THE BRITISH DOMINION CLUBS'

TEAM COMPETITION, 1933.

"The Rifleman's" Detailed Report.

With due acknowledgements to "The Rifleman" we publish their January report of the British Dominion Clubs' Team Competition, 1933, won by the Falkland Islands on the first occasion of the Colony's entering this Empire event. : -

"The second year of this annual team competition for all affiliated Overseas clubs of the S.M.R.C. attracted 20 team entries, as compared with 12 in the first year. This increase is gratifying, especially as the area is more widespread, team entries coming from Falkland Islands, Canada, New Zealand, Newfoundland, Fiji, Nyassaland, Ceylon, Egypt, South Australia and South Africa.

"Nevertheless, we expect a much greater entry and area to be concerned in the 1934 event. Not until everyone of our sixty or more overseas clubs have entered can we feel satisfied with the competition, and we urge our members in every part of the British Empire Overseas to see to it that their club is not absent from the forthcoming competition.

"It will be remembered that the 10th Battalion, Kensington, South Australia, A team, was successful in winning the first competition with the score of 587 x 600, the .25 guage just giving them the victor over Wellington Harbour Board (N.Z.) by one point, whilst Mosman Neutral Bay, Sydney, Australia, was third with 580, the fourth place being shared with scores of 586 by New Brighton Ladies (N.Z.), Beethic, Newfoundland and Wellington Harbour Board, B. team, the other team scores trailing down to 567, 565, 536, 527, 526 and 421 !

"The scores of the 1933 competition given to-day show a much better average throughout. In fact, there is not a really bad score amongst them. We heartily congratulate Falkland Islands D.F. team on their success in winning on the first time of entry, although their score is one point less than the winners' last year.

"The North Toronto A team, in taking second place after a tie with Wellington Harbour Board A team, are also to be congratulated on this success the first year of entry.

"Unfortunately for the Wellington team they were not quite able to maintain the fine form of their first year's shoot, and scored three points less for a total of 584, and, being unlucky on the application of the .25 guage to decide the above mentioned tie, they could get no better than third place.

"All the teams who returned their cards in the competition deserve high praise for their good shooting, and we look forward to the rapid advance in skill of the lower placed teams. Not one of the numerous individuals concerned scored a "possible," but we heartily congratulate the following who shared individual honours in making the best scores of 99 each : -

"L. Reive and E.J. Moatasney, of Falkland Islands; J. Sercombe and I Sutcliffe of N. Toronto A; R.H. Nicholl and R. Tomlin of Wellington (N.Z.); G.F. Antell of Toronto Highlanders; M. Miller of N. Toronto B.; G.H. Parsons of Mazda, Newfoundland; and Mrs J. Caldwell of New Brighton Ladies (N.Z.). Ladies never fail to be mentioned in small-bore matches nowadays !

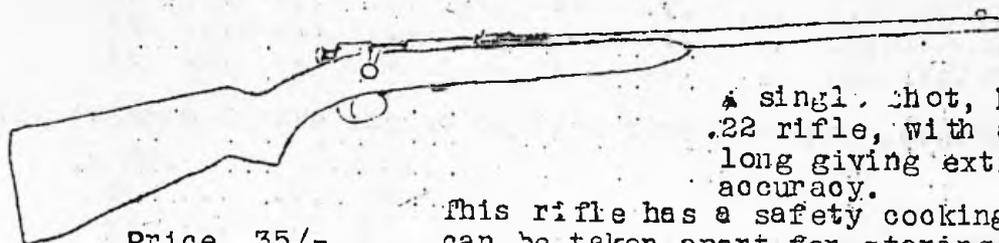

"We shall expect more 99's and certainly some "possibles" from the 1934 shoot." -

The detailed scores of the first three teams with the totals of the remainder will be found on page 4.

#### DISARMAMENT ACTIVITIES.

The Daily Telegraph states that the French Government has been asked, in connection with the reply to the British Memorandum, to define its precise position relative to guarantees and its views towards certain aspects of the British, German and Italian proposals.

These inquiries have been communicated through Lord Tyrell, the British Ambassador at Paris, and it was understood on Saturday that the French reply would not likely be formulated before the end of this week and therefore, no decisions of substance could be taken by the Cabinet Committee until this reply had been considered.

The same journal's Rome correspondent reports that the Italian Foreign Under-Secretary, Sgr Suvich, is leaving for London on the 23rd of April to return the visits of Mr Ramsay MacDonald, Premier, and Sir John Simon. But, it is stated, while disarmament is likely to be discussed the visit must be regarded as a sequel to the French Note though it is believed that he will point out that the Note, in the opinion of the Italian Government, closes all roads to progress.

INSULL "CAUGHT" AT LAST.

A message from Constantinople on Sunday stated that Turkey's decision to arrest the financier Samuel Insull on "instructions" from the United States, threatens to lead to an international incident.

Turkey issued an order for Insull who was remaining on board the steamer Maiotis, to present himself before the Turkish Court for an extradition decision but a lawyer has instructed the captain of the vessel to resist, with arms if necessary, any attempt to arrest Insull. Meanwhile the Greek Minister was protesting against the projected violation of the ship's extra-territoriality.

A later message from Istanbul states that confused reports have been issued with reference to Insull who appeared before the Third Penal Court on Monday.

The Court automatically granted an extradition order but it was also decided that he was not an American citizen and that he could leave when he liked.

A Rumania message states that Insull is to be extradited from the country immediately he arrives there. At a late hour it was announced that the Turkish Cabinet had decided to hand Insull over to the American authorities.

U.S.A. & BRITISH BUDGET SURPLUS.

According to current reports in Washington the United States opinion relative to the British Budget surplus tends to demand its appropriation for the settlement of the War Debt.

Democratic Senator McKellar expresses the hope that the whole sum can be sent on account of the debts thus taking advantage of a splendid opportunity to restore credit, while Republican Senator Robinson of the Foreign Relations' Committee, takes the view that the surplus shows that Britain could pay the debt if it was insisted upon and ninety-five per cent of the American people did insist.

BULGARIA SCOFFS BALKAN PACT.

The Bulgarian Premier, Dr Mounchanoff, in addressing the Chamber at Sofia on the country's foreign policy on Saturday, declared that the recent Balkan Pact was superfluous as peace in that area was not threatened while the Pact put obstacles in the way of a revision of the peace treaties. Hence, Bulgaria had not joined in view of the fact that she did not consider the treaties immutable but held that they should be adaptable to the new circumstances and the needs of the nations.

NEWS IN BRIEF.

- London Trade talks between India and the Irish Free State are being resumed here next week along the lines commenced at the Ottawa Conference.
- Madrid Reuter reports that negotiations for a Concordat with the Vatican were commencing after Easter.
- Belfast The Northern Ireland financial year closed on Saturday with a surplus of £19,425, the Government thus showing a balance for the thirteenth successive year.
- Carnarvon The local Labour Party has resolved to oppose Lloyd George at the next parliamentary election and the branches have been invited to nominate candidates.
- Copenhagen The Danish State Railways have granted a contract to British firms for the supply of coal for six months, amounting to 125,000 tons.
- Landsend Reliability Trial has proved the absolute road-worthiness of the modern sports car with above ninety per cent of the 465 competitors qualifying for the Premier awards.
- Prague Dr Benes' organ the "Ceske Slovo" states that on the 19th of March, car-loads of artillery, ammunition and so on were sent from Italy to Austria in violation of the peace treaties. The Nazi journals give full details of the Austrian officers concerned and the material transported.
- Berlin The oldest paper, the "Vossische Zeitung" has closed down after two hundred years, ceasing publication on the grounds that, with the new conditions in Germany, it's task is ended. Five other Hamburg journals have also closed down.
- Rome Using a golden trowel, Pope Pius the Eleventh, sealed the Holy Door at St Peter's on Monday with three golden bricks. The door will not now be opened until 1950. It is estimated that the Holy Year pilgrims will exceed by a million those of 1925 but will be below 1,500,000 those of 1900.

EASTER AT HOME.

The Easter holiday exodus from the Metropolis exceeded all records with the railways taken by surprise due to the excess bookings on Thursday and Friday last week. There was general congestion at the stations.

Trains for Scotland carried 1,300 sleeping berths and throughout the system 1,500 additional trains ran over the holiday period with duplicate expresses northwards.

Imperial Airways reported record business with all the Paris services booked to capacity, 117 planes crossing the Channel on Thursday and Friday while 2,500 passengers travelled by steamer.

All roads out of London, particularly towards the south coast, were filled with traffic. Simultaneously, with the marked continental trend of holiday makers, it is officially announced that for five Britishers visiting France only one Frenchman visited England.

IRISH "EASTER WEEK" CEREMONIES.

The Irish Free State celebrated the 1916 "Easter Week Risings" on a larger scale than ever before with processions and orations in memory of the fallen, in many towns and villages says the Daily Telegraph.

The Fianna Fail and I.R.A. competed for followers, with the latter gaining the most adherents. But de Valera, with fifty survivors of the rebellion and the members of the families of those executed, assembled at Parnell Square, Dublin, at noon and proceeded to Arbour Hill.

A silence was observed at the Post Office and the Four Courts and de Valera laid wreaths at Arbour Hill where the executed are buried.

Pleas for the unification of Ireland were made by both parties' leaders, the I.R.A. stand being made at Glasnevin Cemetery.

In Londonderry the Republicans defied the Northern Ireland ban on demonstrations and held brief meetings which were unmarked by disturbances.

Further "Easter Week" ceremonies, a later message reports, gave opportunities for the Irish leaders to make pronouncements relative to the position apropos Britain.

Speaking at the commemoration of the "Battle of Crossbarry", the Republican leader Barry said "Thank God we have guns and shall see forces directed towards the restoration of the Republic." Barry inferred that when the critical stage was reached the "Imperialists" Cosgrave and O'Duffy would be wiped out of the country for ever.

Quartermaster General Russell of the I.R.A., in delivering an oration at Glasnevin Cemetery, said the I.R.A. would only hand over their guns to the Irish Republican Government, while at Listowel, Miss Sheila Humphreys said that Ireland was as far away from freedom as ever she was.

### A FIVE-YEAR PLAN FOR BRITAIN.

The Daily Telegraph publishes the details of the Socialist League's five year plan which is to start immediately the Socialist Government is returned to power.

There would be socialisation of finance, nationalisation of land and the abolition of the House of Lords. Subsequently the same principles would be applied to transport, public utilities, heavy industries, cotton and textiles and agriculture.

### ROME'S PROTOCOLS.

Dr Yevitch, the Foreign Minister for Yugo-Slavia, in addressing the Chamber at Belgrade has referred to Rome's Protocols, declaring that these are not precise in regard to their aims and extent, but their later application would form a possible basis for "wider collaboration."

The Minister emphasised the Little Entente's goodwill in the interests of peace and the economic organisation of Central Europe.

### U.S.A. OPTIMISM REVIVING.

A message from New York states that American optimism, which has lately been at a low ebb, is reviving, partly because the advocates of inflation are gaining strength with a probable favourable reaction in the stock market.

While expenditure on the "New Deal" is averaging 500,000,000 dollars monthly, approximately six million people have been re-employed with the Federal deficit below the estimate and banking conditions good.

The chairman of the Steel Corporation, in addressing the shareholders, expressed the opinion that the most difficult period had been passed while the markets were indicating that the selling prices of the commodity had increased from three to four dollars.

The United States Steel Corporation is operating at forty per cent capacity compared with 14.2 a year ago with basic pay 25 % above that of July last.

The net income for the railways is 200 % above that of last year while motor production has increased substantially and all industries report progress since March last year.

### THREE GENERATIONS.

The "Observer" reports the unusual event of three generations of a family giving birth to sons on the same day in the village of Kruzina, in Western Poland.

The question of precedence, important to peasants, will be a complicated one, as the son of the granddaughter is some hours older than his great-uncle, the son of the grandmother.

FOOTBALL FIELD DONATION.

During the recent visit of H.M.S. "Exeter" the sum of £5 was voted on board as a gift towards the maintenance of the football ground in Stanley.

We feel sure that this very generous gift will be very much appreciated by all football enthusiasts as it will enable much needed work to be put in hand.

It is proposed to expend the money in extending the banks behind the goals so that the goal-nets will fit properly, and also to turf each goal area. The improvements have already been put in hand.

MINIATURE RIFLE CLUB MEETING.

An Extraordinary General Meeting of the Defence Force Miniature Rifle Club was held in the Club Room at Headquarters on Thursday when Lieutenant W.M. Allan (Adjutant) presided, supported by the retiring Hon. Secretary, Mr E.J. McAtasney, and the retiring Hon. Treasurer, Mr W.J. Grierson. There was a fair attendance of members who numbered twenty-two.

In welcoming these present, the chairman explained that the Annual General Meeting had had to be adjourned as it had been found impossible to elect a committee on account of the poor attendance.

The officers subsequently elected for the ensuing year were :  
President - His Excellency the Acting Governor; Vice-Presidents The Hon. G. Roberts, G. Bonner Esq., O.B.E., E.G. Rowe Esq., R. Greenshields Esq., and the Hon. L.W.H. Young; Chairman - The Commanding Officer; Hon. Secretary - Sgt J.J. Harries; Hon. Treasurer - Pte W.J. Grierson; Members of Committee - Ptes A.H. Hills, A.V. Summers, P.L. Hardy and G. Martin.

At a Committee Meeting held afterwards it was agreed to commence shooting practice at 8.0 p.m. on Monday next, the 9th instant. It was announced that membership fees, which are payable in advance will be gratefully received.

COAL OWNERS' DECISION.

It is officially announced from London that the coal-owners in all districts have reached a unanimous decision for the revision of the Marketing Scheme inaugurated under the Mines Act.

An agreement has been reached on the proposals to be submitted to the Board of Trade for the substitution of the Bill now before Parliament amending the Mines Act.

The principal points are : Separation of inland and export quotas and the coordination of minimum prices as between districts.

The view expressed is that under the agreement the coal industry is enabled to take a fuller share in regaining and advancing national prosperity.

THE WAR DEBT QUESTION.

Britain's case for war debt revision has been impaired by the announcement of the Treasury Surplus, the Daily Telegraph Washington correspondent writes, while the United States is in a particularly sensitive state owing to the present financial conditions. since Roosevelt has said frequently that he is sending a war debt message to the Congress before the adjournment.

Senator McKellar of Tennessee, on Wednesday expressed great admiration of Britain's financial conduct and sided with those who consider that the British surplus should be devoted to the settlement of war debts.

Meanwhile a Reuter message gives an analysis of Wednesday's U.S.A. Treasury returns showing the true excess of expenditure over revenue during March to be 139 million dollars with the Public Debt increasing 105 million to 26,158 million while the Treasury's cash in hand has decreased 84 millions.

The Treasury's refunding offer has been well received and it is expected that a large majority of the holders of the fourth Liberty Bonds will avail themselves of the exchange resulting in an annual saving of the interest charges of 10 million dollars.

The Senate has approved of a capital stock tax to be effective in July and the levying of a 25/35 per cent surtax on improperly accumulated surpluses of corporations.

FRENCH ECONOMY MEASURES.

According to a message from Paris the Ministerial Council has passed the Economy Decrees and the President has signed the documents which are intended to save France 2,500 million francs under the following heads : Reduction Budget credits 628 million, subsidies 32 million, retirement 80,000 Civil Servants 750 millions, pensions 500 millions, State officials salary cuts 360 millions.

Considerable discontent has been caused among the classes affected and the Civil Servants are wording a strong manifesto to the Government which is backed by a threat to strike.

The Finance Minister, M. Martin, speaking on the decrees, stated that no less than forty milliard francs were hoarded.

ITALY EMBARKS ON TRADE TREATIES.

Negotiations for a series of trade treaties between Italy, Austria and Hungary commenced on Friday the Daily Telegraph Rome correspondent states.

The delegations arrived in Italy on Thursday when preliminary discussions took place.

The problems to be considered are : the price of Hungarian wheat imports to Italy and Austria, the payment for exports, the development of tourist traffic, and the uses of Fiume and Trieste.

THE DISARMAMENT SITUATION.

The Lord Privy Seal, Mr Anthony Eden, is to leave for Geneva to-day (Monday) to take part in a meeting of the Bureau of the Disarmament Conference.

The question regarding guarantees of execution of any disarmament convention that may be agreed upon is still the subject of exchanges between the British and French Governments, reported a press message on Friday.

The French views on security were broadly stated in a Note recently received in London in reply to the British Memorandum and subsequently, further inquiries arising out of that Note were addressed to the Quai d'Orsay.

The reply to these inquiries has been approved by the French Cabinet and it was understood that it would be in the hands of the British Government on Saturday.

It's terms were to be carefully studied by the Minister's before Mr Anthony Eden's departure for Geneva.

Recent developments in the disarmament situation were discussed on Friday morning at a meeting at the Foreign Office between the Foreign Secretary, Sir John Simon, and Mr Norman Davis, the United States representative at the Disarmament Conference.

NEW AERODROME NEAR LIVERPOOL.

Although the weather was unfavourable for flying and snow-storms were reported in the Midland areas, the Prime Minister flew on Friday to Liverpool to open the new aerodrome near that city.

He was accompanied by the Air Minister, Lord Londonderry, and both Ministers were the guests of the Lord Mayor at a civic luncheon.

The visit marked the inauguration of the new Liverpool, Glasgow, Belfast, Liverpool and Birmingham air liner service.

A projected extension of the scheme will link Liverpool through Heybridge, the new air port in Essex, with the continent.

NEWS IN BRIEF.

- Hague** Trade negotiations between Holland and Great Britain are being opened in London at the end of this month (April.)
- Bucharest** The three members of the Iron Guard concerned with the assassination of the late Premier, Dr Duca, have been sentenced to life imprisonment. The remaining fifty accused have been acquitted.
- Bombay** Gandhi has informed the Congress leaders of his new plan to enter the Legislative Council and though he is expected to withhold opposition the conversations are continuing.
- Washington** The Reconstruction Finance Corporation has authorised six million dollars loan to Cuba for financing the export and import banks and the silver sales.
- London** The Second Reading of the Lotteries Bill is being moved in the House of Lords on the 24th instant by Lord Londonderry when the Earl of Kinnoull, the Socialist Whip, will move the rejection.
- Dublin** The Local Government elections have been fixed for the 26th of June and though these are to be fought on a party basis General O'Duffy welcomes the probable outcome.
- Rochester (New York)** The Prince of Wales has been invited to attend the centenary celebrations should he make the contemplated visit to Toronto's celebrations but, in London, it is understood that His Highness does not intend to visit either Canada or America this year.

INCREASES IN U.S.A. TAXES.

According to a message from Washington increases in taxes and death duties are likely to be voted by the Senate and it is proposed to make all income tax returns "Public records".

Meanwhile considerable doubt exists concerning the interpretation of the Johnson Bill prohibiting loans to defaulting nations and the State Secretary, Mr Cordell Hull, has informed the Daily Telegraph correspondent that this point can only be settled by the President.

Although the greatest improvement in any one month for fifteen years past is claimed by the Department of Commerce for February a report is current that the motor industry labour trouble is threatening the Recovery Programme again, due to the workers' restlessness at the Labour Board's delays in settling the recent disputed trades union issues.

It is reported from Alabama that the coal owners decided to close down on Friday pending the hearing of the protests against the wage increases ordered by the National Recovery Act, affecting 15,000 workers.

---o---o---

THE FRENCH FINANCIAL CUTS.

It is stated from Paris that the French financial circles are favourably impressed with the expenditure cuts decrees and consequently the stock market has been showing generally higher prices.

While the civil servant bodies continue to express their intention of taking drastic action the government believes that wiser councils will prevail.

Premier Doumergue, in a statement addressed to these bodies, reminded them that all classes of society were being called upon to make sacrifices and as a matter of patriotism the civil servants should accept their share of the burden.

INSULL - NOT YET.

No decision has yet been taken by the courts in Istanbul on the Insull demand for liberation, the public prosecutor stating that the Third Penal Tribunal must decide his appeal against extradition on the grounds of American citizenship but the British barrister advising Insull says he is hopeful of freeing his client.

BUDGET PROSPECTS.

There is a growing opinion in well-informed quarters in London that, with the substantial surplus he will have at his disposal, the Chancellor of the Exchequer will be able to produce a "popular" Budget next Tuesday.

The Daily Telegraph says there is an expectation that he will reduce the income tax by sixpence, restore the economy cuts made in 1931 and restore the unemployment benefit insurance to the level at which it stood before the financial crisis.

There is a feeling among government supporters that, in addition, the Chancellor may increase the allowance for children under the Unemployment Bill from 2/- to 3/- a week and abolish the entertainment tax on seats priced under sixpence.

The Chancellor is not likely to make any provision for the payment of the war debt instalments to America. He is likely to adopt the same attitude as in 1933 when he left out of account any call in this direction. The Johnson Bill in the United States is held not to affect materially the position of Great Britain which, in virtue of her token payments, would not be regarded as in default.

TENNIS PLAYER'S SUICIDE.

A message from London states that before Jiro Satoh, the world-famous Japanese tennis player, committed suicide by jumping overboard from the liner Hakonemaru in the Malacca Straits, he prepared his own shrine in Japanese fashion.

He covered a small table with a white cloth and placed on it two burning candles, orchids in a vase, two photographs, a plate of sweets and in the background a Japanese flag as an offering to his gods.

He left two letters, one to the captain and the other to his fellow Davis Cup players.

To his fellow players he said he knew how much they depended on him in the forthcoming matches and, knowing that he could not properly fulfil his trust, he had decided to say goodbye for ever.

A WORLD SUPREMACY FOR BRITAIN.

According to a message from Washington George Peck, the President's Foreign Trade Adviser, in a speech broadcast on Friday said that, for the first time since the war Britain has captured the world export supremacy from the United States.

The speech, it is understood, has caused a storm for the experts are sharply objecting to it.

George Peck said that within the past few years the other nations had made sixty-six agreements among themselves, leaving American interests out of the picture and the Administration would no longer allow the United States to be the "International Simple Simon."

HOPES OF PEACE FROM GANDHI.

A Calcutta report states that Gandhi's decision to suspend the Civil Disobedience campaign has roused hopes in Bengal Congress circles that he will endeavour to see the Viceroy and make another peace effort.

While the Civil Disobedience order has not been rescinded all roads to negotiation with the Government are barred, though civil disobedience has long been quite a dead letter & anti-British demonstrations completely ceased.

CONCERNING THE FRENCH BUDGET.

Besides the reduction in the State servants' salaries, a message from Paris reports, unrest has been caused by the revision of the ex-soldiers pensions which are expected to save some 1,800 million francs.

A deputation of protest was to see the Premier on Monday.

With regard to the civil service cuts the General Federation of Labour has decided to withhold direct action and launch a big propaganda campaign.

At protest meetings on Sunday throughout France only mild resolutions were passed.

---o---o---

MILLE MIGLIA DUELS.

There was a thrilling duel between Varzi and Nuvolari in the Mille Miglia, Italy's Thousand Miles Road Race on Sunday a message from Rome reports. Varzi won with an average speed of 71 miles an hour, in 14 hours 8 minutes and five seconds with Nuvolari eight minutes behind.

Penn Hughes and Count Lurani, driving an M.G. Magnette, were second in the light car class.

Earl Howe crashed into a lamp-post near Florence when leading in his class by  $6\frac{1}{2}$  miles; he was not seriously hurt but his car was damaged. Mr and Mrs E.R. Hall, the latter the first and only woman in the race, withdrew with engine trouble near Siena.

Varzi and Nuvolari ran a thrilling neck to neck race most of the way.

FRENCH CIVIL SERVANTS STRIKE.

It is reported from Paris that the Post Office employees in various towns in France struck for a short period on Saturday in protest against the civil service pay outs whereby the Government proposes to balance the budget.

Considerable anxiety is felt lest this might prelude a strike embracing 800,000 civil servants.

U.S.A. DIFFICULTIES.

It is becoming widely recognised, says a message from Detroit that President Roosevelt's settlement of the motor industry disturbance has only postponed the impending crisis.

The Mechanics' Education Society of America, with 19,000 members has appointed a general "walk out" for Thursday unless the employers make a considered offer to their demand for a twenty per cent wage increase and a thirty-five hour, five-day week.

The Motor Products Corporation has 5,600 employees on strike with other strikes affecting 4,000 threatening within the next few days.

A Labour Board of three is sitting nightly till a late hour but the Daily Telegraph correspondent Richard Byrd only is representing Labour while of the other two Nicholas Kelly is representing the manufacturers and Professor Wolman is neutral concerning procedure.

Three hundred union officials at a meeting on Sunday night were expected to suggest that Byrd might withdraw from the Board on the grounds of his colleagues ignoring Roosevelt's promise of speedy action.

TUESDAY'S WEDDING.

Miss E.E. Atkins & Mr A.W. Beardmore.

A wedding of considerable interest was solemnised in the Cathedral Church on Tuesday at 4.15 in the afternoon by the Very Reverend the Dean, between Miss Emily E. Atkins, the second daughter of Mr and Mrs R.D. Atkins of Stanley, and Mr Arthur W. Beardmore, the youngest son of Mrs E.A. Beardmore of Burton-on-Trent, Staffordshire, and the late Mr E. Beardmore.

Both the bride and bridegroom are well known in the Colony & both have, for several years, been working in the Colonial Treasury in Stanley, the former as second clerk and the latter as chief clerk.

The bride, who was given away by her father, wore a becoming dress of blue silk with hat to match and carried a bouquet of white Chrysanthemums and her youngest sister, Miss Phyllis Atkins, who was the bridesmaid, was prettily dressed in blue flowered crepe-de-chine with hat to match, carrying a bouquet of dark red Chrysanthemums while Mrs Atkins wore a charming dress of brown lace with hat to match. The bouquets were made of flowers from Government House, kindly sent by His Excellency the Acting Governor. The best man was Mr H. Thomas, a friend of the bridegroom.

There were many friends in church to witness the ceremony which was beautiful in its simplicity. The hymn tune "O Perfect Love" being impressively played on the organ by Mrs R.L. Robson with wedding marches prior to an at the conclusion of the service.

A peal from the church bells announced the departure of Mr and Mrs Beardmore who left in Mr Les Hardy's car, kindly loaned for the occasion, for the Town Hall where the reception was held and where some 150 guests assembled. Among those present were His Excellency the Acting Governor, accompanied by Major the Hon. J. Innes Moir (Aide-de-Camp,) and the Honourable M.C. Craigie-Halkett, O.B.E., Acting Colonial Secretary and Colonial Treasurer, and Mrs Craigie-Halkett. A happy time was spent by all who partook of the handsome three-tier and terraced wedding cake made by Mrs Arthur Hardy and who drank the health of the bride and bridegroom toasted by His Excellency.

Mr and Mrs Beardmore, who received many useful and handsome presents, are sailing in the s.s. Lafonia to-morrow for England on leave.

### THE IRISH DISPUTE.

The Secretary of State for the Dominions, Mr J.H. Thomas, in reply to questions in the House of Commons regarding the Irish Annuities dispute said, that the question of the land annuities was only a part of the dispute with the Irish Free State.

He said that the dispute had been caused by the non-observance of certain provisions in the Treaty Settlement of 1921 by the present government.

Mr Thomas also said that the British Government were willing to resume the discussions but there must first be an acceptable basis for the discussions.

### NAZI CLASHES IN BAVARIA.

According to a message from Munich the negotiations between the Roman Catholic Church and the Nazi government regarding the Roman Catholic Youth Organisations in Bavaria have broken down.

Serious clashes occurred between Roman Catholics and Nazis outside the Bishop of Wuerzburg's palace on Saturday. A way was forced into the palace and only the timely intervention of the police prevented violence.

### GREAT FORGING DISCLOSURE.

A forgers' factory has been discovered and seized in Warsaw following the arrest of eighteen persons, eight of whom have been detained in connection with an international plot.

Among documents known to have been forged and circulated in various European centres are : British bonds, Polish 7 % State Loan and American bonds.

The gang is also reported to have forged 1,000-dollar and 1,000-franc notes and large quantities of Austrian banknotes, says a Reuter message.

The premises of seven printing firms have been searched and plate for printing spurious bonds has been discovered.

### THE U.S.A. LABOUR SITUATION.

The labour situation in Detroit, already regarded as grave by the National Recovery Authorities, became more serious on Monday. This is as a result of sixty-branches of the American Federation of Labour telegraphing President Roosevelt criticising the work of his committee of three which is attempting to settle the grievances of the motor-car industry.

They declare that the Committee has not lived up to the spirit in which it was created and they criticize Professor Wolman, the neutral chairman, for proceeding with undue slowness. "He is trying to settle the differences by mediation instead of by a firm decision," said William Collins, the chief organiser of the American Federation of Labour.

The employees of the Products' Corporation (Motors) which manufactures parts for many of the largest firms have rejected by an overwhelming majority the tentative settlement arranged at Monday's conference with the President's Committee.

NEWS IN BRIEF.

- Manchester The long awaited scheme for the reorganisation of the Cotton Spinning Industry submitted to the Master Spinners' Federation on Tuesday is known to involve re-organisation on a wide scale though the details have not been disclosed.
- Wellington (New Zealand) The bank returns for the March quarter show the fixed and free deposits at the record total of £61,000,000.
- Tokio Japan's bid for the world's cotton markets made a big advance in February especially in British India. The exports of cotton textiles totalled 204,628,000 square yards which is an increase of 49,299,000 over January. The exports covered principally British India, the Dutch East Indies and Africa.
- Berlin The trans-Atlantic air-mail service of the German Lufthansa Company created a record by covering the distance of 5,600 miles from South America to Germany under three days by relays of machines.
- Rome For the first time in the history of the Roman Church the Pope received on Tuesday foreign newspaper correspondents living in Rome and thanked them for their co-operation as representatives of the world's press in the success of the Holy Year.
- Paris The trouble which was feared as a consequence of the proposed cut in the ex-soldiers' pensions has been averted as the result of a compromise which is believed to be on a 3 % cut basis.
- Ottawa The salaries of the Canadian Civil Servants not exceeding 1,000 dollars annually are not to be subjected to the 10 % cut in the coming fiscal year.
- Oslo The Tafjord disaster is the worst Norway has known for thirty-four years. An enormous mass of rock fell 6,000 feet into the narrow fjord and sent up a wave which completely destroyed the villages of Tafjord and Fjoceraa. The death roll is now over fifty.
- Seville After three days of torrential rain the river Guadalquivir is twenty-six feet above the normal level and the port has been closed to navigation. The entire flooding of the docks is threatened. At Jerez the crops are believed to be completely ruined.
- London Parliament meets on Monday to face an unprecedented congestion which includes four Government Bills for which a great class of controversy is predicted. These affect betting and lotteries, road traffic, tithes and petroleum production. The growing hostility to the Cabinet lottery proposals suggests that the lotteries' clauses may have to be dropped and the Betting Bill confined to the control of dog-racing.
- Paris The "Soir" comments on the Disarmament Note as "absolute opposition to Germany's rearmament."

SOME BLOW !

All day yesterday a wind with a maximum velocity of between sixty and sixty-five miles an hour raged over Stanley from the north-west but as far as is known no serious damage has been done though pedestrians were almost blown off their feet at times while motor-cyclists had the greatest difficulty in maintaining control of their machines.

As fickle as ever, the weather dealt a severe "blow" to the optimists who had banked highly on the exceptionally fine spell of sunshine experienced the previous two days.

---o---o---

GOOD PROSPECTS FOR WORK.

The Ministry of Labour figures for 1933 have been published and the year is described as the first since the 1929 trade slump to show a definite improvement in employment with the extent of the improvement within the latter half of the year having a favourable bearing on the 1934 industrial outlook.

---o---o---

SOUTH AFRICAN DEVELOPMENTS FORESHADOWED.

A message from Cape Town states that the Minister for Railways, in introducing the Railway Budget on Wednesday, announced a substantial surplus and foreshadowed interesting air and harbour developments in the Dominion.

The surplus on the year's working was £1,110,000 and the policy indicated was the restoration of pay cuts and a subsequent reduction in rates and fares.

---o---o---

ANIMATED INDIAN DEBATE.

It is reported from New Delhi that the third reading of the Indian States' Protection Bill, with the object of countering subversive activities of all kinds conducted from British India, passed the Legislative Assembly on Wednesday by 57 as against 28 votes after an animated debate.

---o---o---

VOLUNTARY BARGAINING EXPERIMENT.

According to a press bulletin from London on Wednesday the Minister of Labour, Sir H. Betterton, in conference with the joint representatives of the Cotton Manufacturers and the Weavers Amalgamation, agreed on an experiment in voluntary bargaining whereby the wage rates might be made legally enforceable in the industry.

A resolution embodying the proposals was unanimously endorsed by the representatives of both sides.

---o---o---

PUBLIC SERVANTS' MONSTER PROTEST.

The French public servants affected by the proposed cuts are organising a monster protest for Sunday against the "Iniquity Decree Laws" and will later suspend all services for one day.

The Premier, M. Poincaré, in addressing the Cabinet on Wednesday, pointed out the good spirit of the ex-soldiers who had shown themselves ready to bear sacrifices in the interests of the nation.

RHODESIA'S SURPLUS.

Rhodesia's sound financial position was stressed at the introduction of the budget at Salisbury, South Africa, on Wednesday when the figures revealed that there was no justification for any change in taxation.

A Reuter message says that the expenditure amounted to £2,504,000 with the revenue standing at £2,462,000 but £75,000 brought forward from last year has left a surplus of £33,000.

GERMAN LOANS SITUATION.

An official communique issued at Basle after the creditors' meeting concerning the German Loans' Service stated that the discussions, in which the representatives of Great Britain, Holland, Sweden, Switzerland and the United States took part, had reached the conclusion that the difficulties that had arisen were difficulties of transfer only and did not proceed from any incapacity to pay, while views were exchanged as to the best means of remedying the situation.

Sufficient progress was realised to permit of the basis of the Plenary Conference with the Reichsbank in Berlin being fixed and it was decided that this conference should be convened towards the end of this month.

The delegates have now left Basle but contact is being maintained between the parties.

U.S.A. FINANCIAL FIGURES.

The Washington Treasury announces that the exchange subscriptions for the new Conversion Bonds to Wednesday totalled 785,000,000 dollars.

The Commerce Department's statement on foreign trade shows the dollar value to have increased 4 per cent on 1932 to 1,675,000,000 but the increase is entirely due to the higher prices of shipment, the volume remaining unchanged, says a Ruter message.

Calculated on a gold basis, the exports have declined 19 per cent and, coincidentally, fell below British exports for the first time for nineteen years.

Meanwhile, the dollar value of imports has increased 10 per cent on 1932 to 1,449 million which is almost entirely due to increased volume.

LONDON IMPROVEMENTS.

In a press interview the L.C.C. leader, Mr Morrison, envisages a new Waterloo Bridge of five arches, better suburban railway connections, the clearance and replanning of the south side of the River Thames and the construction of Charing Cross Bridge with river terraces between Westminster and Waterloo.

THE GERMAN RELIGIOUS FIGHT.

Despite the attempts to heal the breach between the Reichsbishop Mueller and the Pastors' Emergency Federation, says a message from Berlin, there are no signs of a reconciliation.

The Federation has unanimously decided to carry on the fight along present lines while it is stated that the Evangelical pastors have appealed to the Pope for a united front against Germany's neo-paganism.

BOXING.

In London on Thursday the heavyweight champion, Len Harvey, defeated the American coloured fighter, Jimmy Tarante, in the fifth round of twelve at catchweights, on a disqualification and in a fight displaying the former's superiority.

The South African Ben Foord knocked out Eddie Phillips in the eighth and last round of a preliminary heavyweight contest.

Both fights were staged in the Albert Hall.

NEWS IN BRIEF.

- Amsterdam** Holland beat the Irish Free State 5/2 in the World's Championship competition at the Olympic Stadium. The winners are meeting Italy at Rome in May after playing Belgium at the end of April.
- Cape Town** The Minister of Finance, Dr Havenga, in making his budget statement, revealed a remarkable improvement in South Africa's financial position, mainly as a result of the higher gold price. There is a surplus of £6,424,000 as against a deficit of £1,915,000 for the two previous years with excess receipts over expenditure amounting to £3,546,000 and an increase of £2,439,000 in inland revenue.
- Bucharest** A plot has been disclosed in which an attempt was to have been made to assassinate King Carol and Madame Lupescu, headed by Colonel Precup who was assisted by General Schmidt and Colonel Prataulja with many officers and students. They had planned to blow up the church which the King attended during the Easter service. All the plotters are now under arrest.
- London** The executives of the three railway unions have decided to make joint efforts to secure the restoration of the wage cuts and it is possible that a meeting with the managements will be arranged next week.

A MELBOURNE AIR RACE ENTRANT.

It is announced from Dublin that the Director of the Irish Hospitals, Mr McGrath, has announced his intention of entering an aeroplane for the London-Melbourne race with Colonel FitzMaurice as pilot.

McGrath stated that he is anxious that among the great enterprises taking part in this adventure the Irish Sweepstakes should be represented.

GERMAN BUDGET INCREASES.

A Berlin message states that the increases in the military estimates of the budget is explained by the preparations for a change-over of the professional Reichswehr into a short-term militia army, involving a large outlay on accommodation and equipment.

The higher naval estimates are due to the replacement of obsolete tonnage which process is slower and less extensive than the Treaty provides.

The higher air estimates result from the need of improving the types used and the conditions of working in civil aviation and also for the expansion of trans-maritime flights such as those undertaken by zeppelin.

18 GERMAN FACTORIES

WANT TO MOVE TO BRITAIN.

The Daily Telegraph states that an ambitious scheme is projected for the transfer of about eighteen textile factories from Germany to Britain and private discussions have already taken place in London and Berlin on the possibilities of enquiries in industrial and official circles confirming this view.

The reasons for the transfer are : British import duties, German restrictions on foreign currencies for the purchase of raw materials abroad, the Jewish boycott, and the international trade union movement against goods services from the Nazi regime.

THE WEST FALKLAND SPORTS MEETING.

This Year's Rally At Chartres.

(Contributed.)

During the week-end preceding the Sports from all parts of the West Falklands a notably large crowd began to gather at Chartres Settlement where, through the kindness of Mr and Mrs W.H. Luxton, the annual meeting of the West Falkland Sports Association was held. It is probable that the attendance, estimated at two hundred, has never been greater in spite of the misfortune that Hill Cove had to be placed in quarantine just before the Meeting. Our sympathy is extended to Mr Harding and all hands at Hill Cove for their inability to be present.

At Chartres there was found a distinguished example of the magnificent hospitality which characterises the West Sports. One is struck with awe by the thought of the vast mounds of boiled and roast, of cakes and loaves which must have existed before the week began and still more impressive is the thought of the enormous labours of the devoted cooks who prepared the feast.

Special mention should be made of Mr and Mrs James Robertson of Port Stephens, who were, most fortunately, able to come to Chartres. It was, alas, Mr Robertson's last appearance at the Sports as manager of Port Stephens, but there is good hope that he will be able to attend future meetings and the warmest welcome is assured him and Mrs Robertson. A sad blank will be left in the ranks of the Westers by the departure of Mr and Mrs Robertson whose genial and kindly personalities have been so long known and appreciated.

It is a great pleasure to be able to say that presentations are to be made both to Mr and Mrs Robertson and to Mr and Mrs Rutter and these are expected to take the form of a piece of plate commemorating their connection with the West Falkland Sports Association.

Another gap which approaches is that being caused by the impending departure of Mr William Rutter whose courage and sportsmanship have been such an inspiration to the Sports Meetings. Mr Rutter and his family take with them the heartiest good wishes of all who know them.

The heartiest thanks are due from all those who attended the meeting to Mr and Mrs Luxton, Miss Luxton and Mr Keith Luxton and to all those at Chartres who entertained such a large gathering in so noble a manner.

During the three days of the actual sports the weather was exceptionally fine and particularly notable for the absence of strong winds with which we are all too familiar in the Falklands.

Wednesday, the 21st February, was the day of the horse races. There were many close and exciting finishes and as a rule there was no shortage of entrants. "Blackberry", ridden by J. McAskill, won the Governor's Cup, his proper jockey, D. McKay of Hill Cove, being most unfortunately unable to ride owing to the quarantine imposed on that Station. It may be remembered that "Blackberry" won the Colt Race at Hill Cove in 1932.

The retirement from the racing world of two notable winners must be recorded with regret. These are "Teresina", the winner of many prizes, and "Betty", the renowned trotter.

Thursday was devoted to the foot and gymnkhana events, conspicuous among the latter being the mounted musical chairs in which the whipper in visibly enjoyed himself to the topmost of his bent. It may be remarked that when this competition was over and the competitors had left the arena, the blindfolded band ("Jacko") was left playing away all to himself until someone remembered his existence.

The foot events went off with the usual enthusiasm although one competitor in the "Mile" was heard to lament that he was out of training, this although he had been chasing sheep on foot, over the mountains of the Jason Islands all the summer.

Monday, 16th April, 1934.

The whole of the last day, Friday, the 23rd of February, was occupied with the Sheep Dog Trials which presented a spectacle of the greatest interest. The entries, numbering eighteen, were restricted to Falkland Island trained dogs and bitches. Points were allotted (a) for hauling five sheep from a distance of about 600 yards and bringing them up to the man, (b) for driving the sheep through pens beside the shed and (c) for putting the sheep into a pen about 10 feet by 6 feet. In the last test the man had to keep hold of a line, about four feet in length, which was attached to the open gate of the pen.

There was a good deal of difference in the accomplishment of the competitors but almost all were able to bring the sheep up to the final pen although only two put their sheep in.

Special mention should be made of an exhibition after the competition when Mr R.C. Pole-Evans' imported dog "Don" was worked by Arthur Hall. The extraordinary effective manner in which this dog held his sheep and worked them into the pen placed him in a class entirely apart from all other dogs.

It is hoped that these important trials will become a permanent feature of the West Falkland Sports Meetings since nothing could more clearly show the value of breeding sheep dogs from first class stock selected for their working ability.

In conclusion, special thanks should be given to all the officials of the Sports Association and particularly to the Joint Honorary Secretaries who laboured late and early for the cause.

At the Prize Giving Mr Barton's speech was, as usual, a model of precise and classic English.

"Otaria."

The detailed results of the events will be published in tomorrow's "Penguin."

TRAGIC DISCOVERY.

Inquest To-day.

An Inquiry, conducted by the Coroner, will take place in the Court Room this afternoon at 2.30 to determine, if possible, the identity of the remains of a human being found at Volunteer Point last week.

The tragic discovery was reported from Johnson's Harbour on Wednesday night last week and the motor-boat "Dawn" left Stanley early Saturday morning with the Chief Constable, returning in the late afternoon with the body which was conveyed to the mortuary.

It is believed that the body is that of one of the four men who lost their lives in the Peronelle Disaster in October, 1933, at Volunteer Point.

Rome : The Italian cuts came into force on Monday when the prices of retailed food stuffs sold in cooperative shops were reduced 10 %, dwelling house rents 12 %, buildings 15 %, State employees salaries above 600 lire monthly cut from 6 to 12 %, and members of the Government 20 % with bachelor tax increased by one half. The Duce has cut his own salary 20 %.

Berlin : According to a Reuter message the conference between the Reichsbank and foreign creditors has been fixed for the 27th of April when Dr Schacht's standpoint that the interest rate is too high while Germany has not the gold to transfer her interest payments abroad, will be considered. Approximately £40,500,000 at par, belonging to British investors, is at stake.

### THE BUDGET.

The Budget of yesterday is to be memorable as the first since the 1931 crisis that the Chancellor will have a cheerful story, says the Daily Telegraph, pointing out that, on a conservative basis, he has at his disposal a surplus of £45,000,000 which is the largest for ten years.

According to the same journal there is every expectation that the standard rate of income tax will be reduced sixpence to 4/6d, the economy cuts in the pay of the police, civil servants, sailors, soldiers and teachers will be restored, with the return of the unemployment benefit to pre-1931 levels and the abolition of the entertainment tax for seats of sixpence and under.

There is a rumour that the petrol tax will be reduced but this is problematical in view of its costliness.

### NEWS IN BRIEF.

London The American golfers Sarazen and Kirkwood are making a playing tour of the British Isles on the completion of the British open championships.

Paris The French, Italian and Swiss officials have examined the plans for a seven mile tunnel for motors through Mount Blanc. The scheme is considered practicable and desirable and a Committee of delegates has been appointed.

Oslo The Government are asking the Storting for authority to issue six months' Treasury Bills limited to Norway.

Dublin Colonel FitzMaurine, the Irish Free State entrant for the London-Melbourne Air Race hopes to fly a new machine designed from his own ideas which include the innovation of being super-charged from its own exhaust.

Newcastle Boxing - The Frenchman Valentin Ingelman defeated Mickey Macquire on Monday, the latter retiring in the tenth round.

Leicester Boxing - Reggie Meen was disqualified in the third round of the heavyweight contest against Archie Norman. At Manchester Jack Brown (flyweight title holder) outpointed the Rumanian champion Aurel Toma in a twelve-round competition.

Warsaw An Anglo-Polish Convention has been signed for the mutual recognition of registry certificates and other documents relative to the measurement of commercial vessels. The Convention has been signed on behalf of Britain, Northern Ireland, Canada, Australia, New Zealand and India.

New York The Cambridge University rugby tourists defeated on Monday a picked eastern University side 23/9 thus making four straight wins on their tour. The press grants recognition that the game calls for "equal skill with American college football" with a "premium on courage."

LIGHTING UP TIME to-night will be 5.47 o'clock.

THE BUDGET.

Every man, woman and child in the country will benefit by the Budget says the Daily Telegraph, pointing out the wide application of the full restoration of the 1931 cuts in the dole and the corresponding increases in the maximum rates of transitional benefit while half of the pay cuts to Ministers, Members of Parliament, Judges, civil servants, soldiers, sailors, airmen, police, teachers, insurance, doctors and chemists have been withdrawn.

The standard rate of income tax has been reduced sixpence as anticipated, and cuts in motor taxation, which were unexpected, have been framed.

Although the Stock Exchange closed before the Budget had been announced, great activity ensued in the "Street Market" and the motor and industrial favourites advanced sharply.

The City regards the Budget as a combination of cautious finance with considerable hope for the future and it is anticipated that a way is being paved for another large surplus next year with further taxation relief.

Parliamentary circles regard the Budget as sound in all particulars and definitely encouraging, heralding better times.

On all hands the tax relief is regarded as a gesture that the crisis has passed and the Chancellor is commended for not placing the prospective surplus too high.

### DE VALERA & THE FARMERS.

Speaking at Clonmel on Tuesday de Valera, in addressing a meeting of agriculturists stated, that even without the trouble with Britain there would be no market for Irish farmers because the British farmer wanted the market to himself and by way of tariffs a £4,000,000 loss had fallen on the agricultural community.

He added that his party, elected for four or five years, would see that period out to complete its outlined policy.

### THE PURPOSE OF THE FRENCH NAVY.

In discussing the French naval plans with the Paris correspondent of the Daily Telegraph, the Minister of Marine, M. Pietri, stated that the nation had no colonial aspirations and the navy only existed in order to secure the integrity of the 30,000 miles sea routes linking France with her colonies.

Submarines would never be used "illegally" the Minister added but in the matter of disarmament he favoured "global" limitation whereby differing categories of vessels could be built according to the particular geographical needs of the nations concerned.

- Paris Investigations relating to the "mysterious stranger" dwelling at Barbizon in the forest of Fontainebleu have revealed that the villa resident was Trotsky, the exiled Soviet Commissar.
- Geneva The smaller European Powers plan for disarmament has gained a good reception. It is regarded as practicable and a very realistic contribution to disarmament discussions.
- San Francisco The Japanese Financial Commissioner, Dr Tomita, forecasts that, though Japan is financially sound, the yen would be devaluated but as to the degree or time of this operation nothing is stated.
- Paris Demonstrations against the civil servants' pay cuts occurred on Monday at Rouen, Brest, Havre, Lille, Chate-Chatellerault, Nice, Montpellier, Nimes and Toulon but without incident. The Prefects, acting on the instructions of the Minister of the Interior, have refused to receive delegations.
- Singapore The original Tin Restriction Bill has been cancelled but other measures providing for restriction in the Straits similar to the Malay States, and the Smelting Formation Bill to enable the Tin Committee to estimate quotas, have passed through all the stages of the Legislative Council.
- Rome The International Wheat Advisory Committee debated the Milling Quotas and the question of the denaturing of grain destined for animal food on Monday. The former point gave rise to a heated discussion as a result of which a sub-committee has been appointed to study the intricate problems involved.

### GERMANY'S CLAIM.

According to a message from London, Germany's reply to the British Memorandum arrived on Wednesday before the French Note and states that the German Government is prepared to accept the United Kingdom Memorandum as a basis of a convention but finds it impossible to wait for two years for an appropriate air defence.

After five years Germany claims full equality with the principal air powers in numbers. She is willing to agree, on a basis of reciprocity, to ensure the nominality of the character of Hitler's "Private Army" under a supervisory system.

Berlin claims that her present stage of rearmament in the estimates is not a breach of the treaty.

### U.S.A. TREASURY DEFICIT.

It is reported from Washington that the Treasury deficit for the fiscal year ending 30th June has reached 3093 million dollars exceeding the deficit for the entire year of 1933.

White House has announced that the President will deliver a message to Congress on war debts this session but it is anticipated that this will be in the form of a report rather than a request for legislation.

The railway wage dispute continues to occupy the attention of the administration and President Roosevelt has conferred with the management group with a view to obtaining a settlement but no announcement has been made.

Administrative quarters consider that unless unforeseen developments occur in the world the wheat situation in the United States will request an increase in its exports quota under the International Agreement to 140 million bushels.

The New York minor industries strikes, affecting 77,000 workers, are progressing and in the clashes with the police many have been killed and injured.

### TROUBLE BREWING IN THE FAR EAST.

British officials decline to comment on the Japanese statement relative to that country's attitude to China, but the seriousness of the situation is admitted with the potentiality of far-reaching implications, says the Daily Telegraph.

The question is being discussed as to how far Japan's attitude conflicts with the "Open Door" embodied by the many international treaties and with the League's conception of China's sovereign rights.

Certain quarters have observed in the Japanese attitude an attempt to institute a "Monroe Doctrine" for China similar to that of the occupied South American republics in regard to the United States and Washington's views on the situation created are awaited with interest.

The practical question of Japan's forcible prohibition of the importation of war equipment also raises problems threatening the gravest international complications.

WASHINGTON LEGISLATION.

Authoritative circles state that President Roosevelt favours a separate Commission for the regulation of the stock exchanges and for the administration of the 1933 Securities' Act. The Bill, approved by the House of Representatives, provides for the jurisdiction by the Federal Trade Commission, but the Senate Banking Committee has already proposed a distinct regulatory body. The Leaders, in a move to remonetise silver, were conferring with President Roosevelt on Thursday it is announced. The Senate has passed seven Anti-Crime Bills; these cover inter-State authority, the prosecution of commercial racketeers, kidnapping and extortion offences.

---o---o---

ARMS GUARANTEE.

The Council of Ministers in France has approved of the terms of the Note replying to the British questions on an Arms Guarantee and it is understood that this emphasises that France will not agree to reduce her armaments while at the same time Germany is permitted re-armament unless adequate guarantees are forthcoming from Britain, says the Daily Telegraph correspondent in Paris.

It is also held that the direct conversations which have been proceeding lately offer no prospect of settlement and it is therefore useless continuing them suggesting a recommital of the whole problem to Geneva.

In its insistence it is suggested in some quarters that the Note may affect the British Empire, the idea being that the commitments involved make it necessary for the British Government to consult the Dominions.

THE GERMAN NOTE.

The Daily Telegraph states that the British Ministers are impressed by the view expressed in the German Disarmament Note which offers only one serious objection to the draft Convention, namely, that she cannot wait two years for an appropriate aerial defence.

It is revealed that the tone and the contents of the French Note was a complete surprise to the powers concerned and the French diplomatic representatives abroad, while it is stated that military influences overruled the Foreign Minister, M. Barthou, who hoped until the eleventh hour that the Note would be couched in more conciliatory terms.

World reaction has declared, in effect, that Germany has rendered further direct negotiations impossible and while France states that "the door to disarmament is not closed," Geneva envisages a clear and unmistakable rejection of the Mac Donald plan with Italy expressing a more fervid adherence to the "Mussolini plan."

The German press, referring to France's "brutal threat", says England, Italy and Germany have pursued the disarmament policy in a straight and positive line while France has proclaimed that she will not consider reducing her vast armaments which constitute a permanent threat to Europe.

THE U.S. STOCK EXCHANGE BILL.

It is reported from Washington that the Congress battle over the Stock Exchange Control Bill is entering on its final stage with the Representatives' version providing for a minimum margin of 45 per cent and Federal Trade Commission authority, while the Senate version outlines an independent Regulatory Commission of five members and would empower a Federal Reserve Board to fix the margins.

Wall Street is of the opinion that the Bill is inevitable but there is a determination to use every influence to soften the measures and provisions.

The Representatives' Marine Committee has approved of legislation requiring at least 50 per cent of the goods carried from or to the United States under trade agreements to be carried in American ships.

Owing to the pressure of business the White House Silver Conference has been postponed until to-day (Saturday.)

CHINA'S STATEMENT.

According to the Daily Telegraph Rome correspondent there is the possibility of Mussolini launching a plan to meet Japan's foreign policy relative to China by a "United European front." But there is no official indication of the adoption of this policy.

A Reuter message from Nanking reports that the Chinese Foreign Ministry has issued an informal statement relative to the Japanese declaration, saying that no State has the right to claim exclusive responsibility for the maintenance of peace in any designated part of the world, and China, as a member of the League of Nations, feels it her duty to promote international cooperation and achieve international peace and security without any intention of injuring the interests of any particular country while the collaboration between China and other countries would always be non-political.

THE CANADIAN BUDGET.

Mr Rhodes, the Minister of Finance, opened his budget speech at Ottawa on Wednesday on an optimistic note, indicating that the year's operations showed a business improvement with reviving confidence and expanding revenues.

The foreign trade for the past fiscal year totalled 1017 million dollars compared with 887 million the previous year, with the exports exceeding the imports by 152 million.

As a result of the Ottawa Pacts one-third of Canada's purchases abroad are now from Empire countries compared with one-fifth in 1929, while the exports to the Empire countries showed a similar gain.

The sugar tax has been cut from two cents to one cent per pound and the special excise tax on all imports on the British preferential tariff has been reduced from three to one and a half per cent.

A ROYAL INSCRIPTION.

It is understood from Melbourne that His Majesty the King has consented to write an inscription in the first forty of the "Books of Remembrance" for the emplacement in the Shrine in that city which contains the names of the 12,000 men and women of Victorian birth or domicile who served in the Great War.

The books are being taken to Australia by Prince George for the Centenary Celebrations.

NEWS IN BRIEF.

- Rome Celebrations throughout Italy yesterday marked the 2,688th anniversary of the birth of Rome in the year 753 B.C.. Many new public works have been inaugurated.
- Geneva Serious disturbances broke out in Geneva on Saturday afternoon between Communists and Fascists. Revolver shots were fired and paving stones were used by the demonstrators.
- Belgrade It is feared that between 80 and 150 men have been killed in a fire and explosion on Saturday in a coal-mine near Serajevo. This is the worst catastrophe of its kind known in Yugo-Slavia.
- Moscow The government press denounces Japan's "new attempt to impose a protectorate on China" and seems confident that this step will injure the relations between London and Tokio.
- London The Russian purchases in Great Britain during March were nearly six times the figure of March, 1933, the amounts being £907,668 as against £151,364.
- Moscow The scandal of unpaid wages throughout the Soviet is increasing. For the purpose of keeping within the limits stipulated by the government plan State enterprises of all kinds are systematically withholding, in some cases, many months' pay, says the Sunday Times.

FAR EAST POSITION INEVITABLE.

A message from London reports that Britain has not been officially informed by Japan of her change in policy towards China. But the Daily Telegraph states that the British Embassy at Tokio has cabled to London the full text of Japan's declaration with a summary, press comments and relevant observations.

The semi-official view is that if there is a move to be made it is America's and not Britain's or the League's.

Viscount Cecil declared in an interview on Friday that this latest Far East development was inevitable in consequence of the failure of the League of Nations to stop Japan "seizing Manchuria."

The Japanese Foreign Office has issued a statement asserting that Japan has no intention of deviating from her policy of the "open door" and "equal opportunity in China", nor infringing any existing national treaties with China.

The Daily Telegraph Washington correspondent says that there is no official intention of taking steps to clarify the situation.

THE DISARMAMENT DEADLOCK.

Signor Suvich, the Italian statesman arrived in London yesterday evening for a series of talks with the British Ministers on the disarmament deadlock due to the impossibility of reconciling the standpoints of France and Germany.

Signor Mussolini's view is that a partial convention, however limited, would be better than none at all.

In view of the failure of the diplomatic relations Britain and France hold that the forthcoming discussions at Geneva must be resumed at the point where they were left off when Germany quitted the conference.

The attitude of France is regarded as removing any hope that Germany will return to the conference at this stage. But a convention might possibly be drawn up by the remaining members for submission to the Reich says the Sunday Times. It is held in London that some measure of agreement should be secured in order to avert the results of the failure of the conference.

THE VALUE OF THE FRANC.

In a broadcast talk from Paris on Saturday evening Premier Doumergue said that the French Government was determined to maintain the value of the franc. The Premier said that another catastrophe would be more terrible than that on the former occasion.

He declared that the Government's recent financial measures had already resulted in a return of gold amounting to 119 million francs during the past five days.

NEWS IN BRIEF.

Madrid After a violent scene in the Cortes parliament has voted a political amnesty to 8,000 prisoners sentenced for rising against the Republic among whom are General San Juro, the "Lion of Morocco."

Paris Braving the government ban the Communists held a protest meeting against the economy measures outside the Hotel de Ville and a situation threatening to develop seriously had to be quelled by the police. Clashes occurred and many were injured while over a thousand have been detained, many of whom possessed arms.

Canberra The High Commissioner in London, Mr Binoe, in addressing the Marketing Conference, urged a new agreement with Britain regulating the exports to the Mother Country and Premier Lyons, supporting, stated that Australia would benefit by a sincere collaboration with Britain.

Dublin an extraordinary situation has resulted in the Irish Free State following the government's offer of a ten-shillings' bounty for each calf skin exported. There has been a wholesale slaughtering and the market is glutted with veal and thousands of carcasses are being burned or dumped. The Dail has passed the second reading of the Abolition of the Senate Bill.

GERMANY'S DEFENCE.

In an interview on Friday last the Prussian Premier, General Goering condemned France's armaments and defended Germany's expenditure on aviation.

On the subject of the increases in the army & naval estimates and Germany's alleged violation of the Versailles Treaty thereby, Goering declared that enough had been said but as Air Minister, he claimed that military machines would be continuously in demand while he had only the fraction of the money he needed for air protection.

The chief difficulty in disarmament, he said, was that France, armed to the teeth, should surrender nothing. If France wished to make war, he added "I have never been afraid, but nobody lets himself be shot dead willingly and therefore, one must defend oneself."

AMERICAN GOLD & COTTON.

It is stated from Washington that President Roosevelt on Saturday signed the Bankhead Cotton Bill which is designed to place the cotton growing industry on a sound financial and economic basis.

In view of the decline of the dollar the question of gold exports to Europe is increasingly discussed in banking circles. The Treasury Secretary, Mr Morgenthau, stated on Saturday that if foreign markets had a price for American gold the United States government was ready to sell.

For the first time since the gold control programme has been established the price abroad reached a higher level on Saturday than the figure fixed by the United States.

The Steering Committee & the Senate Silver Bloc held a conference at White House with the President and the Secretary for the Treasury, Mr Morgenthau, on Saturday after which further conferences were promised.

MORE TROUBLE IN SPAIN.

Madrid was again in a state of grave tension on Sunday night. Throughout the day the city had been paralysed by a twenty-four-hour strike declared by the labour organisations as a protest against the demonstrations organised by the Catholic Popular Action Party.

Despite the denials of the leader, Senor Eil Robles, the Communists and Syndicalists declare that the Catholic party's demonstrations are Fascist in origin and purpose.

Shooting occurred in various parts of the city and according to Reuter reports two policemen have been killed. A bomb was reported to have exploded in Puerta del Sol, the heart of the city. Two churches and a convent have been set on fire.

The general strike has been described by the organisers as anti-Fascist.

Despite the threatening attitude of the labour organisations the Catholic demonstration at el Escorial went off quietly with over 30,000 attending.

The Minister for the Interior states that the Government is ready to adopt any measures necessary to maintain order.

SCOUTS NATIONAL SERVICE.

The sword of King Edward III, the founder of the Order of the Garter, was raised in St George's Chapel at Windsor on Sunday, by the Dean of Windsor before 1,000 Rover Scouts drawn from every county of England, Wales, Scotland and Northern Ireland and Southern Ireland.

For nearly six hundred years the sword hung in the Chapel as a mark that King Edward had consecrated his service and that of his brother knights to God and their Country.

The Scouts came to attend a great National Service on St George's Eve. Before entering the Chapel the scouts assembled on Castle Hill where thousands of spectators had assembled, and then marched into the grand quadrangle where the King and Queen, accompanied by the Duke and Duchess of York, Princess Elizabeth and Princess Margaret, watched the march past.

VOLUNTEER LAGOON INQUEST VERDICT.

At the adjourned Inquiry held in the Court Room yesterday afternoon before the Coroner, Mr A.R. Hoere, the Jury returned a unanimous verdict that : The remains found on Volunteer Lagoon on the 11th and 15th of April this year were human. As to the cause of death the Jury presume they are the remains of two drowned persons, in all probability members of the crew of the schooner Peronelle. The Jury find no evidence of the identity of the remains viewed on the 17th of April. From the evidence given on the 24th of April the Jury presume that the remains viewed are part of the body of William Albert Whitney, one of the crew of the Peronelle.

The Inquiry had been postponed from Tuesday last week in view of the finding of further remains. Mr J.W. Grierson was the foreman of the Jury.

Evidence was given by Major the Hon. J. Innes Moir, Senior Medical Officer, Mr W. Conrad Robson of Johnson's Harbour Station and Mr A.E. Whitney.

In addressing the Jury at the conclusion of the evidence the Coroner said that there were three matters to be covered by their verdict; Firstly as to the finding of the remains; secondly as to the cause of death; and thirdly as to identity. In the matter of identity the evidence would, no doubt, lead them to say that the remains of one of the bodies had been identified, he thought they might reasonably say beyond doubt, as those of William Albert Whitney, and that the remains of the other body could not be identified.

The Coroner, continuing, said that it was his duty to point out to them the conclusion that may seem to follow from the evidence - but it had to be distinctly understood that he was not dictating the verdict to the Jury. The Gentlemen of the Jury were entirely responsible for their verdict.

BETTING IN THE U.S.A.

The return of legalised betting in New York State after an absence of 26 years brought the largest crowd ever known to Jamaica, Long Island Races, on Saturday last. The Daily Telegraph correspondent says that 500,000 dollars were wagered during the afternoon and the crush around the bookmakers was so great that many were unable to place bets.

JAPAN'S WILL TO COOPERATE.

The Japanese liaison officer, Yokoyama, attached to the League of Nations, has issued a statement declaring Japan's firm will to assume responsibility for peace in Eastern Asia in cooperation with the "Asiatic" powers, warning interested powers against the danger of any enterprise which would favour the fomentation of internal or external troubles for China.

Yokoyama explained that Japan had no intention of taking an independent country under tutelage but she wished to share with China, in a friendly manner, all responsibility for the maintenance of peace and, while a large element of China agreed to this view certain elements were opposed to it.

From Shanghai it is announced that the Minister of Finance, Dr Kung, has given a categorical denial to the statement of the Japanese Ambassador at Washington, Dr Saito, that the American cotton and wheat loans have been used for political purposes, adding that all loans have been used for relief and reconstruction.

THE U.S.A., SILVER QUESTION.

The Silver Bloc leaders met again at Washington on Monday when Senator Thomas, who was presiding, said that the conference had not got anywhere as President Roosevelt wished to continue his experimentation policy and watch the outcome as it went along.

While Senator Thomas submitted a formal statement endorsing the meeting's acceptance of the Stamp Dies Bill, Mr Pittman said that his experience at the World Economic Conference had made him pessimistic regarding any international agreement to restore silver.

The supporters of the silver movement then decided to demand the enactment of the Stamp Dies Bill in a mandatory form despite the President's opposition.

The "New York American" states that President Roosevelt is confronted with a new difficulty in connection with tariff reciprocity owing to the presentation by European debtors of a virtual ultimatum, declaring that they will refuse trade advantages to the United States until an agreement is reached scaling down war obligations, adding that Britain, France and Italy had all raised the question through diplomatic channels.

THE DISARMAMENT PROBLEM.

Germany's special Disarmament representative, Herr Ribbentrop, interviewed by a Rouser correspondent in Berlin, stated on Tuesday that he is confident that, despite the many difficulties, commonsense will prevail in the long run and lead to a lasting solution of the disarmament problem.

Ribbentrop added that in his opinion, in all countries the idea was gaining ground that the primitive right of self-defence and equality cannot be denied Germany. He also added that his appointment was designed to pave the way for an armament convention which, on a basis of equality, would give peace to Europe and restore the feeling of safety and trust which is necessary for the recovery of economic life.

U.S. PLAN FOR FREER COMMERCE.

According to the Daily Telegraph New York correspondent, the State Secretary, Mr Cordell Hull, in a speech on Monday, stressed the need for freer international commerce and the breaking down of arbitrary and changing trade restrictions if the world recovery is to be permanent.

The movements towards extreme economic nationalism are choking international trade and spell economic disaster he added.

In referring to the United States desire for a recovery on honest and sound methods, Mr Cordell Hull severely attacked the "outrageous financial manipulations of the stock market and securities which stripped millions of life savings and left the country's finance unworthy of public confidence."

JAPAN & EQUALITY.

The Japanese Cabinet has approved of the "hands off China" warning to the powers, as unofficially expressed last week, and while reaffirming the policy of the "open door" she declares herself opposed to imports of arms and aeroplanes to China and to loans made by other powers which "tend to be of political significance."

Reuter messages from Washington state that there is no official reaction to the Japanese statement, but the New York Times expresses the opinion that the British Note to Japan outlines the United States attitude and, in the event of a "show down" Britain and the United States will be aligned.

The Berlin papers publish an interview with the Japanese Ambassador, Negai, in which it is stated that Japan is convinced that at the 1935 Naval Conference the disparity in naval armaments must be removed with Japan having guarantees of national safety based on equality.

A message from Tokio yesterday states that no official announcement is made following the hour's interview between the British Ambassador, Sir Francis Lindlay, and the Foreign Minister, Hirota. Local agencies, however, state that Hirota informed Sir Francis that though the 18th of April announcement was "unofficial", it enunciated clearly Japan's policy towards China.

The Japanese Foreign Office Spokesman, in a guarded announcement, declared that it was now for the others to place an interpretation upon the position, but Japan had no intention of promoting independence movements in the Philippines, Indo-China or elsewhere.

A Geneva message says that the Chinese Minister in Berne, Dr Hoo, has said that "Japan's explanation is unreliable and was really a claim to 'Asia for the Japanese' while Moscow envisages a sharper tension in Jap-American relations and the dominance of the military clique in Japan."

Japan's Asiatic policy is being discussed by Roosevelt and State Secretary Hull in Washington to-day.

---o---o---

U.S.A. POLITICS.

According to Reuter's correspondent at Washington, President Roosevelt, in his forthcoming supplemental Appropriation Bill, intends seeking Congress authority to commence naval construction whenever he thinks fit, to bring the United States navy to Treaty limits and the Bill, totalling approximately 1,500 million dollars, will be forwarded to Congress when the Revenue Bill is finally drawn up.

The President has not decided how many, if any, of the hundred new ships authorised, will be built this time, but he wants the power to use the Appropriation Bill if it is thought desirable.

Assistant Secretary of State Phillips announces that all the countries which are signatory to the London Silver Agreement have taken the necessary steps to put the agreement into force; those include the United States, Australia, Canada, India, China, Spain and Peru.

THE PERONELLE DISASTER FUNERAL.

The funeral of the remains of William Albert Whitney, aged 20, and Roy Charles Davis, aged 17, which were found on the 11th and 15th instant at Volunteer Lagoon, took place on Thursday afternoon when many Stanley people paid their last respects to the only material evidence that has come to light as to the fate of the four members of the crew of the Peronelle who were lost in October last. The schooner was discovered at anchor and deserted with fragments of her pram washed up on the beach.

At the Inquest on Tuesday last Mr G.E. Whitney, from pieces of clothing, identified the remains found on the 15th instant as those of his son and, though the jury returned a verdict not identifying the remains found on the 11th instant these were afterwards claimed by Mr R. Davis as those of his younger son Roy Charles Davis. Of the other two members of the crew - Richard James Davis, aged 33, and Thomas Binnie, aged 30,- each of whom was married and is survived by wife and child, there is still no trace.

The funeral service was conducted in the Cathedral Church and at the graveside by Mr T. Binnie (Lay Reader), the chief mourners being : Mr and Mrs A.E. Whitney, Mr and Mrs R. Davis, Mrs Holth, Mr W. GERMANY & HER CREDITORS.

As a prelude to the conference between Germany's long term and medium term creditors and the Reichsbank which was to have commenced yesterday (Friday) Doctor Schacht broadcast a speech on Thursday outlining Germany's position.

In stating that Germany was obviously not in a position to make the necessary transfers, he reiterated his earlier statement that help could only come from increased German exports or from a friendly agreement between the creditors on the question of interest payment and the postponement of amortisation and similar measures.

CHINA'S "FOREIGN AIR MIND."

It is reported from Tokio that, in connection with Foreign Secretary Hirota's reference to the danger of complications arising from international assistance for China, great interest is shown in the reports that China has recently purchased thirteen aeroplanes from Italy with two Italian instructors having been appointed to the Nanchang Aviation School.

Reuter also reports that German interests are also planning to establish an aeroplane factory in the neighbourhood of Nanchang, it is understood, adjacent to the headquarters of General Chiang-Kaishek, the Commander-in-Chief of the Chinese armies and a most influential member of the Chinese Government.

### SUGAR OR HONEY ?

#### Amusing Case In Poland.

Must a prince drink tea with sugar or is honey sufficient to sweeten it ? has been the most unusual problem that recently came before the courts in Poland.

Prince George Korybut, member of an old Polish royal family, was accused by his parents of criminal misbehaviour against them, and in the court the young man pleaded that his outburst was caused by his parents giving him honey instead of sugar in his morning tea, which he thought insulting. The parents pleaded that, owing to the slump, they could not afford to use sugar and had to be content with honey.

The court found that there was nothing derogatory in offering honey instead of sugar, and sentenced the prince to a month's imprisonment. The Warsaw Court of Appeal has since confirmed the verdict.

### AN ARTIFICIAL VOICE.

#### Sir Richard Paget's Researches.

After ten years of research and experiment Sir Richard Paget, the expert on the origins of speech, has discovered how to produce a more or less synthetic voice.

It is done largely with a collection of metal, cardboard and rubber tubes, some organ reeds, a cork plunger and a pair of foot bellows.

Sir Richard is working on the possibilities of an international language.

"I have recently been making a special study of the language of deaf mutes - not the finger language, which is taught to literate deaf mutes, but the pure sign language, which is natural to the illiterate deaf mute, and can be understood in any country in the world," he has stated.

He contends that grammar and syntax are not necessary to produce a language which the whole world can use - what is wanted is a series of symbols representing ideas in their logical order.

"It would be quite easy," he says, "to bring up the children of the whole world to use the same gestural language, first with the hands and then with the lips and mouth. In perhaps ten years we should have a common speech again."

The Tudor Rose League, members of which wear a badge when they go shopping to indicate that they prefer to be shown British goods, have held a luncheon at the Savoy Hotel to inaugurate a campaign to raise the membership from 350,000 to 3,000,000 by the end of the year.

During the course of the luncheon the chairman, Mr J. Stanley Holmes, said: "If every adult spender diverted one shilling a week from the purchase of foreign to the purchase of Empire products, employment would automatically be provided for some 300,000 Britons who are now in idleness."

DRIVE AGAINST GERMAN UNEMPLOYMENT.

2,000,000 Fewer Workless

This Summer.

In a speech made recently at Hamburg by Dr Goebbels, the Propaganda Minister pointed out that when the Winter Help Campaign ended on March 31st the Germans had contributed money, food and goods to the value of £20,000,000 marks, which is at par £16,000,000, and thus helped four million poor German people.

Dr Goebbels announced that the Government hoped to put two more million men to work by the end of the summer.

FINED £62,000.

Two Britons, prominent figures in Paris for many years, have been fined £62,000 by the French Courts for offences alleged to have been committed fourteen years ago.

It is alleged that they sold a large number of shares in the Paris market which were paid for by cheques on London and Amsterdam, and they were convicted of contravening an Act (since repealed) forbidding the export of capital from France without a special licence.

The fines imposed - £37,000 on one, and £25,000 on the other - are liable to be multiplied five or six times to allow for the depreciation of the franc since 1920.

Therefore, unless there is a successful appeal, the two men together, may be liable to penalties amounting to no less than £325,000.

DOGS ORGANISE A HUNT.

A strange case of mass action on the part of dogs is reported from Piotrokov, in Poland.

Some days ago all the dogs of the village were found to have vanished when the villagers woke. The matter aroused astonishment and the explanation was only received at mid-day, when a forester telephoned from the neighbouring State forest to tell the villagers that their dogs would be shot if they were not immediately taken home.

When the eighty-seven dogs were at length secured, it transpired that they had begun rounding up game at dawn and had secured hundreds of head of game, of which three deer, eight hares and seventeen pheasants only remained at the end of the day.

BROOKLANDS AND WOMEN DRIVERS.

"Their Races No Less Safe Than Men's."

A suggestion has been made at the Brooklands Automobile Racing Club that women should not be allowed to race in the mountain handicap events.

Colonel Lindsay Lloyd, however, asserts that, the women's races are, in his view, no less safe than those in which the men take part and this year they have stimulated just as much interest as the men's events.

SIXTY SHEEP ROASTED ALIVE.

Sixty sheep were roasted alive when a lorry was burnt out on Shap Fells in the Lake District recently. One hundred and twenty sheep were saved.

The driver and his assistant received burns to their hands in their rescue efforts. When the flames reached the petrol tank it exploded and the report was heard miles away,

VILLAGE ROADS PAVED WITH MARBLE.

In the chalk mine of Nagyvisnyo, near Miskoloz, rich layers of black marble have been discovered under the chalk.

According to expert reports this marble is equal in quality to the famous black marble of Belgium. The mountain ranges which surround the mine also contain quantities of black marble streaked with white, and this stone has till now been employed by the villagers for paving the highways, so the villages of Nagyvisnyo, Uraj and Susa bear the unusual distinction of being approached by marble roads.

YESTERDAY'S POLICE COURT.

Three Pounds In Fines.

Defendant Loses £10 Recognizance.

In the Police Court yesterday morning Archie May, a labourer, pleaded "Guilty" to supplying a prohibited person with alcoholic liquor on the 14th of April last.

A fine of £2 was imposed & the Magistrate, in addressing the defendant, pointed out that a person prohibited is prohibited for his own protection against himself, since he was known to have a weakness of being unable to resist drink. That was bad enough but a more serious crime was that of a man who enabled a prohibited person to get alcoholic liquor. No doubt the defendant had done it out of good nature but it was to be hoped that the fine would serve as a warning not to let his good nature run away with him. The supplying of liquor to a prohibited person had to be stopped.

Subsequently Louis Moore Richards, a labourer, was charged with being a prohibited person in possession of alcoholic liquor on the 15th of April last. The defendant pleaded "Not Guilty" at first but afterwards admitted having possession of liquor and was fined £1 to be paid at the rate of 1/- a week.

Donald John McLeod of Stanley was charged before the Magistrate yesterday afternoon with unlawfully assaulting his wife, Ida Frances McLeod, on the 27th of April last. The defendant, who had been bound over in the Court for a similar offence in January last in the sum of £10, forfeited his bond and was bound over in a further sum of £10 for twelve months to keep the peace. While there might have been provocation the Magistrate warned the defendant that should there be any repetition of the assault the consequences would be most serious.

AUSTRIA NOW FASCIST.

To-day (Tuesday) Austria officially becomes Fascist says a Reuter message, following on the ratification of the new constitution yesterday by Parliament specially called for the occasion.

According to official forecasts Parliamentary elections will disappear completely under the new constitution and the government will be vested in the president and Cabinet, assisted by four Councils - State, Cultural, Economic and Provinces. These Councils will have the right only to accept or reject Government Bills while, in the event of a rejection the government will be empowered to proclaim martial law.

JAPAN & AUSTRALIA.

Following reports from Melbourne via London that the Australian Cabinet is considering the construction of heavy fortifications at Port Darwin owing to its alarm concerning the Far East tension, the Daily Telegraph correspondent at Tokio states that the Japanese Foreign Office and other authorities deplore the circulation of such sinister rumours.

They point out that such an outraging of the international comity is not contemplated while it is prohibited by distance, lack of finance and the necessity of defying the entire British Empire, if for no other reasons.

THE "HANDS OFF" SCARE.

It is understood from London that Japan, having considerably modified her "Hands off" China policy, no further diplomatic action is necessary.

From the South West Political Council, regarded as the most influential organisation of Southern China, a statement is issued that the Japanese policy goes far beyond the scope of international practice and should she be allowed her way the consequences will be the ultimate elimination of the open door, the League Covenant and the Nine-Power Treaty of the Kellogg Pact, while the Japanese doctrine would bring about disaster for the Far East and the whole world. The statement adds that Tokio has adopted the attitude of "Hands Off" for the slogan is officially non-existence.

THE U.S.A. SILVER LINING !

The White House announcement re-affirms the President's view that the steps for the remonetisation depends upon the world action as a whole.

Roosevelt intimated that he was willing to have 30 % of the nation's money backed by silver instead of 12 % as at present, says a Reuter message, but it was emphasised that the monetisation of silver in a 30 % proportion to gold depended upon an international agreement.

World action on silver was the President's objective, it was declared, and for this reason he was attempting to ward off Congress legislation for mandatory remonetisation.

The Republican Senator Robinson insinuated on Monday that Mr Neville Chamberlain, the British Chancellor of the Exchequer, had "deliberately juggled" with the Budget to avoid paying the war debts and by reason of the restoration of the pay cuts and so on, he could truthfully say that there were no funds available to pay the interest due at the very time when America was exercising every possible stringency.

HOW MAY DAY PASSED.

May Day celebrations throughout the world had varying effects but according to reports from London they were the quietest to be experienced for a number of years. In London the processions only resulted in traffic jams while the Hyde Park meeting went off without disturbance.

Reuter messages give a widespread summing up :

In Madrid the police made baton charges and arrested communists and anarchists who were demonstrating in the working class suburbs.

Portugal remained peaceful and a holiday atmosphere prevailed.

A "sympathetic strike" of some 7,000 textile workers broke out in New Delhi as a sign of solidarity with the Bombay workers and in the subsequent stoning clashes over a hundred people were seriously injured.

Japanese workers demonstrated for higher wages and a forty-eight-hour week while in Jugo-Slavia and Switzerland the day passed without incident.

Russia celebrated with the biggest military parade yet staged with the Bulgarian Dimitroff (of the Reichstag Trial) standing with Stalin and Maxim Gorky at the parade point.

While New York's communist demonstration passed off good humouredly Cuba reports a serious situation in which the police used tear-gas bombs and rifles; several people were injured but none were killed.

In France and Austria all the precautions taken were effective and no disturbances were reported.

---o---o---

"YOUNG GERMANY" ASSEMBLED.

It is reported from Berlin that 2,000,000 Young Germans assembled at the Tempelhof Aerodrome on Monday after the most spectacular march in the post-war history of the nation. Every phase of national activity was represented, says the Daily Telegraph correspondent, and work ceased in the shops and factories to strengthen the demonstration.

Hitler's speech was relayed through 122 loudspeakers and was practically a eulogy of the Nazi regime, stating that the past year had shown an unparalleled development and after fifteen years despair the German people were now again standing on firm ground.

Hitler blamed his advisers for the misery of the fifteen post-war years during which Germany had been enslaved. He emphasised the point that the nation did not want war simply because it wasn't needed. The German people were capable of shaping their lives tolerably without wars of robbery and tribute but Germany had to have equality with the other nations.

JAPAN & CHINA.

Comment in Tokio is favourable on Sir John Simon's speech in the House of Commons and the American Secretary of State's statement dealing with the Japanese attitude towards China.

The Japanese Foreign Minister, Hirota, asserts that his country could not remain indifferent to anyone taking action which was prejudicial to the maintenance of order in the East and, consequently, she could not afford to have Chinese questions exploited by third parties for the execution of a selfish policy.

"HONEST TOM LIKES WORK."

Honest Tom, reports the Daily Mirror, is a horse that has hauled coal at Tredegar, Mon, so long that his master decided he should be retired.

Honest Tom has never shirked his work, and it was thought he would love retirement in the green fields.

So he was taken over a mountain to a farm ten miles. There he was to go into retirement. But this did not suit Honest Tom. It was too quiet. So he went back to Tredegar by himself.

He had jumped fences and broken at least one mountain gateway and returned over a road which he had traversed once only when he was being taken away.

PRESENTATION TO DOMINION MATCH WINNERS

by

HIS EXCELLENCY THE ACTING GOVERNOR.

At a very pleasant dance held in the Town Hall last night, organised by the Defence Force Miniature Rifle Club, His Excellency the Acting Governor presented the miniature trophies to members of the Colony's Dominion Small Bore Match team which won the event in 1933.

His Excellency was accompanied by the Hon. M.C. Craigie-Halkett, O.B.E., (Acting Colonial Secretary) and Major the Hon. J. Innes Moir (Aide-de-Camp.)

In introducing the Acting Governor, Lieutenant W.M. Allan (Adjutant), warmly welcomed His Excellency and gave a brief resume of the Competition, stating that it was the Colony's first year of taking part in it and that the event was won by two points from North Toronto, Canada, with an aggregate of 586 points.

He then introduced Messrs E.J. McAtasney (captain,) J.R. Gleadell, W.J. Grierson and L. Reive to His Excellency, regretting the inability of the remaining two members - W. Browning and J. Pettersson - to attend.

His Excellency, before presenting the miniatures to the team members, jokingly said that since Mr Allan had stolen his thunder and had selected the same authorities as he for his speech, there remained nothing for him to do but to congratulate the Team very warmly and very sincerely on winning the Match.

Their success was all the more gratifying following upon the Club's success in the Colonial Small Bore Match the previous year. As Mr Allan had stated, the Club had entered both competitions again this year and they would, he hoped, probably win them both again in addition to one or both of the open range competitions at Bisley for which the Colony had entered once more.

In concluding His Excellency made special mention of Sergeant Gleadell who had been a member of the Colony's three winning teams - at Bisley in 1930; in the Small Bore Match in 1932; and in last year's Dominion Match (Applause.)

EXCHANGE OF DISARMAMENT VIEWS.

It is understood from Geneva that the President of the Disarmament Conference, Mr Henderson, will take the opportunity of exchanging views with the French Foreign Minister, Barthou, at the League Council meeting on the 14th instant. The former, however, does not intend to indulge in full dress conversations preliminary to the bureau meeting in a fortnight's time.

The preparations for the re-assembly of the Disarmament Conference are now complete with the General Commission sitting on the 29th instant and the Bureau on the same day or the day previous.

FOOTBALL FIELD IN GOVERNMENT HOUSE PADDOCK.

With the object of conserving the condition of the playing surface of the football field in Government House Paddock, His Excellency the Acting Governor directs it to be notified, for general information, as follows :

No games are allowed to be played on the football field except games organised by a recognised club or body to whom the necessary permission has been granted through the Colonial Secretary.

In particular, "kick-about" are not allowed, but there is no objection to such practices taking place on the pitch situated in the south or upper portion of the paddock.

GOVERNMENT NOTICE.

LONDON QUARANTINE STATION

FOR PEDIGREE STOCK FOR EXPORT.

It is hereby notified for general information that the administration of the London Quarantine Station at the East India Dock, which was established in 1928 in order to safeguard the Dominions and Colonies importing pedigree cattle, sheep, goats or swine from the United Kingdom from the risk of the conveyance of foot-and-mouth disease, has been transferred from the Royal Agricultural Society of England to the Ministry of Agriculture and Fisheries as from the 1st of April, 1934.

The fees after the 31st March, 1934, will be (for the normal quarantine period of 14 days) as follows :-

General Fee.

For single animals :	Cattle	£6. 15. 0.
	Pigs	4. 0 0.
	Sheep or Goats	3. 10. 0.
For each additional	Cattle	4. 5. 0.
animal from the same	Pigs	1. 10. 0.
premises of origin :	Sheep or Goats	1. 0. 0.

Fee for animals of high value.

An additional charge (per animal) of 2 per cent. of the insured value will be made for cattle valued at £100 or over, of 1 per cent. for pigs valued at £40 or over, and of 1 per cent. for sheep or goats valued at £30 or over, subject to a maximum additional charge of £10 per head for cattle, and £1 for pigs, sheep or goats.

Charges for periods in excess of 14 days.

If animals are detained for a longer period than 14 days, there will be a charge, for each day in excess of 14 days, of 7s/0d. per head of cattle, 2s/6d. per head for pigs, and 1s/6d. per head for sheep or goats.

(continued over -

Transport from Quarantine Station to Vessel.

The charge in respect of the transfer of the animals from the Station to the exporting vessel will remain as at present, i.e., 5s/0d. per head for cattle and pigs, and 2s/6d per head for sheep and goats.

The arrangement for the veterinary examination and certification of animals in accordance with the provisions of the Quarantine Stations (Regulation) Order of 1928 have always been under the direct control of the Ministry, and there will be no change in the requirements in this connection.

By Command,

Stanley.

GERMANY'S REFUSAL.

The Paris press sharply comments upon Germany's refusal to guarantee the independence of the Baltic States, says Reuter, while the U.S.S.R. from Moscow also points out what "a great responsibility lies upon Germany for refusing to join with the Soviet" in a mutual pact.

The Russian press considers that the Baltic States will draw their own conclusions and advise methods for safeguarding their independence and security.

THE STABILISATION OF EXCHANGES.

In discussing the stabilisation of currencies before a conference of the Chartered Institute of Secretaries, the well-known economist, Dr W. Coates, a director of Imperial Chemical Industries, says that the time does not appear to be ripe for a general stabilisation on the basis of a return to the international gold standard.

In his opinion the natural process of recovery from the depression must proceed some way further before the nations as a whole would be willing to admit that each had sufficient international strength to take some of the risk which must inevitably attend a greater freedom of international trade.

A large measure of home prosperity would in time form the basis of that greater confidence which was the condition precedent to the stabilisation of exchanges.

The amount applied for in tenders for Treasury Bills on Wednesday was £69,445,000. The amount allotted in Bills at three months was £39,045,000. The average rate per cent was 17/8.49d. as compared with 17/10.70d. per cent last week.

WIDESPREAD PLOT FOILED.

According to a message from Paris it is believed that a wide-spread revolutionary plot has been foiled by the joint action of the French and Belgian police. Nine leaders - one Swiss, Italian and German, and two each Dutch, Polish and Jugo-Slavian - are under arrest.

Documents have been seized relating to a projected outbreak with detailed plans of action and a list of houses where munitions are stored.

Three thousand troops have been drafted from the French capital to assist the police while at Sofia precautions have also been taken.

RUBBER AGREEMENT SIGNED.

It is stated from London that the world agreement to regulate the production and export of rubber was signed on Saturday while the Governments of the eight producing countries effected have been asked to give legislative effect to its provisions.

The scheme, which takes effect on the 1st of June, is designed to give a constant supply of rubber adequate for the world's needs at a price which is economic to the producer and satisfactory to the consumer and brings hope to the hundreds of thousands of investors who have sunk £150,000,000 in its production.

The Rubber Growers' Association have issued a statement declaring that the scheme is simple, comprehensive, flexible and administratively practicable, and, if administered with moderation and sympathy, should restore the industry's prosperity and benefit the peoples and territories concerned.

JAPANESE INTERESTS IN CHINA.

Among the outstanding matters to be considered between China and Japan in Northern China, says Reuter's Tokio correspondent, are the management of the zone south of the Great Wall and the free-booting generals within this area.

THE ARMS PROBLEM.

The Daily Telegraph states that the Cabinet Disarmament Committee is pursuing a general survey of the arms problem, considering the choice between a preparation of a further concrete plan for submission to Geneva (including guarantees of execution) or the acceptance of the view that no such general convention is practicable at this date beyond one limited to a few humanitarian measures and the elimination of certain categories of armaments.

If the proposal for limiting air armaments is submitted to the other great powers without results Britain's only course will be to build up to air parity with the strongest power within striking distance.

These developments faced the Creditors' Conference on Friday (yesterday) when there was no plenary meeting. The discussions are being resumed to-day.

Government 2 : F.I. Company 1.

In very windy weather yesterday a team of Government employees made their first win against employees of the Falkland Islands Company in three consecutive weekly games.

Winning the toss the Government men, captained by S. Bonner, played with the wind and at half time were leading 2 - 0. Though the Company's eleven strove hard in the second half to secure a third victory they were unable to break through their opponents defence more than once when W.J. Halliday "netted." D. Williams captained the losing side.

The three matches which have taken place between these two teams have been unusually interesting as a result of the number of newcomers to the game. In several cases the improvement in ability has been encouraging and further efforts on their part should make them definite assets to future teams.

It is considered highly improbable though that Britain will take the initiative in launching a fresh comprehensive plan to handle the respective standpoints the powers have outlined having regard to the reluctance of many of the powers to reduce their armaments.

THE EGYPTIAN ADVANCE.

It is reported from Cairo that the Emir Saud, the heir of King Ibn Saud, is continuing his victorious advance against the Yemini forces and, after occupying Hodeida, to have pursued the retreating Yemini and inflicted a crushing defeat.

Emir Saud is now stated to be advancing on the capital, Sana, which is expected to fall into his hands.

Messages from Mecca declare that the government of Ibn Saud contemplates the annexation of the whole of the Yemen territory with one of the king's sons as governor.

Sir Andrew Ryan, the British Minister at Jeddah, has asked how far Ibn Saud intends to push his victorious advance. The position holds some delicacy as the British only recently concluded an agreement with the Yemini, settling the frontier north of Aden where there have been constant difficulties.

BELGIAN INDIGNATION.

A news item from Brussels states that great indignation is being felt in Belgian official circles over the allegation of Colonel Graham Seton Hutchinson at Nottingham on Friday, that the late King Albert met his death as the result of foul play while rock climbing near Namur.

Nevertheless, reports the Sunday Times, Colonel Hutchinson on Saturday declared that he had circumstantial evidence to support the allegation that "King Albert was tapped on the back of the head."

Categorical denial has been given to the report at the Royal Palace.

An official investigation already carried out by the Belgian authorities as well as an independent inquiry by the Alpine Club of Belgium amply suffice to reduce the legend of murder to nothing.

NO WAR DEBT DEFAULT.

A Reuter bulletin from Washington states that Homer Cumming, the United States Attorney-General, rules that Great Britain has not committed a default with regard to her war debt payments, for, under the Johnson Bill it was proposed that no private or public loans, except by government agencies, should be granted the nations not keeping up their debt payments.

Others are Czecho-Slovakia, Italy, Latvia and Lithuania.

ROTARY DIFFERENCES DISCUSSED.

It is understood from Douglas, Isle of Man, that the differences between the Rotary International of Great Britain and Ireland and the Rotary International of Chicago were discussed before 1,800 Rotarians at the annual conference on Saturday.

The President stated that the International body claimed complete power to alter or repeal any of the rights or privileges of the Rotary International of Great Britain and Ireland challenging the status of the home organisation which was in danger of disintegration.

A DREAM COME TRUE.

How a dream led to the discovery of a 2,000 year-old Roman vase has been described to the Dorset Archeological Society by a lady member.

"A friend of mine," she said, had a dream that there was a box of gold in a certain place in the garden. He began digging and found a beautiful old Roman vase, richly ornamented, in a remarkable state of preservation."

U.K. & DOMINION PRODUCTS.

It is reported from London that the United Kingdom's attitude to New Zealand on the subject of a free interchange of manufactured goods and primary products between the United Kingdom and the Dominions - the subject of an inquiry from New Zealand - is being made clear in the House of Commons this week.

The Daily Telegraph states that the matter rose out of a question to which the Premier answered saying that there was no reason to think that a general consultation would be advantageous.

THE FRENCH MAY DAY RIOTS.

Later messages from Paris relating to the May Day riots reveal that 300 shots were fired with the result that a commissioner and three policemen were wounded. During the early morning battle 2,000 police contended with the strikers.

Many revolvers, cartridges, sporting guns, knuckle-dusters and rubber batons were seized. The arrested numbered 137 and the troops previously drafted in anticipation of disturbances were expected to remain for several days.

BRITISH SHIPPING.

According to a report from London the shipping figures for the year ending 31st March show that the Port of London entries and departures amounted to 339,461,735 tons, representing an increase of 3.7 per cent.

Liverpool, Southampton, Hull, Manchester and Bristol also return higher figures.

IRA "GANGSTERS."

The Roman Catholic Bishop of Galway, Dr O'Doherty, in addressing an assembly of the IRA and Saor Eire on Saturday, referred to the recent outrages throughout the country and said that the IRA were setting up gangsters similar to those of the worst cities of America while the Saor Eire was endeavouring to save Ireland by Russian Bolshevistic methods.

The Irish Bishops were not issuing that statement lightly, he added, and they condemned the IRA, adding "You are committing a grievous sin if you belong to it."

If a republic was wanted the way was to make an honest proclamation at an election not by the higger-mugger of secretly armed gun-men doing no good, he said. Such arms were not used for a high national purpose but for intimidation, private vengeance and armed robbery.

U.S.A. DEBT DEFAULTERS.

According to a message from Washington on Monday the Attorney-General Cummings has ruled that the U.S.S.R. is definitely included among the countries defaulting under the Johnson Act.

A later message states that the Representatives' Speaker, Mr Rainey, understands that the President has planned making a war debt settlement with Finland who are not defaulting, and then recommend a similar agreement with other nations.

Meanwhile congressional circles are divided over Attorney-General Cummings ruling that Great Britain is not a defaulter under the terms of the Johnson Act while Senators Borah and George, of the Foreign Relations' Committee, dispute this finding.

General Johnson, who is the author of the Bill which raises the point, disagrees with President Roosevelt's view and the Attorney-General's ruling, declaring that, since Britain had boasted of her balanced Budget her token payment is a "farce and a delusion."

The expected Roosevelt announcement does not hold out much hope for the muddle to be cleared since it is understood to be only an outline of the present situation.

LESS UNEMPLOYED IN BRITAIN.

According to a message from London the monthly return of the Ministry of Labour indicates a further drop in the number of unemployed of over 50,000.

Most of the principal industries have shared in the improvement, says the Daily Telegraph, including building, engineering, ship building, iron and steel, motor and cycle construction, electrical manufacture and the distributive trades, while unemployment has increased in coal-mining and the woollen and cotton trades.

Tyneside reports many signs of improvement with unusual activity in all departments and many laid-up vessels commissioned.

"THE SAVE THE CHILDREN FUND."

▲ Appeal Launched By Father Migone.

▲ Sixpenny Subscription.

An appeal which should meet with a warm response is being made by Father Migone in a desire to send a subscription to "The Save the Children Fund" - an association which has as its worthy object the welfare of the children throughout the world.

It will be remembered that during the Centenary Celebrations last year Father Migone devoted the proceeds of one of his Cinema Shows to the cause and collected the sum of £11. 1s. 6d..

But this year, though he would willingly make another like gesture, his own Church expenses preclude the repetition of a donation in this manner. Yet, feeling that so noble an appeal is deserving of every effort possible and, encouraged to contribute by the Overseas Organiser's touching letter (published below) asking "Please send us a gift, however small, to help us feed some hungry child," Father Migone is opening a public subscription for the Fund to which he invites the people of the Falklands to contribute the modest sum of sixpence, or more if they care.

His Excellency the Acting Governor, who gives the Appeal his whole-hearted support, has kindly consented to head the list with Father Migone, each subscribing a donation of ten shillings.

We understand two pupils of St Mary's School will make a house to house collection in Stanley and Camp Managers are asked to be good enough to give their kind support by posting this notice in the Cook Houses and forwarding to Father Migone any monies which they and their employees may of their generosity subscribe.

The letter received by Father Migone from Miss Cecilia John, the Hon. Overseas' Organiser to the Fund, is :

Dear Father Migone - "40, Gordon Square,  
London. 15th Feb., 1934.

"Last year the people at Port Stanley during the Centenary Celebrations most generously contributed towards our work for the little children. It was more than kind of both you and they to help us in this way, and I thus hesitate to ask you once again to give us your valued support, but the needs of the little ones under our care compel us to look to our friends to help us feed, clothe and in some cases house these refugee children.

"As the years go by and the problem is still unsolved, it becomes increasingly difficult for us to make appeals to those of our friends who have stood by us in our fight for the lives of these children. The world political and financial chaos is now responsible for much of the misery and the easy path for us would be to give up, but we dare not take the easy path, but must go on until the world has recovered its balance and some degree of financial stability, when we hope that poverty and such desperate need will slowly disappear.

"Believing that you will understand our difficulty not only of finding the money, but of asking for it, we send you this appeal. The little pictorial enclosed will give you most of the particulars and the anxious and lined faces of the tiny children in the first picture must be our excuse (if one be needed) for begging you to help us. Please send us a gift, however small, to help us feed some hungry child.

Yours sincerely,

(Miss) Cecilia John,

Hon. Overseas Organiser,

The Save the Children Fund."

"SILVERITES" MEETING.

A message from Washington states that the silver partisans left White House after their conference with President Roosevelt on Tuesday with smiles on their faces. Apparently Roosevelt had outlined a two-way programme involving the nationalisation of silver, says a Reuter message.

The President subsequently issued a statement covering the matter discussed which was relative to the further use of silver as a metallic reserve for the United States and, more specifically, the possibility of nationalising silver in the same manner as gold by the purchase of the existing free stocks.

The statement continues that the meeting also explored the ultimate objective of the national policy of having a 25 % monetary value of metallic reserves in silver.

The silver partisans observed that if the programme worked out it would be satisfactory.

THE LEAGUE & DISARMAMENT.

According to a report from London, the Foreign Secretary, Sir John Simon, and the Lord Privy Seal, Mr Anthony Eden, will attend the League Council meeting at Geneva on Monday when a heavy agenda is to be heard, including important matters bearing on the 1935 Saar plebiscite.

With reference to the re-assembly of the General Commission of the Disarmament Conference on the 29th instant, diplomatic circles admit that France will not recede from her refusal to accept any reduction or limitation in her present fighting strength, says the Daily Telegraph.

It is also recognised that it would be useless for Britain offering new guarantees since nothing she offered would satisfy France's exacting requirements.

It is generally believed that France will not go beyond a vehement protest against German re-armament.

THE INITIATIVE WITH BRITAIN.

It is stated from Adelaide that Premier Lyons, in addressing the members of the Commonwealth Club on Tuesday said that there had been no definite proposals by the Imperial and Australian governments concerning the regulation of exports or the restriction of production and that such initiative should come from Britain.

Premier Lyons expressed the hope that in negotiations with foreign countries Australia would find an outlet for her exports which Britain was unable to take, thus cooperating for mutual interest.

The Foreign Debts Conference in Berlin on Wednesday considered suggestions for solving the transfer problem but only projects to the liking of the German delegates, according to a Reuter message, appeared to be 'a two years' transfer moratorium for all foreign private debts and foreign credit for Germany's raw material imports.

Raw material supplies are becoming an increasingly difficult national problem and while many industrial firms are restricting their output the importers of tea, coffee and other luxury products are anticipating a further restriction of their foreign currency allotments which are already only twenty-five per cent of the average requirements.

AIR LINER MYSTERY.

A message from London last night stated that the missing air liner whose wireless signals suddenly ceased while crossing the Channel has now been traced as belonging to the French line.

She had lost her bearings in the fog and apparently, flying too low over the sea, crashed into it. One Englishman is among her three passengers but little hope was entertained of any of the six people on the machine being saved.

WAR DEBT DEFAULTS.

According to a message from Washington a general default is expected on war debt payments due on the 15th of June. The Daily Telegraph correspondent states that Roosevelt, in a White House statement, has emphasised that whether token payments will be acceptable must be decided on the merits of the individual cases.

The belief prevails that Britain contemplates another token payment. If so, Italy, Czecho-Slovakia, Latvia, Lithuania are expected to follow her lead. But the President says that no negotiations have been entered into with foreign nations regarding the June payments and no applications have been made for hearings for reductions.

Roosevelt has also made it plain that the United States still insists on the collection of her war debts, offering no revision in her terms although nations "in distress" will be heard.

State Secretary Hull has approved of the formation of a Congress Committee to study the advisability of exchanging war debts for tin supplies, Democrat Caldwell having pointed out that the United States annual purchases of tin amount to 85,000,000 dollars of which eighty per cent of this is from British interests.

JAPAN WELCOMES

AN AUSTRALIAN MINISTER.

The Daily Telegraph correspondent in Tokio stresses the warmth of the welcome extended to the Australian Minister, Mr Latham, who was enthusiastically received on Thursday by Admiral Osumi in an address stating that the exchange of views, which should result from the visit, should provide a potent stimulus to the friendship between these two countries having the Pacific as a common highway.

DISARMAMENT DEAD ?

It is reported from London that the German Disarmament Commissioner, Von Ribbentrop, brings no new proposals from Germany on his visit to England. It is understood that the purpose of his call is merely to "sound" British opinion on the arms deadlock in anticipation of the Geneva Conference on the 27th instant.

Meanwhile, the Daily Telegraph states, the Cabinet Disarmament Committee has met and it is believed that the Government has reviewed the position of the British Defence Forces in the light of the fact that, if all attempts at disarmament fail circumstances might arise in which even the despatch of an Expeditionary Force overseas must be contemplated.

Reports from Paris indicate that the conversations between Mr Henderson and M. Barthou are extremely cordial but the press infers from the recent events and attendances that the Disarmament Conference is now dead.

The Italian view is that France will stage a demonstration at Geneva denouncing Germany's alleged violations of the Versailles Treaty but it is plain that Italy will not participate in a combination of the powers against Germany.

U.S.A. DEBT DEFAULTERS.

The State Department announces from Washington that "Token" payments on account of war debts will be acceptable on the 15th of June but the nations making such payments will be considered as defaulters in so far as they will be subject to the clauses in the Johnson Bill which forbids financial dealings between America and defaulting nations, says a Reuter message.

The Daily Telegraph correspondent at Washington states that proposals are being discussed for a revival of the World Economic Conference, to deal with recovery, of which debts are an integral part.

In the present confused circumstances the heads of the foreign diplomatic missions are delaying recommendations to their respective governments until Roosevelt sends his Debt Message to Congress on the 18th instant.

A WARNING FROM JAPAN.

A report from Tokio states that Japan may serve a warning on China or the League of Nations to suspend the latter's plan for granting international assistance.

An inspired press announcement says that Japan will "take measures deemed adequate to cope with any situation which is likely to arise subsequent to international assistance."

From Peking it is learned that China is seeking consultations with the signatories of the Nine Power Pact in view of Japan's threat to enforce her "hands off China" policy.

### AID FOR SHIPPING.

According to the Daily Telegraph the Government's plans for aiding shipping are nearing completion and embody two main proposals which are : State guarantees for the construction of new vessels designed for a specific purpose and the granting of "fighting" subsidies for the limited purpose of aiding ships on routes where there is direct competition with subsidised foreign lines.

The proposals of a general subsidy to tramp shipping are now definitely rejected while the Ministers have also decided not to apply discrimination against foreign vessels carrying inter-Imperial trade.

In view of the world spending £30,000,000 in shipping subsidies just as a protectionist policy it is held that the "fighting" grants would provide Britain with a weapon in bargaining for an all-round reduction in subsidies just as the protectionist policy has strengthened her hand in trade negotiations.

### WHEAT CONFERENCE ENDS ?

It is reported from London that the Wheat Conference which has been sitting at the Board of Trade throughout last week ended on Saturday, being wound up owing to its inability of reaching an unanimous agreement.

The Daily Telegraph states that the breakdown is attributable to the Argentine's refusal to agree to the price maintenance plan unless granted an increase in her exportable quota under the 1933 London Agreement.

The Advisory Committee has appointed a sub-committee, consisting of the representatives of Britain, France, Germany, the United States, Canada and Australia, to meet forthwith for a full consideration of alternative plans to stabilise and improve prices.

The Advisory Committee will next meet in London on the 27th of June.

### RECORD JAPANESE EXPORTS.

The Japanese Cotton Exporters' Association reports from Tokio record exports for March totalling 223 million square yards which is an increase of 18½ million over the February figures and passing the 210½ million of December 1932 which was the previous record.

In contrast to this Australia, Africa (with the exception of Egypt) took less but the shipments of the other countries have risen considerably, notably the Dutch East Indies whose output has risen 2½ million to 37 million while China, Dairen and Manchukuo have more than doubled their imports.

The exports of all Japanese goods for the year ending May have shown an increase of 23 % while the imports have increased 8 %.

THE DEBT CONFERENCE.

It is reported from Berlin that the Debt Conference has been adjourned until Tuesday but the sub-committee of Consultations has been continuing without, however, reaching any definite conclusions states the Daily Telegraph.

There is a suggestion of differences between the British and American delegates with the likelihood of the relative negotiations being separated, but it is generally believed that there will be a two years' moratorium of all debt payments with the exception of those on the Dawes' and Young Loans on which there would be a service reduction of one-third.

"BRITAIN IN DEFAULT."

According to a Reuter bulletin from Washington the British Ambassador has been informed that Britain will be considered as being in default if only the token payment is made on the 15th of June.

From Paris it is reported that the Cabinet will shortly be debating the possibility of seeking a way out of the War Debt default but if there was ever a question of France offering a token payment it must now be considered void in view of the announced interpretation of the Johnson Bill.

DISARMAMENT PESSIMISM.

The Henderson-Barthou conversations, it is stated from Paris, have only served to intensify the pessimism in authoritative circles with regard to disarmament but it is admitted that though the conference is doomed to a breakdown the fault is not with Henderson.

In the meantime Germany's War Budget is regarded as an open avowal of Germany's cumulative re-armament and hence France will be obliged to regard the security problem from another angle by bringing her defensive armaments to security standard.

The Minister of Marine in France has announced that the Government will ask the Chamber of Deputies to push through the 1934 Naval constructions credits immediately.

### ITALY SEA MINDED.

"All Italy on the sea, her thirty capitals and her provinces on sea, and even Rome itself on the sea while her geography is unchangeable is a fact which determines the people's destinies" stated Mussolini, according to the Daily Telegraph Rome correspondent when the Duce on Monday gave the justification for his action of creating within twelve years a new and powerful navy which is to be relatively as strong as ever in modern times.

In a privileged conversation the Duce outlined yesterday Italy's position when it was enunciated as a first principle that the country was, for all practical purposes, an island and that the Fascist naval policy was based on this fact with the necessity for freedom through the bottle-necks of Gibraltar, the Suez Narrows, the Canal of Malta and the Babelmaudeb.

Mussolini's own words relative to the Disarmament Conference have envisaged its failure since the States now armed will not disarm themselves for defensive purposes.

### THE WAR DEBT INSTALMENT.

According to a message from London the probable policy of the British Government relative to the war debt instalment due in June is :

If America definitely proclaims the token payment as a default Britain will not make any payment while in the absence of such a statement Britain will make another token payment.

As stated previously, announces the Daily Telegraph, it is unlikely that the British Government will take action until Roosevelt's statement has been made to Congress, due within the next few days, which may clear up obscure points.

### THE INTERNATIONAL SETTLEMENTS BANK.

A message from Basle states that the Bank of International Settlements governing body met informally yesterday when a preliminary view of the situation, prior to the annual general meeting to-day, was made.

Although a statement was made relative to the Berlin debt negotiations there was not a general discussion but it was made clear that the current week would be decisive while the impression was gained that the chances of an agreement on Germany's private debts was slender, principally owing to the Swiss attitude and therefore separate negotiations between the Reich and her creditors may be expected.

### U.S. "BLACK BLIZZARD."

A "Black Blizzard" with a dust wall 1,500 miles long and 1,000 miles wide passed over the eastern States of the U.S.A. to the Atlantic yesterday.

Scientists estimate that over 300 million tons of soil and other organic matter has been redistributed while geologists describe the visitation as the greatest dust storm ever experienced in the North American continent, three-quarters of the country having been affected. The full losses cannot be estimated but the agricultural department anticipate a drop of 20 million bushels in wheat from the May estimate.

YESTERDAY'S LEGISLATIVE COUNCIL MEETING.

Presentation To The Hon. M.C. Craigie-Halkett, O.B.E..

Camp Roads Resolution.

Supplementary Expenditure Least For Many Years.

- o -

An interesting ceremony took place prior to the Legislative Council Meeting yesterday morning in the Council Chamber where His Excellency the Acting Governor made the presentation of the Badge and relative Grant of the Dignity of an Officer of the Order of the British Empire to the Hon. M.C. Craigie-Halkett, O.B.E..

In addressing the Honourable M.C. Craigie-Halkett, His Excellency said : "Montagu Cecil Craigie-Halkett, on behalf of the King it is my very happy duty to present you with the Badge and the relative Grant of Dignity of an Officer of the Civil Division of the British Empire to which His Majesty was graciously pleased to appoint you in the last New Year's Honours List.

"You have been more than thirty-five years in the service of the Government of this Colony and you have been its loyal and valued servant. You have held many and varied positions in the service of this Government, including the highest - the representative of His Majesty.

"Few honours can have been more deservedly bestowed and few honours can have caused a keener appreciation to those who have known the recipient either in public dealings or in private contacts." (Applause.)

In response the Hon. M.C. Craigie-Halkett said : "I thank Your Excellency for your kind and generous words regarding my services in the Colony.

"I need hardly assure Your Excellency that I am deeply sensible of the gracious honour conferred on me by His Majesty the King and I beg respectfully to submit my humble duty and grateful thanks.

"I also feel honoured by and thank Your Excellency for presenting me with the Badge and relative Dignity of the Order to which I have had the honour of being appointed."

The business of the Council was then considered, His Excellency the Acting Governor presiding with the following members present : the Hon. M.C. Craigie-Halkett, O.B.E. (Acting Colonial Secretary,) the Hon. J. Innes Moir (Senior Medical Officer,) and the Hon. L.W.H. Young with Mr L.W. Aldridge as Clerk.

The Unemployment Problem.

One of the first things undertaken by the Council was the moving of a resolution providing for the additional expenditure of £2,220 on roads to the Camp with equivalent savings being effected in the sums of £1,500 and £720 under "New Roads in Stanley" and "Peat Roads" respectively. In putting the resolution forward, the Acting Colonial Secretary stated that he regretted that in view of the increase in unemployment - at the present moment 150 men were either in receipt of employment or seeking it from the Government - it would be necessary at a later date to invite the Council, with the sanction of the Secretary of State, to re-vote a part of these monies and also to vote further monies for the relief of the unemployment situation.

Other resolutions approved of provided for the expenditure of £1,230 7s. 11d. for the service of the year 1933 in excess of the provision in the estimates; the expenditure of £2,349 7s. 8d., required for the service of the year 1934 in excess of the provision

MAIZE, POLLARD and other FEED.

In view of the general shortage of stocks in the Town, except those held by us, customers have been asking if they are to expect a rise in our prices this week or next.

To save further enquiries, our answer is

NO !!

Our prices are always based upon a percentage on landed-cost and are periodically fixed without any reference or regard to other prices or stocks held elsewhere in Town.

Our prices until about the middle of June will therefore remain the same, viz :-

Whole MAIZE	13/3	per bag	(nominal 65 kilos)
Crushed Maize	12/-	" "	" 50 "

#### The Supplementary Expenditure,

A Bill legalising payments amounting to £569 2s. 2d. for the year 1933 in excess of the Expenditure sanctioned by Ordinance No. 5 of 1932 was passed, and in dealing with the Schedule the Acting Colonial Secretary pointed out that this sum was the smallest amount that had appeared for a good many years in the supplementary expenditure in any particular year.

The following Bills were also amended : The Whale Fishery Ordinance of 1903 in which a new section was inserted relevant to security for the granting of whaling licenses; the Land Ordinance, 1908, which provided, with the sanction of the Secretary of State, for the suspension of land purchase instalments for 1933 and 1934 in view of the difficult state of the Sheep Farming industry; and the Public Health Ordinance, 1931, and the Prevention of Venereal Disease Ordinance, 1931, in which the title "Principal Medical Officer" had been altered to "Senior Medical Officer" at the instance of the Secretary of State.

OBITUARY.

It is with deep regret that we have to record the death of Teresa Gay Brechin (known so well to all her friends as Gay), the younger daughter of Mr and Mrs G. Brechin, who passed away in the Hospital at about 5.20 p.m. on Wednesday after an illness of three weeks' duration. Of twelve years of age she was a very popular child among her school friends and all who knew her, and our sincere sympathies go out to her parents in their sad loss.

The funeral will take place this afternoon with the service at St Mary's Catholic Church commencing at 2.30 while the cortege will leave the house at 2.15 p.m..

SINO JAPANESE PROBLEMS.

It is stated from Tokio that the Japanese Minister to China, Ariyoshi, in addressing the Economic Federation on Wednesday, said that the leading Chinese realise the impossibility of settling the outstanding Sino-Japanese problems through the League of Nations or any third party and the important Chinese posts are now being given to Chinese who understood Japan.

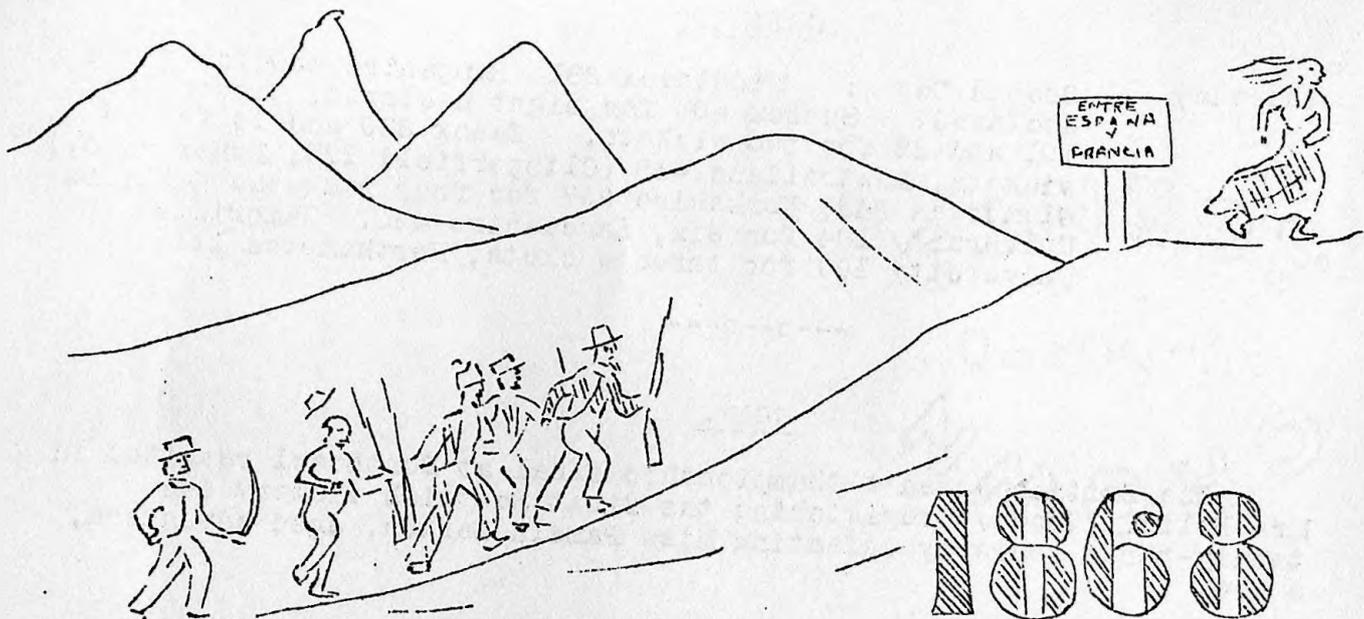

While the Chinese view is changing apropos Japan, the situation would not fundamentally be improved unless Japan turned Manchukuo into a land of progress and prosperity.

FRANCE & WAR DEBTS.

It is reported from Paris that the Cabinet may shortly examine the war debts question with, according to Reuter, the outlining of three conditions which might lead to a modification of the French attitude.

The points for consideration are : That conditions be granted by the United States to Finland for the settlement of her debt; the devaluation of the dollar; the possibilities of the debtors making a settlement in revaluated silver.

It is also hinted that the French standpoint may be modified by Great Britain's attitude, but it is admitted that the situation created by the Johnson Act and Germany's reticence over the Dawes and Young Loan services, do not improve the chances of recommencing debt payments.

Roosevelt's relative message to Congress is expected next week.

---o---o---

RECONCILING RIVAL CLAIMS.

When the Disarmament Conference re-assembles at Geneva on the 29th instant, work will be immediately resumed on the reconciling of the rival claims of France and Germany, states the Daily Telegraph.

There will be no immediate adjournment notwithstanding strong rumours current in the European capitals that Britain, France, Italy and America have agreed upon this course.

Sir John Simon, the British Foreign Minister, speaking at the Albert Hall, said that the British Government was returning to the Conference determined to do everything in its power to achieve an agreement.

The position remains that France is strongly disinclined to subscribe to any reduction or limitation of her present fighting forces.

A Reuter message from Washington states that Roosevelt has announced that he is preparing a full exposition of the American attitude which will be delivered at Geneva by Norman Davis, though it is thought no change will be indicated or new steps proposed.

THE HON. J.M. ELLIS, O.B.E..

Appointment As Colonial Secretary At Grenada.

We are authorised to state that His Excellency the Acting Governor has been appointed to the office of Colonial Secretary at Grenada, the administrative headquarters of the Windward Islands which consist of Grenada, The Grenadines, St Vincent and St Lucia, and expects to leave the Falklands to take up his new appointment in the latter part of the year.

Grenada is a direct contrast to the Falklands for it is only twenty-one miles long and twelve miles wide; the country is mountainous and very picturesque and the climate though warm is healthy. Discovered by Columbus in 1498, the island was named "Conception" and it was originally colonised by the French being definitely ceded to Great Britain by the Treaty of Versailles in 1783. The soil is very fertile, and cocoa, spices, rubber, cotton, coffee and fruit are grown while the forests are rich in timber.

The Governor and Commander-in-Chief of the Windward Islands is Sir Thomas Alex. Vans Best, K.C.M.G., K.B.E., and the total area of the Colony is 508 square miles with a population of 162,254 approximately.

In extending to His Excellency our heartiest congratulations on his new appointment we are able to add further congratulations on the pleasing news His Excellency has received by telegram that Mrs. Ellis, whose return to the Colony was retarded by reasons of health, has successfully undergone operative treatment.

STANLEY'S ROADWAYS.

Work is progressing apace on the South and North tracks to the Camp and since July last year when Rookery Bay was practically completed, some four and a half miles more of road-way have been added to the total distance now negotiable by motor traffic.

The North Camp track towards the Estancia is now 4½ miles distant from the town and work on it is expected to be continued for the time being for another 3½ miles to the Two Sisters' Gate. On the South, in the direction of Fitzroy, the Bluff Cove Track is now threading its way some five miles away from the town and motors can go out now to the far side of Mount William.

Altogether there are about 28 men engaged in these projects.

SEA WALL EXTENSIONS.

During the past week work was commenced at the eastern end of the town, by the Falkland Islands Company's East Jetty fence, on the extension of the sea wall while on Thursday similar work was started at the western end by the War Memorial, extending to past Sullivan House. Between twenty-four and thirty men are being employed and the work not adds a further neatness to the harbour front but also acts as a safeguard against the encroachments of the sea.

TIN POOL PLAN.

According to a Reuter message from Paris the International Tin Committee has reached an agreement in principle concerning a "buffer" Tin Pool Plan. The object of the pool is to have a supply of tin on hand to smooth out the possible violent temporary rises or falls by controlling the amount immediately available on the market, but the Bolivian delegates are insistent on Malaya, The Dutch East Indies and Nigeria putting up larger sums towards the Stabilisation Fund for purchases from the pool. A preparatory Sub-committee is drawing up details for the conclusion of the agreement.

U.S.A. SILVER QUESTION.

It is anticipated that early legislation to be outlined by Roosevelt in the pending Congress message will provide for the nationalisation of silver in the same way as the gold holdings were taken over, says the Daily Telegraph correspondent at Washington, with the addition of silver to the currency reserves on a basis of 75% gold and 25% silver. This involves the enlargement of the Government silver stocks to 1,700 million dollars and the Silver Bloc believes that domestic stocks would be nationalised at 50 cents an ounce (present price 40 cents) and purchases would be made in the world market till the price reached approximately 110 cents, or silver in the American Currency Reserve reached 25% of the metallic backing.

DISARMAMENT DEALINGS.

The Daily Telegraph learns that the precise outcome of the conversations between the Belgian Foreign Minister, M. Hymans, and the British Ministers cannot be summed up until after next week's Cabinet meeting and Mr Eden's return from Geneva, but it is understood that efforts have been made to reach a limited form of agreement in keeping with mutual efforts to save the Disarmament Conference from failure.

The Belgian Government seeks a regulated rearmament of Germany but would not accord this without increased guarantees favouring Belgium. While Italy favours a continuous consultation at Geneva between the four great western powers together with America, Soviet and Poland, France will press for the inclusion of all the allies and certain neutrals like Spain, in order that the Committee should be essentially "League" representative of minor as well as major groups.

WINTER AT LAST.

Yesterday the first fall of snow this season was experienced. Throughout the day the temperature was unusually cold and snow squalls made "sorties" from the fireside particularly unpleasant. The squalls blew up from the south-west and only light and fine snow, with few exceptions, fell leaving by eventide almost a white surface, which, owing to the two or three degrees of frost, made the roads very slippery.

SOUTH AFRICA'S STATUS.

A message from Cape Town states that General Hertzog, in replying to an Assembly question, refused to disclose the nature of the recent correspondence between His Majesty the King and the South African Ministers on the Status Bill; he stating that the Ministers bore the responsibility for His Majesty's action and it would therefore be highly improper to drag in His Majesty who was above parties in a political controversy, by disclosing the nature of these communications.

The Minister for Railways, Mr Pirou, said that the consultation with the King had been adequate and full and without formality.

THE DEBTS CONFERENCE.

The Debts Conference was adjourned over Whitsun week-end, but the standpoints of the various countries have been made clear, says the Daily Telegraph correspondent in Berlin.

Proposals receiving favourable consideration are : A six months' moratorium for Germany followed by a fifty per cent reduction on all interest payments, including the Dawes and Young loans or (a) bond holders to keep coupons, (b) the exchanging of them for scrip; or (c) the receiving of payment through the re-funding loan.

A ROOSEVELT ANNOUNCEMENT.

Within the next ten days President Roosevelt intends announcing what White House circles term the "most far-reaching programme of social and economic reform ever submitted by any President," states the Daily Telegraph Washington correspondent.

Its object is the provision of a "social justice and a more abundant life for all," embracing a permanent Federal Unemployment scheme of insurance, a national old age pensions resembling the British scheme, sickness insurance for industrial workers, a large Federal housing programme, and a permanent relief system through the Public Works.

FRENCH SEAMEN'S SUBSIDY.

Exporters to France will be closely affected by the Merchantile Marine Wage Bill which the Chamber passed on Friday, says a press message from Paris.

The Bill seeks to raise 150 million francs annually to subsidise the seamen's wages by ten per cent with premiums according to their vessel's speed and tonnage.

The funds are to be raised by a three per cent tax on all imported duties and an eighty per cent increase in the statistical tax with a subsidy payment to 100 % for all vessels French owned, and 100 % for all French companies.

THE DEFAULTER QUESTION.

Well informed opinion in London is emphatic that, in view of the Cabinet's attitude to await Roosevelt's Congress message, Lindsay had not been instructed in any way to act in connection with War Debts.

Nevertheless, the results of the conversations between Lindsay and Roosevelt are giving rise to considerable speculation on both sides of the Atlantic but from Washington, the Daily Telegraph correspondent reports that Lindsay declines to make a statement.

The general belief held in the United States is that while Britain does not attempt to sell her securities in America, the application of the Johnson Bill, forbidding credits to defaulter nations, will not apply.

In view of the Roosevelt message to the Senate advocating support to the arms embargoes, it is thought that the conversations may have dealt specifically with this question.

ATTACK ON N.R.A.

The most violent and sensational attack ever yet launched against the National Recovery Administration of America and a "new deal" of the policies is expected with the publication to-day (Monday) of the so-called "Darrow Report."

The Sunday Times correspondent understands that it will contain a scorching denunciation of those policies from the point of view of their effect on the small business man.

The N.R.A. officials have described the report as fantastic, ill-founded and based on inadequate evidence. They are intensely indignant.

The judicial authorities' action in Tokio in summoning the Vice-Minister of Finance, Kuroda, for examination, and his commitment for trial and suspension from office on the grounds of his being suspected of complicity in the artificial silk share deals scandal of 1933, has caused sensations.

There is an expectation of a Cabinet crisis.

---o---o---

BULGARIAN UPHEAVAL.

It is reported from Sofia that a virtual dictatorship was established on Saturday in Bulgaria with the setting up of a non-parliamentary and a semi-military government under M. Gerogieff, the former Minister of Transport.

Following a secret meeting of eighty generals the Royal Palace at Sofia was surrounded by troops at 2.0 in the morning and a deputation petitioned King Boris to dissolve parliament and to create a new government in view of the "deplorable state of the country owing to party strife."

At first, says Reuter, the King demurred but finally acceded to their demands.

The new government, which includes two generals, held its first meeting at 5.0 p.m. on Saturday and issued a manifesto declaring its policy as to the restoration of the authority of the State.

The coup d'etat was effected without the firing of a single shot. Troops with artillery and machine guns occupied the public buildings and the strategic points, patrols cleared the streets, and shops offices and railway stations were closed; hundreds of communists were also arrested.

No one was allowed to come out of doors and all communications with the rest of Europe were cut off until noon.

EX-SERVICE MEN DISAPPOINTED.

Thousands of people poured into Weston-super-Mare on Sunday by train, coach and air.

They had come to see Prince George take the Salute at a march past on the sands of 20,000 ex-service men who had assembled at Weston for the annual conference of the British Legion.

Then like a bolt from the blue came the news that Prince George would not be present. The announcement caused profound dismay and disappointment in the ranks of the Legion, dismay because Prince George's letter left no doubt that his decision was due entirely to reports of attempts to cause dissension in the ranks of the Legion by attacks on the National Executive, disappointment because it is the first time in the history of the Legion that a prince of the Royal House has not been present at the annual conference.

The delegates, believing that the Prince had been deceived by the publicity given to a handful of malcontents called out "Send for the Prince."

Major - General Sir Frederick Maurice, the president, stated after the meeting that he was inviting the Prince, if his engagements allowed it, to attend yesterday's proceeding.

The Daily Telegraph states that the voting showed how infinitesimal is the opposition to the present executive and state that if there is any substance in the criticism of the executive the place for the attack upon that body is not the press but on the floor of the conference.

### U.S. MERCANTILE POLICY DEFERRED.

The Inter-Departmental Report handed to the State Department, a message from Washington reveals, points out that the Administration's Mercantile Marine policy has been deferred until Congress enacts legislation next session, and it is therefore considered inadvisable for the United States to enter international discussions relative to the convocation of an International Shipping Conference.

### THE SILVER PROBLEM.

A Roosevelt message to Congress recommends legislation this session empowering him to increase the use of silver for monetary purposes until the country's metallic reserves are 25 % silver and 75 % gold. The President has emphasised that the ultimate solution of the silver problem lay in a world-wide agreement in the use of silver as a monetary standard with gold.

London has declined to take this latter statement as important, says the Daily Telegraph, and the prospect of immediate foreign purchases has left the silver market unaffected.

Experts consider that Roosevelt is faced with growing political pressure to "do something for silver" and has made a clever compromise with the silver interests to take action when he deems fit, and the plans are unlikely to be carried out.

EMPIRE DAY AT THE SCHOOL.

His Excellency's Message.

Yesterday morning His Excellency the Acting Governor, accompanied by the Hon. M.C. Graigie-Halkett, O.B.E., (Acting Colonial Secretary,) visited the Government School on the occasion of Empire Day.

Met by the Superintendent of Education, Mr A.R. Hoare, His Excellency was then introduced to the assembled school, numbering some 180 scholars, and listened to well sung patriotic songs. After which the Acting Governor then addressed the following words to them :

"Boys and Girls.: First of all I want to thank you very much for singing to me. I think you sang very well and I think you all ought to be in the Cathedral Church Choir.

"Well, I have come down to the school to see you to-day with two purposes. My first purpose is to beg Mr Hoare to give you a half holiday and my second purpose, if Mr Hoare will give you a half holiday is to ask you in return to listen for two or three minutes to what I am going to say to you.

The half holiday having been granted His Excellency continued - "Well, that is all right. And now, this is what I want to say to you.

"I suppose you all know what to-day is 'Do you ? (a unanimous "Yes Sir.") And I hope you all know the meaning of Empire Day ? That is a different question. I will tell you. Empire Day is celebrated throughout the British Empire on the 24th of May each year in memory of Queen Victoria. The 24th of May is Queen Victoria's birthday. As you know, Queen Victoria was born a very long time ago. But it is not so very long ago since she died. She was born well over a hundred years ago and she died just over thirty years ago. She was queen of England for sixty-four years - from 1837 to 1901 - the longest reign of any English sovereign & when she died the Earl of Meath and other notable gentlemen joined together and started a national movement to continue to keep her birthday in remembrance of her glorious reign.

"It was during her reign that the British Empire as it now is was extended and established. The first governor of this Colony - Governor Moody - was appointed in 1842 when Queen Victoria had been on the throne five years.

"Now, the Falkland Islands form a part of the British Empire and I want you to think of this for a moment - the British Empire can be a very real thing to all of you. As you grow up you will come to realise that opportunities for you in the Falkland Islands are rather limited and some of you may find it hard to obtain work or work in which you can take a pride and pleasure and so I want just to suggest to you that later on, for some of you, it may be for your own good to go outside the Falklands and try to carve a career for yourselves somewhere overseas. And this is just where the advantage of being a part of the British Empire comes in. It means that if you do go overseas you have not got to go to a foreign country - only if you want to - and it means that throughout great stretches of the world you or I can live and work in places where the same flag flies, where the same language is spoken and where the same spirit of freedom breathes.

"Boys have gone from this Colony and have made good in the Royal Navy, boys whose names are well-known to you - I mean Joe Harries, Donald Howatt, Henry Lang; and, recently, Ernest Berntsen has gone too.

"So this is my message to you on Empire Day - Think what you can do for the Empire and think too, what the Empire can do for you. You can help to keep the flag flying on land or sea in every quarter of the globe."

In concluding His remarks His Excellency called for three cheers for the King which were heartily given and the proceedings terminated with three similar cheers being given for His Excellency on the initiative of Mr Hoare.

THE SAVE THE CHILDREN FUND.

To The Editor of the "Penguin",

Stanley.  
24th May, 1934.

Sir,

I am pleased to inform you that the appeal made in the "Penguin" for The "Save The Children Fund" has been a splendid success.

Owing to the patient and charitable exertions of Miss Maud Duffin, who collected £18, and Miss Lilian Alazia, who collected over £12, I was able to send by this mail to Miss Cecilia John, the Hon. Overseas Organiser of the Fund, a generous cheque for £50.

Needless to say I am heartily grateful to all who contributed to make this worthy appeal successful, and as they are all Christians I hope they will permit me to remind them that their best reward is contained in these words of Jesus "As long as you did it to one of these my least brethren, you did it to me."

Yours faithfully,  
M.V. Migone.

P.s. A small balance over of 7/- and £3 7s 6d, acknowledged with hearty thanks from the Church Badminton Club, will be included in the next remittance when the lists sent to the Camp are collected.

DEFENCE FORCE RIFLE ASSOCIATION.

The Annual General Meeting of the Defence Force Rifle Association was held at the Club room on Tuesday last when Lieutenant W.M. Allan (Adjutant) presided, supported by the acting Hon. Secretary, Pte H.H. Sedgwick, and Sgt J.R. Gleadell, Hon. Treasurer. There was a fair attendance.

The chairman pointed out that the meeting had been convened earlier than usual owing to the Hon. Treasurer's early departure with the Bisley Team, and he asked the members to confine discussion to urgent business as an Extraordinary General Meeting of the Club will be called at a later date for the election of the Committee for the ensuing season.

The accounts, duly audited, and adopted by the meeting, showed a deficit of £16-7-0d in the Local Bisley accounts which sum was transferred from the Association accounts to balance. There had been several unforeseen accounts to pay which included two years' affiliation fees to the N.R.A. (£12,) entrance fees to the Colonial Postal Match, 1934 (£2,) and the purchase of two miniatures of the "Hamilton" Cup for 1931 and 1932 (£6-14-5d,) while £4-4-2 was due from members for ammunition and there was a credit balance of £15-5-9d in the Association Funds.

THE LEAGUE & THE SOVIET.

It is stated from Geneva that Britain is taking no initiative in the matter of the Soviet's admission to the League although Mr Anthony Eden and M Barthou have discussed the matter.

It is recognised that the Soviet's entry is closely bound up with the security problem and with Britain favouring her entry, interested circles in London consider that the Soviet's adherence will become an important factor when the General Commission of the Disarmament Conference meets next Tuesday.

---o---o---

FURTHER DECREASE IN UNEMPLOYMENT.

A Daily Telegraph message from London reports that the unemployment returns issuable on the 4th of June will again reveal a substantial fall in unemployment with a decrease of 50,000, while Whitehall is of the opinion that the end of July will see the figures below the two million mark.

The heavy industries show particular improvement with iron and steel production steadily increasing over the 1933 periods.

---o---o---

SOVIET ORDERS.

Soviet orders placed with Great Britain during April amounted to £1,250,000, being seven times more than the corresponding month's value in 1933, making a total for the first four months of the year £3,500,000 which is two and a half times more than the same period in 1933 with machinery purchases doubled and rubber trebled.

British steamers composed seventy per cent of the charters of the Anglo-Soviet Shipping Company over the past four months.

DEBTS CONFERENCE HOPES.

A more hopeful feeling prevailed at the Debts Conference on Thursday and it is suggested that an early conclusion is possible states a Reuter message from Berlin.

The problem of increasing German exports is still outstanding and the latest Nazi proposal, entirely unofficial at present, is that exporters should make greater use of Germans living abroad as representatives and that these should be asked to popularise German goods in the countries in which they reside.

Meanwhile the American Chamber of Commerce in Berlin has drawn up a list of fifty categories, including wine, beer and spirits which Germany could import from the United States without harming American producers, thus aiding American creditors.

---o---o---

JAPAN & CHINA.

The Japanese Minister to China, on the eve of his departure to return to Shanghai, informed the Daily Telegraph correspondent at Tokio that the relations between China and Japan are improving and the trade questions shortly to be settled in view of the Foreign Office declaration, are unaffected by these issues.

On the other hand the Japanese press reports that Aiyoshi is returning with instructions to the effect that should China disregard Japan's position as a responsible power in the Far East by invoking political or economic influence from a third power, Japan is prepared to take adequate steps to frustrate it.

FRENCH FRONTIER DEFENCES.

Credits amounting to over 115,000,000 francs for the development of frontier defences has been approved by the Army Committee of the French Chamber of Deputies states the Daily Telegraph Paris correspondent.

Of this sum approximately 85,000,000 francs will be required for expenditure in excess of the projects already voted while the remainder will be devoted to fresh work. A new defence line at "Malmedy Gap" on the Belgian frontier is being constructed.

FOOTBALL.

The Wolves 3 ; The Cubs 3.

In a most interesting and exhilarating game yesterday afternoon on Government House Paddock a team of "Cubs" very nearly defeated an eleven of older "hands" the latter "saving their bacon" by obtaining the equalising goal about a quarter of an hour from the end after having a deficit of two goals when the second half started.

Winning the toss P. Hardy elected to play with his men taking advantage of a moderate breeze in the first half and before the game was more than ten minutes old two goals had been put by Sam Bonner, the scorers being R. Steen and P. Hardy.

On paper the Wolves team should have been able to give the Cubs a sound trouncing but the youngsters, benefiting from their school games and displaying a determined front which somewhat took the wind from their opponents' sails, more than held their own in the first half and on the run of the play deserved to win.

The older hands made a fatal mistake - and to rectify it in later games they will have to take a leaf from the Cubs notebook - for they would persist in showing their own superiority by trying to dribble through on their own. The youngsters, on the other hand, showed that they had at least grasped one fundamental - perhaps the most important - in playing football successfully. They passed first time. Better than that though they passed well forward and more often than not to their own men.

After the set back of two goals the Wolves worked with more perseverance and through Greece reduced the leeway only for Grant to put the Cubs up another goal ten minutes afterwards and shortly before half time. All three goals were well scored by the Cubs while S. Williams (the youngsters' goalkeeper) had no chance with the shot that went past him.

In the second half the Wolves were seen to more advantage but the opposing defence played admirably and kept them at bay for quite a while. However, the older players were more thrustful and when they did choose to shoot put S. Williams on his mettle. His brother eventually put in a stinging shot which he failed to stop while from a corner F. O'Sullivan scored a beautiful goal with his head.

It is difficult to pick out the best among the Cubs for all of them did their best - and did it well. This can be said though - Stanley should have no fears for the future as far as football is concerned provided it cultivates the nursery it now possesses, - and provided that the youngsters don't get swelled heads or try to show off how clever they are becoming to the detriment of the team.

THE LEAGUE OF NATIONS.

The League of Nations is entering the most critical week of its existence to-day when Mr Henderson takes the chair at the Disarmament Bureau, says the Sunday Times.

The Bureau must decide whether the League shall abandon disarmament ideas at the risk of a general rearmament race but Henderson has not given up hope of a convention though somewhat limited in scope.

It is stated that Litvinoff will make an important declaration on behalf of the Soviet when the general commission meets while the French Foreign Minister Barthou will elaborate his declaration of the 17th of April and maintain even more emphatically that France will not consent to any measure of disarmament while Germany is re-arming in contravention to the Versailles Treaty.

ITALY'S GRAVE PROBLEMS.

Mussolini, in addressing the Chamber of Deputies on the National financial problems on Saturday announced that the export of Italian currency is generally prohibited.

Italy was faced with grave problems of a deficit of 4,000 million lire and an estimated deficit of 2,500 million lire in her trade balance.

The Duce pointed out that Britain, whose strength rested on the three columns of dynasty, navy and pound rallied with wonderful courage in 1931 without losing their heads and he hoped that Italy would endeavour to emulate this spirit.

We understand that Mr John Hamilton of Magallanes has presented the Government of the Colony with the sum of £1,500 to be expended on the erection of a light at Cape Meredith, West Falkland, with the object of facilitating vessels trading on the West Falkland.

It will be remembered that in 1932 a light was erected at Bull Point in Lafonia through the munificence of Mr Hamilton and we are sure this further evidence of Mr Hamilton's generous interest in the Colony will be a source of appreciation and satisfaction to all.

S.E.C. DANCES.

Two delightful dances were held in the Town Hall on Thursday and Friday last week organised by the Stanley Benefit Club and though this annual event does not appear to be patronised as in the days gone by the attendance, particularly at the Fancy Dress Dance on the second evening was quite good.

On the Thursday evening His Excellency the Acting Governor attended accompanied by Major the Hon. J. Innes Moir (Aide-de-Camp), and his Private Secretary. During the evening great enjoyment was caused with the novelty dances while the response to the band's announcements of old fashioned numbers showed that the modern tunes and figures have yet to go a long way before the favourites of thirty years ago will be completely forgotten.

There were more than sixty people in fancy dress at the Dance the following evening and the variety and originality of the costumes reflected great credit on the wearers.

### "HELF & HALF" HOSIERY.

A new style of ladies' stockings are half black and half white. First they are seen as black and then as white - just which colour depends on the point of view. This confusion is not caused by colour blindness but is due solely to the latest fad or "dictates" of women's fashions.

The new style is also to be had in other harmonious colourings.

### A PEN THAT COUNTS.

A pen has been invented that counts the words written. It is equipped with a scale engraved on the transparent ink section of the barrel on which the ink level inside the barrel indicates in thousands the number of words written since the barrel was filled and the remaining writing capacity in words.

### MEN'S SUITS OF ELASTIC.

Clothes for men are now made of a new elastic cloth which, it is claimed, fits perfectly and does not wrinkle.

The secret of these suits is that strands of flexible yarn are woven into the cloth. The core of the yarn is a round fibre spun from the product of the rubber tree, latex, after treatment by a patented chemical process.

The yarn is incorporated with other fibres into the cloth, the proportion being regulated according to the elasticity desired. The yarn can be introduced both lengthwise and crosswise by the weaving or knitting machine. The new cloth is woven so as to be stretched in all directions.

Fewer alterations will be required. The clothes can be scrubbed without shrinking leading manufacturers of them say, and certainly they require considerably less pressing to preserve their neat appearance than they would if not treated for resilience.

---o---o---

### HOW WINTER AFFECTS THE ZOO.

Zoo animals are surprisingly affected by winter weather. Monkeys, for example, greatly appreciate ice and snow and cannot resist tasting a piece of ice.

It is related that one zoo ape not only showed a complete indifference to the cold, but on one occasion became so enamoured of the keeper's pre-breakfast game of snowballs that he took to making snowballs himself and hurled them at the public, to the general delight.

Zoo polar bears not only detest the cold, according to Mr E.G. Belonger in his recent book "Zoo Cavalcade," but during the winter months are probably the dirtiest animals, for the snow shows up their sooty coats to great disadvantage.

In winter the elephants are oiled from head to foot. Though an elephant can become acclimatized to winter weather its tough, resilient skin quickly cracks in cold weather, dirt and insects finding their way into the fissures and causing endless discomfort. A few buckets of oil obviate this and until the lubricant soaks in, give the animal the appearance of a gigantic bronze statue.

THE LATE MR G.F. JOHNSON.

It is with deep regret that we have to record the death of Mr George Frederick Johnson of Port Howard, who passed away Tuesday evening at about 6.0 p.m. while staying at the house of Mr W.J. Hutchinson.

Mr Johnson, who was 64 years of age, had only a few days previously come into Stanley from Port Howard and though his health had not been too good of late his death came as a great shock to all who knew him.

Most of his life had been spent on the West Falkland where he was very popular. He has been working at Port Howard for the past thirty-one years and before that he was at Hill Cove for some twenty years. He is survived by his wife, two sons and three daughters to whom we extend our deepest sympathy in their sad loss.

---o---o---

THE LATE MISS E. GRANT.

It is with deep regret that we learn of the death of Miss Ethel Grant, the nineteen-year-old daughter of Mr and Mrs J. Grant, who passed away on Tuesday after a long illness. Our deepest sympathy go out to her parents and the members of her family in their loss. The funeral will take place this afternoon, the cortege leaving the house at 2.30 o'clock.

DROUGHT DANGERS.

The prolonged drought over the northern hemisphere is seriously threatening the world's wheat supply and the crops in America and Russia, accounting for one-third of the total of world production, are being greatly menaced, states the Daily Telegraph.

According to reports from the Daily Telegraph correspondents two million square miles of prairie land and grain land, covering eighteen American States have been burned up with the cattle and sheep dying in thousands and the farmers facing ruin while the Soviet have raised their bread prices and are importing wheat from Australia and the Argentine.

A large part of England has entered the seventh period of drought (fifteen consecutive days without rain) in the past twelve months while London has experienced only four Mays with less rain during the past century.

In many areas the water shortage is acute with springs dried up and reservoirs empty.

---o---o---

U.S.A. LABOUR TROUBLES.

The labour situation is becoming increasingly intense, states a message from New York, with two fresh major disputes in the cotton and rubber industries looming up in the immediate future.

While riots are occurring in many parts of the country sixty-eight Toledo unions have voted for a general strike while the remaining thirty-five will vote on Friday states the Daily Telegraph.

The representatives of the textile industry are enraged at Administrator Johnson's order to curtail the production 25 % during the slack season and threaten to call a general strike affecting 300,000 workers.

From Akron it is reported that the rubber workers are presenting a demand for a seventy-five cent hour (thirty-five cents increase) and a guaranteed forty-four hour week with half pay during idle periods

DISARMAMENT SENSATION.

It is reported from Geneva that the French Foreign Secretary, M. Barthou, provided a sensation at the Disarmament Conference on Wednesday by describing the British attitude towards Germany as "Too conciliatory" and the attitude of the conference as "contradictory."

The Daily Telegraph correspondent also states that he bitterly criticised the British plan and declared that the Conference must return to the October 1933 programme which provided for no rearmament of Germany.

Blaming Germany for the disarmament failures, Barthou declared that France would never allow Germany to dictate to France concerning disarmament without security, adding that Britain could assist by giving the necessary security guarantees and at the same time exclaiming "Must everything be abandoned which is not acceptable to the Germans?"

U.S. WAR DEBT NOTE.

According to a message from London the United States War Debt Note was considered by the Cabinet on Wednesday but it is understood that as President Roosevelt will be absent from Washington till Monday, the British reply will not be sent in the meantime.

There will be conversations between the British Ambassador at Washington and the representatives of the American Government relative to the proposals suggested for another token payment pending final settlement but assurances will be sought that the payment will not be considered a default.

Washington reports that on the receipt of the information that Britain was considering another and new war debt offer Roosevelt held a conference with State Secretary Hull and, at a press conference subsequently, stated that the treatment of debtor nations under the Johnson Act depended entirely on the June 15 happenings.

It was emphasised that the President could not talk on the War Debts till offers had been received from abroad, adding that the Congress message would probably be communicated to-day (Friday) but a definite date was uncertain.

The House of Representatives has approved of a resolution authorising the Committee for Foreign Affairs to investigate the question of debtors paying a portion in tin.

POLICE COLLEGE OPENED.

The Metropolitan Police College, which has been established at Hendon for the training of the officer class of the police force, was formally opened by His Royal Highness the Prince of Wales on Thursday.

The Prince said that the college was a development in which he was greatly interested as he knew that the need for higher training in the police force had been exercising the minds of the police authorities and the police themselves for some years past.

DESPERATION AT GENEVA.

An atmosphere of desperation prevails at Geneva, a message on Thursday states, concerning disarmament and, interviewed by a Daily Telegraph correspondent, Mr Henderson said "Not for the two and a half years of my presidency have I been so gloomy of a successful result or seen the outlook so black."

Owing to the absence of speakers Mr Henderson was obliged to postpone the commission meeting and there is apparently a dearth of speakers for subsequent sittings..

The small powers who were neutral in the war have decided to put forward a definite proposal based on the terms of the previous declaration; these being Norway, Switzerland, Denmark and Spain.

M. Barthou's speech on Thursday met with a mixed reception and while the French and British points of view represent a deadlock the German press sees England, America and Italy putting the Hitler peace proposals into practice.

France approves and the Soviet says that the French Foreign Minister has unmasked Sir John Simon's policy of smashing the peace guarantees and his policy of urging Japan and Germany towards war.

THE DROUGHT.

According to a message from London the "absolute drought" area is spreading west and north with less than one inch of rain recorded from the Humber to Kent and less than half an inch from London southwards, to Greenwich total being 0.41 millimetres which is the lowest for thirty years. The Thames tributaries are drying up with the flow at Teddington below one-third normal.

Drought over Canada has sent the wheat prices soaring in American markets.

BRITISH WAR DEBTS PAYMENT.

According to a report from London the British Note on the war debts is being despatched this week with the offer of a token payment on condition that this is not regarded as a default.

No official comment is available in New York but the American papers are of the opinion that Britain intends to pay a substantial sum amounting, according to the New York "American" to twenty per cent of the \$15,000,000 due. The payment, the paper adds, is to be made on a strict understanding being reached between the President and the British Ambassador that negotiations for a final settlement will be begun at an early date.

ENGLAND'S DROUGHT.

It is reported from London that the inland area has had an absolute drought of eighteen days and the rain shortage for the last twelve months is the worst for a hundred years with 15.05 inches of rain - 9.25 below the average.

Heat fires have destroyed a considerable part of the wooded areas of Kent and Surrey. The Derby racecourse at Epsom is harder than desirable for any racehorse and the amount of rain required appears unlikely before Wednesday.

THE DISARMAMENT CONFERENCE.

The Bureau of the Disarmament Conference was to have re-assembled yesterday (Monday) with the task before it of merging, if possible, into a general resolution the proposals submitted respectively by the British, Turkish and former neutrals headed by Sweden.

The British proposals would provide for the prohibition of chemical and bacteriological warfare with full publicity for arms budgets and a permanent Disarmament Commission to supervise the observance of these conventions.

The neutrals programme would add the stipulation for an all-round limitation of armaments if not a reduction, with a measure of rearmament for Germany and would include the study of "guarantees of execution."

The Turkish measures would bring forward a plan concerning Franco-Soviet relations with far-reaching guarantees of security as outlined by Litvinoff.

Litvinoff's plan, however, is regarded in London as being impossible of acceptance by Britain.

THE WEATHER.

Still maintaining a hard frost, nine degrees being registered in the screen yesterday with the thermometer probably four or five lower in the open air, the weather is proving most seasonable. Unlike Tuesday's conditions, there was no sign of a thaw and though the sun shone brightly for about seven hours, the snow remained crisp and the air healthy. Tobogganing is in full swing - and so are colds, but if we still have as snappy an atmosphere as yesterday to look forward to the latter should diminish accordingly.

Over £16 was realised as a result of the enjoyable dance held in the Town Hall on Monday evening when all the arrangements were in the hands of the Mothers' Union.

During the evening the Very Reverend the Dean, who was present, explained that the object of the dance was to provide medical funds for Birtic Skilling and, on behalf of the Mothers' Union, thanked all those who had so willingly supported the cause, some giving in addition to their entrance fee.

Fancy dress was optional and a large number of dancers took advantage of this to appear in costumes which were marvels of originality.

THE DERBY.

Favourite Beaten.

Yesterday's Thrilling Race.

Their Majesties the King and Queen and over a million racing enthusiasts saw "Windsor Lad", owned by the Maharaja of Rajpipla, win the Derby by a length from Lord Woolarington's "French bred "Easton" with the hot favourite, Lord Glenclly's "Columbo" a neck behind for third place.

"Windsor Lad's" time was two minutes thirty-four seconds which equals the record for the course set up in 1933 by "Hyperion." The course is 1 mile and 4 furlongs in length.

It is estimated that the bookmakers lost over a million sterling by "Colombo's" failure to stay and this was his first defeat in his racing career.

"Medieval Knight" and "Tiberius" had the lead until the straight when "Windsor Lad" forged ahead to win a thrilling race.

The day was dull with slight rain before the race.

The Maharaja Rajpipla was greeted by thousands as he led the winner in with "Good Old Pip." He was obviously pleased with his nickname and repeatedly waved his grey top hat. He said "I am glad 'Windsor Lad' won not for my sake so much as for the sake of the British public who have given me a wonderful redemption." He was later called to the Royal Box and heartily congratulated on his horse's victory.

Johnstone, the favourite's jockey said that "Columbo" had a very good chance but weakened in the last furlong.

"Windsor Lad's" victory recalls Gipsy Lee's prophesy that a horse with a "w" in it's name would win the Derby.

SHACKLETON'S SON CARRIES ON.

New Quest Begins.

Mr Edward Shackleton, the younger son of the great explorer the late Sir Ernest Shackleton, writes a correspondent in the Overseas Daily Mail, is to follow in his father's footsteps and go exploring.

He is now organising an expedition, under the auspices of the Oxford University Exploration Club, to the Canadian Arctic.

The Royal Geographical Society, in addition to awarding Mr Shackleton the Cuthbert Peek exploration grant, is assisting further with the finances of the expedition towards which the Canadian Government is also making a contribution.

(continued over -

To Start Soon.

It is understood that Dr G.N. Humphreys, the explorer, is likely to be the leader of the expedition, which will set out for Ellesmere land, where it proposes to work.

Sir Ernest Shackleton, it will be recalled, died in his ship the "Quest" off South Georgia on the 5th of January, 1932, while leading the Shackleton-Rowett expedition to the Antarctic.

At that time Mr Shackleton was but a boy - he is now in the early twenties - and those who know him declare that it has always been his ambition to carry on in some form the work begun by his father. The expedition he is now organising is his first effort in that direction.

GRENADA.

A life member of the United Empire Society, writing in the journal for April on the Colony for which His Excellency the Acting Governor will be leaving within a few months states :

Grenada is a regular isle of beauty. Every resident tells you the view from his place is the best in the island, but the scenery everywhere is almost indescribable. The hills, the small rivers, the trees and plants and flowers all add to the charm. The climate is hot and healthy. The people are most hospitable, friendly and polite, and do all they can to oblige visitors. The island is about 100 miles north of Trinidad. It is about the size of the Isle of Wight. The great variety of fruits and vegetables enable the poor people to live very cheaply. The roads are generally good but are often hilly and winding so that careful driving is necessary, but the chauffeurs are good and accidents are very rare. Motor buses run daily to certain parts and the fares are small.

The chief town of Grenada is St George's. There is a good club, library, and a good local paper published daily. On the raccourse, cricket and football matches take place, and golf, tennis and other games are played in various places. Some think Grenada is really the most beautiful place in the King's Empire. The climate is very healthy, and although a cool breeze is nearly always blowing, yet it is a warm place. It is daylight at 6.0 a.m. and dark at 6.0 p.m.. There is very little twilight, and it is hot from 8.0 a.m. to 4.0 p.m.. To enjoy Grenada one should wear very light and thin summer clothing. However, motoring, boating and bathing are always pleasant. The sea is so warm that sea-bathing is perfect and very enjoyable. The weather is trying in July and August, but the sun is never too hot as in India. The rainy season lasts from September to January inclusive. The insects and reptiles are scarce and quite harmless. The fish are good and plentiful. There are not many horses or ponies, but donkeys and mules, sheep, goats and cattle are to be seen and various kinds of poultry. The donkeys bray night and day, the cocks crow and the small singing frogs sing all night but do not disturb sleep.

The sunrise and sun set are always worth seeing. All classes of Grenada residents are so very kind and so very hospitable that it is a pleasure to meet them,

LESS UNEMPLOYMENT IN WOOL TRADE.

Expanding Exports.

The Daily Telegraph for the 26th of April reports that the unemployment in the British woollen and worsted trade has fallen from 18.7 per cent, a year ago to 11.3 per cent. according to the Imperial Economic Committee's "Wool Intelligence Notes" for April.

Wool shipments from the Southern Dominions during the first nine months of the current season, ended March 31, show a decline of over 40,000,000 lbs says the Imperial Economic Committee's Notes.

This is due entirely to a drop of 80,000,000 lbs in shipments from South Africa. Australian shipments were 21,000,000 heavier than a year ago, and New Zealand, Argentine and Uruguayan shipments were also higher.

CONTRACT WORTH £4,700,000.

For London Firm.

A contract of the value of £4,700,000 has been signed in London, reports the Daily Telegraph, for the fitting of continuous air brakes to the freight wagons of the Polish State Railways.

The contracting parties are the Polish State Railways and the Westinghouse Brake and Saxby Signal Company Ltd., of London.

The signing of this large contract is the culmination of negotiations which have been going on for some time.

The work covered by the contract includes the supply of brake equipment for 39,000 wagons. The supply of this equipment will extend over a period of six years, and it is stated, will provide a large amount of employment in Britain.

The export credits guarantee department of the Board of Trade has played a part in dealing with the financial side of the contract.

The Royal Japanese Air Force, whose present strength is 646 planes, is to be nearly doubled in the course of the next three years, according to the Rengo Agency reports the Observer.

By 1936 eighteen squadrons (500 machines) will have been added, at the rate of six squadrons a year, starting this year.

The increase will cost 44,000,000 yen (25,500,000 at present rates of exchange.) The expenditure has been provided for in the Budget which has already been approved.

#### GERMANY'S NEW AIRSHIP.

Germany's newest and largest dirigible - the L.Z. 129 - is nearing completion, and the public have been invited to inspect it. One visitor in every three thousand will be given a free trip when the airship is put into service.

L.Z. 129 has a diameter of 134 feet and is 812 feet long. These measurements exceed those of the famous Graf Zeppelin by 34 feet and 42 feet respectively.

There is a gondola with four promenade decks, a reading and writing room, a smoking lounge, and bar, a dining room, a general sitting room, a kitchen and twenty-five sleeping cabins.

The airship has risen from the ill-fated British R. 101, which crashed near Beauvais (France) in 1930 with the loss of forty-nine lives. It has not only been designed to avert a similar disaster, but much of the R. 101s twisted framework has been utilised in its construction.

After the R. 101 tragedy work was immediately suspended on a half finished zeppelin. Plans were re-drafted and, when it was found that only a new type of structure would meet safety requirements, the dirigible was dismantled and started again.

YESTERDAY'S FOOTBALL.

The "Old Uns" had their revenge on the "Youngsters" yesterday afternoon on Government House Paddock where they defeated their former vanquishers by the comfortable margin of 6 - 3.

The Youngsters started well and were the first to open the score with a fine centre of Steen's being tapped into goal by P. Hardy at centreforward, who, incidentally scored the other two for his side as well. But the opposition was too strong for them and wore them down so that not only did they fail to stop their opponents rushes, they also forgot to keep their positions and the defence had a habit of crowding in the goal-mouth. On several occasions, however, they were very unfortunate and another day these mischances might very well have turned to advantage. The heavy going also told against them. At half time the score was 4 - 2 in the favour of the "Old Uns" and the final score 6 - 3, with the winners goals being obtained by Creece (4), Williams and Hannaford who put into his own goal. Though the result was disappointing for the Youngsters they should not despair but show their determination to "come again" and put the experience they are gaining further to the test; for only by continual trying will they develop into really good footballers.

U.S. SCHEME FOR WINTER.

According to a message from Washington President Roosevelt has sent a message to Congress outlining a vast scheme of social insurance for presentation during the coming winter.

A Reuter report states that its three objectives are : unemployment and old age pensions; permanent housing programme; and nationwide irrigation and reclamation objects.

The President says "We are working towards an objective of making possible American families living as American families should." Relative to social insurance he said "I believe the funds necessary should be raised by contributions rather than by an increase in general taxation," and while the United States should meet a large part of the management costs, the Federal Government should invest and safeguard reserves.

60 GREENLAND DOGS COMING TO STANLEY.

En Route For Graham Land.

To Be Used In Antarctic Exploration.

When the m.v. Losada visits Stanley in August she is expected to bring to the Falklands sixty Greenland sledge dogs in the charge of two men to await transport to Deception Island and then to Graham Land for use by a British Antarctic Expedition under the leadership of Mr J.R. Rymill.

Mr Rymill, who is twenty-seven years of age, was for a time the leader of the Arctic Air Route Expedition to Greenland in 1932-3 after the death of the original leader, Mr H.G. Watkins. It is his intention that the expedition should spend three summers and two winters in the Antarctic, the chief aim of the party being to discover and make land surveys of the land mass beyond Hearst Land by means of dogsledge journeys and aeroplane flights, starting in the Spring of 1935. It is hoped to complete the outline of the coast of the Falkland Islands Sector of the Antarctic and obtain valuable whaling information.

In the event of two aeroplanes being included in his equipment, Mr Rymill's expedition will probably consist of nine men including himself as one of the pilots besides being in command. Others of the personnel so far selected are Mr W.E. Hampton, second in command (pilot and engineer,) Mr Q. Riley (meteorologist,) and Mr B.B. Roberts (surveyor and biologist.) A geologist and a doctor will also be included.

The main base is expected to be in Marguerite Bay, about 68 S. where the expedition will proceed in a small sealing steamer sailed by themselves; in all probability the steamer will be brought down South to Deception Island by a whale factory.

They will then penetrate as far south as possible during the Autumn and at headquarters a hut will be built and the ship frozen in. In case of emergencies a line of bases to a point accessible by whale catchers will be laid along the coast.

Meanwhile, arrangements are being made for the sixty dogs of the expedition to be housed at Stanley. They arrived in England from their homeland on Wednesday last, the 6th of June, and will leave in the Losada for the Falklands on the 16th of July approximately.

HITLER & MUSSOLINI TO MEET.

It is learned on good authority, states a message from Rome, that a meeting between Mussolini and Hitler will take place sometime this week, probably Thursday or Friday.

The French view is rather of wistful hope than of confidence but the press points out that Italy can play a decisive role in building the bridge between the French and German standpoints.

Though the French Foreign Minister, M. Barthou, has been invited to attend the meeting it is unlikely that he will do so though his projected visit to Mr Ramsay MacDonald early in July is regarded as a good omen for the renewal of Franco-British co-operation.

BRITISH BLACKSHIRT DISGRACE.

Arising from the Blackshirt brutality at Olympia, states a press message, a strong demand is being made in Parliament for immediate action by the government and, according to the Daily Telegraph, the Cabinet will meet to-day to consider the adoption of measures to restrict the wearing of political uniforms.

The Chicago Tribune says that the Olympia rising on Thursday last sounded the death-knell of British Fascism owing to the British demand for fair play for all parties, while Berlin praises the action against the "Red terror."

AUSTRIAN "REIGN OF TERROR."

Despite the authorities threat of summary punishment the "reign of terror" in Austria is continuing, states a message from Vienna, with a long series of bombing outrages and while these are causing little damage the government is viewing the situation with grave alarm.

It is generally felt that the episodes of the last few days are only the beginning and that there will be worse to follow, and while the government organ the "Reichspost" ascribes the responsibility to the Nazis the large number of unexploded bombs is interpreted as an indication that they could do more if they tried.

The Cabinet held an all-day session on Monday with only a few hours interval, discussing extraordinary steps to be taken against this terrorist campaign.

The special convention of the Amalgamated Iron and Steel and Tin workers at Pittsburgh has been fixed for Thursday, says a message from Washington. A momentous decision is expected to be made there as to whether 300,000 allied workers will strike or not.

The Recovery Administrator, General Johnson, has been invited to attend the conference notwithstanding the officials' letter that the Unions had lost all faith in the administration and that "Johnson had discredited himself in the eyes of the country's workers."

The letter also advised President Roosevelt to throw the Iron and Steel Institutes proposals into the wastepaper basket and "If you mean to abide by your own Recovery law the least thing you can possibly do is to summon the Steel manufacturers for a genuine bargaining conference."

STANLEY SPORTS ASSOCIATION.

Annual General Meeting.

Sports At Christmas-time.

Nearly A Four Hours' Meeting.

Twenty-seven members out of a total of some fifty-six - the largest number recorded for some years - were present at the Annual General Meeting of the Stanley Sports Association held in the Church Hall last night when the proceedings, commencing at 8.0 p.m., only concluded just before the lights went out at midnight.

Mr R. Greenshields (chairman) presided, supported by Mr V.A.H. Biggs (vice-chairman,) and Messrs. D.R. Watson & T. Campbell (joint hon. secretaries,) and Mr G.I. Turner (hon. treasurer.)

The other members present were : Messrs J.F. Summers, A. Bonner, J. Barnes, A. Petterssen, A. Newing, L. Aldridge, B. Fleuret, R. Hutchinson, S. Aldridge, R.H. Hannaford, J.D. Creamer, E.G. Rowe, T. Dettleff, T. Paice, R. Reive, W.J. Hutchinson, W. Aldridge, E. Aldridge, M.G. Creece, H. Thompson & H. Thomas.

The treasurer's report showed that the balance of the Association's funds totalled some £210 of which £70 was banked. The remainder, the treasurer said, would be banked the next day.

The Entertainment Committee's report stated that four very successful dances were held at popular prices and resulted in a net profit of £10.10.6d. while the Totalizator Committee's report stated that the profit amounted to some £40. Although no report was submitted by the Sweepstake Committee Mr Biggs spoke on their behalf.

The Race Course Committee's report stated that on the whole the race course was in a good condition while the Executive Committee's report showed that the meetings had been well attended with Mr V.A.H. Biggs (vice-chairman) never missing one.

In the course of his remarks the Chairman said that he was afraid that this would be the last meeting that he would be present at and the Association would have to elect another chairman. In reviewing the fortunes of the Association during the past ten years Mr Greenshields said that the support accorded the Association had varied tremendously and last year the loss amounted to £19. Last year was more or less a trial year as to whether the Sports should be in February or not, and it would appear that they should not. Another thing was that last year twenty members had paid their subscriptions out of a total of fifty-six or more; and this meant that some of the people on the Association just did not worry.

The Chairman went on to congratulate the Entertainment sub-committee on the way the dances were run in February last. As far as the races were concerned he thought they went off very well although the number of entries was very small. In conclusion Mr Greenshields said that he wished to thank the members of the Association for the work they have done during the past twelve months in the running of the meeting and he wished to thank personally all the members who had attended the meeting and for the support they had given him as chairman.

The following new members were then elected : Messrs A.L.S. Biggs, A.P. Hardy, B. Bonner and P. Hardy.

The officers elected for the ensuing year were : President - His Excellency the Governor; Vice-Presidents - re-elected en bloc with the addition of Mr G. Bonner O.B.E.; Chairman - Mr R. Greenshields; Hon. Treasurer - Mr H. Thompson; Joint Hon. Secretaries - Messrs D.R. Watson & T. Campbell; Finance Sub-Committee - Messrs H. Thompson, M.G. Creece & B. Fleuret; Race-Course Sub-Committee - Messrs S. Aldridge, W. Aldridge, J. Bowles, H. Jennings, J. McGill, R. Reive & T. Paice; Sweepstake Sub-Committee - Messrs V.A.H. Biggs, E.J. Mc-Atlasney, W.M. Allan, A. Newing, W. Newing & R.H. Hannaford;

Totalizator Sub-Committee - Mr J.D. Creamer with power to co-opt;  
Entertainment Sub-Committee - E. Aldridge, L. Aldridge, E.J. Mc-  
Atasney; L. Sedgwick, J. Barnes, R. Hutchinson, W.J. Hutchinson,  
A. Bonner, T. Wettleff & G.I. Turner; Auditors - Messrs E.G. Rowe  
and T.D. Evans.

A motion by Mr Rowe that the Sweepstake Sub-Committee's activities should not be confined to the two events at Christmas time was referred to that committee while other matters referred to the Executive Committee was the question of the collection of subscriptions and membership; the possibility of places at the start of the races being drawn before the horses go up to the start; that the Douglas Plate event should be divided into two - one for Falkland Island Bred and one open - with the entrance fee £2-10-0 for a £20 prize; that any alteration that may be considered for the programme be left to the Secretaries with reference to an extraordinary general meeting for drastic alterations; the possibility of running the Salvador Cup Race with additional prizes to be supplied by the Sports Association.

The meeting unanimously decided to hold the next meeting this coming Christmas instead of in February.

Before the meeting closed at 11.45 p.m. or thereabouts, Mr J.D. Creamer proposed a hearty vote of thanks to the Chairman and this was carried unanimously. In response Mr Greenshields also proposed a hearty vote of thanks to Mr G.I. Turner for being treasurer for so many years and this motion was also carried unanimously.

DEATH TO BOMB THROWERS.

Explosions, shooting and bomb outrages continued throughout the day on Monday in Vienna and a proclamation was issued imposing a death penalty under martial law for the possession of explosives.

A feeling glooms prevails all over the country and doubts have been expressed as to the government's ability to restore peace and order.

It is rumoured that the chief subject of the Mussolini and Hitler conversations will be the Austrian situation.

MINIATURE SPOON SHOOT COMPETITION.

Twenty-four members of the Defence Force Miniature Rifle Club, divided into two classes, took part in the first monthly Spoon Competition fired off on the Range at the Drill Hall on Wednesday evening.

"A" Class members are those who have made a score of 96 or over while the "B" Class comprise of members with 95 points and under. The conditions permitted of only one card being fired at the 25 yards' range.

In the senior class W.M. Allan, K.V. Lellman and O. Pike tied with scores of 98 but in the shoot-off the first-named secured the prize with a possible.

In the "B" Class E. Harvey returned the fine score of 98 thereby winning the spoon; this is a particularly creditable achievement since it is the first time Harvey has fired in the club. The runner-up was "Bill" Cooper with 97.

THE WEATHER.

Although the sun shone intermittently yesterday the temperature went down steadily and at nightfall was registering four degrees of frost with every indication of the conditions being more severe through the night. As there had not been much more snow during the day the prospects for tobogganing were only fair though there was a sufficient surface on the hills to warrant the sleighs being brought out again and tested.

REPORTS DISCREDITED.

Reports that Great Britain and the United States are seeking accord for joint action against Japan at the 1935 Naval Conference are discredited, states Reuter, as this would wreck the prospects of the conference.

Japan, America and Great Britain will hold conversations through diplomatic channels in London while the Japanese diplomatic representatives outside London may also have preliminary conversations with their accredited governments.

It is pointed out that neither Germany nor Russia have made application for participation in the Conference and relative matters therefore, have not been considered.

From Washington it is reported that forty million dollars have been earmarked by the Public Works Appropriations for the building of 225 planes and aircraft carriers to the limit under the Washington and London Treaties, pending the approval of the Senate.

GERMAN PAYMENTS.

It is definitely certain, a message from Berlin reports, that there will be interruption in the interest and amortisation payments on the 1st of July no matter whether the Dutch, Swiss or American creditor delegates reject or accept the Reichsbank's offer which the British, French and Swedish delegates have conditionally approved of. Whether or not the embargo on the transfer is to be extended to the Reich loans, including the Young and Dawes, is undecided.

U.S.A. STEEL STRIKE.

According to a message from New York the tension in the steel strike situation is increasing and there is a probability of Roosevelt being called to intervene. But the steelworkers themselves discount the gravity of the strike threat, stating that there was a strong anti-strike movement afoot.

Meanwhile a new strike of butchers, involving 12,000 has occurred and with fifteen slaughterhouses idle the city may shortly be without fresh meat.

The butchers are demanding a twenty per cent increase in wages and the recognition of the right to collective bargaining, with the employees walking out in increasing numbers.

BOXING BROADCAST.

Stanley listeners in who did not switch off their loudspeakers after 10.0 p.m. on Thursday had a novel and enjoyable surprise in the relaying of the world championship fight between Max Baer of California and the Italian Carnera at Madison Square, Long Island, U.S.A..

Since similar relays previously had not been successful no announcement was made that it was intended to broadcast from the States a running commentary on the fight but at six seconds past ten the voice of the commentator at the ring-side came up clear and announced that all was ready for the big fight and that Carnera was in his corner.

The description was excellent and thrilling throughout and every word could be heard.

Briefly, Carnera went down in the 1st, 2nd and 3rd rounds while in the fifth Baer "landed" a terrific right on Carnera's face causing his nose to bleed. In the eighth round Carnera took an ox felling sweep at Baer but missed and fell flat on the boards.

In the ninth round the announcer thought that Baer was weakening but apparently it was only a feint to get at close quarters with the Italian. In the tenth round Carnera was down twice and just before the end of the round claimed a low blow but the referee told them to box on. In the eleventh round Carnera was again down and had taken some gruelling punishment when the referee announced the fight over and that Max Baer would be the champion on a technical knock-out.

JAPANESE CONSUL MISSING.

It is reported from Tokio that a strongly worded command has been sent to China insisting on the guarantee of the personal safety of the missing vice-consul Kuramoto, regardless of his whereabouts.

The Foreign Minister has made a report of the affair to the Cabinet and a grave view has been taken by the Japanese Government in the matter.

The Shanghai correspondent of the Japanese press states that the diplomat has been kidnapped by "Blueshirts" who are said to be acting as agents for the Chinese Gendarmerie and add that Generalissimo Chiangkai Shek has cancelled his visit to Nanking unless he be involved.

Kuramoto's wife states that he has been shadowed by unidentified persons for a long time prior to his disappearance on Friday last week.

REPLY TO WAR DEBT NOTE.

The American reply to the British War Debt Note was handed to the British Ambassador at Washington on Tuesday afternoon and places on record the three points of difference, states the Daily Telegraph correspondent.

The reply states that no proposals have been presented at any time relative to the payments in kind which were found to be mutually practicable and agreeable and if made would be carefully considered for eventual submission to Congress.

The Note reiterates the United States determination to regard the British debt as a self-contained transaction, laconically adding that "the British government has undertaken to borrow in its own name and on its own credit standing, and repayment was not made contingent upon the fate of the debts due to Britain."

In another message on the same subject it is stated that the terms of the War Debt Note, suggesting that Britain might consider payment in kind as a means of the settlement of her "debts", is causing considerable bewilderment.

The Daily Telegraph correspondent states that the Congress members who have been questioned on the matter have been giving evasive answers.

The Government departments at Washington similarly approached have suggested tin, rubber and manganese while the press comment to the effect that the United States is unprepared to take any goods while her markets are so overstocked and while there are so many unemployed.

President Roosevelt's statement on Wednesday was to the effect that the payment by goods was suggested only on a partial basis.

London ministerial circles are also confused relative to the Note implications which are entirely novel and the practicability of the plan is gravely doubted.

It is anticipated in Rome that Italy will follow Britain's lead by making no more war debt payments while Latvia has announced that she is suspending payments until the situation has been regularised.

MUSSOLINI & HITLER.

The first official intimation that Mussolini and Hitler were meeting was contained in a communique issued in Rome on Wednesday fixing the venue as Venice on Thursday, states the Daily Telegraph correspondent who adds that on the eve of the event a wave of anti-German feeling had been created throughout Italy by the official Austrian report of the alleged Nazi terrorist outrages.

Backed by Austria closing a part of the frontier owing to continued demonstrations, Italian opinion is crystallized that the Duce will stand by Austria and in his talks with Hitler he would be extremely frank.

A flotilla of thirteen torpedo chasers arrived at Venice on Wednesday and anchored at St Mark's dock, within a stone's throw of the Grand Hotel where Hitler is staying.

BRITISH AIR MINISTER WANTS RE-  
ARMAMENT.

"We find ourselves the only nation which has reduced its armaments. Everywhere else we are faced with increased forces. We cannot remain impassive while all other nations are increasing their forces. The sands are fast running out."

Lord Londonderry, the Air Minister, made this statement in a speech on Saturday at Dungavel, Strathaven, Lanarkshire, and he emphasised that Britain's air defences must be increased if the other nations would not reduce theirs to a reasonable level.

COMMERCIAL CONCESSIONS BETWEEN  
FRANCE & BRITAIN.

An important commercial agreement was initialled between Great Britain and France on Saturday.

It follows upon a prolonged dispute between the two countries concerning trade restrictions.

It is officially announced that both countries will now withdraw the measures they took some months ago and will concede each other the most favoured nation treatment. There are also to be tariff adjustments and arrangements regarding quotas.

Negotiations have also been begun for a new trade treaty.

---o---o---

GERMANY LEAGUEWARDS OR NOT ?

Conflicting Reports.

One report received over the week-end from Venice states that according to the Daily Telegraph correspondent the official German circles sum up the result of the Hitler-Mussolini talks which ended on Saturday, as follows ; Germany has decided not to return to the League of Nations for the present despite the cordial nature of the talks; an agreement has been reached that the only possible solution for the disarmament deadlock is based on the Duce's view that Germany cannot be kept eternally disarmed; the economic relations between the two countries are to be discussed through the ordinary diplomatic channels.

From an authoritative source the same correspondent learns that Hitler has given a guarantee that the terrorism and Nazi propaganda from Germany over the frontier into Austria will cease.

Another report from Venice states that Signor Mussolini, in negotiations which are now to take place with France will attempt to bring a successful conclusion to the policy he matured with Chancellor Hitler during the Venice meeting.

The Sunday Times special correspondent states that there are two alternatives : firstly, if France can be induced to agree to the terms proposed by Hitler which includes German re-armament, Germany will agree to return to the Disarmament Conference and the League of Nations; secondly, if Mussolini is not able to secure concessions from France the formation is feared of two blocs in Europe - 1. Italy and Germany, 2. France and Russia and their satellites.

---o---o---

HITLER RESTORES GERMAN CONFIDENCE.

The Sunday Times correspondent at Venice reports that Hitler, by his visit to Italy, has done much to restore in Germany the waning prestige of his ministry.

Hitler returned to Germany yesterday flying from Venice to Munich this being the only way he could go without passing over Austria.

The Germans deny that Hitler gave any guarantee about Austria's independence.

POLISH MINISTER ASSASSINATED.

The Polish Minister for the Interior, M. Pieracki, who was a close adviser of Marshal Pilsudski, was assassinated when leaving the Government Club on Saturday after lunch.

Three men participated in the attack and a revolver shot hit the Minister in the head. Despite immediate removal to hospital for an emergency operation death ensued within half an hour.

Through drastic action against the Polish National Radicals (the Greyshirt Nazis) the deceased Minister incurred the enmity of this organisation to which, it is thought, the assailants, who escaped, belonged. A bomb, enclosed in a cardboard box was also thrown but failed to explode.

A RETORT TO THE REICHSBANK.

According to a message from Paris, France may follow Britain's example and set up a clearing house as a retort to the Reichsbank's decision to suspend for six months payments on all cash transfers on German medium and long term debts abroad.

The British Chancellor stated on Friday that an Anglo-German clearing house will be set up unless a fair settlement for British bondholders is reached.

LARWOOD.

It is announced from London that Harold Larwood, the Nottingham and England cricketer whose fast bowling contributed largely to the winning of the Ashes in Australia, is not playing in the next Test at Lords commencing on Friday.

He has definitely decided, he announced on Sunday, never to play against Australia in a Test again. He has complained of "political influence" to keep him out of the Tests.

Sir Stanley Jackson, the chairman of the England Selection Committee in a statement to the Daily Telegraph correspondent deplored the fact that Larwood should put his signature to such a statement. "I do not think it will do anybody any good" Sir Stanley remarked. The Selection Committee meets to-day.

HITLER ANXIOUS.

Indiscretion has been revealed by Hitler's confidential diplomatic envoy Herr Von Ribbentrop who has visited Paris and had two talks with the French Foreign Minister, M. Barthou.

The Daily Telegraph correspondent says that the visit is interpreted in Paris as a sign of the German Chancellor's desire "to escape at any price from his position of isolation."

The German envoy's mission was to take soundings. He was not, it is understood, charged to make proposals nor authorised to negotiate. The conversations appear to have yielded a negative result.

Well-informed circles state that current Franco-German questions were broached.

On disarmament Barthou re-affirmed that France would not agree to legislation for breaches in the Treaty by Germany or acquiesce in the re-armament of Germany which would be a danger to the peace of the world.

A DOMINION DIFFICULTY.

According to a report from Whitehall the refusal of the Dominions to agree at Ottawa to a central consultative body for meeting such situations as illustrated by the difficulty of persuading them to restrict their exports of beef is again being discussed at Whitehall. The idea is one which is likely to be revived in coming talks. It is suggested that an impartial survey of the agricultural and industrial potentialities, including those of the Mother Country, might yield valuable conclusions for a more efficient exploitation of Empire resources.

CHANGES IN COLONIAL GOVERNORSHIPS.

During the past few days wireless messages, although somewhat fragmentary, indicate that Sir Cecil Clementi, the Governor of the Straits Settlements, has resigned on account of ill-health and that there have been changes in the Governorships of three West African Colonies namely, Gold Coast, Sierra Leone and Gambia. It is conjectured, besides being subject to official confirmation, that the following changes have taken place : Sir Thomas Shenton W. Thomas (Governor of the Gold Coast) to the Straits Settlements and Sir Arnold W. Hodson (Governor of Sierra Leone and formerly Governor of the Falkland Islands) to the Gold Coast.

DOMINION APPOINTMENTS.

On Monday the Dominions' Office announced that Sir Cecil Rodwell, Governor of Southern Rhodesia, had been granted permission to retire in December when he will have completed thirty-five years of service under the Crown. His Majesty the King has approved of the appointment of Sir Herbert Stanley to succeed Sir Cecil Rodwell. Sir Herbert Stanley has held, since 1931, the posts of High Commissioner for South Africa and High Commissioner in the Union of South Africa for His Majesty's Kingdom.

Sir William Clark, High Commissioner in Canada for His Majesty's Government in the United Kingdom, has been selected with His Majesty's approval to fill these posts in succession to Sir Herbert Stanley. It has also been decided, with His Majesty's approval, that on the assumption by Sir William Clark of his new posts the title of the first of these posts, namely High Commissioner for South Africa, should be altered to that of His Majesty's High Commissioner for Basutoland, Bechuanaland Protectorate and Swaziland.

THE GERMAN DEBTS.

The United States Ambassador in Berlin has been instructed to protest against the German Debts Moratorium, according to an announcement from the State Department and the ambassador will express a "strong regret that new hardships will be brought to bear on American creditors holding German obligations."

He will also point out that Germany's action "seriously affects" the Government of the United States which regrets that debtor and creditor relations are still further impaired.

From London it is reported that Mr Pinsant, the financial adviser to the British Ambassador in Berlin and recently acting in a similar capacity to the Government, is returning to Berlin shortly while the British Government's reply is to be despatched to Berlin during the current week.

The Reichsbank gold coverage for the 15th of June showed a further decrease to 2.9 per cent states the Daily Telegraph correspondent.

BRITAIN & THE DARDANELLES.

The Daily Telegraph, with reference to the new Turkish diplomacy, points out that she firmly declines to be made a cat's-paw for the Soviet, notably against Great Britain with whom Mustapha Kemal is determined to maintain cordial relations.

The Turkish proposals for the remilitarisation of the Dardanelles is not being pressed, following on a frank talk between Sir John Simon and Tewfik Bey, when the British objections to the Turkish plan were outlined.

The Daily Telegraph states that this concession by Turkey to the British point of view is a bitter blow to the Soviet Foreign Minister, Litvinoff, who has been endeavouring to engineer a Mediterranean Pact, forcing Britain to choose between the militarisation of the Straits or the Pact.

---o---o---

TERRORIST ASSASSINATION.

It is reported from Warsaw that the assassination of Brigadier-General Pieracki, who was accorded a State funeral on Monday, was believed to have been the first of a series of intended terrorist attempts on members of the Polish Cabinet and, as a result, strenuous efforts to round up anti-government organisations are being carried out before further outrages are committed.

The situation remains calm.

---o---o---

PERMANENT DISARMAMENT FAVOURED.

U.S. Support.

According to the Daily Telegraph correspondent at Geneva, the United States is strongly in favour of a permanent disarmament commission and the licensing of all munition factories.

It was inferred on the authority of Hugh Wilson, who is President Roosevelt's delegate to the Traffic in Arms Committee, that the terms of such a licence would involve the reporting to the disarmament commission of any order received for war implements from a foreign State.

GERMAN OVERTURES TO FRANCE.

Presages Progress.

The visit of Von Ribbentrop, who is Hitler's special diplomatic emissary presages progress in the organisation of security, states the Daily Telegraph Paris correspondent.

His overtures to France are judged in the light of sequential events which include Von Papen's speech at Marburg, granting "sick leave" to Ekelum, who is the military leader of the storm-troopers, and the withdrawal of the railwaymen from that force, with radical changes in the Nazi policy and methods.

It is suggested that Ribbentrop's visit to President Doumergue covered more than "courtesy exchanges" which is supported by the fact that the German emissary is returning shortly to continue the conversations with M. Barthou before the latter's departure for London.

---o---o---

THE GERMAN DEBTS MORATORIUM.

It is understood from Washington that the United States Government has not yet decided upon the procedure to be adopted relative to the German debts moratorium.

While it is possible that the British proposal to establish a clearing-house for recovery will be followed, President Roosevelt has ordered the State Department to establish by enquiries whether the United States has the power to take similar action.

PIRATE OUTRAGE.

Five Englishmen Captured.

A report from Shanghai states that great interest is being shown in the latest pirate outrage which occurred on Monday in the Chinese seas where over thirty pirates, all armed, over-powered the captain and officers of the steamer "Shantien" and, after taking the passengers' valuables left the steamer seizing the the officers and a naval lieutenant besides twenty Chinese passengers as prisoners.

Two British destroyers, the Aircraft Carrier "Eagle", two American destroyers and a Chinese gunboat with Chinese troops, are searching for the pirates.

A further message states that some of the pirates were on board the steamer as passengers and assisted in the capture in evening dress.

It was announced late last night that four of the five Englishmen taken by the pirates were now free, one of them, Mr Nicholls and one Chinaman being rescued by a seaplane from the "Eagle". They were found on their own in a sam-pan.

SCOUT MARR DECORATED.

The Boy Scouts Weekly Bulletin for the 15th of May reports :

Scouts everywhere will congratulate Mr James W.S. Marr on the approval by the King of the award to him of a Polar Medal with clasp for his services with Sir Douglas Mawson's polar research expedition.

In 1921, when Mr Marr was a patrol leader of the 1st Aberdeen Group, a holder of the Silver Cross and the Royal Humane Society's certificate for life-saving, he was selected with Patrol Leader Mooney of the 2nd Orkney Group to accompany Sir Ernest Shackleton to the Antarctic in the "Quest."

This was the ill-fated voyage on which Sir Ernest Shackleton died. When Marr returned home he studied at Aberdeen University and after graduation became assistant biologist to the Alagarsson Expedition to the North Pole. In 1929 he sailed to the Antarctic in the "Discovery" and his latest exploit was with Sir Douglas Mawson.

Mr Marr is well known to many in Stanley and on his obtaining so rare a distinction we also offer our heartiest congratulations.

### DEBTS LEGISLATION FORESHADOWED.

According to a message from London the reply of His Majesty's Government to the German Government's note announcing the decision of the Reichsbank to suspend the cash transfers on the German medium and long term debts abroad, was handed to the German Ambassador on Wednesday afternoon.

Legislation, fore-shadowed by the Chancellor of the Exchequer on Friday last when he announced that the Government intended to take action in reply to the Reichsbank's decision unless any negotiations undertaken before the 1st of July should result in a satisfactory agreement, was introduced in the House of Commons on Wednesday afternoon.

The Bill authorises the setting up of clearing houses for the collecting and dealing with certain debts and also the imposition of a restriction on imports from certain foreign countries.

It was presented by the Chancellor of the Exchequer and read for the first time.

### NAVAL TALKS PROBLEMS.

The Daily Telegraph states that the immediate problems emerging from the preliminary Naval Talks are the questions of the German and Russian inclusion at the full conference which may be urged from different quarters while Japan may demur at Russia's inclusion.

It is thought that the United States would not necessarily welcome Russia's advent lest political developments should ensue but France may insist on an invitation to Russia with Italy similarly insisting on a German invitation.

France has formally accepted the British invitation to participate in the preliminary talks, it is authoritatively stated, while the Daily Telegraph Rome correspondent quotes an inspired press report to the effect that Italy will agree to whatever Britain and the United States agree upon in relation to capital ships.

From Tokio Reuter reports that the Admiralty spokesman claimed that it was "absolutely necessary" that the Washington Treaty should be revised with more favourable conditions for Japan on the grounds that the Pact is thirteen years old since when International matters and situations have undergone considerable changes.

The Spokesman adds that there is a national conviction that Japan must possess sufficient naval strength to safeguard her national position in the Pacific where the American fleet is concentrated.

### THE WORLD'S PEACE.

A message from London states that Dr. Hensley Henson, Bishop of Durham, made a striking speech at the Church Assembly on Wednesday when the minority views were being discussed.

The Bishop said : "At this moment the hope of the world's peace is Great Britain and that she should be able to speak effectively at the councils of the nations and if, following the mirage of pacificism, she disarms herself in the face of an armed world, she will speak neither self-respectingly nor effectively.

Emil Ludwig, the distinguished German author, addressing the Pen Club at Edinburgh on Wednesday said, that the League of Nations had shown itself impotent; the Vatican was powerless against the war threats; and in such circumstances pacificism was a danger.

MR C.A. PARKINSON.

Our heartiest congratulations are extended to Mr C.A. Parkinson, Government House Gardener, on his transference to the position of Second Gardener at Gibraltar. Mr and Mrs Parkinson, who have now been associated with the Colony for over seven years, are expected to leave Stanley with their two children at the earliest opportunity.

Mr Parkinson since his arrival has been a keen member of the Horticultural Society and as the honorary secretary has done much to stimulate and maintain enthusiasm in the society's activities; he has also been a very popular and valuable member of the Stanley Golf Club of which he has also acted in the capacity of honorary secretary.

Gibraltar, as everyone knows, is situated near the southern extremity of Spain and is a rocky promontory,  $2\frac{3}{4}$  miles in length and  $\frac{3}{8}$  mile in breadth, with "Monkey's Alameda" as its highest point at 1,396 feet. The estimated civil population is 16,600 with a further military and naval population of about 6,000. Gibraltar was captured in 1704, during the war of the Spanish Succession, by a combined English and Dutch force, under Sir George Rooke, and ceded by the Treaty of Utrecht in 1713. Since that time it has remained continuously in the hands of the British.

The town stands at the foot of the promontory on the north-west side, enjoys an extensive shipping trade, and is becoming a very popular tourist centre. During the year 1932 4,091 vessels including 112 tourist steamers, entered, with a total tonnage of over eight and a half million.

THE SECOND TEST.

The second Test Match between Australia and England commenced yesterday at Lords when England opened the batting and by the time stumps were drawn had made 293 for five wickets.

After 70 had been scored without the loss of a single wicket something of a debacle set in with Sutcliffe, Hammond and Hendren leaving in quick succession but the situation was later improved by a strong stand by Wyatt, Leyland (who scored the first six of the series) and Ames.

The individual scores were :

Walters	82.
Sutcliffe	20.
Hammond	2.
Hendren	13.
Wyatt	33.
Leyland	95 not out.
Ames	44 not out.
Extras	4.

Total 293 for five wickets.

GERMANY'S THREAT.

The Daily Telegraph Berlin correspondent reports that, in an address to foreign correspondents defending the German Government's policy of imposing a transfer on the Moratorium, the Reichsbank president, Dr Schacht threatened that if Britain and the other countries introduced coercive measures such as a clearing office, Germany would immediately break off all trade relations.

Meanwhile the French Government has asked Germany to send representatives to Paris to discuss the best methods of ensuring the payment of interest to the holders of the Dawes and Young loans, while a delegation is now en route for Berlin for the negotiation of a new trade agreement and is also entrusted with a mission of opening up negotiations regarding the Dawes and Young payments.

The Ministry of Labour's figures, announced from London on Thursday, indicate a better general position than at any time since 1929 and still improving.

It is estimated that there are over 10,000,000 employed, a figure which is 47,000 more than a month ago, 570,000 more than a year ago, and 849,000 more than in 1931 with the highest total since the boom in 1929.

Practically every district in the country has benefitted and the basic industries report steady progress.

JAPAN - THE POLICEMAN.

According to a report from Dairen, Hishikari, the Japanese Commander of forces in Manchuria, has issued a statement that the troops under his command are only sufficient for the policing of the border.

ENGLAND'S AMAZING WIN.

England won the Second Test Match yesterday at Lords by defeating Australia by an innings and 38 runs. The weather played a leading part in the game for Australia, after six weeks batting on hard wickets had their first experience of a pitch made tricky by the heavy week-end rain and yesterday's hot sun.

When the day opened the score stood : England 440, Australia 192 for two wickets. England's slow bowler, Verity, found conditions ideal for him and he soon had Australia in trouble. Their first innings closed for 284 when they required only six runs to avoid a "follow on." Batting again they were able to do no better and the whole side was out for 118.

Verity was the prime instrument of the Australians downfall and took seven wickets for 61 runs in the first innings and 8 wickets for 43 runs in the second innings. He captured fifteen wickets yesterday for eighty runs and after the tea interval took six of these for fifteen runs.

Altogether his performance has never, or very rarely, been equalled in Test cricket. England was undoubtedly fortunate in the weather and in having, probably, the best bowler in the world for such conditions.

This Test match was the first time England has beaten Australia at Lords since 1896. In the present series England and Australia have won one each.

### THE FALL OF THE FIANNA FAIL.

The United Ireland party leader, General O'Duffy, expressed the opinion in Dublin yesterday that his party would win twenty of the twenty-three local government elections this week which result would mean the extinction of the Fianna Fail.

He added that there would be a general election within a year.

### ARMAMENTS TO INCREASE !

According to a message from London yesterday the expansion of the programmes of the three services for defence is receiving the Government's consideration. The Daily Telegraph adds that if the schemes are adopted in entirety the total sum demanded would be much in excess of the amount the country could afford.

The Government is therefore called on to decide the total sum available and its allocation.

The decision is unlikely to be delayed till the next annual estimates and it will be probably be made in the course of the next few weeks.

The necessity for the increases proceeds from the failure to an international agreement on the Convention for the limitation of reduction of armaments.

Recent speeches by members of the Cabinet leave no doubt as to the way being paved for important alterations in policy and over the week-end Sir Bolton Eyres-Monsell, the First Lord of the Admiralty, pointed out that while Britain's expenditure on armaments had decreased during the last eight years by 16 per cent, during the same period international increases were : Italy  $9\frac{1}{2}$ , the United States 10, Germany 12, Japan, 80, France 100 and Soviet Russia 197 per cent.

### THE CLEARING HOUSE BILL.

The German delegation for discussing the Moratorium on the Dawes and Young Loans, which are effective next Sunday, left Berlin yesterday at the British invitation, states the Daily Telegraph.

The discussions will not affect the progress of the Clearing House Bill and there is an indication that the Bill will be on the Statute Book by Friday.

The Board of Trade order which would bring the Bill into operation will not be issued if an agreement is reached with the German delegation.

The text of the Bill not only provides for the setting up of a Clearing House but authorizes the use of restrictive quotas against foreign imports where there is a discrimination against British goods and power can be evoked in the case of any country where British imports are dealt with unfairly.

### THE FRENCH GRAND PRIX.

A message from Paris states that the story of the French Grand Prix has extremely interesting features. The winner was "Admiral Drake" who was last in at Epsom. The veteran jockey, Steve Donoghue, flew to Paris to witness the race on a "busman's holiday," but on arrival at Longchamps he was offered the mount it had previously been arranged an apprentice should ride. Donoghue's ride on "Admiral Drake" was in every way superb, he adopting a waiting policy with an excellently timed run in which he beat "Easton" who was leading.

### COST OF ROAD CRASHES.

Measured In Millions.

The current issue of the "Medical Press and Circular", so the Sunday Observer states, contains a supplementary symposium on the various types of injury due to road accidents. In its editorial notes the paper says :

Two millions of victims have been sacrificed since the war on the roads of Great Britain. What is the economic wastage alone ? Taking the average loss caused by these premature deaths on the roads at £1,000 per man, £500 per woman and £250 per child.

If the total killed is 7,000 a year, of whom about 3,000 are men, 2,000 are women, and 2,000 are children under fifteen, that makes a loss of £4,500,000 per annum.

To this must be added at least an equal number of victims who are permanently injured or die of their injuries within a year. In these cases the economic loss is obviously greater, but a low estimate would be £4,500,000.

### CANADA'S 400 YEARS.

Celebration Of Landing.

Plans are prepared, the Sunday Observer comments, and the arrangements are almost complete for the celebration in August of the 400th anniversary of Jacques Cartier's discovery of Canada.

It was in July, 1534, that the famous French explorer dropped anchor in Gaspé Harbour, in the Gulf of St Lawrence, and erected on the mainland a cross in the name of Francis I of France.

The Dominion and the French Governments, supported by the hearty goodwill and cooperation of the British Administration, have made all provision for what should be a fitting mark of this notable event.

An indication of the great interest of France in the celebration is the fact that the Government is arranging to send three men-of-war to escort the French and British liners which will take the delegates from Europe to America, and during the pageant representatives of France will present to Quebec a painting of Cartier planting his cross. It is the work of M. D. Ch. Fouqueray, the French historical artist, and will hang in the new cathedral at Gaspé, now being built as a memorial to the discovery of the Dominion.

It is felt that these celebrations will set the seal on the racial kinship which during the last century and a half has been fostered and developed between the French and British peoples in the Dominion.

### THE POPE TO TAKE A HOLIDAY.

Pope Pius XI., who is approaching his seventy-eighth birthday, is an indefatigable worker. Now that the Holy Year is over it is expected that His Holiness will have a well-earned rest and retire in the near future to his villa at Castelgandolfo, in the Alban Hill for a time, carrying on his Court affairs and transacting State business there.

According to the review, "Vita e Pensiero," his labours during Holy Year, included the delivery of six hundred and twenty speeches, besides fourteen homilies, and nine consistorial allocutions. During the periods when there were pilgrimages he delivered as many as eight speeches a day. He also received upwards of one and a half million pilgrims.

WHALE OIL DEAL.

Big Unilever Contract.

The Daily Telegraph Oslo correspondent recently stated that it had been announced that the group of the Norwegian whaling companies headed by Herr Lars Christensen, of Sandefjord, had made a separate agreement with Unilever Limited.

It is reported that Unilever have promised to buy the total production of whale oil of the group up to a maximum of 110,000 tons annually.

The contract means that co-operation among the Norwegian companies is broken.

Herr Christensen explained that he proposed to the other companies earlier in the year that the whole of the Norwegian fleet should be laid up for next season. His proposal was rejected, and he consequently had to act.

CHESS BY TELEPHONE.

A novel inter-county chess match between teams 250 miles apart was recently played, says a Sunday Observer correspondent.

The moves were made by telephone. This is the first time such a match has been played in Britain.

It started promptly at four o'clock, the teams being Norfolk (playing at Norwich,) and Gloucestershire (playing at Bristol,) and was under the auspices of the Southern Counties Chess Union in the championship competition.

By arrangement with the General Post Office an open line was kept throughout the match at a cost of £9. 15s..

Each team consisted of twenty players, and the twenty games occupied seven hours. As each move was made a "teller" telephoned the fact, and later the counter move was telephoned back.

NEW THRILLS AT R.A.F. DISPLAY.

Synchronised Aerobatics.

Nearly two hundred aircraft will be flying at the Royal Air Force Display at Hendon on Saturday, the 30th instant, and about 3,000 officers and airmen will be actively engaged in presenting the programme. Accomodation is to be provided for over 150,000 spectators and car parks available for 15,000 cars.

The Hawker Furies of No. 25 (Fighter) Squadron and No. 43 (Fighter) Squadron, which are stationed at Hawkinge (Folkestone) and Tangmere (Chichester), for special interception against "hostile" bombers will figure in two spectacular events.

No. 25 will give an exhibition of formation flying in which the nine machines are "chained" together with elastic ropes. All evolutions, including loops, rolls and other aerobatics in linked squadron formation, are regular Service manoeuvres.

The event to be provided by No. 43 Squadron is new. It will consist of synchronised aerobatics by flights, and many complicated manoeuvres will be carried out simultaneously by the six machines engaged.

New machines, faster and better than those now in service, will be flown to illustrate the effective technical lead of British aircraft constructors over their world competitors. Secret in many cases at present, these aircraft are being specially released to make the display an all-round exhibition of Service developments.

MEAT WRAPPED IN KING'S LETTER.

It is reported from Warsaw that a college professor of Lublin has discovered some valuable historical documents under strange circumstances.

While buying a piece of meat the professor noticed that the butcher wrapped it in an old document, which, on being examined, proved to be a letter in the hand-writing of Stanislaw Poniatovsky, the last king of Poland.

It was discovered that the butcher's collection of wrapping paper included many original documents, which have been transferred to the archives of Lublin.

Serbian Celebration Plans.

Preparations are already afoot for the celebration of St Vitus' Day, which falls to-morrow, the 28th of June, the twentieth anniversary of the murder of the Archduke Franz Ferdinand at Serajevo.

Special invitations to King Alexander and to Crown Prince Peter have been carried by hand all the way from Serajevo, in Bosnia, to Topola, in Serbia, a distance of 220 miles by a series of runners, who also bore a torch ceremonially lit at Serajevo, afterwards deposited on the grave of King Peter at Topola.

The route which lies largely over mountainous country, was covered in twenty-two hours.

U.S. SILVER PURCHASE.

According to the United States Treasury announcement it is inferred that the Government is continuing its silver purchasing policy, last week's buying totalling 380,532 ounces while the silver receipts under the December order totalled approximately nine million ounces to the 22nd of June.

The silver bullion held that date was valued at 46,000,000 dollars, compared with 45,000,000 on the 1st of June.

The gold receipts under the anti-hoarding order amounted to 28,000,000 coin and 60,500,000 gold certificates, while the government purchased 57,500,000 unmelted scrap gold and 50,000,000 newly mined gold between January and June.

The New York market observers consider the expected flood of new security issues under the amended Securities Act, effective on Sunday, will not materialise immediately as there is a tendency to await the revised regulations now being drawn up and only a comparatively few of the issues now held up will be affected.

The Daily Telegraph Paris correspondent states that serious political rioting is becoming almost of daily occurrence and following clashes in the outlying districts of Lorient on Saturday night a pitched battle took place between the Fascists and the Communist groups.

The trouble arose over the efforts of the Communists and the Socialists to disturb a Nationalist meeting attended by old soldiers and addressed by Colonel de la Roque.

The Reds attempted to rush the police cordon and in a six hour battle in which bricks and broken bottles besides miscellaneous rubbish were used, over 100 were injured and 30 arrested.

THE LATE MR R. AITKEN.

## One Of The First Of The Volunteers.

The death of Mr Richard Aitken on Monday last saw the passing of one of the first of the Volunteer Force in Stanley. He took the oath as an original member of the Volunteers at Government House on the 21st of June, 1892 during the Governorship of Sir Roper Tuckfield Goldsworthy, K.C.M.G.. He was promoted corporal in 1903, Sergeant in 1907 and Colour-Sergeant in 1909, being awarded the Long Service Medal in 1913 when he retired.

Born in Duns, Dumfriesshire, Scotland, on the 25th of September, 1849, he came to the Falklands to work for the Falkland Islands Company in 1870, sailing from England to Montevideo in the paddle-steamer "La Plata" and from thence to the Falklands in the schooner "Foam."

He first worked on the Derwin Station where he stayed until 1872 when he married Miss Christina McKinnon at Canterra and went to Lion Creek. After shepherding there for four years he went to Speedwell in 1876 for a period of ten years eventually coming in to Stanley to work in the Falkland Island Company's smithy when ship-repairing was at its height.

From the smithy he took over the position of head gardener for the F.I.C. in 1909 which position he held until he received his pension in 1925. Always active he still continued to take a great interest in gardening and besides tending without fail his own plot until three weeks ago when he was taken ill, up to two years ago he was gardener at Malvina House.

Mr Aitken was always popular and was a great favourite among those who knew him and he will be greatly missed. He is survived by his wife, six daughters and two sons, 46 grandchildren, 22 great-grandchildren and one great-great-grandchild - Master Jim Perry of Teal Inlet. In 1932 Mr and Mrs Aitken celebrated their Diamond Wedding.

## The Funeral.

The funeral took place on Wednesday when full military honours were accorded, His Excellency the Acting Governor being represented by Lieutenant W.M. Allan (Adjutant of the Defence Force) while Captain D.R. Watson and 77 members of the Force were on parade. The bier was carried on a gun-carriage under the charge of Sergeant S. Summers with C.Q.M.S. Dan Lehen in charge of the bearers and Corporal C. Evans in charge of the following party. After an impressive service conducted in the Cathedral Church by the Very Reverend the Dean (Chaplain) the cortege and mourners proceeded to the cemetery where the last rites were solemnly observed and ex-Colour-Sergeant Aitken's mortal remains were committed to Mother Earth to the salute of the firing party under the charge of Sergeant J.J. Harries, the ceremony concluding with the sounding of the "Last Post" by Corporal F. O'Sullivan.

The family mourners were : Mrs Aitken (wife,) Jack Aitken (son,) Mr & Mrs A. Hills (daughter & son-in-law,) Mr & Mrs D.S. McAskill (daughter & son-in-law,) Mrs W.H. Goss, Mrs M. AID FOR BEEF PRODUCERS.

The Daily Telegraph states that in view of the low prices of livestock, the Ministers have agreed that the Government will be compelled to aid the beef producers financially and the plan which will be considered will be on the lines of the Milk Scheme with a loan to the industry repayable over a short period of years.

The restriction of Dominion imports and those of other countries are to come under consideration and shortly the Ottawa Agreement arrangements will be open to review.

Relative to this the same journal states that pending a fresh agreement on voluntary lines, the present restrictions observed by the Dominions will be continued.

The Cabinet has decided to complete the arrangements for the statement of its policy on the meat situation before Parliament adjourns.

GAMP SOCIAL NEWS.

Two Nights Merrymaking At San Carlos.

(Contributed.)

Multi-coloured flags, Japanese art decorations artistically arranged, soft lights and a merry throng, transformed the dining-room of the men's quarters at San Carlos into a veritable Hall of Delight when Mr and Mrs J.F. Bonner gave a Dance on Friday, the 8th, and a Whist Drive on Saturday, the 9th instant, in celebration of the sixth anniversary of their wedding.

The large number of visitors (no less than forty) from Port San Carlos, Douglas Station, Darwin, Teal Inlet, Rincon Grande and Johnson Harbour, and the adverse condition of the camp for travelling says more for the hospitality of San Carlos and its popular organised gatherings than a string of eulogising adjectives.

Between 9.0 o'clock and 12.0 o'clock Friday night three minutely dwarfed hours slipped by and were only brought to the notice of the dancers by the M.C.'s announcement of refreshments. Now, if the ladies at this juncture forgot certain rules and "what sweet things do" and likewise their partners their - er - "embonpoint" or tailor's warning, all must hold responsible the host and hostess and the caterer, Mrs Hooking: The irresistible delectables displayed changed the refreshment room into a gourmet's dream of paradise come true.

After some four more hours of dancing the one and only murmur of dissent was made audible when the M.C. acquainted the dancers with the fact that the next would be the last waltz - and the time was 5.20 a.m. !

On Saturday night at eight o'clock a record number of forty-eight persons sat down to play twenty-four hands of progressive whist. The games, although keenly contested did not deter the many Merry Andrews; their pleasantries and good humoured banter kept the games at the right pitch above the "serious."

At the conclusion of the games light refreshments were served at the small tables. Prior to the prize-giving Mr & Mrs J.F. Bonner were given thanks by the appreciative company in the form of three lusty cheers, which (with due respect to the decorators) dangerously nigh brought the ceiling decorations to grief.

The handsome prizes presented by Mrs J.F. Bonner were won by :

Ladies : 1st Mrs T. Clifton (Teal Inlet,) 2nd Mrs M. Morrison (Port San Carlos.)  
Gentlemen : 1st "Bill" Britton (San Carlos,) 2nd "Las" Berntsen (Port San Carlos.)

The mirth-making and ingenious booby prizes were won by :

Ladies : 1st Mrs R. Reive (San Carlos,) 2nd Mrs J. McKay (San Carlos.)  
Gentlemen : 1st "Abie" Alazia (Port San Carlos,) 2nd "Dave" McMullen (San Carlos.)

After the distribution of prizes the tables suddenly disappeared as if touched by the magician's wand and the remainder of the evening was given over to dancing dances old and new. A special feature was the Valse de Vienna where quite a number of the younger generation became admiring "wallflowers". Hats off to the quite-young-at-sixty!

"Freddy" Betts and "Alf" Hookings, M.Cs; "Abie" Alazia, "Bill-Toots" Alazia, "Young Duck" Fleuret, "Jim" McKay, "Dave" McMullen, "Young Davie" Stewart - musicians; and Joe Butler - the versatile entertainer in song - all deserve special mention: "Well Done."

"Campesano."

WATCHING THE FAR EAST.

According to a report from London, the Chinese Minister in Washington, interviewed by Reuter's correspondent, says that he has no doubt that the Americans, despite their preoccupation with internal affairs, were carefully watching the Far East and though anxious for close cooperation with Britain, the latter's policy seemed somewhat undecided.

As Great Britain was inviting the powers to the Naval Conference, he added, America could not officially suggest a programme, but he thought unofficially they would do so, he having reason to believe that the conference would discuss the Far Eastern situation from all points of view.

The Tokio press states that reports to the effect that France is desirous of the Soviet participating in the 1935 Naval conversations have been received with scepticism in official circles in view of the fact that this is likely to give rise to the question of the participation of Germany, Spain and other countries, making the assembly similar to the Geneva Disarmament Conference with a probable similar fate.

THE FREE STATE ELECTIONS.

A message from Dublin reports that the state of the poll in the Free State elections at mid-night on Thursday were respectively as follows : County Councils - de Valera 153, O'Duffy 135, Independent 39, Labour 13; Corporations - 54, 42, 34, 15; Urban Councils 278, 196, 211, 105.

---o---o---

- Dublin : The result of the Fermanagh-Tyrone by-election is - Irish Nationalist (Stewart) 28,790, Independent & Farmers (McCrossan) 18,089 - no change.
- Rome : The French Foreign Minister, M. Barthou, will proceed to Rome after visiting London. The Minister stated on his return from the Little Entente tour on Thursday that "no differences arose between us."
- London : A surprise move has been made by the Government in sending the Betting Bill to the Standing Committee of the Commons instead of being taken on the floor of the House.
- London : The Water Board has issued restrictions with penalties for the non-observance of their instructions prescribing the use of water for sprinkling on gardens, sports grounds and for washing vehicles.
- London : The Executive Council of the Socialist Party has considered in camera the resignation of Mr Arthur Henderson as secretary. It is understood, states the Daily Telegraph, that Mr Henderson's letter is qualified by the desire to remain within and under the Council and to continue in office as treasurer.
- London : Boxing - The featherweight champion Watson outpointed the Bantamweight champion Corbett on Thursey.
