylinder Punctured.

The 12.45 London-Worcester express came dangerously near to being derailed at Brown's Crossing near Evesham, recently, when it was travelling on a long, straight section of line and crashed into a lorry.

The front of the engine was swept away, and a cylinder of the engine was punctured. The train pulled up half a mile away, and after a stay of about twenty minutes continued on its way. A piece of wood was used to plug the hole.

Although the front of the lorry was broken up, the driver escaped unhurt. The radiator lamps and other parts of the lorry were carried as far as 700 yards along the line.

Less than a year ago the same train met with a similar accident near Evesham.

In regard to the note which the United States Government has sent to the Japanese and Chinese Governments with reference to the recent events in Manchuria, calling their attention to the terms of the Nine Power Treaty and the Kellogg Pact, it is stated in London that the American Government's proposal to send the note was communicated to Sir Ronald Lindsay, the British Ambassador at Washington a few days ago and a copy was sent to him at the time of its despatch.

It is understood that similar action with the other Washington representatives of the countries party to the Nine Power Treaty has been taken.

It is recalled that at the recent League Council Meetings on the Manchurian situation, the Japanese delegates gave definite assurance to the League that Japan would observe the principle of "the open door" to which the American note calls attention.

As a non-member of the League the United States is in a somewhat different position from the other interested powers.

The question is receiving the consideration of the Foreign Secretary and the French Ambassador, M. Fleurbaey, has called to see him concerning it.

M. BRIAND RESIGNS AGAIN.

The resignation of M. Briand, the French Foreign Minister, has been tendered to M. Laval, the Premier, but it has not yet been accepted.

This step would create a second vacancy in the Cabinet and it is expected that the Premier will tender the Cabinet's resignation to President Doumer as a preliminary to its reconstruction.

In view of the forthcoming Reparations and Disarmament Conferences it is desired to have a Cabinet on the broadest possible lines and M. Laval is therefore anxious to include radicals.

The radical press, however, oppose this course because the party wishes to have a free hand at the February elections. If the radicals stand out the premier would reform the Cabinet on the present lines.

M. Laval is to decide the matter by to-day (Tuesday.)

LOVE DRAMA'S HAPPY END !

Two Stars Marry.

In Vienna on Sunday the announcement was made that Grete Maren is marrying Kurt Daehn, both being well-known stage stars in that city. This decision brings about a happy conclusion to an astounding real life drama of love and jealousy.

The couple fell in love four years ago. As time passed Maren's increasing popularity and many admirers aroused Daehn's jealousy and caused constant scenes between them. In the summer of 1930 Maren broke off their friendship.

Daehn persisted in visiting her at the theatre but the quarrels continued and after being refused admission to her villa waylaid her and fired five shots into her.

Maren's life was long despaired of but she recovered and returned to the stage. Daehn was sentenced to two years' imprisonment but was released after one year and went to Berlin to work in a film studio. The couple met there two months ago and returned together to Vienna on Saturday.

GERMANY GIBS.

Premier & Britain's Policy.

Mr. Ramsay MacDonald, the Premier, interviewed on Sunday regarding Chancellor Bruening's statement that Germany's position renders it impossible for the continuation of "political" payments and that any attempt to maintain such a system must lead to disaster for Germany and the whole world, said that the British Government's policy could only be announced at the proper time.

Meanwhile, the Premier pointed out, that in view of the economic conditions disclosed by the Experts' Report and of Germany's internal political problems, it was not unlikely that such a declaration would be made at the Lausanne Conference.

The fact that the statement had already been made rendered the conference even more necessary for it was impossible to leave things as they are.

The present situation was the result of international agreements and an international conference therefore, was necessary to deal with them.

In Paris the French Finance Minister, M. Flandin, declares that if Dr. Bruening persists in his resolve not to make further payments the Lausanne Conference is unnecessary and he would not attend.

A message from Berlin states that the entire German press approves of the Chancellor's statement and declares that the excitement the statement has aroused in some foreign countries was unwarranted as the Chancellor had merely re-affirmed previous utterances.

Financial circles in New York hold that the German movement has been made for bargaining purposes and that some payments will eventually be agreed upon.

SPAIN & ROME.

Tendency To Move Right.

Miguel Maura, one of the Minister's of the first republican government of Spain, speaking at Madrid on Sunday, said that if he was returned to power in the next government he would establish a new concordat with Rome if the Vatican proved "reasonable".

Attacking the agreement with the Catalans, Maura declared that the present Cortes was completely divorced from public opinion.

His speech will probably stimulate a swing to the right which is becoming noticeable throughout the country..

ENTOMBED MINERS RESCUED.

Seven of the fourteen men entombed to a depth of over 2,000 feet in a mine near Bauthen six days ago, says a message from Berlin, were rescued alive on Sunday. They were very weak and unable to give any account of their experiences.

It is now hoped that the remaining seven will also be rescued alive.

NEW FRENCH GOVERNMENT.

Hope Disappointed.

M. Laval's disposal with his view of reconstructing the French Government to fill the vacancies caused by the death of M. Maginot, the War Minister, and the resignation of M. Briand, the Foreign Minister has been made known.

In view of the forthcoming Reparations and Disarmament Conferences the Premier, M. Laval, desired to enlarge the basis of his ministry but he has been disappointed in this hope.

It is stated that President Doumergue will ask M. Laval to form another government. The Premier, will, it is believed, take the Foreign Office himself and make M. Tardieu, the War Minister.

As the formation of the new Cabinet will take some time the opening of the Lausanne Conference which was fixed for January 25th, is likely to be again delayed.

NEWS IN BRIEF.

- Constantinople : The Extradition Treaty and Commercial Convention recently concluded between Iraq and Turkey was signed at the beginning of the week.
- Paris : An Italian student on Tuesday, shot and wounded in the leg the Italian Consul S. Gentili  
The consul was alighting from a taxi-cab outside the consulate when the man rushed up and fired four shots, three of which luckily missed. The assailant was caught after a chase and gave his name as Michele Richichli, born at Palermo 1899.
- New Delhi : The Viceroy, Lord Willingdon, has conferred with six members of the Round Table Conference and had a long interview with the leaders of the Liberals. It is generally recognised that the Viceroy and the Government are determined to get the Round Table Committees to work soon.
- Allahabad : Ten people were injured including some women when a procession, headed by women and children attempted to demonstrate before the Indian Club on Sunday.
- Karachi : Over the week-end twenty-eight persons were injured, three seriously by police lathi charges following the holding of prohibited public meetings.
- Dunedin : In this New Zealand city on Saturday last when demands for a relief from the Hospital Board were refused, the unemployed made two rushes on one of the city's largest stores. The police and civilians, by linking arms, formed a cordon and prevented the stores from being looted. Frustrated in their attempts, the angry demonstrators turned and wrecked a lorry.
- New York : The Cuthertson team has won the 150 rubber contract bridge match by 8,980 points. The result is inconclusive as a demonstration of two rival systems.

### THE FRENCH CABINET.

The French Premier, M. Laval, whose Cabinet resigned on Tuesday, was entrusted on Wednesday evening with the task of forming a new government, says the "Daily Telegraph". He was expected to complete his mission during the night.

It is understood that the Cabinet is being formed without M. Briand as the Foreign Minister; M. Briand has signified clearly his intention to retire from public life for the present.

M. Laval himself is expected to take the Portfolio for Foreign Affairs and that M. Tardieu will be the War Minister. M. Tardieu will probably be succeeded at the Ministry of Agriculture by a senator while M. Cathala will take M. Laval's old post of Minister of the Interior. The rest of the Cabinet will probably remain as hitherto.

### CIRCUS DESTROYED BY FIRE.

\$100,000 Worth of Damage.

The Sarassani Circus, one of the largest in the world, which was occupying Berchomplain, near the raparts of Antwerp, was practically destroyed by fire on Wednesday. Costumes alone worth \$28,000 were destroyed.

The straw bedding of twenty-two elephants caught on fire causing panic among the beasts. Attendants liberated eleven from foot-chains but the remainder could not be reached and were fatally burned. One liberated beast, rushing about mad with terror, fell into a fifty-foot ditch and had to be destroyed.

Fortunately the fire failed to reach the other animals, sixteen tigers, fifty-seven lions, twelve polar bears and a large number of horses. In a few cases straw caught alight but the animals did not suffer only being alarmed by the smoke.

Armed attendants rushed to the managerie fearing panic among the animals but there was none except in the case of the elephants.

The total damage is estimated at over \$100,000.

### HITLER'S BOMBSEDL.

The Reichstag Deputy, Herr Frick, addressing a meeting at Kompton, Bavaria on Thursday, said that if the Bruening Government had not disappeared by the date of the Presidential election the National Socialists would nominate from their own ranks a man in whom they had undoubted confidence.

This announcement has caused consternation in Berlin. This is an apparent disavowal of Hitler's half promise to Chancellor Bruening to support Hindenberg's candidature and it is still more astonishing because of Frick's presence at the recent discussions between Hitler and Bruening.

BOMBS FOR DUCE & KING OF ITALY.

Police Find In Mail Bags.

When the steamship "Excalibar" anchored at Naples on Monday the police went on board and sequestered 5,000 parcels and 1,000 mail bags in which were discovered three bombs, one addressed to the Premier, Mussolini, and two to the King of Italy.

The mails were taken to an empty warehouse on the Marinellas Beach for examination. The packets containing the infernal machines looked like ordinary parcels from California but on each the writing was almost illegible.

A settlement was reached on Tuesday at Blackburn in the strike against the revised hours of work and the wages at Dugdales' Spinning and Weaving Mills.

Before the settlement was reached the mounted police had to suppress riotous crowds. Forty men who had been working at Greatt Harwood had to be conveyed to & from Grange mill by motor-coach. All along the five miles' route a crowd of people shouted "traitors", "Black-legs" and the coach was met at the market square by a mob of 20,000.

Ugly rushes were made but the police, reinforced from the neighbouring towns eventually escorted the men to their homes.

No Release For Gandhi.

The first bonfire of foreign cloth since the Civil Disobedience Campaign has been resumed was kindled in Bombay on Tuesday evening.

At Calcutta, Bimal Das Gupta, the Bengal youth who has already been sentenced for the attempted murder of Villiers, the President of the European Association, was tried at the High Court on Tuesday for the alleged murder of James Poddie, the District Magistrate, at Midnapur in April last.

Three boys who were eye-witnesses declared in the court that they were not present when Poddie was murdered and the Government case fell through and had to be withdrawn.

It is learned in Bombay on authoritative information that there is not the least likelihood of the Government offering release to Gandhi on parole.

JAPAN'S POLITE REPLY.

A Tokio correspondent writes that Japan's reply to the United States note invoking the Nine Power Treaty on Manchuria, reaffirms the open door policy agreed upon in Manchuria.

The note is couched in coldly polite terms and concludes "It is agreeable to be assured that the American Government is devoting in a friendly spirit such sedulous care to the correct appreciation of the situation."

This is thought to be a hint of resentment at the course followed by Washington.

ITALIAN FINANCE EXPERTS HOME.

Governments In Accord.

Professor Beneduce and Signor Ruti, the Italian financial experts who conferred with the British Chancellor of the Exchequer on Friday, returned to Rome on Sunday.

Sir Francis Leith Ross, the British Treasury expert, stated that the British and the Italian Governments were in close accord on the policy to be pursued at the forthcoming conference.

France & America At Variance.

France's "sacred rights" to Reparations, claimed by M. Flandin, the French Minister of Finance, have been followed by a declaration of America's "sacred rights" to War Debts, by Senator Reed, the Republican representative of Pennsylvania. The latter said that constant reports from Europe were attempting to class the debts due to the United States with Reparations and this did not strike a responsive cord in America.

Senator Reed said "there should be no repudiation of the principle that war debts are a valid and sacred obligation and these obligations are individual to each nation and not collective to debtors as a whole or to be dealt with in that fashion."

U.S.A. NOT TO ENTER IN DAVIS CUP.

Financial Depression A Cause.

It may now be stated that the Executive Committee of the United States Lawn Tennis Association has decided not to enter an American Davis Cup team at Wimbledon this year, says the "Daily Telegraph".

This decision, which will be regretted by all British players, is due to several reasons the chief of which is reported to be the present general financial depression.

The Committee recommends that the American team be limited to four players and the captain shall arrive in France about the 6th of July, after Wimbledon closes.

The American women's team, however, is understood to be defending the Wightman Cup at Wimbledon. Its members will include Mrs. Wells Moody and Miss Jacobs who will afterwards compete in the British women's championship.

"HERESY HUNT" IN CAPE TOWN.

The great heresy hunt in Cape Town, which has shaken the Dutch reformed church to its foundations and has been in "operation" since 1920, ended on Friday when a full bench of the Cape Supreme Court upheld the appeal of Professor du Plessis against his conviction for heresy at the hands of the Dutch Reformed Synod.

The judgment re-instates the professor in the Theological chair from which he was dismissed, and it is regarded as a triumph for modernism and will probably save a tremendous split in South Africa's premier church.

Had the verdict been reversed the church would have been bound to expel the professor's large gathering.

ORLITEPATING THE CONGRESS MOVEMENT ?

Gandhi's Wife Arrested.

A message from Surat states that Mrs. Gandhi, the Mahatma's spouse, who was arrested at the end of last week, has been sentenced to six weeks' simple imprisonment for participating in the Civil Disobedience Campaign.

In Madras and order has been issued to counter the police method of using water hoses to disperse the Congress picketers since they have taken to wearing mackintoshes and wellingtons.

Press information from Bombay makes it clear that the Congress movement there is being steadily driven under-ground by the new measures. Soon it may practically disappear but there will remain the possibility that it will burst out again unexpectedly with tremendous violence.

The above opinion, which is expressed by an authority, is fairly widely held.

An intensive drive against the Congress is being launched by the coming into force of the Government's new ordinances which attack the movement with unabated measures.

Few of the leaders of any importance remain out of gaol and little is to be seen - beyond sullen picketers outside the shops in the European quarter and a few listless high caste hindu women picketing in native bazaars. There are few signs of hard times or misery among the crowds.

One cannot fail to be struck with the numbers of opulent looking automobiles - nearly all american made.

FRANCE & THE U.S.A.

A correspondent of the "Daily Telegraph" writes that France would only consent to waive her reparation claims under the heading which has now become the subject of protracted conversations, from Germany if America could declare herself willing to forego the payments in respect of France's War Debt to America.

In other words before reducing Germany's debt France will want to know beforehand definitely that America is prepared to reduce their own claim on France.

MORE TROUBLE

IN COTTON AND WOOLLEN INDUSTRIES.

A Manchester message states that serious trouble is threatened in both the woollen and Cotton industries.

The General Council of the Weavers Amalgamation has declared that a "first class crisis" is likely to result from the proposals of the Burnley firms to institute more looms per weaver.

While negotiations on the question have been continuing for a long time a number of weavers have broken away and accepted work at more loom mills.

As regards the woollen industry the National Association of the Unions in Textile Trade has hinted at joint action with other sections of the textile industry to fight "the grave danger" of the extension of the working week from 48 hours to 55.

"MANUFACTURED" GOLD TEST.

In Paris on Saturday at a test in the presence of lawyers, Dunikowski, a Polish chemical engineer, "manufactured" gold and the Maitre Torres declared he was confident that there was no trickery at all. He emphasised his opinion by adding that there was no possibility of fraud.

Dunikowski, who was charged with fraud by the people who had helped to finance the experiments, had the laboratory placed at his disposal by a magistrate.

Following elaborate preparations Dunikowski treated certain kinds of earth and after a complicated process it was discovered that the earth had disappeared and had been replaced by several tiny pieces of metal which, it is stated, have answered the test for gold.

SPINNING.

A consignment of Spinning Wheels and Cards has been now received through the agency of Mrs. D.W. Roberts, who has rendered such devoted and valuable service in connection with the endeavours which are being made to establish and to foster a spinning and weaving industry in the Falklands.

These Spinning Wheels and Cards are offered for sale to persons interested at the following prices which are reduced so as to cover actual cost only and to include no allowance for profit, namely,

SPINNING WHEELS	2l each.
CARDS	3/6 a pair.

That it is possible to offer the wheels and cards at the above prices is due largely to the generous action of the Falkland Islands Company, Limited, in carrying them freight free from Norway to the Colony.

Applications to purchase are invited and will be accepted at the Colonial Secretary's Office, Stanley, either verbally or in writing.

THE NEW WATER TOWER.

Supplies For The Upper Part Of The Town.

The Public Works Department has started work on the foundations for the new Water Tower which is to be erected at the top of Villiers Street, practically the highest point of Port Stanley. The new Tower or Tank, when completed, will be capable of holding 200,000 gallons and as a result the town will have an additional supply of water to last almost a month. More important still, however, is the fact that the Tank will serve the very useful purpose of supplying the highest reaches of the town besides being the means of assuring better protection from fire to property on the top of the hill.

A Windmill will be erected in the enclosure of the existing Reservoir which holds about 350,000 gallons - sufficient for nearly three months' supply - with a three inch pumping main to the New Tank. From the new Tank a three-inch main will run to Dean Street and down to the existing main in Fitzroy Road besides supplying a fountain at the top of Villiers Street. There will also be facilities for extending the water supply from the Tank to the houses on the extreme east of the Town.

The Tank itself, made by Messrs. Braithwaite and Co., of Westminster, London, will be constructed of pressed steel plates with dimensions of 44, by 48, by 8 feet, with a weather proof cover and a division plate, and will be assembled as soon as the twelve concrete foundation walls are erected.

CABINET CRISIS ?

The possibility of a Cabinet Crisis on the British Tariff Question states the "Daily Telegraph", is a subject that was discussed for four and a half hours at No. 10 Downing Street on Wednesday, but no decision was reached and a Cabinet meeting was again held on Thursday morning.

Viscount Snowden who is Lord Privy Seal, and Sir Donald McLean who is President of the Board of Education, are understood to have expressed views dissenting from those of the majority of the Cabinet Committee on the balance of trade.

Ministerial circles are wondering if the adoption of the Tariff Policy by the Cabinet will cause the resignation of these Ministers.

The Tariff contemplated is a flat rate on manufactured and semi-manufactured articles with a provision permitting graduation in special cases.

SODOM & GOMORRAH.

Biblical Narrative Confirmed.

Evidence of the accuracy of the Biblical narrative of the destruction of Sodom and Gomorrah by "fire and brimstone" is said to be a striking feature of the latest discoveries made on the site of the two ancient cities.

The excavators cleared about thirty-five acres of the total area, some nine and a quarter square, which these ruins are supposed to cover. Various objects and agricultural tools unearthed indicated that the people were a pastoral folk of a high cultural level, living in what was then a well-watered plain.

The foundations of the houses were covered with ashes. Pottery, goblets, p rringers, chalices, and vases were among the finds. One vase contained the skull of a six-year-old child, probably sacrificed to an unknown god. Every indication bears out the scriptural narrative that they were destroyed by fire and not by flood.

SPANISH DISORDERS.

Widespread Revolutionary Activities.

Senor Caballero, the Minister of Labour, has declared that the revolt in Catalonia, the general strike in Malaga and the building strike in Madrid are all preludes to a great outbreak planned for to-day, although he thought the revolutionary movement would be easily crushed by the Government.

Premier Azana told the Cortes that he believed the revolutionary movement had been planned from abroad and was supported by the right wing elements.

An Anarchist revolutionary movement in Catalonia was quelled on Friday when troops and civil guards restored order.

Two nuns travelling near Manresa were seized and bound by anarchists who were about to shoot them when they were rescued by a commercial traveller.

Terrible outrages have been committed against nuns during the Barcelona terrorism and anti-clerical feeling is growing again.

CABINET CRISIS AVERTED.

Independence Of Speech & Vote.

A new tariff policy has just been decided upon by the Government.

It will form the subject of a Bill to be introduced into the House of Commons as soon as possible after the resumption of the Session to-morrow, says the "Daily Telegraph".

The threatened Cabinet Crisis, following four Ministers dissenting from the Tariff Policy has been averted by the adoption of a formula designed to enable these Ministers to preserve an independent line of thought and action on the tariff issue, which is the only one on which they differ.

An official statement says it is decided that the Ministers who find themselves unable to support the conclusions arrived at by the majority of their colleagues on the subject of import duties, are to be at liberty to express their views by speech and vote.

Ministerial circles contend that this course, though unparalleled in modern political history, is justified by this grave period of national emergency.

"SLIDING" ACROSS THE CHANNEL.

With Small Surf-Board.

The cavalier manner in which the English Channel has been treated by aspirants to record honours has for long surprised those who regard an ordinary steamer crossing as something of an adventure.

But surely, the Channel's final humiliation was reached recently when a young Frenchman slid across - upon a small surf board towed by a fishing boat.

Up to this achievement, the Channel has been crossed by : Balloon, Hydro-cycle, Motorcycle, Aeroplane, Submarine, Punt, Canoe, Glider, and an 11-foot dinghy.

In addition, of course, it has been conquered by many swimmers and an Austrian schoolmaster has walked across on water skis.

The young Frenchman, hero of the latest method, is M. Roger Tronquet, of Joinville-le-Pont, Paris. He set out from Bologne shortly after noon and reached Folkestone Harbour at 7.30 the same evening.

He was suffering severely from cramp and cold when he arrived, having held the tow ropes all across. He was wearing only a bathing suit, and his feet were raw and bleeding from the constant wash of the water over the board.

His reason for this undertaking is, apparently, - because no one else had tried it.

ELEPHANT'S PROTEST.

"Playful But Painful."

What Mr. William Payne, head keeper of Bristol Zoo, regards as a "kind of playful protest" by an elephant resulted in him receiving a broken collarbone and other injuries.

He was feeding Judy with milk cobbles, her favourite food, when she pushed him into a corner and beat him with her trunk.

Realising that it was the manner in which he was doling out the food that had caused the trouble, he dropped the bucket and she released him immediately.

KILLED ON "WALL OF DEATH."

Trick Rider's Courage.

The death of Robert Brisbane Smith, aged 24, a trick rider, who was killed on the opening night of Poole Fair while driving a small car on the "Wall of Death," brought forth a rider from the jury at the subsequent inquest that the banking of the pit of the "Wall" should have been wider.

It was stated that the cylinder in which Smith performed was built for motor-cycles only, and that the banking at the bottom was not sufficiently wide to enable the car to rise smoothly on to the vertical wall. The wheels of the car caught in a groove between the banking and the wall. Smith apparently wrenched the steering wheel to get free, mounted the wall too sharply, and, colliding with the guard wire, crashed into the pit.

Joe Silverstone, owner of a similar show at the fair, said that Smith had too much courage and was trying to learn in a day that which required a week to acquire.

REVOLT OF DARTMOOR PRISONERS.

A message from Dartmoor stated that over 200 convicts who were parading in the prison yard made a furious attack on the warders on Sunday using knives and other implements. They got the keys, rushed to the Governor's office and the Governor narrowly escaped his life, and set fire to the building. Over 100 convicts attempted to scale the boundary wall and reports of the warders' rifles mingled with the crackling of flames for over two hours until the until the police re-inforcements stoned by the convicts made a baton charge felling almost a score of the prisoners. The others surrendered. The centre block of the building with all the records was destroyed by fire. Between sixty and seventy convicts were wounded, none escaped.

The situation had become alarming in the extreme when the police rushed from Plymouth by motor coach reached the prison. A mass of convicts were seething in the prison yard singing "The Red Flag" with warders outside the gates on the walls to prevent escape. A furious battle waged between the police and the convicts lasted about ten minutes before the convicts were scattered, one large party taking refuge in a store.

In a statement issued from the Home Office it was declared that over 100 of the 400 prisoners took part but unofficial reports put the number at between 200 and 300. About twenty are stated to be in hospital.

CABINET'S TARIFF COMPROMISE.

Sir Herbert Samuel Explains.

Sir Herbert Samuel, the Home Secretary, revealed on Saturday that one of the principal factors leading to the Cabinet's Tariff Compromise was the general desire of the Ministers to avert the Premier's resignation. For the Premier to have remained at the head of a Government which by the withdrawal of one of its political parties constituting it would have deprived it of its claim to be National and would have subjected the Premier to serious embarrassment. Another factor was the complete agreement of the Cabinet on all other matters, disarmament, reparations, war-debts, currency and India and National economy.

The Government's Tariff proposals will probably be announced by the Premier at Seaham on Friday: reports the "Sunday Times".

He is also expected to refer to the Cabinet's decision to allow the Ministers freedom of opposition. It is understood that the proposals involve the immediate imposition of a general tariff of 10 or 15 per cent on all manufactured goods and certain semi-manufactured goods. In addition a Tariff Commission or Committee will be created to compile a schedule of higher duties for particular classes of goods.

Mr. McDonald left London on Sunday and was expected to return to London on Monday evening. He will hold further meetings with his colleagues early this week.

NEWS IN BRIEF.

- Northampton. A Northampton boy who was hit by a golf ball in the eye at Wellingborough School was awarded £250 damages and £45 costs at the Assizes against the Headmaster. It was stated that the boy was passing an open door when a ball hit by another boy in the playground struck him in the eye. It was contended that there was a lack of supervision in the playground.
- Rome. Fresh cracks have appeared in the eastern wall of the catalogue room of the Vatican Library near the recent collapse. The catalogues and other contents of the room have been removed and stout timber props applied below.
- London. The votes of a 1,000 members of a small Union have gone in favour of a virtual blockade of London Port. The strike of lightermen and tug men is entering its fourth week and five great steamers are lying in London Pool waiting to be relieved of their cargo. Efforts are being made to organise crews to work the tugs lying idle as a result of the strike.
- London. Sir William Jowitt the Attorney General has resigned and will be succeeded by Sir Thomas Inskip the Solicitor General who in his turn will probably be replaced by Sir Boyd Merriman.

TROOPS GUARD DARTMOOR.

Gunmen Ringleaders If Outbreak.

Following developments, a contingent of troops have been rushed to Dartmoor prison in two motor 'buses and posted on guard on the prison walls.

The "Daily Telegraph" understands that according to certain reports the mutiny was partly organised by imprisoned gunmen who formed a secret committee and enlisted the services of other desperate criminals.

A preliminary Home Office report states that no evidence has been found yet that preparations were made by the convicts to arm themselves.

Since the outbreak the prisoners have been kept under lock and key and no convicts are being allowed to perform their customary duties. The prison officers made a minute search of the cells which revealed many articles used in the Sunday rioting.

70 Mills Closed.

A serious state of affairs is prevalent in Ahmedabad where seventy mills are closed owing to the strike of the members of the Labour Association which Gandhi has declared will be a model Trade Union for the whole world. It is believed that over 70,000 men are on strike as a protest against the sentence of one year's rigorous imprisonment passed on the joint secretaries of the organisation for failing to report under Emergency Ordinances. The whole of Ahmedabad police force is concentrated round the mills but apart from an attempt to burn the police station the situation is quiet. The district Mayor states that he has banned meetings and processions.

INDEPENDENCE DAY IN INDIA.

Fierce Riots In Bombay.

Independence Day ended in the worst riot seen in Bombay since the truce was broken. The police were forced to fire on a dangerous mob which continually attacked the police station, wrecked carriages, burned the native police quarters and attacked a car containing Europeans.

Two British police officers were struck by bricks. The police drove the crowd into the side-streets but they returned and further trouble is expected states the "Daily Telegraph".

The Bombay Stock Exchange is threatened with the withdrawal of Government recognition unless the frequent hartals connected with civil disobedience cease. A meeting of the Board of the Stock Exchange has been called.

Grave conflicts occurred in Kashmir between Moslems and Hindus particularly in Rajouri district where 12,000 armed rebels had been concentrating for an attack.

In Calcutta the Independence Day rioting resulted in 100 arrests including that of Mr. K.C. Chatterjee the Education Officer for the Calcutta Corporation and Mrs. Urmila Devi, sister of the former prominent Bengal Congress Leader.

"THE WANDERER'S" MASTER DEAD.

Saw His Ship's Doon In A Dream.

Captain John Brander, one of the oldest sailing captains, who figured in Mr. John Masefield's poem, "The Wanderer" has died at Weymouth.

The Wanderer was the name of a four-master that sailed out of Liverpool forty odd years ago with Captain Brander as master. In 1907, when living in retirement at Weymouth, Captain Brander woke up one night shouting that he had seen the Wanderer go to destruction. It was the very night that the Wanderer was rammed by a German ship off the mouth of the Ilbe and sunk.

Captain Brander said to Mr. Masefield afterwards : "I saw the Wanderer at anchor, I saw her anchor light burning, I felt the crashing of her plates and heard the inrush of water, and I saw the crew leave the ship" All this actually happened at the very hour of the Captain's dream.

A man wrote to his wife who had been staying in the country for some time telling her that he had been obliged to consult the doctor about his health and that the doctor had informed him that he was suffering from 'syncopation' and would have to take care of himself. The wife was curious enough to look up the word in the dictionary, and this is what she found "Syncopation. an uneven movement proceeding from one bar to another."

### ASSISTANCE FOR THE FARMERS.

#### Government At Work On New Bill.

Rapid progress is now being made with the Government's plans for assistance to British farmers says the "Daily Telegraph".

The Minister of Agriculture, Sir John Gilmour, has reached a sufficient measure of agreement with the interests concerned, to start drafting "A Bill which is expected to provide for compulsory purchase by wheat users, of not less than 15 per cent of the total requirements from British growers thus guaranteeing to the farmers a consumption of his present total output and leaving a small margin for increased outlay.

The wheat consumption established by the Bill will determine the percentage each year and it is anticipated that this should be increased over a term of years to about 25 per cent of the total consumption. This assures a market which is expected to guarantee British farmers 45/- per quarter for wheat.

### THE SINO-JAPANESE DISPUTE.

#### Shanghai Consul Delivers Ultimatum.

On Tuesday the Japanese Consul at Shanghai issued an ultimatum to the Chinese Mayor demanding a definite reply to the Japanese requests by 6.0 o'clock on Thursday. It was understood that nothing short of unconditional acceptance would satisfy the Japanese and to this, so a later message reports the Chinese authorities have yielded.

The ultimatum demands, among other things, the suppression of the anti-Japanese Associations and the punishment of those who attacked the Japanese monks recently. All possible precautions are being taken by the International settlement forces in case of trouble, as the situation is still intense. The British Officials on Wednesday organised a volunteer force.

#### Japanese Civilians Murdered.

A serious situation has occurred at Harbin, Manchuria, where Japanese Civilians have been murdered. A score of Chinese soldiers also attacked the office of the Japanese newspaper in Harbin wrecking the plant. If the lives of the six thousand Harbin Japanese become endangered troops may be sent. Fighting between the rival Chinese Generals Ting Chao and Hsia continues.

### NEWS IN BRIEF.

**Calcutta, Bengal.** Sentence of transportation for life was passed on Wednesday on two Bengali students for the murder of Mr. Stevens, the District Magistrate at Calcutta, on Tuesday.

**Calcutta.** The Benares express which was de-railed on Monday, had another narrow escape on Wednesday near Patna. The engine and six carriages left the rails but nobody was injured. The cause of the de-railment was due to the action of a desperate gang of train wreckers on the East Indian Railway.

HIS EXCELLENCY THE GOVERNOR.

His Excellency the Governor who has been absent from Port Stanley since Tuesday, the 19th instant, on a tour of the West Falklands, arrived back on Thursday at 2.30 in the afternoon, having left Darwin at 7.30 in the morning. The last part of the journey was somewhat longer than usual on account of the head-on sea experienced, coming from the east, as the vessel left Choiseul Sound.

During the course of his tour His Excellency visited Port San Carlos, San Carlos South, Port Howard, Chartres, Hill Cove, West Point Island, Roy Cove, Port Stephens, and Fox Bay.

At every station His Excellency was received most cordially and much enjoyed his stay at the farms.

WAR AVERTED.

An eleventh hour mediation between the rival Chinese leaders, Ting-Chao and Hsi-Hsia by General Ma-Chang-Shan the Manchurian war Lord, saved Harbin from the horrors of war.

A detachment of Japanese forces was sent from Changchun on Wednesday night and artillery was being sent following a request for protection by the Japanese residents. The Chinese eastern railway and the main trans-Siberian route to Europe is reported to be dislocated.

FRANCE'S ARMADA.

France's submarine armada is already the most powerful in the world and will be heavily reinforced during the current year, states the "Daily Telegraph".

15 boats of the largest type are due to be commissioned before the end of the year while four others will shortly be launched.

During the past seven years France has laid down 78 submarines as compared with 26 by Britain during the same period.

28,000,000 IN GOLD FOR FRANCE.

Gold shipments from the United States valued at 28,000,000 sterling at par arrived at Cherbourg for the Bank of France on Tuesday as part of the 225,000,000 sterling worth of earmarked gold which the Bank is reported to have decided to repatriate from New York.

The "Temps", a Paris newspaper, states that the Bank of France decided on Thursday to renew for one month only the 25,000,000 sterling credit to the Reichs Bank which forms part of the 220,000,000 sterling total credit granted by the Bank of England to the Bank of France Federal Reserve Bank.

CANTINE TILL RIFLED.

We learn that a person or persons unknown broke into the Falkland Islands Defence Force Canteen early on Wednesday morning, between the hours of 1 and 3 o'clock, and rifled the till.

Entrance was effected by breaking open a glass in the window overlooking John Street and by forcing back the catch with a lorry spring.

The police have the matter under investigation.

BRITISH SUBMARINE LOST.

Sunk In English Channel.

Startling news has been received that His Majesty's Submarine M.2. sank in the English Channel on Wednesday.

She was carrying out manoeuvres with another submarine, which, after failing to communicate with the M.2. returned to harbour for assistance.

As far as can be ascertained the M.2. has been located but whether the rescue ships have been able to get into touch with her by sound signals is not yet known.

The craft was equipped with a small aeroplane and two members of the Air Force personnel who are among the missing men. Apparently none of the crew of thirty-nine has escaped.

WOMAN PUT "ON THE SPOT".

Chicago's Latest Atrocity.

Frieda McEarlan, known as the "queen of Chicago's night life," and the wife of Frank McEarlan, a notorious beer runner, was "taken for a ride" the other night and riddled with bullets. This is the first instance in Chicago's bloodstained record of a woman being placed "on the spot".

It is believed that Mr. and Mrs. McEarlan were seized and bound and placed in a motor-car, which was found on the south side of Chicago the next morning. In the car was the woman's body sprayed with machine-gun bullets. Two small dogs in the car were also dead. All the glass was shattered to powder and the body of the car is described as resembling a sieve.

The police say that the man was probably also killed, but his body has not been found. McEarlan was a partner in a local beer ring which exploited a square mile of Chicago. Members of the ring are accused of killing a dozen of their rivals.

A year ago, while McEarlan lay wounded in hospital, a gang entered his ward and nearly murdered him. Ever since he has been a victim of attack, and his home was recently bombed.

A NEW DISEASE.

The outbreak of a new skin disease which so far had baffled the doctors was described at the annual dinner of the College of Pestology at the Connaught Rooms, London, recently.

Mr. A. Moore Hogarth, chairman of the college, said that it consisted of a purple blotch, with intense itching. These blotches disappeared and reappeared in other places on the subject, and many cases were being brought to the college's clinic at 233, Pentonville Road, where four doctors were employed in attending them. The disease seemed to be some sort of fungus infection.

78 YEARS MARRIED.

Mr. and Mrs. Patrick O'Neil of John Street, Consett, Co. Durham, recently celebrated the seventy-third anniversary of their wedding, the couple having been married on January 8, 1859. Their friends are wondering whether there is any married record in the country to surpass this.

Mr. O'Neil went to work at the age of 10 for the Derwent Iron Company, and when he came to Consett (now a big iron centre) it was a mere handful of houses. Both he and his wife are in full possession of their faculties, and neither makes use of spectacles. The King and Queen have sent a congratulatory message to the old couple, and the Consett Urban District Council will present them with an illuminated address.

CANNING MACHINERY.

Mr. W.E. Packer, secretary of the National Food Canning Council, which held its annual Council in Manchester recently, said in an interview: "Manchester is likely to become the manufacturing centre for canning machinery, not only for Great Britain, but for the rest of the Empire. Until two years ago canning machinery for this country came from the United States and France."

The Council, he added, was investigating the prospects in the dairy section of cream and condensed milk. They were also considering the possibilities of canning chicken on a large scale. Already England was exporting canned goods to various parts of the Empire.

Sir Edgar Jones, chairman of the council said at the annual meeting that the council must see that nothing was done with tariffs which would be harmful to their industry.

NO HOPE FOR THE M.2.

A message from London on Saturday reports that there is no hope for the rescue of any of the officers and men on board the M.2 which sank in the English Channel on Tuesday last week.

The list has now been issued of the officers and men who total sixty in number. The King and Queen have sent messages of the deepest sympathy to the bereaved families and also to the officers and men serving in submarines on the loss of their comrades.

An officer of the Fleet Air Arm and two air mechanics were among the victims.

Many expressions of sympathy have been received from abroad.

Search for the missing submarine continues without success, although many obstructions have been encountered they have usually proved to be old wrecks.

WAR RUMOURS IN FAR EAST.

Critical State Of Affairs.

The report that China had declared war on Japan which was received on Friday caused a flurry of excitement in the League Circles. But as the report had not been officially confirmed by late Saturday afternoon, and as the Chinese delegate, Yen, had not received any information that such a step had been taken or contemplated by the Chinese Government, it was believed that the report was premature.

It was pointed out that the declaration by China would be a tactical move of a doubtful value, and the League Council, therefore, declined to be worried by a report which, if true, would further complicate an almost hopeless situation.

The British delegation at Geneva stated that Downing Street was not in a position to confirm the report concerning the declaration of war but pointed out that, on the other hand, the report had not up to then, been denied.

In view of this uncertainty the League Council held itself ready for a special session on Sunday for noon. It was also announced that if the rumour regarding the declaration of war should prove unfounded the Council would not deal again with the Sino-Japanese conflict in public.

Report Contradicted.

The Chinese Note regarding the events at Shanghai was remitted yesterday to the League Council at Geneva.

The Note asserts that the Japanese action at Shanghai constitutes a renewed violation of the provisions of the decisions of the League of Nations, the Kellogg Pact and the Nine Powers' Agreement.

The Chinese capital of Nanking, so the Note goes on to state, is jeopardised by the Japanese attack on Shanghai and China is therefore, requesting the League Council to take immediate steps to prevent further Japanese aggression so that respect for the League Council will be ensured and world peace maintained.

The Note concludes by stating that the Chinese Government reserves the right to claim appropriate indemnity from Japan for damages done.

The Chinese delegation, moreover, emphatically contradicts the report that China is intending to declare war, adding that the reports in question are apparently emanating from the entourage of the former Chinese Foreign Minister, Chen, who is favouring war-like measures, contrary to all responsible Chinese policy.

Neutral Forces Between "Belligerents."

At a meeting held on Sunday presided over by the British Consul General, Mr. Brennan, and at which the American Consul General was present together with the Japanese and Chinese Commanders, it was proposed to establish a neutral zone between the Chinese and Japanese troops to co-operate, if a neutral zone can be established, and the United States Government is being asked to take similar action.

The British Government are also urging the Japanese and Chinese Governments to accept the scheme for a neutral zone and to issue immediate instructions to their troops accordingly.

The British Ambassador has called the attention of the Japanese Minister for Foreign Affairs to the danger to which the lives and property of British subjects were exposed by the recent Japanese bombardment and to protest against the international settlement being used as a base for attack.

400 CHINESE KILLED.

Four Hundred Chinese were killed on Sunday when 3,000 troops under General Ting-Chao the Commander of the Chinese Eastern Railway Guards, launched a bayonet charge against Shuang-Chen-Fu near Harbin.

The Guards were driven back after several hours' fighting. The Japanese lost 21 killed and 31 wounded. The Soviet authorities are permitting the Japanese to use the Southern extension of the Eastern railway and a Japanese detachment was expected to reach Harbin on Monday morning.

WORLD-WIDE ANXIETY.

Anxiety prevails in all the Capitals of the world lest hostilities in the East should develop into war. The British Government has decided to reinforce the Shanghai troops by the despatch from Hong Kong of a Battalion of Infantry and Battery Artillery.

---o---o---

WILL RUSSIA BECOME INVOLVED

In Far East Situation. ?

A message from Berlin states that probably nowhere in Europe is the situation in China watched more anxiously than in Germany especially on account of the fear that Russia may become involved.

There is an uneasy feeling that the situation holds the potentiality of catastrophic developments which must be averted at all costs. The Government intends to maintain a completely neutral attitude in the hope that the League may yet be able to prevent the conflagration from spreading. The Newspapers opine that whatever provocation China has received it would be a tactical mistake for her to take upon herself the odium of declaring war.

---o---o---

NEUTRAL ZONE.

To Be Established Between Japan & China.

It is proposed to establish a neutral zone between the Chinese and Japanese troops to be occupied by troops of neutral powers which have forces in the International Settlement. The British Consul General has now been informed that the necessary arrangements should be made for British troops to co-operate if the neutral zone is to be established and the United States Government is being asked to take similar action. The British Government are also urging the Japanese and Chinese Governments to accept a scheme for a neutral zone and to issue immediate instructions to their troops accordingly.

### TRIED AND HANGED IN FOUR HOURS.

Fate Of A 21-Year-Old Youth .

A thrill of horror passed through Budapest recently when it was learned that an American born youth of barely 21, Joseph Onda, had been tried, sentenced to death, and hanged within less than four hours of a charge of robbery with violence.

One day Onda and another youth of 19, Joseph Bonyi, held up the Budapest Commercial Bank and stole a large sum of money. When pursued they fired a number of ineffective shots at their pursuers.

Under Martial Law, which is now in force throughout Hungary, the drastic provisions of the old Habsburg monarchy rule are revived. The military court can pronounce sentence of death only for any crime with which violence is connected; but unless the decision is unanimous the case must go to the ordinary courts.

No appeal is allowed. The sentence must be submitted to the head of the State - in this case the Regent - who may give or refuse a free pardon. If refused the prisoner must be hanged within three hours.

### Gallows Got Ready.

When the trial opened morbid crowds gathered outside the court, as it was known that Kosarek, the public executioner had arrived with his two assistants and begun the erection of a gallows in the courtyard.

Prisoners executed in Hungary are not hanged by means of a spring trap, but are hoisted into the air. Judge Toereky, who is noted for the severity of his sentences, tried the case, with the assistance of four advisors. He ordered a strong force of police to be ready to deal drastically with any public manifestations.

The trial ended at 3 p.m. Onda, a son of a Hungarian farmer, born in America in 1910, and educated in an ordinary American school, who has been in Hungary since 1920 was sentenced to death. His companion being only 19, was not liable to the death sentence, but was given the maximum penalty of fifteen years' imprisonment.

On the sentences being pronounced, the youths embraced and kissed one another. At 6.25 Onda was taken to the courtyard and hanged.

### Pardon Refused.

When sentence was pronounced, the father of Onda collapsed unconscious. The judge asked the prisoners if they desired a free pardon, to which they replied in the affirmative. The court then withdrew for five minutes and returned to say that the Regent would not be recommended to grant a pardon. The defending lawyer said "But I have telegraphed this morning asking him to exercise clemency for this boy who only fired shots into the air." The court returned no answer to the interjection. The boy was taken to execution in a state of semi-collapse.

### SHANGHAI SITUATION.

#### Serious Developments.

The Prime Minister spent the greater part of Monday in consultation with his Ministers and others on the Shanghai Situation. During the morning he conferred with Mr. Stanley Baldwin and Sir John Simon the Foreign Minister, and in the afternoon Lord Hailsham the Secretary for War and Field Marshal Sir George Milne, Chief of the Imperial General Staff, visited No. 10 Downing Street.

A deplorable impression has been created in London by a press message stating that at mid-night on Sunday Japanese cruisers opened bombardment on Hsia Kwan in the area of Hanking, to which the Chinese artillery replied. The reports stated that terror and confusion prevailed in the city which was plunged in darkness. The Shanghai position continues to cause grave anxiety. Reinforcements are being hastened by the British, United States and French Governments to ensure the safety of their nationals in the International Settlement. It is hoped that their arrival will have a calming effect within the Settlement where the situation is tense and dangerous. The neutral forces in the Settlement were on Monday supplemented by a body of marines landed from the Cruiser "Suffolk" which arrived from Hong Kong. The second Battalion of the Argyll and Sutherland Highlanders, Number One Mountain Battery and the Singapore Artillery Brigade are following in H.M.S. "Berwick". H.M.S. "Kent" flying the flag of Admiral Kelly the Commander-in-Chief of the China Station is now proceeding from Batavia and is due at Shanghai on Friday.

A Washington message states that the United States "Houston" under Adm. Taylor would reach Shanghai on Wednesday with reinforcements including some hundreds of marines, seven United States Destroyers, having gone ahead.

In the capitals of all the countries with interests in the International Settlement, the situation in Shanghai has been anxiously examined during the past few days.

The British, American and Italian Ambassadors called at the Japanese Foreign Office in Tokio to make new representations. The British Ambassador, Sir Francis Lindley, protested against the precipitate action of the Japanese force in Shanghai and against the continued use of the International Settlement as a base for operations.

#### Japanese Hostilities In Hanking.

The gravity of the situation in the Far East has been accentuated by the hostilities of the Chinese and Japanese in Hanking, 200 miles north of Shanghai.

Under warship fire, the Japanese landed marines who forced the defenses on Tuesday, while ships also fired on the Chinese Forts in the Yangtse river. Lieut-Commander P.W. Rutledge commanding the United States ship "Simpson" informed his Government that the Japanese attack had begun without warning and obliged him to remove the destroyer from the line of fire.

The Shanghai Truce continues with intermittent local hostilities. A new danger threatens the city as the authorities fear an anti-foreign rising by the many settlement Communists says the "Daily Telegraph". The French Consul General at Shanghai has been instructed to co-operate with the British and American authorities in the Settlement's defence. Sir Francis Lindley the British Ambassador in Tokio following instructions from London made a third protest to the Japanese Government against the Shanghai action.

- 4 - Thursday 4th February, 1932.

The Japanese Ministers at Tokio have decided to despatch one army division to Shanghai subject to the approval of the Cabinet Meeting. Hitherto the Japanese forces in Shanghai have been limited to a naval personnel. The American Consul at Swatow, 200 miles north of Canton cables that the Japanese have given the Mayor there an ultimatum. The newspaper which printed an article on the Japanese Emperor must submit an apology. Unless this is done Japan will take action. Five-hundred Japanese troops are in the north-west of the city and a clash is believed imminent.

#### Italy Joins Western Nations.

Italy has formally notified the United States that she is joining the Western Nations to prevent a further aggravation of the Shanghai crisis. A message from Peking states that Sir Miles Lampson the British Minister for China after leaving for England returned to Peking unexpectedly owing to his inability to proceed beyond Chang-Chun as an important bridge has been destroyed south of the Manchurian railway. Immediately after reaching Peking Sir Miles conferred with the Legation staff regarding the Shanghai position.

#### PARLIAMENT RE-OPENS.

Both Houses of Parliament met on Monday afternoon after the recess since December 11th. The programme has been re-arranged to enable the Government to obtain statutory authority on the Fiscal Plans with the least possible delay.

The Premier, Mr. MacDonald, leaves London on Saturday and will address a Conference at Geneva on Monday.

---o---o---

#### CYCLONE SWEEPS OVER NEW SOUTH WALES.

A message from Sydney states that a Cyclone swept over central New South Wales on Monday which demolished buildings & unroofed houses at the Harrow Mine Railway junction 200 miles north-west of Sydney, and also damaged houses at Bourke, 200 miles north-west of Harrow Mine and smashed two Air-Force aeroplanes, injuring Dr. Woolnough, the Commonwealth Geological adviser.

---o---o---

#### SWISS AUTHORITIES STAND FIRM.

It is reported from Geneva that M. Karl Radek, who represents official opinion in the Moscow newspaper "Isvestia" wishes to attend the Disarmament Conference but is finding difficulty in obtaining permission from the Swiss authorities.

M. Litvinoff the head of the Soviet Delegation has appealed to the President of the Conference on Radek's behalf and if the Swiss persist in their refusal of permission the Soviet Delegation may withdraw from the Conference.

STOP PRESS FROM TOKIO.

Japan has rejected the British American and French peace proposals in Shanghai but has asked for an opportunity to consider a modified proposal.

Japan objects chiefly to the fifth point concerning the neutral intervention in Chinese negotiations as Japan can never agree to this.

Japanese aeroplanes and destroyers bombarded Woo Sung forts, thirteen miles from Shanghai, on Wednesday.

Fierce fighting was renewed at Chapoi on Wednesday when Japanese aeroplanes dropped bombs causing another fire, says the "Daily Telegraph". The Argyll and Sutherland Highlanders have arrived at Shanghai, also the American flagship "Houston" with Admiral Taylor who immediately conferred with Colonel Hooker the officer commanding the American marines on arrival.

The passive attitude of Russia towards the strong Japanese action is explained by the tacit understanding existing between Moscow and Tokio concerning the Manchurian future.

### FAR EAST DEVELOPMENTS.

Following Mr. J.H. Thomas' statement that Britain and the United States had submitted a Peace Plan to the Japanese and Chinese Governments on Tuesday, and were demanding the cessation of all hostilities, the French, Italian and German representatives of the League Council announced that their Governments associated themselves with the move. The Japanese ~~delegates~~ stated that he believed that his Government would welcome the suggestion of a neutral zone.

In the House of Commons where Sir John Simon, the Foreign Minister, read a similar statement to Mr. Thomas's, an uproar was created when Mr. Lansbury said that Japan's action was a piece of international piracy. The Speaker reproved him for using such terms of a friendly power.

The Japanese Ambassador at Washington informed Mr. Castle, the Assistant Secretary of State, that Japan has no intention of sending military forces to Shanghai at present. Fighting started again on Tuesday afternoon in Shanghai. The Japanese commenced an offensive against the Chinese Chapel positions and the North Station, states the "Daily Telegraph". By 6 p.m. it is reported the Chinese were in flight with the Japanese converging on the North Station.

The Argyll and Sutherland Highlanders were due to arrive there on Wednesday morning.

It is reported from Tokio that the British and American Ambassadors with Mr. Yoshizawa, the Japanese Foreign Minister, have arranged a truce in Shanghai which began at 6 p.m. on Tuesday.

The American destroyer "Simpson" which was reported to be in danger of being fired upon in Hanking is safe for the present and no immediate evacuation is planned.

The Japanese public have subscribed 2100,000 for the construction of a squadron of aeroplanes. Japan's long standing friendship for Britain is unimpaired by the Shanghai events, but considerable resentment is felt against the United States which is believed to be putting Britain and France against Japan.

THE LOCAL BISLEY.

Weather permitting this annual meeting will be held to-day and to-morrow on the Old and New Ranges. As popular as ever is the Shoot and all marksmen are looking forward to keen contests. The entries are as numerous as in previous years and the standard of shooting is undoubtedly as high if not higher than ever before.

The outstanding competition is the Governor's Cup, kindly presented by His Excellency who takes a great interest in this event, inaugurated by Governor Hodson, and held on the lines of the King's Cup competition at Home. Private W. McAtasney was last year's winner of this Trophy, while Private R.L. Robson secured the "Douthwaite Trophy" presented by Admiral Fuller for the highest score in the first round of the Governor's Cup.

The Hamilton Cup (highest aggregate) was won by Private A.H. Hills in 1931. The same year the Bishop's Cup went to Private Walter Summers whose team also gained the Bonner Team Shoot Cup. Private E. McAtasney, it will be remembered, went home with the Open 500 and 600 yards to his credit while the Falkland Islands Company's Handicap Cup fell to the hands of Private Dennis Lehen who is also the winner of the same Trophy this year. An opportunity for Camp members to compete in the F.I.C.'s Handicap Cup was provided by reserving the final decision until after the Local Bisley Meeting when camp members are allowed to take part in all the competitions then being shot off, but in view of the unforeseen circumstances which prevent the members from Douglas Station being present the Prize goes to the best local score made during the preliminary rounds shot off during the season and secured by Private Dennis Lehen.

The entrants have already been squadded and the flag will fly from the staff as usual at 7.0 a.m. if conditions justify a start being made. The provisional programme is :

To-day : New Range 8.0 a.m. 1st Stage Governor's Cup.  
Old Range 8.0 a.m. Final Open 500 & 600.  
New Range Afternoon Final Bishop's Cup.

If the above mentioned competitions are competed in time the second stage of the Governor's Cup Will be shot off.

Sunday 8.0 a.m. Team Shoot.  
Afternoon. Final Governor's Cup.

The public are cordially invited to be present on both days during the afternoons. Tea will be provided by the Committee but competitors and their guests are kindly requested to bring their own food.

### LATEST POSITION IN SHANGHAI.

On Thursday the Japanese forces began a terrible bombardment of Chafai with the largest guns yet used during the Chinese-Japanese dispute.

The whole district in the neighbourhood of the North Station is in a mass of flames. The Japanese are still continuing the aerial bombardment of Woo Sung, the forts and wireless station being demolished. This follows the worst day's fighting yet experienced during the dispute.

The whole of the day's operations resulted in only a slight Japanese advance and the amount of debris prevents the operations of the Japanese armoured cars.

Five fires have started within the settlement and its limits. During Thursday, two Japanese companies were trapped in the Rokusan Gardens but they were relieved by artillery. The Japanese have completed the disarming of their plain clothed nationals who did much damage in Shanghai.

The Chinese banks have re-opened facing a severe financial crisis. A partial postal service has been resumed in an attempt to clear the accumulation of mails. The Chinese Minister of Finance, Mr. Soong, arrived at Shanghai on Thursday from Hanking.

A message from Harbin states that Japanese contingents entered there on Thursday, avoiding co-operation with the anti-Karin forces as only protecting the Harbin nationals. It is stated that Japan has no intention of infringing the rights of the Chinese Eastern Railway.

DISARMAMENT CONFERENCE.

The International Delegates at the Disarmament Conference are more concerned with Britain's Tariff Policy than Disarmament says the "Daily Telegraph". M. Tardieu the French Representative had a long talk with Mr. J.H. Thomas on this subject on Wednesday and is ready to negotiate a Franco-British Trade understanding. World-wide interest was shown in Mr. Neville Chamberlain's Tariff Speech on Wednesday in the Houses of Parliament.

The Disarmament Conference which took place on Wednesday consisted of six Committees, one Political, one Budgetary, one each for Land, Sea and Air and Armaments with possibly a seventh for Chemical warfare. The German delegation, according to the newspaper "Deutsche Allgemeine Zeitung" they will not only give their objections to the draft convention but will submit alternative concrete proposals in the near future.

### DELICATE POSITION IN SHANGHAI.

International Commanders Co-Operating.

A further statement regarding the situation in the Far East was made in the House of Commons on Wednesday by the Foreign Secretary, Sir John Simon. He said that H.M.S. "Berwick" had arrived at Shanghai and the disembarkation of the Argyle and Sutherland Highlanders and of the Mountain Battery of the Royal Artillery took place on Wednesday.

"The situation in Shanghai remains very delicate. The latest information indicates that the International Commanders are cordially co-operating in maintaining order within the Settlement and the position in this respect appears to be more satisfactory.

"His Majesty's Consul General reports that the Municipal Police are beginning to function again in parts of the Japanese sector of the International Settlement. On the other hand I regret to confirm the fact that there was further fighting in Shanghai on Wednesday when Japanese reconnoitring aeroplanes were fired upon and thereafter the Chinese position was subjected to heavy gun-fire, but as far as my information goes the Japanese lines have not been advanced.

"The Japanese Consul General in Shanghai has informed the other Consular representatives that the destroyer squadron passing the Woo Sung Forts at the mouth of the river had been fired upon on Wednesday morning and had returned fire and that it was intended to occupy Woo Sung. We still await the full authoritative answers to the representations made by the four powers to the Japanese and Chinese Governments and in the meantime I am convinced that it is highly desirable to give time for these good offices to have their undisturbed effect. I may say that there are grounds for hope that these are having a good result."

Again, under favourable conditions the Team Shoot for the "Bonner" Cup was shot off on Sunday morning and some fine cards were returned. The winning team was that captained by A.H. Hills with a total score of 360 points, M. Campbell's and L. Reive's teams tying for second place with totals of 353. The detail score of the first team is : A.H. Hills 85, J.R. Gleadell 95, J. Ryan 91, Dan Ehen 89. Seven teams competed.

At 1.0 p.m. a start was made on the 900 yards in the Final Stage of the Governor's Cup. The wind had now increased considerably and required 24 degrees, afterwards dropping to 21. E.J. McAtasney's extraordinary effort of 69 out of 75 in so strong a wind is deserving of mention. The next best were A. Hills 67, J.R. Gleadell 65 and Mr. J.W. Grierson 64. On going back to the 1,000 yards the names of the first three were McAtasney, Hills and Gleadell.

The last range proved to be a stumbling block for almost all the competitors, J.M. Campbell's and E.J. McAtasney's 65 and 61 respectively being the best of very poor scores. However, good shooting soon became impossible for the wind, during the firing at this range soured up from 25 degrees to 39 and 40, left, many of the competitors being unable to allow sufficient wind on their sights.

The result was :

Winner Governor's Cup and 25	-	E.J. McAtasney 265,
2nd	-	Mr. J.Grierson 256,
3rd	-	J.M. Campbell 255.

J.M. Campbell also won the N.R.A. Medal, both the first and second prize winners of the Governor's Cup having gained this coveted award already.

During the Final Stage of the Competition, at the 1,000 yards, His Excellency, the Governor, the Hon. J.M. Ellis (Colonial Secretary), and Major the Hon. J. Innes Blair (Commanding Officer, Defence Force), were interested spectators.

One of the most pleasing features of the Meeting was the sporting spirit which prevailed throughout both days' shooting. In addition the help afforded to the Committee by the individual members competitors was particularly gratifying.

There was also some excellent shooting by several of the younger members. C.H. Thompson's prowess in securing the third place in the First Stage of the Governor's Cup with 94, and E. Lellman's 85 plus a 5 (bull) on the wrong target while shooting in the team competition showed that these youngsters have a future before them in the shooting world. The markers are also to be congratulated on the efficient manner in which they carried out their duties.

A detailed list of the principal scores will appear in a later issue of the "Penguin".

TARIFF PROPOSALS.

Mr. Neville Chamberlain's Statement.

Mr. Neville Chamberlain, the Chancellor of the Exchequer, made known to a crowded House of Commons on Thursday last week, the Government's policy for dealing with the adverse trade balance, by a comprehensive system of tariffs.

The basis of the proposals is a general "ad valorem" duty of ten per cent on all imports, except the items marked on the "Free List" which included grain, wheat, tobacco and sugar, and tax pending the Budget. The McKenna and Safeguarding duties and the Horticultural duties will continue.

An independent salaried Advisory Committee, with not less than two, or more than five members, will devote their full time to consider what additional duties should be imposed, and to study the general interests of trade and industry.

Mr. Chamberlain mentioned that the internal purchasing value of the pound was still twenty shillings and that since Britain went off the gold standard the cost of living had only risen two points and was actually six points below that of a year ago. The steadiness of the sterling was the best possible indication of the prospects for the future.

In the case of the Dominions, neither general nor additional duties will be operative before the Ottawa Conference had been held. All the products of all Colonies, Protectorates and Mandated Territories will be completely exempt from either general or "ad valorem" duties.

There was a complete measure of confidence felt abroad in Britain's future. This, doubtless, has been fortified by the Bank of England's recent re-payments of its large foreign credits without further drawing upon its gold reserve.

It seemed to him that conditions were so shaping themselves that other countries, which had been forced to increase the gold standard, were turning towards the sterling as the best measure of the value of currency during the suspension from the normal standard.

After referring to the definite but somewhat partial and uncertain improvement in trade, the Chancellor, declared that the corner had not yet been turned. He referred to the enormous growth of restriction all over the world which had imposed a tariff barrier on British trade. Many of Britain's problems were international in character and could only be dealt with by a willing co-operation of the other nations. The other problems were within her own control.

During the last two years while the imports had remained stationary, exports had decreased by nearly 28%, and such a state of affairs made it necessary for instant action. They proposed, by a system of moderate protection, specifically adjusted to industrial and agricultural conditions, to bring back to Britain's own factories and fields the work to which they were particularly adapted and, by the judicious use of this system, the Government hoped to make more efficient the method of production and distribution.

LOST IN THE DESERT.

A message from Paris states that no news has been received from the three airmen, Reginesi, Touge and Lenier, who while attempting the flight from France to Madagascar made a forced landing on Tuesday last in the Sahara desert between Insaiah and Famaurasset during a sand-storm. Wireless messages sent from the aeroplane when the accident occurred have ceased, and anxiety for the men's fate is growing.

Five aeroplanes and tribesmen searching for Mme Maryse Litz, a French airwoman who was reported missing on her flight to Madagascar, have reported that she landed at Hiamey after a rough journey across the Sahara.

DRAMATIC PROPOSALS TO LEAGUE OF NATIONS.

M. Tardieu, the French Delegate dramatically surprised the Disarmament Conference on Thursday by submitting far-reaching proposals for making the League of Nations a super-power.

The scheme included an International police force to prevent war; an International army to aid the nations which are the victims of aggression; the placing of heavy naval and military material at the disposal of the League; a world fleet and large bombing aeroplanes in the League's service; the control of military aviation and the restriction of the size of aeroplanes; the Internationalisation of Civil Air Transport, prohibition to use bombs other than projectiles, containing poisoned gas, bacteria or incendiary material; the prohibition of air or artillery bombardments more than a certain distance from the front line or coast.

The French memorandum has declared that now is the time to choose between the League of Nations having executive authority or one paralysed by the intransigence of National Sovereignty.

### BAN ON BRITISH COAL.

Germany is following the example of France and Italy by severely restricting the import of British coal. The Hamburg coal importers have received instructions that from Monday last they can only import 140,000 tons of English coal as against 200,000 tons monthly during the four previous months and an average of 300,000 tons monthly for 1931.

This involves a British loss of 2,000,000 tons annually employing 8,000 miners.

The cut has caused resentment among the British coal exporters and Hamburg importers, the latter saying that it is impossible to fulfil their contracts under the new conditions. They are laying their grievances before the German Coal Commission which is about to meet, says the "Daily Telegraph".

Stanley Electric Lighting System.

It has been decided to offer present consumers of current supplied from the Stanley Electric Lighting System facilities for payment by meterage as an alternative to payment at a fixed rate per point.

Current will be supplied by meterage on the following terms : The consumer will pay the cost of the entire installation in his premises, inclusive of the connection from the power main but exclusive of the meter. Current will be supplied at the rate of 9d per unit or kilo-watt hour. Every installation will be approved by the Electrician in Charge and will be effected by him; no addition or alteration in any installation will be made except by the Electrician in Charge.

Where the installation has already been effected the cost will be assessed by the Electrician in Charge; in the case of new installations the actual expense incurred will be charged.

Once the meterage has been installed in a premises it will not be possible for a reversion to be made to the payment per point basis.

As from the date of this notice applications for original installations of Electric Lighting can be accepted only on a meterage basis.

All those desirous of having meterage installed on the above terms in their premises should apply without delay to the Electrician in Charge.

Warning is given that some delay may elapse before the meterage can be installed as the required number of meters will have to be ordered and obtained from the United Kingdom.

ABOLITION OF SUBMARINES ADVOCATED.

Speaking of Submarines at the Plenary Session of the Geneva Conference, the Foreign Secretary said. "The skill and gallantry in this dangerous service - in Britain to-day we mourn the loss of a submarine crew of sixty men engulfed in a time of peace - are no justification for its continuance." He added "I will not disguise the fact that the abolition of submarines would be in the interests of our country but in saying this I absolutely deny that we regard its abolition as any exclusive interest of ours."

"The abolition of submarines would be a contribution to disarmament which the citizens of every country could understand. Our proposal is in the interest of humanity and the establishment of permanent peace."

Regarding the principle underlying this proposal Sir John said "Since our common object is to diminish the sum total of our armaments, and expenditure upon them, it follows that we must direct special attention to such prohibition or limitations as will weaken attack and so remove the temptations for aggression."

Many peace Conferences had been held before this and consequently their failure had been written in blood in the history of the world. "Failure now means nothing short of immeasurable calamity." added Sir John.

He reminded the Conference that the intention was both explicit and implicit in the Versailles Treaty that any nations who ever that were still suffering from the effects of four years of warfare should reduce the means of conflict through the reduction of National armaments by International Agreement. They must do this while the lessons of the war were still fresh in people's minds. Disarmament being a means to an end.

At the conclusion of Sir John's speech there was enthusiastic applause. The delegates of many countries shook him by the hand and warmly congratulated him. M. Gardiau who followed Sir John Simon amplified the French scheme already outlined and declared that France was ready to make contractual engagements to limit armaments during a fixed period and would favourably examine reductions which might be suggested supplementary to those within the framework of the Draft Conventions.

He summarised the heritage of the last war in the following striking figures. 10,000,000 lives sacrificed, 28000,000,000 worth of destruction and 2882,000,000 of military expenditure.

What Disarmament Means To The World.

In the House of Commons on Tuesday Mr. Baldwin made a speech stating that Disarmament was pursued as the most effective method of promoting peace and of limiting the risk of sudden and devastating war by restricting armaments to what was strictly necessary for the defence and for international obligation and by comparison and co-operation among themselves.

The proposition that the peace of the world would be secured by preparing for war was no longer believed by anybody. A high level of armament was no substitute for security. At the best it only created an illusion of security in one quarter while at the same time aggravating a sense of insecurity in another. The security for all depended on armament reduction.

FAR EAST SITUATION GROWS MORE SERIOUS.

Messages from Shanghai state that further bombardments, in which the Japanese warships took part, began on Woo Sung on Tuesday afternoon. Fire was directed upon the Fortress and neighbouring Chinese positions. During the day the Chinese shells again fell inside the International Settlement. Fighting is continuing in the Chapei district.

The Japanese have been carrying out a general bombardment of the Chinese positions. Seven destroyers and 2,000 Japanese troops made a further attack on Woo Sung late on Tuesday but the Chinese put up a good resistance and reclaimed the forts.

The Chinese Commander-in-Chief has informed the British authorities that they intend to bombard the Japanese section of Shanghai. The British Commander-in-Chief has informed the Chinese authorities that if this is done the International forces will fire on the Chinese.

A message from Geneva reports that the Chinese Delegation has renewed its appeal to the League Council to meet immediately in order to deal with events at Shanghai during the last ten days, which, it is reported has cost thousands of lives and every delay involves more sacrifices of human life.

When questioned by Mr. Lansbury on the Shanghai situation, Mr. Baldwin said that on three occasions notes had been exchanged with the Japanese Government informing them that Britain could not approve of the use of the International Settlement except for defensive purposes.

At a meeting of the Japanese Cabinet at Tokio it was agreed that 40,000,000 yon should be granted to cover the costs of operations of the Japanese Naval and Military in Shanghai until March 30th.

WEDNESDAY'S LAMENT.

Who made this blot ?  
I, said the pen  
With my inky friend,  
I made the blot !

Then the pick & the shovel  
Went a sighing & a sobbin'  
When they heard of the end  
Of their footballing trend,  
When they heard of the end  
Of their footballing trend.

THE "INDOORS" 3 : THE "OUTDOORS" 2.

A team composed of indoor workers met an eleven of outdoor workers on Government Paddock on Wednesday evening and won after a very close and well-played game by the odd goal in five. In the first half the picks and shovels had a strong wind in their favour and gave the pen-pushers a harrassing time. But in the second half the tables were turned and although the Indoors men were one goal down at the interval they scored three goals before their opponents could make up any lee-way. The goals were obtained by C.G. Allan, W. Grierson, and A.W. Beardmore for the winners and F. O'Sullivan, and G.L. Pallini.

The teams were :

"Outdoors" : S. Bonner. A. Etheridge & D. Peck; R. Campbell. J. Pettersson & G. Pearson; M. Campbell. G.L. Pallini, F. O'Sullivan. D. Fleuret & D. Williams.

"Indoors". L. Aldridge. D. Atkins. & M. Robson; B. Fleuret, A.H. Fleuret. & H. Thomas; C.G. Allan, A.W. Beardmore. M. Creece. W. Grierson & L. Sedgwick.

LONDON - THE TELEPHONE SWITCHBOARD OF THE WORLD.

Sir Kingsley Wood the Postmaster General speaking on Wednesday at the laying of the Foundation Stone by the Lord Mayor of the new London Telephone building, said that London had become "the Telephone Switchboard of the World."

The Overseas telephone service had been extended to twenty-four different countries on the Continent and connected to Europe via London with the whole of the North American Continent and was much the most important radio-telephone service in the world. International services now provided from Britain enabled the British subscriber to obtain access to well over fifty per cent of the world's telephones and forthcoming extensions would increase this figure.

FURTHER SHANGHAI NEWS.

A message from Washington states that the official Commanding the United States' Asiatic Fleet sent the navy department an official report that Admiral Nomura, Commanding the Japanese forces at Shanghai has stated that the Japanese are prepared to accept a truce.

The terms offered are that the Chinese shall retreat 20 miles beyond Chapei while the Japanese would then return to Hong Kew area.

It is reported from Shanghai that the Japanese gained slightly in the area of Woo Sung Forts on Wednesday although the Chinese flag is still flying. The Japanese have given up Woo Sung village which is now in ruins. The Japanese are using thirty-three warships and are attacking Woo Sung; the Commander confidently expects to occupy the forts in the near future, it was stated on Wednesday.

BOYCOTT CAMPAIGN ENDANGERS TRADE.

A message from Bombay states that orders for British textile machinery valued at thirty-seven lakhs rupees are threatened by the renewed and intensified Boycott Campaign in Ahmedabad.

The Gujerat Congress Committee is openly defying the Ordinances sent by letter to the firms concerned stating that the Congress has accepted the Boycott on British Goods and machinery as a temporary war measure.

All orders for Textile machinery for six new Ahmedabad mills and another order to the value of nearly seven lakhs rupees have been cancelled under the pretext that the principal mill promoter has been sent to prison under the Ordinance.

The threats of the Congress Organisation have so disturbed the firms that they dare not complain.

SHANGHAI DEVELOPMENTS.

A Shanghai message states that the British Consul General, Brennan, and his United States' colleague arranged a four hours' truce yesterday morning to permit the evacuation of the women and children and wounded from the Chapei district. A Truce was also arranged by the German Consul General to permit the withdrawal of German professors from the College at Woo Sung.

A message from Moscow states that the Russian army in the Far East is to be brought up to the strength of 80,000 men as well as a reinforcement by an air-squadron in consequence of deliberations which are reported to have taken place between Mr. Stalen and the Commander-in-Chief Bluecher concerning the Sino-Japanese conflict.

It was stated in Shanghai on Thursday that the Chinese authorities could not accept any responsibility for the protection of foreign lives and property during the duration of the Sino-Japanese conflict.

The evacuation of British nationals from Shanghai was suggested by Mr. George Lansbury.

FORMER GOVERNOR KNIGHTED.

The latest mail from home announces that a knighthood was conferred upon Mr. Arnold W. Hodson, C.I.L.G. in the New Year's Honours List.

A press report states : "Mr. Arnold Weinholt Hodson, who has been created a Knight Commander of the Order of St. Michael and St. George, was Governor and Commander-in-Chief of the Falkland Islands before being appointed to Sierra Leone in December, 1930.

"Three years ago, while home on leave, he married Miss Elizabeth Hay, the eldest daughter of Major Malcolm V. Hay and Mrs. Hay of Seaton, Aberdeenshire.

"Mr. Hodson is an enthusiastic rifleman, and organised the Falkland Islands team which won the Junior Kolapore Cup at Bisley two years ago."

We are sure the heartiest congratulations of all are extended to Sir Arnold on having this well merited honour conferred upon him.

RETURN OF RESEARCH SHIPS.

Hazardous Adventure

Of R.R.S. "Discovery II."

The R.R.S. "William Scoresby" arrived back in Port Stanley on Friday afternoon having been engaged on a series of stations between the Colony and the coast for the past three weeks. She is expected to remain in Port for a further three weeks before continuing her itinerary.

During the night of Friday and Saturday the R.R.S. "Discovery II" arrived from South Georgia where temporary repairs had been effected to her hull consequent upon her hazardous adventure in the Weddell Sea.

In the course of her work down south the "Discovery II" encountered phenomenally thick ice which closed in upon her and caused considerable anxiety. Notwithstanding her precarious condition she succeeded in battling her way through and on arriving at Leith, she was 'patched up' before making her way to Stanley.

She is expected to depart for Cape Town this evening about 8.0 o'clock, where, it is understood, she will go into dry dock.

THE R.M.N.V. "REINA DEL PACIFICO."

One could not have wished for a more perfect day than Saturday to welcome the "Reina del Pacifico" on her first trip to the Islands during her fourth cruise since she was launched in the early part of last year.

Many of the tourists on board this magnificent vessel took advantage of the wonderful weather to pay a visit to the Port, being conveyed to the jetty and back by the Falkland Island Company's new ship the "Lafonia" which made her initial trip to the Reina about 8.0 a.m.. On her return she steamed round the "Great Britain" after entering the inner harbour. A number of tourists also paid a visit to the penguin rookery at Sparrow Cove.

The Reina, by kind permission of Captain Ellis Roberts, her commander was open to visitors throughout the day while a number of leading residents were the guests of the captain at tea. A luncheon party was also held on board among those present being His Excellency the Governor. The "Reina del Pacifico" left for Punta Arenas about 7.0 in the evening.

### SITUATION IN SHANGHAI.

#### Chinese Violate Truce.

A Reuter message from Geneva on Saturday stated that the Chinese Government requested that morning that the dispute with the Japanese should be referred to the League Assembly.

The Council of Twelve decided on Saturday night that the Chinese delegation had itself, to assume the responsibility of deciding to call a special meeting of the Assembly to consider the dispute.

The British Minister at Shanghai, Sir Miles Lampson, is still endeavouring to bring about a rapid settlement of the Sino-Japanese conflict, but the Japanese are still attacking Chapai and have captured positions near Woosung.

The truce that was arranged between Japan and China from 5.0 to noon Saturday was strictly carried out by Japan but considerable sniping occurred by the Chinese. Owing to this the Japanese have refused to continue the armistice and on Saturday evening they carried out a bombardment on the Chinese positions. The bombardment was so terrific that it could be heard for miles around.

SCOTTISH CUP TIE FRICTION.

Most unruly scenes were witnessed at the Motherwell and Celtic Scottish Cup Tie match on Saturday, says the "Sunday Times".

Numerous arrests were made and the ambulances had to remove the injured, including women, to hospital.

The capacity of the ground is 30,000 but the crush was so great that half an hour before the start the crowd invaded the playing field. Free fights between the rival factions then took place, belts and sticks being used freely, and police re-inforcements had to be summoned before the hooliganism could be dealt with.

MISTAKEN IDENTITY.

It is reported from Budapest that a big English touring car stopped at Budapest's smartest hotel and a well-dressed young man engaged rooms for himself and his chauffeur. Expensive luggage was brought in and the young man registered as John Marrow, an engineer from England. He instructed a porter not to disturb him whoever called and retired to his rooms. The young man had exchanged in the lounge a few words with a Hungarian actress and she informed the porter confidentially that Mr. Marrow was actually the Prince of Wales whom she had often seen from the stage in London. Naturally the porter broadcast this confidential statement to the hotel guests and to members of the British Colony. Newspapers and even Government offices were soon informed but the officials decided not to seek to penetrate the visitor's incognito unless officially informed that the Prince had arrived.

After two hours' rest the young man came down stairs and found the hall packed with people including press photographers and reporters. When one of them greeted him as the Prince of Wales, Marrow was startled and then smiled, saying, "I understand, it has happened again." Laughingly he handed his passport to these "loyal enthusiasts" and these established definitely that he was John Marrow, an engineer employed by a Liverpool firm.

ACTIVITIES OF THE LEAGUE OF NATIONS.

It was reported from Geneva that a private session of the League of Nations Council was held on Sunday night at which all Delegates except those of China and Japan attended. The Council took note of the Chinese letter requesting a convocation of the League Assembly.

The Plenary Session of the League Council was held yesterday when the date of the Assembly Meeting was fixed. The report adds that as China's request was based on the application of Article 15 of the Covenant, the Council of the League will continue its discussions of the Far East question in the light of Articles 10 and 11.

PRESIDENT HINDENBURG-RE-ELECTED.?

President Hindenburg has definitely consented to stand for a second term of office.

In his statement Hindenburg says "Should I be elected I will continue truly and conscientiously to serve the fatherland with all my energies. If I am not re-elected I shall have avoided the reproach of having abandoned my post in a period of difficulty," reports the "Daily Telegraph" correspondent in Berlin.

The Field Marshal is now expected to face a second ballot if he is not elected by the first vote where it is almost certain that he will be returned by an enormous majority. For the first ballot he will probably have three opponents - Hitler, Eugenberg, the Nationalist Leader, & Thaelmann the Communist leader.

It is expected that 29,000,000 votes will be cast whereof Herr Hindenburg is to receive half. It is stated that the decision will lie with the Social democrats.

"PEKING AFLAME WITH TRIUMPH."

A message from Shanghai states that eight new transports unloaded at Yangtseepoo, on Monday afternoon last, a further infantry division which brings the Japanese reinforcements up to 20,000 within two days complete with field guns and aeroplanes having arrived.

A clash on a grand scale is now regarded as inevitable unless the Chinese withdraw states the "Daily Telegraph".

The authorities at Tokio explaining to the Foreign Ambassador the reason of this big contraction say that still more troops may be sent. Peking, the Chinese capital is aflame with triumph over the reported success of the army at Shanghai. Foreign observers have not made any attempt to minimise the seriousness of the position. It is believed in Shanghai that General Chiang Kaishek who is now at Nanking may at last be persuaded to reinforce the 19th Army at Shanghai. His right-hand man Wang Shing-Wei who has been sent to Shanghai to endeavour to persuade the 19th Army to evacuate the area that has been won over to their cause.

From Tokio it is reported that an epoch-making Conference is being held in Mukden to-day when representatives of the four eastern provinces will discuss the creation of a new Manchurian State.

Several questions relating to the Far Eastern situation were answered by the Foreign Secretary, Sir John Simon, in the House of Commons on Monday. He said that there had been little change in the situation at Shanghai in the last few days except for the arrival of the Japanese reinforcements. The British minister in China reached Shanghai last week and in accordance with his instructions has been exerting himself in every possible way, both by using his good offices with the Chinese and Japanese authorities and by consultation with representatives of other powers including the United States with a view to securing an agreement for the cessation of fighting.

Sir John Simon deeply regretted that these efforts had not yet borne fruit but they were being continued. As to the Chinese appeal to the League, Article 15 of the Covenant provided that a dispute submitted to the Council shall be referred to the Assembly as the request of either party to the dispute, provided the request be made within fourteen days after the submission of the dispute to the Council.

The Chinese representative made a request before the fourteen days had expired and consequently if he so desired the dispute was automatically referred to the Assembly. How soon the Assembly could meet and what it could do when it met were questions demanding careful consideration. The Council was still sitting at Geneva and Sir John hoped to return there as soon as possible.

VETERAN'S RIDE TO LONG ISLAND.

Adventure On A "Strayed" Horse.

The story of how a lost horse was found not to have strayed but to have been borrowed, quite legitimately, by a veteran colt tamer, has been revealed as a result of the exploit of Mr. A.J. Barnes of Stanley who, although over seventy years of age, rode out to Long Island on Saturday - a journey of over two and a half hours - and returned the next day.

For some time "Famous", as Mr. Barnes is familiarly called by his friends, has had it in his mind to "just show 'em" that he still knew how to ride, and magnanimous "Soss", so the story goes, willingly promised him the loan of his horse, not expecting for a moment that the venture would be undertaken. "Famous", however, at last decided to put his words to effect and on Saturday took advantage of "Soss's" benevolence.

Now, on Sunday "Soss" bethinks himself a little ride wouldn't come amiss, so, out he goes to look for his trusty steed. He tramped here and there; he crossed the Common this way and that, but never a sign of the brute did he see. He even enlisted others to help him in his search. At last, after much wailing and gnashing of teeth the prospect of even a pleasant outing had to be abandoned and in its place had to be endured the mortifying thought of the loss of his animal.

But "Famous" turned out to be a kind fairy for he rang "Soss" up to prove that he was as good as his word.

We learn that "Soss" is economising in benevolence and nobody short of a centenarian or he will elicit the promise of a ride.

JAPANESE PROMISES VIOLATED.

It is officially stated that the troops landed from the nine Japanese transports on Monday have marched through the International Settlement to the Japanese at Hong Kew which is partly within the Settlement. It is expected that a further 10,000 Japanese troops will land in Shanghai to-day and that all the troops are to be concentrated for a great attack on Chapei, a suburb of Shanghai.

The Japanese by landing in the International Settlement have violated the promises made to the Consular authorities in Shanghai.

The Japanese General commanding the reinforcements appears convinced that military action and not negotiations alone can expel the Chinese 19th army from Shanghai. The United States have sent a strong protest against the assault on their Vice-Consul by Japanese marines.

The British Government have sent another protest to Japan against the use of the International Settlement as a military base.

MUSSOLINI'S VISIT TO THE POPE.

It is reported from Rome that on Saturday Signor Mussolini paid his oft-postponed visit to the Pope at the Vatican.

A dramatic moment came when the door leading into the Pope's private library opened showing Pope Pius XI, a striking figure in white, moving slowly towards the threshold.

Signor Mussolini stood still for a moment with his right arm raised in the Fascist salute and then approached the Pope and knelt kissing his ring. The Pope asked him to rise and sit in an armchair which he placed close to his own.

It is learned from a reliable source that every point of friction was frankly discussed and no subject was dropped until a mutual understanding had been reached.

Afterwards Signor Mussolini entered St. Peter's, crossed himself and knelt in silent prayer.

EXCHEQUER RECEIPTS AGAIN SATISFACTORY.

Deficit Reduced by 225,000,000.

It is reported from London that the weekly Exchequer receipts issued on Tuesday night are again highly satisfactory.

Last week's revenue amounted to 233,700,000 and the expenditure was 28,000,000. The surplus for the week was 225,700,000 pounds.

This reduced the deficit from 2100,000,000 to 274,300,000. The deficit last year at the same date was 298,000,000. Income tax and sur-tax continues satisfactorily.

The Revised Budget contemplated a total from this source of 2365,000,000, of which 2265,300,000 had been received up to last Saturday. There was still 279,700,000 to be collected before the Financial Year ends on March 31st whereas last year the amount outstanding at this same date was 2115,000,000.

JAPANESE REINFORCEMENTS LANDED.

Reply To Chinese Move.

It is reported from Shanghai that all day on Tuesday the roads through the International Settlement resounded with the rumble of trucks loaded with munitions and with the tramp of Japanese troops who are taking up their quarters in Hong Kew Park.

Up to the last hour peace negotiations have been continuing but there seems little prospect of the Chinese voluntarily withdrawing to the distance that the Japanese have demanded.

It is learned the sixteen Japanese tanks have been landed. In reply five Chinese army corps are concentrating on the Shanghai-Hanking railway area and the Chinese 19th army corps still holds positions near Shanghai.

Troops movements are proceeding to north China. The Chinese circles in Peking assert that the Japanese intend to send a strong force to invade Shangtung province.

INDIAN BUDGET SHOWS SERIOUS DEFICIT.

It is reported from Bombay that the effect of a trade boycott and a mania for hartals is reflected in the Budget presented at the opening of the Bombay Council on Wednesday.

This shows a deficit during the current year of 2832,500 as against 2457,500 originally anticipated. The next budget contains a further deficit of 2547,500. After the expenditure is cut by 2172,500 the remainder of the deficit will have to be met by borrowing.

Sir Frederick Sykes said that the Congress was entirely to blame for the parlous state of the Presidency. DEVELOPMENTS IN THE FAR EAST.

It is reported from Shanghai that two British blue-jackets were wounded by a Chinese shell on Wednesday and subsequently died. Simultaneously three Chinese passengers aboard the steamer "Suiwo" were killed and five were wounded.

The authorities at the International Settlement report that 45 shells fell in the settlement on Tuesday night killing four persons and injuring 14. It is reported that the Chinese explanation of the shelling of the British wharf at Hong Kow is that the gunners mistook the liner "Carthage" which was lying alongside the "Suiwo" for a Japanese transport.

During the night on Tuesday shells fell in the river perilously close to the "Carthage". Although heavy intermittent shelling took place throughout Wednesday it is understood that the Japanese are delaying their offensive pending an attempt at peace negotiations on the spot. The Japanese Government has authorised the dispatch of an ultimatum to the Commanders of the 19th Army fixing a date for the evacuation of all Chinese forces and the establishment of a neutral zone twelve miles wide.

News from Peking is rigidly censored. It is learned that Marshal Chiang Kai-shek is going to Shanghai and it is believed that he will attempt to persuade the 19th Army to evacuate the Shanghai area.

A message from Geneva states that the publication of the League Council's note to Japan shows it to be a counterfeited appeal.

THE NORTH CAMP ROAD.

Admiralty Wireless Station Reached.

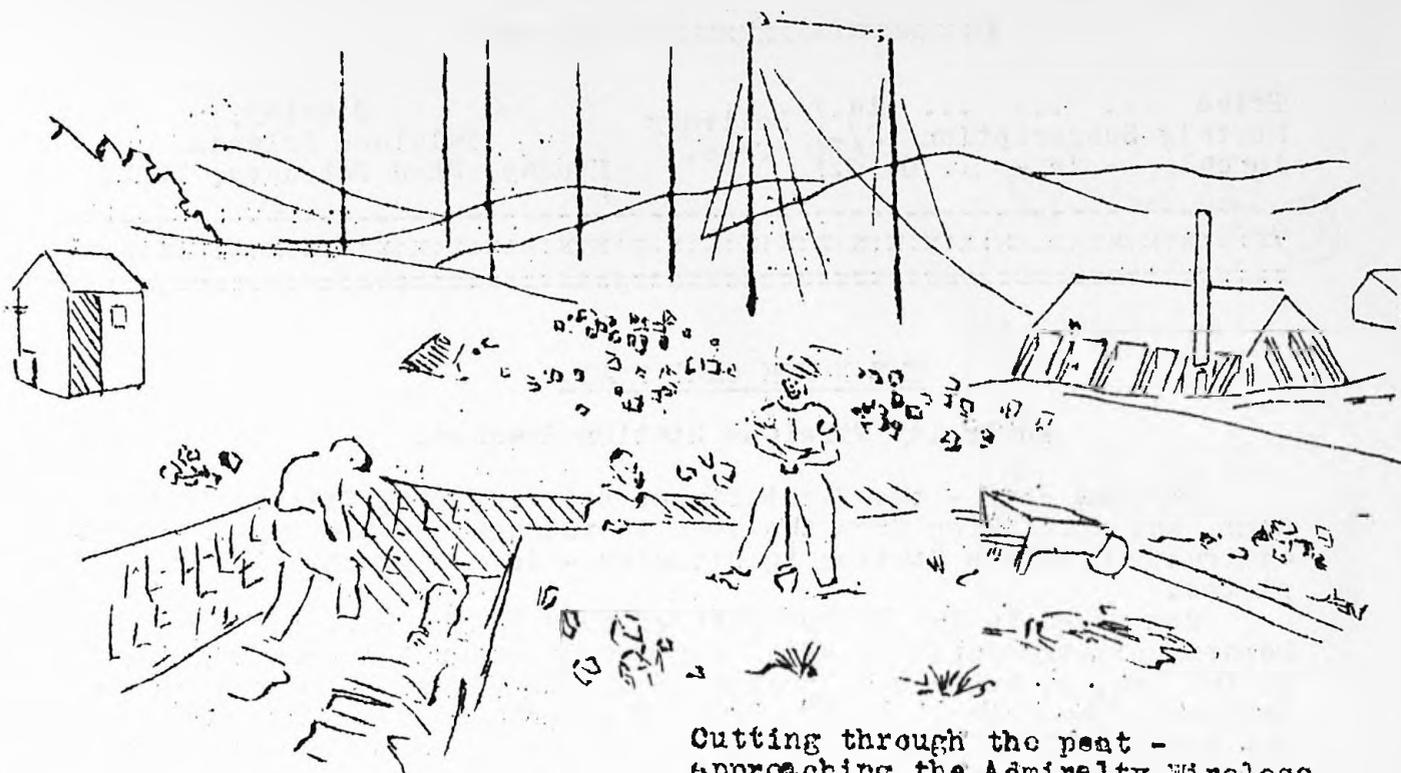

The new road - the first finger pointing from Stanley to the Camp, and stretching from the town to the head of the Bay where the Admiralty Wireless Station is situated - is now practically completed.

Commenced in the latter part of 1929 by the Public Works Department, the work has gone on steadily under the keen supervision of the Hon. G. Roberts, Director of Public Works. The road makes easy the first stage on the way to the North Camp and has served the beneficial purpose of giving employment to some twenty-eight men. Moreover, by its communication is effected from Stanley to Bender's Farm (behind which the town water supply is harnessed) and the Admiralty Wireless Station; it serves also to open up a valuable source of peat supply for the Government, thereby providing a part solution to the problem which is becoming more and more serious each year - namely, the increasing distance of the peat banks from the town.

The inhabitants of Stanley also benefit from the construction of the road for it should provide a pleasant walk as well as, when finally completed, a smooth and comfortable surface for motor vehicles. Leaving the town beyond Little Italy and Sullivan House, and stretching directly westwards in the direction of the Two Sisters, the road takes almost a straight course to the Wireless Station, the only exception being a bend on

Looking eastwards in the direction of Stanley.

Cutting through the peat - approaching the Admiralty Wireless Station.

approaching the bridge over Melton's Stream. On each side of the road, which is twenty feet wide, is an open trench for drainage purposes.

In view of the nature of the ground traversed it is interesting to notice that in some places it has been found necessary to cut through peat banks to a depth of five feet or more. A mattress of large rough rock forms the foundation and over this is placed a crushed stone covering with a top dressing of yet finer stone to form the surface. Altogether 15,840 tons of earth have been excavated; of the 9,300 tons of stone collected from the beach and adjoining land, 4,000 tons have been crushed for metal on the site by the portable crusher, and 1,200 tons have been used for the top dressing. From the roadway itself 9,000 cubic yards of peat alone have been won while it is estimated that there is a thirty years' supply in the vicinity.

FIERCE FIGHTING NEAR SHANGHAI.

British & German

Preparations For Evacuation.

On Friday the Japanese completed their operations for the moment against the Chinese 19th army; a continuous stream of army lorries passed through Shanghai taking troops and ammunition to the Japanese front line. There was no sign of the Chinese attempting to withdraw from their positions.

Another press report stated on Saturday that after a fierce battle lasting over seventeen hours firing ceased at 1 o'clock on Sunday morning, the Japanese announced that they had completed their operations and had attained all their objectives for that day with the exception of Woo-Sung, and they intended to renew operations at dawn.

During the day, although they met with an unexpected and vigorous defence by the Chinese, the Japanese succeeded in capturing the village of Kiangwan, about three and a half miles north of Shanghai.

Although subjected to an intense bombardment from aeroplanes and warships, the Chinese held the Woo-Sung forts. The Japanese aeroplanes and artillery and destroyers kept up a heavy bombardment of all the Chinese positions but apart from the Chinese retreat from Kiangwan, the Chinese succeeded in checking the advance of the Japanese infantry.

Several of the Japanese tanks were destroyed by land mines and hidden batteries. So skillfully were these mines and batteries used that the Japanese were compelled to make sudden alterations in their plans. Shells fell on the International Settlement during Saturday but there were no casualties reported.

Firm Representations By Foreign Powers.

Later messages stated that heavy fighting took place throughout Sunday north of the International Settlement. The central point of hostilities is apparently, about three miles north of the Shanghai-Woo-Sung line. Here, the Japanese obtained a footing but although the village was quickly in flames, Chinese machine gunners held the Japanese at bay and prevented the capture of the village. Throughout the day the Japanese were engaged on an outflanking movement and advanced some distance beyond Kiangwan.

Japanese warships, aircraft, artillery and tanks were used against the Chinese positions, and the Chinese in return laid land mines against the tanks claiming several destructions.

The Japanese have also been heavily engaged near Woo Sung where artillery fire has been particularly severe. In the International Settlement conditions were practically normal although there was a danger from stray shells while the hostilities were being conducted so near the Settlement. The danger did not appear to have increased on the resumption of fighting. Probably the firm representations made to the Japanese and Chinese authorities by the neutral powers have had that effect, meanwhile complete calm is maintained in the International Settlement.

Plans have been made for the evacuation of British subjects should it be found necessary. They will be taken either to Hanking or the Philippine Islands where, it is understood, the American Government has offered to provide sanctuary.

On receipt of the information from the German Consul General at Shanghai, the German Foreign Office have ordered the Hamburg-American line to get ready a sufficient number of steamers to transport the German residents to a place of safety.

WEEK-END SHOOTING.

Dartmouth Force Rifle Association.

1914 V. The Rest.

On Sunday a most interesting match was shot off between two teams captained by Sgt. J.R. Gleadell and Pte. E.J. McAtasney, the former comprising members who were serving in August 1914, the latter selected from the remaining members of the Association.

Shooting was somewhat difficult owing to a shifting fish tail wind; nevertheless some good scores were registered on both sides. The "Old Soldiers" went away with a small lead of two points at the close range, the totals being 347 against 345. The "Youngsters" however, turned the tables at 500 yards, totalling 370 against 353; they also took a further three points at the 600 yards, thereby winning a most enjoyable match by 18 points. The scores were:

THE IRISH FREE STATE ELECTION.

De Valera Comes To The Fore.

The latest state of the parties in the Irish Free State election on Saturday was : Republicans 65, Government 50, Independents and Farmers 15, Labour and Independent Labour 9. The final result was expected on Monday.

Eight of Mr. Cosgrave's ministers have retained their seats. The Labour Leader, Mr. T.T. O'Connell was defeated. Mr. de Valera, as head of the largest party, is expected to form a Ministry with the assistance of Labour. The Labour Party announces that it will not agree to any change in the terms of the treaty "except by friendly negotiations with Great Britain."

De Valera, in a statement, declared that he intended to withhold the payment of £3,000,000 a year to Great Britain in respect of land annuities.

Despite the fact that the ring leaders of the recent mutinies at Dartmoor prison are segregated from other prisoners and are undergoing solitary confinement, they are still defiant. FURTHER NEWS FROM THE FAR EAST.

Although the Japanese are attacking with artillery, aeroplanes and armoured cars, the Chinese are contesting every inch of the ground.

The Japanese continue to hold the Western portion of Kiangwan Village  $3\frac{1}{2}$  miles from Shanghai but late on Monday afternoon the Chinese made counter-attacks and succeeded in establishing themselves on the outskirts of the village and kept up a constant rifle fire on the Japanese. At nightfall the day's battle left the position little changed; despite the furious attacks by the Japanese, they were unable to force the line through the Chinese machine guns at Kiangwan.

Fighting has not yet occurred between the large bodies of troops as the Japanese have always sheltered behind artillery, aeroplanes and smoke screens. The Japanese Army Headquarters at Tokio have published an announcement that reinforcements will be despatched immediately if it is true that General Kaishok's troops have reinforced the Chinese 19th Army.

Monday, the third day of the battle, started with the thunderous roar of artillery from both sides. At Woo Sung the Chinese have received fresh supplies of ammunition. As there has been no fighting in the immediate neighbourhood of the International Settlement it is thought that there will be no need to evacuate the British women and children at present.

Later news states that the Japanese have made little progress in spite of two days' fighting.

FATHER KENNY'S FAREWELL.

TO THE COLONY.

Magallanes.

5th January, 1932.

To the Editor of the "Penguin"

Dear Sir,

Being ordered to return urgently to my parish in Argentina it has been necessary for me to leave the very pleasant town of Stanley, perhaps for ever. Although my coming was arranged for only three months, mainly for the purpose of being a companion to the Very Reverend Father Migone, I had the great pleasure of extending my stay an extra month and a half, thus enjoying both the honour of the company of such a virtuous and sacrificing priest as Father Migone and the satisfaction of passing Christmas amongst people of whom I had grown very fond.

I am going back then, with many regrets but notwithstanding this, I can be truly happy in knowing that I leave Father Migone in slightly improved health and amidst such kind friends among whom the goodness of his work is manifest. I would go so far as to say that I believe all Stanley hold him in an esteem of fatherly veneration rather than that of even a good friend.

In spite of my willingness it was impossible for me to bid farewell individually to the many people with whom I became acquainted in the Colony, during my short but happy stay and so, Mr. Editor, please try to interpret in the interesting pages of the "Penguin", my sincere esteem to all.

Stanley, Good-bye, hoping if not in this world, we shall meet together again in the Everlasting, following the true Faith of our Old Fathers for ever.

Your grateful and kind friend,  
Mr. J.T. Kenny.

WOUNDED SOLDIER'S APPEAL.

A Message To The Falklands.

Anzac Hospital,  
Brisbane,  
Australia.

21st October, 1931.

To the Editor of the "Penguin"

Dear Sir,

I am taking the liberty of writing you this letter. I am a wounded soldier still in hospital suffering from being blown up at Gallipoli on the 8th August, 1915. I would be deeply obliged to you if you would insert this letter in your paper asking anyone in the Falklands to write to me.

I am a native of Edinburgh but I was out here in Queensland when the war broke out and joined up in the original Anzacs on the 12th August, 1914. I was wounded at the landing at Gallipoli on the 25th April, 1915 (Anzac Day), within a few hours of arriving there. For a time I was in the Hospital at Alexandria, Egypt but returned to Gallipoli on the 27th July, getting my second dose on the 1st August when I was blown up at the same time. They sent me to Herefield Hospital, London, and then back to Australia where I am now still in dry dock.

There are sixteen lads in this Hospital but I am the only Scot. We all try to be happy and cheery, cracking jokes at each other's disabilities to pass the days away. Three of us have made a start to collect stamps so any sent to us will be gratefully welcomed. I am enclosing a snap of some of the lads and myself in my ward; you will notice that three of them are blind.

Before coming out to Queensland I served for twelve years in the Royal Scots, going through the South African War as well as serving seven years in India and Burma. Anyone who would write to me I will promptly reply to their letters.

A kind friend in Stanley sends me your wee interesting paper. Hoping you will do this kindness for me,

I am,

Yours faithfully,

(Sgd.) James Robertson Munro.

CASUALTIES IN FAR EAST CONFLICT.

The Japanese casualties are officially stated at 300; the Chinese figures are unknown, but on Tuesday morning 326 wounded Chinese were admitted into the Settlement. The Japanese captured Mahang early on Tuesday morning. CHINESE FIRE ON INTERNATIONAL SETTLEMENT.

British Naval Reinforcements.

The Chinese launched a heavy attack on Hong Kew on Tuesday, shells fell fast and several dropped round the Japanese Flagship anchored in the river off Hong Kew, shells also fell in the river near the dock where H.M.S. "Suffolk" is moored; the Japanese replied with their artillery. The village of Malang which was captured by the Japanese was taken in a spirited bayonet attack.

It is announced in the American press that H.M.S. "Vindictive" with relief crews and a heavy cargo of ammunition has been despatched from England for China to strengthen the Naval force out there.

The Japanese Cabinet held a meeting in Tokio on Tuesday to discuss the advisability of rushing immediate heavy reinforcements to the battle front.

The Chinese Central Government have issued a warrant for the arrest of the former boy Emperor of China who has been reported to have been made head of independant Manchuria.

It is reported from Washington that the American Government, convinced of the futility of interfering in the Sino-Japanese conflict and are only watching events for the protection of the American residents, scores of refugees are reported to be making for the settlement. Hanking is reported to be quiet.

The military authorities at Tokio have despatched two further army divisions to reinforce the Japanese troops north of Shanghai.

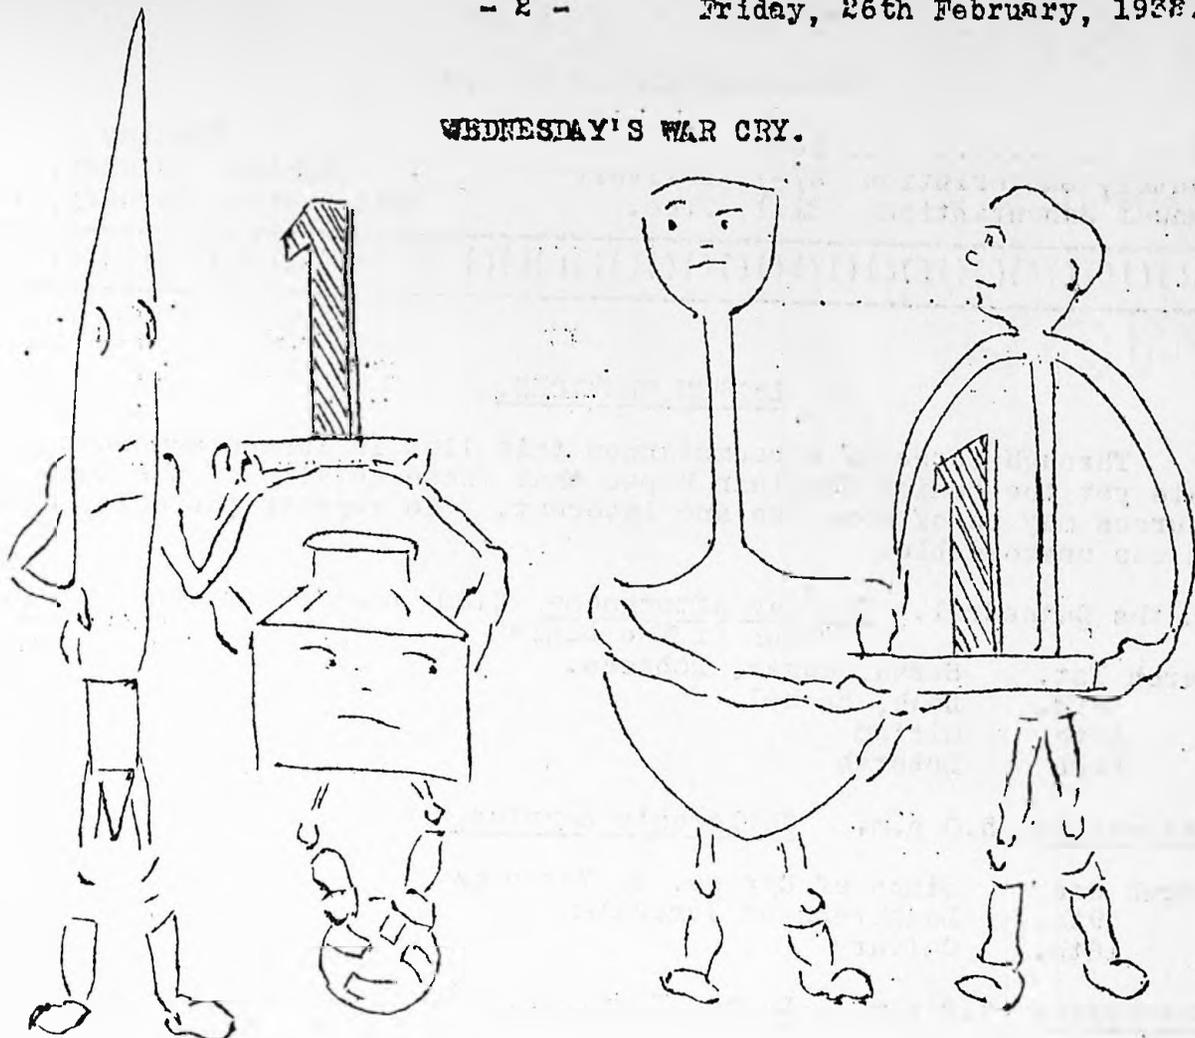

The close of the third day's battle found the Japanese advance checked at all points by the stern resistance of the Chinese troops.

The Chinese at Chapei launched a bombardment lasting three hours on Tuesday and afterwards made a counter-attack. The Chinese artillery opened fire on the International Settlement with 8" guns but fire was stopped after a request from the Consular authorities. The Japanese feel confident that they can end the action within seven or ten days but the Chinese say that they are ready to fight for a year if necessary.

WEDNESDAY'S WAR CRY.

(To the tune of "A Bicycle Made For Two.")

Pushers, Pushers,  
 Give us your answer do !  
 We're half crazy  
 To play you again, oh do !  
 We won't let you off so lightly,  
 And you won't be looking so sprightly,  
 For we'd love to beat you clean & neat  
 By more than a goal or two.

Shovels, Shovels,  
 You give yourselves airs,  
 You're too "aisy", (you do !  
 We'd lick you through and  
 through!!  
 We just didn't score more than one-er  
 Because we knew You're a done-er,  
 And if our men had put in ten  
 What would have happened to you ?

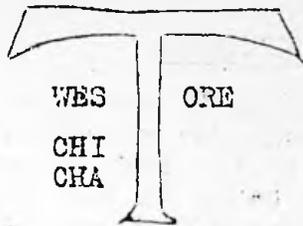

THE "OUTDOORS" 1 : THE "INDOORS" 1.

The third game between the Indoors and Outdoor workers took place on Wednesday and in view of the fact that each had won a previous match the result of 1 - 1 proved most interesting. The Outdoor workers opened the game with the wind in their favour and scored their goal in the very first minute of the game, the point being obtained by G.L. Pallini.

The Indoors' goal was obtained in the second half when A.W. Beardmore sent the ball against the upright from which it bounded, rolled over the line but was blown into play again by the wind.

The Indoors wing men played well but their opponents owed a great deal to their goalkeeper S. Bonner, who gave a great exhibition.

### FINANCIAL OPERATIONS IN GERMANY.

One of the largest financial operations in the history of Germany reached its climax on Monday when the plans for reorganising Germany's great banks were completed. To eliminate the losses, estimated at over 536,000,000 marks, sustained by the banks in the July crash, the Government is prepared to advance 290,000,000 marks of new capital. Moreover, the present capital of the banks is being drastically reduced and some of the most important concerns are being amalgamated states the "Daily Telegraph".

The Danat Bank which was formed by the fusion of the Darmstadt and the National - two first class banks - has ceased to exist and has been anonymously incorporated with the Dresden Bank. The Dresden Bank, saved by the Governmental subscription of 217,000,000 marks is now essentially Government property and will be the largest German financial institution.

Another big fusion unites the Commercial and Private bank with the Barmer Banking Union. The Deutsche Disconto Bank also needs help. The Government is deriving the necessary money mainly from the excess profits which the Reichs Bank made out of the crisis.

### ROMANTIC RE-UNION.

A message from Paris states that Miss Alice Silverthorne of Chicago, formerly Countess Frederick Dejanze, was married quietly on Wednesday in Neuilly Town Hall to Mr. Raymond de Trafford, brother of Sir Humphrey de Trafford. The wedding recalls the drama at Gare du Nord in March 1927 when both were wounded by revolver shots as Mr. de Trafford was about to leave for London. Later the Countess was tried on a charge of shooting at de Trafford but the latter refused to lodge a complaint and asserted that the shot was an accident.

### HUGE BUDGET DEFICIT IN BENGAL.

The Bengal Budget for the present year shows a deficit of 21,000,000 rupees whereof 2,100,000 are due to abnormal expenditure in connection with the terrorist and kindred movements in the Presidency. It is expected that the Budget for the coming year will show a deficit of 16,500,000 rupees whereof 3,300,000 represents expenditure in connection with civil disobedience campaign.

These deficits are to be covered by a loan from the Government of India which will be re-paid by fifty annual payments of 2,500,000 rupees.

LATER SHANGHAI NEWS.

Reliable information from Shanghai states that the Chinese casualties on Thursday are estimated to be 400 dead and 1,600 wounded. The Japanese headquarters had to admit 80 casualties. The great Japanese onslaught on Thursday succeeded in smashing the Chinese defence. They began to retreat pursued by forty Japanese bombing aeroplanes. At the critical moment the Chinese rallied and in a fierce almost fanatical counter-attack stemmed the Japanese advance and retrieved considerable ground. This big push resulted in the Japanese gaining 700 yards territory.

It is suggested in a letter signed by a Herbert Gray, Miss Maude Royden and Doctor K.L. Sheppard, that to terminate hostilities in the Far East a Peace Army should be formed to proceed to Shanghai. The members of this peace army, both men and women, should volunteer to place themselves unarmed between the combatants. The signatories offer to keep the names and addresses of those who have written to the League of Nations at Geneva and to keep them informed of developments.

CHEEFAR EAST STRUGGLE CONTINUES.

A message from Shanghai states that contrary to expectations, the Japanese in falling snow, assisted by tanks and armoured cars attacked Kiangwan village on Wednesday but completely failed to move the Chinese.

The Japanese themselves have officially denied the report that Kiangwan was captured on Wednesday morning. The position of both armies is definitely unchanged.

General Hyesas at the Headquarters declines to state when the Japanese reinforcements are arriving from Tokio states the "Daily Telegraph".

General Tsai Ting-Kai the Commander of the Chinese 19th Army invited a number of foreign correspondents to a tea party in his Headquarters in Chenzu Village on Wednesday. Between mouthfuls of food the General said that the war was going to be a long one.

The 19th Army is receiving full support from the Chinese Government and the hearty approval of the people.

General Tsai Ting-Kai has estimated the Chinese civilian casualties since the big push began on Saturday as being between 1,600 and 1,700. Prior to Saturday the casualties were under 500.

STORMY DEBATE IN THE REICHSTAG.

A message from Berlin reports that President Hindenburg was the subject of another stormy debate in the Reichstag during which the sitting was twice adjourned owing to the uproar.

The trouble began when General Groener the Reichs Wehr Minister sharply rebuked Doctor Goebbels, Herr Hitler's Lieutenant who insulted the Field-Marshal on Tuesday by declaring that Herr Hindenburg was praised by a party of deserters.

Doctor Groener, concluding, said "It is my duty to describe Goebbels' utterance as salummy, not only on the President but on the German Nation."

During the uproar that followed two Hitlerites were suspended. The tumult only subsided when President Loebe threatened suspension for several days which meant exclusion from Friday's vital division when the Opposition still hopes to overthrow the Government.

BRITISH FINANCE.

The estimate for the Civil and Revenue Departments in Britain issued on Wednesday total 2402028,105 and show a reduction of 27,586,660 as compared with 1931.

The Defence Services estimates are to be presented within the next fortnight. It is known however, that the Government proposes to cut about 25,000,000 ~~apart~~ from reductions in pay and pensions.

The Chancellor of the Exchequer, Mr. Chamberlain, can therefore rely on saving over 212,000,000. In addition, Imports Duties, which come into operation next Tuesday are expected to yield 230,000,000. so the Financial year should close on March 31st with a substantial surplus.

FRIDAY'S INQUEST STORY.

Verdict Of Felo-de-se.

An inquiry was held in the Court Room, Stanley, on Friday morning, into the circumstances by which William Franklin Porteous, a sailor of the R.R.S. "William Scoresby", came by his death on Wednesday last when he was found in his bed-room at the "First and Last" with a wound in his throat and subsequently passed away in the Hospital. The inquest was conducted by the Hon. M.C. Craigie-Halkett, the Coroner, Mr. E.J. Matasny being the foreman of the Jury.

The evidence showed that the deceased, who was a single man and a native of Australia, had been staying at the "First and Last" for eight or nine days since he had been transferred from the R.R.S. "Discovery II" to the R.R.S. "William Scoresby". In the morning of the tragedy, the 24th of February, Mr. M. Jacobsen, the occupier of the "First and Last" called the deceased at about 7.15 when he saw him sitting on the bed, apparently dressed. He went downstairs to have a cup of tea and while in the kitchen his wife called up to Porteous, who they knew as "Bill" to come down and have his breakfast. The sailor replied "All right, I shall be down in a minute," or words to that effect.

The Bo'sun's Discovery.

Shortly afterwards the Bo'sun of the Scoresby, Mr. John Cargill, came in to call for Porteous on his way to work as he usually did, and in reply to his question Mrs. Jacobsen said "You had better go up and see if he is coming down for his breakfast." He went up-stairs and through the half open door of the bed-room he saw Porteous lying on the floor in a big pool of blood. He did not say anything to the man but rushed down-stairs immediately and told Mr. Jacobsen. The latter dashed up at once and seeing "Bill" in that condition came down directly to call the Police, telling his wife not to go up nor to let anybody else do so. He and the Bo'sun straightway went out and met Constable Swain near the Police Station, telling him what had happened. From the time Mr. Jacobsen first saw Porteous sitting on the bed to the time the man was found by the Bo'sun was about twenty minutes. Constable Swain called for a conveyance to take Porteous to the hospital.

When the policeman saw him Porteous was still conscious and asked for a glass of water which was given him. He was partly dressed and lying on his back in a pool of blood with a jack knife on the ground by his left side.

Dr. J. Innes Meir, Principal Medical Officer, stated that the deceased was admitted to the Hospital about 7.53 a.m. on Wednesday in an unconscious condition with a wound three inches long on the left side of his throat. The external jugular vein was severed.

Monday, 29th February, 1932.

After treatment Porteous regained consciousness for a while and when asked how it happened he replied "I must have done it myself". The deceased died in the evening, the cause of death being due, primarily to the wound in the throat.

#### A Normal Man.

Mr. Jacobsen, during his evidence, mentioned that when he called Porteous the latter said that he had not had much sleep that night. The previous evening Porteous had told him that the men on board the ship had been "slurring" him. Porteous had not been drinking heavily and had been to his work every day. He was an awfully nice fellow and up to the evening before he cut his throat there seemed to be nothing wrong with him. He did not mention that he was unhappy but he said he did not like the ship.

Mr. J. Cargill said that the deceased seemed to be a normal man and since he had been transferred from the "Discovery II", a fortnight before, he seemed quite all right and had not been drinking heavily. As far as he knew there was nothing between Porteous and the crew.

#### Could Not Remain In The Ship.

Mr. W.A. Ellison, Chief Officer of the R.R.S. "William Scoresby", said that Porteous was transferred from the "Discovery II" on the 16th of February. He, Mr. Ellison, understood from the Second Officer of the "Discovery II" that Porteous was the finest seaman on board while at sea but he gave trouble while in harbour. The whole day when he was transferred Porteous was drunk and witness did not speak to him. When the deceased came on board the next day at 10.0 o'clock, he told him that it would have to cease and that he must not go on shore or be absent from duty during working hours and then come on board drunk.

On the afternoon of the 23rd - the day before the tragedy - Porteous spoke to him outside the Town Hall saying that he could not remain in the ship because on the day he was drunk he had said a lot of silly things about which the men had been making jokes. He repeated that he would not be down in the morning and witness advised him not to do a silly thing like that. Porteous appeared to be depressed and when he spoke his voice trembled. Witness tried to cheer him up and when Porteous left him he felt that he had succeeded and that the man would be down to the ship as usual the following morning. Mr. Ellison said that he intended to speak to the other men the next morning; he could not do so that afternoon because it was too late and the men had all gone off duty.

#### The Verdict.

In summing up the Coroner said the evidence showed that up to the evening before the tragedy the deceased did not seem in any way extraordinary. There was nothing to show that the man was at all unsound in his mind and if the Jury were satisfied that he took his own life feloniously they should return a verdict accordingly, but if they were of the opinion that the man killed himself whilst insane then that should be their verdict.

After a short deliberation the Jury returned a verdict of Felo-de-se.

NEW ASPECT IN THE FAR EAST.

Further Peace Proposals.

Japan has submitted new Peace Proposals at Shanghai; this follows the news from the Far East and Geneva that Tokio would now welcome a peaceful solution instead of extending her military operations still further says the "Daily Telegraph".

The main points of the new terms are: Mutual withdrawal of all armed forces. A joint committee of Chinese and Japanese military officers to supervise the withdrawal. The Round Table Conference of the Chinese and Japanese and other interested powers to consider the Sino-Japanese problems in the Shanghai area. The policing of the evacuated area and the future status of Shanghai.

It is noticeable that there is no mention of the neutral zone around the city. Further, there is no demand for the demolition of the Woo Sung forts which resulted in the Japanese previous terms being described by the Chinese as "Intolerable". The proposals are not yet officially confirmed. The "Daily Telegraph" political correspondent suggests that the terms are the actual ones which Japan will submit to the special assembly of the League of Nations on Thursday.

It is possible that their publication in Shanghai is due to a leakage in official channels. A new note from Tokio was handed to the League Secretariat on Sunday which re-affirms the willingness of the Japanese to withdraw all armed forces from Shanghai the moment China does so.

HUGE CONSIGNMENTS OF GOLD LEAVE BOMBAY.

A further consignment of gold from Bombay to the west amounting to 2952,275, the greater part of which is for London left there yesterday bringing the total exports of gold since September 1931, to over 237,500,000 at par.

The flow into Bombay continues unabated, the villagers realising their jewellery at a handsome profit. It is now revealed that the Bombay mint is unable to cope with the rush to assay the gold and are considering additions to the plant.

BRITISH INDUSTRIES FAIR SUCCESSFUL.

Nearly 7,000 Overseas buyers from sixty-five countries and 100,000 home buyers - more than double the figures at the same period last year, have visited the London section of the British Industries Fair.

At Birmingham where the heavy industries are exhibiting, the attendances have gone up by 60 per cent. Exhibitors are enthusiastic at the way orders are being booked, some from markets where British goods have never been sold before.

Foreign and home agents alike are greatly increasing their purchases and it is a general opinion that the fair is the most successful ever held.

Meanwhile there has been a race of foreign ships to Britain to land their cargoes before the new 10 per cent Tariff went into force at 5 p.m. yesterday. The Customs agents expected more than 200 ships to dock in the Thames alone during yesterday.

1,000,000,000 DOLLARS ON CARS.

A message from New York states that Mr. Henry Ford has announced that he will risk everything to revive the American Industry by the expenditure this year of 1,000,000,000 dollars for the construction of 1,500,000 motor cars of the new V.8 type and of the improved four-cylinder models. This is evidence that at least one great manufacturer believes that the time is ripe for a drive to regain prosperity.

Mr. Ford's plan will be to engage 400,000 men and increase business for many mines and mills.

FURTHER BLOW FOR BRITISH COAL.

It is reported from Berlin that the monthly imports of British coal into Germany will be reduced again by 50,000 tons from to-day, and by a further 50,000 tons from April 1st.

The coal Commissioners' order making these reductions fulfills the demands of the Ruhr colliery owners that the quota of British coal admitted should be reduced by two-thirds.

In the Ruhr basin the output of coal has sunk from a monthly average of 207,000 tons in 1929 to about 240,000 tons in the present month while the number of miners employed has fallen by 160,000.

A severe curtailment in the coal production of Durham and Northumberland will be rendered inevitable by the Ruhr coal commissioners' new order which will reduce British sales almost to vanishing point.

GOLF CHAMPION WOUNDED IN CLUB RAID.

Mr. T.P. Perkins, a former British amateur Golf Champion, was wounded in the thigh early on Saturday when six armed and masked bandits raided the Embassy Club at Miami states a message from New York.

The bandits entered the kitchen and rounded up the staff and marched them into the ballroom. Two policemen off duty and one in plain clothes happened to be in the kitchen with the staff and when they reached the ballroom the officers opened fire on the bandits. Two bandits were killed and two wounded. Mr. Perkins the only guest wounded was used as a shield by the gunmen.

PROJECTED INTERNATIONAL EUCHARISTIC CONGRESS.

Procession 17 Miles Long.

A message from Dublin states that a gathering of a million Roman Catholics and a procession of worshippers nearly seventeen miles long are among the features of the International Eucharistic Congress to be held June 20th to 26th. which will provide a spectacle unparalleled in the history of Dublin.

215,000 will be spent on decorating the city and two altars will be specially built for the solemn Pontifical High Mass which will be held during the six days, one in the Phoenix Park and the other on O'Connell Bridge. These services are expected to attract millions of people.

BEER BOYCOTTED.

It is reported that at present Berlin is practically "dry" as far as draught beer is concerned. The Boycott Committee has forbidden the tapping of fresh casks and some 13,000 public houses and restaurants have sternly refused to supply beer to their customers.

The trouble began when the price dictator ordered a cut in the charge for beer without reducing the beer tax and merely promising the latter concession by April 1st.

If the boycott is not called off soon it is likely that a bottle of beer will be unobtainable. Strong opposition against the Boycott is developing. Thousands of small publicans are being brought to the verge of ruin and Brewery Companies, who lose every day of the boycott profit on 7,000 barrels, are also seriously alarmed and are trying to mediate.

SIX WORLD'S RECORDS BROKEN.

A message from Paris states that four British motorists, Kaye Don, G.E.T. Mynston, E.A.D. McRidge and A. Denly broke six world's records at Monthery on Sunday.

The new records are : 500 kilometres in 2 hours 38 minutes 14.82 seconds. 3 hours - 568.891 kilometres. 1,000 kilometres in 5 hours 18 minutes. 1,000 miles in 8 hours 35 minutes. 6 hours for 1,130.902 kilometres. 2,000 kilometres in 10 hours 42 minutes.

The Delage Company chose four drivers to attack the 24 hours and 48 hours records. The men arrived by air on Saturday and began their attempts early on Sunday morning.

A LOST PROFESSOR.

Clairvoyant's Confident Theory.

Zurich academical circles have been greatly puzzled of late by the mysterious disappearance of Professor Dr. von Cleric, no trace of whom or explanation of the fact could be found until the well-known clairvoyant, Fred Marion, was called to help. After having first been tested in an assembly of the Zurich Physicians' and Surgeons' Society with the most astonishing results, he was given a sealed envelope containing a postal card written by Professor von Cleric to one of his former pupils. After feeling it the clairvoyant stated that the contents were written by a man of the best society, very learned, in a distinguished position, very active, with numerous acquaintances, but of an unhappy family life.

"I see him leaving home, absolutely clear in his mind, mounting some vehicle, getting out again, falling stones ... water ... no more. The man is dead." Led to the professor's home, he first declared that he could not work there as somebody was disturbing him, but then he stated that the accident had taken place on a certain spot on the Walensee which is situated on the lines from Zurich to Coire. That region was well known to the professor as he had done military service there on several occasions. On further investigation it was found that the professor had, indeed consulted his military maps before leaving, so that the clairvoyant's statement is backed up by every probability. These facts were handed to the police but they declare that, owing to the sheerness of the bank and the great depth of the lake, corpses have only on very rare occasions been recovered from its bosom so that probably no further light will be thrown upon this mystery.

SINO-JAPANESE CONSULTATIONS.

Consultations took place on Monday between the Chinese and Japanese leaders on board H.M.S. "Kent" the flagship of Sir Howard Kelly, and, arising out of this, the council of twelve members of the League of Nations met during that afternoon and later a further public meeting was held, presided over by H. Paul Boncour. He called upon Sir John Simon, who said that the report he had received from his Government stated that during Monday afternoon a meeting had been held on board the British Flagship at Shanghai. Those present were: Mr. Wellington Koo and General Wang representing China and Admiral Yamura and Mr. Matsuko representing the Japanese. The meeting lasted two and a half hours and Sir Howard Kelly was present throughout and reported the meeting as a most friendly one and said that he felt sure that peace would be proclaimed very soon.

Mr. Paul Boncour expressed his satisfaction at the news delivered by Sir John Simon.

A Washington message says that the United States Cabinet is divided on the question of applying economic pressure to Japan and will therefore withhold any decision until the League of Nations has taken definite action according to well informed sources.

SET BACK TO PEACE PROPOSALS.

The prospects of an immediate truce at Shanghai are now less promising. The proposals formulated on Sunday on board Admiral Sir Howard Kelly's Flagship are still under discussion states the "Daily Telegraph", and may yet form the basis for an agreement.

Late on Tuesday the actual position summarised was: Japan accepts in full the League Council's proposals for the Round Table Conference and the maintenance of peace while the Conference is proceeding. She rejects the proposal drawn up in H.M.S. "Kent" for the simultaneous evacuation by both sides. She insists that before the Japanese troops withdraw the Chinese must do so voluntarily or be forced back to the line 12½ miles from the International Settlement.

China asks for the cessation of fighting and a mutual and simultaneous withdrawal with a neutral commission to observe the withdrawal. They also ask for reparations for the damage caused by shelling and aerial bombing. Japan's acceptance of the League terms was received at Geneva on Tuesday, and communicated to Sir John Simon who urged upon the representative necessity of ending the conflict. Despite the truce talk the Japanese continue to land reinforcements at Shanghai. It is understood that the Japanese forces there now total 60,000.

THE TARIFF ADVISORY COMMITTEE.

The personnel of the Tariff Advisory Committee set up under the Import Duties Act was announced by Mr. Chamberlain in the House on Tuesday. The Members are: Sir G. Allan Power, Sir U. May and Sir E. Chapman. The Committee's chief function will be to consider representations regarding the provisions of the Act and to recommend additional duties on articles subject to 10 per cent duty.

THE END OF FREE TRADE.

Drama marked the end of the Free Trade Era and the coming of Tariffs on Monday evening. The change took place when the Customs Houses closed their books at 5 p.m. It is calculated that at least fifty vessels failed to reach the Thames in time, says the "Daily Telegraph". Hundreds of ships however reached Britain in time to escape the Tariff. Throughout the day the Agents besieged the Customs Houses and the officials state that it was the busiest day in history. The Mersey was also crowded with ships.

AUSTRALIA'S CRUCIAL TIME.

A message from Melbourne states that Mr. Stanley Bruce, the newly appointed Australian Minister to London, stated on Tuesday that the crucial time would come in November this year when Australia would have to renew her £13,000,000 loan.

If the renewal was successfully arranged he would be able to return home.

SUPER-TARIFF FOR GERMANY.

The Berlin Cabinet has approved of Germany's "Super Tariff" which doubles the General Tariff Duties. According to the newspapers the object is to prevent the denunciation of the Franco-German Commercial Treaty. It may however be immediately applied to imports from Canada, Australia and Poland with which Germany has no Commercial Treaties.

TENSE SITUATION IN CALCUTTA.

A message from Calcutta states that a tense situation has arisen there over the case of two Moslem murderers. There is bitter feeling among the Moslems against the death sentences and there is a danger of serious Communal trouble.

The men were convicted on a charge of stabbing a Hindu bookseller to death in 1930 whom, it is alleged, was dealing in works which defamed the Koran. They were sentenced in December but the executions were postponed several times.

Mr. Edward Villiers, the President of the European Association, is now in Delhi personally appealing for the Viceroy's intervention. Last Saturday the executions were fixed to take place within five days. Should they be carried out the repercussions of the Moslem community will be awaited with anxiety.

JAPANESE RETICENT.

League Demands Immediate Withdrawal Of Troops.

It is reported from Geneva that there has been great excitement in the League circles at the latest news from Shanghai. It appears that despite the Chinese withdrawal of her army Japan is apparently not prepared to accept the armistice terms arranged by Admiral Kelly.

After an urgent meeting of the League Council the following telegram was despatched to the Japanese Government. "We demand an immediate reply to Monday's proposals of the League Council. The reply shall reach us not later than noon on Thursday and hostilities are to be ceased at the latest by 4 p.m. on Thursday."

A later message states that the League Council will not assemble while the guns are still roaring.

It is reported from Shanghai that the Chinese retreat from the positions they were evacuating during the night on Tuesday was continued on Wednesday. It is stated that their intention is to occupy the prepared line to the west, a little over twelve miles from Shanghai to test the Japanese Commander's promise to cease all military activities provided the Chinese withdrew to a line twenty kilometres from Shanghai.

Throughout the day the Japanese infantry followed up the retreat and fighting occurred with the Chinese rear guard. By nightfall on Tuesday the Japanese had occupied Chenju and Tazang and were approaching Nansiang where fresh positions have been occupied by the Chinese. It was later reported that the Japanese had taken Nansiang.

The Japanese state that the Chinese retreat was enforced by the successful attacks against their centre on Tuesday and that outflanking was caused by the arrival of fresh Japanese divisions at Liao.

COMPLEX SITUATION IN SHANGHAI.

A situation of some complexity exists regarding the actual position in Shanghai.

When in the League Assombly met again on Wednesday evening the Chinese delegate Mr. Yen, declared that the negotiations for an armistice had broken down. When the Japanese Delegate Mr. Matsudaira spoke immediately afterwards he read a telegram stating that the Japanese military and naval Commanders had signed an order for all their troops to halt on their present positions and cease fighting provided the Chinese took similar action.

In the House of Commons on Thursday afternoon the Japanese order to cease hostilities from 2 p.m. Shanghai time, was announced. Shanghai press messages on Thursday night state that further meetings were arranged to be held yesterday between the Chinese and Japanese authorities. It is understood that the Commander of the Chinese 19th army is reported to have ordered the cessation of hostilities as from Thursday night.

Some light firing by the Chinese from their new positions is stated to have occurred during Thursday but it is possible that this may have resulted from the confusion consequent on the rapid developments of the last few hours.

INVESTIGATION OF AFRICA'S DIAMOND INDUSTRY.

A message from Capetown states that the Minister for Mines Mr. Fourie, said in the House Assembly on Thursday that the Government had appointed a commission consisting of Judge Gardiner, Ross Francis, the former Chairman of Debeers, and Mr. F.W. Beyer, an ex-Minister of Mines, to investigate thoroughly the conditions in the diamond mine industry.

It is announced that this was followed by an attack by Sir Ernest Oppenheimer, Chairman of Debeers's, who declared that the Government policy was mainly responsible for the closing down of the mines. He said that the industry stood on the brink of disaster but that it might be saved if the Minister of Mines was properly advised.

WITHDRAWAL OF THE CHINESE ARMY.

Following the withdrawal of the Chinese army during Wednesday night over 12½ miles from the International Settlement - the limit to which Japan has insisted that the Chinese should withdraw - the general peace conference held on board H.M.S. "Kent" on Wednesday was renewed.

It was revealed afterwards that the Japanese military demanded as a condition for the cessation of hostilities that the Chinese should withdraw to a distance which will be determined by a further Conference.

The Chinese military leaders are not averse to negotiations but they declare that the peace terms must be fair and reasonable, otherwise they are prepared to carry on their resistance to the bitter end.

KELPERS BEAT THE U.Ks.

In a well contested match yesterday afternoon a team of Kelpers beat an eleven of "U.K.s" by the narrow margin of 2 - 1.

Throughout the game was fast and in spite of the strong winds blowing from the north some good football was seen.

The Kelpers played with much more dash than their opponents who also failed to mark their men effectively. Both the winners' goals were scored in the first half when the wind was slightly in their favour, and both were a direct result of a smart pass from Aldridge on the right. In the first instance D. Fleuret put the ball into the net after a brush with the goal keeper who ran out in an attempt to save, and in the second instance W. Grierson scored with an excellent shot.

In the second half both goal-keepers were well tested but no further score was made until well on in the game when Beardmore, with the ball at his feet, evaded a rush by one of the backs and with a clear field in front of him, put his opportunity to good purpose.

In spite of determined efforts by both sides the match resulted as stated. Mr. Lunnacre kindly refereed.

A BREAK WITH ANCIENT TRADITIONS.

It is learned that the Pope is shortly going to issue a decree bringing about a change in the composition of the Sacred College by reducing the number of Cardinal Bishops from six to one says the "Daily Telegraph". It is understood that the present holders will retain this title with one exception. Their dioceses will, however, be absorbed in the See of Rome and administered by a Cardinal Vicar.

The step now in preparation means a complete break with ancient tradition but it is characteristic of the practical reforming spirit of the present Pope.

The one ~~remaining~~ Cardinal Bishop will be Bishop of Ostia.

BANK FAILURE IN BERLIN.

The failure of the Trade Bank with 2250,000 losses which is about double its capital, has left sixty per cent of the Berlin butchers temporarily crippled.

Business on Friday in the wholesale markets was seriously embarrassed because the sellers insisted on cash payment and most of the would-be buyers were unable to obtain money.

When it became clear on Thursday that the German Government would not furnish the means necessary to keep the bank going the Vice-Chairman of the Board of Control left the office in a state of great agitation and was found in his home unconscious with an empty veronal bottle beside him.

He died on Sunday morning without recovering consciousness. It is said that the creditors will receive at least thirty per cent of their claims.

LINDBERGH'S BABY KIDNAPPED BY AMATEUR ?

A message from Trenton, New Jersey states that Governor Moore has announced that the general opinion is the kidnapping of Lindbergh's baby was done by amateurs even though the result has been successful.

It is believed and hoped that the baby will shortly be restored unharmed to its parents. This announcement was made after a conference of police officials of ten States and the Federal Government.

A postcard addressed to Colonel Lindbergh was found in the Hartford Post Office on Saturday morning which says "The baby is still safe, get things quiet." The writing is similar to that in the two previous messages posted to Colonel Lindbergh from Newark and East Orange.

Hopes were raised by the detention of a sailor named Henry Johnson a friend of baby Lindbergh's Scotch nurse but after a lengthy interrogation Johnson's landlady asserted that he did not leave the lodging house on the night of the kidnapping.

Statements have now been taken from 600 people and the police have been repeatedly hoaxed.

Despite Colonel Lindbergh's undertaking not to proceed against the kidnapers if the child is returned safely the State Attorney General, Mr. Stevens, says that inexorable justice will be handed to the criminals when they are captured.

THE GERMAN PRESIDENCY.

"Little Willie" Comes To The Fore.

A press message reports that a dramatic development in the German Presidential election, which takes place on Sunday, is the possibility of the "Hohenzollern Crown Prince" opposing President Hindenburg in the second ballot.

It is practically certain that none of the five candidates will have the majority over all the others required at the first ballot.

At the second ballot the candidate with the largest number of votes will be elected the President of the German Republic and the ex-Crown Prince may be substituted for Lt.-Col. Duesterberg, the present choice of the Nationalists and "Steel Helmets".

At a huge mass meeting, held in Berlin on Saturday, states the "Daily Telegraph" Herr Hugenberg, the Nationalist chief, prophesied that between the first and second ballots "much will happen of which the Chancellor and his following have no idea."

When the ex-Crown Prince arrived the chairman, Major Stephani, obsequiously conducted him to a seat on the platform amid a tumult of applause. When Lt. Col. Duesterberg appeared the Prince jumped to his feet and ostentatiously took his hand. As the Colonel's only function is to prepare a way in the first ballot for another candidate, the Prince's gesture looked like a personal acknowledgement of this preparatory service.

The nomination of the Hohenzollern Prince for the second ballot could only aim at forcing President Hindenburg to withdraw.

CONGRESS ACTIVITIES DELAYED.

The Bombay Congress activities which threatened to force the cancellation of £250,000 worth of machinery orders from British firms have been defeated.

The Congress menaces have caused delay in the delivery of the machinery although it was evident that the mill-owners were the unwilling victims of the Boycott.

It is learned that the mill-owners not the machinery agents secretly and asked them to take legal action to force delivery, a step which allows the mill-owners to plead their helplessness to the Congress.

Following the threat of vigorous legal action the Boycott seems to be disappearing. The Congress proposed to engineer a refusal to assemble the machinery but now it is unlikely that any such action will be taken.

had seen in Tasmania finer exhibitions of fruit, flowers and vegetables but he felt sure His Excellency would take into account the variable climate and also the fact that there was very little shelter in the place.

Before asking His Excellency to open the Show the Chairman paid a warm tribute to the assiduous and devoted work of the Committee who had laboured very hard to assure that the Show would be a success.

### The Flowers And Other Aspects.

His Excellency who was received with loud applause, said that it seemed a strange proceeding for him to come down to the South Atlantic - practically on the rim of the Antarctic and in the "Rearing Forties" - to open an Exhibition of this character. He was sure that the people at Home, if they were present, would be rather amazed that such an Exhibition could be staged in the Falkland Islands.

Their Chairman had already pointed out the disadvantage they laboured under with regard to the climate. Of course, in Tasmania the shows he used to open were prodigious affairs; - that Colony was known as the Land of Flowers - the climate was probably the best in the world; therefore, he was not going to make comparisons at all beyond saying simply that he was perfectly sure that the people in Tasmania, if they had the climate with which the Falkland Islanders had to contend, would not be able to put up a better display than the one before them in the Town Hall that afternoon.

"It is really delightful," His Excellency continued, "to come along here. I am an ardent lover of flowers and sometimes, I think, in the world of great things - of great movements producing great personalities and world famous men such as educationalists and scientists - the natures of all would be somewhat softened if they took an active part in the culture of flowers. Really, one of the most delicious of all the great joys of life is to turn away from the great sphere of things, the drab things; to leave the great problems and just walk in our flower gardens. At times I think the affairs of the world would be much more pleasant if people did that kind of thing. It is all very well for people to say 'We can't find time'. It would be well if they made time for these things. To women and children it is a real treat and it must be a real pleasure and joy as well."

There were other aspects to these Exhibitions besides Flowers, His Excellency added. As he looked round he saw that there were some excellent exhibits in the home production sections. It was an admirable occupation for the women-folk to be engaged in that kind of work in their homes and it was a fine thing for the mothers to teach their daughters these useful occupations for when they grew up and had homes of their own they would be able to manage them effectively and make their husbands and children all the happier.

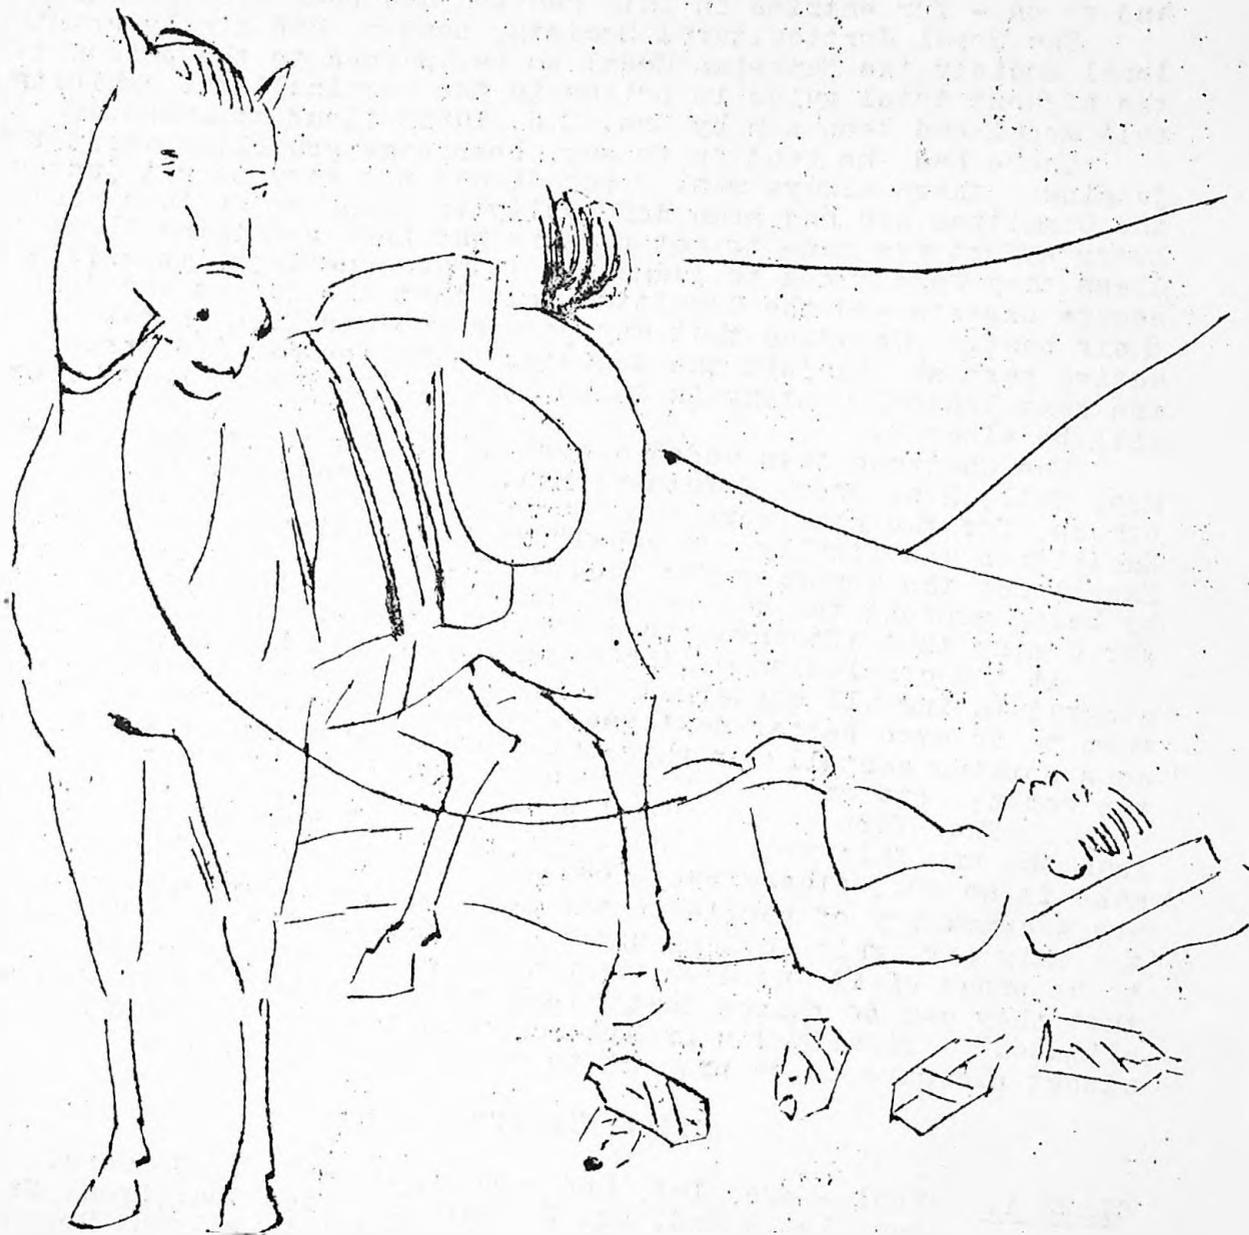

His Excellency went on to say that he hoped the majority of the people in Stanley would visit the Show and support it. Twenty-eight years previously his predecessor, Sir William Allardyce, inaugurated the movement, the first Show, he thought, taking place in 1905. Sir William was also his predecessor in Tasmania and it seemed only natural that, coming after Sir William, he should be present to open the Exhibition that afternoon. He expressed the hope that hiatus which had occurred in the past would not be repeated again and that the Shows would continue from success to success.

In conclusion His Excellency spoke a word of praise to the judges who, he thought, must have had a difficult task in allocating the prizes. In condoling with the losers, at the same time spur-ring them on to even better efforts next year His Excellency reminded them of the old adage "There can never be any winners unless there are losers." (Loud applause.)

### Join The Society.

On Saturday afternoon His Excellency the Governor presented the prizes, being again introduced by the Hon. M.C. Craigie-Halkett, who mentioned that the approximate number of persons visiting the Exhibition the previous day was four hundred while the amount received for entries was over 220, or more than double the sum received in 1931. Entries were fairly strong but the Committee would have liked to have seen more entries under Class A - wool, horse gear, and so on, - for entries in this section had been disappointing.

The Royal Horticultural Society, London, had kindly granted the local Society the Banksian Medal to be awarded to the person taking the highest total value in prizes in the Horticultural exhibits and this medal had been won by Mrs. E.J. Davis (loud applause.)

There had, he went on to say, been some grumbling about the judging: there always was. But it was not easy to get judges and the Committee had had some difficulty in doing so on this occasion. Every effort was made to get persons who knew something about the Class they were asked to judge but it was sometimes impossible to secure experts and the Committee felt that the judges had done their best. He added that any person who was keen on taking an active part should join the Society. The fee was 2/6 annually and the next General Meeting is to be held in June when the officers will be elected.

The Chairman then added a word of thanks to Mr. George Hewing, Mrs. Hall, Mrs. Fred. Berntsen, Mrs. Henriksen, Mr. Jack King and others, for the good work they had done in connection with the Exhibition and finally, on behalf of the Committee, he thanked His Excellency the Governor for the interest he had taken in the event by being present the day before to perform the opening ceremony and for coming that afternoon to distribute the prizes (Loud applause.)

At the conclusion of the distribution His Excellency, after congratulating all concerned on the excellence of the Show, urged them to do even better next year. "A fellow who goes about and does nothing mentally or physically is to be a man or woman out of the world; out of touch with you and me whom, I am sure, love active work. Therefore, next year I shall expect to see a Show even better than the one this year. So I hope you will make up your minds to make it so for, otherwise, I shall feel very sore about it. We are a community of people in the West Indies Group, and practically the only pure white Colony under the British Crown. You ought to be proud of it and show what white people really can do - show that they can do things that no other people could do in such a climate." Finally His Excellency said that it afforded him the utmost pleasure to be present to distribute the prizes.

JAPANESE BANK LENDS 100,000,000 YEN.

A message from Tokio states that the Bank of Japan has loaned 100,000,000 yen to bolster up a number of Western Japan Banks.

There has been a heavy run on seven of the banks this last week and five of them, with a total capital of 30,000,000 yen, have been compelled to suspend operations.

The public is disturbed by the breakdown of a probable merger of two banks which with the losses from trade depression has caused a run on the banks.

LIBEL ACTION AGAINST BISHOP DISMISSED.

It is reported from Munich that the Catholic Bishop of Regensburg in a Pastoral Letter, denounced various articles written by ex-General Ludendorff and his wife, as un-Christian.

Herr Ludendorff brought in a libel action which the court at Munich dismissed on Monday on the grounds that the ex-General and his wife were the authors of publications which "Humiliate Christianity and its Institutions."

CHILDREN TRAINED AS ASSASSINS.

A message from Calcutta says that the existence of an elaborate organisation to train boys and girls as assassins, has been revealed by the "Daily Telegraph" special representative.

Groups of suitable young persons are selected and after a propaganda course the most likely ones are sent into the jungle where, under expert tuition they spend months at revolver practice.

A woman student, named Bina Das, who attempted to assassinate Sir Stanley Jackson the Governor of Bengal, is the most recent graduate of this extraordinary school. As a reply to this terrorism the Governor of Bengal is using a fleet of mobile vans to show counter-propaganda films in outlying districts.

At the moment Calcutta is in a state of tense excitement over the pending execution of two Moslems for murdering a Hindu.

This is the outcome of widespread agitation among their co-religionists for the reprieve is awaited with growing anxiety.

LINDBERGH'S BABY STILL UNDISCOVERED.

The baby son of Colonel and Mrs. Lindbergh has not yet been found, states a press message from New York. The two gangsters who have been engaged to find him are conducting a vigorous search of the underworld says the "Daily Telegraph".

Meanwhile the police have given a hint that they will not hamper these men in any way. The members of various denominations have suggested that the Churches should be used as sanctuaries wherein the kidnapers could surrender the child and receive the ransom under a guarantee of safety.

50,000 CHINESE TROOPS NEAR SHANGHAI.

A Reuter message from Shanghai states that according to General Shirakawa the Japanese Commander there are 50,000 troops in the neighbourhood of Shanghai. Unless they are withdrawn a further five miles making 30 from Shanghai, he will resume hostilities. The Japanese Commander adds that if the Chinese penetrate their patrol lines he cannot warrant safety and there are possibilities of a clash.

THE PRINCE OF WALES.

The Prince of Wales presided over a meeting on Tuesday to consider the further development of the Anglo-Spanish and the Spanish-American Institute.

With a view to the inclusion of Brazil within the scope of the Institute's activities it was decided that it should be known in future as the Ibero-American Institute of Great Britain, and that its function should be to promote a fuller knowledge, better acquaintance and a closer association between Great Britain and the countries of the Ibero-America.

On the proposal of the Prince, Mr. Philip Guedalla was appointed as Honorary Director, and Brigadier-General, Sir Arthur Maxwell, was appointed as Honorary Treasurer of the Institute.

AGRICULTURAL PARALYSIS IN MANCHURIA.

It is reported from Mukden that black fear prevails there at a time when strong Administration is urgently necessary. Agricultural paralysis is replacing normal planting activities reports the "Daily Telegraph" correspondent who is re-visiting Manchuria for the inauguration ceremonies of the newly created Government. Fear grips the official Chinese classes owing to increased activities by bands of insurgents inspired by agents who are pouring in from China proper. They are pledged to prevent peace at any price, these agents who are stirring the natives to resist the return to normal conditions.

A fortnight ago the Government fully decided to appoint Mr. Pu-Yi formerly the boy emperor as the first President.

## LINDBERGH DISPOSED OF THE POLICE.

At the request of Colonel Lindbergh the police have practically withdrawn from the kidnapping case and the Colonel is believed to be in direct negotiations with the kidnapers of his baby son, states the "Daily Telegraph".

He was asked that his mail should not be interfered with and his contract to his earlier agitation suggests that he is satisfied that his baby is alive and well.

Two letters have reached Lindbergh's home within the last two days the contents of which have not been divulged. It is reported that the letters were followed by a midnight visit from an un-named prominent lawyer who is declared to have been authorised to make all arrangements for the return of the baby if the terms were met.

## VALUE OF THE £ INCREASES.

The value of the £ sterling increased by nine-pence in New York and Paris on Tuesday, making it now 15/3, which is the highest figure it has reached since Britain went off the gold standard.

This remarkable advance is attributed mainly to a revival of confidence in Britain's financial position following: the repayment six months before it was due, of £43,000,000 of £80,000,000 credits obtained from France and the United States last August, and the heavy inflation of the national revenue which with nearly three weeks still to go has now reached a total of £682,683,981 out of a total of £784,000,000. It is also partly due to the eagerness of foreign speculators to re-invest in the British market.

The bankers point out that these balances if withdrawn suddenly might prove embarrassing and join the traders in emphasising the need for restriction to prevent any sudden advance in the sterling.

Following the rise in the sterling, price gold fell 1/4d to 25. 15s. 8d per ounce and the exchange from 27/3 to 26/-.

LINDBERGH RUMOUR.

Baby Found ?

Among the many conflicting rumours regarding Colonel Lindbergh's son is the circumstantial statement by the Mayor of Boston who said on Wednesday that he had been told by a stockbroker friend of Lindbergh that the baby was returned last Sunday.

The parents, he declared, had agreed with the kidnappers not to reveal the circumstances of the baby's return for seventy-two hours.

ANOTHER SINO-JAP. RESOLUTION.

The text of the resolution on the Sino-Japanese dispute, to be placed before the General Committee of the Assembly, was circulated to the delegates on Thursday, and its terms telegraphed by their representatives to the Japanese and Chinese Governments.

The text is of considerable length and is based on the Articles of the Covenant and the Paris Pact. It provides for the establishment of a Commission including the President of the Assembly, Mr. Hymans, all the members of the Council except Japan and China, and six from the Assembly who are to be elected by ballot.

Its general purpose will be to supervise and promote peace negotiations.

AIR ESTIMATES' REDUCTION.

Efficiency of The Service.

In submitting the Air Estimates in Parliament on Thursday, the Air Minister, Sir Phillip Sassoon, said that the total of £17,400,000 showed a reduction of £400,000, this being the Department's contribution to the urgent requirements of the financial situation.

The saving had been effected without permanently impairing the high standard of efficiency of the Air Service.

During his speech Sir Phillip stated that the experience gained in making the winning machines for the Schneider Trophy contests had been of real value in the designing of new equipment for the Air Force. The result was that though, reckoned by size alone, the Air Force only took fifth place amongst the armed forces of the world, they had the satisfaction of knowing that no other Air Force was better equipped while nowhere was the standard of training and efficiency so high.

Proposals were on foot for bringing into operation another 12,000 miles of Empire routes and when that had been done the Empire would possess over 37,000 miles of organised air routes.

HITLERITES' DETERMINATION.

The Hitlerite leaders have hinted in speeches recently that if Field Marshal Hindenburgh is re-elected President in the first ballot which takes place this coming Sunday, they may attempt to upset the constitution by an armed rising.

### THE LATE M. ARISTIDE BRIAND.

For the last time the late M. Aristide Briand occupies the Clock Room at Quay-dorsay.

In the famous Chamber wherein he signed the Paris Pact to outlaw war, his coffin lies on a catafalque. On the wall behind the coffin there is a huge wreath of olive leaves and on either side smaller wreaths of simple flowers.

A silver Crucifix surmounts the coffin and at the foot there are innumerable bunches of violets deposited by the simple folk who continually file past.

The arrangements for the funeral, which is to take place to-day, were completed on Thursday. Wreaths are being sent by King George and by the British Government.

### HITLERITE PLOT DISCOVERED.

A message from Berlin states that Field Marshal Hindenburg who is standing for re-election as President of Germany, broadcast from his study his only speech to electors on Thursday night.

He made it clear that he would not retire from the contest if the first Ballot on Sunday resulted in Stalemate. Speaking with great energy and occasional anger he denounced the "deliberate lies" that had been uttered concerning him, says the "Daily Telegraph".

He said that his sole object was to obviate the danger of an extremist being elected who was not supported by the great mass of people and so prevent the country from being torn by dissensions.

The police have discovered a Hitlerite plot for a rising in Berlin. A man has been arrested who states that he procured for the Fascists the plans of the police barracks and arsenal showing where arms and ammunition were stored.

IRISH FREE STATE ELECTION.

De Valera Enthusiastically Acclaimed President.

The first meeting of the new Dail was held in Dublin on Wednesday and elected De Valera as President of the Executive of the Irish Free State by a majority of 13 over Cosgrave.

His election was greeted by the Dail and in the streets outside with every sign of enthusiasm states the "Daily Telegraph".

After the election Mr. De Valera left the Chamber to submit his Ministerial list to the Governor General.

Ireland's first Republican Premier made no disclosures regarding his policy. In brief speeches which preceded the election Mr. De Valera was given indication of his dependence from two sections of his supporters. Mr. J. Dillon, the Independent, warned him that the support of the conditional people had not led into war - economic or actual - with friendly nations or among their own people.

The Labour Leader, Mr. Norton outlined measures of social legislation which the Labour claims as the price of its support.

Mr. De Valera's Cabinet generally conforms with anticipations. He has introduced an innovation by including a member of the Senate in his Ministry. Mr. Frank Fahy, the Republican has been elected as Speaker.

JAPANESE PEACE TERMS.

A Ruter message from Shanghai states that it is understood that the Japanese Peace Terms were handed to the Chinese Government representatives by Sir Miles Lampson, the British Minister in China, on Wednesday afternoon.

The terms are being submitted to Nanking and Loyang. A message from reliable sources states that the Memorandum delivered to Sir Miles Lampson by the Japanese Minister Shigemitsu, referred to the possibility of fresh hostilities and said that he wished to make it clear that the Japanese were willing and eager to negotiate on the terms of the League Assembly's resolution for the cessation of hostilities, followed by the Round Table Conference.

FIRST WEDDING IN SOUTH GEORGIA.

A Unique Event.

Miss Vera Riches & Mr. A.G.N. Jones.

What we understand to be the first wedding to have been solemnised in South Georgia took place on Saturday. The principals of this happy and unique event are Miss Vera May Riches, the second daughter of Mr. and Mrs. S.H. Riches of Stanley, and Mr. Alfred George Nelson Jones, the second son of Mr. and Mrs. L.T. Jones of Cardiff. The ceremony was performed by Mr. W. Barlas, Registrar, in the Magistrate's House, Grytviken, about noon, shortly after the arrival of the s.s. "Fleurus" from Port Stanley, the bride having journeyed down on this occasion, accompanied by her brother, Mr. R. Riches, who gave her away. Among the guests were Mrs. Rumbolds, the only other woman in South Georgia, Mr. L. Hansen, the popular manager of the South Georgia Company at Leith Harbour, and Mr. B. Dixon, a brother-in-law of the bride.

Both the bride and bridegroom are well known in Stanley. The former, whose father has been the Assistant Customs Officer in the Colony for many years and has just retired, was a valuable member of the Christ Church Cathedral Choir as well as a teacher at the Sunday School; Mrs. Jones was also well known to visitors to the Colonial Secretary's Office where she has been engaged as a junior clerk for almost four years during the early part of which she was associated with the production of the "Penguin". Mr. Jones, who came up to Port Stanley twelve months ago from South Georgia in order to work in the Treasury during the absence of the Chief Clerk on leave, has been in the Colonial Service and stationed in the Dependency for some seven years or more.

We extend to both the Bride and Bridegroom our sincerest wishes in their happy venture.

EUROPEAN POLITICS.

Anglo-French "Reconstruction".

M. Tardieu's plan for the economic and financial reconstruction of Central and Eastern Europe was the subject of a discussion during a two-hour meeting between him and Sir John Simon in Paris on Friday.

It was officially announced that the two statesmen agreed that co-operation in this matter, as in all others between France and England, should extend over a large field with the double object of appeasing political rivalries in Europe and accelerating economic reconstruction.

DE VALERA STARTS WORK.

Quick Action.

Amid scenes of great enthusiasm twenty Irish political prisoners, sentenced under President Cosgrave's Government, were released in Dublin on Thursday.

It is expected that others will be released in the near future, says the "Daily Telegraph".

This is the first act of de Valera's Government, taken less than twenty-four hours after they obtained office.

The new Cabinet is also expected to suspend the "Public Safety Act" which was passed in October last and under which the prisoners now released were sentenced.

An Act was passed for the suppression of seditious and communistic activities, a military tribunal being established for that purpose.

It is believed likely that de Valera will introduce a short measure abolishing the Oath of Allegiance, before the Dail adjourns over Holy Week.

STERLING NOT TO BE FORCED UP.

In the House of Commons on Saturday the Chancellor of the Exchequer, Mr. Neville Chamberlain, said that the Government did not desire to see the pound forced up to a rate injurious to Industry.

He could not foresee an ultimate time or rate of stabilisation but took the view that sooner or later we must link our currency to a metallic basis and he saw no better basis than gold.

THE LEAGUE CONSIDERS THE FAR EAST DISPUTE.

The League of Nations on Saturday carried a resolution drafted on Friday providing for the consideration and settlement by the League, of the Sino-Japanese dispute in the Far East.

There were 45 votes for the resolution and no dissentients, but China & Japanese representatives abstained from voting. The representatives of the following six countries, together with the President and representatives of the other States represented on the League Council, will form a Committee to deal with the Far East situation, namely: Switzerland, Czechoslovakia, Colombia, Portugal, Hungary and Sweden.

The Committee will report not later than May 1st.

GERMANY'S NEW PRESIDENT.

A message from Berlin states that the mood in which the German people went to Sunday's Presidential Election was largely one of despair. "Something must be done to make things better for us," is the cry of the masses. The youth of the country is undoubtedly on the side of Herr Hitler.

KREUGER'S DEATH CATASTROPHIC FOR SWEDEN.

The Swedish Government regards the death of Mr. Kreuger, which took place on Saturday, as a "National catastrophe". The National Bank of Sweden recently made a loan of 100,000,000 kronen to the Swedish Match Company. Major Forsander, the Director of the Company, when told of the death of Kreuger, collapsed and died.

It is reported from Stockholm that a special session of Parliament was held there on Sunday at mid-night to rush through a Moratorium to certain Companies in order to try and save the Swedish Match Company.

F.M.D.F. RIFLE ASSOCIATIONS.

The fortnightly Spoon Competition was shot off on Saturday and Sunday. The scores on Sunday counted for both the Spoon Competition and for the third Match between the 1914 Men and the remainder of the Members of the above Association.

The conditions were favourable on both days and some good scores were registered as will be seen by the following. Great interest was retained in the match right up to the last shot fired. A Bull's Eye would have given the youngsters a win, however, the markers signalled an inner, which made the match a draw, both teams having scored 966. The average being below that of the previous match.

LAST RITES FOR PEACE MAKER.

A message from Paris states that the Cardinal Archbishop of Paris, decided that the great Peace-maker could not go unblessed to the grave and himself gave absolution to the late M. Aristide Briand, the man, who, for his action in bringing about the separation of Church and State, had been ex-communicated.

Only the President of the Republic, M. Briand's family and members of the Government were present in the Court Room at the Quay d'Orsay when the Cardinal, in rich vestments, sprinkled holy water and recited last prayers over the coffin.

MARRIAGE OF PRINCE LENNART OF SWEDEN.

Prince Lennart, the King of Sweden's grandson, and Miss Karin Nisewandt daughter of a Stockholm merchant, were married with a simple ceremony at the Princess' Row Registry Office on Friday.

The couple were cheered by large crowds in the streets. The King of Sweden has withheld his consent to the match and Prince Lennart, in marrying renounces all royal rights and becomes plain Mr. Bernadotte.

Grand Duchess Marie of Russia, the bridegroom's mother, who came to London from the United States for the wedding, was not present. She said that the Romanoffs did not believe in Register Office weddings.

When she arrived in London she tried vainly to persuade the Prince to have a Church wedding. That was the only reason she was absent.

KING CAROL ASKS HIS BROTHER TO RETURN.

It is learned that King Carol has sent an envoy to ask his brother Prince Nicholas to return to Rumania. It is not clear however whether the King is prepared to recognise his brother'smorganatic marriage with Mme Savenant.

Owing to the King's displeasure the Prince left Rumania for Paris following his marriage. There the Prince let it be known he would remain in voluntary exile until the King invited him to return with his wife.

The Envoy is General Condescu who is now travelling to Florence to arrange for the purchase of a villa for Princess Helen and to discuss the question of the increase in her Civil List states that "Daily Telegraph". The General will then proceed to Paris to invite the Prince in the name of King Carol to return to Rumania.

MULTI MILLIONAIRE COMES TO TRAGIC END.

A message from Rochester, New York reports that George Eastman the multi-millionaire head of the Eastman Kodak firm, shot himself dead in his home at Rochester on Monday afternoon. Mr. Eastman was aged 77 and had been suffering from ill health for some time. Shortly before noon he asked his attendants to leave him alone and a few minutes later he shot himself. The servants hearing the shot came and found him dead with his revolver beside him and a note reading "To my friends. My work is done so why wait."

It is estimated that 150 millions sterling passed through his hands, whereof he gave away over 10,000,000 largely for the alleviation of suffering.

STERN NIGHT FOR GERMAN PRESIDENCY.

300 People Arrested.

With a few insignificant exceptions the Polling for the new President of the German Republic passed off quietly on Sunday.

300 people were arrested in Berlin during the day and were mainly charged with posting illegal placards, says the "Daily Telegraph".

This tranquility, however, is largely due to the drastic police regulations against any kind of demonstration. Motor vehicles had to have special permits, public exhibition results were not allowed and the sale of spirits in Public Houses was suspended.

The final results were expected to show 85 per cent of the Electorate had voted. At a village near Madelburg two members of the Reichs Banner were shot dead by three communists.

Field Marshal Hindenburg missed election by a clear majority in the first Ballot by one per cent. The figures were: Hindenburg 18,487,000, Hitler 11,500,000, Thaelmann 4,950,000, Duesterberg 2,554,000. The Second Ballot takes place on April 10th.

SYDNEY'S NEW BRIDGE.

The greatest single arch bridge in the world, the gigantic all British structure spanning Sydney Harbour, Australia, was officially transferred to the New South Wales Government on Tuesday by the simple ceremony of a handshake.

The bridge was constructed by Messrs. Dorman Long and Company, at a cost of over nine millions sterling, and took seven years to build.

Because the "New Guard" - an anti-communist organisation - is asserting that Premier Lang will not open the new bridge on Saturday, plain clothes policemen are guarding the Premier's house day and night.

GERMANY'S PRESIDENTIAL ELECTION.

Negotiations, with the object of avoiding the second ballot in the German Presidential election, are apparently in progress.

A declaration by the "Steel Helmets" that President Hindenburg must be regarded as already having been re-elected, was expected yesterday.

The Eugenbergers, it is said, are urging upon the Hitlerites the advisability of withdrawing from the Presidential contest.

THE NEW REPUBLIC OF MANCHURIA.

Exclusive Interview.

A message from Changchun on Wednesday states that the new Republic of ~~Manchuria~~ intends to recognise all the existing International treaties, its obligations and debts to Great Britain and other powers and to encourage foreign trade.

This is the essence of an exclusive interview with Hsieh Chiehshih, the first Foreign Minister, given to the "Daily Telegraph" special correspondent.

Hsieh has not waited for new offices but he conducts the affairs of State from his bedroom in a crowded Changchun hotel.

One striking phrase the Minister uttered was - "Westminster knows that we are operating in a state of emergency. Sweeping changes cannot be made, or be expected to be made, overnight. I'm against loud mouthed propaganda. The world needs patient progress and not violent revolutionary changes."

Hsieh warmly denied that his Government was under Japanese direction and dependent upon Tokio.

He said that the Manchurian Ministers were unhampered but "our interests are closely interwoven with those of Japan and it would be folly to proceed without considering our mutual benefits. But we will brook no interference with our independence. I have assurances that Japan is withdrawing her troops upon safety warrants, and we respect that promise."

DE VALERA & THE OATH.

In the Dail on Tuesday, so a message from Dublin reports, de Valera announced definitely that he intended to remove the Oath of Allegiance. He went on to declare that his Government was fully conscious of their responsibilities for the preservation of law and order.

When the Oath of Allegiance was removed he said there would be no excuse for such demonstrations as had taken place recently.

The Dail then adjourned until the 20th of April.

IRISH SWEEPSTAKE BREAKS ALL RECORDS.

A message from Dublin reports that with the whole world partaking in the Irish Hospitals' Sweepstake on the Grand National, the draw for which began on Monday, has broken all records.

The figures are: Total subscribed - 23,356,312, Prize-money - 22,239,477, for the Hospitals - 2842,328. There are 22 first, second and third prizes of £30,000, £15,000, and £10,000 each and 2729 for each of those drawing horses. All the fifty-seven horses were drawn on Monday and of the tickets drawn 72% have come to England and 20% of these are for London.

The luckiest people so far have been Mrs. Murray of Windmill Place, Sussex, who drew "Cameronian" in the Derby and has now drawn a 50/1 chance, and Mr. K. Stokes a City clerk living at Wehling, Kent who has drawn two horses, "Annandale" and "Prince Cherry".

The Draw for cash prizes was made on Tuesday and Wednesday.

HINDENBURG OPTIMISTIC.

Herr Hindenburg is assured of re-election on April 10th. He has expressed his gratification of Sunday's results and his determination to contest the Second-Ballot, says the "Daily Telegraph".

Herr Eugen Berg's proposal to unite with the Hitlerites in running the ex-Crown Prince as a candidate has been rejected, Hitler announced on Tuesday that he will fight on. The Communist Press says that Herr Thaelmann will do likewise. It is said Hitlerite leaders fully expected Hitler to obtain as many if not more votes than Hindenburg.

The supporters of Herr Brüning's Cabinet are greatly elated. President Brüning did better than they had expected he would.

FURTHER OUTBREAKS IN THE FAR EAST.

Rioters at Manchouli on the borders of northern Manchuria and Siberia killed a Japanese merchant and looted many Japanese shops on Tuesday. Another rising occurred at Peiho near Tsitsihar where a Regiment of the Chinese Army vigorously opposed the new regime.

Mukden itself is not free from these outbreaks.

---0---0---

The adoption of the practice which is universal in other countries, that of the standing start, would be a distinct improvement since after two or three false starts spirited animals may very well be partly spent and almost out of control and therefore hopelessly handicapped in the race. It would mean a slight change in training methods but there is no difficulty whatever in teaching a horse to stand at the start. The whole field would have a better chance, the work of the starters would be greatly facilitated and the intervals between the races perceptibly shortened; we recommend the consideration of the matter to the Committee of the West Falmouth Sports Association.

It may also be suggested that the use of the whip was more liberal than was really necessary, the approach of the runners being always heralded by a noise like the rattle of shots on a Sunday afternoon in Chicago as the riders beat their horses to (perhaps) more frantic efforts. We would put it to the more enthusiastic beaters that there are ways of encouraging a horse as efficient but more gentle than the constant use of the whip.

#### Foot Events.

On the 18th, the foot sports were run off in weather even finer than that of the horse races; there was the same brilliant sun but hardly any wind at all.

An outstanding performance of this day was J. White's pole vaulting; he was the winner and could easily have gone over a height considerable greater than that which enabled him to take the first place; the apparently effortless ease of his vaulting was most striking. During the long jump the spectators were horrified, at the moment when the largest of the competitors came charging down, to see a small child stagger across the fairway --- the picture was that of a mouse before a steam roller -- but the runner sheered off at the critical moment, although it is to be feared that the incident spoiled his jump.

#### Steer Riders' Day Out.

The last field event of the Sports on the 19th was an innovation of Mr. Miller's, steer-riding. A troop of 3-year old bullock was rounded up and corralled, then one by one persuaded into a narrow chute 3 feet long with a gate at each end, where they were "geared up" with a rawhide thong fore and aft; competitors had to wear spurs and points were allowed as follows: Riding 20 points. Use of Spurs - 20 points. Landing on feet 10 points.

When everything was ready the rider gingerly lowered himself on to his mount, grasped the forward thong, and hearing the word "All right" muttered a brief prayer as the ox shot through the opened gate. Once outside, the antics of the beasts were amazing, most of them hucking very badly, and few of the riders lasted over a distance of a hundred feet; the time allowance was two minutes but the most dogged rider hung on for only 38 seconds while the shortest time was two seconds; R. Grant took first place and W.F. Clement was second.

Not one rider landed on his feet although every other conceivable part of the person was used for the purpose. S. Miller, in a non-competing ride, landed on his head and got up with the help of a derisive kick from his mount. After losing their riders the bullock galloped wildly away pursued by a cloud of horsemen with lasso. This part of the performance was nearly as agreeable as the competition itself, punctuated as it was with the twang of breaking lasso. While this was taking place a comic turn was given by the brothers McKay (D. and G.) who mounted a steer together but the animal was so shocked at the occurrence that it refused to do anything except squat on the ground. We would compliment the originators and competitors on this most entertaining event.

A little later in the same day three or four challenge boat races took place, beginning with one between Pebble Island and Port Howard, in which the islanders were the winners by  $2\frac{1}{2}$  lengths.

The dances in the wool shed were held on four nights and were most successful, the gatherings being greatly brightened by the gay frocks of the ladies who must be complimented on their selections which the observer suspects to have been new for this great occasion. The prize giving was fixed for the evening of the 19th when Mrs. Jason Hansen distributed the awards.

The thanks of everyone who attended the meeting are due to Mr. S. Miller whose untiring and courteous attention went far indeed to making the sports the notable success which they were.

Thanks are also due to Mrs. Jason Hansen who came to Hill Cove with Mr. Hansen a few days before the Sports and acted as hostess for the whole time.

#### MISS M. COOPER.

With the departure of the p.s. "Lafonia" on Wednesday the Colony bade "Good Bye" to one of her most devoted servants in the person of Miss M. Cooper, the Nurse-Matron of the King Edward Memorial Hospital.

Miss Cooper, whose home is in Cumberland, came to the Falklands in October 1928 as Nursing Sister and on the departure of Miss Shaw assumed the duties of Nurse-Matron, proving herself most efficient and capable. Upon her patients she bestowed the utmost care and attention of her charming personality for her whole heart and soul was in the mission to which she was called, while her unending devotion endeared her to everyone. No work was too long nor yet too arduous if by doing it she could ease the sufferings of a poor weak body, or bring to a wan face that comfort of inspired hopes at the critical moment, urging it on at the climax and through the subsequent period of convalescence. It is no exaggeration to say that there are many who owe their lives completely to the ceaseless vigil of this true disciple of the Lady of the Lamp.

INSTALLATION OF THE REVEREND H.E. LUMSDALE.

As Dean Of Christ Church Cathedral.

The Right Reverend the Lord Bishop has appointed the Reverend Harold E. Lumsdale to be Dean of Christ Church Cathedral, Stanley. The Installation will take place on Sunday evening March 20th at 7 p.m.

It is regretted that longer notice could not be given but circumstances over which there was no control, compel. In spite of this His Lordship wishes to say that he hopes everyone will make a special effort to be present on the occasion of so important an event as the Installation of the Dean.

DE VALERA'S HOPES.

Governor General & President.

A Dublin message states that following his statement on Tuesday that he intends to remove the Oath of Allegiance, de Valera on Wednesday said "We hope in time to merge the office of Governor General into the office of the President of the Irish Republic". De Valera added that he hoped to see the "unnatural boundaries" between the north and south of Ireland broken down.

HEITLER'S TRIUMPH FAR DISTANT.

Hitler now admits that his triumph may lie far ahead. Speaking in the Weimar for the first time since the Presidential Election, he said on Wednesday that the fight will continue until the parties of the present system are prostrate whether the day of victory comes to-morrow or ten years hence.

Before the speech Herr Hitler gave evidence to the Thuringian Parliamentary Committee regarding his appointment as the Condarne Commissioner in Heldburghausen. Asked by the Socialist members whether it would not have been better to seek naturalisation by the usual straightforward means, Hitler flew into a passion.

The Chairman calmly checked the outburst and threatened Herr Hitler with penalties if he did not control himself.

FRIDAY NIGHT'S FURRORE.

Stanley experienced a heavy wind from the south on Friday night of a velocity sometimes reaching over sixty miles an hour and accompanied by bitter rain squalls. Saturday morning, after the furrore had abated, revealed the launch "Kelp" and the Falkland Islands Company's two motor boats stranded on the opposite side of the harbour by the Camba where they had drifted during the night.

SYDNEY BRIDGE DEDICATION.

"Insane" Man Cuts Symbolic Ribbon.

Captain de Groot, who cut the symbolic ribbon with his sword and declared the new Sydney Bridge "open in the name of the people" before the New South Wales Premier, Mr. Lang, could perform the ceremony, has been "deemed to be insane" by the authorities and detained.

Captain de Groot is a member of the New Guard - the New South Wales Fascist organisation. Colonel Campbell, head of the New Guard, called in a well known mental specialist who examined de Groot and could find no fault with him.

Three people collapsed and died on the bridge, over 500 people fainted and 300 children were lost and found again.

SOUTH AFRICA'S CURRENCY.

Proposed Reform.

A Reuter message from Cape Town states that a Bill to reform South Africa's currency is to be introduced to the House of Assembly by Mr. Havenga, the Minister of Finance, next week.

No devaluation of the present currency is proposed - it is understood, but new coins suggested to be known as Rands, Florins and Cents.

The Rand is to equal a Pound, ten Florins to equal one Rand and a hundred Cents to equal one Florin.

THE GRAND NATIONAL.

9 Horses Finish.

Over a quarter of a million spectators, including the Prince of Wales and Prince George, watched a thrilling Grand National on Friday, says a message from Liverpool.

There were no serious falls although, in addition to the first three, only Near East, Heartbreak Hill, Annendale, Sea Soldier, Aspirant and Theras finished the course.

Heartbreak Hill is owned by an American, Mrs. C.S. Bird, and unluckily baulked after two miles and refused. Sea Soldier, an American bred and owned horse, plodded round with splendid certainty.

The press message received did not give the names of the first three horses.

DE VALERA & THE OATH.

Mr. Chamberlain's Warning.

A message from London reports that Mr. de Valera himself, dictated the Irish Oath of Allegiance on Saturday.

The Treaty was signed only after a special consultation with him.

These revelations were made on Saturday by Mr. Hamonn Duggan, the Parliamentary Secretary to the President's Department in the last Government and one of the three surviving signatories of the Anglo-Irish Treaty, in a statement to the "Sunday Times".

"De Valera," he said, "knows as well as I do that the Oath was one of the great stumbling blocks in the way of our getting the Treaty. We regarded the matter as so important that, before signing the Treaty, we returned to Dublin to discuss the matter with Mr. de Valera and he dictated a form of Oath which was translated into a legal act.

It was stated in Dublin on Saturday evening that de Valera intended to make no comment at present on the warning given by Mr. Neville Chamberlain, the Chancellor, of the serious consequences of the Free State Assembly to carry out their threats to abolish the Oath and repudiate their financial agreements with England.

RUBBER SCHEME REJECTED.

A Reuter message from The Hague reports that an official announcement has been made there which states that the Rubber Restriction Scheme has been rejected by the British and Dutch Governments.

The statement adds that they are forced to the conclusion that under the present conditions it is impossible to frame and operate an international scheme which guarantee the effective regulation of production and exportation of rubber.

MONEY FOR GERMAN SHIPPING LINES.

Government's Decision.

The German Cabinet has agreed to guarantee a loan of 77 million marks to the North German Lloyd and Hamburg, America shipping lines, and the tramp companies, as the rapid development and gigantic ship building programmes of the two main companies had resulted in financial stress.

One of the conditions of the Reich is that the old creditors of the companies shall prolong their credits until February 1933.

The North German Lloyd and Hamburg America propose to write down their capital.

SPANISH PREMIER'S MURDERER.

A message from Madrid reports that Senor Ramon Casanellas who was accused of murdering the Spanish Premier Dato on March 8th, 1921, was captured by the police at Carmona near Seville on Saturday.

Premier Dato was shot dead while going home from the Cortes. Senor Casanellas returned from Spain six months ago to foment a Communistic disturbance and when arrested was using a car belonging to a wealthy Spaniard who is a militant Communist.

## CEYLON'S NEW SYSTEM OF GOVERNMENT.

### Fear Of Breakdown.

Owing to the determination of a section of the State Council to end or amend the unique experimental Constitution of Ceylon, it is feared that the Donoughmore Scheme is in danger of breaking down.

Under this scheme the premier British Crown Colony has been granted a complete franchise for all classes regardless of sex or caste, which is the nearest approach to self-government yet attempted without Dominion status.

### EFFORTS TO OPEN

#### BOMBAY CLOTH MARKET.

The Bombay Millowners Association's attempts to re-open on Friday the Mulji Jetha Cloth Market, constituting 600 shops, which has been closed for three months, failed, says the "Daily Telegraph".

Only a few selling agents responded to the Association's letter and these were unnerved by the noisy mob and hooligans and soon withdrew.

It now remains for Sir Patrick Kelly, the Police Commissioner, to bring methods which were successful in the case of the Chemist Market, into play with the nervous cloth market merchants.

PHENOMENAL WEATHER IN ENGLAND.

A message from London states that after sixty-four days of unbroken drought many fires broke out on Sunday on the parched grass lands and woods of the Southern counties in England.

In Epping Forest undergrowth over a wide area was destroyed and many silver beech trees were damaged.

Firemen, Boy Scouts and keepers fought a fierce gorse fire on Wimbleton Common and other fires occurred at Han Common, North Harrow and Hindhead. There is no sign of a break in the brilliant weather.

DE VALERA PURSUES HIS POLICY.

De Valera has suspended the Public Safety Act by an Order in Council. As a result of the ban on the IRA and other organisations being lifted the Military Tribunal ceases to function and extraordinary special powers given to the police have been withdrawn. Asked on Sunday if he had any comment to make on Mr. Neville Chamberlain's speech on Friday De Valera replied "If bitterness and differences arise the fault does not lie with the Irish people."

The ex-President of the Council, Mr. Cosgrave refused to make any comment. Mr. De Valera will apparently pursue the policy he has outlined and await any action England may take.

DISCUSSION OF POLITICAL REFORMS IN INDIA.

Political circles in India are excited at the possibility of the Viceroy, Earl Willingdon flying to London in May or June to discuss personally with the Cabinet the whole subject of political reform in India, says the "Daily Telegraph".

This follows the Government of India's announcement that if the Round Table Conference fails as it has done so far to agree upon the settlement of the Communal problem, the Government will apply a provisional scheme of its own.

---o---o---

STERN ACTION JUSTIFIED.

A message from Bombay reports that after nearly three months of Ordinance Rule the Government's stern action against the Congress has been completely justified. This was made manifest by the steady improvement throughout the whole country. In the north-west frontier provinces the revolutionary trend has been killed. In the United Provinces of North the Campaign has fading away. In the Bombay Presidency the situation is very good except for a few places where minor defiance of the land revenue authorities are being continued.

There remains India's two bad spots, Bombay city and Bengal. It is probable that law and order is gaining the upper hand against Bengal cranks and Congressites. Bombay city shows improvement though the outcome of the present cotton impasse is anxiously awaited.

### POLICE RAID HITLERITE QUARTERS.

A message from Berlin states that the police raided and searched 170 Hitlerite offices, barracks and dwellings, and impounded van loads of documents on Thursday.

When these documents have been examined by the Prussian Government they are issuing a further statement. The Government claims to be in a position now to prove that the rumours of Hitlerite activity, which have been in circulation for some time, were true and that operations to which they referred were all part of one comprehensive plot against the Republican Constitution.

### MR. LLOYD GEORGE ABOUT TO PROTEST.

It was rumoured in the House of Commons on Thursday afternoon that Mr. Lloyd George was taking the first opportunity after Easter to protest against De Valera's policy respecting the Oath of Allegiance.

Mr. Winston Churchill on landing in London after his American Tour said that the intentions of the new Irish Free State Government, if carried out, would be an act of bad faith.

### JAPAN FACES A CRISIS.

Cabinet Expected to Resign.

Japan is faced with a serious economic and political crisis states a message from Tokio, and the resignation of the Brukei Cabinet is expected at the close of the session this week. An aged elderly statesman, Prince Saionji, has been in close touch with all the political leaders of the Diet for a fortnight but it is unknown whether he has succeeded in forming a National Ministry.

The Manchurian and Shanghai "Emergencies" have involved Japan in an additional expenditure of 34,700,000 which the Diet has been asked to approve.

### KING CAROL RELENTS.

Well-informed quarters in Paris hint that King Carol has changed his attitude to his brother Prince Nicholas and his morganatic wife, Mme Savaanu. The King recently invited the Prince to return to Rumania alone, but he refused. It is stated now that the Prince will shortly be permitted to return accompanied by his wife. The couple left Paris on Friday night for Nice and, according to a report they will not return.

SUNDAY'S CEREMONIES

Induction & Installation of

The Rev. Harold E. Lumsdale.

His Lordship The Bishop's Address.

Christ Church Cathedral was practically filled on Sunday evening when the ceremonies of the Induction of the Reverend Harold E. Lumsdale to the Senior Chaplaincy of the Cathedral and his subsequent Installation to the Deanery, were performed by the Right Reverend The Lord Bishop of the Falkland Islands. Among those present were His Excellency the Governor and the Hon. J.H. Ellis (Colonial Secretary.)

The Chaplain was presented to the Bishop at the Chancel Steps by Mr. A.R. Hoare who had been invited to represent the Trustees. The first ceremony, which commenced with the taking of the Oath of Canonical Obedience followed by the Declaration of Assent and the delivery of the Licence to the Chaplain, was most impressive and no less solemn than the Installation of the Chaplain to the Deanery which took place immediately afterwards.

His Lordship took as the text of his address the first verse of the 3rd Chapter of St. Paul's Epistle to the Thessalonians - "Finally, Brethren, pray for us that the Word of the Lord may have free course and be clarified even as it is with you."

They had taken part that evening, His Lordship said, in two very important ceremonies. First of all he had admitted the Reverend Harold Ernest Lumsdale to the Chaplaincy of the Cathedral Church of Stanley and secondly he had admitted the Chaplain to the Deanery of Christ Church which is recognised as the Cathedral because the Bishop of the Diocese had elected to place his throne there.

A Very Difficult Task.

Christian Churches throughout the world were carrying on continuous worship and with a little reflection they, his hearers, would see that Stanley Cathedral bells rang in with the other Cathedral bells. As one service stopped so another began and in Stanley they were helping to make the service continuous in all parts of the world.

In a Cathedral services were held every day and they would not have to be content with just the Dean praying for them but they themselves should go as often as they could, and not only go to church but approach, as often as possible, the Holy Table, for Religion, as he had said at the morning service, was a matter of intense gratitude which begot love and devotion.

Their Dean, they knew, had his own peculiar work to do which, at the best, was none too easy. "He is here to proclaim the Gospel of the Lord Jesus Christ," His Lordship continued, "and it stands

to reason, therefore, that whoever sets himself out to do this will have before him a very difficult task. He will say and do things at times which he would feign withdraw - that is absolutely certain. But things once said or done can never be withdrawn. He will have, therefore, to be constantly in prayer, be ready with sympathy and always remember what a great and important office it is that he holds.

"Do Not Deny God His Due."

"The work of the new Dean does not stop there. Each of you have a part in this. I would make a question very definitely, but with a great spirit of brotherliness - 'Do you ever pray for your clergy?' Do you help him with your sympathy or do you say 'He does not please me; so I will give up all public recognition of God in praise and prayer because the Dean said this or that. I never heard him myself, it is true I only heard of it second hand.'

"My friends, it is the greatest harm you can do to your clergy to let them grope about in the dark. Do not deny God His due because you do not like His priest. God can only give you His Blessing when you approach Him sincerely and truly as being the one you need most in your life."

At the conclusion of his address the Bishop said "I, myself, will constantly pray that the work in the Islands may be richly blest. I shall also ask that some way may be found to make the work more efficient by the addition of an Assistant Chaplain."

### MANCHURIA'S NEW OPEN DOOR

On Sunday the new Premier of Manchuria, Cheng Hsiaoshih announced that the historic term "Open Door" required a new definition, says the "Daily Telegraph".

The new Republic is determined to adhere to all its Treaty obligations but would interpret an "Open Door" within the limits of sovereign rights. "Hitherto," the Premier said, "'Open Door' connoted an obligation on Japan to permit unrestricted trade with Manchuria."

"But," he continued, "the new regime maintain that 'Open Door' does not prevent the State from giving preferential treatment to Nations recognising the Chang Chun Government and who will enter into Trade Agreements."

The Premier added that the Government intends to issue a proclamation defining her boundaries, including Liao-Tung peninsular and part of the Feng-Tien Province. She has also claimed all rights in South Manchuria and the Chinese Eastern Railways concerning the purchase upon the completion of agreements, thus disclaiming any interest in these properties by China proper.

### BOSNIAN PEASANTS FIND A "MONSTER"

It is reported from the village of Podvezlezh, that peasants drawing water were alarmed by hear a heavy flapping inside the well, and looking down, saw a strange animal. They immediately rushed for their rifles and riddled it with shots. One of the bravest then allowed himself to be let down by ropes and brought back the creature, which is described as resembling a hen, but ten to fifteen times larger; its left side is covered with thick reddish-brown fur, while the head and left side are black. It has been handed to the hospital at Mostar for identification.

COMPANY'S CENTENARY GIFT.

It gives us much pleasure to be able to announce that the Falkland Islands Company has very generously given the Church Green to the Colony on the occasion of the Centenary which will be celebrated in 1933, on the understanding that the Green will be maintained in good order out of Public Funds and will be reserved for the use of the Public.

The desirability of maintaining open spaces even in a town as comparatively small as Port Stanley is apparent to all and this liberal gesture on the part of the Directors of the Company, we are sure, will be very much appreciated by the townspeople of Stanley and the inhabitants of the Colony as a whole.

WHALING FACTORY BURNT OUT.

Loss Of The "Saragossa".

Crew Saved In Catchers.

The perils of whaling have again been brought vividly to our mind by the confirmation of the regrettable news of the loss of the Pelagic factory, the "Saragossa" which has been burnt out on the high seas in Antarctic waters.

The factory which belongs to Messrs. Salveson and Co. Ltd., Leith, caught fire on Wednesday, the 16th of March, and has become a total loss.

Happily, so far as our information goes, the whole of the crew has been saved and was expected to reach South Georgia on Monday last in the "Saragossa's" catchers.

The "Saragossa", as is well known in Stanley has been operating in the waters of the Colony for some seasons past. Up to the end of February the reported catch of the vessel for this season was 66,000 barrels of whale oil.

WHO SAW THE ELECTRIC LIGHT

At 7.0 a.m. Yesterday ?

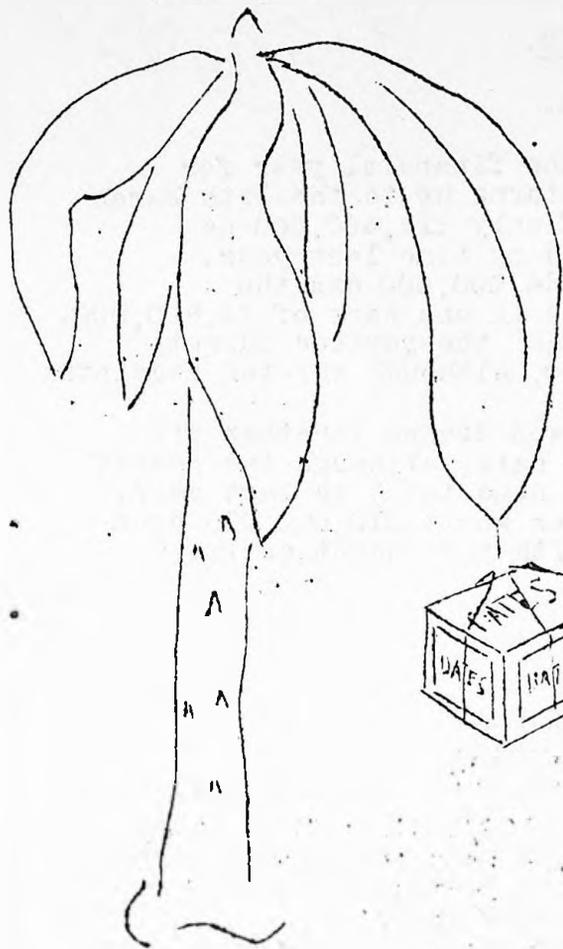

A breakfast table topic in a number of Stanley houses yesterday concerned the credibility that could be attributed to certain members of the household who saw the electric lights functioning about 7 a.m. with various futile explanations for the "morning after the night before."

We learn, no doubt to the jubilation of those who maintained that they were not suffering from delusions, that some parts of the town supplied by the Government plant were so illumined. This was due to the fact that through the night the new Gardiner engine in the Power House was being overhauled. Consequently the old engine had to be used to supply sufficient electric light for the purpose, and so that the light should run steadily, it was necessary for the machine to carry the load which provided so interesting and debatable a subject for early and late risers in the morning.

BRITISH REVENUE RETURNS.

Encouraging Position.

With eight more working days before the financial year for England ends on March 31st, the revenue returns up to the 19th March show a deficit on the National Accounts of only £19,400,000 as compared with £34,000,000 at the corresponding time last year.

The Revenue in one week amounted to £34,700,000 and the expenditure to £19,900,000 making a surplus in one week of £14,800,000. The income-tax receipts have already exceeded the revised Budget estimate at £272,000,000 by over £5,000,000, although sur-tax receipts are only £2,000,000.

On the other hand, the Estate Duties and Stamps together are £21,000,000 behind last year's receipts to date, although the Budget estimated to receive in the year about the same total as last year.

Customs and Excise revenue are together about £10,000,000 over last year's receipts to date as compared with the Budget estimate of £7,500,000 increase in the year.

Judgment Appeal.

A considered judgment was given on Tuesday in the Turf Libel Appeal by the Jockey Club Stewards - Earls Eilsenere, Harewood and Rosebery, Weatherby's and the "Times" against the verdict of a special jury and judgment by Justice Horridge who awarded Charles Chapman, formerly a race-horse trainer, 213,000 against the Stewards and Weatherby's and a further 25,000 against all three defendants.

The action followed the publication by the Stewards of their decision warning Chapman off Newmarket Heath and disqualifying "Lon Pat" which he had trained for the Bedford Heavyweight handicap at Kempton Park for the Summer Meeting in 1930. Judgment is now entered for the Stewards and Weatherby's regarding the publication in the Racing Calendar and a new trial ordered regarding the publication to the News Agencies and the "Times".

JAPANESE WITHDRAWALS.

Troops & Warships Return Home.

The latest information regarding the situation in Shanghai was conveyed to the House of Commons by the Foreign Secretary, Sir John Simon, in the course of a Foreign Affairs Debate on Tuesday:

Many meetings apparently have been held, mostly under the auspices of Sir Miles Lampson and his colleagues, at which the Japanese and Chinese representatives at Shanghai had been present.

On Saturday last after two long and friendly meetings a formula covering the three essential points was drawn up and referred to the two Governments. Sir John had just received the news that a further meeting fixed for Monday for the preliminary peace discussions had closed satisfactorily and that a formal conference would take place on Wednesday.

The Japanese Ambassador on Tuesday informed him that orders had been given from Tokio to withdraw the greater part of the Japanese warships; five cruisers, sixteen destroyers and two air-craft carriers were leaving Chinese waters and the Japanese were thus reducing their naval forces to something not far above normal.

Orders for the withdrawal of some of the Japanese land forces had also been given and a part of these, had in fact, re-embarked. He had just been informed that besides the mixed Brigade which had been sent back, Japan's 11th Division was now re-embarking and should finish doing so by Wednesday.

He was far from saying that the news, although satisfactory and encouraging, was the same thing as having secured the final arrangements which would be necessary before that part of the far eastern trouble was terminated.

After a twenty-six days' search for the Lindbergh baby the first  
 definite news regarding the child came when Doctor Dobson Peacock  
 the British clergyman declared that he had seen the child which was  
 being held a prisoner in the Back Bay Regions of North Carolina,  
 states a message from Norfolk, Virginia Waters.

Dr. Peacock adds that the child may be returned to its parents  
 to-day. He is confident that it will be restored within a week at  
 any rate.

A SWEDISH PROBLEM.

Experts, inquiring into the affairs of Dreuger and Toll, the noted Swedish Match Company, whose financial condition has caused growing concern, have issued a preliminary report containing such phrases as "weak position of the Company", "it is not certain that its assets will suffice to meet its liabilities."

The problem now being considered is how liquidation can be carried out without the immediate realisation of the resources of the Company, which is not desirable in the present circumstances.

MENJOU'S COMPLAINT.

Mass Production Of Films.

Adolphe Menjou, in an interview with the "Daily Telegraph" at Elstree on Thursday last; said that the greatest misfortune that ever afflicted the screen was that the Talkies were allowed to come when they did. By creating a language barrier the big producers threw away half their market. "I believe that film making by the present large scale factory methods has doomed out only business wherein mass production resulted in higher overhead charges and a higher percentage of failure. You simply can't make pictures like motor cars."

RELIEF FOR BRITISH TAXPAYERS.?

Tax-payers in Britain may expect a certain measure of relief in the year beginning in April, states the "Daily Telegraph" in pointing out that according to present calculations the Tariff will bring in 230,000,000. There will be, however, no immediate reversion to the collection of income-tax in two equal instalments. Three-quarters will be demanded as a first instalment next January and a still further improvement in the financial situation is required before the Chancellor of the Exchequer will be able to revert to the former practice.

CRASH-PROOF 'PLANE TESTED.

Inventor Uninjured After Fall Of 650 Feet.

A crash-proof 'plane invented by Albert Sauvant was tested in a spectacular manner on Saturday when it was deprived of its wings and the motor. With the inventor shut inside, the fuselage was pushed over a cliff 650 feet high near Grasse, France. M. Sauvant climbed out uninjured although the fuselage was completely wrecked. The principal of the construction of the 'plane is that the fuselage should consist of one shell within another separated by a strong spring. Thus, though the outer shell be smashed the inner remains intact.

ADJOURNED CASE CONCLUDED.

Verdict For Plaintiff.

Saturday saw the final stages of a Civil Court Case first brought before the Bench on the 16th of February and adjourned to Thursday last when James Clifton sued Charles Skilling for £34. 15s. 5d. as being his share of the profits of the contracts carried out with the defendant in the cutter "Wembley" during the period 1930 - 31 when he was working, it was alleged, with the defendant on a half share basis.

In the course of the hearing it was stated that the cutter was owned by the defendant's father, Mr. J. Skilling, but was being plied by the defendant in conjunction with the plaintiff whose share of the profits was said to have been paid. No receipts, however, of such payments could be produced by the defendant and the plaintiff denied that he had received the money. It was further stated that no written agreement had been made between Clifton and C. Skilling and that no account book had been kept.

After taking the evidence the Justices, the Hon. M.C. Craigie-Halkett (Acting Registrar) and the Hon. L.W.H. Young J.P., awarded judgment in the plaintiff's favour in the sum of £22. 2s. 11d. and costs, after making certain deductions in the original claim.

A BRIGHT LOOK OUT FOR DE VALERA.

A secret proclamation by the "Army Council" of the Irish Republican Army was read at Sunday's big Republican demonstration throughout the Irish Free State. This development is likely to provide Mr. de Valera with a now and serious embarrassment.

The Ira, the "Sunday Times" special correspondent discloses, is demanding the adoption by the Government of every means to secure the establishment of the Irish Republic and a complete severance from the British Commonwealth. They make it clear they have no intention of disbanding their organisation until that aim is secured, even if the Oath of Allegiance is abolished.

The demonstrations were held to commemorate the Easter Rebellion of 1916 and were the biggest since the signing of the Treaty in 1921.

Even in Ulster, where demonstrations are prohibited, there have been secret meetings for the reading of the Ira proclamation. Feeling that the "Time is not ripe for the use of force," the Ira ordered all ranks not to carry guns.

De Valera was expected to draft his reply to the British Note on the Oath and Land Annuities during the week-end.

The Ira's avowed ideal remains "One Ireland - an Irish Republic," and Sunday's demonstration only re-emphasises the fatuity of any hope that the abolition of the Oath would cause the secret army to melt away.

Strengthening the hands of the extremists will undoubtedly prove dangerously embarrassing to de Valera's powers of negotiation when the time for negotiation, instead of blunt and valueless challenges, comes.

DISASTROUS COTTON SITUATION IN INDIA.

The latest developments in the disastrous cotton situation in India are : The suggestion that during the impending visit to Bombay of Sir George Schuster, the Finance Minister, the Government of India will endeavour to end the dead-lock. Uproariously and disorderly was the meeting of the Bombay Cotton Brokers Association, convened to discuss the situation. The Bombay "Chronicle" says that the Indian Government is now determined to tackle the situation "with a firm hand". Drastic remedies are imperative. Therefore, Sir George Schuster is being sent from New Delhi to investigate.

HEAVY TRIALS.

150 Cars Baulked By Famous Hill.

Beggar's Roost, the famous Devonshire Hill has haunted for the failure of some 150 cars in the Annual London to Lands End Trial of the Motor Cycling Club. After a fine night's run the competitors reached the borders of Devon in a morning mist which changed to rain on Monday. Two thousand spectators lined the Roost Climb, the loose flinty surface of the hill occasioned so much wheel slip that the engines became impotent and the wheels dug holes in the Roost surface. Several cars became uncontrollable and had to be abandoned while about 50 were hauled to the summit.
