HERR HITLER'S REPLY.

Croydon. Tuesday. Herr Von Ribbentrop arrived in London about 9.30 last evening. His late arrival was due to the fact that the reply was not ready until 4 p.m.

We feel sure that all his friends in the Falkland Islands will regret to learn of the death of Mr. A. Moir, M.A., late of Darwin, which occurred at Aberdeen on the 14th of January last.

We publish the following article with all due acknowledgment to the Aberdeen Press and Journal.

FALKLAND ISLES TEACHER.

Death of Mr. A. Moir at Aberdeen.

The death occurred at his home, 10 Kepplestone Avenue, Aberdeen, yesterday of Mr. Alexander Moir, who for over twenty-eight years was accountant and chief schoolmaster to the Falkland Islands Company Limited.

Mr. Moir, who was sixty-six years of age, had been in indifferent health for a number of years. A native of Mortlach, Dufftown, he graduated in Arts at Aberdeen University in 1894. After teaching for four years in Dundee, Mr Moir received his appointment with the Falkland Islands Company, and during his long residence there took a leading part in educational work in the islands, where he was examiner to the State-aided schools.

He retired in 1927, and in Aberdeen his service as a lecturer were much in demand.

Mr. Moir is survived by his wife and four sons, the eldest of whom is senior medical officer in British Honduras.

FALKLAND ISLAND SAILOR TAKES
PART IN FUNERAL PROCESSION OF
HIS LATE MAJESTY KING GEORGE V.

News was received by the last mail that Leading Seaman Joseph Harries of the Chatham Division was one of the crew which drew the gun carriage on which the body of His late Majesty King George V was conveyed from Westminster Hall to Paddington Station.

All members of the gun crew subsequently received a medal in commemoration of His late Majesty.

CABINET RESIGNATIONS DENIED.

London. Wednesday. It is learned on good authority that all rumours concerning the resignations of Cabinet Ministers are entirely unfounded. It is emphasised that the White Paper which is a Cabinet document, and whereby all sections of the Cabinet took equal responsibility, would not reflect on any individual Minister. All Cabinet Ministers agreed that Great Britain has certain commitments regarding Locarno, and that the Cabinet shall exercise close and complete political control of all staff talks when they begin.

LAWN TENNIS.

Cannes. Tuesday. F. Perry of Great Britain won the Beausite Cup at Cannes yesterday and with Mme. Mathieu won the mixed doubles. Perry expressed entire satisfaction with his form after his six months absence owing to illness from all competitions.

UNION CASTLE SERVICE.

Southampton. The Union Castle accelerated service completing the voyage to South Africa in 14 days will be inaugurated in August with the Stirling Castle and Athlone Castle and five other liners are being re-engined to maintain the schedule.

WAR NEWS.

Rome. Tuesday. In Marshal Badoglio's war report he states that several Askaris disguised as Abyssinians pushed forward to Dagabur where they set fire to an Italian aeroplane which, when under the charge of Lieutenant Minnitis, was brought down and captured by the Abyssinians. He also states that he has captured Sakota which has special attraction for the Italians because in the surrounding districts the climate is specially suitable for the growing of cotton. On the north front very heavy aerial bombardments continue.

Rome. An Eritrean column has occupied Sardo, the principal fortress in the Aussa Province, which is within a hundred miles of the Emperor's Dessie quarters, and has given the Italians complete control of all Red Sea caravan routes. The column covered two hundred miles of waterless desert where the temperature at times was 137 degrees and on the last day they marched 37 miles. The entire movement occupied several weeks and the column was protected and supplied by aeroplanes. The march on Gondar is continuing with the ultimate object of cutting off Abyssinian communication with the British Sudan.

CLOSING OF IRANIAN LEGATION.

Washington. Tuesday. The Iranian Government has ordered the closing of its Legation and Consulates throughout the United States on the grounds that the press has been discourteous to the Shah, but unofficially the step is believed to be connected with the former Iranian Minister's arrest on a speeding charge in Maryland. Diplomatic relations which are unsevered will be carried on through the Teheran American Minister.

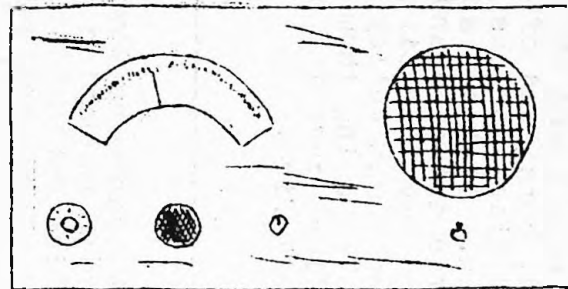

Copenhagen. Wednesday. Strong rumours are current that Herr Hitler's proposals contain an offer of a non-aggression pact with Denmark.

CABINET MEETING.

London. Wednesday. The Cabinet met at 11.0 this morning to consider the international situation following Herr Von Ribbentrop's visit to the Foreign Office where he had a long interview with the Foreign Secretary, Mr. Anthony Eden. Although details of the reply have not yet been published, it is understood that the German memorandum is of a conciliatory character and includes a number of proposals in connection with the defence of the Rhineland, but it is understood at the same time that Germany has definitely repeated her refusal to withdraw any troops from the Rhineland zone. A copy of the reply was immediately despatched to M. Flandin.

IRISH EXCHEQUER RETURNS.

Belfast. Wednesday. For the fifteenth successive year Ulster Exchequer returns show a revenue surplus of £10,957,870 and expenditure returns are shown as £10,952,272. Estate, stamp and motor duties gave a much higher yield but excise returns were much lower.

The Irish Free State revenue returns are £30,601,620 and show a deficit of £505,220.

London. Wednesday. It is officially announced that Lord Eustace Percy, Minister without Portfolio, has resigned, expressing to the Premier that in his opinion the continuance of his appointment was unjustified, but adding that he is in complete accord with the Government's foreign policy.

Trenton. Wednesday. Governor Hoffman has postponed Hauptmann's execution for 48 hours at the request of the Mercer County Jury.

GREAT ITALIAN VICTORY.

Reuters. 3:0 p.m. Wednesday.

London. Rome newspapers show big headlines "A great Italian Victory" wherein Marshal Badoglio has claimed that in a twelve hour battle in the Lake Ashangi region the Emperor himself personally participated. The Abyssinian losses are estimated at thousands dead including a number of sub-chiefs. The report continues that the Italian white losses were 12 officers and 51 men and native troops 44 officers and 152 men. The Italians have taken a great number of prisoners and large quantities of arms and ammunition. The action wherein 20,000 Abyssinians, including the Emperor's Imperial Guard who are modernly armed, consisted of a series of frontal and flank attacks on posts south of Maibeu. At later stages the Italians counter attacked and forced the Abyssinian army to retire in disorder to the Mekan Valley with the Italians hotly pursuing them by air with the artillery carrying out continuous shell-fire.

Canberra. The Canberra Government defeated a tariff reduction plan favouring British earthenware products, and the Ministry are seriously considering the position in view of the attitude recently shown towards the Ottawa pacts.

Berlin. Tuesday. The giant German airship "Hindenburg", has started on its maiden voyage across the Atlantic to Brazil. She was sighted from several south coast towns yesterday afternoon flying westwards over the Channel and making good progress against a strong head wind.

Paris. Tuesday. The notorious leader Belakhun who recently arrived in Barcellona has now departed for Madrid. He is accompanied by Nonote who was the organiser of the revolutionary movement of Asturias in October, 1934.

WEST FALKLAND NEWS.

Fox Bay. Wednesday. On Monday the 30th of March the s.s. "Patagonia" arrived in Fox Bay and after pratique, etc., left for Port Howard where she arrived the same evening. The "Patagonia" is one of Braun & Blanchards fleet of steamers, and is 175 tons nett. She is chartered by Mr. James Miller, who has brought over a cargo of 35 horses, mares and foals, six guanacos and a small quantity of general cargo. Some of the mares have very odd markings or colours for which we understand the Indian name is tubiano and in English piebald. After landing the guanacos on Sedge Island and also calling at West Point, Roy Cove and Weddell Island, Mr. Miller hopes to arrive at Stanley towards the end of this week.

Weather - Mount Sullivan and Mount Philomel had snow caps yesterday morning and the weather is very cold and stormy with squalls from the south-west.

On Wednesday the 18th March, Mrs. Myles and Mrs. R. McPherson accompanied by Mrs. Donald McKay of Mount Sullivan, climbed to the top of Mount Sullivan which is shewn as 1600 feet high, having walked out to Mount Sullivan House the previous day.

On a clear day one can see for miles in practically every direction

from the summit of Mount Sullivan, but on this particular day the visibility was very poor owing to a gale which later developed into a hurricane with sheets of rain just as the ladies returned to Mount Sullivan House.

CORONATION OF KING EDWARD VIII.

London. Wednesday. In Reuters press it was stated that the date of His Majesty the King's Coronation has now been fixed but is being kept a secret until the Premier makes an announcement probably just before the Easter recess. It is believed in official circles that the Coronation will be in May or June and that the occasion will be marked as a public holiday.

WORLD'S RAREST STAMP.

Offer of £7,500 Turned Down.

A bid of £7,500 made recently in a London auction-room for the world's postage stamp, the famous 1856 British Guiana "I cent. error," did not reach the reserve price, £8,500, and there was no sale. The bid, by Mr. P.L. Pemberton, was the highest ever made for a single stamp.

In 1856 a compositor in a printing works in British Guiana set the word "one" instead of "four" Stamps were printed from the type, but only one has survived - that offered for sale, as stated above. It formerly belonged to Mr. Arthur Hind, the famous New York collector. Mr. Hind, who died in 1933, left his collection to his relatives in Bradford, Yorkshire.

The "error" stamp, however, had been previously given to his wife, and it is on her instructions that it is to be sold.

GERMANY'S REPLY.

London. Wednesday. The German Ambassador at Large, Herr Von Ribbentrop, yesterday morning handed to the Foreign Secretary, Mr. Eden, the memorandum setting out the views of the German Government with regard to the future negotiations, which is, in effect, a reply to the proposals by the other Locarno powers. Mr. Eden was able to inform his colleagues of this communication at a meeting of the Cabinet yesterday afternoon. He has also at the request of the German Government forwarded the memorandum to the Governments of the other Locarno signatories, and this evening he received visits from the Belgium and French Ambassadors. The German reply is described in the text as a peace plan of the German Government. It extends to about 3,000 words in length and is in three parts. The first is mainly historical. In the second part the German Government advance their proposed peace plans which are set out in nineteen paragraphs. The final section of the document expresses the German Government's views as to measures in regard to disarmament and economic resettlement which should be taken after the conclusion of the work of securing European peace.

The tone of the German reply is definitely conciliatory, and it is clear from the opening passage of the document that the memorandum is directed in particular to British public opinion. The note states "It was with hearty approval that the German Government learnt from their Ambassador Ribbentrop that it is the wish of the British Government and the British people to begin as soon as possible the practical work for real pacification of Europe; this desire is in full accordance with the inmost intentions and hopes of the German people and their leaders".

In proceeding, regret is expressed that the German Government are unable to recognise in the draft submitted to them, serviceable and fruitful basis for invitation and carrying out of such genuine work of peace, and reasons are given why various discriminating

points are rejected. The summary of the German proposals in 19 clauses postulates equality as the essential basis of the negotiations of inviolable treaties and suggests a four months' limit for negotiations and signatures of non-aggression pacts. During such a period, the German Government would agree not to increase nor to advance nearer, the frontier troops in the Rhineland, provided that similar assurances were given by France and Belgium.

The suggestion is made for the verification of these undertakings by British and Italian military attaches, such investigations to be undertaken on complaint of any one power who is party, by a Commission composed of representatives of the Locarno guarantor powers, and another neutral power.

A new twenty-five year pact of non-aggression between France, Belgium and Germany guaranteed by Great Britain and Italy is to be negotiated, and the German Government are at the same time willing to undertake obligations of mutual assistance.

A supplementary air pact would be negotiated as well as non-aggression pacts with Germany's south-eastern and north-eastern neighbours.

Finally there are a number of proposals for moral disarmament and setting up of a new international court of arbitration whose decision shall be binding on all parties, but whose distinguishing characteristics from existing institutions is not defined.

It is fully recognised in authoritative quarters in London that the German memorandum contains much material - some of it new - which will require most careful study, and it will certainly receive the closest examination during the next few days, and if necessary the German Government will be asked for elucidations. There is naturally great disappointment that in regard to the proposals put before the German Government by the other Locarno powers, the present document does not offer a clear reply. It will be remembered that the main purpose of those proposals was to restore confidence which had been destroyed by Germany's action in the Rhineland.

RANDOM NOTES ON WORM DISEASESIN SHEEP.No. 7.

The Ministry of Agriculture & Fisheries in their Leaflet No. 75 of April 1930 on stomach worms in sheep have summarized certain important facts to be borne in mind when dealing with these infestations.

Summary of Important Points. -

- (1) Stomach worms are exceedingly common in sheep, but they cause harm only when present in large numbers.
- (2) Overcrowding shortens the life cycle, as the young worm in the soil has a better chance of a speedy return to the sheep. A little better spacing of the sheep may make all the difference.
- (3) Worms do not multiply in the sheep or lambs; every worm present in them must have been picked off the ground with the herbage.
- (4) One sheep cannot be infected from the droppings of another until such droppings have been on the ground for a time rarely less than 10 days, and usually longer. Hence, infection picked up by lambs penned for two days at a time over different parts of a root field must have come from a previous grazing.
- (5) Penning sheep over arable land more frequently than once in 12 months is dangerous, as many larval worms may be ready to infect the second lot of sheep. Many more will be ready to infect a third lot of sheep penned over the same ground within too short an interval, and if conditions have been exceptionally favourable to their development the larvae may be sufficiently numerous to cause disease.
- (6) The young worms on the ground are very resistant to lime, salt, poisonous chemical substances (as copper sulphate) and adverse weather conditions.
- (7) The young worms may remain alive on the ground for a long period, but the great majority will have died in a field kept free from sheep for 12 months.
- (8) Sheep parasitized by the twisted wireworm may be beneficially treated by dosing them with copper

sulphate (as directed.) This treatment has no effect upon the lesser stomach worm.

Summary of Preventive Measures. -

- (1) Overcrowding should be avoided, ewes and lambs should be placed on pasture which has been free from sheep for 12 months.
- (2) A root or forage crop should be grown on clean land for the ewes and lambs to graze off in the spring and early summer.
- (3) Where penning sheep on root and forage crops is largely practised, running them over the same ground twice within 12 months should be avoided.
- (4) If sheep must be penned over the same ground twice within 12 months, the second crop should be eaten off by old sheep only, because of their greater resistance, the ewes and lambs being put on to clean ground.
- (5) In penning sheep on arable land, wire netting, or hurdles of such a pattern as will prevent the lambs from straying back to contaminated ground, should be used.
- (6) If sheep are known to be affected with the twisted wireworm they should be treated with copper sulphate; and on farms where disease frequently occurs because of this parasite, treatment should be given at intervals of three or four weeks during the spring and summer.

ROAD ACCIDENTS.

London. Thursday. As from yesterday the Ministry of Transport are receiving detailed reports from the police on circumstances and causes of every road accident involving personal injury, whether fatal or otherwise. Enumeration and analysis of the information obtained will, it is hoped, yield valuable results in the determination of the main factors of road safety. Beginning next week, the weekly accidents statistics compiled by the Ministry of Transport will be issued in amended form.

MR. EDEN ON GERMANY'S REPLY.

London. Friday. Mr. Eden, in the House of Commons this morning, told his colleagues that letters had been handed to the French and Belgium Ambassadors regarding the German memorandum. He referred to a conversation he had had with Herr Hitler's Envoy and said that in this conversation he had told Von Ribbentrop that while His Majesty's Government had only had time for a preliminary examination of Herr Hitler's latest proposals, they regarded them as most important, and as deserving of a most careful study which we now intended to give them. The immediate question which confronted us was what should be the next step. It was clear we would have to get into communication with other Governments. That would take a little time and indeed His Majesty's Government thought that the pause at this time would be valuable. I emphasised to Herr Von Ribbentrop our object was the preservation of peace. That object was to seek and get negotiations going to bring about a final settlement, and His Majesty's Government would spare no steps to effect that end.

THE KING ADDRESSES DEPUTATIONS.

London. Thursday. This morning His Majesty the King received at Buckingham Palace deputations numbering in all about 500 persons, bringing loyal addresses of congratulations on his accession, from a score or more of privileged public bodies, representing all sections of the community. In the course of his address to the assembled deputations His Majesty said "as Prince of Wales I saw service with our services, as King I shall hold this in constant remembrance, for a King can perform no higher function than that of service. In common with men of my generation I have witnessed the horrors of war and I am all too familiar with the troubles and distress of the years which have followed. I got to know the hardships of men at the front and in the same way I realize the hardships of those who since then, through no fault of their own, have had the misfortune to endure long periods of unemployment. With all sincerity, therefore, I not only join in your prayers that the future may bring peace and prosperity to this country, but would assure you that my constant endeavours will be to promote an establishment of peace throughout the world and the revival of that commercial and industrial activity both in this country and abroad that alone can provide the opportunity to work which is the right of every citizen to enjoy."

GREAT ABYSSINIAN VICTORY.

Addis Ababa. Thursday. Reports from the capital claim that the Abyssinian secured a great victory over the Italian forces after a two days' battle south of Amba Alaghi; this was announced without making any reference to the Italian claims to having defeated the Emperor's army. According to the Abyssinian report four Italian fortified positions were captured and that the enemy's white losses were 36 officers and 700 Italians killed and wounded with 2,000 native soldiers killed. The Abyssinian casualties are stated to be 887 dead and 330 wounded.

Captain.

Adjutant, F.I. Defence Force.

Stanley,
3rd April 1936.

Sir,

I read in today's issue of the "Penguin" that the nearest known star is 25,000,000 miles away. I feel that I must correct your informant.

The nearest known star is "a Centauri" (a binary star) its distance is 258 followed by eleven zeros miles away. The next nearest star is more than twice this distance off.

"a Centauri" can be seen any clear evening, it is the second bright star to the right of the Southern Cross.

I am, Sir,

Yours faithfully,

STAFF CONVERSATIONS TO TAKE PLACE.

London. Friday. In the House of Commons to-day, Mr. Anthony Eden, the Foreign Secretary stated that Staff conversations between Great Britain, France and Belgium are to take place after all, and letters have been despatched from the British Government to the French and Belgium Governments to this effect. Mr. Eden said that the talks would not be of a political nature and the conclusions reached would only be applied if Germany were to be an aggressor. He also claims that such talks should not prejudice the negotiations with Germany.

The German newspapers however express the view that these staff talks will be detrimental to future negotiations.

NEW GLIDER RECORD.

Berlin. After an eleven hour non-stop flight from Croydon in a glider with an auxiliary motor, the Master of Sempill one of the best known British amateur fliers, landed safely at Tempelhof aerodrome Thursday evening, despite exceptionally unfavourable weather. He is the Vice-President of the International Commission for the study of motorless flight, and has now succeeded in beating the existing French record for flights **over straight routes with planes weighing under two hundred kilos.**

COMMENTS ON THE GERMAN REPLY.

London. Friday. The French Foreign Minister, M. Flandin, had an interview with the British Ambassador, Sir George Clark, and urged an early meeting of the Locarno powers, while the French Ambassadors in London, Berlin, Brussels and Rome have been summoned to meet M. Flandin in Paris to-day. France is indignant and distrustful; Belgium cautious and Italy non-committal, while Germany is ecstatic. Moscow comments upon the unchanged attitude towards the Soviet and the press points out that Herr Hitler has added sugar to his earlier statements to induce foreign populations to forget the original issues. The United States finds the proposals conciliatory but disappointing to France and says the world can hardly be expected to credit Herr Hitler with good faith after his reducing the German signature to a meaningless scrawl, nevertheless the plan must be examined but with caution. Warsaw ironically comments on Herr Hitler's demagoguery, while Vienna says that his offer is inadequate with its denial of equality to eastern states.

HIS MAJESTY'S CORONATION.

London. Saturday. The Daily Telegraph states that there is reason for belief that the Coronation has been fixed to take place during the first twelve days of May, 1937.

A sow belonging to a Carlton, Bedfordshire, farmer has produced 109 pigs. The sixth litter, born recently numbered 19.

WAR NEWS.

Addis Ababa. Saturday. A counter attack in the Lake Ashangi region has checked the Italian advance with the capture of four fortified positions, and the battle is still raging. The report states that on the Italian side 700 white troops and 2,000 Eritreans have been killed and the Abyssinian losses are shown as 887 killed and 345 wounded. An Asmara report states that the Abyssinian main army of 60,000 is still intact, and this bars the way to Dessie, while the Lake Ashangi battle is considered to be only an opening move to a decisive northern action. Meanwhile rains have commenced in this area.

A message from Rome reports that Italy has accepted the invitation of Madariaga, the Chairman of the Committee of 13, to open peace negotiations.

APPEAL FOR FUNDS.

London. Friday. The Anglo-Jewish appeal for \$1,000,000 on behalf of German Jews had a set-off with \$400,000, preliminary contributors including Rothschilds, Bearsteds and Simon-Marks, who each gave \$90,000. On an early contemplated completion of the fund, American Jews will find an additional \$2,000,000 for financing transportation of an emigration training scheme, which is already approved.

SANCTIONS AGAINST ITALY.

London. Friday. The League of Nations Union has organised a mass meeting to be held in the Royal Albert Hall when they will demand further and heavier sanctions against Italy. A Paris message states that M. Paul Boncour received the heads of many interested peace bodies in France to establish an organisation similar to the British federation.

OXFORD AND CAMBRIDGE BOAT RACE.

London. Noon, Saturday. The 88th boat race between the Universities of Oxford and Cambridge was rowed over the Mortlake course on the Thames this morning, and resulted in a win for Cambridge by four and a half lengths. This is the 13th year in succession that Cambridge has won the boat race. Throughout the whole series Cambridge have now won 47 and Oxford 40 of these events.

In to-day's race Oxford won the toss and chose the Surrey side of the river, and after following behind Cambridge at the start took the lead. The crews were again level at the first-mile post. At Hammersmith Bridge the Oxford boat was leading by half a length and this was slightly increased at the two-mile post. Cambridge then pulled up strongly and had a lead of one and a half lengths at the three-mile post. Thereafter this lead was steadily increased to the end.

THE HINDENBERG FLIGHT.

Berlin. Saturday. Differences existing between the Zeppelin Chief Eckener and the Nazi Regime, resulted in a photographic press ban by Dr. Goebbels, while it is learned that Eckener is only nominally commanding the Hindenberg on her South American trip. Eckener, who is intensely nationalist, refused to adopt the Nazi salute.

FOOD.

No. 8.

Water.

Water is more essential to life than food. A man can live for sixty days without food; but he cannot live for more than 10 days without water.

A large proportion of our foods contain water; some fruits contain more than 90 per cent. In a place like this where fruit and green vegetables form such a small portion of our diet, it is very necessary to drink enough. 4 to 6 pints of water including other beverages, should be taken daily.

Without water our bodies could not make use of the other food substances which are broken up into simple chemical form during digestion, and dissolved in the water. These watery solutions are then absorbed into the blood stream and made use of by the body. Water is also necessary to flush the system and wash away waste material which would otherwise accumulate and poison the body. Water is also needed to replace the water lost from the body by perspiration, respiration and excretion. About 70 per cent of the weight of our bodies is water and a loss of 10 per cent of this water may be fatal; so for these three reasons it is absolutely essential to drink enough.

ANTHRACITE COAL FIELDS DISPUTE.

Swansea. Saturday. An eleventh-hour settlement has been reached in the Welsh anthracite coal-fields dispute, which at one time threatened to bring out 20,000 on strike. The settlement, which has not yet been announced, will be recommended at the men's meeting by the Union leaders to-morrow.

JAPANESE NAVAL ESTIMATES PREDICTED.

Tokio. Saturday. Admiral Nagano has predicted big naval estimates in the forth coming session of the Diet.

Since Japan left the Naval Conference she is a free and independent country for the replenishment of her naval defence.

AUSTRIAN CONSCRIPTION.

Vienna. Saturday. The first Austrian conscripts will be called up in October, when 20,000 1915 - class men will join the colours, and a further 20,000 will be called up in the spring of 1937.

Rome. Saturday. Italian political circles to-day expressed their approval of the Austrian Government's decision to restore conscription.

THE HINDENBURG'S FLIGHT.

Rio de Janeiro. Saturday. The giant German airship, Hindenburg, arrived here on her maiden voyage to-day, completing the 7,000 miles from Germany to Rio in 100 flying hours.

WAR NEWS.

Addis Ababa. Sunday. Italian aeroplanes have attacked the Abyssinian capital for the first time, also attacking Diredawa on the Addis Ababa - Djibouti Railway and Jijiga. Five aeroplanes circled over the capital for half an hour, but no bombs were dropped; two of the aeroplanes swooped down on the Abyssinian aerodrome, destroying one aeroplane by machine-gun fire.

According to messages received from Italian sources, Marshal Badoglio claims to have routed the Imperial Guard commanded by the Emperor near Lake Asanghi.

A Rome Reuter message states that Italian troops have reached Lake Tsana.

The League Committee of 13 which is seeking to end the war, are holding a meeting in Geneva on Wednesday.

The British Government is urging the need for prompt action.

Italy has offered to send a representative to Geneva immediately after Easter for preliminary exchange of views.

Later War News.

London. The rout of the Emperor's army on the northern front has led to the belief in Rome that the end of the war is imminent.

Despatches from Asmara claim that the Emperor is in flight disguised as an officer. In Italy it is believed that the Emperor will soon have to abdicate, and that Italian troops will march unopposed into Addis Ababa. The report states that over 40,000 Abyssinian troops were engaged in the Lake Asanghi battle and thousands are lying dead on the battlefield. Fearing another air attack the Abyssinian capital has been deserted, the inhabitants having fled to the hills.

The League Committee of 13 which is meeting in Geneva on Wednesday to consider peace terms, will be faced with the knowledge that the Emperor has acknowledged that his country can no longer effectively resist an enemy employing the latest devices of modern warfare, and important members of the League are not prepared to maintain the existing pressure of

sanctions against Italy. It is believed that the Committee will exert the strongest moral pressure on Signor Mussolini to secure peace, based on the general principles laid down by the Committee of 5, and already agreed to by the League of Nations.

INTERNATIONAL SITUATION.

London. Sunday. Despite a lull in the international situation, there are several interesting developments; it is understood that the British Government has refused the French request for an immediate meeting of the Locarno powers in Brussels or Paris, but it is suggested that private and informal discussions of the German peace proposals should be held at Geneva during this week. France is busy preparing a counter peace plan which will be handed to Britain, Italy, Belgium and the League of Nations on Tuesday, and it is said to revive the idea of an international force.

Much satisfaction is shown in French circles at Britain's attitude to the Staff Talks. Germany continues to criticise the Staff Talks and the British action in despatching the "guarantee letter" to France and Belgium.

Provided always that :-

No applicant shall be granted relief at a sum which is equal to or greater than the amount which would ordinarily be available by way of earnings if he was following the occupation normally followed by him.

- Rule 13. When the Committee is of opinion that no hardship would be incurred they may refuse to make the full allowance according to the scale laid down, or they may refuse the application altogether, and the above reason shall be the only one given to the person concerned.
- Rule 14. No deduction will be made for the first ten shillings earned, but half the amount earned in excess of ten shillings will be deducted from relief pay. In no case will unemployment relief be paid so as to make the total income from earnings and relief payments exceed £2. 0. 0 per week.
- Rule 15. When a person goes off relief he shall again before receiving relief give a true return of his earnings for that period. In deciding the date on which the applicant is to be replaced on relief, the Committee will take into consideration the amount of money earned during the time the applicant has been working.
- Rule 16. Any person who has lost his employment through misconduct or who voluntarily leaves his employment without just cause shall be disqualified for receiving an unemployment allowance for a period of two months.
- Rule 17. In the event of a married man being sent on seasonal work in the camp, the Committee may grant him an allowance for his wife and children as now paid when a man is unemployed.
- Rule 18. £1. 0. 0 extra per month will be paid to every man engaged on farm work for the season only when the wages offered do not provide for such payment over and above the pay of permanent employees.
As wage rates are complicated by men being put on half wages and piecework (or entirely on contract work when the earnings are such that additional payments are not justified) the managers of farms will be asked to give a certificate to each seasonal worker from Stanley on the termination of his service stating how much more would have been earned had the wages been £1. 0. 0. a month above that of permanent hands. The whole difference up to £1. 0. 0 may be paid by the Committee to the worker on his return to Stanley.
- Rule 19. That the whole or part of any allowance may be issued to such member of the applicant's household as may be specified by the Committee.

Rule 20. In the case of a single man on relief being married his relief will automatically be increased in accordance with the approved scale, on application being made to the Clerk by the person concerned.

Rule 21. Appeals against the decision of the Unemployment Relief Committee should be made to the Committee which will receive and consider any evidence offered by the applicant for reconsideration.

ANGLO-DANISH TRADE.

Copenhagen. The Danish Foreign Office has announced that the Anglo-Danish trade conversations have resulted in an understanding, but no details have yet been given.

INDO-JAPANESE TRADE PACT.

Tokio. The Japanese Government, through its London Embassy, has indicated to the British Government its desire for an Indo-Japanese Conference to negotiate a new trade pact with India.

ILLEGAL ORGANISATIONS BANNED.

Paris. The Council of State has rejected an appeal of three Royalist leagues against the decree of February 13th, which dissolved illegal organisations directed against the State.

MUTUAL ASSISTANCE PACT.

Cairo. A treaty of friendship and alliance has just been concluded between Iraq and Saudi Arabia, and provides for mutual assistance in the event of war or revolution.

Adelaide. The wool leaders in South Australia have been promised the State's support for an intensive five year wool publicity campaign.

ABYSSINIAN RETREAT.EMPEROR'S CAR FOUND ABANDONED.

Asmara. Askari troops, who were pursuing the fleeing Abyssinians south of Quorum, found an abandoned American motor car de luxe with the Imperial Crown and Coat-of-Arms enamelled on the doors, indicating that the car was the personal property of the Emperor. It is presumed that during the Abyssinians' hurried flight the car contracted engine defect, since it was drawn up at the side of the roadway.

Further reports state that thousands of Italian workmen are making a motor road to Quorum for the use of motorised troops. Other workmen are being kept busy day and night burying thousands of corpses who were deserted by the Abyssinians in the disorderly flight.

AIRSHIP HINDENBURG.

Rio de Janeiro. Reports received this morning (Tuesday) state that the German airship Hindenberg was over Bahia heading for Cape Verde where she will set her course for Germany on receiving weather reports from the Hamburg Marine Station.

Batavia. The export duty on native rubber has been raised from 33 guilders to 34 per 100 kilograms.

COMMITTEE OF 13 TO MEET AT GENEVA.

London. Mr. Anthony Eden will lead the British delegation at the meeting of the Committee of 13 which has been summoned for Wednesday to receive the report of its Chairman who, with the Secretary General of the League of Nations, was requested to approach the Italian and Abyssinian Governments in order to enable the Committee to bring parties together with a view to the restoration of peace. Another matter upon which the Committee awaits information from the Chairman, Senor Madariaga has reference to the results of the representations made by the Chairman to the Italian Government on the subject of gas warfare. It is presumed that both matters will appear on the agenda of Wednesday's meeting. In regard to the former, newspapers consider that Madariaga will seek to obtain the opinion of the Committee as to whether the invitation to visit Rome in response to the Italian invitation for an exchange of views with the head of the Italian Government should be accepted.

ROYAL ARRANGEMENTS FOR EASTER.

London. Monday. The King will stay during Easter at his private residence Fort Belvedere. Queen Mary will spend the holiday with the Duke and Duchess of York at Windsor. The King, Queen Mary, the Duke and Duchess of York and their children will, it is expected attend a service in the private Chapel on Good Friday and on Easter Sunday. The Duke and Duchess of Kent arrived in Belgrade yesterday on a visit to the Princess Olga, sister of the Duchess.

WAR MEMORIAL.

Ottawa. Monday. The unveiling of the Canadian War Memorial at Vimyridge has been fixed for July 6th. Five liners will be engaged conveying 6,000 Canadians for the ceremony.

INTERNATIONAL SITUATION.

London. Monday. Details of the French reply to Germany's peace proposals, and the constructive plan for submission to the League of Nations which has been approved by the French Cabinet, will be disclosed to the British, Belgian and Italian representatives in Geneva on Tuesday when the Committee of 13 is also meeting for the discussion of means for terminating the Italo-Abyssinian war. On the eve of this discussion the Emperor declares "Our armies are undefeated and will fight until the last Italian aggressor has been repulsed from our territory". The Italian delegate Aloisi is attending the Locarno powers meeting but will not participate in the peace talks. Meanwhile Mussolini intends to occupy as much Abyssinian territory as possible before the negotiations commence.

WILL OF RUDYARD KIPLING.

London. Monday. The late Rudyard Kipling left estate valued at £155,228 with his widow as principal beneficiary for life. The Will directs that income derived from books shall accumulate 21 years from his death and be added to the capital.

PRINCE'S COMING OF AGE.

Coochbehar. Monday. The Governor of Bengal, Sir John Anderson, performed a time-honoured ceremony of investing the Maharajah on his coming of age with ruling powers amid brilliant scenes of oriental splendour. The Maharajah, who was educated at Harrow and Cambridge, received a great ovation from his subjects while high festivities are being held throughout the States.

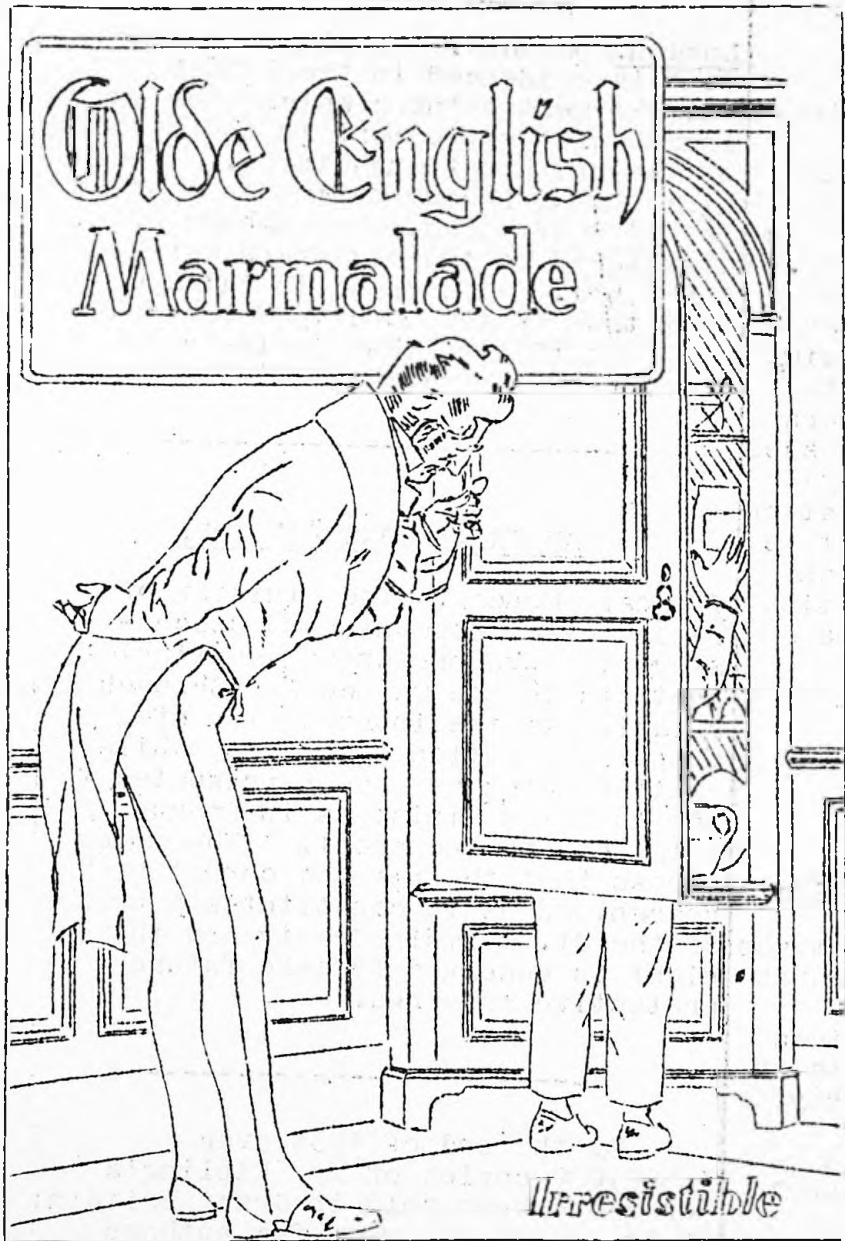

MINERS REFUSE TERMS.

Glamorgan. Monday. Anthracite miners numbering 1,500 have refused to accept the settlement terms agreed to by the owners and the miners' representatives.

AMERICAN DISASTER.

New York. Monday. The death roll is estimated between 500 and 1,000 with thousands injured, from a series of tornadoes which swept the area of the Southern States on Sunday night. The first blast struck Mississippi, Alabama, without warning, reducing towns and villages to ruins, while further storms equally violent, followed, moving across Georgia, North Carolina and South Carolina. At Gainesville, Georgia, a fire broke out among the wreckage and with all telegraph and telephone lines down, the only communication possible was by amateur wireless.

At Tupelo, Mississippi, 100 bodies have already been recovered, and martial law has been proclaimed with 2,000 National Guardsmen on duty with orders to shoot looters on sight. Throughout the Tennessee Valley there is general wreckage, but in view of the vast devastation over the entire countryside, it is impossible at present to gain an approximate idea of the casualties or material damage. Red Cross headquarters in Washington are mobilizing all their resources in the tornado areas.

LOCARNO POWERS TO MEET AT GENEVA.

London. Monday. Representatives of the powers signatory of Locarno other than Germany will have further private exchange of views regarding the last developments of the Rhineland problems when they meet at Geneva on Wednesday.

The French Government had requested that this meeting should take place during this week in Brussels, but Mr. Eden pointed out that it would be preferable to use the opportunity of the Geneva Meeting for such discussions. It is assumed that M. Flandin will be present as the French representative and M. Van Zeeland, the Belgian Prime Minister as the Belgium representative and also a representative from Italy.

SHIPPING.

At noon yesterday the s.s. "Lafonia" was reported to be 670 miles from Stanley.

UNEMPLOYMENT RETURNS.

London. Monday. Continued improvement is evidenced in the latest unemployment returns which show an increase of employment in the majority of the principal industries. The Ministry of Labour estimates that on the 23rd of March, the numbers of unemployed on the registers were 1,881,531. The total is 143,490 less than on the 24th of February, and 272,339 less than at the corresponding date of 1935.

AUSTRIAN CONSCRIPTION.

Vienna. Monday. The Minister of Tugo-Slavia, Roumania and Czecho-Slovakia have presented identical protests to the Chancellor Schuschnigg, relative to the introduction of compulsory national service, while similar notes have been presented to the Austrian Ministers in Prague, Belgrade and Bucharest. The notes stress that the new law cannot be recognised as it constitutes a breach of the St. Germain Treaty and the right is reserved to take future protective measures.

By the end of 1935 over 3,500,000 copies of Mr. Kipling's works had been sold in Great Britain; he is one of the very few authors whose works have never been reprinted in cheap editions.

The age of the earth, according to the Astronomer Royal, is at least 360 million years old.

THE EMPEROR'S LAST APPEAL.

Geneva. Tuesday. A last appeal to the League of Nations to extend to Abyssinia the support to which she has the right, was received by the Secretary-General of the League of Nations from the Abyssinian Minister in Paris on Tuesday, on the eve of meeting of the Committee of 13.

This declaration states that the Italian Government is determined to compel the submission of the Abyssinian nation by brute force, and in spite of indignation of world public opinion to confront the League with the accomplished fact of the moral confusion which has been produced in the world by an aggressor escaping punishment, was already bringing forth disastrous results.

There was much talk nowadays about the indivisibility of peace, but how could collective security exist when all members of the League of Nations neglected or refused to perform their duty by rendering assistance.

The Italian Press is annoyed with the British Foreign Minister, Mr. Eden, for his statements in the House of Commons on aggression, and alleges that he is out of touch with realities.

The newspapers add that Marshal Badoglio's victories justify more sweeping demands than Geneva is likely to accede.

The latest war communique states that the Italians are still advancing in the Quorum region.

The Emperor has issued a proclamation to the whole Abyssinian nation calling up all men capable of military service to go to the front immediately in order to support the army in its resistance to enemy attacks.

STAFF TALKS.

London. Wednesday. It was officially announced yesterday that general Staff Talks between the British, French and Belgium Governments will open in London on the 15th April.

INDUCEMENTS FOR ARMY RECRUITS.

An effort is being made to increase the number of recruits for the Army by the provision of better accommodation, well-planned restaurants, swimming baths and other new features.

Opportunities for sport, with well equipped grounds, are already available for the troops on a far more lavish scale than in civil life.

It is said that the public as a whole has not realised what an admirable institution the Army is.

The annual regimental "At Homes" have been a revelation to parents of how much is done for the soldier.

The mechanisation now taking place will add enormously to the interest of the soldier's life and help to provide him with a trade.

The vocational training centres also teach trades to 3,000 men a year and more than 70% of them get jobs immediately they leave the army.

INTERNATIONAL SITUATION.

Paris. Wednesday. According to the Daily Telegraph correspondent the French European peace plan will not be published before Thursday morning. Its main provisions are expected to provide for an international air force larger than any European power, mutual assistance pacts within the League and the colonisation of territories with protection for native inhabitants.

London diplomatic circles understand that Great Britain and France will suggest that if Italy will call a truce in Abyssinia sanctions will be lifted.

Apart from the fact that France takes a more lenient attitude than Great Britain towards Italy's offences, a clash of views appears inevitable on the German question.

Atlanta, Georgia. Wednesday. Serious floods are menacing areas devastated by yesterday's tornado, and the rivers north of South Carolina have been swollen by twenty-four hours of ceaseless rain, overflowing their banks.

THE ROYAL NAVY.

Attention is drawn to the advantages for boys of service in the Royal Navy.

Conditions of Service. Candidates must be the sons of British-born subjects on both sides. Under normal conditions, Candidates except certain Officers' Stewards and Cooks, and Special Service Seamen, are required to enter for 12 years continuous service, which commences at the age of 18 for Boys entered before that age; if of good character and recommended, they may re-engage to complete time for pension, and at the expiration of 22 years qualifying service they can take their pensions for life.

Seamen Class. Boys are entered between the ages of $15\frac{1}{4}$ and $16\frac{3}{4}$ for training as seamen; they must be of good character, and must have the written consent of parent or guardian on the prescribed form. Candidates must be well educated and fully up to the physical standard laid down. Eye-sight must be perfect.

Stoker Class. These engage for 12 years service from the date of entry. Candidates must be able-bodied young men of very good character. No previous experience is necessary. Age for entry 18 to 25 years.

Further information regarding the above and other classes of Service in the Royal Navy can be obtained at the Colonial Secretary's Office.

THE OVERSEAS .303 POSTAL MATCH.

A Disappointing Result.

Although there were great expectations of the Colony putting up a good score in the Overseas .303 Postal Match, shot off on Saturday the 4th of April, 1936, the result proved disappointing with the total score amounting to 1,055 points, averaging 131.8 per marksman out of a possible 150.

The detailed scores were :

	<u>300</u>	<u>500</u>	<u>600</u>	<u>Total</u>
L. Reive	50	46	44	140
H.H. Sedgwick	47	46	45	138
J.R. Gleadell	44	45	44	133
E.J. McAtasney	42	46	43	131
J.W. Grierson	45	45	41	131
A.I. Fleuret	47	46	38	131
W. Aldridge	46	44	39	129
W. Summers	42	43	37	122
	<u>363</u>	<u>361</u>	<u>331</u>	<u>1055</u>

It will be remembered that the Colony returned a score of 1,111 in the Competition in 1935 but the size of the bulls-eye at all distances and the inner at 300 yards have been reduced since then. Even with this disadvantage, however, the team were hopeful of returning a creditable score.

After days of wind and rain, and waiting for the opportunity Saturday proved to be the first chance afforded for firing off the match and the team selected gathered on the Range together with Major the Honourable M.J. Stewart the Captain, and the two supervising Officers, the Honourable G. Roberts and Captain W.M. Allan.

Firing commenced at 10.30 a.m. and was completed at 12.45 p.m.

A fickle wind at 600 yards rendered accurate marksmanship extremely difficult and consequently the anticipation of a high total was slowly but surely dissipated and when the last round was fired at that distance it was found that the average there had dropped to 41.3

The highest score was that compiled by Mr. L. Reive who at the 300 yards distance put on a possible of 50 points.

His Excellency the Governor who visited the Range shortly after the competition commenced was keenly interested in the match and remained until the end.

TUBERCULOSIS.

During the last few months many cattle in Stanley have been subject to a test for tuberculosis.

There are several methods at present in use, the Ophthalmic Test, wherein a drop of the testing fluid is dropped into the eye, the Subcutaneous Test, wherein larger quantities are injected under the skin giving rise to fever, and lastly, the Double Intradermal Test, which is the one being used in Stanley.

This Intradermal test is considered to be more reliable, more simple in application and less expensive. A small dose of Tuberculin, a substance to be described later, is injected into the hide on one day, 48 hours later a second dose is given into the same spot and the day following the reaction in the skin is examined and measured.

A soft diffuse swelling, somewhat tender and hot to the touch is considered to be positive in contrast to a hard, painless and cool lump, which shows that Tuberculosis is not present in the beast.

As far as is known the soft swelling of a positive reaction is caused as follows. Though the Tuberculosis may not be outwardly visible, if it is present in the animal, it gives off Tuberculin, which stimulates the tissues to manufacture anti-tuberculin, which is present in the circulatory system, and this anti-tuberculin reacts with the tuberculin injected to form the soft swelling at the site of the inoculation.

The injected substance called Tuberculin is a concentrate of the Tuberculosis germs which have been

killed by heat, dried, then made into a solution with glycerine.

The object of making these tests is to eliminate Tuberculosis from the Stanley cattle, thereby ensuring a better and cleaner milk supply. It is through tuberculous infected milk that this disease may be transmitted to human beings especially infants and young children, therefore it is important to guarantee a clean milk supply as it is to protect the water supply.

With this object in view the first step is to eliminate all cattle showing a positive reaction from the herd, and with the mutual help of all cow keepers it should present no real difficulty. The objective will never be gained unless every owner comes forward with his cow or cows for testing. An untested cow is always a possible source of danger, not only to those drinking the milk, but also to the remainder of the herd. However, it is very gratifying to know that so far all owners, who have been approached about the tuberculin testing of their cows have given their full co-operation.

It might be of interest to parents to learn that a similar mild Tuberculin test is advocated for children up to the age of fifteen. A positive reaction in this case means that the child has, or is liable to have, the infection in a mild degree, and any parent possessing this knowledge would be able to exercise special care, more particularly during the winter months, when coughs and colds are so prevalent.

SMUGGLING.

Belfast. Wednesday. The Northern Ireland House of Commons revealed in their estimates that the cost of prevention of smuggling on the Free State border amounted to £80,000 annually.

RADIO PROGRAMME.

Friday's programme will be given this evening at the usual hours.

EASTER HOLIDAY.

London. Wednesday. A record Easter holiday is anticipated with the prospects of fair weather, and the public spending more than ever before. Traffic arrangements have been made on phenomenal scales with motor, motor cycle and cycle factories working overtime to meet the demands for machines. Express trains will be run in duplicate or triplicate. All lines of air services have been augmented. There is a full sporting programme scheduled which will include ten football league matches, seven flat race meetings, a dozen steeple chase meetings, many popular athletic contests and golf club tournaments.

HOLIDAY ARRANGEMENTS.

London. Thursday. All railway companies have made plans for a holiday rush exceeding anything undertaken in past years. Services are augmented and main expresses are running in several parts. Crowded roads are providing the authorities with many problems and in anticipation, a special campaign for road safety was inaugurated last night by a broadcast talk by the Transport Minister. The Automobile Association is arranging for the trailing of banners by aeroplanes with safety slogans to patrol seaside resorts and other centres of attraction.

TOLL OF THE ROAD.

London. Thursday. Road accident figures for last week were 101 killed and 3,532 injured. In the corresponding period of last year 85 were killed and 3,185 injured. The figures for the whole of 1935 show 6,502 killed and 221,726 injured, as compared with 7,343 killed and 231,603 injured in 1934.

Belgrade. Wednesday. Princess Olga, the wife of the Yugo-Slavian Regent and sister of the Duchess of Kent, has given birth to a daughter. The event has been popularly acclaimed.

WAR COUNCIL MEETING.

Rome. Wednesday. "The complete security of the Italian Colonies can only be attained by the total annihilation of the Abyssinian armed forces". This was stated by Sencr Mussolini at a meeting of the Council which was unexpectedly held on Wednesday instead of Saturday as had been originally arranged. "This annihilation is inevitable and it will not be long before it is accomplished". The wonderful victories of the Italian soldiers, especially at Lake Ashangi, over the Emperor's troops who have been trained and equipped by Europeans, has brought Italy nearer to this goal of security for her Colonies, in pursuit of which she had been obliged to resort to arms when the Abyssinians were mobilised.

POISON GAS.

Addis Ababa. Wednesday. The following statement was issued in the capital on Wednesday :- "According to reports received from Quorum Italian aeroplanes have for the last four days incessantly flown over the entire north front and regions beyond, spraying liquid poison gas along the entire lines. The number of victims, especially among the civil population, is very high."

Geneva. Wednesday. A short memorandum concerning the use of poison gas by the Italians has been submitted to the Committee of 13 by the British Foreign Secretary, Mr. Eden. After a prolonged debate the Committee decided to appoint a sub-committee of legal experts who will be entrusted with the task of examining questions whether violations of International Conventions of warfare belong to the competence of the Committee of 13 or of the League Council.

Uniontown, Pennsylvania. A trans-continental air liner crashed en-route from Newark-Columbus, eleven persons being killed and three saved. The victims have not yet been identified.

ITALO-ABYSSINIAN DISPUTE.

New York. Friday. The United States' press generally condemns Mussolini's declaration that the Abyssinian war can only end with the annihilation of the Ethiopian army.

The New York Times on the subject states that the League of Nations cannot, without committing suicide, permit its authority to be so brazenly flouted, nor can Great Britain submit to such rude challenges to her peace policies. The paper adds that the next few days will call for a display of all the wisdom, courage and firmness which European Statesmen possess.

Interviewed at the Ethiopian Legation in London on Thursday, Captain Brophil who is attached to the Ethiopian Medical Corps said that as soon as the rains begin the Abyssinians will hit back, and the only result must be the Italian defeat. Captain Brophil who is returning to Abyssinia within a fortnight declares that short of building roads over mountains the Italians will not get nearer Addis Ababa than 400 miles.

DEATH OF GERMAN AMBASSADOR.

London. Friday. The German Ambassador in London, Von Hoesch, collapsed while dressing and succumbed of heart failure at the German Embassy. Von Hoesch, who was aged 55, was extremely popular in London and in Paris, where he held his previous appointment and held moderate views and was regarded as a strong supporter of the Anglo-German understandings. His Majesty King Edward was immediately informed of the Ambassador's death and personally expressed his sympathy by telephone to the German Embassy, while prominent Statesmen are issuing appreciative tributes to his abilities and charms.

London. The Australian airman, Melrose, left Australia at 0515 on Friday on his solo flight to England. The latest reports indicate that Melrose has made good progress on the first stage of his journey.

Food, No. 9.VITAMINS.

At the beginning of the Century it was thought that a diet was in all respects satisfactory if it contained enough fuel and body-building foods to satisfy the body's requirements. To see whether a diet was adequate, scientists calculated the amount of heat, energy and body-building material that it supplied to the body and they judged whether a diet was sufficient by the results obtained. But certain scientific workers noticed that people who were eating diets that had been pronounced adequate, sometimes fell mysteriously ill and were cured solely by eating a slightly different diet. So they came to the conclusion that fuel and body-building foods and water were not enough, they had to be supplemented by some other, as yet unknown, food factor. In 1912 an English scientist, Sir Frederick Gowland Hopkins, first proved the existence of these unknown substances, which he called "accessory food factors". Since then very much research work has been done on the subject and these food factors have been rechristened Vitamins, which is the name by which we all know them nowadays.

Quite a lot is known about vitamins. They have been distinguished from one another and some are even obtainable in concentrated tablet form. We can now tell, to a very large extent, in what foods the different vitamins are found and what conditions of ill-health are caused through lack of them. The Vitamins about which most is known and which most concern us in choosing a satisfactory diet are Vitamins A, B1, B2 or G, C and D. Lack of these vitamins causes serious illness and an insufficiency of any of them may cause minor ailments and general ill-health, certainly it weakens our resistance to disease. For this reason foods which contain an appreciable amount of vitamins are called protective foods and classed with the foods containing certain essential mineral salts. The chief protective foods are milk, green vegetables, preferably uncooked, and fruits.

Geneva. Monday. The Turkish note relative to the re-fortification of the Dardanelles, was handed to the Powers with the request that the matter should be placed on the agenda of the League of Nations for May next. The note points out that the changed situation by the powers re-arming, renders the Locarno Treaty guarantees unsatisfactory with the Mediterranean position definitely uncertain.

COTTON INDUSTRY IN THE
IRISH FREE STATE.

Dublin. Monday. An important announcement is expected shortly relative to the formation of a Company to be called "The General Textiles Limited" with a capital of £500,000 which is to be formed to develop a cotton industry in the Irish Free State. It is hoped that the plant will produce 47 million square yards of cotton piece-goods annually.

DEATH OF GREEK STATESMAN.

Athens. Monday. The entire Greek nation was stunned on Monday by the news of the sudden death of Premier Demerdzis, who was found dead in his bed by his valet on Monday morning. It is thought that the Premier succumbed to an apoplectic stroke in the course of the night.

Thus Greece has lost three of her leading Statesmen within a few months.

The death of Demerdzis may have important repercussions in the domestic situation, and it is considered that it may eventually lead to the formation of a Coalition Government.

ITALO-ABYSSINIAN DISPUTE.

Paris. Monday. M. Flandin, who is expected to arrive in Paris on Tuesday, will, according to the newspaper "Jour", have important discussions with the Premier and also with the League of Nations Minister, M. Paul Boncour, regarding France's final attitude in the Italo-Abyssinian dispute.

The decision of both the French and the British Governments is eagerly awaited everywhere.

According to London correspondents, Mr. Eden is advocating the tightening up of sanctions, though the general impression appears to be that the British Government will be reluctant to make a decision involving such far-reaching consequences.

GERMANY AND JAPAN.

Paris. Monday. French press reports state that a secret understanding has been reached between Japan and Germany, whereby the latter surrenders all claims to the Marshall and Marianne Islands in return for co-operation in the event of a war with the Soviet.

THE GREAT WAR RECALLED.

London. Monday. Despite unfavourable weather conditions hundreds of Irishmen attended a Hyde Park demonstration protesting against the British Government's refusal to authorise the removal of the remains of Roger Casement to Ireland.

A great number of speakers addressed the crowd, one declaring "Casement is as precious to the Irish as Nurse Cavell is to the British".

THE LATE GERMAN AMBASSADOR.

London. Monday. The drawing room of the German Embassy has been converted into a Chapel for the remains of the late Ambassador, Von Hoesch, and the body will be leaving Dover for Wilhelmshaven by the British destroyer "Scout" on Wednesday.

GOVERNMENT NOTICE.

No.31.

Colonial Secretary's Office,
 Stanley, Falkland Islands.
 14th April, 1936.

With reference to Government Notice No. 35 dated the 11th of March, 1935, on the subject of accounts due by individuals to the Government Hospital, it is hereby notified for general information that a Board appointed by His Excellency the Governor to consider and submit recommendations regarding such accounts has recommended that claims to the total value of £303. 7s. 8d. should be abandoned or remitted on the ground of the poverty of the persons concerned or similar just cause.

His Excellency the Governor has been pleased to approve the recommendation of the Board.

The public are warned that it will not be possible to extend such indulgence to persons with means to pay, and that in future they will be required to pay the cost of their maintenance and treatment in Hospital at the time when the liability is incurred. If outpatients they will be required to settle the very low charges made before leaving the hospital.

By Command,
 (Sgd.) A. I. Fleuret.
 for Colonial Secretary.

London. Adverse weather conditions on Easter Monday caused the attendance at the Zoological Gardens to drop from 95,000 in 1935 to 56,000 this year.

BRITAIN PAYS HOMAGE TO THE LATE GERMAN AMBASSADOR.

London. Tuesday. The body of the late German Ambassador, Baron Von Hoesch, will be borne on a gun carriage from the German Embassy to Victoria Station tomorrow, and detachments of the Royal Horse Guards and of the Grenadier Guards will march in the funeral procession.

Mr. Anthony Eden, the British Foreign Secretary, will be among those following the procession on foot.

A Guard-of-Honour of the Coldstream Guards, complete with their Band and Regimental Colours, will be mounted on the platform at Victoria Station. As the train draws out of the Station the Guard will present arms and the Band will play the German National Anthem.

The funeral of the late Baron Von Hoesch is to take place at Dresden.

THE LOCARNO QUESTION.

London. Tuesday. Questions which are to be addressed to the German Government by the British Government on behalf of the other Locarno powers will be directed to elucidate certain points in Germany's recent peace plan.

STAFF TALKS.

London. Tuesday. No intimation has as yet been received in London of the intention of Italy to be represented at the Staff Talks which, in accordance with undertakings given in the decisions which were reached on March the 19th, will begin tomorrow, Wednesday.

The French and Belgian delegations will be received at the Admiralty by Vice-Admiral Sir W. James, the Deputy Chief of the Naval Staff.

ATTACKS ON MR. EDEN.

Rome. Tuesday. In attacks directed against Mr. Eden in Italian newspapers, an attempt is made to represent as personal, the policy which the Foreign Secretary has consistently followed in regard to the Italo-Abyssinian dispute. This attitude of the Italian newspapers is of course entirely unjustified. Mr. Eden has throughout maintained the closest contact with his Cabinet colleagues, and has had their fullest confidence in every step that has been taken. The House of Commons has from time to time associated itself with the Government's policy as expressed in speeches by Mr. Eden, Lord Cranbourne and other Ministers.

Recent events have in no way changed the main lines of that policy, and in regard to collective action against an aggressor, Great Britain has been prepared, and is still prepared, to pursue financial and economic measures whilst hostilities continue, such measures being taken as far as the League of Nations as a whole agrees upon.

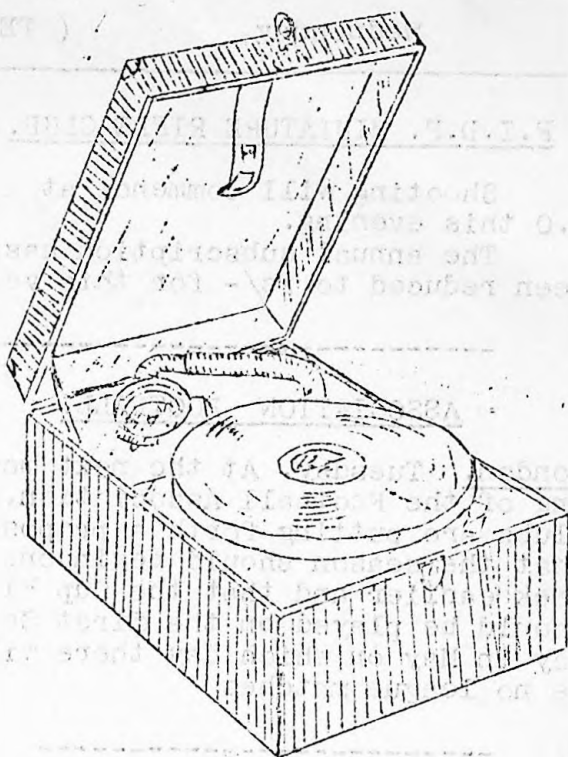

POISON GAS.

London. Tuesday. Newspapers have given prominence to appeals received from authoritative quarters in Abyssinia for anti-gas medicines suitable for treating sufferers from gas burns caused during recent bombing by Italian airmen.

It is now established that for over one month the intensive use of gas in defiance of the 1925 protocol has been resorted to by the Italians involving their victims in terrible suffering.

London. Tuesday. At the next meeting of the Football Association, 25 Clubs are putting forth a proposal that the season should begin one week earlier and that the Cup Final should be played on the first Saturday in May on which day there will be no league matches

WAR NEWS.

Rome. Tuesday. Marshal Badoglio's communique states that the pursuit of fleeing Abyssinians continues in the north, and the report concludes with the announcement that the Italian flag has been hoisted at the Blue Nile headquarters.

It is anticipated in Rome that the capture of Dessie will be announced very shortly and will be followed by the occupation of Harar.

According to the Daily Telegraph correspondent, the British Government is now satisfied that economic sanctions against Italy have proved ineffective, and that collective security can only be obtained by the use of military sanctions by the League of Nations.

It is understood that certain other states are prepared to give their support if Great Britain employs such sanctions, and declare that the choice lies between these sanctions and the admission that the League of Nations has failed to impose its will upon Italy.

Detailed accounts of the Italian air demonstration over Addis Ababa on Tuesday state that bombing planes appeared over the capital at 10.40 in the morning and circled round in great curves, dropping handbills which recounted the victories of the Italian troops and also depicting the extent of the Abyssinian territory now occupied by the Italians.

THE MOUNT EVEREST EXPEDITION.

London. Tuesday. The Daily Telegraph has received a communication from Rutledge who is in command of the Mount Everest Expedition, stating that the entire party has encamped at Kampadzong after a hundred mile march from Gangtok which included the crossing of two 17,000 foot passes, Kongrais and Sebuta.

The party with 300 transport animals are within 90 miles of Mount Everest and are accelerating their plans.

ACTIVITY OF BRITISH SHIPYARDS.

London. Tuesday. Reports for the quarter ended March the 31st, indicate remarkable activity of British shipyards, with 220 vessels totalling in all 842,361 tons in process of building. This figure is 99,275 tons above that for the last quarter, and 286,546 tons above that of a year ago

FAREWELL BANQUET TO LORD AND LADY WILLINGDON.

New Delhi. Tuesday. Leading Indian Statesmen acted as hosts at a farewell banquet to Lord and Lady Willingdon, when 37 Indian Rulers attended and paid tributes to the retiring Viceroy.

Elaborate arrangements have been made for broadcasting the official farewell ceremony on Saturday next, and on all sides evidences are given of the great personal attachment to Lord Willingdon.

FORTIFICATION OF THE DARDANELLES.

The race was won by the German Caracciola, who, driving a Mercedes completed the course in 3 hrs. 49 minutes 20.4 seconds.

FRENCH MINE STRIKE.

Lille. Miners of the Nord department and Pas de Calais have voted for a general strike on May the 1st on a wages issue, and 225,000 miners are stated to be involved.

IRISH DEMONSTRATIONS.

Belfast. Tuesday. Notwithstanding the official ban, an attempt was made to commemorate the death of the 1916 Easter rebels. Hundreds of people barred from entering the Milltown Cemetery knelt on the pavement in prayer but were eventually quietly dispersed by the police.

Republican tricolours which were flying over several buildings were pulled down and destroyed.

In Fermanagh there were baton charges by the police and in Boyle a chief of the I.R.A. urged all Irishmen to fight against England in an imminent war.

AN AMERICAN'S WILL.

London. The Will of the American, Albert Whitin, who died in Paris in 1935, provides generous bequests to Salisbury Cathedral and many institutions connected with art, religion and literature throughout the country. Many people he had never met also benefit under the Will. The estate proved to be worth £350,000.

DEFENCE CO-OPERATION.

Johannesburg. It is understood that the Southern Rhodesian Premier Hughins has discussed the common defence policy with the Union Government representatives with a particularly relative aim to co-operation.

FATAL MOTOR CRASH.

Berlin. Frau Ruth Vonivierter Sheim the daughter of the British Justice Eve, was killed with her husband Lieutenant-Colonel Wirter Sheim of the Imperial Lifeguards in a motor crash in Dahleweitz, when the vehicle crashed into the roadside.

SHIPBUILDING CONTRACT.

Barrow-in-Furness. Wednesday. One of the biggest shipbuilding contracts which has been placed since the war has been awarded to Vickers Armstrong by the P. & O. Company for two sister ships of 24,000 tons each similar to the Strathmore built by the same firm last year.

WILL OF SIR CHARLES CLIFFORD.

London. Wednesday. The Will of Sir Charles Clifford, the late Chairman of the Sheffield Telegraph proved to be £385,653 and after providing for his wife and children it made many bequests to the working people, servants and institutions attached to Sheffield and the University. Sums of money are left to all public and corporation servants employed in the vicinity of his residence.

MR. EDEN DEPARTS.

London. Wednesday. The Foreign Secretary, Mr. Anthony Eden, left London en-route for Geneva this afternoon. Tomorrow (Thursday) Mr Eden will attend the meeting of the Committee of 13, when its Chairman, Madariga, will report on his conversations with Baron Aloisi.

THE ITALO-ABYSSINIAN DISPUTE.

London. Wednesday. The Italian and Abyssinian delegates opened peace negotiations at Geneva on Wednesday but according to the Daily Telegraph correspondent Mussolini is only prepared to suspend the East African hostilities while direct talks are proceeding provided that sanctions are simultaneously lifted. Under all circumstances Mussolini opposes arbitration by the League.

Should the talks fail it is understood that Britain is prepared to go as far as the Committee of 13 can agree in increasing sanctions against Italy, for in the view of the British Ministers there can be no question of relaxation of sanctions until real peace is assured, while at the same time it must not be forgotten that the Committee has already approved of oil sanctions in principle.

It is also revealed that Abyssinia has officially recognised the British efforts up to date, and in expressing her thanks the Ethiopian Government said that the League's failure to give us support was not the fault of Great Britain.

Italy's financial condition was verging on collapse and with the war costing nine million sterling monthly, her position at home greatly discounts her recent victories in East Africa. While France remains uneasy on the sanctions question, Germany holds the view that Great Britain has done her utmost to adhere to the principles but speculates on the future developments now that Italy holds the Lake Tsana position.

MR. MACDONALD UNDERGOES AN OPERATION.

London. Wednesday. It is reported that Mr. Ramsay MacDonald is progressing satisfactorily after a minor operation for which he entered a Nursing Home yesterday.

PEACE CAMPAIGN.

London. Wednesday. Mr. George Lansbury left London to-day for the United States where he will make a speaking tour in connection with a peace campaign.

NATIONAL MEMORIAL TO
KING GEORGE V.

London. Wednesday. The Committees who are considering the proposed schemes for a National memorial to King George V. have now considerably narrowed their field of choice.

A statue will be erected probably on a site on the west side of Parliament Square or on a site to the south-east of Westminster Abbey.

The final decision as to the site will depend on financial considerations, as it is desired that the largest part of the fund should be available for philanthropic purposes.

The proposals for the philanthropic schemes include

- (1) A medical research fund, probably directed principally to the problem of cancer, and also allowing for additional supplies of radium.

- (2) Cottage homes for the aged.

- (3) Hostels for young people, transferred from their homes on account of unemployment.

A sub-committee is to make recommendations on the philanthropic scheme, and will meet again within the next few days.

HALF-MILLION FROM SHIPPING.

Generous bequests to public institutions were made by Mr. William Guthrie Gardiner of Gladstone Place, Stirling, formerly of the Glasgow shipping firm of James Gardiner & Company whose estate is valued at £535,091.

Among these are £16,000 to the Church of Scotland, £10,000 to Glasgow University Court for scientific research and £5,000 to the Glasgow division of the Salvation Army.

London. Wednesday. Conversations between representatives of military, naval and air staffs of Belgium, France and Great Britain were begun in London to-day.

THE "QUEEN MARY'S" INSURANCE.

London. Wednesday. Negotiations have started in the London market for the insurance to cover the Cunard White Star Liner "Queen Mary" when she passes into the Company's service after the completion of her trials.

The amount to be covered for the hull and machinery is £4,800,000.

HIS BULL'S EYE.

William Roux the 14 year old son of a farmer in the Barberton district, Transvaal, went out hunting. The day was fine and his quarry was wild buck.

Seeing what he thought was a fine specimen, he fired. The buck dropped dead - but it turned out to be one of his father's prize bulls.

GREAT BRITAIN'S SACRIFICE.

Geneva. Wednesday. According to a report issued by the League of Nations Secretariat at Geneva, Italy's trade has been practically halved by the measures of economic and financial pressure already enforced by League States in connection with the Italian resort to war in disregard of her covenant.

Great Britain has made the largest sacrifices among League States in remaining faithful to her obligations and accepting the recommendations of the Committee for the application of sanctions.

In February of 1935 Great Britain exported goods to Italy to the value of 1,841,700 gold dollars.

In March Great Britain's exports to Italy had dropped to 82,000 gold dollars.

BUFFALO v TRAIN.

A water buffalo has derailed a train near Fayun, Egypt. The animal was standing between the lines. It was killed after refusing to move as the train approached

7 KILLED IN AIR CRASH.

Milan. Wednesday. A passenger aeroplane flying between Turin and Milan crashed owing to the very stormy weather and all seven persons onboard were killed instantly.

Six of the dead people are Italians and the seventh a German.

BOXING.

Bremen. Wednesday. The former world heavyweight champion, Max Schmeling, left Germany yesterday on board the crack liner "Bremen" bound for New York.

Max Schmeling will start training immediately for his fight with the famous negro boxer Joe Louis.

The match has been arranged for June 17th.

SHARK HAS ITS REVENGE.

Natal. A dead shark has severely bitten a man in Durban, Natal. It had been landed by local fishermen, and the young man, a visitor, was anxious to take a photograph of the shark with its mouth open. So he tried to prop the jaws apart with a stick. The stick slipped and the shark's jaws snapped shut on the man's hand ripping the palm open. The wound was so serious that the man had to be rushed to hospital. The vicious closing of the dead shark's jaws is attributed to a reflex action of its nerves. Experienced fishermen who witnessed the incident are convinced that the shark was dead.

DESSIE CAPTURED.

Rome. Wednesday. Marshal Badoglio to-day sent a short and crisp war communique which simply stated "our troops entered Dessie Wednesday forenoon". The troops met no resistance during their march on Dessie which took nine days; the marching columns received their food supplies, etc., by aerial transport.

PUBLIC WARNING.Rat Poisoning.

Public warning is hereby given that poisoned baits will be put down at the rubbish dump at the east end of Stanley tomorrow morning.

WAR NEWS.

Addis Ababa. Wednesday. A report from the Capital states that despite the Italian claims of great victories thousands of troops are still being dispatched to East Africa. As soon as Easter holidays were over, several transports sailed for the war front, one of them, the "Lombardi", is carrying 2,600 soldiers, 1,500 workmen and ammunition of all descriptions.

"RAMPURA" STILL ASHORE.

Gibraltar. Wednesday. All efforts to refloat the liner "Rampura" have proved fruitless, and salvage work is being rendered very difficult owing to the violence of the storm.

Owing to the extremely valuable nature of the "Rampura's" cargo whose chief component is the rare Chinese art collection, the Governor of Gibraltar is reported to have requested the Spanish authorities to keep a strict guard against robbers and smugglers.

The passengers have been taken off by other ships.

OWL ATTACKS THREE MEN.

New York. A big owl attacked three woodsmen at the door of their shack on Isle Royale near Duluth, Minnesota, causing a serious eye injury to one of them.

The injured man was rushed to hospital and it is revealed that he is in danger of losing his sight.

One of the men, with a blanket over his head and carrying a hatchet, killed the bird. He was badly clawed.

The owl had a wing spread of 54 inches, was 21 inches long and had a tail 10 inches long.

FRENCH PREMIER'S BROADCAST SPEECH.

Paris. Thursday. At a provincial press banquet the French Premier M. Sarraut made a broadcast speech, during which he informed the nations that France was exhausting every possibility of a peaceful solution to her difficulties with Germany, and that she was seeking to find a way through conciliation without having to choose between equally precious friendship. According to the Daily Telegraph M. Sarraut declared that France was seeking equality of rights among nations, treaties freely agreed to, and mutual assistance to safeguard respect for such treaties, which would thus bring about relief to the international armaments burden. Claiming that France had sought peace not so much for herself as for all, including former adversaries, the Premier added that this altruism has kept her attached to the League Covenant, but with the army, navy and airforce equal to any calls to a conflict which might have arisen from the recent violation of the Locarno Pact, France could have replied immediately by the pressure of arms, but instead pacific means had been adopted. Collective security was a national aim, but extreme disappointment might break the faith in this ideal and turn France from the Geneva road some day.

NAVAL RECONSTRUCTION.

London. Thursday. It is understood that the cruisers "Hawkins", "Frobisher" and "Effingham" are being reconstructed and re-armed with increased six-inch anti-aircraft batteries.

ITALIAN ADVANCE.

Rome. Thursday. Marshal Badoglio's communique confirming the occupation of Dessie gives no details states the Daily Telegraph correspondent, but it is based on the earlier reports and it appears that this culminating strategical plan commenced by the capture of Enderta two months ago with the forces covering 100 miles from Quoram which lasted nine days. Speculation is rife as to the next movement as Addis Ababa is only 160 miles distant, but the advance will probably halt as the communication roads from Lake Ashangi are in bad repair. It is understood that General Graziani's offensive has commenced in the Ogaden area while Addis Ababa reports a striking success against the isolated Italian columns to the south-west of Lake Ashangi. Some political circles have been startled by inferences from Mussolini's journal 'Popolo d' Italia' and state that an Italo-German alliance is in prospect.

STEAMSHIP SERVICES THREATENED.

Wellington. Thursday. The Union Steamship Company of New Zealand announces the discontinuance of the Sydney-Wellington-San Francisco service in December next. This decision is due to the heavy losses over a number of years as a result of the competition with the highly subsidised vessels. The Canadian Australasian service between Vancouver, Auckland and Sydney is believed to be similarly threatened.

LONDON MEAT AGREEMENT.

Adelaide. Thursday. Premier Butler referring to the projected London Meat Agreement stated that if the levy is imposed on foreign beef it must be accompanied by restrictions on foreign lamb and mutton, or the Argentine would flood the British market reducing prices to a ruinous level.

ABYSSINIAN RELIEF APPEAL.

London. Thursday. An appeal for funds appears in the press signed by the Duchess of Hamilton, who is Chairman of the Abyssinian Relief Committee. The appeal calls for funds for the purchase of gas masks, medicaments and hospital equipment for despatch to Abyssinia. Large sums have already been subscribed by the British Public as well as in other countries for ambulance work in Abyssinia.

Urgent representations have been received by British Societies requesting further and immediate help in face of the appalling suffering resulting from the intensified gas warfare.

LAWN TENNIS.

Johannesburg. Thursday. Mrs. Allister, the former South African Singles Champion has been nominated for the Wimbledon Championships.

The Melbury Hard Courts Tournament. Miss McOstrich of Ireland retired when leading at matchpoint, thus allowing Miss Hoahing of Hong Kong to enter the semi-finals.

COMMERCIAL FLIGHT.

Heston. Thursday. The Hon. F. P. Tollemache, the 20-year old daughter of Lord Tollemache, left Heston to-day as a co-pilot on a 30,000 mile business trip to Egypt, Palestine, Uganda, Rhodesia, Nairobi etc.

NEW FIGHTING PLANES.

Melbourne. Thursday. Orders have been placed with British firms for one hundred and sixty fighting aeroplanes of various types. The value of the contract is stated to be one million sixty-seven thousand pounds.

AMERICAN CITIZENSHIP.

Washington. Thursday. The State department is increasing its staff owing to the overwhelming rush for American Citizenship.

It is thought in political circles that this is due to the unrest in Europe.

UNEMPLOYED DEMONSTRATIONS.

Warsaw. Thursday. An unemployed procession, numbering over 20,000, attacked the police at Lenenberg, who had to resort to the use of revolvers and tear-gas bombs in storming the attacker's barricades which consisted of overturned tram-cars.

It is understood that 20 people were killed and over 120 injured. A state of alarm has been declared.

London. Thursday. The British Government has now replied to the recent Turkish communication regarding demilitarised zones. An Aide-Memoire received at the Foreign Office on April the 11th, expressed the desire of the Turkish Government to begin discussions with the object of agreed revision, in the light of existing conditions, to the Convention signed at Lausanne in July, 1923, relating to the regime of the Straits. In the British reply note is taken of the honourable and correct procedure adopted by the Turkish Government.

STAMP COLLECTING.

1461- E. 22nd. Ave.,
Vancouver, B.C.
Canada.
3/2/36.

To the Editor,
'Penguin'.

Dear Sir:

Would you be kind enough to help me locate through the medium of your paper some people who are very interested in collecting stamps.

I can supply in exchange Canada, India, Australia, New Zealand, and many other countries (Foreign too) but am mainly interested in Great Britain and Colonies.

I have a number of boys interested, and I will be glad to receive five of each kind (value) and will return stamps to the same value according to Stanley Gibbon's Catalogue. I am greatly in need of Jubilee Stamps.

Thanking you in
anticipation,
Yours truly,

(Sgd.) N. McMILLAN.

The following is published with all due acknowledgment to the "African World", of January 18th, 1936.

GOVERNOR AS PANTOMIME PRODUCER.

Sir Arnold Hodson's pantomime, "The Downfall of Zachariah Fee," was staged with great success at the Palladium, Accra, during December. After a dress rehearsal, which was witnessed by 800 school children, the pantomime was produced on December 14, when His Excellency was present with a party of guests, and repeat performances were given on the 16th and 18th. In addition to writing the play, Sir Arnold personally supervised every detail of the production.

It may be recalled that Sir Arnold Hodson, apart from his distinguished record as an administrator, has long been known as a writer of marked ability. His experiences in Abyssinia and Somaliland, where his early career was passed, were recorded in three successful books, "Trekking the Great Thirst," "Seven Years in

Southern Abyssinia," and "Where Lion Reign." He is also the author of a valuable work on the Galla language.

OCCUPATION OF DESSIE.

Rome. Thursday. Marshal Badoglio's communique mentions that there is no further advance but details the features of the Dessie occupation which was only made possible by the maintaining of food supplies to the column under General Birolo by squadrons of aeroplanes. It is understood that General Graziani's attack on Ras Nasibu's army south of Harrar has been delayed by bad weather.

GERMAN COMMENTS ON M. SARRAUT'S BROADCAST SPEECH.

Berlin. Thursday. The German press, replying to M. Sarraut's broadcast speech, makes a renewed attack on the French policy, seizing on the French statement "nothing is more wrong than the suggestion that our army is inferior to that of Germany" and asks why then this talk of security.

It alleges that the so called French security policy is aimed at European control, thereby enabling France to intervene whenever it suits her. On M. Sarraut's advocacy of the collective system it is asked "would France who is now opposing sanctions against Italy, hesitate for one moment if it was a question of applying sanctions against Germany."

London. Thursday. The Chancellor's budget plans for Tuesday will not be revealed to his Cabinet colleagues until Monday, and this strengthens the impression that there will be no drastic modification of the present taxation basis. The demands of the increased defence estimates render tax remission impossible, but the general revival of industrial prosperity will probably enable the Chancellor to meet the heavier commitments from the increasing revenue.

THE BOMBING OF THE BRITISH
RED-CROSS UNIT.

London. Friday. Correspondence between the Governments of the United Kingdom and Italy regarding the bombing of the British Red-Cross unit by Italian Aeroplanes, is published as a White Paper, and comprises

- (1) An Italian Aide-Memoire with a covering letter from Signor Suvich to the British Ambassador, Sir Eric Drummond.
- (2) A note in reply to the letter which Sir Eric Drummond sent on April 10th.

The Aide-Memoire is based on reports from Marshal Badoglio and seeks to identify the bombed ambulance unit in question with an encampment from which Italian aeroplanes were fired on by machine guns on March the 3rd and 4th, after which dates the Italians admit that they proceeded to bombard what they considered a fortified encampment.

It is claimed that the dense smoke which arose from the Camp after the bombardment confirmed the suspected existence of ammunition dumps in the Camp.

The British note states that His Majesty's Government, after carefully considering the above statements and comparing them with the reports furnished by the medical officer in charge of the British Ambulance Unit, are unable to accept the Italian version of the facts as to having any relation to what actually occurred.

The note continues to say that warnings of the presence of the British Ambulance unit, and also of its itinerary on the northern front, were communicated to the Italian authorities in advance. The note also repeats the account furnished by Dr. Melly of the deliberate bombing of his Red-Cross lorries on March 3rd and of the bombing of the Camp on March 4th. On the second occasion 4 patients were killed and several wounded, such serious damage was done to materials of the Ambulance that the unit had to be withdrawn for reorganisation and re-equipment. The note rejects the attempt of the Italian Government to justify the attacks under Article 7 of the Red-Cross Convention, firstly because the facts put forward in

justification of the attacks are incorrect - and the Italian Government, it is emphasised, do not dispute the attacks - and secondly that even if they were correct they would not in the view of His Majesty's Government constitute any valid legal defence for the action of the Italian Airforce.

The note makes the request for categorical assurance that clear and definite instructions will be issued to the Italian military authorities in Ethiopia to prevent a repetition of the attacks on the British Red-Cross units, and in conclusion the right of His Majesty's Government to claim at an appropriate time and in an appropriate manner, compensation for the heavy material losses suffered by the British Red-Cross Service in Ethiopia

BRITISH SHIPPING.

London. Friday. Following the discussions between the Dominions' representatives and the Board of Trade relative to the subsidisation of British shipping in the Pacific, further investigations are being carried out by the Governments concerned. Among the proposals under review are direct and indirect subsidies, Dominions' goods to be carried by British ships only and the Governments' aid for the building of new and faster vessels.

"RAMPURA" UNDAMAGED.

London. Friday. Divers who have been examining the hull of the P. & O. Liner "Rampura" which was refloated late last night after being aground on a sandy bottom in Gibraltar Bay since last Tuesday, have found that no damage has been done and the liner resumed her voyage this evening with her cargo of Chinese art treasures homeward bound from the Exhibition at Burlington House, London.

Ottawa. The trade figures for the fiscal year ending 31st March show the exports were 756½ million dollars and the imports 563 million dollars.

Food No. 10.Vitamin A.

There is a definite relationship between the amount of Vitamin A, formed in green leaves and the intensity of the sunlight. During winter, leaves do not form as much Vitamin A, and, therefore, animals feeding on them do not obtain as much; thus the Vitamin A content of milk varies during the summer and the winter though there may be an equal amount of cream. This being so, it seems that it will be very difficult for us to obtain an adequate amount of Vitamin A in the Falkland Islands where the hours of sunlight are so few: but it is very necessary for health that we should take enough of this vitamin as it has an influence on the eye, and through lack of it various eye diseases occur; It is also essential for growth, hence the importance of giving it to children, and finally, it prevents many kinds of infections, especially those of the eye, ear and nose. A supply of the vitamin is more necessary during the winter when there is little sun, and that is just the time when the ordinary sources of supply fail us. Fortunately, however, cod liver oil and halibut oil, the chief sources of vitamin A are available both winter and summer.

Vitamin A is found in both animal and vegetable foods, but the animals obtain their supply from vegetable foods which they themselves eat. Green plants are the primary source of Vitamin A in the livers of cod and other fish. Minute green plants in the sea form the food of tiny animals which are eaten by small fish, which in their turn, are eaten by larger fish such as cod, or by sea birds. Any excess of Vitamin A is stored in the body in the liver, thus the richest animal source of Vitamin A is in the livers of animals and birds. When the Newfoundland fishermen suffer from night blindness, which they often do through inadequate diet, they kill sea gulls and eat their livers which effect a cure in twelve hours or so.

There is also a definite relationship between the colour of leaves and the amount of Vitamin A that they contain. The white hearts of

cabbage and lettuce do not contain Vitamin A, but the green leaves do. The leaves of spinach contain most Vitamin D because they are of such a vivid green colour. Roots with yellow colouring matter in them, such as carrots, swedes and turnips, also contain Vitamin A.

As the Vitamin A in milk and butter is due to the green grass on which the cow feeds, dairy fats are only good sources of Vitamin A when the cow is at pasture and there is plenty of sun. The amount of Vitamin A in milk is greatly increased if the cow is given cod liver oil. Animal fats, except lard, contain Vitamin A, if the animals are fed on green stuff, but vegetable fats do not, hence ordinary margarine, which is made from vegetable oils, does not contain any Vitamin A. Certain manufacturers however, realizing the importance of Vitamin A and D., now prepare a margarine which equals the best summer butter in vitamin content. In a place like the Falkland Islands where we have so little sunlight, such a brand would be of the greatest value.

Egg yolk is usually a very good source of Vitamin A; but here, in winter when the hens cannot get green food, eggs are practically useless as a source of Vitamin A. If, however, the hens are given cod liver oil, not only does their health benefit but their eggs are a more valuable source of food to us. Another way of ensuring the Vitamin A content of our eggs is to germinate some of their grain and feed them with the sprouts.

LAND RECLAIMING SCHEME.

Amsterdam. Saturday. Work is shortly beginning on a scheme to reclaim 600,000 acres of the Zuider Zee at a cost of 126 million Dutch florins. It is hoped to complete the work by 1951. The first reclamation scheme was completed in 1930 and the region is now fertile land.

London. Saturday. The War Office is considering the acquisition of Canvey Island in connection with the outer Thames Estuary defence works.

dependent on his becoming Champion.

SCHOOLBOYS' TRAGIC HOLIDAY.

Frieberg. Saturday. During a fierce snowstorm which had been raging for over 30 hours, a party of twenty-seven London schoolboys who were on a walking tour, lost their way in the Black Forest.

When they were rescued late on Friday night five of the boys (aged from 12 to 15 years) were so exhausted that they died soon after reaching safety.

The young schoolmaster, Kenneth Keast, who was in charge of the party, had carried the most exhausted boys in turn, sometimes struggling with his load through 3 feet of soft snow.

German newspapers have expressed their sympathy with the parents and also with England saying " They have lost five sons who came to our country as cheerful guests".

WAR NEWS.

London. Saturday. The Daily Telegraph reviewing the outcome of the Geneva discussions, says that the League of Nations' efforts to stop the war by conciliation, have failed for precisely the same reason as its protracted efforts to prevent war starting.

Further important movements of Italian troops have already begun and it is anticipated in Rome that there will be early news regarding the capture of Harrar.

A report from Addis Ababa states that Italian aeroplanes carried out a propaganda raid over the Capital dropping smoke bombs and thereby producing the Italian national colours.

It was further reported from Addis Ababa that Ethiopian army chiefs held a war council at the Imperial Palace and although no communique was issued, it is felt that the situation is not hopeless.

The road from Dessie has been heavily fortified against an Italian advance on the Capital.

London. Saturday. The Turkish Ambassador in London denies that Turkish troops have re-occupied demilitarised zones of the Dardanelles.

GERMAN AEROPLANE CRASH.

Berne. Saturday. A German 'Junker' Bomber, which was apparently on a mysterious mission, crashed near Oryin, after ignoring wireless signals from frontier stations.

Three of the occupants, who were in military uniform, were killed.

The two survivors who are not seriously injured, refused to give any information to the authorities regarding the ultimate destination of the machine.

ARRIVAL OF NEW VICEROY.

Bombay. Saturday. The retiring Viceroy, Lord Willingdon and his successor Lord Linlithgow, met at Government House after the City had accorded an enthusiastic welcome to the new Viceroy.

To commemorate the silver wedding of Lord and Lady Linlithgow and also their arrival in India, the new Viceroy supplied at his own expense food for several thousand poor people.

ARABS VERSUS JEWS.

Jerusalem. Sunday. Several people were reported killed and also a great number injured in a clash between Arabs and Jews. Police were rushed to the spot to restore order and were obliged to charge the crowd with batons.

The occasion of the incident was the funeral of two Arabs who were murdered on Thursday.

On Wednesday a Jew was found murdered and the Arabs allege that the murder of the two Arabs was revenge for the murder of the Jew.

FURTHER MOBILISATION IN ETHIOPIA.

Addis Ababa. Late on Saturday afternoon an immense public meeting was held on the racecourse, when all inhabitants of Addis Ababa capable of bearing arms were called on to join the colours immediately.

Over 5000 volunteers responded.

WAR NEWS.

Geneva. Senor de Madariaga reported to the League Committee of 13 that all efforts to start peace talks between Italy and Abyssinia had met with failure, and he revealed that Italy demanded that peace negotiations must recognise her conquests. His failure was reported to the League Council on Monday.

The prospect of fresh sanctions against Italy not being continued until after the French elections seems to be eliminated.

The Emperor of Abyssinia has made another appeal to the League of Nations to stop Italy's invasion.

Rome. It is reported that Italian aeroplanes will occupy Addis Ababa on Tuesday, descending to the ground and maintaining the position until the arrival of lorry loads of troops. Tuesday has been decided on for the entry into Addis Ababa as it is the anniversary of the foundation of Rome.

General Graziani reported that he has begun the advance on Harrar from the south while another column is reported to be advancing southwards from Dessie.

Addis Ababa. Heavy rains are reported to be holding up the Italian advance in the south where Ras Nasibu is feverishly constructing "Hindenburg Line" fortifications.

Paris. General satisfaction is expressed in newspapers of the agreement that Paul Boncour and Mr. Eden should temporise until May the 11th when they believe the Italians will be in occupation of Addis Ababa. It is considered that France has obtained the main objectives of Franco-British co-operation and is holding open the door to Italy.

WAR NEWS.

Rome. The official bulletin "Onen-gero" which was published on Sunday night states that the Libian division under General Nasi attacked on April the 14th the Abyssinian forces commanded by Dedshiatch Abbebe Damtu and Maconnel Endelstchu which were utterly defeated. The Abyssinians had the advantage of the familiarity of the territory and had placed machine guns in all caves and ravines offering stubborn resistance. The Italian, Libian and Somali troops were continuously accompanied and supported by aeroplanes, and after two and a half days fighting the Abyssinians were crushingly defeated. Towards mid-day on Saturday the Italian troops continued their march across the battlefield and towards the main goal. The Italian losses are listed at ten officers dead or wounded, three airmen wounded, two planes destroyed and several hundred troops wounded. Several thousand Abyssinians are reported to have been killed and thousands of rifles and dozens of machine guns were left behind when the Abyssinians retreated.

Dessie. General Graziani's Ogaden troops inflicted a crushing defeat on the right wing of Ras Nasibu's army on Saturday, this army being the only one hitherto not beaten. The way is now free for the march on Harrar. On the morning of April the 15th, native troops attacked an entrenched Abyssinian column at Gianagabo Fort, and the ensuing battle was one of the most fierce fought in the whole war.

Rome. Swiftly advancing Italian forces were reported to have captured Ankober which is 80 miles from Addis Ababa. The greatest alarm prevails in the Capital and many people have fled. All available men and boys have been called up to march out in an attempt to check the Italian advance. Owing to the extreme rapidity of the advance it is now considered that an early capture of the Capital is imminent. It is stated that the Crown Prince has reformed his army and is making a last desperate stand.

MR. BALDWIN'S SPEECH.

London. Premier Baldwin's speech in which he appealed to Herr Hitler to "lift the shadow of fear from Europe" has been prominently reported in foreign newspapers.

France is pleased with the speech says the press as it relieves the fears that relations between France and Great Britain had become critical. The general assumption states the Daily Telegraph correspondent, is that sanctions will now sleep. In German newspapers the speech is described as "resigned" "pessimistic" and an admission that the League of Nations has failed.

The Italian press criticises the speech as leaving Britain's foreign policy as nebulous as ever. One Italian newspaper states that Mr. Baldwin now admits the failure of collective security and of sanctions.

MINERS TRAPPED.

Nova Scotia. Two hundred miners are working feverishly to rescue three men who are entombed in the Moose River Gold Mine.

Hope had been abandoned when tappings were heard, indicating that the trapped men were still alive.

Reports state that the water is rising round the entombed men and there is now the danger of them being drowned.

The use of explosives has been abandoned owing to the danger of the falling rock crushing the men, and the rescue party are now using diamond drills to get through the rocks.

One small hole has been made through which liquid food has been fed to the men; their wives were also able to speak to them, but the men do not want to speak too much as they are very weak. A later report states that one of the entombed men has since died. The rescue operations are being personally supervised by the Premier of Nova Scotia.

SATURDAY'S WEDDING.

A very dainty and picturesque wedding was solemnized in the Cathedral by the Rev. Dr. R. T. Wade on Saturday the 18th of April between Miss D. M. Atkins and Mr. C. A. I. Fearon.

The Bride, so well known and highly esteemed by all Loudspeaker enthusiasts, is the fourth daughter of Mr. & Mrs. R. D. Atkins of Stanley, and the Bridegroom is the youngest son of the late Mr. & Mrs. F. B. Fearon of Panama, Central America.

Looking radiantly happy, the Bride was charmingly arrayed in a frock of heavy silk with silver flowered pattern, silver halo and veil, and carried an exquisite and bouquet of chrysanthemums, roses and ferns kindly given by Mrs. J. Ryan and artistically arranged by Mrs. J. F. Summers, and was accompanied by her sister Phyllis (no less charming) dressed in a frock of pink silk net and her wee neices Heather and Una Sedgwick also dressed in pink silk net, pink shoes and chic hats, complete with magnificent bouquets.

The Bridegroom was accompanied by Mr. L. A. Sedgwick.

Upon arrival at the Cathedral both parties were subject to a fierce attack from camera-men, or I should say camera-ladies, who resumed their activities with even more gusto after the ceremony.

The weather clerk being on his very best behaviour was responsible for the large gathering of interested spectators whom we feel sure never before witnessed a prettier spectacle, and one cannot but recall the slogan "Happy is the Bride the sun shines upon".

After the ceremony the party drove to Mr. & Mrs. L. A. Sedgwick's house, where a very enjoyable reception was held and the many friends toasted the health of the Bride and Bridegroom.

Mr. J. F. Summers, who gave the Bride away, was also responsible for the catering which included a skilfully decorated cake.

In conclusion we join our many readers in wishing the Bride and Bridegroom all happiness in the future.

EXTRACTS FROM MR. CHAMBERLAIN'S BUDGET SPEECH.

London. Tuesday. In the House of Commons this afternoon the Chancellor of the Exchequer, Mr. Neville Chamberlain, opened his fifth budget. All parts of the House were crowded.

In a speech which lasted 87 minutes, he reviewed the results of the last financial year which showed, he claimed, remarkable buoyancy in revenue. He estimated that the total expenditure for the present year including £25,600,000 for supplementary estimates would be £797,897,000, and he announced his proposals for obtaining the new revenue to meet this increased expenditure. These included the raising of the standard rate of income tax by 3d., the increase of tea duty by 2d., and the transfer from the road fund of the balance at the end of last year of £5,250,000.

At the same time the Chancellor had made concessions to tax payers at lower income levels by increased allowances. Mr. Chamberlain stated that the Government had decided to continue the duties on key industries for a period of 10 years, and he forecast resort to borrowing to meet part of the increased cost of the defence services.

In reviewing the past year the Chancellor submitted that despite supplementary votes of nearly £22,000,000, they would finish the year with a true surplus.

The final surplus, after allowing amounts available within fixed debt charge for debt redemption, was £2,941,000 - a really wonderful demonstration of the buoyancy of the revenue.

On the revenue side customs and excise yielded £303,342,000. This was in excess of the estimated revenue by £8,500,000, and of the previous year's yield an excess of £13,750,000.

Inland revenue yielded £404,899,000 or £13,500,000 more than the actual estimate.

Death duties gave £88,000,000, the highest revenue ever obtained from death duties. A large amount was to be ascribed not to exceptional receipts from large estates, but rather to the general rise in capital values which itself was the result of the growth of confidence.

Regarding the National Debt, Mr. Chamberlain said that taking all factors into account, it showed a reduction during the year of £4,500,000 and the floating debt was reduced by £51,250,000. The exchange equalisation account continued to show a profit.

The Chancellor said that the fixed debt charge had remained during the last three years at £224,000,000 - during which period he had been able out of savings within that charge to make available for debt reduction £32,500,000 - and as much as he would like to increase the provision for redemption of debt, he did not feel justified in doing so.

The Estimates for supply services already published provided £378,746,000 for Civil departments and £158,251,000 for defence services, a total of £536,997,000. Mr. Chamberlain announced that he had decided to set aside a margin for supplementary estimates for defence services of £20,000,000 and for grants to public assistance of £5,600,000.

This provision for supplementaries brought the total for the supply services to £562,597,000, and with £224,000,000 for fixed debt charge and £11,300,000 for other consolidated fund services, brought the estimated expenditure for the current year to a total of £797,897,000.

In estimating the revenue for 1936 Mr. Chamberlain said that he anticipated a considerable upward movement in customs and excise and he was budgeting for a substantial increase in nearly all items, with total estimates on the existing basis of taxation of £314,000,000, or £105,000,000 more than the actual of last year. From inland revenue he also expected substantial increases - £10,000,000 from income tax and £3,500,000 from surtax - .

He put down £89,000,000 as the yield from death duties and £27,000,000 from stamp duties, which would make with other items, a total for inland revenue of £420,000,000. With the Post Office contribution of £10,750,000 the total estimated revenue on the existing basis of taxation would be £776,606,000, leaving him a deficit of £21,291,000.

MR. EDEN QUESTIONED.

London. Wednesday. The Foreign Secretary, Mr. Anthony Eden, was questioned in the House of Commons this afternoon regarding the violations of war by both belligerents in East Africa. Mr. Eden recounted the action taken by the League of Nations in this matter and in particular to efforts made to obtain additional information which would enable the Committee of Thirteen to decide what further steps it might appear proper to take.

Mr. Eden reminded the House that the Committee had already, in connection with the alleged use of poison gas, expressed to the Italian Government its opinion that the use of poison gasses would not be justified as punishment for the alleged atrocities of an adversary.

When asked to say whether the allegations of both sides were well founded, Mr. Eden said that it must be a matter of opinion whether documentary or other evidence so far available was sufficient to establish facts. Clearly in such cases it was necessary to be extremely careful and to be absolutely certain as to the validity of the source of information. At the same time important distinctions would have to be drawn between individual acts of barbarism if they were proved and actions which, should they be established, would involve responsibility of High Command on either side. In the course of his reply to one of many questions on the conduct of the war in Abyssinia, Mr. Eden said that so far as he was aware everything possible had been done by the Ethiopian Government to provide adequate protection in the case of need for British Ambulance Units serving with the Ethiopian forces.

Mr. Eden was also asked what steps the League of Nations proposed to take regarding the Italo-Abyssinian dispute. He recalled the terms of the resolution of the Committee of Thirteen on April 20th, which set on record that the war was continuing under conditions which had been declared contrary to the Covenant and which involved the execution of obligations laid upon members of the League in such a case by the Covenant.

In referring to reports of experts on the application of Sanctions, Mr. Eden commented upon the information available which shewed that the effect of the existing Sanctions was becoming increasingly severe, and added that it had been arranged for the Committee of eighteen to meet at a date close to that of the next Council Meeting which was on May the 11th.

BEATING THE BULLET.

The following is published with all due acknowledgment to the N.R.A. Journal.

Some years ago a well-known rifle shot, who was also an excellent after dinner speaker, used to tell, with great gusto, the story of two niggers who were disturbed when robbing a hen roost and shot at by the irate proprietor. When the darkies finally reached safety, one said, "Say, Rastus, did yo' hear dat bullet?" to which Rastus replied, "Ah sure did! Once when it passed me and once when I passed it."

On one occasion an inquiring youngster tackled the speaker privately, and asked him how fast the nigger would have had to run, to which the reply was: "Faster than a thousand feet a second, certainly, and that's real running, but you never know what you can do till you try".

REFORM OF THE LEAGUE OF NATIONS
INEVITABLE.

Berlin. Wednesday. A press article obviously inspired by the German Foreign Office, declares that the reform of the League of Nations is inevitable now that it has failed to achieve reconciliation between Italy and Abyssinia with the alternative that it must cease to exist as a factor in world policy. Paris is pessimistic over the League's future, while Rome is jubilant at the debacle. Denmark looks to Great Britain to save the League but Tokio's diplomatic circles envisage the creation of a new system of regional security pacts in Europe.

BUDGET DEBATE RESUMED.

London. Wednesday. When the debate on the budget resolution was resumed in the House of Commons this evening, the criticism of the Labour opposition was voiced by Mr. Pethick Lawrence who said that he doubted whether in peace time any budget statement so sluggishly in its future outlook had ever been presented. Additional taxes were being imposed despite the natural increase of revenue of £30,000,000 in the past year, and of £20,000,000 in the Chancellor's anticipation for the present year.

THE SILVER KING £1000 TOURNAMENT.

Lacey of Berkshire headed the qualif-
iers with 133 for 36 holes, the
lowest score ever returned on an
inland course during a first-class
competition, and one stroke better
than Bobby Jones' 1926 Sunningdale
figures.

HIAWATHA, FLEET OF FOOT.

With reference to the article published in yesterday's Issue under the heading "Beating the Bullet", the following is also taken from the N.R.A. Journal, which is a similar problem, but one requiring less speed from the runner, and is provided by Professor Sir George Greenhill, in his notes on Dynamics. He asks :- "Determine how fast Hiawatha can run from the following data :-

Strong of arm was Hiawatha:

He could shoot ten arrows upward

And the tenth had left the bow-string

Ere the first to earth had fallen.

Swift of foot was Hiawatha:

He could shoot an arrow from him

And run forward with such swiftness

That the arrow fell behind him.

-Longfellow."

The answer appears in the KYNOCHE JOURNAL for October-December, 1906. Neglecting the mathematics, though they are quite simple, on the supposition that Hiawatha could shoot one arrow a second, the arrows must have been nine seconds in the air and the velocity 144 feet a second. That is the first piece of information necessary for the complete solution of Sir George Greenhill's problem.

Working with that velocity, and supposing that Hiawatha would shoot his arrow at an angle of 45 degrees, it would fly at about seventy miles an hour, and would cover nearly a furlong. This means that one of our crack yard runners over 220 yards would have to be about on the 145 yards mark to beat the arrow and finish level with Hiawatha, who started, of course, with the arrow, at scratch.

It is safe to assume that the only possible competitor for Hiawatha in such a race would be the hen-roost robbing nigger, whose feats have already been recorded.

London. The Lord Mayor, Sir Percy Vincent, has announced his acceptance of the Vancouver Mayoral invitation to visit that City in August on the occasion of the Jubilee Charter Celebrations.

B O X I N G.

London. Thursday. Jack Peterson successfully retained his titles tonight in his fight with Jock McAvoy at Earl's Court Stadium.

The fight was over 15 rounds at the end of which the Referee had no hesitation in declaring Peterson the winner.

By winning this contest Jack Peterson receives £4,600.

New York. Thursday. The British featherweight, Crowley, outpointed Gillett of New York in an eight round contest.

The British lightweight, Snow, beat Villa of Brookland on a technical knockout in the third round.

ANNIVERSARY OF
SHAKESPEARE'S BIRTHDAY.

Stratford-on-Avon. Thursday. Shakespeare's Birthday festival opened with favourable weather conditions, and the 1935 report reveals that the sale of tickets brought a surplus of £4,123.

MR. LANSBURY'S PEACE CAMPAIGN.

New York. Thursday. In inaugurating his peace campaign with Mrs. Roosevelt, Mr. Lansbury, the British Member of Parliament, urged all Christians to demand an entirely new League based on equal rights for all peoples, but not the right to fortify and kill one another.

ARABS VERSUS JEWS.

Jerusalem. Thursday. Plans for the establishment of a Legislative Council have been indefinitely postponed owing to the Arab-Jewish clashes.

The situation remains unchanged and the High Commissioner in Palestine, Sir Arthur Waichope, has issued a Proclamation stressing the Government's determination to maintain law and order.

TRAPPED MINERS RESCUEDAT LAST.

Moose River. Thursday. Rescuers have reached the entombed men Robertson and Scalding who were lying on a rocky ledge just above the level of the encroaching water with their dead companion Magill beside them.

Both were suffering from intense physical pain and exhaustion which necessitated the use of drugs before they could be moved.

The announcement was broadcast by the Canadian Premier from Ottawa and the greatest joy was shewn throughout the Dominions when the ten days' labour was rewarded and the survivors brought to the surface.

It is thought that the two men will recover quickly from their ordeal.

MANDATED TERRITORIES.

London. Thursday. The Prime Minister, Mr. Stanley Baldwin, was asked in the House of Commons to-day whether the Dominions had been consulted regarding the Government's policy respecting Mandated Territories, and whether the Dominions had approved of this policy, also whether they approved of the transfer of some of these Mandated Territories.

Mr. Baldwin replied that the question indicated a misapprehension. The Government frequently stated that they had not and were not considering any transfer at all Dar-es-Salaam. Considerable anxiety has been caused in the Tanganyika Mandated Territory by the Government's reluctance to make a statement relative to its future.

Extreme confidence is displayed by the German settlers as they feel certain that their former Colony will be ultimately restored. This has resulted in many important interests suspending operations, and the general slowing-up of development, particularly in the gold mining areas. Farmers are restive and the Indian community apprehensive with the latter extending an appeal to Delhi on the subject.

WAR NEWS.

Rome. Thursday. Marshal Badoglio's communique announces that the early rains are hindering General Graziani's advance in the South, but the main assault on Sasabaneh is commencing shortly.

London. Thursday. When answering questions in the House of Commons Lord Cranborne said that the Italian allegations of the use of dum-dum bullets by the Abyssinian forces was being dealt with by the League of Nations.

The suggestions about the supplies of dum-dum bullets by British Firms either directly or indirectly to Ethiopia for military purposes had been fully investigated and found to be entirely baseless.

THE BUDGET.

London. Thursday. Mr. Winston Churchill, intervened this afternoon in the resumed House of Commons' debate of the budget resolution. He warmly commented Mr. Neville Chamberlain on his stewardship of the national finances since 1932.

He went on, however, to express misgivings as to the adequacy of provisions for rearmaments. He recalled his repeated statements on the rate of military preparations in Germany which he said were based on information from sources which he could not divulge, but he had checked it from a great many other sources and he maintained in good faith the approximate accuracy of the figures. It was acknowledged and was formidable enough that the expenditure of the German Government between March 1933 and June 1935 above previous level of the budget expenditure was £1000,000,000, but other factors suggested that this figure was far below the actual facts. Therefore he concluded he was justified in his startling statement that £800,000,000 was spent by Germany in 1935 alone on warlike preparations, and he challenged the Chancellor to contradict these figures when he winds up the debate tonight.

WEST FALKLAND NEWS.

Tragic death at Fox Bay.

We regret to record the death of Donald McKay, Jnr., aged 20, the only son of Mr. & Mrs. D. McKay of Mount Sullivan, Fox Bay. Donald had gone across the harbour from West Fox Bay on the evening of the 21st and had left the cookhouse at East Fox Bay to return home just before 9 p.m. On the morning of the 22nd his boat still being tied to the jetty at East Fox Bay, the alarm was given and search parties set out as it was thought that he had decided to walk around to the West side. After searching until dusk without avail the parties returned. On the morning of the 23rd, dragging operations were commenced off the jetty at East Fox Bay and his body was found at 9.20.

Our deepest sympathy goes out to his sorrowing father and mother.

G O L F.THE SILVER KING £1,000 TOURNAMENT.

Moorpark. Padgham of Sundridge Park won the Tournament with 280. Cotton of Waterloo was second with 281, and Burton of Hooten was third with 282. Lacey of Berkshire who had record-breaking 1st and 2nd rounds, cracked in the later stages of the competition finishing joint fifth with a score of 284.

THE KING'S CUP AIR RACE.

London. Friday. The King's Cup Air Race will be flown this year on July the 10th and 11th. The Duke of Kent has entered a Percival New Gull which will be piloted by the designer.

Last year Captain Percival flying a similar machine entered by the Duke set up a record average speed for the course of 208.9 miles per hour.

WEATHER MODERATES.

London. Friday. After a period of unseasonable weather with snow falling on several occasions as far south as London, the temperature rose suddenly to-day. Sixty degrees were registered this afternoon, which is two degrees above normal for this time of the year. Mild conditions are forecast for the next few days.

London. Princess Royal and her younger son were stated on Friday afternoon to be making satisfactory progress in their recovery from measles.

PRAYERS AND HYMS AFTER
RESCUE OF TRAPPED MINERS.

Moose River. Friday. The trapped miners, Robertson and Scalding, were removed from the mine after their ten days' entombment. Both the men are in a comparatively good physical condition, and the hospital authorities anticipate their early & complete recovery.

The rescue was effected at 0544 G.M.T., and vast crowds who had gathered at the pit-head burst into cheers, and then, led by a Salvation Army band, sang prayers and hymns.

The Canadian Governor-General, Lord Tweedsmuir, sent a message to the Lieutenant-Governor of Nova Scotia conveying his warmest congratulations to all concerned in the rescue.

ANONYMOUS BENEFACTOR.

London. Friday. An anonymous donor has given £10,000 for the establishment of an Institute of Experimental Psychology at the Oxford University and Sir Herbert Austin, the head of a well-known firm of motor manufacturers, has presented a Birmingham Hospital with £7,000 to provide radium for the treatment of cancer.

AUSTRIAN CONSCRIPTS.

Vienna. Friday. It is announced that 50,000 conscripts of the 1915 class will be called up in the autumn. Austria is thus definitely repudiating the St. Germain's Treaty, and if the step is carried into effect it will be in defiance of the Little Ententes. According to the Daily Telegraph correspondent, Great Britain is not likely to make an immediate protest, but the move which was taken with Italy's support, has aroused French misgivings in view of its effects upon the Little Ententes. Rome circles profess surprise with certain other quarters considering that this conscription is a hint to Germany of the possibility of an Italian-Austrian-Hungarian military alliance.

2,600,000 MILES DRIVEN WITHOUT MISHAP.

Windsor. Friday. The Great Western Railway's engine driver, Sparrow, who controlled the Funeral Train conveying the body of His late Majesty King George the Fifth, is retiring after 40 years on the footplate, having driven 2,600,000 miles without mishap; this distance includes many record-breaking runs.

London. Saturday. His Majesty the King has approved of the appointment of Sir S. S. Abrahams, Chief Justice of Tanganyika, to be Chief Justice of Ceylon, succeeding Sir P. J. MacDonell.

Southampton. Friday. In a speech at Southampton to-night, the Postmaster General stated that since the reductions in telephone rentals which were inaugurated in October, 1934, there has been a net addition of 302,000 to the numbers of telephones in service throughout the country.

THE CUP FINAL.

Wembley. 4 p.m. Saturday. The Cup Final crowd had exciting diversion due to the efforts of the news reel companies to outwit the Football Association who, after unsuccessful negotiations over royalties, banned all cinema concerns and decided to shoot their own pictures of the whole match. The companies have darkly hinted that they will be showing films of the Cup Final to-night despite the prohibition. At the last moment the Wembley Stadium Authorities requested the Air Ministry to forbid aeroplanes flying over the Stadium on the grounds of safety of the crowd, but the Air Ministry declined, and when the Match opened four auto-gyros and ten slow aeroplanes started a merry-go-round just above the Arena. The Auto-gyros were working in relays, one occasionally disappearing with his film and then returning to relieve another. Searchlights were directed on the planes to mar the photographers efforts.

COURT NEWS.

London. Saturday. His Majesty the King is spending the week-end as the guest of the Duke of Sutherland at his country residence in Surrey.

The latest bulletin issued regarding the Princess Royal and her younger son who are suffering from measles, states that their progress continues satisfactorily.

The news of the sudden illness of King Fuad of Egypt was received with much regret in London. Messages received on Sunday reported that there was some improvement in the King's condition and this has encouraged hopes for his recovery although it is still realised that the state of his health is very unsatisfactory.

The Egyptian heir-apparent, Prince Farouk, came to England last October to study at the Royal Military Academy at Woolwich and it is now stated that he will return to Cairo immediately.

BOXING.

Liverpool. Saturday. Walsh won the British lightweight championship by defeating the holder, Kid Berg, in the ninth round.

Food No. 11.Vitamin A (Cont'd.)

The effect of heat and exposure to air upon Vitamin A is of great practical importance. Vitamin A is destroyed by cooking at high temperature or by cooking for long periods, unless all air is excluded. Generally speaking tinned and dried foods contain Vitamin A owing to the conditions in which they have been prepared, but foods cooked at home are liable to have their Vitamin A destroyed if they are cooked for too long or at too great a heat. The Vitamin A in vegetables resists the action of cooking better than that in meat.

As any excess of Vitamin A is stored in the liver it is not necessary to eat some every day, if sufficient is taken.

Various highly concentrated forms of Vitamin A are now available, but they are really for use as a medicine or for the use of explorers; for ordinary general purposes the chief sources of Vitamin A may be tabulated as follows :-

Cod Liver or Halibut Oil.

Egg yolk and fish oils.

Dairy fats, if the cow is at grass.

Green leaves, especially spinach.

Yellow roots, carrots, swedes, turnips.

Liver, kidney, sweetbreads.

Fruit, especially peach, pineapple, tomato, banana.

Vitamin D.

Vitamin D is closely connected with Vitamin A, indeed for some years they were regarded as one and the same; but after much work upon the subject their difference have been discovered. It is now realized that Vitamin D protects us from rickets in the absence of sunlight; it also helps in the formation of good teeth.

If there is sufficient sunlight and we have eaten foods containing a certain chemical substance, there is no need for us to take Vitamin D, as the sun turns this chemical substance in our skins into Vitamin D. In all temperate countries Vitamin D is

most needed in winter when there is little sun; here, where we have so very little sunshine Vitamin D is necessary all the year round.

Vitamin D controls the use of calcium and phosphorous in our bodies. It is no good giving large doses of calcium to cure rickets or to help bad teeth unless Vitamin D or sufficient sunlight can also be provided. The less sun there is the more Vitamin D we need. The less calcium we eat, and there is very little in a Falkland Island diet, the more Vitamin D we need to make sure that all the calcium taken will be absorbed into the blood stream and used by the body.

- (1) Vitamin D is stored in the liver, so it need not be taken every day if sufficient is eaten. Cooking at moderate temperature does not affect it.
- (2) Very few foods contain Vitamin D. By far the richest sources of it are Cod Liver and Halibut oil. It is also present in Liver, Egg yolk and milk and butter if the cow has green food and sunlight. There is little Vitamin in green leaves.

MARRIAGE OF THE EARL OF
DERBY'S GRAND-DAUGHTER.

London. Saturday. London's most brilliant wedding was celebrated to-day when Miss Ruth Primrose, the grand-daughter of the Earl and Countess of Derby, was married to the Hon. Charles Wood, the eldest son of the Lord Privy Seal Viscount and Lady Halifax.

Nearly 2,000 guests attended the ceremony and the streets became one enormous car park.

Dublin. Saturday. An official announcement was made to-day to the effect that President De Valera has postponed his departure from Switzerland owing to a slight cold but his condition after the operation remains satisfactory.

Cuba. Saturday. The death occurred on Saturday of G.L. Bevan a former prominent London financier who served seven years penal servitude for frauds in connection with the failure of The City Equitable Fire Insurance Company.

THE COLONIAL QUESTION.

London. Saturday. According to the Daily Telegraph the Conservative Parliamentarians are interested in the Colonial questions formed by the mandate group with the object of taking a concerted action in the event of any evidence being shown that the territories might be returned to Germany.

Melbourne reports that Government circles have welcomed Mr. Baldwin's assurance that the matter of returning Colonies to Germany had not and will not be considered, as Australia uncompromisingly opposes such a retrocession, holding the view that only the League of Nations can recall the mandate and even then only on a breach of obligation, and it is impossible to establish such a charge against the Commonwealth.

The industrial and population figures are quoted to prove that New Guinea is in advance compared with the German regime.

From Nairobi it is learned that a serious outburst of public opinion is likely if the return of Tanganyika to Germany is even suggested, and such warning was stressed in a speech by Lord Francis Scott, the uncle of the Duchess of Gloucester. While the Parliament's dalliance creates a feeling of anxiety, general satisfaction is expressed at the widespread opposition to transfer.

CLARIFICATION OF GERMANY'S
 PEACE PLAN.

London. Saturday. France is taking an active interest in the questionnaire which Mr. Eden is preparing for submission to Herr Hitler for the clarification of the German peace plan, and it is understood that steps have been taken to remind the British Foreign Secretary of France's special doubts.

The questionnaire will probably be considered by the Cabinet on Wednesday and presented to Germany before the week-end, while it is hoped that the German reply will be available for the League Council by the 11th of May.

WAR NEWS.

Rome. Marshal Badoglio's communique states that the Eritrean columns advanced thirty miles beyond Dessie without encountering any resistance. On the southern front General Graziani's forces are approaching Ras Nasibu's army at the junction of the Gerrer and Fafan rivers, where an action is probable with a wide encircling movement.

An Addis Ababa report states that an Italian bomber flew over the City for several hours watching the embarkation of refugees.

Rome. Italian troops have now reached the southern shore of Lake Tana according to an official communique issued here on Saturday, and which states "one of our detachments advancing from Gondar, reached Bahar Dar Ghiorghis on the southern shore of Lake Tana, whereby the occupation of the entire region of Lake Tana is now completed. The troops were everywhere given a friendly reception by the population."

On the Somali front heavy fighting has been in progress in the Sassabaneh sector since Friday morning.

SARDINE FISHERMEN'S STRIKE.

Madrid. Saturday. Distress among the sardine fishermen on the north-west coast of Spain which has been greatly aggravated by the sanctions against Italy and the ensuing stagnation of trade has now resulted in a strike which threatens to paralyze the entire Spanish sardine industry.

The crews of 300 fishing smacks in Vigo and neighbouring fishing villages have ceased work, and the strike movement is spreading rapidly, and it is now estimated that the total number on strike is 10,000.

London. In the early hours of Saturday the Finnish barque "Herzian Cecilia" one of the most famous of the sailing ships which take part in the annual grain race from Australia to England, went on the rocks between Bolthead and Tail in South Devon.

F.I.D.F. MINIATURE RIFLE CLUB.

The Annual General Meeting was held on April the 8th when Major the Honourable M. J. Stewart presided and 17 members were present.

The Treasurer's report shewed the Club to be in a very sound position financially and the assets were the best since its formation.

The Secretary's report shewed that the membership of 60 was a record, over 3,500 targets had been used, about 40,000 rounds of ammunition had been fired, 114 highest possible scores were made by 18 members and a general improvement in marksmanship was shewn by the classification for competition of all members.

In 1932 any member who scored 90 points or over was considered an A class shot, last year the figure was 97.

The championship of the Club was won by L. Reive with an average of 98.34 for 120 shoots. This was a splendid performance. A card shot by W. J. Bowles was sent to England to the makers of the ammunition used and the rifle makers, B.S.A. Ltd. They both expressed their pleasure and in congratulating the firer the latter firm stated this was the best card seen by them for two or three years. It has now been reproduced in the S.M.R.C. "Rifleman" and thus our Club is being still further brought to the notice of the shooting members of the Empire. It is to be hoped that we can again win back the Small Bore Trophy from Kenya this year. Three teams have been entered for the Dominions Clubs competition which will enable 18 members to compete in the representative matches. So far this season the following have made the highest possible score of 100 :-
W. J. Grierson 2. W. J. Bowles 1,
W. M. Allan 1, J. R. Gleadell 1,
W. Browning 1. The latter is to be congratulated on scoring a possible with his first shoot of the season. The present membership is about 30 but it is hoped that all intending shooters will soon join up so that an interesting team competition which is to take place can be arranged.

BULLSEYE.

A COMMITTEE MEETING WILL BE HELD AT 8.0 P.M. ON THURSDAY THE 30TH APRIL, 1936.

THE CUP FINAL.Sheffield miss open goal.

On Saturday Arsenal won the Cup after a very thrilling match in which Drake scored the only goal in the 29th minute of the second half from a pass by Bastin. In the opening stages Sheffield United controlled the play and Barclay missed the United's easiest chance of going ahead only one minute from the commencement of the game, when he had an open goal but failed to score.

After this early shock Arsenal's defence gave very little away but Sheffield played a speedy game with many attacks in the Arsenal half.

Towards the close of the match the United made an inspiring effort to equalise and certainly deserved to score. The game ended in the Arsenal's territory, but the United must have forgotten to bring a black cat as a mascot and so the Cup returned to London.

A unique feature of this year's Final was the engagement of eleven auto-gyros for the filming of the match. On the conclusion of the game the machines sped to different points. People were able to see the film of the whole match in London cinemas as early as 7 p.m. on Saturday and slightly later in the evening the film was being shown as far north as Newcastle.

ABYSSINIAN VICTORY.

Rome. An Italian tank column has been driven back with heavy losses to the rear of Daggah Bur by Abyssinian troops under the command of the Turkish General Vehib Pasha according to despatches received here from the Southern front which state that a great battle has been raging around Sassabaneh for the past ten days without any decisive result having hitherto been achieved. The Italians succeeded on Saturday after a fierce struggle in enveloping Sassabaneh on three sides, but since then their attacks came to a standstill whilst a tank detachment which had been despatched in the direction of Daggah Bur in the rear of the Abyssinian positions at Sassabaneh was compelled to retreat. Thus the Italian plan of capturing Daggah Bur, there by cutting off communications between Sassabaneh and Harrar, has failed, while at the same time the Abyssinians vigorously counter attacked on the Italian right wing where an Italian onslaught led by General Agostini on the strategically important town of Bullalah was repulsed. For the first time during the war the casualties on either side during the past few days are admitted to be approximately equal, the Italian army is reported to have lost some 2,000 troops - chiefly native - whilst the Abyssinian losses are estimated to be somewhere between 2 & 3,000.

Anxiety is manifested in Rome concerning the outcome of the battle. For the first time in many months the Italian press reports failed to speak on Tuesday morning of "Italian victories" and show extreme reserve. The prevailing disquiet has been increased by the fact that the daily official communique from the seat of the war has not been published since Monday. All reports from Italian war correspondents agree that the resistance offered by the Abyssinians at Sassabaneh is incomparably superior to any hitherto put up by them.

Addis Ababa. Strong optimism prevails in informed quarters here regarding the events on the southern front, nobody having deemed it possible that the Abyssinians could offer such a stubborn resistance to the incomparably better armed Ital-

ian forces despite unfavourable climatic conditions in the Ogaden Province, where the temperature varies from below zero at night to 40 degrees centigrade in the daytime.

Leaflets dropped on the Capital by Italian aeroplanes on Monday completely failed to achieve their aim of terrorising the population by the threats to destroy the City if the Italian troops who were marching on Addis Ababa should encounter resistance. A detailed account of the battle of the Ogaden is given in an official communique which states that Italian motorised detachments, together with Somali and Libyan troops and supported by air squadrons had launched a severe attack on the Abyssinian positions near Danane but were completely routed in the battle which began on April the 14th and lasted for three days. The victorious Abyssinian forces were commanded by Dedjazmatch Makonnen and Dedjazmatch Abbebe. The communique asserts that the Italians left several thousand dead and vast quantities of war material on the battle field and that some aeroplanes were brought down. It is further stated that the Abyssinians pursued the retreating Italians for 25 miles but finally withdrew to their original positions near Danane to face any new Italian attack.

CELEBRATION OF ANZAC LANDING.

London. Saturday. The 21st celebration of the Anzac landing on Gallipoli was held throughout the Empire with 25,000 pilgrims to Sydney's Cenotaph and a march of 50,000 ex-soldiers. Melbourne, Wellington and New Zealand had similar commemorations, and throughout the Antipodes the poppy sales created a record. Sir Ian Hamilton, Field Marshal Sir William Birdwood and Dominion representatives attended the London Cenotaph ceremony where French officers also placed a wreath from their Army and Navy. Many services were held throughout the country.

Paris. Athletics. The British Universities gained their third successive victory in the round Paris relay race thus winning the Lejour trophy outright.

DEATH OF KING FUAD.

Cairo. Monday. A bullet fired by his cousin, Prince Seifeldin, some thirty years ago, was finally one of the chief contributory causes of King Fuad's death.

Crouching behind a sofa in a Club in Cairo, King Fuad, who was then Prince Ahmedfuad, endeavoured to avoid the mad onslaught of his cousin, Prince Seifeldin, but was unsuccessful and received one of the revolver shots in the throat, and this led to an almost permanent weakness and a constant cough.

A fatal disease attacked this weak spot in the King's throat and the strain of the cough produced haemorrhage which, in the last stages, weakened the King whose health had been undermined over a period of nineteen months by heart and kidney trouble.

It is reported that King Fuad, who had been wearied by constant and painful injections, said to his doctor "Can't you let me die in peace".

Prince Farouk who was summoned home on Monday has been unavoidably delayed and will not now leave for Cairo until Wednesday.

Lord Lloyd, the ex-High Commissioner for Egypt in publishing the obituary of the late King Fuad, paid a tribute to the King of Egypt's untiring zeal and matchless knowledge of the complicated Egyptian political situation which he had exercised in the service of his country.

BRITISH CEMETERIES IN GALLIPOLI.

Angora. Monday. The question of the removal of British cemeteries from Gallipoli in the event of the Dardanelles re-armament which has been raised in certain circles, has elicited a statement from the Turkish authorities that they will always guarantee the inviolability of these graves, and that no obstacles will be raised relative to the uninterrupted facilities for visiting and tending the graves.

London. His Majesty the King has approved of the appointment of the New Zealand Premier, Mr. Savage, to the Privy Council.

WAR NEWS.

Rome. Monday. Marshal Badoglio's communique reveals that a motorised column from Dessie has covered 100 miles of the 160 miles to Addis Ababa, while a light Eritrean column is 30 miles beyond Hailu converging on the same point. In the south the Italians who are endeavouring to encircle Sassabaneh, are meeting with strong resistance. The Daily Telegraph Dessie correspondent stated that the motorised column encountered a few detached bodies of Abyssinian troops who were defeated after a brief engagement.

An Addis Ababa message indicates that defeated troops and refugees who are streaming into the Capital are being cared for by foreign Missionaries and Red Cross organisations.

Italian aeroplanes are circling the City at intervals.

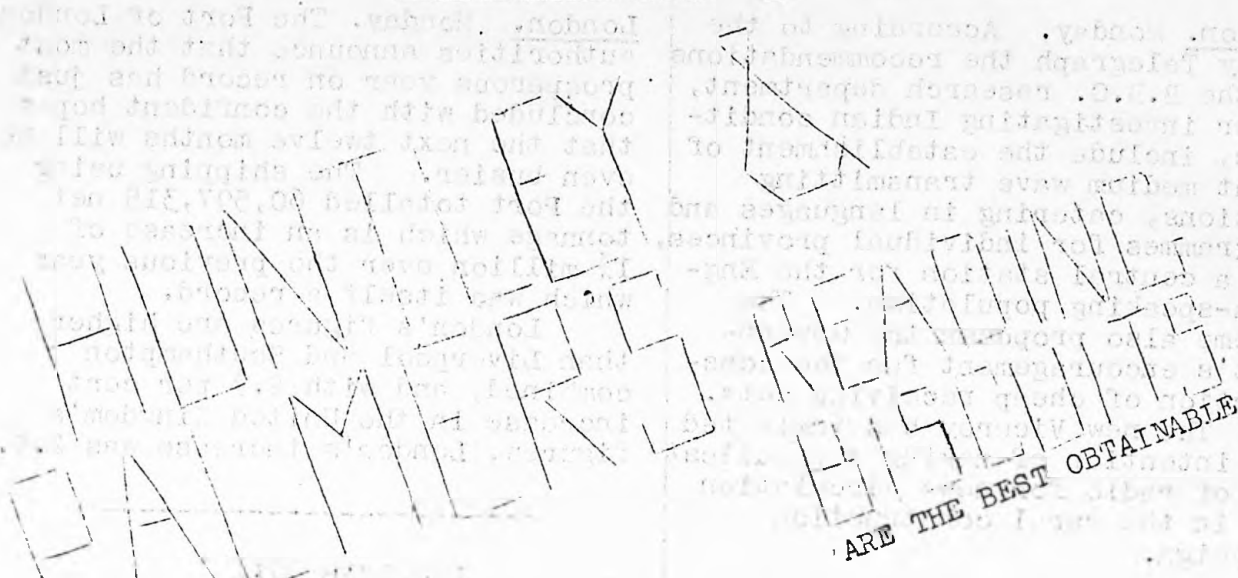

THE FIRST PEACE AIRFORCE.

Geneva. Monday. The first meeting of the International Peace Council under the presidency of Viscount Cecil decided upon the formation of the first peace airforce to be recruited among volunteer aeroplane owners of Europe and the United States for the purpose of dropping pamphlets urging the support of the League of Nations, smoke-writing peace slogans, and towing peace message banners. The four objectives are the sanctity of treaties, disarmament, military sanctions against treaty breakers and the peaceful revision of treaties within the League framework.

A notable speaker at the meeting was the All Russian Trades Unions Secretary, Shvernik, who is the first Soviet delegate to participate in any unofficial peace conference. He stated that as the representative of Russia's 20,000,000 workers, he was willing to collaborate with anybody in the world, irrespective of political, religious or social status for the furthering of world peace.

Knaresborough. Monday. Large portions of the Norman Castle known as the White Lady Tower which is the property of His Majesty the King have collapsed. The remains which are in a dangerous condition have been walled off.

TUBERCULOSIS.

Tuberculosis is one of the oldest known diseases and is widespread throughout the world. A chronic infectious disease of man, animals and birds.

The disease is caused by a definite germ called the Tubercle Bacillus; there are three types of bacillus depending on where they are more frequently found, they are the human, the cattle (bovine) and the bird (avian) types.

It should be noted, however, that the cattle type may attack human beings and the bird type cattle, fortunately the bird type is practically unknown amongst human beings.

Amongst the animals associated with man, cattle are by far the most commonly affected, especially cows, but the disease is found also in pigs and poultry. To a less extent dogs, cats, horses and sheep are liable to be infected. Most wild animals are susceptible to this disease, particularly in the captive state.

In Europe, where dairy cattle are hand reared and stabled, Tuberculosis is present to a greater extent amongst these herds than amongst the herds on the prairies of North America, in Central Africa and on many Islands such as Sicily and Iceland. It is the herds immediately in the vicinity of large towns that are most affected owing to the lack of sunshine and open country.

Young animals are less likely to be attacked with the disease than the older stock, their general condition is better, therefore more able to resist infectious diseases.

Calves, however, are liable to contract the disease from the milk of their infected mothers. A calf should not be allowed to remain longer than 24 hours with its mother known to be tuberculous; after that period, it should be given to a foster mother to bring up.

Pigs are very liable to pick up the germ of Tuberculosis, if they are fed on skimmed milk, a custom very common in a farm where all types of stock are raised. Cats and dogs usually get infected by human beings or by the cattle (bovine) type of disease. Poultry

(avian) tuberculosis is of importance because the dropping of the birds may cause a similar infection amongst cattle and pigs.

WAR NEWS.

Rome. Wednesday. Marshal Badoglio's communique reports that a motorised column from Dessie is now within 60 miles of Addis Ababa but will probably call a halt at Ankober for the establishment of a base.

General Graziani's force has been checked by heavy rains and as a result the left flank which was attempting to march on Daggah Bur was compelled to retreat while the Italian right flank halted at Gunagador.

An Addis Ababa message from the Daily Telegraph correspondent states that the Government is preparing to evacuate the Capital for some point to the westward.

Italian aeroplanes carried out their usual daily reconnaissance flights.

The Finnish and Egyptian Red Cross units which were stationed in the Ogaden Province left for Djibouti without any formal announcement.

Asmara. Wednesday. The last act of the drama on the northern front is approaching a climax. Decisive events are expected not later than the beginning of next week.

Meanwhile Ras Nasibu is trying to hold Harar and the neighbourhood at all costs, but he seems ignorant of the defeat of the army led by the Emperor. Even should Ras Nasibu succeed in holding his present positions for some time, his fate would be sealed the moment the troops from the north capture Addis Ababa.

General Graziani is now throwing all his strength into one supreme effort to crush the resistance of the last remaining Abyssinian Army, and he is employing the well known methods of Colonial warfare that have proved so successful on former occasions.

The Italian authorities admit that neither Sassabaneh nor Daggah Bur are as yet occupied by Italian troops. A Libyan battalion who were sent out reconnoitring against Daggah Bur was attacked by 6,000 Abyssinian soldiers who were all well armed; after seven hours' stubborn fighting the Italian troops had to withdraw to Dagamodo without having been able to penetrate to Daggah Bur.

Geneva. Wednesday. Another Italian note reached the League of Nations Secretariat on Wednesday and deals with the Abyssinian complaint about the Italian air bombardment of Harar on March the 29th. The note states that the Abyssinian assertion that Harar was entirely unfortified and undefended is utterly untrue.

The Italian Commander-in-Chief had, before making the attack on Harar ascertained from several sources that large quantities of weapons, ammunition and arms, such as machine guns had been massed in the City and that trenches and underground retreats had been prepared for use in the event of an air attack.

AUSTRIAN TROOP CONCENTRATION.

Vienna. Wednesday. Despite the alarmist rumours of troop concentrations on both sides of the Austro-German border, the situation is still normal states the Daily Telegraph correspondent. It has been admitted that there has been a movement of troops in South Tyrol, but these are described as routine preparations for summer manoeuvres.

Some quarters consider that Germany's militaristic display near the Bavarian frontier is aimed at engaging Austrian Nazis, and the show of strength on the Austrian side is the probable explanation of the local concentrations. The German War Office gives assurance that nothing unusual is taking place in southern Bavaria, but sharpshooters are in the vicinity of Garmisch, while sport instruction is being carried out in the Alps. According to a Reuter message from Paris, French diplomatic quarters regard the situation as disquieting and uncertain while the press is frankly pessimistic.

SHIPBUILDING ORDERS FOR CLYDE.

Glasgow. Wednesday. Fifteen shipbuilding orders have been assigned to Clyde-side during April with the aggregated cost of £3,000,000, and the productivity for the first four months of 1936 already exceeds the total output of the year.

THE P. & O. LINE.

London. Wednesday. The P. & O. has disposed of the Branch line of steamers "Balranald", "Baradine" "Barrabool" and "Bendigo" to ship-breakers following the decision to reorganise the Australian service.

The syndicate of Ellerman-Bucknall, Commonwealth, Dominion and New Zealand shipping lines have purchased the ten remaining vessels of the Canadian Government Merchant Marine and intend maintaining them on the St. Lawrence-Halifax to Australia run. The purchase price is reported to be £160,000.

CHINA SEEKS MEMBERSHIP OF LEAGUE OF NATIONS.

Geneva. Wednesday. Although the wishes of the Chinese Government regarding a permanent or at least a semi-permanent seat on the League of Nations' Council was not gratified by the decision reached on Tuesday by a special Committee which had met under the Chairmanship of the Italian, Rocco, it was stated that China will at least have the satisfaction of belonging to the League of Nations' Council for three years if the Committee's recommendations which were passed by 9 to 5 votes are adopted. The Committee took the view that the exceedingly important question of the composition of the League of Nations' Council should not be settled at a moment when the International situation is so full of unrest as it is at this moment. The Committee further recommended that the seat allotted in 1933 to Portugal for three years as an additional Council seat should not now lapse but instead should be allotted for three years to some state not belonging to any group entitled to a seat in rotation.

It will be remembered that at the last plenary session of the League the Austrian delegate pointed out that Austria was a state of this kind. If the Committee's proposals were adopted the League Council will in future consist of 15 members.

ARAB DELEGATION.

London. Wednesday. The Colonial Secretary was questioned in the House of Commons on the Arab delegation which has been invited to come from Palestine to state their views regarding their constitution. Mr. J. H. Thomas in reply stated that he understood that the leaders of the Arab parties had informed the High Commissioner that they did not think it would be in public interest for a delegation to come to London at the moment. Mr. Thomas added that he saw no reason for withdrawing the invitation but until the delegation had come and he had considered its representations, he was not in a position to make a fuller statement.

IMPROVEMENT IN CANADA'S TRADE.

Montreal. Wednesday. Canada's total trade for the fiscal year 1935/36 amounted to 134,186,000 dollars which is 13, 30 and 51 per cent higher than the three previous years respectively.

During the past year 51.8 per cent of Canada's exports went to the Empire, the highest since the war peak, while 31.6 of her imports came from the Empire which is the highest but one since the beginning of the century.

THE NAVAL TREATY.

London. Thursday. After the Naval Treaty was signed on March 25th, copies of the Agreements were communicated to other Naval powers both members and non-members of the League of Nations, and the British Government undertook to enter into conversations with any of the other Naval powers with a view to securing a wider application of principles embodied in the Four Power Treaty. The Russian Ambassador in London has informed the Foreign Secretary of the willingness of his Government to co-operate with the British Government in such discussions, and it is understood that the Russian Naval Attache who has been absent from London for some time will be returning shortly with his Government's instructions to begin an exchange of views.

INDIAN ENQUIRY.

London. Thursday. The report of Sir Otto Niemeyer on the financial position of Indian Provinces and of the Central Government has now been published. The object of the enquiry was to provide the Imperial Government with information required for the drafting of orders under the Government of India Act for the allocation of certain resources between the Central and Provincial Governments.

BUDGET LEAKAGE.

London. The Chancellor of the Exchequer, questioned in the House of Commons regarding the leakage of budget secrets which had been alleged in view of the unusual demands in the last few hours before the budget statement for insurance against risks of increases of taxation which the Chancellor eventually did impose, said that as soon as he heard of the allegations he caused an enquiry to be made as to the facts. He had personally interviewed the Chairman of Lloyd's who had informed him that he was making a careful and thorough enquiry into all the circumstances which had given rise to the allegations. The Chairman's investigations had not yet been completed but the Chancellor had requested him to have the whole matter sifted to the bottom, and he had undertaken to report to Mr. Chamberlain as soon as Lloyd's enquiries were completed.

MANDATED TERRITORIES.

London. Thursday. A group of conservative members of Parliament which has been formed with a view to securing official assurances against any future transfer of League mandates held by Great Britain, intend to take every opportunity of raising the matter in the House of Commons. To-day the question was addressed to the Prime Minister who made a statement in reply. Mr. Baldwin began by recalling the genesis of mandates and pointed out that there were no provisions either in the Covenant, Peace Treaty or mandates themselves relating to the transfer of a mandate from one power to another power and no such transfer had ever been made. He was advised that before any such transfer could be effected it would be necessary to have the consent at any rate of the present mandatory power, and the power to whom the territory was to be transferred as well as the unanimous consent of the League. He said he hoped to make it clear that the question of the transfer of a mandate was one which, if it were to be contemplated, would require a most careful consideration, and would be subject to the procedure of a very elaborate nature. It was not a matter which could in any circumstances be subject to any sudden or any hasty decision. With regard to the policy of the British Government, he would repeat once more in most categorical terms that they had not considered and were not considering the transfer of any mandated territory to any other power.

FUNERAL OF THE LATE KING FUAD.

Cairo. Thursday. The late King Fuad was buried with impressive pomp and oriental splendour in the Rifai Mosque Mausoleum which he had prepared for himself long ago. The Cortège, with the coffin on a gun-carriage drawn by six plack horses, included members of the Royal Household, the High Commissioner, Sir Miles Lampson and members of the Diplomatic corps. Three flights of aeroplanes paid an aerial homage, minute guns were fired and the five mile route of the procession was thronged.

CHILD WELFARE AND MATERNITY.

London. Friday. The latest figures showing the progress of child welfare and maternity work were announced by the Minister of Health in a speech at the Mansion House this afternoon. Sir Kingsley Wood said that the outstanding feature of last year's figures was the new low record in the death rate of infants under one year - the rate for England and Wales being 57 per 1,000 live births against 66 in 1931, 83 in 1921 and 103 in 1911.

OBITUARY.

London. Friday. General Sir Philip Nash who was responsible in several capacities at different times for the transport arrangements of the British forces in France during the Great War and also served at the Ministry of Pensions, died in London to-day at the age of 60.

WAR NEWS.

Rome prepares to celebrate the capture of Addis Ababa.

Rome. Friday. The fall of Addis Ababa is not expected for a few days as the Italian forces are proceeding with caution and taking no risks.

Marshal Badoglio's communique announces the capture of Sassabaneh and Bulalle in the south by the main and right flank columns under the command of Generals Frusci and Agostini respectively, but nothing is reported of the left flank which is attacking Daggah Bur and difficulties in their sectors are ascribed to the elaborate defence systems and also the nature of the ground, preventing the use of Artillery. The latter column is 200 miles from Harar where further resistance is anticipated, and is suffering from water shortage.

Addis Ababa. The Daily Telegraph correspondent reports that the Emperor returned to the Capital and conferred with a full Council relative to immediate action; he declared that Abyssinia will fight to the last soldier. The Capital is in a state of wild excitement but without disorder. It is understood that the northern Italian army is within 70 miles of the Capital.

A press message from Abyssinia reports the visit of the Emperor to Addis Ababa and the completion of the arrangements for a peaceful evacuation of the Capital, in the anticipation of the entry of Italian troops. The report states that the Capital has been maintained as "An open town" since the beginning of hostilities.

The Italian invasion began on the 3rd of October last but the advance on the Capital dates from the 1st of April and the Italian victory in the battle of Ashangi. One message from Addis Ababa mentions that the Emperor's hands are bandaged from burns inflicted, it is alleged, by the enemy's poison gas. The Emperor is reported to have declared that he will re-organise his forces and says "The last ditch does not lie between the Capital and Debra Berhan". The actual entry of the Italian army into Addis Ababa was not confirmed up to a late hour on Friday evening.

London. Friday. In the House of Commons to-day the Foreign Secretary in reply to several questions regarding the future action of the League of Nations in the Italo-Abyssinian dispute, said that steps were to be taken by the League regarding the dispute which would be the subject of joint consideration by the States concerned during the meeting of the League Council which is to be held on May the 11th.

Paris. Friday. The Suez Canal Governments have approved the agreement with the Egyptian Government whereby two Egyptian directors will be admitted to the Board, and room will be made for Egyptian employees, while the maximum navigation dues will be maintained at the present gold standard.

"MY WHOLE AIM AS PRIME
MINISTER IS PEACE".

London. Friday. The Prime Minister spoke at the annual demonstration of the Primrose League in the Albert Hall to-day. Mr. Baldwin said that he believed that the position of the Crown was more firmly embedded in the hearts of the people than it had ever been before, this being the greatest bulwark for democracy against despotism and tyranny from any quarter. The Government had begun to redeem the promise it had made at the election to overhaul the national defences and equipment. The greatest peril of the world to-day came from the air, and it was in the air that the Government was making the greatest efforts to strengthen the defences. In his view the strength in the air and the knowledge that strength abroad and of the defences prepared against air attacks, were the surest guarantees of peace. My whole aim as Prime Minister is peace - not out of a spirit of cowardice, but because I realise what war would mean for Europe. I pledge myself that His Majesty's Government is doing everything to procure and maintain peace - which is an arduous and daily task

BRITISH SUPPLEMENTARY ESTIMATES.

Paris. Friday. Naval circles are generally re-acting favourably to the British supplementary estimates since it is considered that the re-inforcement of the British Fleet can only be advantageous to France, but it is pointed out that the British increase automatically permits additions to the German navy under the recent Treaty. Berlin is unsurprised states Reuter, while political quarters believe that the potential estimates were known at the time of the conclusion of the Anglo-German Naval Treaty and therefore probably will not affect German building plans.

FASTEST SERVICE FROM LONDON
TO GLASGOW.

London. Friday. The London Midland and Scottish Railway inaugurates on Monday the fastest service from London to Glasgow in railway history. The "Middy Scot" will leave Euston at 2 o'clock and will reach Glasgow seven hours and thirty-five minutes later, thereby completing the journey of 401½ miles at an overall average speed of 52.9 miles per hour. 147 other L.M.S. services are being accelerated as a part of the summer programme starting next week.

SANCTIONS AGAINST ITALY.

London. Friday. The League of Nations Secretariat to-day published new statistics on the international trade with Italy which reveal that during February the pressure of sanctions was greatly increased. The figures for March, though not yet published, are reported to be of even greater significance. The imports of 43 countries from Italy and her Colonies in February 1935 amounted to 16,336,900 gold dollars but in February of 1936 the imports had fallen to 6,737,000 gold dollars.

IRISH REPUBLICAN MOVEMENT.

Dublin. The growing tension throughout the Irish Free State was given point to by an armed Police raid in Cork and Waterford early last Thursday when 31 arrests were made of men identified with the Republican movement. The arrests were made under the Public Safety Act, and the prisoners have been detailed in Mount Joy Prison.

The Roman Catholic Bishop of Waterford, Mostreve Jeremiah Kinane, in a letter to priests and the people, made a striking denunciation of the recent Irish murders and urged the Free State to take extraordinary measures to protect their citizens. Frank McDermott, an Independent Member of the Dail, said that the recent murders shewed that Ireland still suffered from the degeneration of the moral standards caused by events between 1918 and 1923, and De Valera's Government was not without its responsibility. It is the propogandists he said who continue to represent Great Britain as the ogre which is keeping the Free State in the British Commonwealth forcibly.

OBITUARY.

WAR NEWS.

Sensational news from Addis Ababa - Emperor leaves the Capital.

Jibuti. The Emperor and his family arrived here at 2 o'clock this afternoon in a special train from Addis Ababa, having made the trip in record time, no halt was made anywhere and top speed was maintained, even during the night. No incidents occurred of any kind on the way. From those who travelled in the same train it was learned that the departure of the Emperor from the Capital was unaccompanied by any kind of formality or ceremony. When he boarded the train the platform was empty, none of the ruling Abyssinian Princes, no Ministers nor any representatives of any foreign powers appeared to take leave of the Emperor.

At the railway station at Jibuti the Governor of French Somaliland who was at the head of all state officials was waiting on the platform to welcome the Emperor. A company of Senegalese were drawn up as a Guard of Honour. When the Emperor, wearing a white uniform, stepped from the train, the consort at his side, gave the spectators an impression of a man who had visibly aged in the last few months, appearing exhausted and resigned. His hair which but a few months ago was coal black and glossy is now completely grey. He was welcomed cordially by the French Government's representatives and was asked what special wishes he might have, and he answered that he wished to be spared press interviews and attacks by press photographers. The Emperor went direct from the railway station to the Governor's palace where he will be a guest until Monday morning. It is understood that the Emperor will first of all proceed to Aden but strict secrecy is being preserved as to his subsequent movements. On the way to the Governor's palace an incident occurred which necessitated police intervention. An Italian journalist tried to photograph the Emperor and his retinue, but Abyssinians present knocked the camera out of the Italian's hands

and started to rain blows on his head until the French police separated the combatants and scattered the excited onlookers.

Addis Ababa. When the sun rose Sunday Morning on the Abyssinian Capital, there was little else to be seen but a heap of smoking ruins. If in accordance with the plan, the entry of Italian troops into Addis Ababa on Monday is effected, they will find nothing but ashes. Ever since the Emperor left plundering has been going on in all directions. Before he actually left the Capital the Imperial Archive and State treasure was removed under a convoy of a section of the Imperial Bodyguard who left the City in a westerly direction. This having been accomplished, the Emperor ordered that all the gates of the Imperial Palace should be thrown open to the people, and the mob surged in and began to demolish the building. Soon after men and women were seen leaving the Palace heavily laden with rich garments, clothes, hangings, furniture and weapons of all kinds. All stores and ammunition buried in the Court-Yard of the Palace were distributed amongst the crowd. At the first sudden acquisition the great treasures put the crowd in a good humour, but once alcoholic stores were found, quarelling about their spoils set in, turmoil chaos becoming exceedingly serious when bands of robbers from the neighbouring hills poured in. Several hundred of police were powerless to stem the swirling masses of humanity rushing in all directions. Very soon shops, businesses and hotels were all plundered and then set on fire. The conflagration spread in all directions with fearful rapidity, destroying not only the entire business quarter of the Imperial Palace but also the whole region of private houses. As far as is known at present, no foreigners are suffering injury except one American journalist who was wounded by a sabre thrust. Most foreigners have taken refuge in Legations. Those known to be missing have been sought for by bands of armed volunteers who patrolled the City.

WAR NEWS.

Addis Ababa. The reason why Legations escaped the conflagration is that with the exception of the United States most are some distance outside the Capital. The German Attache, Waldheim, quickly organised two columns to go out searching for missing Europeans. The British Legation took the same initiative and commanding a number of motor lorries

drove through the smoking streets offering help. In one house they found fifteen Europeans under the command of a German inside barbed wire entanglements. By six o'clock on Sunday morning all Europeans seemed to have been brought to safety. These rescue columns were unmolested by rioters. Banks also seem to have been spared. Most Europeans will welcome the advent of the Italians since the war is now considered officially ended.

Ras Massibu's army still continues its resistance on the southern front but this could not alter the basic fact of the Italian victory. Hence throughout Italy the wildest delight prevails at the final success of the enterprise in East Africa with prospective early declaration of the cessation of hostilities and the removal of sanctions. National celebrations are planned. Newspapers apparently carried away by enthusiasm of the moment defiantly declare that if sanctioning powers do not lift the embargo immediately it will mean war in Europe. Belief here is that immediately after the Italian troops enter Addis Ababa peace negotiations will begin. The supposition is that several Abyssinian Ministers will return to Addis Ababa for this purpose. Italian motorised columns advancing on Addis Ababa made considerable progress on Sunday while those troops pressing forward on foot have already reached the outskirts of the City where they are awaiting the arrival of the tanks under whose protection the Italian troops will enter the City.

Food, No. 12.VITAMIN C.

Long before scientists discovered vitamins the need for fresh fruit and fresh vegetables was realised, as without them scurvy soon followed. Scurvy is a very painful disease which ends fatally unless certain things are added to the diet. It used to be very common amongst sailors in the days of the old sailing ships and in many past wars more soldiers and sailors have died from scurvy than from wounds.

During the eighteenth century an English doctor named Lind worked very hard on the problem of scurvy; but when he had discovered a cure he found that his chief difficulty lay in convincing people that the most striking cures were effected by such a simple thing as lemon juice.

Captain Cook, though, made use of his work and thus managed to prevent scurvy on his long voyages of discovery.

In these days cases of scurvy do not often occur in Western Europe, except amongst bottle-fed babies, but a good many people in poorer countries are dependent on potatoes for protection against scurvy and when there is a shortage of potatoes outbreaks of scurvy occur.

Though Scurvy itself, in its severe form, is not very common nowadays other ailments, due to a shortage of vitamin C, are very prevalent. One of the first symptoms of scurvy, the one most feared by old time sailors, was sponginess and bleeding of the gums, and research scientists in America have shown that many cases of dental caries are due solely to a lack of vitamin C. A feeling of constant tiredness, a lack of freshness and vitality, usually combined with nervous irritability, may also be due to shortage of vitamin C in the diet. Doctors are becoming more and more convinced that the prevalence of disease in early spring is due not so much to treacherous weather conditions as to a lack or shortage of suitable fresh foods during the winter months.

Vitamin C is usually found in foods of low fuel value, and so, for economic reasons it is likely to be omitted: In particular in the Falkland Islands, where transport and storage present such difficulties vitamin C is likely to be lacking from the ordinary diet. Unfortunately too many people, even in these days still regard fruit and even fresh vegetables, as something of a luxury, instead of an essential part of a diet.

Vitamin C is not stored in the body and should, therefore, be taken frequently. It is very easily destroyed by heat, the vitamin C in tomatoes and potatoes best resists the action of heat, but should not be cooked for long. In particular potatoes are best cooked in their skins for a short period. Peeling before cooking not only helps to destroy the vitamin but also a large proportion of the mineral salts is allowed to escape into the water, which is usually thrown away. The richest sources of vitamin C are lemons, oranges and grapefruit. It is also present in valuable quantities in tomatoes, potatoes, swedes and all uncooked green leaves, particularly parsley. When neither orange or tomato juice are available for babies, strained swede juice may be given with equally good results. Germinated seeds are a valuable source of vitamin C as also of vitamin A. If peas and beans are germinated until the roots are about an inch long, they need less cooking and have a better flavour than when they are dry and are a much more valuable food.

WAR NEWS.

Paris. Several passages from the report received by Quai Dorsay from the French Minister in Addis Ababa which were published on Sunday night by the Paris Soir state that no Abyssinian authorities whatever remain in the Capital. Just prior to his departure the Emperor handed over to the French Minister five Italian prisoners to be exchanged for Abyssinian prisoners. This report also confirms the plundering and destruction chiefly directed against the Imperial Palace and mentions that half of Addis Ababa is in flames. Women and children who had sought refuge in the French Legation were accommodated in cellars where they were safe from stray shots that hit the Legation building. A later wireless message from the French Legation stated that after the crowd had ransacked all parts of the City they turned their attention to foreign Legations and the French Legation had been besieged by an angry crowd of two to three thousand. The French Minister has notified the Italian authorities that the situation is serious. In Paris the flight of the Emperor is described in the evening papers as a complete collapse of Abyssinia, and placing a totally new situation before the European powers.

Rome. Reports from correspondents with the Italian columns indicate that the Italians are awaiting the arrival of a deputation from Addis Ababa to surrender the City, while a Debrasina report states that the motorised column is struggling over the 10,250 foot Ternaber Pass which

represents the last obstacle before the capture of the Capital.

The Washington correspondent of the Daily Telegraph states that intensified appeals for help have been received from the United States' Legation which is besieged by marauders. Their only communication with the British Legation is by wireless via Washington and London, although the two Legations are only two miles apart. A Paris message states that the French Somaliland authorities are perturbed about the fate of their Nationals who are unable to reach the Legation, and two Companies of Senegalese riflemen have been despatched from Jibuti by rail. All Legations where Europeans are sheltering have been attacked and it is feared that most of the Europeans elsewhere have already been killed. There are 2,000 refugees of 23 nationalities within the British Legation. A message from Aden reports the departure of two destroyers believed to be carrying a Marine force for Addis Ababa via Jibuti. According to the Daily Telegraph, intense disappointment prevails throughout Rome that the Duce was unable to announce the capture of Addis Ababa at the Chamber of Deputies Meeting yesterday. Mussolini merely stated that he had ordered a nation-wide rally, to which he would make a special announcement, but no date has been given for the rally. Political circles consider that the delay is due to sanctionist powers being indisposed to acknowledge the occupation of the Abyssinian Capital as an accomplished fact.

New York describes the Emperor's departure from his country as a cheap victory for the new Caesars, and the flames of the Imperial Palace becoming a funeral pyre of the saner organisations of western civilisation.

Paris press expresses the hope that Mussolini will adopt a conciliatory attitude towards the League to facilitate the abandonment of sanctions, and also points out that the Italian victory justifies the Hoare-Laval plan. Germany foresees complete changes in the European situation and considers that there will be repercussions which are potentially threatening, but the last battle on every field is always won by Britain, says the "Germania".

MR. PIROW TO VISIT ENGLAND.

Capetown. The British Government's invitation to Mr. Pirow, Minister of Defence to visit England is welcomed by South Africa as showing need for the speeding up of South Africa's defensive preparations.

The Cape Times says that not many realise how dangerously the vulnerability of South Africa has increased as a result of the Abyssinian war.

London. The County Council approved of the scheme for the official educational course to provide London guides, and the first course will be completed before the Coronation.

Tokio. The Emperor opened the sixty-ninth extraordinary session of the Diet and personally expressed his satisfaction at the growing friendly relationship with treaty powers.

ITALO-ABYSSINIAN WAR ENDS.

Rome. Tuesday. Syrens screamed and guns boomed out the signal for a nation-wide rally at 6.0 o'clock this evening, and when the square before the Palazzo Venezia was packed with humanity, Mussolini appeared and made the following announcement :-

"Blackshirts of revolution, men and women of Italy, Italians and friends of Italy beyond the mountains and seas, I inform you that according to a telegram received from Marshal Badoglio, he entered Addis Ababa at the head of his victorious troops to-day, May the 5th, at 4.0 o'clock in the afternoon".

The announcement was greeted by a tremendous outburst of cheering which lasted for several minutes. Mussolini then went on to say that during thirty centuries of her history Italy has experienced many memorable hours, but that the present hour is one of the most solemn. "I announce to the Italian people and to the world that the war has finished and peace has been re-established. Not without emotion and pride do I speak these momentous words after seven months' hard fighting, but it is indispensable that I should add that it is our peace, Roman peace, which has been established and which finds expression in the simple definite & irrevocable decision that Ethiopia is henceforth Italian."

The speech was broadcast to the world in Italian, English, French and German, and the Duce added he had observed every undertaking to do everything possible to prevent the conflict spreading

into a European War, but that Italy would defend her victory with the same determination with which she had won it by Roman sword and civilisation which triumphed over barbarism.

Italy abandoned itself to wildest rejoicings throughout the night and hilltop beacon fires blazed from the Alps to Sicily. Throughout the rally 700 soldiers guarded the British Embassy while cordons were drawn round the British Consulate and English Bank. Similar steps were taken in the vicinity of other sanctionist establishments.

According to a Djibouti message the Ethiopian Emperor stated before embarkation for Haifa that he had not deserted his people but had left his country to avoid further bloodshed and Addis Ababa's destruction in the hopeless war of unarmed warriors against modern weapons, especially gas.

London. According to the Daily Telegraph sanctions against Italy will be lifted at an early date accompanied by a frank admission that they failed to achieve the purpose for which they were imposed.

A Capetown message indicates that leading South African opinion is strongly in favour of the continuance of sanctions for the maintenance of the League as an effective institution.

Moscow finds that the League has proved itself useless and therefore urges reform whereby this defeat should be made a starting point for future victories by means of Sanctions which would be obligatory on League members.

The French press considers that the only question now facing the powers is negotiation with Italy but it is foreseen that this is potentially dangerous and with strengthening of sanctions sheer madness.

MANDATED TERRITORIES.

Dar-es-Salaam. A Committee representing all interests and races in Tanganyika has resolved to send a cable to influential bodies and Members of Parliament in Great Britain, stressing the serious alarm felt at the suggestion of returning territory to Germany.

A Capetown message states that it is authoritatively learned that the Union Government has informed Britain that it will not consider such a re-transfer of Colony under any circumstances.

FRENCH ELECTIONS.

Paris. The final election figures give the popular front, consisting of Radicals, Socialists and Communists 378 seats against the centre and right 238. M. Blum announced in his own journal "Le Populaire" that socialists holding 145 seats are prepared to form and direct a government of the popular front. The party's main points are the closest co-operation with Britain and adherence to Mr. Eden's League plan, the maintenance of central European territorial integrity, and a new disarmament plan in which Herr Hitler is asked to join with the alternative of collective security against him but definite prohibition of the re-fortification of the Rhineland.

FAILURE OF THE LEAGUE OF NATIONS.

In the House of Commons yesterday, the Debate on Foreign Affairs was opened by Mr. Hugh Dalton who charged the Government with the responsibility of having discredited the League of Nations and the whole idea of collective security and betrayed the trust of electors. This was not a narrow issue between defeated Abyssinia and victorious Italy. It was the issue between the League of Nations as a whole and the declared aggressor State, which, aided by an overwhelming superiority of armaments and by the breach of a Convention solemnly entered into not to use the most barbarous weapons which science had made possible to-day, had, for the moment won, in conditions of great inequality, a notable victory. There was, at this stage of affairs, no justification whatever for recognising the victory of Italy by the removal of Sanctions which had been imposed upon her by the judgment of the League almost unanimously.

FOREIGN SECRETARY REPLIES TO CRITICISM

After replying in detail to criticisms of the Government's conduct of affairs in relation to the Ethiopian dispute from the time of the Wal-Wal incident onwards, which were made by the opening Opposition speaker, Mr. Hugh Dalton yesterday, Mr. Eden, the Foreign Secretary, turned to the future. He said that it was clear that the League must go on. In the modern world the League was an indispensable piece of International organisation. That was clear, but it was also clear that each Government and each member of the League - for they all had responsibilities - must carefully consider the conclusions to be drawn from the experience of the last seven months and the League as a whole must decide on a future course of action.

His Majesty's Government, he said, proposed to engage at once on the consideration of problems involved. For that purpose they would enter into consultation with the Dominion Governments. They had to admit, he went on, that the League action had neither prevented the outbreak of war nor arrested it once it had begun. At the most it had made the prosecution of war more difficult and more costly. The World and the League were accordingly faced with the most formidable questions. Could they anticipate in future more vigorous action by the League than had proved possible in this dispute? and were nations likely to undertake graver risks than hitherto?

NEWS IN BRIEF.

Ottawa The Finance Minister, Mr Dunning, announcing the budget on Tuesday, said that in negotiating a Trade Pact with the United States scrupulous care had been taken to respect the Ottawa pacts. Concessions had been made in the Budget which should stimulate inter Empire trade arrangements he said, and explained that nearly half the items in the tariff schedules were free under British preference and of the twelve increases none affected British tariff.

Paris The French Cabinet has decided to take no special steps to check the gold drain from the Bank of France and the Finance Minister, M. Regnier stated that the question of currency control has not been raised as sufficient funds are available to hold the franc.

Glasgow Following extensive soundings taken prior to the "Queen Mary's" departure, the Clyde Navigation Trust is undertaking certain shoal areas for the maintenance of uniform depths.

London Dr. Buchman, leader of the Oxford Group Movement, and nine members, left for the United States on Tuesday as an advance guard of a larger party which will tour America and attend the National Assembly.

London Lord Willingdon accompanied by Lady Willingdon has returned to England on the completion of his Vice-Regal term. He is still under doctors' orders and as a result of a severe chill was unable to make the anticipated statement on Indian policy.

Niamey Amy Mollison who is making a record breaking flight from England to the Cape landed at Niamey in French West Africa on Tuesday and after an hour or so took off again for Pointe Noire in the French Congo.

TRIBUTE TO THE LATE ADMIRALOF THE FLEET.

In the House of Commons on Tuesday tributes were paid to the late Admiral of the Fleet Earl Beatty by the Prime Minister and the leaders of the Labour and Liberal oppositions.

The resolution was unanimously approved in favour of an address to His Majesty the King asking for the erection of a Memorial Monument at public charge.

Speaking of a similar resolution passed a few months ago in memory of Lord Jellicoe, Mr. Baldwin said that to-day they sought not to compare or to measure but merely to express their thankfulness that at the time of their country's need two such men as Lord Jellicoe and Earl Beatty were there to respond to the call.

DOMINIONS' DEFENCE PLANS.

The Dominions Secretary, Mr. Malcolm MacDonald, replying in the House of Commons to a question as to the manner in which the Dominions were expanding their Defence Forces, said that with regard to Canada he understood that the Defence expenditure in 1934/5 showed an increase of over two and a half million dollars as compared with the expenditure in previous years and that this expenditure was being generally maintained in the current year with some further increase for the Air Force.

The Australian Government were at present engaged in carrying out a three years' programme of defence expansion which was due to be completed at the end of the financial year 1936/7. The total cost was understood to be in the region of twenty million Australian pounds.

BRITISH LEGATION GUARD AT ADDISABABA WINS HIGH PRAISE.

It is reported from London, that the Foreign Secretary intervened early in the House of Commons' debate on foreign affairs on Wednesday afternoon, and opened with reference to the events of the last few days in Addis Ababa. He expressed the regret of all at the death of Dr. Melly of the British Ambulance Unit, who succumbed yesterday morning to a wound inflicted by rioters in the streets of Addis Ababa on Sunday, while he was attending the wounded.

Mr. Eden said that the House would share in the great satisfaction of the Government with the splendid work performed during a grave emergency by the British Legation Guard of Indian infantry.

These troops had saved a large number of foreign lives. In no single case was an appeal addressed to them in vain. Not only did they protect some thousands of refugees of twenty-three different nationalities in the Legation compound itself, repelling at least one attack by rioting tribesmen, but they were able to send detachments to foreign ministers to help individuals threatened by the mob.

The Belgian Government, whose Legation was assisted by such a detachment, had conveyed thanks to His Majesty's Government.

Mr. Eden went on to say "I am confident that when the full story is known, Major Charteris, his officers and men, will be found worthily to have upheld the highest traditions of the Indian Army".

The official opinion expressed is that the strike is entirely unauthorised and it has been reported to the Employers' Union for Constitutional handling.

FOREIGN INTERESTS SAFEGUARDED.

A message from Rome reports that it is stated in official quarters that the existing rights of other powers in Abyssinia, such as Britain's right to the waters of Lake Tana and France's rights in connection with the Djibouti railway, will be scrupulously respected.

Signor Mussolini considers that it is now possible for reasonable men to meet round the table and to conclude, on a realistic basis, the settlement which shall safeguard British interests in the Mediterranean and the Red Sea as well as the waters of Lake Tana.

(Continued from Col. 2. Page 1.)

Was it possible so to organise the League action so that it would be preventative rather than repressive?

Those were some, but only some, of the questions to be faced. The difficulties were great but the Government would approach them in a spirit of realism and constructive statesmanship.

Mr. Eden declined to make any statement on the policy he would pursue at the meeting on Monday of the League Council. He claimed that it was not unreasonable that he should ask for the confidence of the House under present conditions.

TUBERCULOSIS. (Continued)

Tuberculosis is chiefly spread by the germ being passed out of the body of an infected person or animal in the spit from coughing or in the motions; in the case of a cow also in the milk.

The droppings of animals with tuberculosis of the intestines, often contain the tuberculosis germs, so far the majority of animals in Stanley found to be infected, have this type of infection. The germs may remain alive a very long time under certain conditions; experiments have been made in which the germs were alive in the spit for four and a half months and in animal droppings for over six months. However, it is very comforting to know that the germ is killed almost immediately by sunlight. This is one of the reasons why stables should be kept clean in order that the dirt may be exposed to the sun and fresh air.

There are several factors which weaken cows and lower their resistance to disease, such as poor and improper feeding, excessive milking, over exertion and exposure to bad weather, especially during the winter months.

Now, the main way animals pick up the germ is through the lungs while breathing infected air, from an animal which has coughed up a droplet of spit, or through grazing over ground infected by the droppings of an infected beast; the germ

then passes into the guts, from there spreading to the lymphatic glands in various parts of the body. An animal with disease of its lungs may re-infect itself by swallowing the spit and cause a second infection of its own guts.

The disease is of a chronic nature, for a long time the animal appears to be in quite a flourishing condition. As time goes on, the disease may kill the animal or the animal may kill the disease; if it progresses and unfortunately this is the more common sequence, a cough develops in the lung cases, the animal begins to look seedy and the coat feels rough and dry. When the udder is attacked a swelling is felt in the upper and front part of the udder, at first it is small and soft but later is hard and larger in size.

In the case where the intestines are attacked, the animal remains in good condition a much longer time, even appears to increase in size owing to fluid in the stomach, however in the final stage it drops away also, more especially if suffering from the scours.

In tuberculosis, the glands in the neck and shoulders and flanks are often enlarged and it is the finding of these large glands which makes us suspect the disease.

Tuberculosis amongst Poultry develops very slowly not usually appearing until after the second year. The disease is caught from infected drinking troughs and droppings.

It is usually well advanced before any illness is evident. The chief signs being unthriftiness, paleness of the comb and wattle. Lameness, so often put down to rheumatism, is a common symptom.

The quickest and best method to get rid of Tuberculosis amongst animals and birds is to slaughter all positive reactors to the test, or when any other signs of the disease are present.

If the disease is considered to be open, that is very active then the stables and fowl houses should be disinfected, and the remainder of the animals or birds watched very closely for any further outbreak of the trouble.

UNFORTUNATE ACCIDENT

We understand that an unfortunate accident occurred last Monday, when Mr. Clifford Jennings got his hand severely cut while skinning seals. He was taken to Fitzroy in the "Port Richard" where Mrs. Langdo dressed the cut, and rode into Stanley on Wednesday for further treatment.

REVOLUTIONARY STRIKE IN SPAIN.

A Press message from Cadiz states that a revolutionary strike has broken out there and at Valladolid and that all Public Services are at a standstill on account of it. The Military are distributing bread and other foodstuffs. It is understood that a resignation of civic officials is demanded.

KENYA SETTLERS ANXIOUS.

It is reported from Nairobi that the Kenya Settlers' leader, Lord Francis Scott, is leaving by air for London on Monday with the hope of seeing the Colonial Secretary Mr. J.H. Thomas for the purpose of explaining Kenya's position.

Lord Scott urges a sound British settlement as an insurance for the safety of the Empire in Africa.

TENDERS FOR WARSHIPCONSTRUCTION.

A message from the Daily Telegraph states that tenders for warship construction under the new programme are being placed in Autumn and the keels of two 30,000 ton battleships will be laid in the Spring of 1937.

Each contract will have a paper value of £7,000,000, while three cruisers and seven 1850 ton destroyers and many smaller vessels will probably be allocated to the Clyde and Tyne.

ELECTIONS.

The Peckham bye-election resulted in the Socialist, Mr. Silkin obtaining 13,007 votes and the Conservative, Mr. Harvey, 12907.

A message from Washington reports that Mr. Roosevelt gained an 8/1 majority in the Californian Primaries.

ITALIANS CELEBRATE VICTORY

Messages from Addis Ababa to Rome state that Marshall Badoglio has appointed the former Governor of Rome, Signor Bottai, as Civil Governor of Addis Ababa.

Schools and Universities throughout Italy are celebrating Italy's victory by three days' holiday.

FRANCE STILL LOSING HER GOLD

News from Paris announces that the bank rate has been raised from 1% to 5% and it is understood that if this is insufficient to check the outflow of gold which continues at the rate of 450,000,000 francs daily, the Government is prepared to make a further advance. Gold to the value of 300,000,000 francs was shipped to New York on Thursday.

A slight improvement on the Bourse has resulted from the bank rate change but rentes continued to drop.

CANADIAN BUDGET CRITICISED.

Ottawa. The Opposition leader and former Premier, Mr. Bennett, criticising the Liberal Budget, agreed that Canada was moving towards a recovery. He said that this was the result of agreements signed in 1932 which enlarged the Canadian markets for English goods, but, he went on, Canada could not be saved unless sacrifices were made such as marked the United Kingdom effort when the National Government was formed.

NEWS IN BRIEF.

Berlin. An order has been issued by the Reich Minister for Education that English is to be the principal modern language taught in the higher grade schools in Germany from 1937.

Stratford-on-Avon. Earth from Shakespeare's garden and water from the river Avon have been despatched to the United States for the dedication ceremony of the Globe Theatre at Dallas, Texas, which has been founded for the performance of Shakespeare's plays.

London. The Air League has appealed to the Air Ministry to ban flying flea flights in Great Britain owing to the grave liability to nosedive, and this view is supported by the jury at Chiddingstone, Kent, where an inquest has just been held on a crash victim of this type of machine.

Berlin At seven o'clock on Thursday evening the airship "Hindenberg" gave her position as 48,58 north and 24,25 west. The dirigible, which is proceeding at a speed of seventy miles an hour had thus covered one third of the distance across the north Atlantic.

Berne. Mr. De Valera has left for Ireland following a complete recovery from an eye operation.

London. An Industrial Tour of the principal cities of Great Britain reveals that the employment increase is general and that the trade spurt is not temporary. The large centres report a remarkably low percentage of unemployment as compared with that of recent years and many undertakings are working to their utmost capacity, while export orders have risen substantially. Wales, Northern Ireland and Scotland are the least affected by the improvement.

ANOTHER MOLLISON RECORD.

Mrs. Amy Mollison who set out from Gravesend at 8.5 G.M.T. on Monday, to break Lieut. Rose's record for the flight to Capetown, which was three days, seventeen hours and thirty-eight minutes, has reached Capetown. She arrived at thirty-one minutes past two, G.M.T., thus beating Rose's time by eleven hours and twelve minutes and re-capturing the record for England for the Cape flight, which she had previously held.

She alighted at Wingfield aerodrome Capetown and was given an enthusiastic welcome by a large crowd that had gathered at the aerodrome to greet her. Mrs. Mollison appeared to be very fit after her long and lonely flight and she had only had six hours' sleep since she took off from Gravesend.

Mrs. Mollison spoke over the microphone to London but her words were rather indistinct when they were reproduced in Stanley. Mr. Mollison in an interview in London said that they hoped to make a world flight in the near future. Mrs. Mollison stated that she was very happy to have completed what she set out to do and that her next flight would be the return journey when she again hopes to break the existing record.

HONOUR FOR FRENCH MINISTER.

The Paris Cabinet has conferred on the French Minister at Addis Ababa, M. Bodard, the Cross of Commander of the Legion of Honour in recognition of the services he rendered and the courage he displayed during the siege of the Legation by a plundering mob. The Minister's wife, Madame Bodard, received the rosette of Knight of the Legion of Honour for the aid given by her on the same occasion.

SERIOUS DISCUSSIONS PENDING.

A message from London reports that the League Sanctions against Italy may remain in force for the present despite the admission that they have failed to achieve their main purpose.

The Italo-Abyssinian dispute is late on the agenda of Monday's League Council but this meeting is not concerned with Sanctions which are entirely a matter concerning a committee of eighteen appointed by the League Assembly, and this has not yet been summoned.

From Paris it is learned that even League Council business may have to be postponed as the French delegates will urge that the discussion of serious matters should be adjourned until the new French Government is formed. This will be in about three weeks as the Sarrant Government intends remaining in power until the statutory June 1st and with the popular front leaders declining to share the responsibility for important decisions on policy until in office, the Sarrant Government feels compelled to adopt a non-committal Geneva policy.

A message from Bombay states that the Congress President, Nehru, is appealing that the nation-wide meetings should express sympathy with the Abyssinians, with emphasis laid on the bitterness aroused at the

League's failure to protect small countries and that such a movement may have vital bearing on India's future policy.

The South African press reports the Reechoing Parliament's plea for the continuance of Sanctions and for the support of the League by Britain and an intimation that failure would mean that the British Commonwealth must re-consider its attitude towards world affairs.

FASCIST GRAND COUNCIL SUMMONED.

It is reported from Rome that an Extraordinary Meeting of the Fascist Grand Council has suddenly been summoned for 10 p.m. on-day, Saturday, and a Cabinet Meeting is to take place half an hour later with Signor Mussolini presiding at both Assemblies. According to the Daily Telegraph it is believed that the Duce will then proclaim the annexation of Abyssinia as part of the Italian East African Empire. This, it is considered, will be Italy's gage to the League Council on Monday and revenge for Sanctions.

GERMAN PEACE PROPOSALS UNDER DISCUSSION.

A press message from Berlin states that the British questions to Germany for the purpose of elucidating certain points in the German Memoranda of March 7th, 24th and 31st, were handed in by the British Ambassador, Sir Eric Phipps, to the Foreign Minister Herr von Neurath on Thursday. The British document has not been published and it is understood that its publication is not intended for the time being.

According to the Berlin paper Tageblatt the questionnaire deals with the problems involved in the German peace proposals but does not refer to the occupation of the Rhineland or to the transition period, which according to German suggestions should precede the opening of actual negotiations for securing peace in Europe.

ROYAL SHOW AT OLYMPIA.

The Duke of York, accompanied by the Duchess and Princess Elizabeth and her sister, opened the Royal Tournament at Olympia on Thursday afternoon.

It is possible that owing to the progress of mechanisation this will be the last year that the famous musical drive by a Battery of the Royal Horse Artillery will figure in the programme.

NEWS IN BRIEF.

London. The Court of Common Council of the City of London has approved the proposal for the establishment of an Airport near Ilford, Essex, at an estimated cost of £60,000.

Vienna. Several prominent personalities in Vienna's literary circles, including the playwright Herr Otto Emerich Groh, a well known author and translator of Nordic literature Herr Kotas, a novelist named Landgrebe and a musical comedy composer Herr Heinrich Strecker have been arrested for alleged Nazi Socialist activities. Baron Ernst August von Mandelsloh, one of the best known of Austria's younger generation of painters has been sentenced to one month's imprisonment and fined three hundred schillings on similar charges.

Cairo. The new Parliament has unanimously approved the Regency Council which will rule Egypt for twenty-one months until King Farouk is eighteen years old when, according to Mohammedan tradition he will attain his majority.

Simla. It is understood that the Indian Government intends issuing an immediate notice terminating the Ottawa Agreement.

Warsaw. Germany has paid the current bill for the Polish-Corridor rail traffic and an agreement has been reached for the settlement of arrears.

THE LATE MR. THOMAS BURNS.

The funeral of the late Mr. T. Burns, who passed away on Monday, the 4th of May, took place at Christ Church Cathedral on Wednesday afternoon.

Mr. Burns was born in Dumfries, Scotland, in 1860 and at the age of six he went to Uruguay with his foster-parents and at the age of eleven started work driving bullock carts taking wool to the towns.

He first came to the Falklands in 1875 with his parents in the "Black Hawk". For some years he worked at Port Stephens at horse taming and he helped to shift the first lot of sheep from Weddell Island to Patagonia for Messrs. Woods and Waldron.

After that he did horse taming for the Falkland Islands Company for two years and then became a shepherd in their employ, retiring on a pension at the end of over thirty-six years' service.

In 1933 he started work for the Government at the Quarantine Station but had to give it up last year owing to ill-health. He went to Scotland to visit his people at the age of twenty-one. Had he lived he would have celebrated his Golden Wedding this year.

He is survived by his widow, a son, a daughter and five grandchildren.

The Chief Mourners were:- Mrs. Burns (widow), Mr and Mrs Duffin (son-in-law and daughter), Miss Maude Duffin (Granddaughter), Mr and Mrs J. Ryan (brother and sister) Mr and Mrs. D.J. O'Sullivan, (Nephew and niece) Mrs. H. Newing, (Cousin), Mrs. M. Luxton (Cousin), Mrs. Kendal, Mrs. Ed. Wilson, Mrs. Hall, Mr. F. Jennings and Mrs. Mc Mullen.

Mrs. Burns and family wish to thank the many friends for their kind messages of sympathy and for the beautiful wreaths and flowers sent. They also wish to thank the doctors and staff of the K.E.M. Hospital, Mrs. Perry, Miss K. Perry, Miss L. Perry, Mrs. Hall, Mrs. F. Gleadell, Mrs. A.P. Hardy and Mr. P. Hardy.

ANXIETY IN FRANCE.

It is reported from Paris that the increase in the bank rate to 6% on Thursday has proved ineffective in checking the flight from the franc which on Friday assumed dimensions threatening danger to both currency and public finances.

The percentage of gold cover fell in the week ending May 1st from 66.47 to 64.85 by the diminution of 1,168,659,000 francs while the note circulation increased during the same period by 1,581,179,000 francs.

The Bourse has suffered a further relapse with the rush for international securities.

DISORDER IN ABYSSINIA.

Very grave disorders broke out on Thursday in the town of Harar in Eastern Abyssinia, the rioters taking possession of the streets and looting and burning business premises and houses. Firearms were freely used.

The British Consulate, where the Consul Mr. Chapman Andrews has a guard of forty Somaliland police, has been endeavouring to help the Ethiopian Government to keep order pending the arrival of Italian troops who were reported on Thursday to be within ten miles of the town.

Up to 6 p.m. on Thursday neither the Consulate nor the adjacent hospital, where Swedes and Finns are caring for a number of wounded, had been attacked, and during the evening the firing diminished but the looting and burning continued.

The British Minister at Addis Ababa, with whom the Consul at Harar has maintained daily communication, reports that the Consul intends to remain at Harar. Although details are lacking it is believed that many foreigners have sought and found refuge in the British Consulate. No British or other casualties have so far been reported.

Sir Sydney Barton telegraphs that the refugees of all nationalities who sought protection in the British Legation at Addis Ababa during the riots which followed the departure of the Emperor have now left the Legation.

The Emperor of Abyssinia accompanied by the Empress and their family and a few followers, landed on Friday morning at Haifa from the British Cruiser "Enterprise" which had carried them from Djibuti. It is the Emperor's intention to proceed to Jerusalem, where, according to his present arrangements, he will remain for some time.

Jerusalem. Troops and the air force in Palestine are continually standing in view of the tension caused by the Arab strike but hitherto they have not been called on for action and serious disorders are not expected at present.

The s.s. "Lafonia" returned to Stanley from Darwin and Fitzroy shortly after ten o'clock yesterday morning with the following passengers Mr. V. Summers, Mr. W. Burrige, Mr. H. Sarney, Mrs N. Berntsen and child, Miss G. Middleton, Mr. F.G. Berntsen, Mr. M. Kopp and Mr. S. Morrison.

It is expected that she will sail on Tuesday for West Falkland ports, Salvador Waters and Berkeley Sound.

WINTER IS WITH US AGAIN.

The lowest temperature of the year was recorded this morning, there being 11 degrees of frost.

Although it seems hard that we should start having such very wintry weather so early, the heavy fall of snow on Saturday night ensured a happy day yesterday for the children, who were out with their sleighs bright and early.

Our sympathies are with the numerous people suffering from colds for whom this weather must be a trial.

NEW TRAFFIC ROAD IN LONDON.

It is reported from London that the transport Ministry has approved of the construction of a new traffic road between Oxford Street and Hyde Park Corner designed to relieve congestion in Old Bond Street, Berkeley Street and Piccadilly, costing £158,900.

BRITISH ACTOR WELCOMED IN PARIS.

A message from Paris states that Charles Laughton, the first British actor to appear at France's National Theatre the "Comedie Francaise", received a tumultuous ovation after his performance in Moliere play before an ultra-fashionable audience including the President. With his unfaltering performance Laughton's mastery of the French tongue carried the house.

VANCOUVER'S GOLDEN JUBILEE.

The Mayor of London, Ontario, has officially invited the Lord Mayor of London, England, to visit the city when en-route to Vancouver for the Golden Jubilee Celebrations.

There will be an appropriate civic welcome as the city has its own Thames River, Blackfriars Bridge, St. Paul's Cathedral, Piccadilly and Waterloo.

OBITUARY.

It is reported from Washington that Senator Trammell, Chairman of the Senate Naval Affairs Committee, died suddenly on Saturday night from a cerebral haemorrhage.

A message from London states that Sir Alfred Watson, the Government statistical expert, died on Saturday at the age of 66.

FURTHER REDUCTION IN FRENCH

GOLD RESERVE.

A press message from Paris reports that the increase in the bank rate has failed to check the gold flight and it is estimated that in the past week the losses amount to 3,750,000,000 francs with the previous week's figure at 975,000,000, and it is considered that if the shrinkage continues holdings will soon fall below the margin required for currency support.

The franc sold heavily on the London and foreign exchange market but the equalisation fund held overnight level states the Sunday Times.

Meanwhile the Paris Bankers' Association has issued an official circular requesting establishments to limit the sales of gold, foreign currencies and coin, to legitimate business purposes.

MUSSOLINI ADDRESSES 200,000

SUBJECTS.

A message from Rome reports that Signor Mussolini made the expected announcement from the flood-lit balcony of the Palazzo Venezia on Saturday night to an assemblage of 200,000, that Abyssinia had been placed under the full and entire sovereignty of Italy, and that King Victor Emmanuel had assumed the title of Emperor of Abyssinia which will descend to his successors. Meanwhile Abyssinia will be ruled by a Governor General with the title of Viceroy and acting as superior to the Governors of Eritrea and Somaliland.

Marshal Badoglio has been appointed as Viceroy while the King has promoted Signor Graziani to be Marshal on the advice of Signor Mussolini.

Prior to this speech the Italian Cabinet had held a ten minutes' meeting and the speech was concluded by a heralded proclamation that the Grand Council of Fascism had passed a vote of gratitude to the Duce as the founder of an Empire.

"HINDENBERG" REACHES U.S.A.

It is reported from Lakehurst New Jersey the the zeppelin airship "Hindenberg" has landed there safely after an uneventful 5,000 miles transatlantic voyage from Fredrichshafen in 59 hours.

Mooring was accomplished with difficulty in a gusty wind necessitating aid from assembled journalists. Prior to its arrival at Lakehurst the "Hindenberg" passed over New York before dawn on Sunday where thousands of people were assembled in the moonlight to greet her and their cheers mingled with the shrieking of factory whistles and the syrens of the ships berthed there.

PILGRIMAGE TO WAR GRAVES.

From Arras it is reported that the British War Secretary, Mr. Duff Cooper, who is making an official pilgrimage to the Flanders battlefields unveiled a tablet in Arras Cathedral on Saturday, erected in memory of the Empire's million dead, with impressive ceremony.

The pilgrimage covers the entire area of the war cemeteries.

IMPROVEMENT OF BRITISH ROADS.

The Highway authorities in Britain have submitted plans under which £130,000,000 is to be spent on roads over the next five years in addition to many millions normally spent on their maintenance.

The programme should eliminate all weak bridges and provide for 850 miles of dual carriage-ways and 500 miles of cycle tracks.

The Minister of Transport, Mr. Hore Belisha, stated on Saturday that on every day since he had been appointed to office there had been a net addition to roads of 450 vehicles.

IMPORTANT MEETING AT GENEVA TO-DAY.

The Abyssinian situation is the principal subject on the Agenda for the League Council Meeting to-day at Geneva over which the British Foreign Secretary Mr. Anthony Eden will preside.

The attitude to be taken by the British Delegation at the League Meeting is left in the hands of the British representatives but as stated by Mr. Eden in the House of Commons Debate on Wednesday, Britain will play her part in whatever action is decided on, but it must be collective action.

At a meeting in the Albert Hall on Saturday night, at which ten thousand people attended, a resolution calling for the maintenance of Sanctions until Italy was ready to accept League terms, was carried.

The Speakers included representatives of all political parties. Viscount Cecil in his speech said that Abyssinia was still a member of the League and was entitled to the joint protection she was promised.

Mr. Winston Churchill in his speech on Saturday night said that he regarded the triumph of Signor Mussolini over the most ancient state in the world and also over the world's most modern institution, the League of Nations, as a lamentable event. Speaking as a private member of Parliament and without knowledge of the course which the Government would follow at Geneva he said that he was not prepared to support Sanctions against Italy merely for the purpose of weakening the Italian people. Unless they were convinced that what they did would be of real practical help to the tribesmen of Abyssinia they had no right to go further along that path in his opinion.

AIR LINER FORCED TO LAND.

The four-engined Imperial Airways liner "Dardanus", en-route from London to Cologne was forced to land on Saturday afternoon owing to a breakage of petrol pipes. The two pilots and eleven passengers were uninjured.

NEWS IN BRIEF.

Cricklewood. The unofficial strike at the Handley-Page aircraft factory has been extended by 800 girls, employed as machinists, walking out.

Aberdeen. King Edward has taken the Glen Callater grouse shooting and deer stalking for the season. The area covers 15,000 acres and is situated six miles from Balmoral Castle.

London. A hopeful view of the world situation is indicated by the lowering of the marine insurance rates to Red Sea ports.

Rome. Messages from East Africa announce that Signor Badoglio has established a military tribunal at Addis Ababa as the supreme judicial authority for restoring order.

London. The old Palace Yard property and the area adjoining Abingdon Street and Great College Street are marked for demolition under the official plan for the King George Memorial Statue.

Salisbury. The Southern Rhodesian Parliament has carried a motion urging union with Northern Rhodesia by 20/4 votes and a deputation intends waiting on the Colonial Secretary, Mr. J.H. Thomas, at an early date.

Capetown. Mrs. Amy Mollison, who is attempting to make her homeward flight from the Cape to England in three days one hour, left Capetown shortly after 10 p.m. on Sunday for Johannesburg.

Lake Hurst, New Jersey. Over 80,000 people visited the German airship "Hindenberg" yesterday. Notable people included Mr. Walter Moore, the Assistant Secretary of State and Admiral Standley, the Acting Naval Secretary.

MAIL NOTICE.

The Mail for West Falkland Ports and Salvador Waters will close at noon to-morrow (Tuesday).

MONSIEUR BLUM SPEAKS OUT.

A message from Paris states that M. Blum, France's next Premier, speaking at the French Socialist Congress on Saturday, expressed himself to be against devaluation.

He condemned the speculators in the franc who had been waiting for an opportunity to force this devaluation of the currency. He said that hundreds of thousands of men were without work or were working for famine wages and he declared that the new Government's intention was to open new sources of wealth and to stimulate a return to prosperity.

With reference to Foreign affairs M. Blum said that Europe's confidence in herself must be revived. They must re-create international solidarity.

On Saturday night the Socialist party authorised M. Blum to negotiate with other parties of the people's front for a Coalition Government.

UNPLEASANT ACCIDENT IN HAVANA.

It is reported from Havana that Major General Gonzales, the Chief of the Cuban Navy, had part of his head blown off and both his eyes and hands destroyed when a bomb exploded from a package he had received. Major Gonzales is still living. It is believed that the bomb was sent by political opponents of the Government.

INTERNATIONAL AERO EXHIBITION.

Sixteen British firms, including manufacturers of aircraft, aeroplane engines, material used in aircraft construction, aeronautical instruments and other items of equipment, are sending exhibits to the International Aero Exhibition which will be opened in Stockholm on May 15th.

Their stands will be grouped in the main exhibition hall. The products of several other important British Companies will be shown on the stands of their agents in Sweden, and the British aeroplanes will be demonstrated in flight during the period of the Exhibition at the magnificent new airport which is soon to be opened for regular commercial flying.

REVIVAL OF PROSPERITY IN BRITAIN.

Almost every industry except coal, whose market is specially affected by Sanctions quotas and the approach of warmer weather, shared in a revival of prosperity in Britain which is again revealed in the employment figures for the past month. They show considerable expansion in employment and the estimated number of insured persons between 16 and 64 in work on April 27th was 10,712,000. In building and public works industries and in the distributive trades and hotel and boarding house services there was marked improvement.

FOOD (.13)Vitamin B 1.

Vitamin B1 is only found in appreciable quantities in two food substances, yeast extract and wheat germ, which are obtainable in commercial form as Marmite and as Bemax. The Vitamin is not widely distributed in food. It is chiefly found in the internal organs of animals and in the seeds of vegetables whereas most other vitamins are found in the green leaves. It is destroyed by milling and refining cereals and by overcooking. As most of us eat white flour and polished rice and very few of us take Marmite or Bemax, it follows that most of us suffer from a shortage of Vitamin B1.

In the East, and wherever people are dependent upon cereals as the chief article of their diet, Beri-Beri, a fatal disease occurs whenever these cereals are milled, causing a lack of vitamin B1 in the diet. A shortage of Vitamin B1 leads to many ailments which are common amongst civilized people, amongst these ailments are indigestion, constipation, colitis, headaches, anaemia, unhealthy skin, nerve and heart troubles.

Not only should Vitamin B1 be taken every day, but the amount taken should bear some relation to the total amount of food eaten. Without Vitamin B1 the processes of digestion do not work properly and so the full value of the food eaten is not absorbed by the body. One to two ounces of Marmite or Bemax are needed every day in order to balance a diet consisting chiefly of foods deficient in Vitamin B1.

A little Vitamin B1 is also found in unpolished rice, unrefined flour, lentils, dried peas, hazel nuts, pea nuts, filberts, green cabbage leaves, carrots, lettuce, potato peel, lean beef, mutton and pork, ox brain, heart, liver and kidney, sheep brain, egg yolk.

There are traces of Vitamin B1 present in malt extract,

turnips, onions, watercress, spinach, apples, bananas, dates, tomatoes, lime and orange juice, condensed and dried milk.

NEW SCHEMES FOR SLUM CLEARANCE.

New housing and slum clearance schemes involving a preliminary outlay of more than £1,300,000 will be submitted to the London County Council to-day. The most important of these involves the acquisition of a thirty-two acre site for working-class dwellings at Tulse Hill.

A vote of £350,000 is recommended to cover the cost of acquisition, clearance and partial development.

It is tentatively proposed to erect there, three, four and five storey dwellings containing 1,420 separate flats and accommodating about 7,000 people.

SPAIN ELECTS A NEW PRESIDENT.

A message from Madrid reports that Premier Senor Manuel Azana was elected President on Monday by a large left wing majority. The future of Spain is likely to be influenced profoundly by the significant step taken at Saragossa on Monday when the National Confederation of Labour after seventeen days' Congress decided to throw in their lot with the General Union of Workers, which, though non-political, is largely controlled by Socialists.

The danger is that the anarchists may completely absorb the more moderate workers, says the Daily Telegraph correspondent.

AMY HEADS FOR ENGLAND.

Mrs. Amy Mollison left Mpika in Northern Rhodesia yesterday evening after covering some 1,800 miles since she left Capetown on Sunday night on her attempted record return flight to England. She left at 5.30 this morning for Mbeya in Tanganyika where she arrived at 7.45 a.m.

MOMENTOUS MEETING OF LEAGUE COUNCIL.

Eighteen Foreign Ministers were assembled yesterday morning ready for the meeting of the League Council to be held in the afternoon at Geneva.

During the morning there was active lobbying, everybody being anxious to gain time and to avoid precipitating the discussion which threatens the very foundations of the League.

The Council of the League of Nations at its meeting yesterday decided to keep the question of the Italo-Abyssinian dispute on the Order Paper but there is no indication that it will be discussed at length during the present session and if this question is reached the probable course, according to the newspaper correspondents, would be that a formal resolution would be proposed in the sense that the Council had decided that a discussion of this dispute shall be adjourned until its next meeting. As already indicated that meeting has been provisionally fixed for a date between June 15th and June 20th when the French Government will have been constituted and installed.

During the meeting yesterday with the British Delegate, Mr. Anthony Eden presiding, the League Council decided to maintain, against the protest of the Italian member, Baron Aloisi, Item Eighteen of its Agenda relating to the Italo-Ethiopian dispute. This decision was unanimous - the vote of Italy as a party to the dispute not being counted. Afterwards Baron Aloisi accompanied by the other members of the Italian Delegation walked out of the Council Chamber as a demonstration of disapproval.

The Spanish and Danish members spoke in opposition to Baron Aloisi's proposal to exclude the Italo-Ethiopian dispute from the Agenda. The Ethiopian representative also spoke.

Washington. The House of Representatives has approved a 2364,000,000 dollar Budget Deficiency Bill providing the appropriation of 1425,000,000 dollars for the continuance of a new deal system of unemployment relief. DROUGHT IN ENGLAND.

It is stated from London that an official drought exists there and in the home counties, with the last measurable rainfall of five millimet- res, recorded on April the 26th. Despite the drought the Thames flow is above the normal by about 100,000,000 gallons daily.

NEW ROMAN EMPIRE.

A message from Rome reports that it has been officially announced there, that the new Roman Empire which was proclaimed by the Duce on Saturday, has a total area of 3,862,292 kilometres and a population of 56,686,200 persons.

ITALIAN DELEGATES RECALLED.

Consternation reigned at Geneva on Tuesday afternoon when it became known that the Italian delegation had received orders from Signor Mussolini to leave Geneva immediately. This action is interpreted not only as a protest against the presence of the Abyssinian delegate at the Council table on Monday and the non-compliance with the Italian demand for the termination of Sanctions, but is also thought to presage Italy's complete withdrawal from the League. This impression was only strengthened later in the afternoon by statements made by journalists at Geneva and by a responsible member of the Italian delegation just before Baron Aloisi's departure, who said "The League of Nations has again failed to apply the same standard to Italy as to other States. Sanctions had been enforced neither against Japan nor Paraguay and when they were applied against Italy it was with the alleged object of shortening the war. What would be more logical now that the war is over than to raise Sanctions immediately? On Monday and Tuesday however the contrary was done. The conflict was thus artificially kept alive and the danger arises of new conflicts resulting from it. As long as this tendency prevails Italy has no more interest in Geneva or in any problems of the League of Nations. If, despite the motion submitted by Chile to-day, Sanctions are kept in force, Italy's attitude will be passive."

Asked whether the present departure was the first step

towards Italy's complete withdrawal from the League of Nations, another member of the Delegation answered, "That will be shown by the next forty-eight hours."

Disinclination was shown by the League of Nations Council on Monday to regard the Abyssinian question as finally disposed of by Signor Mussolini's proclamation in Rome on Monday and was reinforced yesterday afternoon, when, in Public Session and in the absence of the Italian delegation, the League of Nations Council passed the following resolution:- "The Council within whose competence it falls to examine the Italian-Abyssinian conflict, recalls the conclusions placed on record and the decisions arrived at in this matter on October 3rd, 1935. The Council is of the opinion that a certain lapse of time is necessary to enable the members to consider the situation which has arisen through the grave action just taken by the Italian Government. The Council resolves to resume its discussion of the matter on June 15th and considers that meanwhile it would not be appropriate to modify the measures which have been taken by the League members conjointly." This means that Sanctions will continue in force for at least another five weeks.

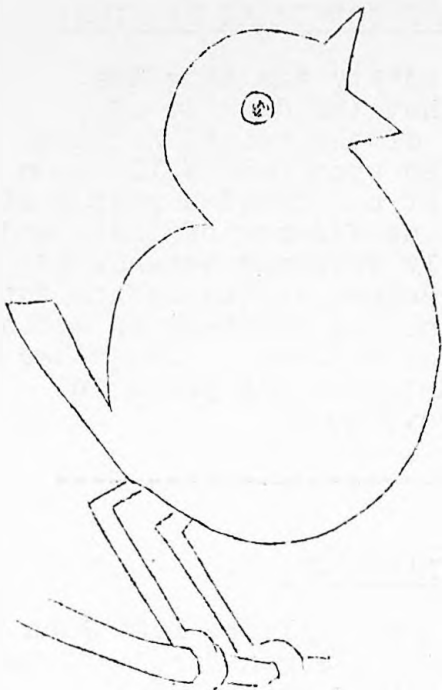

In the debate that followed the Abyssinian delegate made a short declaration emphasising Abyssinia's imperturbable determination to defend its independence and integrity and characterised the present situation as tragic for Abyssinia and determinative for the future or even for the existence of the League of Nations.

The Argentine representative declared that he voted for the resolution in the interests of the maintenance of the principles of the League of Nations but made a reservation with regard to the postponement of the Debate.

The Chilean representative announced that he abstained from voting because the view of his Government was, that with the end of war Sanctions ceased to have any object, and consequently they ought to be raised since this would contribute materially to a recovery from the present political and economic crisis.

The delegate from Ecuador recalled that his country had already cancelled Sanctions since they had in practice proved inappropriate for the purpose for which they were at first imposed.

The "News Chronicle" expresses the hope that if the Italian action is intended as a threat of withdrawal, it will be implemented without delay and adds "The presence in the Council Chamber of a power which clearly does not accept the principles for which the League stands, is an obvious scandal."

The "Daily Herald" also says that the departure of the Italian delegation need cause no regret. Her presence there has been an unpleasant embarrassment. The "Herald" recommends a rigorous application, not only of existing Sanctions, but of all those required by the Covenant.

The "Daily Express" urges that the one thing that emerges clearly is the need for a policy of isolation.

Notice of a motion in the House of Commons approving the continuance of Sanctions has been met by a counter resolution signed by several Government supporters.

They declare that Sanctions by the League as at present constituted having proved powerless to restrain the aggressor, it would be contrary to the interests of peace and world trade to maintain them as a policy of revenge.

ORDER IN ADDIS ABABA.

Order is being restored in Addis Ababa with the least possible friction states the Daily Telegraph correspondent, and Signor Badoglio has opened relations with foreign diplomatic representatives in whose work it is understood he does not intend to interfere. DEATH OF LADY GREY-WILSON.

WIFE OF FORMER GOVERNOR.

We feel that a number of our readers who are old enough to remember the Administration of Governor Grey-Wilson will be interested to read the following extract from the Morning Post of the 8th of April, 1936:-

"The death has taken place at her home in Cromwell-road, S.W., in her 80th year, of Lady Grey-Wilson, widow of Sir William Grey-Wilson, who was Governor of St. Helena and afterwards of the Falkland Islands and the Bahamas.

She was Margaret, daughter of Robert Glasgow Brown, of Broadstone, Ayrshire. Her marriage took place in 1884 and she had been a widow since 1926."

GRAVE LEAKAGE OF INFORMATION.

The judicial tribunal enquiring into the alleged leakage of information regarding the increase of taxation, heard evidence yesterday from Sir Warren Fisher, Secretary to the Treasury and head of the Civil Service and from Sir Maurice Gwyer, first parliamentary councillor to the Treasury.

Sir Warren Fisher described the procedure adopted in reaching the budget decisions and the machinery for the safeguarding of confidential information.

Further information and evidence was taken from Mr. Alfred Bates, one of the persons who took out substantial cover against Budget risks, and from representatives of his and other firms.

The tribunal will continue its sittings to-day.

NEWS IN BRIEF.

Dorchester. A hoard of Roman coins as used in the third century has been uncovered by builders and workmen at Dorchester. There are 20,000 coins all carefully packed in containers and excellently preserved.

London. A Bill for the abolition of the privilege of trial by Peers for members of the Peerage, passed its third reading in the House of Lords yesterday afternoon.

Madrid. Premier Azana has been unsuccessful in constituting a new Government, Senor Barricas, Senor Freito and Senor Barcia severally declining to form a Cabinet; but the Left Republican leader, Senor Guiroga, has now agreed to make an attempt.

Hong-Kong. The Government has approved a £500,000 development scheme of Marsman investments for operating wolfram deposits discovered in new territories. The field is unusually rich and the engineers anticipate rapid progress.

Paris. The franc has continued its recovery and according to the "Daily Telegraph" correspondent the flow of gold to London, New York and Brussels has ceased and is arriving from Berne. The Italian delegation's departure from Geneva reacted unfavourably on the lira which fell below 1.20 to the franc but Baron Aloisi's recall checked the upward movement on the Bourse on the interpretation that it heralded Italy's withdrawal from the League. Nevertheless the general tone remained good and the Bank of France shares, which are extremely sensitive to the political barometer, regained a further 200 francs, closing at 6410 on Tuesday afternoon.

London. The Admiralty announce that owing to illness Vice-Admiral F.F. Rose, Commander-in-Chief of the East Indies, is returning to the United Kingdom. On his departure Captain J.C. "HINDENBERG" PASSES OVER ENGLAND.

The German zeppelin "Hindenberg" passed over England last night on her way from Lakehurst, United States, to Frankfurt, where this morning at 5.50 local time she was safely moored. After reaching the South Wales coast at about 10. o'clock last night she flew low and was clearly visible in many towns and villages including Gloucester and Oxford.

SMUGGLING IN NORTH CHINA.

It is understood that official representations have been made to the Government of Tokio by the British and United States Governments against the impetus given to smuggling in North China by the alleged Japanese connivance. The Chinese foreign loan service which was secured on Customs revenue is gravely menaced by this smuggling and it is estimated that eight million Chinese dollars were lost during April, which represents an annual revenue fall of one-third. It is freely alleged in certain quarters that Japan is using smuggling as a weapon to force new demands upon China. Goods are brought across the Great Wall of China either free or at a quarter of the normal duty. The goods are mostly from Japan.

GIANT CUNARDER HONOURED.

Queen Mary has presented the giant Cunard **White** Star liner which she named and launched, with her personal Standard. It is in silk and is about 3 feet long by 1½ feet wide. It is of the same design as the large Standard flown at Buckingham Palace when the Queen is in residence.

ANXIOUS DAYS AT GENEVA.

The Foreign Secretary had another busy day yesterday in Geneva. In the morning he saw the Roumanian Foreign Minister and the Greek representative, M. Politis as well as Mr. Sean Lester the League High Commissioner for Danzig, and Herr Gressler, the President of the Danzig Senate.

It is reported that the Council appointed Mr. Lester High Commissioner for another year on the request of the Danzig Senate and the Polish Government.

During a two hours' sitting the Council hurried through the long Agenda at top speed. It now stands adjourned until the 15th of June. There was a lively argument, it is stated, in the course of the private session regarding the report submitted to the Slavery Committee by the Italian Government. According to press telegrams the upshot was that the report was circulated to the members of the Slavery Committee with a note attached that the contents had been communicated by a military authority occupying foreign territory in violation of the Covenant.

The main business at the public session was the offer of seats on the Council to China as the representative of Asia and to some one of the smaller European powers not belonging to one of the already recognised regional groups. This recommendation was referred to the Assembly for its consideration in September.

Press messages from Geneva state that the communication made yesterday by the Italian Government regarding the alleged shipment of dum dum bullets from Britain to Abyssinia, has not yet been published, but is being held up at the request of the Government at Rome.

AMY WELL ON HER WAY HOME.

Mrs. Amy Mollison reached Cairo at ten minutes past six last night and landed at Khartoum at 8.20 a.m. this morning. She may reach Croydon to-morrow, there by easily beating former record.

QUESTIONS IN THE HOUSE OF COMMONS.

In the absence of the Foreign Secretary at Geneva the Prime Minister had a large number of questions relating to the Italo-Abyssinian dispute to answer in the House of Commons yesterday afternoon.

Mr. Baldwin stated that when the Italian Ambassador handed to the Foreign Office yesterday a copy of the Italian decree annexing Abyssinia to Italy and conferring the title of Emperor upon the King of Italy, he was informed that the document was accepted in all reserve and would be submitted to the Foreign Secretary on his return.

Describing the contents of the Note received by the British Legation along with other diplomatic missions in Addis Ababa, from Marshal Badoglio, the Premier said that Sir Sidney Barton was instructed to make it clear in his reply that for the present his communications with Marshal Badoglio were on the footing that Sir Sidney Barton regarded him as an authority in the military occupation of Addis Ababa. In one of several other replies Mr. Baldwin reminded the Opposition member that the Government had repeatedly stated that their policy in the dispute was based on a collective decision by the League of Nations.

ARAB STRIKE CONTINUES.

It is reported from Palestine that police reinforcements have been arranged and the Curfew order proclaimed in the old city of Jerusalem where two elderly Jews, one of whom was a Rabbi, were shot dead yesterday afternoon. Pedestrians are not allowed within the walls between eight in the evening and six in the morning. The situation in Palestine is still unsettled and the Arab strike continues.

PROSPERITY IN SOUTHERN RHODESIA.

A message from Salisbury, Southern Rhodesia, states that the Budget there shows a surplus of £31,953, with imports increased 23% and exports exceeding £9,000,000.

OPPOSITION FOR NEW COAL MINE BILL.

It is reported from London that
colliery owners are opposing the new
Coal Mines Bill, which makes amalga-
mation compulsory under certain
conditions without compensation
beyond a share holding in the
amalgamated organisations.

A specially summoned meeting of
several hundred colliery owners
agreed to resist the proposed legis-
lation to its utmost and to press
for the withdrawal of the measure.

NEWS IN BRIEF.

London. General surprise has been caused by the refusal of the Railwaymen's Union to accept the Companies' offer of 1½% restoration of the 2½% cut still remaining.

The executive had recommended its acceptance but the delegates instructed the negotiatory committee to seek for a further interview with the Companies.

Berlin. Buying was at a low ebb on Wednesday on the stock market, investors showing great caution and operators holding aloof. Under these circumstances the decline that started on Tuesday continued.

Rome. Three hundred and eight deputies, present in the Italian Chamber yesterday morning, voted for the ratification of two laws proclaiming Italian sovereignty over Abyssinia. Eighty of the deputies were absent, serving in the Army in East Africa. The Chamber adopted the proposal that the President should have a large memorial tablet affixed in the Chamber with the inscription "On the 9th of May of the fourteenth year of the Fascist era Mussolini founded an Empire."

Berlin. Herr Hitler received the British Ambassador, Sir Eric Phipps, yesterday, in accordance with arrangements made last week, for the purpose of presenting the English questionnaire which is on the subject of the German peace proposals.

Addis Ababa. The Venerable Abunsa Kyriillof, the Egyptian head of the Ethiopian Church, has declared full adherence to and co-operation with the Italian Government during a call which he paid on Marshal Badoglio.

Marshal Badoglio replied that Italy would, as always, scrupulously respect Religions, especially the Christian Coptic Religion and promised to investigate the Venerable Abunsa's statement that many Churches were damaged during the campaign and will make reparation where necessary.

AMY FORCED TO LAND.

Bad weather in the Alps forced Mrs. Amy Mollison to land at Graz yesterday evening. She had announced that her intention was a non-stop flight from Athens to London. Graz is about eight hundred miles from Athens and the same distance from London. She will resume her flight to-day. There were astonishing scenes at Croydon aerodrome yesterday evening, where, anticipating Amy's arrival, about 10,000 people had assembled, and special police were summoned to control the crowd which dispersed disappointedly homewards when the news was received that she would not arrive that night.

NEW GOVERNMENT OVERNIGHT.

It is reported from Vienna that the general public there is just recovering from the amazement with which it was seized yesterday morning on learning from the extra-special editions of the newspapers that there had been a change of Government during the night. They have now had time to consider the new situation and to form an opinion as to what the change really means. The outstanding fact, it is agreed, is that Herr Starhemberg has dropped his resistance to the demilitarisation of the Home Guards which is expected to take place forthwith without disturbance.

It is stated that the only office which Herr Starhemberg retains is that of supreme sports leader and in this capacity he left last night for Rome to attend Sunday's international football match between Austria and Italy. It is stated in well-informed quarters that Starhemberg had planned to leave early for the purpose of seeking a special audience with Signor Mussolini in order to obtain once again his assistance for the future, but it is reported that Signor Mussolini has refused to grant this which is taken to indicate that he has dropped Herr Starhemberg as a political partner.

SUDDEN DEATH OF LORD ALLENBY.

Field Marshal Lord Allenby, the Commander-in Chief of the Expeditionary Force which met with brilliant success in the Palestine campaign and later the High Commissioner for Egypt between 1919 and 1925, died suddenly at his home in London yesterday afternoon, aged 75.

His remarkable Army career began in 1884 when he served in the Bechuanaland Expedition with the Inniskilling Dragoons.

GOLD EXODUS CEASES.

It is reported from Paris that the Bank of France return reveals that the gold exodus of the past week amounted to 2733 million francs with a reduction of gold stock between March 6th and May 8th amounting to 8,000,000,000.

The withdrawals have practically ceased following Monsieur Blum's reassuring speech and the currency restrictions of the banks.

Francs strengthened on the Bourse yesterday and Government Loans appreciated, while encouraging revenue returns reached 94 millions during April.

ROOSEVELT GAINS SUPPORT.

A press message from Washington states that the American Trades Unions are abandoning their traditional political neutrality and are supporting Roosevelt for re-election.

The hosiery workers and the united mine workers have already outlined the position with the latter making a contribution to the Democratic Campaign Fund, while the united textile union is expected to follow suit.

OBITUARY.

It is reported from Fernhurst, Sussex that Sir Felix Schuster died yesterday aged 82.

DISCUSSION ON SANCTIONS.

The Parliamentary Foreign Affairs Committee, consisting of supporters of the National Government, which has had several meetings on the subject of the present situation, issued the following statement after a largely attended meeting yesterday evening at which Sir Austen Chamberlain and Mr. Winston Churchill were present; "The discussion on Sanctions was continued and it was evident that there was no desire in the circumstances to press the Government unduly on any definite course to be pursued. At the same time the meeting was of the opinion that the realities of the present situation were not sufficiently understood by the public and it was of the utmost importance that opinion should be educated in regard to the facts. Apart from other considerations this would go a long way to counteract the persistent and misleading propaganda which was being spread throughout the country by well-intentioned but misguided enthusiasts to the detriment of British prestige both at home and abroad. The vital importance of pressing forward with national defence was also strongly stressed."

PRIME MINISTER ADDRESSES WOMEN.

The Prime Minister devoted the principal part of the speech which he delivered yesterday afternoon to a gathering of Conservative women in the Albert Hall, to Foreign Affairs.

In a characteristic introduction he reminded his audience "I am not a Dictator. I have to rely on reason." He went on to comment that one thing would strike the historian of the future, namely, that wherever you found in the world to-day the greatest measure of Constitutional stability, there you found the most freedom of criticism of the Government.

Turning to the anxieties of recent months and discussions in Parliament and in the country generally, he said that for the first time there had been a clear appreciation of what League Membership meant and involved.

NEWS IN BRIEF.

London. The late Field Marshal, Lord Allenby will be buried in the Warriors' Chapel at Westminster Abbey on Tuesday. The King will be represented by Field Marshal Sir Philip Chetwode and Field Marshal Sir Claud Jacob will represent the Duke of Connaught.

Bournemouth. Speaking at Bournemouth yesterday the Minister of Health, Sir Kingsley Wood, said that the great advance which has been made since the war in the provision of health services in rural districts of the country was illustrated by the amount of the loans sanctioned to Rural District Councils, which totalled no less than £3,078,000 in the last financial year - a figure which was more than half the total sanctioned over the period of ten years, from 1901 - 1910.

AMY WINS THROUGH.Enthusiastic Welcome at Croydon

When Mrs. Amy Mollison landed at Croydon at 12.35 G.M.T. yesterday at the end of her air journey to Capetown and back, in which she has broken records for the flight in both directions, she was cheered by an enthusiastic crowd which broke through the police cordons and surrounded her Perceval Mew Gull aeroplane and mobbed the pilot herself when she landed and was greeted by her husband and relatives.

The Deputy Director of Civil Aviation handed her a letter of congratulation from the Air Secretary, Lord Swinton, who wrote "Your double flight is a splendid achievement."

Mrs. Mollison's time from the Cape to England by the Eastern route was four days, sixteen hours, eighteen minutes, and she thus broke the record set up by Lieutenant Rose in March by one day fourteen hours and thirty-nine minutes. The bad weather which forced her to land at Graz in Austria on Thursday and spend the night there, prevented her from reducing the time by about half a day more.

Her outward flight by the West Coast route was three days six hours, twenty-five minutes, and on this flight she lowered Lieut. Rose's record by eleven hours eleven minutes. Her Perceval Gull cabin monoplane, powered by a Gipsy six two hundred horse-power engine was fitted with extra tankage, giving it a non-stop range of more than two thousand miles.

These Gull aeroplanes have proved very popular and considerable numbers of them have been exported overseas to Australia, India, France, Sweden, Egypt, Japan and China.

LEAKAGE OF BUDGET INFORMATION.

The judicial tribunal inquiring into the alleged leakage of Budget information, took further evidence yesterday regarding the various insurances effected against risk in income-tax and in tea duty

MEMORIAL TO THE LATE KING.

The executive committee which has been considering various schemes for a Memorial to the late King, has decided that the memory of King George V. shall be perpetuated by the erection of a statue on the site of Abingdon Street, directly opposite the Victoria Tower of the Houses of Parliament, and by playing fields, each adorned with a Memorial Gate, throughout the length and breadth of the country.

The clearing of the Abingdon Street site will reveal new views of Henry the Seventh's Chapel and the South side of Westminster Abbey.

Lord MacMillan, the Chairman of the Executive committee, made known this decision to the members of the general committee at the Mansion House yesterday.

FOREIGN SECRETARY RETURNS TO LONDON.

The Foreign Secretary arrived in London yesterday evening having travelled to Croydon by air. On his way through Paris yesterday he saw the French Foreign Minister M. Flandin and the prospective French Premier M. Leon Blum.

Neither conversation was of an official character. M. Flandin was prevented by ill-health from attending the recent meeting of the League Council at Geneva. In their private and informal talk Mr. Eden and M. Blum are understood to have made a general survey of international affairs.

NAVAL CONVERSATIONS.

It is expected that naval conversations between Great Britain and Russia, arising out of the Four Power Agreement recently signed in London, will be opened in the course of the next few days but no date has yet been fixed.

ADMIRALTY APPOINTMENTS

The Admiralty announce the following Flag appointments: Vice-Admiral Geoffrey Blake to be Vice-Admiral Commander of the Battle Cruiser Squadron in succession to Vice-Admiral Sidney R. Bailey, to date from July 1936.

Vice Admiral Blake will assume command in August when he will relieve Vice-Admiral Sir Charles Forbes as second in command in the Mediterranean.

Rear Admiral Thomas Binney is to be Rear Admiral of the First Battle Squadron, to date from July 1936 and is to assume duty in August 1936.

LORD EUSTACE PERCY ADDRESSEDCONSERVATIVES AT OXFORD.

Lord Eustace Percy, who recently resigned from the Government, speaking at a Conservative Meeting at Oxford last night on the League of Nations, said that the present construction of the League was fatal to peace but that for the enforcement of international law there must be some regional agreement by which nations were prepared to use military force to resist aggression.

He thought that the real danger to peace was Germany and he was convinced that it would be a crime to every inhabitant of Africa to re-open the question of German Colonies.

"COLLECTIVE SECURITY"

Mr. Harold Nicholson, the National Labour supporter of the Government in the House of Commons, speaking at Manchester yesterday referred to foreign policy and urged the need for clarity in British policy as the greatest contribution it could make to security and peace.

He said that it should be made perfectly clear for what Britain would fight, next, for what she might fight, and lastly for what it was unlikely she would fight. Until people had thought about such matters the phrase "collective security" was a trap for sentimentalists.

HOME NOTES.

We are publishing below a few hints which have come our way recently in the hope that they may prove of interest to some of our readers:-

The pretty effect of a tiled fireplace is often spoilt by one or two cracked tiles. To prevent the poker from falling and cracking tiles a piece of rubber tubing pushed on to the poker top safeguards the tiles.

Don't throw away your embroidery transfers after using them only once for they can be used again. Make a paste from equal quantities of sugar and washing blue, dip a pen in this and go over the design carefully. When it is dry, the transfer can be used again quite successfully.

If you suffer from rheumatism, instead of alleviating the pain with a hot water bottle, try heated silver sand, as this will keep the heat much longer. Heat it in a dish in the oven, pour it into a linen bag, roll down the top and tie the corners like a bag of flour.

Tiles on hearths may be repainted to match or contrast with any colour scheme. To do this stir the white of an egg into the paint to be used. This gives a splendid effect at little cost and makes the tiles shine like new ones.

SOUTH GEORGIA NEWS.

The s.s. "Peder Bogen" left South Georgia on Saturday afternoon for Europe, via St. Vincent, & the Cape Verde Islands. Mr and Mrs. A.G.N. Jones and family and Mr. and Mrs. Rumbolds are passengers. The "Peder Bogen" has 69,000 barrels of whale oil and 190 tons of whale meat meal on board.

THE STANLEY SPORTS ASSOCIATION.

Prize winners who have not yet applied for their prizes won at the last meeting should do so before the 31st of this month as after that date all such prizes will revert to the Association. Members of the Association are also reminded that subscriptions for the current year are now overdue.

ARRIVAL.

Mr. R. Greenshields arrived in Stanley on Saturday afternoon.

DEPARTURE.

Mrs. G. Short left Stanley for Douglas Station on Saturday.

ANOTHER ATTEMPT TO CLIMB EVEREST.

A message from Mr. Ruttledge the leader of the expedition which is making an attempt to reach the summit of Mount Everest, states that the climbers have reached 23,000 feet and the route along north col was completed on Wednesday.

A camp of four has been established within 6,000 feet of the summit and is being stocked, while the remaining three necessary camps will probably be ready within the week for a final assault, which will take place any time after next week-end.

The climbers will continue trying until the monsoon breaks but up to the present there has been no blizzard though overmuch snow remains on the peak.

SMUGGLING IN CHINA.

According to the Daily Telegraph correspondent, China has sent a strong protest to Japan relating to the increased smuggling in the north and reiterating allegations that Japan is conniving at the movement and that by interference in Hopei they deprived the Customs authorities of preventive powers.

A message has been received in London intimating impending Japanese reinforcements in North China to total 10,000, but these are stated to be only for the maintenance of order and are not directed against Chinese sovereignty or the interests of foreign powers.

ABOLITION OF THE SENATE.

A message from Dublin reports that Mr. DeValera is tabling a motion in the Dail on Tuesday to expedite the abolition of the Senate on the grounds that it is reactionary and unrepresentative.

FUNERAL OF THE LATE MRS. J. KELWAY.

The funeral of the late Mrs. Jack Kelway, who passed away on Wednesday, 13th of May, took place at Christ Church Cathedral on Friday afternoon at 2.30.

Mrs. Kelway, who was born in Stanley in May, 1862, was a daughter of the late Mr. Richard Atkins, who was a private in the Falkland Islands Garrison Company.

She is survived by two daughters and a son to whom we extend our deepest sympathy.

The chief mourners were:- Mr. and Mrs. G. McLaren, Mr. and Mrs. G. Kelway, Mr. G. L. Challen and Mrs. L. Sedgwick, Mrs. Beardmore, Mrs. Fearon and Miss P. Atkins, Mrs. S. Hansen, Mrs. J. Cletheroe, and Mrs. G. Turner Snr.

Mr. G. Kelway wishes to thank all those who kindly sent flowers and wreaths and helped during his sad bereavement.

STANLEY FOLK DANCING SOCIETY.

It is hoped to start the season's activities this month. All those wishing to join are requested to communicate with Mrs. Hoare or Mrs. Jones.

It is particularly desired that all who can should be at the early meetings so that a number of dances will be familiar to the whole Society at an early period in the season.

CAR RACE THRILLS.

A message from Cork reports that a double somersault from which driver and car emerged the right side up and then drove on, was one of the many thrills in the 201 miles Cork car race. The car was Mervy White's Bugatti which skidded at a bend and ran into a ditch and later damaged its axle causing Mr. White to retire from the race.

NEWS IN BRIEF.

Canberra A message from Canberra states that the Commonwealth Government has decided that the League of Nations machinery should be re-examined, but consider it unwise that individual Governments should announce their attitude towards Sanctions prior to June 16th when the League Council resumes its discussion.

London. The Cunard White Star liner "Queen Mary" will carry illuminated addresses from the Cinque Port towns to sister metropolis in the United States, on her maiden voyage. This goodwill cargo was presented to the United States Ambassador, Mr. Bingham, on Friday.

Paris. Speaking at a Luncheon held at the American Club in Paris on Saturday, the Socialist leader M. Blum, who will probably be the next Premier, said that France wished to live at peace with all nations and was prepared to co-operate with any regime to this end, while he emphatically rejected rumours that all wars were propaganda or reprisals.

It is generally inferred that M. Blum's speech was directed towards Germany.

Berlin. Herr Hitler has decided to postpone his formal reply to the British Memorandum. He considers the present international situation is in a fluid state and consequently the next League meeting may provide more data for a detailed reply.

Tokio. A message from Tokio reports that Japan has firmly decided never to relinquish Mandated Rights over the South Pacific Islands, no matter what considerations are involved elsewhere.

London. The official drought remains unbroken and has now lasted twenty-eight days.

London. Eight hundred members of the Legion of Frontiersmen, including many V.C.'s, paraded at Whitehall yesterday for their annual inspection.

Winconsin. Jesse Owens, the famous negro runner, beat the world's record for 100 yards on Saturday.

Paris. The Franco-Soviet Treaty of mutual assistance, which was signed in Paris in 1935, came into force yesterday.

Brussels. Americans from all parts of Belgium attended the annual Memorial Service held yesterday at Waeregham cemetery near Courtrai, where 368 of America's war dead are buried.

Friedrichshafen. The airship "Hindenberg" started on its second journey to the United States via the North Atlantic on Sunday at 5.p.m. There are forty passengers on board and 130 kilos of mail as well as cargo. At 9.50 p.m. the "Hindenberg" passed Dover. The English Channel was somewhat misty in the early morning and numerous fog sirens were sounding continuously. The airship was reported to be moving along smoothly against a light head wind, taking a rather more southerly course than on the first journey. Her velocity when passing Cherbourg was reported to be about 63 knots.

Athens. The death of Panayis Tsaldaris, leader of the popular party and Premier of Greece before the restoration of King George, is reported from Athens. Three days' national mourning has been decreed by the Cabinet.

Guatemala. It is reported from Geneva that Guatemala has given notice of its withdrawal from the League of Nations without giving a reason, but it is believed to be on the grounds of an anti-sanctionist attitude.

Vitamin B2 or G.

For many years the Vitamins B1 and B2 were not separated from one another. Then it was observed that certain foods cured beriberi, the deficiency disease caused by lack of Vitamin B1, but were useless in cases of pellagra another deficiency disease characterized by severe digestive troubles skin eruptions and mental symptoms generally ending in insanity. Finally it was discovered that two, if not more, very closely related vitamins were usually to be found in the same types of food.

Vitamin B2, or G, as it is sometimes called, is only stored in the body to a very limited extent, so it should be taken frequently. The chief sources of Vitamin B2 are yeast, (marmite), ox liver and kidney. Good sources are germ of wheat (bemax), bran, dry peas, cabbage, spinach, watercress, lean meat, fresh cow's milk and white of egg. Traces of Vitamin B2 are found in carrots, lettuces, onions, turnips, orange juice, tomatoes and cheese.

JOURNALISTS EXPELLED.

It is reported from Addis Ababa that the Italian authorities expelled four journalists and three other men from Abyssinia yesterday alleging that they spread anti-Italian propaganda and were guilty of espionage.

EXPRESS TRAIN DERAILED.TWO LIVES LOST.

A message from Paris reports that the Paris-Rome express left the rails when passing through Laroche Station, 95 miles from Paris, early yesterday morning.

The engine overturned and the driver and fireman were killed but there were no other victims.

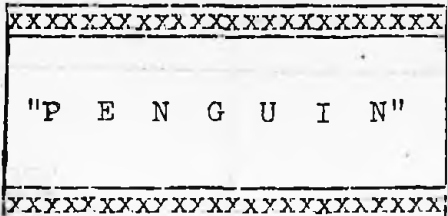

MUSSOLINI INTERVIEWS PRESSMEN.

It is reported from Paris that in a press interview on Saturday Signor Mussolini stated that wider claims on Abyssinia were justified by the troops' victory whereas the earlier claims were not excessive.

He went on to say that Abyssinia was to-day completely, irrevocably, integrally and exclusively Italian, and that any attempt at snatching of the Italian victory would be met by resistance, while the aggravation of economic Sanctions would be similarly countered.

NEW POLISH CABINET MEETS.

The first meeting of the new Polish Cabinet, under the chairmanship of Mr. Skladkowski, took place at Warsaw on Saturday, after President Moscicki had signed the decree appointing the ministers and then administered the Oath of Office. Although this session of the Cabinet was strictly secret it is known that the principal feature was a long address by the General Inspector of the Army, as a result of which it is believed in political circles that an extraordinary session of Parliament will be convened in a few days, when the Government will submit a programmatic declaration and will propose the prolongation until December this year of State precedents empowering the law, which otherwise expire on June 1st.

ARRIVALS FROM THE CAMP

Mr. E. Roberts, Mr. W. Roberts, Mr. S. Morrison and Miss N. McCarthy arrived in Stanley on Sunday. Mr. G. Goddard came in from Darwin yesterday, Mr and Mrs. S. Pitaluga from Rincon Grande, Mr and Mrs. A. Pitaluga and Miss E. Pitaluga from Salvador.

S.S. "LAFONIA"

The s.s. "Lafonia" was at Chartres last night and it is expected that she will return to Stanley to-morrow morning.

SET-BACK FOR EXPEDITION.

A message from the Mount Everest Expedition party at Camp 3 states that wireless communication from Camp 4 reports that there are fifteen inches of snow on north col and that this heavy fall has interrupted the advance of Smythe and Shipton. Avalanches are crashing over the north shoulder and a violent wind is tearing across the upper face of the mountain, and while this provides hope of an early resumption, a delay of two days or more is inevitable.

MASS EXECUTIONS IN ADDIS ABABA

Ruthless suppression and punishment of pillage is being carried out at Addis Ababa according to travellers returning from there. Mass executions follow the Italian Court Martials and the looters are despatched by machine guns in groups of thirty and forty at a time, the bodies being buried in roadside graves.

It is reported from Rome that the Commander of the Abyssinian Army on the northern frontier has surrendered to Marshal Badoglio with two hundred men.

OBITUARY.

Mr. Arthur Lehman the well-known Jewish philanthropist died yesterday in New York aged 62.

ENTHUSIASM IN ROME

Amid scenes of enthusiasm similar to those in the Lower Chamber on Thursday, the Senate ratified decrees on Sunday declaring Abyssinia to be annexed to Italy.

The Sunday Times correspondent reports that Senator Marconi declared that Italy's new Empire was the fruit of her conquest in the teeth of Sanctions. Signor Marconi described Sanctions as "the most senseless and immoral event in history".

Work has already begun on the development of Abyssinia, the government controlled National Credit Institute voted a large sum on Saturday for Public Works and a semi-official company is to be formed to exploit Abyssinia's mineral wealth.

Preparations are in hand for Colonists to emigrate and the collaboration of the natives will be sought. It is understood that Abyssinia will be divided into three districts under Viceroy Marshal Badoglio with Addis Ababa, Harrar and Gimma as the district capitals.

OXFORD WINS AGAIN

Scoring in every event except the discus and hammer throwing, Oxford University easily won the eighteenth championship of the Universities' Athletic Union on Saturday, with 79 points. Cambridge 1935 winners being second and London University third.

SWINDLERS AT MONTECARLO

Monte Carlo Casino has been victimised by a gang of swindlers who have flooded the principality with counterfeits of hundred and thousand franc gaming chips. These chips have also been used along the Riviera as money. The loss may amount to nearly ten million francs.

TROOPS CALLED OUT

It is reported from Jerusalem that the troops were called out on Sunday night when an unknown assassin emptied his revolver into a crowd of people leaving a cinema, killing three Jews.

A later report states that the situation in Jerusalem has become tense since the murders on Sunday night. The Curfew, which has been partially in force, is now extended to the whole city between the hours of 8 p.m. and 6 a.m. The High Commissioner, Sir Arthur Wauchope, has summoned an urgent conference of high Government Officials, and the Executive Jewish Agency was in session all Sunday night. Yesterday the Arab Supreme Committee decided that the strike of officials will be continued throughout the country.

Jaffa prison was bombed and the doors and windows smashed by explosions. Yesterday the Cameron Highlanders marched through the main streets of the city. The Daily Telegraph correspondent states that while the Arab leaders had encouraged the rank and file to defy authority and to adopt an aggressive attitude, it is clear that they have now completely lost control and that a wave of lawlessness is sweeping the country.

Hassan Sidky Dajani told British and foreign journalists yesterday that the present Arab movement is not financed by Nazis or Italians but was a local struggle directed solely against the Mandatory power of Great Britain working under the League.

It was learned from London last night that the British authorities in Palestine did not intend to yield to the Arab demand for the reduction of the number of Jewish immigrants. It is this demand which caused the Arab strike and the clashes with the Jews.

SUMMER WEATHER IN ENGLAND.

It is reported from London that Sunday was the hottest day recorded this year and the whole week-end was the sunniest and warmest since August, but yesterday there were a series of violent local thunderstorms causing flooding.

ILLEGAL AMMUNITION.FOREIGN SECRETARY EXPLAINS THE
SITUATION.

A remarkable account of the manufacture of evidence implicating British firms in the supply of illegal ammunition to the Ethiopian forces, was included in a full statement regarding the renewal of the Italian allegations that dum-dum or explosive bullets had been supplied from British sources to the Ethiopian Government for military use, which the Foreign Secretary made at question time in the House of Commons yesterday.

The House received it for the most part in surprised silence, but there were strong expressions of indignation at the close.

He recalled that on April 12th a newspaper in Rome had published photographs of certain soft-nosed cartridges made in England and a letter from Messrs. George Bates of Birmingham addressed on February 19th to the Abyssinian Minister in London, accompanied by photographs of packages addressed to the Abyssinian Legation and marked "Materials to be supplied for Abyssinia". Mr. Eden said that it would interest the House to hear how the letter and the packages came into the Italian possession. On February 19th last an individual styling himself Colonel Pedro Lopez called on the Managing Director of Messrs. Bates and intimated that he represented the Abyssinian Government. After producing a letter of introduction from a bank in Egypt (a forgery), and after mentioning the possibility of appointing Messrs. Bates as buying agents for the Abyssinian Government, this person stated that the Abyssinian Legation wished to secure samples of cartridges of British manufacture which should include dum-dum ammunition. On being told that ammunition in the latter category was not used in civilised warfare, the so-called Colonel Lopez replied that Abyssinia was swarming with leopards which it was useless to shoot with solid bullets. After some further conversation the Managing Director agreed to supply him with certain ammunition including a number of rounds of 7.9 soft-nosed cartridges.

The Foreign Secretary related to the House how these were packed in a box and how before it was sealed Colonel Lopez asked that something should be included in writing to prove that the cartridges were of British manufacture. The letter which was prepared did not satisfy his requirements so Colonel Lopez himself dictated there and then a communication from Messrs. Bates to the Abyssinian Minister in London guaranteeing that the sample was of British manufacture. Lopez took possession of the parcel which was next heard of when the letter he had himself dictated was published in the Italian press. Mr. Eden added that he had ascertained that neither package nor letter were ever delivered to the Abyssinian Minister in London nor had Lopez been entrusted by the latter with the mission of securing samples of cartridges. Lopez was known to have approached unsuccessfully several other firms in the United Kingdom. Mr. Eden told the House that Lopez was well known to the authorities under a number of aliases and after giving some particulars of his career said that in 1935 Lopez wrote to the Foreign Office stating that he thought his services might be of use to His Majesty's Government. In the letter he mentioned that he had already had three conferences with the Italian Military Attache at the latter's express invitation. Lopez had continued his relation with the Italian Embassy and he was known to have had contacts with members of the Italian military attache's staff within the last three weeks.

Mr. Eden then explained that Lopez's activities appeared to the Government to be of so mischievous a nature that it was decided that a friendly warning should be addressed to the Italian Embassy. The Italian Ambassador was warned orally by a high official of the Foreign Office. He was told that the Foreign Secretary was aware that the Embassy were in touch with a notorious purveyor of false information and forged documents.

INCREASE IN THE AIR SUBSIDY.

In moving a financial resolution in the House of Commons last night providing for an increase in the annual subsidy for air transport from £1,000,000 to £1,500,000 and empowering the Air Ministry to enter into long term agreements with transport undertakings, the Under Secretary for Air said that the scheme was designed to secure firstly, a striking acceleration of the schedules, secondly a great increase in the frequencies of the services and lastly the carriage, in so far as concerns the United Kingdom, of all first class mail matter within the Empire, by air at the rate of three-halfpence per half ounce.

As to acceleration they would work by degrees to a two and a half days schedule to East Africa, a four and a half days schedule to South Africa and a six to seven days schedule to Australia, a two and a half days schedule to India and a four and a half days schedule to Singapore.

If the whole scheme could be brought into operation as originally planned there would ultimately be nine services weekly to Egypt, five to India, three to East Africa and Singapore and two to Australia and South Africa respectively.

Negotiations for the extension of the Australian service to New Zealand were in progress. He went on to say that when all the services for which they were planning were brought to fruition the United Kingdom would be operating a route mileage of over 41,000 miles - nearly twice the route mileage which any other country except the United States was operating to-day - and the route mileage of the Empire as a whole would then exceed even that of America.

Sir Philip Sassoon added that they might criticise subsidies in general but without subsidies the Empire services would terminate forthwith. Postal contracts in the place of subsidies would be no remedy for any contract which would enable Empire routes to be operated without separate subsidy would involve the Post Office in losses such as had been incurred in the United States. That was merely concealment of subsidy. The British method - the adoption of which in America had been urged by an important Government commission - enabled Parliament, the tax-payer and the general public to see much more clearly where they stood.

OTTAWA AGREEMENTS

The Dominions Secretary was asked in the House of Commons whether invitations had been, or would be, issued to the Governments of countries concerned in the Ottawa Agreements, to attend further conferences with a view to continuing those agreements in the same or another form. The Minister, Mr. Malcolm MacDonald replied that the agreements between the United Kingdom and the Dominions, concluded at the Imperial Conference at Ottawa in 1932, did not terminate on any given date, and each agreement continued in force unless at any time after the 19th of February, 1937, six months' notice of denunciation was given by either party to it.

The most convenient method of dealing with questions arising out of the Agreement, was now under discussion between the Governments affected. In the view of the Government of the United Kingdom it would be most appropriate to proceed by way of discussions with individual Governments as occasion offered, and they had brought this view to the notice of the Dominions Governments.

ZANZIBAR RIOTS ENQUIRED INTO

It is reported from Nairobi that the Commission enquiring into the rioting in Zanzibar considers that the action of the police in firing on the mob was justified as a possible massacre of all European officials was thereby avoided.

The report adversely criticises the Administration and Agricultural Departments for the methods they employed in dealing with discontented Arabs whose copra was rejected on the grounds that it was unsuitable for export. The Commission states that it opines that insufficient steps were taken to instruct the men in methods of improving their copra, and a contributory cause of the disorder was that previous acts of violence in Zanzibar were

not checked by the Police, leading the natives to believe that such actions could be committed with impunity.

NEWS IN BRIEF.

London. The Ministry of Health statistics reveal that the erection of new flats and houses throughout the summer will probably break all records, with a conservative estimate of 100 dwellings completed every hour of the working day.

Paris. Financial circles are perturbed by the unemployment programme launched by the General Confederation of Labour, which is assuming the power behind the throne of the new Socialist Government. It calls on the Bank of France to advance immediately five hundred million francs to finance the Public Works Programme, insists on the immediate nationalisation of the arms industry and the introduction of the forty hour week.

London. The inquiry into the alleged leakage of Budget information was continued yesterday. A number of witnesses were re-examined by the Tribunal. The Attorney-General then intimated that all the evidence in his possession had been put before the Tribunal and the Counsel engaged in the case stated that they did not wish to call any other witness. The inquiry has been adjourned until to-day.

Nanking. The Chinese Foreign Office is making a vigorous protest to Japan against the increase of the Japanese garrison in North China.

Washington. President Roosevelt has signed an Army supply bill for approximately 572,450,000 dollars, which is a record for peace time.

Ottawa. The Minister of National Revenue states that the Government would require an industry to produce 10% of the normal Canadian demand before it would impose dumping duties for the protection of any class of goods.

WEDDING.

Bride and Bridegroom from the Camp.

An extremely pretty wedding was solemnised yesterday afternoon at St. Mary's Church, between Mr. W. Roberts, son of Mr. and Mrs. Roberts of Walker Creek, and Miss Norah McCarthy, the third daughter of Mr. M. McCarthy and the late Mrs. McCarthy of North Arm.

Attired in a lovely frock of white crepe and wearing a veil and orange blossom, the bride looked charming.

Miss Winnie McCarthy, (sister of the bride) who attended her, wore a delightful frock of blue figured silk and a blue straw hat to tone.

The bride carried a beautiful bouquet of roses, chrysanthemums and ferns which was given by Mrs. Sedgwick Snr. and Mrs. H. Dettleff and arranged by Mrs. A.L. Kiddle. Mr. E. Roberts, (brother of the bridegroom) was the Best Man.

After the ceremony the party drove to Mr and Mrs. B. Sedgwick's house where the reception was held, and the many friends drank the health of Mr and Mrs. Roberts and partook of the excellent wedding cake made by Mr. J.F. Summers.

The new home of the bride and bridegroom will be at Cattle Point, North Arm.

They were the recipients of numerous useful and decorative presents.

In conclusion we join their many friends in wishing Mr and Mrs W. Roberts all happiness in the future

WEATHER AGAINST MOUNT EVERESTEXPEDITION.

A message from the leader of the Mount Everest Expedition, Mr. Rutledge, states that Camp 4 has been temporarily evacuated by Smythe and Shipton owing to anticipated weather conditions and these prognostications have proved correct, with snow continuing on the peak. The climbing party's morale is reported to be excellent as the descent provided opportunities for brilliantly successful mountaineering.

The monsoon has broken at Ceylon ten days earlier than was expected and at the usual speed should reach Mount Everest on June 10th, after which climbing will be impossible. The party remains encamped 7,500 feet below the summit awaiting improved conditions.

FAMOUS YACHT TO END CAREER.

It is reported from Cowes that the late King George's famous racing yacht, "Britannia" will probably end her grand career by burial at sea near the scene of its greatest victories, by being towed into deep water in the English Channel and sunk.

His late Majesty stated last year that she would never race again and that he would never own another racing yacht. She is 43 years old and the sinking will be effected during the summer.

MORE AIRCRAFT

A message from Belfast reports that an agreement has been reached between Harland and Wolff and Short Brothers of Rochester to co-operate in the formation of a new company for the construction of aircraft at Belfast.

SIGNOR MUSSOLINI MAKES PLANS

A press message from Rome states that Signor Mussolini has issued new decrees through the National Directorate of the Fascist Party, that all males between the ages of twenty-one and fifty-five shall be asked to join the Fascist Militia "to confirm the inexhaustible war-like spirit of the Blackshirts and the quality of Roman peace".

The estimates vary but it is generally conceded that the war footing of this militia will be approximately 1,700,000.

Another decree aims at organising a national subscription to build a monument in Rome for the commemoration of the founding of the Fascist Empire.

OILFIELDS DRYING UP

News from Singapore reports that the Rajah of Sarawak, Sir Charles Brooke, has expressed the opinion that the local oilfields are likely to dry up within the next ten years. A serious problem is thus created in respect of the Far Eastern naval supplies but the Rajah adds that an intensive search is being made for fresh fields.

TO GUARD AGAINST SMUGGLERS

From Shanghai comes news that the re-arming of Customs vessels and shore stations is advocated by the Maritime Customs Inspector General, Sir Frederick Maze, as the only means by which to tackle the smuggling into China from Manchuria. The Government at Nanking announce they will award 40% of the auctioned value of detained smuggled goods to informers.

OBITUARY.

Sir Philip Ben Greet, the veteran Shakespearean actor died on Tuesday in London, at the age of 80.

NEWS IN BRIEF .

Hythe. The King of the Belgians arrived at Hythe unexpectedly yesterday, by air, and is taking a holiday incognito in Kent.

Havana. The installation of the new Cuban President, Senor Gomez, coincided with the inauguration of the Parliament buildings yesterday, and was marked by scenes of wild enthusiasm, the Nation regarding the advent of the President as the ending of three years of stormy chaos. Nevertheless the day was marked by bomb outrages but inquiries prove that the damage done was insignificant.

Rome. In view of the silence of Foreign powers relative to the recognition of the new Fascist Empire, diplomatic circles are speculating on the future status of Ambassadors and Ministers. It is suggested that the present letters of credence have lapsed owing to the King's assumption of the Ethiopian Emperorship and that there will have to be an early clarification of the position. Meanwhile foreign missions are only remaining in Addis Ababa on Italian sufferance.

Washington. The substitute Bill for the Guffey Coal Act, which the Supreme Court declared to be unconstitutional, has been drafted following Mr. Roosevelt's assertion that the New Deal must continue trying to reach the objectives of the invalidated act. The new measure which Mr. Guffey also drafted permits price fixing and is ready for presentation to the Congress.

Rome. The continuance of Sanctions and the possibility of a deadlock at Geneva next month is causing intense irritation in Italy. The press strongly attacks the League and insists that Italy will not yield an inch.

Utrecht. Monseigneur Jansen, formerly the Catholic Archbishop of Utrecht and Primate of Holland, died on Tuesday, aged 68.

APPOINTMENTS.

His Majesty the King has approved the appointment of Sir A. Ryan, Minister at Jedda, to be His Majesty's Envoy Extraordinary and Minister Plenipotentiary in Albania, succeeding Sir R. Hodgson, who is shortly retiring; His Majesty has also approved the appointment of Mr. R.N. Ballard, Consul General at Rabat, to be His Majesty's Envoy Extraordinary and Minister Plenipotentiary at Jedda.

THE NEW "SHIP HOTEL"

The building for the new Ship Hotel has now been completed and the House will be open to the public to-day for the first time in its new quarters.

The hanging sign will be of interest to all those who remember the days when five or six "windjammers" were in the port together.

We were privileged to see the whole building and the beauty and originality of the decoration was striking, reflecting great credit on all concerned.

ROYAL VISIT TO THE "QUEEN MARY"

His Majesty the King, who yesterday visited Aldershot and reviewed the third battalion of the Coldstream Guards and the second battalion of the Scots Guards, intends to see the Cunard White Star Liner "Queen Mary" again before she sails on her maiden voyage. It is understood that His Majesty will go over the liner on Monday - the day on which, as already arranged, Queen Mary herself will inspect the vessel to which she consented to give her name. Queen Mary will be accompanied by the Duke and Duchess of Kent.

JUDICIAL TRIBUNAL CONCLUDED

The judicial inquiry into allegations that information regarding changes in taxation reached certain persons in advance of the Budget statement and affected business in insurance against budget risk, was concluded yesterday. Yesterday morning the Colonial Secretary, Mr. J.H. Thomas, appeared at his own request to deny that he was acquainted with certain financiers and others with whom his name has been associated by previous witnesses.

The Tribunal heard addresses by Counsel before rising. The report of the Tribunal when it is ready will be communicated to the Home Secretary who will table it in both Houses of Parliament.

QUESTIONS ASKED IN THE HOUSE OF COMMONS.

Questions were addressed to the Foreign Secretary in the House of Commons yesterday afternoon regarding the recent activities of the Italian Military attaché in London and suggesting that representations should be made to Rome for his recall. In reply Mr. Anthony Eden referred to the statement he made in the House on

Monday, describing the manner in which evidence purporting to establish that a supply of illegal ammunition had been sent to the Ethiopian Military Forces from Britain had been fabricated. He said that he was confident that his statement would effectively protect the British Government and British industry from further allegations of this kind and added that in the circumstances he did not contemplate any further action.

The Foreign Secretary was asked in the House of Commons yesterday what obligations had been incurred to defend the independence and integrity of Austria. He replied "I would refer the Honourable Member to the Covenant of the League of Nations."

The Emperor of Ethiopia and the Ethiopian authorities remaining in Ethiopia were the subject of a Parliamentary answer by the Foreign Secretary yesterday afternoon. Mr. Eden said that he understood that certain Ethiopian authorities with whom the British Consul at Gore was in touch, were engaged in the task of maintaining order in that part of Western Abyssinia which was still unoccupied by Italian forces. Regarding the Emperor, Mr. Eden stated that there was no restriction on his liberty of movement. The only stipulation was that while His Majesty was in territory under British Control he should not engage in a furtherance of hostilities. No pressure, either direct or indirect, would be applied to prevent his coming to the United Kingdom if he so desired.

INCREASED POSTAL REVENUE.

A message from Wellington, New Zealand, reports that the Postal revenue there for the year ending March 31st, totalled £3,652,519, which is an increase of approximately a quarter of a million pounds, on the figure for last year.

COMMERCIAL TREATIES CANCELLED

A message from Rome states that Italy's commercial treaties with sanctionist countries are automatically cancelled by Sanctions, according to Signor Gayda, who says that such treaties will be subject to radical revision in the future, especially as the Fascist Directory is working for the economic emancipation of the nation, with the permanent and irrevocable exclusion of all products from sanctionist countries.

INDUSTRIAL ACTIVITY IN BRITAIN

The Board of Trade Index of Industrial activity in the United Kingdom was 1.9% greater in the first quarter of 1936 than in the preceding quarter and 8.9% greater than in the first quarter of 1935, the Index numbers for the three periods being 123.1, 121.2 and 114.2 respectively.

The Index numbers for March, March quarter, both for the manufacturing industries and for all the groups together, represent the greatest volume of production since the inception of the Index.

The production of iron and steel goods constitutes a record. The production of textiles was the highest since the first quarter of 1928 and of coal since the first quarter of 1930.

The figures of the distribution of overseas trade in the first quarter of the year between Britain and other countries show an increase in the percentage of imports from the former from 39.38% in the corresponding period of last year to 40.7% this year.

DISCUSSIONS IN PARIS

The Daily Telegraph correspondent reports from Paris that the Premier, M. Sarrant, the Socialist leader M. Blum, the League of Nations Minister M. Paul Boncour and the Foreign Office permanent secretary, have conferred together and M. Sarrant subsequently announced that Foreign policy had been discussed with a view to keeping the Government of to-morrow in touch with current problems.

M. Herriot has so far declined to be Foreign Minister in the new Government but is being urged to reconsider his decision.

Meanwhile demands being made on the future Cabinet by the Trades Union Leader M. Jouhaux continue to depress the Bourse and Herriot's press considers his proposals would preface devaluation and serious monetary disorders.

DISCUSSION OF ABYSSINIAN SITUATION

It is believed that a general discussion of the Abyssinian situation occurred yesterday afternoon when Signor Grandi saw Sir Robert Vansittart at the Foreign Office. Though no definite information is available of the precise lines of the conversation it is assumed that Signor Grandi reiterated that Italy had no aggressive designs on British interests anywhere. The British Government is understood to be opposed at present to the withdrawal of the Sikh Company from Addis Ababa as it is felt that it is too early yet to say whether all danger of disorder has passed.

Consultations with France were held and it is expected that she also will decide to retain troops in Dire-dawa.

BRITAIN'S DEFENCES.

Sir Thomas Inskip the recently appointed Minister for the co-ordination of Defence, made his first important speech in the House of Commons yesterday.

He described the series of enquiries he has put in hand regarding the vulnerability of battleships, the organisation of the Fleet's Air Arm and wartime food supplies, and the preliminary steps he has taken for securing adequate response from the industrial system to the needs of defence service and in particular to the requirements of air force expansion.

To overtake the accumulated deficiencies of many years in a short period, was, Sir Thomas Inskip declared, a great undertaking but he believed that they were on the road to accomplishing it.

In his opening remarks the Minister drew a line of division between the Opposition and the Government supporters. He said that the former thought that there was something ominous in the preparations the country was called upon to make while the latter were persuaded, as he was, that the British plans for defence would not alarm a single nation in the world but would foster an all important sense of world security. At the same time he emphasised that the fact that the defence services had to be ready to take part in collective action under the Covenant of the League of Nations, in circumstances which might be quite unforeseen, had introduced a new factor into the problems of those who had to form strategic conceptions necessary for a complete system of defence.

Speaking of the Sub-Committee of the Committee of Imperial Defence, which was investigating the questions of battleships and of the Fleet Air Arm, Sir Thomas said that it was attractive to envisage grand plans and spectacular decisions but that his inclination did not lie that way. Nevertheless he would not shrink from any decision however important if he were convinced that it

was necessary. Sir William Beveridge had agreed to serve as Chairman of another sub-committee investigating the all important subject of food in wartime - a question which involved such details as transport, storage, distribution, and home production. All the aspects of food supply would come under consideration. Scientific research was vital in problems of defence and the services of very eminent scientists were being utilised in the development of schemes.

A detailed survey had been made of the material and technical resources of industry. Suitable firms, ordinarily engaged on peacetime activities, had been classified, inspected, tabulated and allotted to different service departments. An orderly plan had been drawn up which embraced not only such requirements as the production of shells and shell components, but provided for a factor to which attention had been directed by Mr. Lloyd George and Sir Austen Chamberlain in a previous debate, namely, the production of essential tools and gauges.

Sir Thomas Inskip went on to say that he hoped within a few days to arrange for the allocation of contracts for the full supply of these essentials and for the necessary acceleration of production. Dealing with the expansion of the aircraft industry necessary for the **great numbers** of aircraft required by the three-fold increase of the Air Force, he explained that steps were being taken to enlist the motor manufacturers in a scheme for building up the reserve of output. They had been asked to build new premises or extensions at Government expense. The remuneration that they would receive would be a fee for the management, and the premises, which would remain the property of the Government, would be on a care and maintenance basis.

Questioned by Mr. Winston Churchill on the rapidity of production and the priority of Government orders, Sir Thomas reminded the House that the Government had no compulsory powers.

His Excellency the Governor directs the publication for general information, of the following Empire Day Message:-

EMPIRE DAY MESSAGE

from

Admiral of the Fleet Earl Beatty
P.C., G.C.B., O.M., G.C.V.O.
President of the Empire Day Movement.

"As President of the Empire Day Movement in succession to the late Earl Jellicoe, whose lamented death last year was so heavy a loss to us and to the cause which he had so much at heart, it is my privilege to address you this Empire Day.

"Since last Empire Day we have mourned the death of a beloved Sovereign, who was indeed the Father of his people - that world-wide Family to whom I now speak. We recall with gratitude the late King-Emperor's wisdom and kindness, and his unwearying devotion to the welfare of his subjects, and we cherish his memory with lasting affection.

"Upon this, the first Empire Day of the reign of King Edward VIII, let us join in offering to His Majesty our respectful congratulations on his Accession, an assurance of our loyalty to his Throne and our attachment to his Person, and our heartfelt wishes that his reign may be long and glorious.

"In this time of unexampled international anxiety, let

us celebrate Empire Day in a spirit of deep thankfulness that we are citizens of a great and united Empire, powerful in the cause of world peace. As an Empire, we must by our example and our exertions strive to secure a greater measure of tolerance and understanding among the nations; as individuals, we must determine, every one of us, to play our part in upholding the great traditions of our race.

"I trust that Empire Day may be given special significance this year to mark His Majesty's Accession and I send my warmest greetings and best wishes to you all.

BEATTY.

This Address was prepared by Earl Beatty shortly before his death.

HALF CENTURY IN STANLEY.

To-day is the 50th anniversary of the arrival at Stanley of the "Great Britain" and Mr. C.W.F. Enestrom.

Mr. Enestrom is the only surviving member of the ship's company, and he must feel real regret that this famous ship is at the end of its varied career, and treasure many proud memories of it.

Although the climate is proving too much for the "Great Britain" we congratulate Mr. Enestrom on his good health and hope that he will have many more happy years with his family in the Falklands.

IMPROVEMENT OF STANLEY COMMON.

His Excellency the Governor directs it to be notified, for general information, that the Government proposes to make a determined effort to improve the Stanley Common for the general benefit of stock-owners and in the interest of the dairying industry.

It is not proposed to repeat a past experiment of discriminating between the areas on which certain stock may graze but that rights of pasture will all be shared in common.

In the first instance a Common Advisory Committee has been appointed with the following terms of reference

It is proposed to improve the Common by

- (a) Spelling in sections
- (b) Draining
- (c) Erecting shelters
- (d) Controlling licences.

(a) Spelling For the purpose of spelling-in-sections of 300 to 500 acres the Government will provide two miles of fencing with iron standards which will be moveable. The area to be fenced will be drained, sown with grass and spelled for at least one year.

It is proposed to spell in the first year either of the two following areas:

- (1) By fencing from the North East corner of Mr. H. Dettleff's paddock to the North West corner of the new tussac reserve, or

- (2) Goose Green from Mullet Creek to Eliza Cove.

(b) Draining It is proposed to run five miles of drains this year as may be recommended by the Stock Inspector.

(c) Shelters 6 shelters to be erected of sod walls 6 feet high running 20 feet East to South and 40 feet South to South South West. Gorse seed to be obtained and planted on the shelters. (N.B. It may be advisable to fence the shelters at first 2 feet clear on one side at least.)

(d) Controlling Licences. The Stock Inspector and in his absence the Common Ranger to issue licences with power:

- (1) to refuse to licence worthless dry animals unlikely to survive

IMPROVEMENT OF COMMON (Continued

a winter and which it would in his opinion be cruelty to put out without feeding

(2) to control the seasons at which any bulls have access to the Common. Any owner of stock dissatisfied with the Stock Inspector's or Common Ranger's decision to have the right of appeal to the Advisory Committee.

MAIL REACHES ENGLAND.

Mails despatched by the "Lafonia" on April 23rd, arrived in England on Wednesday 20th of May.

ANOTHER EMPIRE DAY MESSAGE.

The following message has been received by the local secretary of the Royal Empire Society, Mr. G.I. Turner, from the secretary of the movement at home:

"The Chairman and Council of the Royal Empire Society send their cordial Empire Day greetings to all subjects of the King. We pray that, inspired by His Majesty's example, and strong in their unity of purpose, the peoples of the Empire may lead the world to assured peace and prosperity."

The "Benefite" Concert Party wish to thank His Excellency the Governor, The Misses Henniker-Heaton, the Honourable G. Roberts, and Mr. Butcher for the interest taken in the concert, and for assistance rendered; and also to extend thanks to the general public for their patronage.

The proceeds amounted to approximately £30; about £23 of which will be available for the Children's Party Fund.

The Concert Party would also like to thank Mr. L.F. Hodgson for his kind assistance.

OUR BISLEY TEAM.

To-day we wish "Bon voyage" to the Captain of our Bisley Team, Mr. J.R. Gleadell, and to the other two members - Mr. M. Campbell and Mr. W. Aldridge, who are leaving to-day in the "Lafonia".

The fourth member of the team, Mr. A.H. Hills, is already in England.

They go with our very best wishes for their success.

CHANGES IN THE CABINET.

A Cabinet re-shuffle is anticipated following the resignation of Mr. J.H. Thomas the Colonial Secretary. Another vacancy in the Cabinet is expected shortly through the retirement of Lord Eyres-Monsell.

It had been assumed that Sir Samuel Hoare would then re-enter the Cabinet as the First Lord of the Admiralty but it is now suggested that Sir Samuel Hoare may become Secretary for the Dominions and that Mr. Malcolm MacDonald will go to the Colonial Office while the Hon. Ormsby-Gore may go to the Admiralty although in some quarters he is regarded as a likely choice for the Colonial Office.

TOUCHING INCIDENT.

A touching incident occurred yesterday when the airship "Hindenberg" was passing over Keighley, Yorkshire, en-route for home from America. A small parcel fell to the ground containing a spray of carnations and a note asking the finder to place the nosegay on the grave of the writer's brother, who was a lieutenant in the German army, and who died as a prisoner of war in Yorkshire and was buried near Leeds. The letter was signed Johann Schultzy.

The grave was traced and the request promptly obeyed.

HIS EXCELLENCY SPEAKS TO

THE BISLEY TEAM.

His Excellency the Governor received the Bisley Team at 10 o'clock on Saturday morning and expressed his appreciation of their sportsmanship in going home to shoot for the Colony and wished them Good Luck.

DEVELOPMENT IN ABYSSINIA.

It is reported from Addis Ababa that preparation for a great development programme in Abyssinia is being pushed forward with all possible speed.

The transfer of troops from Makale to Addis Ababa, essential for the maintenance of order and authority, has been accomplished by aeroplane, whole battalions having already been moved quickly to their destination in this way. Marshal Graziani who is in charge of operations for the tranquilisation of the country during Marshal Badoglio's absence on leave, has ordered that the Army Corps which is gradually moving from north to south should build roads as it progresses and thus make secure communications with the capital.

Marshal Graziani has had long deliberations with General Guzzoni about the re-organisation of Eritrea, of which Guzzoni is now Governor.

SMUGGLING IN CHINA.

The Foreign Secretary was called upon to answer some questions in the House of Commons yesterday on the growth of smuggling in northern China. Mr. Eden stated that the report of the Inspector General of Maritime Customs was being examined.

The information at the disposal of the Government tended to confirm that the Customs Officials at those stations in the demilitarised zone, as well as vessels operating in its coastal waters, were prevented by the Japanese military authorities from carrying arms, and there was also reason to believe that officers of the Chinese customs service were being prevented from carrying out their duties on trains in the demilitarised zone. The principal agents engaged in the smuggling traffic in North China were said to be Japanese and Koreans, although some Chinese might be taking part.

Mr. Eden declared that the House was already aware of the concern with which the British Government viewed this situation, and of the steps which have been taken to bring the need for more effective action to check this illicit traffic to the urgent notice of the Chinese and Japanese Governments. The British Ambassador at Tokio had kept in close touch with the representatives of other Governments interested. The Foreign Secretary added that he understood that representations had also been made to the Japanese Government by the United States' Ambassador.

FOOD (15)Vitamins, a conclusion.

Vitamins, or the substances from which they are formed are found primarily in plants. The vitamins present in animal food were originally obtained from plant food.

Vitamins are present in very small quantities in different foods and very few food-stuffs contain them all, but they are essential to health and life. A total lack of any one vitamin for three or four months results in death; a shortage of vitamins results in more or less serious ailments. The vitamins cannot be substituted one for the other as various fuel and body building foods can be interchanged.

Vitamins can be removed from food in the milling of cereals or in the water used for cooking. Heating, aging and drying of foods has a harmful effect on certain vitamins. Vitamin A is generally found in all animal fats, except lard, and in green vegetables. Cod Liver Oil is the best source; it is stored in the Liver and need not, therefore, be taken daily if it is taken in sufficient quantities. Vitamin A is essential for growth; it protects us from many infections, especially those of the eye, ear and nose, lack of it leads to serious eye trouble. Vitamin D is usually found together with Vitamin A, in most animal fats. It is also stored in the liver and can be made in the body by the action of ultra-violet light upon a substance called ergosterol which is found in some of our food. This vitamin protects us from rickets, in the absence of sunlight, it is essential for the formation of good, healthy teeth.

Vitamin C occurs in fresh fruit and vegetables; chiefly in the citrous fruits, orange, lemon and grapefruit: there are valuable quantities in tomatoes, potatoes and raw swede juice. It is not stored in the body and should be taken daily.

A lack of Vitamin C causes scurvy; a shortage of it has a bad effect on the teeth and gums.

Vitamin B or B1 is chiefly found in the seeds of plants, in eggs and in the internal organs of animals, yeast and wheat germ are the richest sources. It is not stored in the body, therefore a daily supply is needed.

A lack of Vitamin B or B1, leads to Beri-Beri; a shortage causes many ailments common amongst civilized people, such ailments as indigestion, constipation, colitis, headaches, anaemia, nerve and heart troubles.

Vitamin B2 or G is found in meat and is also found together with Vitamin B1 in yeast, wheat germ and some other foods. It is only stored to a very limited extent therefore it should be taken frequently.

A lack of this Vitamin leads to pellagra, a shortage leads to digestive troubles, skin eruptions and mental symptoms.

Vitamin E like Vitamins A and D is also found in fats but it is found in some vegetable oils which do not contain the other two vitamins. It has not been discussed separately as any normal diet contains sufficient of the vitamin for health.

NEWS IN BRIEF.

Melbourne Changes in Australia's tariff policy which are expected to increase the annual value of the Commonwealth's imports from Britain by \$3,000,000 came into operation on Saturday. The most important items to receive greatly preferential rates are motor cars and parts. The countries most adversely affected are the United States and Japan.

Rome. The Fascist Directorate and the military authorities held a big national celebration on Sunday, as the anniversary of Italy's entry into the Great War.

London. The Port of London authorities have announced a scheme for the improvement of bridges and for the building of new docks and warehouses and the electrification of quay equipment, the cost of the scheme being estimated at twelve million pounds.

Jerusalem The telephone lines between Jerusalem and Egypt have been cut beyond Gaza and an attempt to blow up a bridge on the outskirts of the city was made on Sunday night. The city is quiet but the tension remains. From the provinces disturbances are reported and more British troops left Cairo for Palestine on Saturday.

Madrid. Senor Juan Ventosa the former Spanish Finance Minister, addressing a group of businessmen on Saturday, warned them that the problem of finance was threatening Spain. He said that although the revenue from taxation had increased by 50% no special expenses were met in the Budget and no reformed plans had been made for the Army and Navy and the deficit had considerably increased.

Haifa. A few minutes before the Negus left Haifa a bomb was thrown into an open-air cinema facing the harbour and two of the audience were wounded, but the incident was not connected with the Emperor's visit, being part of the Arab-Jewish upset.

PLAY BANNED IN PARIS.

It is reported from Paris that a remarkable play entitled "Hitler" which has been showing at a theatre there for two days, has been prohibited by a decree issued by the Prime Minister.

It presented, with lavish imagination, scenes from Hitler's life and concluded with an astonishing tableau representing Hitler in a nightmare gazing at his tomb inscribed with Hebrew characters, and with his ancestors cursing him from underground.

ENTHUSIASM OF YOUNG ITALIANS

A message from Rome states that the tenth drafting of Italian youth into the Fascist Party was celebrated in Rome on Sunday, simultaneously with the twenty-first anniversary of Italy's entry into the world war. 271,000 male and 47,000 female members of the Fascist Youth Organisations swore a solemn oath of fealty to the Duce and thereby became full-fledged Party Members.

Signor Mussolini subsequently delivered a short speech in which he stated that Italy's entry into the war had marked the beginning of the first phase of the Fascist revolution. He then went on to say "we want to prepare the young hosts of the future for the defence of the new Imperium. Inspired by the Fascist spirit they will be invincible." An hour later the Duce reappeared on the balcony to greet war veterans. Addressing these ex-soldiers he demanded whether he had always pursued his goal unflinchingly, a question which was answered by a thunderous "yes" from the crowd. The Duce then added "on this May 24th I solemnly declare that I will do the same in the future."

London. It is reported that 15,000 persons have seen over the liner "Queen Mary" during the last three days. The visitors have each paid 5s/- for admission which goes to Charity.

SUCCESSFUL DANCES

Two of the most enjoyable May-week dances there have been for some years were held in the Town Hall on Monday night and Tuesday night under the auspices of the Stanley Benefit Club.

The Hall was crowded on both occasions and dancing continued until 2 a.m.. On Monday night there was a brave display of new ball frocks and on Tuesday night the order of the evening was Fancy Dress.

Although on Tuesday evening the number of people in Fancy Dress was proportionately

small, the costumes were interesting, gay, and in many cases original. Miss E. Pitaluga, daintily dressed in paper to represent a doll, took the Ladies' Prize while Mr. Len. Summers presented a sad picture of a "boy with toothache" and won the Men's Prize.

We were glad to see so many of our camp friends at the dances. Many people were heard to remark that we seemed to have returned to the "good old days" of the May Ball.

On both nights the bands gave of their best, and the up-to-date dance-hits they played were an indication of their interest and enthusiasm. The winners of the prizes for the "Spot Dance" last night were Mrs Beardmore and Mr. T.K. Miller.

UNREST IN JERUSALEM.

A message from Jerusalem reports that more troops are leaving Cairo for Palestine to-day. Reports in Jewish quarters suggest that Martial Law is likely to be brought into force shortly unless the situation improves quickly.

More troops and armoured cars were sent to Gaza yesterday, and at Reho both incendiarism and the mobilisation of the Jews in their own defence has occurred. The police discovered a burning fuse with dynamite on the railway track near Tulkarem yesterday.

ARRIVALS.

The Hon. N.K. Cameron arrived in Stanley to-day from Port San Carlos and Mr. J. Butler from Douglas.

THE BENEFITES' CONCERT.

On Friday the 22nd, the Benefites presented another of their delightful variety entertainments in aid of the Stanley Benefit Club Children's Party Fund.

Promptly at 8 p.m., on the arrival of His Excellency the **Governor**, the curtain rose on the Band, who gave a spirited rendering of several popular airs and the opening chorus "Ha-cha-cha" with the Caste.

This was followed by a new star in the person of D. Sullivan, who, with chorus, told us of his intention of returning to "The Mountains of the Pine". An interesting monologue then ensued, a famous actor dealing with his morning's post. Although we had heard this piece at some previous entertainment we really enjoyed it as presented by S. Bennett assisted by a most charming "lady" typist. His later monologue "The Green Tie on the little yellow Dog" was a highly amusing indulgence in the sincerest form of flattery and marks Mr. Bennett as one of our leading entertainers. "Our Darkie" (W. Summers) appeared apprehensive lest the Mississippi run dry, but his yodelling seemed to belie his fears which disappeared altogether on his second appearance as Yodelling Ragman, easily the better of his two songs. Mrs. Kelway was at the top of her form, and that her renderings of "Come sing to me" and "Love sends a little gift of Roses" was good was evident by the applause awarded.

The following violin solo "Waltz a la Mode" by Miss N. Lellman was rendered in the style which has made her playing such a popular feature at local concerts. While Mr. E.V. Summers told us in song of "Just Plain Folk" we had an opportunity of seeing this delightful old couple by their own fireside. Our old friend Billy Catten then appeared as a Coster, with "nipper" in the youthful person of Ben Jones. Their methods of reminding us of "The Hymn that I sang as a boy" make us hope to see them together again on the stage before long.

Bearing in mind the recent opening of the "new" "Ship" Hotel, the next item "Bar Work" by the "Local Lads" made us wonder, but when the curtain rose and showed us the parallel bars we settled down to what we thought was to be "just one of those gymn turns". We soon discovered our mistake, however, for the exhibition that followed was easily the best seen here for many years and was certainly the most popular item on the programme. Messrs. R. Campbell, B. Bonner, L. Aldridge and D. Williams are to be congratulated on their excellent performance.

The first half of the programme closed with a vocal sextet. Knowing well the capabilities of each member as a soloist we were rather disappointed with their rendering of "When I grow too old to dream".

After a short interval the second part opened with a song and dance by H. Summers in a "Little Gypsy Tearoom". The "Reverend" R. Hannaford then gave us specimens of epitaphs collected during his rambles through country graveyards. We knew Mrs. E. Summers could sing, and her rendering of "Toselli's Serenade" was excellent. Her second item "Where my Caravan has rested" was even better, in fact just what we expected of her.

A most hopeless muddle, almost ending in tragedy, was fortunately unravelled in a most amusing and masterly manner by Mrs. Pallini, the Misses M. Summers and B. Braxton and Messrs. S. Summers and A. Bonner in a humorous sketch entitled "The Wrong Flat".

Following two Cowboy ballads by the Yodelling Summers Brothers, we again met Billy Catten, this time complete with top hat and cane, who in his inimitable style gave us a laughable account of the carryings-on of one Dan Cupid. Finally the Band gave us another example of their prowess and, with the caste assembled, the curtain fell for the last time to the strains of "Goodbye Hawaii".

So closed a most pleasant evening, which sentiment we believe was echoed by every one of the audience of four hundred who had braved the intense cold of the night.

Benefites' Concert (Continued
from P. 2)

While congratulating the artistes on their various excellent performances we must not forget the amount of work falling to those members of the party who remain practically unseen. The time and trouble taken by Mr. W. Gleadell, the organiser, and Mr. Beardmore, the accompanist, have been well repaid by the satisfaction they may rightly feel over the complete success of the concert. The Children's Party Fund will benefit by some £18 or £20.

NEWS IN BRIEF

Buenos Aires. The ceremonies in connection with the anniversary of Argentine Independence and the fourth centenary of the foundation of Buenos Aires started on Monday. An official decree announces approval of the expenditure of 300,000,000 pesos for the completion of a railway network scheme and it is also announced that an agreement has been reached between the Government and the railway companies removing obstacles to development.

Haifa. The Abyssinian Emperor and party have boarded the British cruiser "Capetown" and are proceeding to Gibraltar where it is understood that he is transferring to the P. and O. Liner "Corfu" for the passage to England. The Crown Prince and the Duke of Harar are accompanying the Emperor but the Empress and her suite are remaining in Jerusalem.

Geneva. The League statement on Sanctions effects, shows that Italian trade with twenty-eight states including Britain, for March, declined by 50% as compared with the corresponding period in 1935.

London. Thousands of people went to Epsom on Monday to see the Derby race course which is in excellent condition. The Aga Khan's horse is one of the best backed.

Cardiff, South Wales. The Miners' Federation has passed a resolution on wages, re-affirming a demand for a mutual agreement and approving a pensions scheme for aged workers whereby owners contribute a pound for a pound with the workers.

Dublin. The Government has issued a statement outlining the conditions under which the air service between Ireland and Great Britain can be jointly operated by Irish and British companies. The Irish Free State services will be developed to include Cork and Galway and linking more British and Continental cities, it is announced.

Cairo. The Premier, Pasha Nahas, read a speech from the throne at the opening of the Egyptian Parliament on Monday and stressed the establishment of a new era of good understanding with Britain, adding the hope that independence for Egypt would be reached by agreement. Marking the return to the constitution the Government declared a general amnesty of all political crimes excepting murder, committed since 1930. He made no reference in his speech to National Defence.

Paris. A message from Paris reports that news has been received from Tientsin that the Chinese Generals, Hsiangchen and Yusan, have been murdered in the Japanese Concession and it is feared that the outrage will constitute a fresh Sino-Japanese incident, political motives being suspected.

London. Eric H. Seelig (Germany) beat Eddie Pearce (South Africa) in a boxing contest on Monday night, on points in a ten rounds contest.

Paris. M. Sarrant, the outgoing Premier, declared on Monday that an international economic conference on entirely new lines must be called to deal with "the death dealing antagonism of national economics, monetary manipulations and dumping."

Frankfurt. The German airship "Hindenberg" has returned from Lakehurst, New Jersey covering the 3,800 miles in 45 hours, 46 minutes beating the record time of her first flight.

Colonel Lindbergh, the United States airman, and his wife were among the guests at a dinner party given by the King at St. James' Palace last night. The guests included Lord and Lady Louis Mountbatten, Mr and Mrs Baldwin, Mr Duff Cooper and Lady Diana Cooper.

NEWS IN BRIEF

New York. Plans for a six day flying service nearly half way round the world from Manila to New York are being contemplated. Giant planes to carry forty people with a speed of 225 miles an hour will be built for tests and the Daily Telegraph correspondent states that the scheme will be subsidised by America's five leading transport companies. If the tests are successful sixty machines will be constructed at a cost of approximately twelve and a half million dollars.

Brussels. As a result of the defeat of his Coalition Party in the elections last Sunday, M. Van Zeeland's Cabinet resigned yesterday and the Socialists are now the largest party in the Chamber.

Ottawa. The great Canadian Memorial to the Canadian war dead on Vimy Ridge, France, is to be unveiled on July 26th by King Edward. President Lebrun will receive the King and 6,000 Canadians will make a pilgrimage there.

Moscow. Believing Germany to be the greatest threat to European peace the Kremlin is urging a compromise with Italy. It is even suggested that the Soviet might accept an alliance with Mussolini in the event of an Anglo-German understanding. Karlradek says that an Anglo-German understanding would antagonize all nations who feared the German aggression.

Capetown. The broadcasting of political speeches by accredited leaders of parties was covered by an amendment to the Broadcasting Bill accepted in the House of Assembly yesterday.

Cleveland, Ohio. Mr. Norman Thomas was nominated as the Socialist candidate for the Presidency by an overwhelming vote by the Socialist National Convention yesterday.

CEREMONY AT BUCKINGHAM PALACE

Seven British Field Marshals headed by the Duke of Connaught attended a ceremony in the State Apartments at Buckingham Palace on Tuesday afternoon, at which the King accepted his Field Marshal's Baton.

His Majesty had previously appeared for the first time in Field Marshal's uniform when he drove in state to St. James' Palace on Tuesday morning to attend the second Levee of his reign. The Baton which the King accepted from the Duke of Connaught, the senior Field-Marshal, bore an inscription which at His Majesty's wish is briefer and simpler than the form usual in the past. The inscription reads "His Majesty King Edward VIII Field Marshal January 21st, 1936."

SHIPWRECK ON YORKSHIRE COAST.Six Lives Lost.

Six lives have been lost as a result of a collision off Aldbrough near Flamborough Head on the Yorkshire coast, between the Hull trawler "Picador" of 424 tons and the London steamer "San Salvador" of 5,804 tons, which occurred in dense fog yesterday morning.

The "Picador", which was returning to Hull from the fishing grounds, sank in three minutes. The "San Salvador", which was bound for the Tyne from South America with a cargo of oil, picked up fourteen of the "Picador's" crew of twenty. The "San Salvador" was damaged and is taking in water.

SEALS OF OFFICE RELINQUISHED

Mr. J.H. Thomas visited Buckingham Palace on Tuesday afternoon to hand over his Seals of Office and to take leave of the King on relinquishing his post as Colonial Secretary.

DERBY WINNER.

The Derby was won by three lengths by the Aga Khan's horse "Mahmoud" at 100/8.

COLLIERY DISASTER IN SOUTHWALES.

It is feared that seven men have lost their lives in a colliery disaster in South Wales. While twenty men of the day shift were at work yesterday in Loveston pit in Pembrokeshire, which has only recently been re-opened after several years, water broke through the roof of the workings which are six hundred feet deep.

Thirteen of the men succeeded in fighting their way to safety. Rescue work is being pursued feverishly but owing to the rising water the difficulties are great. One body has been recovered but nothing has been seen or heard of the six other men who were trapped.

EXCITEMENT IN ENGLAND.

The departure of the liner "Queen Mary" on her maiden voyage across the Atlantic and the race for the Derby stakes at Epsom yesterday drew vast crowds of sightseers and were followed with interest throughout the country and round the world. A description of the sailing of the "Queen Mary" and of the Derby were broadcast at home and on Empire transmissions. Two seconds after the Derby winner passed the post the result had been transmitted by cable and wireless to New York, Buenos Aires and Capetown. It was known in Australia within six seconds.

Crowds estimated at a quarter of a million thronged Southampton docks. The shores of Southampton Water and the heights of the Isle of Wight were crowded with sightseers and the deck of every available steamer and motor boat was crowded, while numbers of aeroplanes flew overhead as the liner cast off and moved slowly from her berth at 3.32 yesterday afternoon. The manoeuvre was carried out perfectly and in less than a quarter of an hour. Then the great vessel,

WEDDING.

A really picturesque wedding was solemnized in the Tabernacle yesterday afternoon by Pastor W.F. McWhan, between Miss Minnie Kiddle and Mr. James King.

The bride is the youngest daughter of Mr and Mrs J.S. Kiddle of Green Patch and the bridegroom is the eldest son of Mr and Mrs F. King of Stanley.

The bride, looking radiant in a beautiful frock of white georgette and wearing a veil and becoming coronet carried a bouquet of fine chrysanthemums and fern and was given away by her Father.

She was attended by a Matron of Honour, Mrs. A. Halliday (her sister) and three bridesmaids - Miss Alma Reynolds and Miss Alma Jones (cousins of the bridegroom) and Miss Audrey Kiddle (niece of the bride).

The frocks of the two elder attendants were of delicate pink crepe with a brown floral design and they wore silver head-bands and had bouquets of chrysanthemums. The two small bridesmaids were daintily dressed in frocks of blue floral voile with floral head-bands to match. The bridegroom had his friend Mr. James Goodwin as Best Man.

The fine calm weather made a perfect setting for the charming group as they came out of the Tabernacle to be greeted by the very large crowd of friends who had assembled.

A reception was held later at Mr. and Mrs. Fred. King's house followed by a dance at the Town Hall where some two hundred friends of the happy couple spent a most enjoyable evening.

We understand that the home of the bride and bridegroom will be in Stanley and we should like to join their many friends in wishing Mr. and Mrs. James King every happiness in the future.

dwarfing all the craft she passed, gathered way and moved rapidly towards the sea. She was dressed over all and before she left the Blue Peter was run up at her fore masthead to join the double house flag of the Cunard White Star Company flying at her after mast.

S H E E PThe Effect Of Early Breeding On
Ewes.

The following is an extract from the Scottish Journal of Agriculture:

"At the beginning of 1927, 244 range-raised Hampshire-Rambouillet ewe lambs that averaged 74 lb. were delivered at the North Dakota Experiment Station at Fargo. Half of these - 122 lambs - were placed in breeding pens to produce lambs in May 1928, the other group was kept open till late in 1928, when both groups were bred to produce lambs in May 1929. Since then both groups have been bred each autumn for May lambs. Except when it was necessary to separate them for the first breeding and lambing season, the ewes have run together the whole time. They were fed liberally enough to produce good growth and development but no attempt was made to force them. In September 1927 they weighed 74 lbs. Of the 122 lambs in the breeding pens in 1927 104 conceived and produced 105 lambs in 1928. This was a production of 86 per cent. on the basis of ewes in the breeding pens. The young mothers had a good supply of milk, but many lambs were weak and had to be hand fed. In spite of the best care that could be given, the mortality was high. Only 78 lambs survived to October 3rd, when they were weaned at an average weight of 68 lbs.

The following May (1929) both groups produced lambs. Amongst the first group which had already given birth to a crop of lambs, the average weight of their lambs at weaning was 1 lb. greater than the other group which had never previously given birth to lambs. In 1930 the average weight of the lambs at weaning was 1 lb. greater for the yearling-bred group in 1929; 3 lb. greater in 1930; 2 lb. greater in 1931, and 5 lb. greater in 1932. The percentage of fat lambs at weaning also has been consistently in favour of the yearling-bred group. The figures are 68 to 62 in 1929; 64 to 58 in 1930; 46 to 45 in 1931, and 18 to 10 in 1932.

It is yet too early to know whether these lamb-bred ewes will outlive their usefulness sooner than those not bred until one year older. At the present time, when the ewes are five and a half years old, no definite indication that such will be the case has been observed. So far the mortality from all causes has been the same, 23 per cent. for each group. It is not the purpose of this paper to recommend the breeding of ewe lambs, but only to present briefly some of the more important results so far obtained!"

EMPIRE DEFENCE

Important developments in the sphere of Empire defence are expected this year and some of the problems are already receiving the closest attention both at home and in the Dominions, according to the Daily Telegraph naval correspondent, who says that the League's dispute with Italy coinciding with the revelation of Germany's rearmament, has impressed the Dominions with the inadequacy of the Commonwealth's defences.

In British circles it is considered imperative that an Imperial Conference for the discussion of these matters should be called for an early date.

Australia is concerned about the future security of the Mediterranean route which is of capital importance both commercially and strategically. Australia and New Zealand are likely to depend more on their own powers of defence and both the dominions are considering substantial additions to their naval and air forces. The correspondent also adds that the Italo-Abyssinia war had sharp repercussions in South Africa where opinion inclines to the view that the British Admiralty will be well advised to develop the Cape route as an alternative line of communication with India and the Far East. It is understood that the Union Government contemplate building new docks at Capetown to take the largest warships, and modernizing the defences at Capetown and Simonstown.

BRITISHER SHOT IN PALESTINE.

A British policeman was fatally shot when returning from patrol duty yesterday in Jerusalem.
 On Wednesday night the police fought a battle with sripers five miles outside Jerusalem and later an armoured car was sent to the spot.
 In London it is considered that the situation is considerably eased and that Palestine is now under effective military control.

The Aga Khan's horse "Mahmoud" won the Derby in record time and his horse "Taj Akbar" at 6/1 was second, while Mrs. Shand's horse "Thankerton" at 33/1 was third.

THE DUCE GRANTS INTERVIEW

A message from Rome reports that Signor Mussolini gave a special interview to the "Daily Telegraph" diplomatic correspondent yesterday and discussed the vital questions which Europe is confronted with following Italy's success in Abyssinia.

The Duce declared that the end of Sanctions would mark the entry of Italy into the ranks of satisfied nations. He said that the Garrison in Libya would remain until the situation in the Mediterranean had eased, "the whole force would be brought home as soon as the British ships were withdrawn."

The Duce said that in preparing the organization and Constitution of the new Empire they will take into account the experience of the British Empire. He added that he saw no reason for an armament race in Africa and said that other Mediterranean States had nothing to fear in Italy's policy, they would respect the Treaties of friendship with Greece and Turkey and their sole object concerning Albania was to respect its independence.

MESSAGES FROM LINER

Messages from the liner "Queen Mary" received yesterday record a run of 326 knots from Cherbourg, accomplished at an average speed of 28.75 knots an hour.

The passengers are unanimous in declaring her a marvellously comfortable ship. They say that there is almost a complete absence of vibration and out of sight of the sea itself it is hard to believe that one is on board a ship.

School children all over

Great Britain will listen-in to-day to a description broadcast from the liner in mid-ocean specially arranged for schools.

Sir Edgar Britten, the Commander, and Mr. Llewellyn Roberts the Chief Engineer, will go to the microphone and themselves tell the children something of their work and responsibilities.

INCREASE IN NAVAL EXPENDITURE

In a debate on the supplementary estimate of £10,300,000 for a new programme of naval construction in the House of Commons yesterday, Lord Stanley, the Parliamentary Secretary to the Admiralty, said that he shared the Opposition's regret at the necessity for this very considerable increase in naval expenditure.

Lord Stanley said that he could only repeat that they were not building against any single country but that it had been proved by the mere fact that Germany, France and Italy were all building battleships that the day of the battleship was not over and it was essential to start as early as possible in replacing the rapidly ageing British Battle-fleet.

APPOINTMENT .

His Majesty the King has approved the appointment of Mr. R.B. Ewbank as a member of the Commission of the Government of Newfoundland to succeed Sir John Hope Simpson in September next.

ESTATE OF THE LATE EARL BEATTY.

The estate of the late Admiral of the Fleet, Earl Beatty, has been proved at £174,902.

London. Herr von Ribbentrop arrived in England by air yesterday on a private visit to friends.

SITUATION IN PALESTINE

The Dominions Secretary made a statement in the House of Commons yesterday on the situation in Palestine. He said that while some measure of disturbance was still reported in various parts of the country he was glad to say that the general situation had shown distinct improvement in the last two or three days. Mr. Malcolm MacDonald referred with regret to the shooting in the old city of Jerusalem on Thursday, of a British constable, and went on to state that the High Commissioner was satisfied that the forces at his disposal were at present adequate.

GOVERNMENT SCHOOL.

Standard 5 had a half-holiday yesterday to mark the completion of four weeks unbroken attendance. During the sixteen weeks the school has been open this year the class has made 100% attendance during ten weeks, and their average for the whole period is 99%.

Reports that another additional battalion had been sent to Palestine from Egypt were without foundation.

Alluding to an announcement in the press that tear gas was being held in reserve by the Palestine Police for use in certain contingencies in the suppression of civil disorder, he informed the House that the High Commissioner had published a statement for the information of the public in Palestine, reassuring them as to the non-lethal and entirely harmless nature of the vapour to be employed, and explaining its use had only been authorized, should occasion arise, in order to avoid as far as possible the necessity for employing measures for the preservation of law and order that might result in loss of life or serious injury.

CONGRATULATIONS

It is understood that Mr. G.W. Butcher, Chief Electrician, has been offered and has accepted the appointment of Broadcast Officer in the Gold Coast.

We tender our heartiest congratulations to Mr. Butcher on his promotion.

OBITUARY. Lord Darling, the well-known Judge of the King's Bench Division who retired in 1923, died yesterday. Lord Darling was the oldest surviving King's Counsel, having taken silk in 1885.

SERIOUS STRIKES IN PARIS.

"Stay in" strikes by French metal workers developed so seriously yesterday that the Premier M. Sarrant personally took charge of the situation and discussed emergency measures with various ministers.

26,000 employees of the Renault motor works at Billancourt ceased work yesterday.

GERMANY WANTS COLONIES

A message from Berlin reports that the recovery of Germany's lost colonies is an essential part of the Nazi programme according to a booklet published with official approval.

It is entitled "Colonies or Not". Dr. Schacht, the President of the Reich Bank and Minister of Economics, in the foreword says "In her old colonies Germany found valuable expansion for her raw material resources. As recent developments show these are a real necessity for an over-populated industrial country. It is therefore economically and politically impossible to withhold from Germany the administration of her old Colonial possessions."

DRUG TRAFFIC IN FAR EAST.

It is reported from Geneva that Mr. S.J. Fuller, the United States' delegate on the League Opium Committee, criticised the Japanese for their failure to check the drug traffic in the Far East. He said that the Japanese were responsible for "almost unbelievable conditions" in various parts of China.

London. The Foreign Secretary, Mr. Anthony Eden, will spend the Whitsuntide holiday in the Country.

NEWS IN BRIEF

Tokio. Japan has protested to the Australian Government against the Commonwealth's new Tariff revision, and the imposition of counter measures is under consideration

London. The Duke of Montrose has resigned from the Conservative Party of which he has been a member for thirty-six years and has joined the Liberal Party because the Liberals have accepted the principle of Scottish self-government in domestic affairs.

Cairo. The Egyptian Cabinet decided last night not to use the option of the Egyptian Government on shares in the Mosul oilfields.

Dublin. Mr. de Valera in the Dail yesterday, moving a resolution finally abolishing the senate, which he described as a positive danger to the country, said that the new constitution for the Irish Free State will be drafted in autumn but whether it will be based on a single or double Chamber depended on the possibility of devising a Chamber which will be of value and not danger.

London. The first regular air service between the Irish Free State and Britain was inaugurated on Thursday when a plane left Dublin for Bristol. The scheme is being operated jointly by the Free State Companies and British Companies.

Malvern. Miss Dorothy Round and Miss Freda James qualified for the final in the women's singles for the Worcestershire Tennis Championships yesterday. Miss Round beat Miss Hobson 6/2 6/0 and Miss James beat Miss Fox 6/1 6/2.

London. It was announced on board the liner "Queen Mary" at noon yesterday that her run during the previous 24 hours totalled 747 miles. This is three miles more than the "Normandie" does in a day.

Gibraltar. Press telegrams report that the Emperor of Ethiopia who arrived there yesterday travelling incognito, lunched with the Governor and is staying at the Rock Hotel until Sunday when he will sail for England.

LEGISLATIVE COUNCIL

In the course of the business transacted at the meeting of the Legislative Council held in the Court and Council Chamber at the Town Hall, on Thursday the 28th of May, and presided over by His Excellency the Governor, eleven Bills were passed.

The meeting commenced at 11.0 a.m. and adjourned sine die at 12.0 noon.

The members present in addition to His Excellency the Governor were: Major the Honourable M.J. Stewart, Acting Colonial Secretary, the Honourable R.L. Cheverton, Senior Medical Officer, the Honourable G. Roberts, J.P. Director of Public Works, the Honourable N. Keith-Cameron, J.P. and the Honourable V.A.H. Biggs. Mr. A.I. Fleuret, Clerk of the Legislative Council, was also in attendance.

Prior to the commencement of business His Excellency and the members of the Council took the Oath of Allegiance to His Majesty King Edward VIII.

MESSAGE FROM HIS EXCELLENCY THE GOVERNOR

His Excellency delivered the following Message to the Council:

"Honourable Members of Legislative Council,
This is the first Session of the Falkland Island Legislature since the death of our beloved Sovereign King George V. and Honourable Members will wish me to record our sense of grief at the loss of One Whom we have so deeply mourned in common with the whole Empire.

We will also wish to record at this Session the profound devotion of the Legislature and the people of the Colony to the throne and person of His Majesty King Edward the VIIIth."

"Comparative statements of the Revenue and Expenditure of the Colony for the year 1935 will be laid before you to-day with the Treasurer's financial report.

You will observe that the surplus Assets of the Colony decreased by £10,102 during the past year although the total expenditure of the Government was lower than the amount provided in the Budget by this Council in 1934. Certain unforeseen and indeed unforeseeable charges were made against the expenditure side of the accounts and the revenue fell short of the estimate for the reasons detailed by the Treasurer. Fortunately the deficit is mainly ascribable to the Government system of accounting and it has not been necessary to realize any of the Colony's vested securities. None the less the need for careful administration of the finances is indicated.

At the last meeting of this Council I informed Honourable Members that the Treasurer would be charged with the duty of investigating the cost of administration with a view to effecting economies. The Treasurer has furnished me with a report which is now in the hands of the Secretary of State for the Colonies and you will in due course be invited to consider certain reductions in expenditure which can it is believed be effected without sacrifice of efficiency.

It is much to be deplored for the sake of the men concerned and their dependents that conditions of unemployment still continue. There was a decrease in the earlier part of the second year of relief payments of from 50 to 37 in the average number receiving relief weekly but the tendency is now upwards as is temporarily inevitable in the winter months. I must once again urge private employers and particularly farmers to engage extra labour whenever possible. The rise in the price of wool and oil and certain other factors give hope of increased trade and employment but no satisfaction can be felt while any man is out of employment who is willing and able to engage for work.

HIS EXCELLENCY'S MESSAGE (Continued from Page 3)

"It will become necessary shortly to replace the Government launch "Penguin" which has now been in service for over 27 years. The means are available from a renewals fund which has been built up in the course of years and it is hoped to procure a vessel early in 1937. I have considered it desirable to secure a vessel fitted for visiting the West Falklands and the outlying islands when not required for harbour duties. Tenders have been called from firms in the United Kingdom and you will be asked to approve of the expenditure when the amount has been ascertained.

You will be asked to consider and enact some twelve bills to-day covering a wide variety of subjects. The more important from a local standpoint are those relating to inheritance, the restriction on deposits in the Savings Bank and their safeguard, the control of cattle on the Common and the Workmen's Compensation Bill."

RESOLUTIONS.

Three resolutions were passed, the first and second authorizing additional provisions required for the years 1935 and 1936 respectively while the third sanctioned the payment of sums of £277.17. 3., £1,987. 12. 4., and £2,903. 18. 10. from the Dependencies Research and Development Fund into the revenue of the Colony on account of the balance of the Contributions of the Dependencies to the Central Administration for the year 1933, 1934 and 1935, respectively.

BILLS.

The Council then passed the following Bills:

- (i) A Bill to amend the Dependencies Research and Development Fund Ordinance 1924 and to validate certain payments in connection with the Fund.
- (ii) A Bill to declare the Law relating to Motor Cars.
- (iii) A Bill entitled The Immigration (Restriction) Ordinance, 1936.
- (iv) A Bill to amend the Probate and unrepresented Estates Ordinance 1901.
- (v) A Bill to regulate the Branding of Cattle depastured on Stanley Common.
- (vi) A Bill to provide for the succession to Real and Personal Estate on Intestacy.
- (vii) A Bill to govern the control and management of the Savings Bank.
- (viii) A Bill to legalize certain payments made in the year One Thousand Nine hundred and Thirty-five in excess of the Expenditure sanctioned by Ordinance, No. 6 of 1934.
- (ix) A Bill to consolidate and amend the laws relating to Whale Fishery in the Colony of the Falkland Islands and its Dependencies.
- (x) A Bill to extend to the Colony and Dependencies thereof the Counterfeit Currency (Convention) Act, 1935, of the Imperial Parliament.
- (xi) A Bill to amend the law with respect to Compensation to Workmen for accidental injuries in the course of their employment.

WHITSUNTIDE HOLIDAYS

The Air Ministry forecast a showery Whitsun holiday period with comparatively low temperatures, but thousands of motorists made for the south coast. Rail traffic has been heavy but all the travellers were sombrely attired. The Cornish Riviera was much favoured and a record number of excursions were run on Sunday. A thunderstorm over Folkestone ended six weeks' drought in East Kent yesterday.

ISSUE OF NEW NOTES.

A press message from Berlin reports that the Reichsbank has announced that a new series of 100 reichsmark notes will be issued shortly and the old notes will be withdrawn as a step towards the checking of currency smuggling.

INTERNATIONAL HORSE SHOW

The Lord Mayor of London, Sir Percy Vincent, opened the International horse show at Olympia on Saturday, where 11,000 equine aristocrats, comprising the cream of European stables, have assembled for ten days of displays and competitions.

GERMAN FLEET MANOEUVRES

Herr Hitler watched the combined German Fleet manoeuvres in the Baltic outside Kiel on Saturday from the "Pocket" battleship "Deutschland". It is the biggest display of naval strength in German waters since the Great War.

GOLD MEDAL FOR AMY.

In recognition of her many Empire flights, the Royal Aero Club awarded its Gold Medal to Mrs. Amy Mollison on Saturday night.

EVEREST EXPEDITION ENCOUNTERSFURTHER DIFFICULTIES

Mr. Hugh Ruttledge, leader of the Everest Expedition, in a radio message to the Daily Telegraph, says that the monsoon breaking unexpectedly early on Mount Everest and with great force, has driven the party back to Camp 1. Mr. Ruttledge declares that the climbers are determined not to abandon the struggle; he says that they may try to climb the North Column by night. The route they had planned to take on the final assault is now impassable and they are now considering making another attempt to ascend the great wall known as the "First Step".

It was on this route that Mallory and Irvine perished in 1924. The 1933 expedition pronounced the wall unclimbable.

ILLICIT DRUG TRADE

A resolution urging Japan to take stronger measures to combat the illicit drug trade was passed at Geneva on Saturday by the League Opium Committee.

FRENCH STRIKERS ADAMANT

The "Stay In" strike movement in which workers refuse to leave the factories in Paris, is spreading despite the earlier hopes of settlement, states the Daily Telegraph correspondent. There are now 60,000 men occupying factories in the Paris area. Gates and windows are festooned with red flags. The strikers demand a forty hour week. On Saturday M. Herriot's newspaper asks who originated the movement, what its scope and aims are, and whether any attempt is being made to bring in Radicals. The conference of employers and workers fixed for Saturday was cancelled as it was made conditional on the resumption of work on Saturday night.

FUNERAL OF THE LATE MR. G. ALAZIA.

The funeral of the late Mr. G. Alazia, who passed away on Wednesday, 27th of May, took place at Christ Church Cathedral on Saturday afternoon, the service being conducted by Mr. T. Binnie (Lay Reader), assisted by Mr. N. Gurney.

The cortege left the house at 2 p.m. the chief mourners being :- Mrs. Alazia (widow), Mr. J. Alazia (brother), Mr. J.W. Alazia, Mr.G.J. Alazia, and Mr. A.J. Alazia (sons), Mrs T. Hennah and Mrs. G. Bennett (daughters), Mr. T. Hennah minor (grand-son), Mr. W. Miller, Mr. and Mrs. J. Miller (brothers and sister-in-law), Misses G. and H. Miller (nieces), Messrs. T. Hennah Jnr. and G. Bennett (sons-in-law), Miss E. Lellman, Mr. and Mrs. Crawford, Mr and Mrs. V. Lellman and Mr. R. Lellman.

A number of the members of the Stanley Benefit Club and of the Reform League, institutions of which he had been a member, and a number of his friends and workmates, attended the funeral.

A large number of wreaths and beautiful flowers were sent by his many relatives and friends.

Mr. Alazia is survived by his widow, three sons and six daughters, to whom we extend our deepest sympathy.

Mrs. Alazia wishes to thank all those who kindly sent flowers and wreaths and helped during her sad bereavement.

SERIOUS STRIKE IN SPAIN.

A message from Madrid reports that six steamers and numerous trawlers are held up at the port of Vigo, they are prevented from leaving by the sudden outbreak of a strike of dock workers, coal depot workers and seamen.

It is expected that the trans-Atlantic liners will be forced to use Lisbon as a port of call during the duration of the strike, instead of making their usual stop at Vigo.

A report from Ceuta in Spanish Morocco states that a general strike has been proclaimed in that city and that traffic in the port of Ceuta has come to a complete standstill. Numerous ships which ordinarily would replenish their coal supplies at Ceuta have been forced to proceed to Gibraltar for refuelling.

MEMORIAL SERVICE

At a Memorial Service in honour of the soldiers and sailors of the United States, held at St. Margaret's Westminster, yesterday, Dr. Iddons Bell the Canon of the Province of Rhode Island, New York, said that the United States and Britain may fight one another unless pains are taken to understand the common destiny. It is unwise, he said, to rely on common blood as a bond of unity. The hope of continue peace and unity between England and America would be found in a co-operation for the larger welfare of the whole world.

RECONSTRUCTION OF THE LEAGUE OFNATIONS URGED.

The reconstruction of the League of Nations was urged by the Archbishop of Canterbury at the Chapel Royal, St. James' Palace, yesterday. The Primate said that we had seen the League apparently impotent to restrain a deliberate act of aggression by a European power. The hard lesson of experience proves that there must be some reconstruction of the League Covenant if it is to fulfil its high purpose.

Commenting on world affairs the Primate declared that there was confusion and perplexity everywhere and that no-one seemed to know the way out of the tangle of national selfishness, mistrust and fear.

London. Lord Darling, the famous Judge who died on Friday, was buried with quiet ceremony at Beaulieu Abbey Church yesterday.

F O O D 16.

Doctors are more concerned nowadays with the problem of food because they now realize the vital connection between food and health more scientifically than before. Since the days of the Greeks, doctors have realized that there is some connection between food and health and ordered diets some of which now seem fantastic, though others have been proved scientifically correct. Doctors used to be mainly concerned with the curing of diseases. They are now interested in preventing them, which means studying their early causes and symptoms.

They have thus found that some foods protect us from certain diseases and that others build up our resistance to all infections.

But it is useless for doctors to keep the knowledge to themselves, or to impart it to people only when they have fallen ill. In order that the science of nutrition may be of value in the world its teachings must be spread amongst the people. We should all know something of the values of food to be able to make out menus which are not only palatable but good for health.

The aim of public health measures nowadays is to produce a people who are physically A1, people who are not merely not ill but those who are positively well. At present, unfortunately, there is an excessive proportion of people who are C3 physically, due to faulty feeding in infancy and childhood when correct food is more essential.

DISCOVERY IN NEW YORK HARBOUR.

A submarine canyon, forty-five miles long and 3,600 feet deeper than the surrounding ocean bed, has been discovered at the entrance of New York Harbour.

When the canyon has been fully charted it is expected to be of great assistance to navigators entering and leaving the harbour in fog.

OFFICIAL WELCOME FOR THE LINER"QUEEN MARY"

It is reported from New York that the most elaborate plans are being made there to give the Cunard Liner "Queen Mary" one of the warmest official welcomes ever extended to a ship entering New York under a foreign flag.

Hundreds of thousands of people will line the water-front as the "Queen Mary", surrounded by escorting craft and airplanes circling above, steams into harbour.

The Mayor and a reception committee of prominent New York people, led by Dr. Nicholas Butler, will greet the vessel as soon as she arrives.

A later press message reports that the liner arrived at New York at 2.30 p.m. yesterday. (See Page 4.)

CHANGE OF RELIGION

A message from Bombay reports that a conference of the depressed classes yesterday passed a resolution that a change of religion was the only method of securing equality and freedom for the depressed classes in India. The delegates agreed to change their religion en masse and as a first step decided to give up the worship of Hindu deities and the observance of Hindu festivals.

STRONG ANTI-JAPANESE FEELING

A message from Tientsin reports that anti-Japanese feeling has become more intense than ever in North China.

The Japanese Generals have had a conference discussing what steps were necessary following the attempt on Sunday to wreck a Japanese troop train, by the Chinese.

The Japanese garrison strength at Tientsin is now 10,000.

The Japanese yesterday demanded the resignation of Mr. Hsiao, Tientsin's Mayor. Senior officers in General Sung's army have decided to resist the request.

"QUEEN MARY" REACHES NEW YORK

The speed for the entire voyage of the "Queen Mary" is given as 29.13 knots. The "Normandie's" average speed on her maiden voyage was 29.68 knots. The liner "Normandie", which arrived at Le Havre shortly after mid-day yesterday from New York reached thirty-two knots on the last lap of her voyage; according to a message from Paris. This constitutes a new record for the vessel, the previous fastest speed of which was 31.55 knots.

The determination of the Cunard White Star Line and of the "Queen Mary's" Commodore, Sir Edgar Britten, to make no attempt on the Atlantic record on the maiden voyage which would not be consistent with due care and respect for the liner's new machinery during the running-in period, was welcome. Nevertheless as the news came through of the great ship's magnificent progress for the first three days of the voyage, the possibility that she would beat the record without a special effort began to be canvassed. This idea was finally abandoned on Sunday however, when it was learned that the "Queen Mary" had had to reduce speed for several hours owing to fog. In all the circumstances satisfaction is very generally expressed at her performance on her first Atlantic crossing which is held to have fully justified the high hopes which her designers, builders, owners and indeed the whole nation, had set upon her.

The "Queen Mary" twice broke the record for a day's run. Between noon on Thursday and noon on Friday she covered 747 miles at an average speed of 29.88 knots and on the next twenty-four hours' run she did 766 miles at an average of 30.64 knots. For the next whole day's run her mileage dropped owing to fog to 678 miles at 27.12 knots. On the last stage of the voyage until she reached Ambrose Lighthouse she covered 641 miles at 29.07 knots. When still some miles from Ambrose Lighthouse she slowed down to half-speed, disappointing the passengers who had expected a last spurt.

Messages from New York describe the welcome which hundreds of thousands of people gave to the new liner on her arrival. Many thousands were standing on the roofs of motor cars on the hills overlooking the entrance to the narrows, and watched the last stage of this historic maiden trip. Aeroplanes hovered overhead and the crowds massed by Battery Point cheered lustily as the "Queen Mary" passed into the Hudson River for docking at her Fifteenth Street berth.

The liner docked in exactly twenty minutes without mishap and left quarantine some little time later amid a pandemonium of deep-throated and shrill sirens from hundreds of craft of all sizes. The triumphal progress to the 10,000,000 dollar pier was frantically cheered by millions of holiday-makers on the water-front. The windows and roofs of the skyscrapers were black with people and Union Jacks fluttered from all the highest buildings while the hawkers in the streets did a roaring trade in Union Jacks, pennants, models of the "Queen Mary" and even nautical caps. Twelve aeroplanes dived and dipped dangerously overhead, frequently being hidden in the dense smoke belching from the funnels of fifty vessels racing alongside the liner. The Customs officials, mindful of the chaos when the "Normandie" arrived on her maiden voyage, had two hundred and fifty inspectors on board. The passengers' tips to the stewards are estimated at £5,000.

WHITSUNTIDE HOLIDAYS.

It is reported from London that Britain has had the coldest Whitsuntide for twenty-nine years this year, with hail and thunder in several districts. This weather has resulted in the crowds showing preference for indoor places of entertainment and museums, theatres and cinemas have had large attendances.

Tokio. China's official protest against the increase in the Japanese Garrison at Tientsin has been rejected.

The Emperor of Abyssinia who left Gibraltar in the liner "Orford" yesterday bound for London, tendered his sincere thanks for the courtesies paid to him during his visit.

LUNGWORM DISEASE.

This is a disease caused by certain worms living in the lungs of animals and gives rise to a persistent bronchitis and broncho-pneumonia. The disease is found in all countries, often in epidemic form, for example in Buenos Aires some years ago: three-fourths of all sheep died from this parasitic bronchitis.

It is a pasture sickness, found amongst animals feeding on low lying marshy pastures. Sheep and goats are the chief victims, although lungworm disease is found amongst horses, dogs, cats, rabbits and hares; it is essentially a herd disease. Young animals are more liable to be attacked, especially towards the end of the summer, if it has been a wet season. The worms are not very resistant to cold therefore do not survive the winter, during this part of the year the adult sheep is the carrier.

Five different kinds of worms are found in the lungs of sheep. *Strongylus (Dictyocaulus) filaria*; *Strongylus (Muellerius) capillaris* known as lung hairworm; *Protostrongylus rufescens*; *Strongylus paradoxus*; *Strongylus commutatus*.

The commonest worm is the *Dictyocaulus filaria*, the second and third worms less common and the last two only occasionally found.

The history of the *Strongylus (Dictyocaulus) filaria* will be given as it is typical of the group. It is a Round worm measuring $1\frac{3}{4}$ " - 4", the female being the larger. The eggs for the greater part are hatched in the lungs and intestines then passed out in the droppings or coughed-up, during their first stage of development. Some of the larger eggs may be passed by the animal and develop on the ground provided the weather is not too cold.

From six to fifteen days after the eggs or the immature worms are passed the parasite becomes infectious and lives in water or on the blades of grass when the dew is heavy and the weather mild but dull.

Next, the sheep drinks the infected water or eats the grass. Within three days of entering the intestine the worm passes through the guts into the lymphatic glands and is found in the lungs seven days later that is to say ten days from the time it was eaten or drunk in the water.

However, it takes a further 6 weeks for the worm to grow to its adult stage in the lungs. It is interesting to note that these worms may be found in the lungs of unborn lambs of infected ewes.

Considerable irritation is caused in the lungs by these parasites, and bronchitis, often with pneumonia, is the result. Apart from the irritation, the animals may have their breathing hampered by large accumulations of the worms in the larger air passages.

The sheep suffer from a characteristic cough, which is short, dry and strong, and a discharge from the nose. The irritation in the nose makes the animals rub their noses on the ground to such an extent as to remove the skin. In the more advanced cases the sheep gets fits of coughing and brings up large pieces of phlegm, which contain eggs and worms, death often being caused by suffocation and from weakness.

Many remedies have been tried, but no one treatment is altogether successful.

(i) Breathing in of vapours such as burning sulphur, carbolic preparations and chloroform.

(ii) Injections into the wind pipe of iodine solutions, Creosote, benzol, turpentine and phenol in water or oil.

(iii) The giving by mouth of carbon tetrachloride, benzol compounds and arsenic in various forms.

(iv) Tonics and good feeding in conjunction with the above mentioned drugs.

Every effort should be made to prevent the disease by drainage of low lying pastures and treatment with double quantities of lime, superphosphates, and kainit if a 'sick' pasture is suspected.

EVEREST EXPEDITION TO ABANDONEFFORTS NOW ?

A Message from Darjeeling reports that the untimely monsoon has nullified several years' careful preparations to conquer Mount Everest. Frustrated in their original plans the climbers, led by Mr. Hugh Ruttledge, were recently reported to be contemplating an attempt on a hazardous route to the summit which experts regarded as practically impossible, but in consequence of the latest weather forecasts that the monsoon is strongly active in the Everest region and that there is no prospect of an early improvement, the local experts describe the position as hopeless and anticipate that the party will have to abandon its efforts for this year.

FOREIGN SECRETARY RETURNSTO WORK

The Foreign Secretary, who has been spending the week-end in the country, returned to the Foreign Office yesterday. During the morning he saw the Argentine Ambassador who gave him the first official intimation which the British Government has received of the proposal put forward by the Argentine Government for the early summoning of the League Assembly. Details of the proposal will be communicated from Geneva to the British and other League Governments in due course by the Secretariat.

FINDINGS OF THE JUDICIAL TRIBUNAL

That there was an unauthorised disclosure of information from this year's Budget, and that use was made of that information for private gain, are among the findings of the Judicial Tribunal appointed by Parliament on May 5th to inquire into certain allegations to that effect.

The Report of the Tribunal, which was issued last night is addressed to the Home Secretary and signed by the three members, Mr. Justice Porter of the King's Bench Division and Messrs. G. Simmond and Roland Oliver both King's Counsel. The Report recalls that the question of the leakage of Budget secrets was brought to the notice of the Chancellor of the Exchequer by information derived from Lloyds of an undue amount of insurance against Budget risks. Preliminary enquiries showed that the important business emanated from three groups. In the case of insurances effected in the name of Mr. W.J.C. Atkinson the Tribunal unhesitatingly accepts the evidence that they were not prompted by improper information.

Other business was done first by Mr. Alfred Bates or persons who were influenced by him or by his agents and secondly by Sir Alfred Butt, both of whom, the report states, are old friends of Mr. J.H. Thomas.

The Report, which is a document of over eight thousand words, reviews in detail the evidence the Tribunal received regarding the transactions. The Tribunal's conclusions, having regard to the evidence and the demeanour of the witnesses is that "there was an unauthorised disclosure of information relating to the Budget for the present year by Mr. J.H. Thomas to Mr. Bates and to Sir Alfred Butt and that use was made of this information for the purpose of his private gain by Mr. Alfred Bates and by Sir Alfred Butt."

The Report continues, "we unhesitatingly accept the evidence of the Cabinet and Treasury Officials as regards themselves and their subordinates and those engaged in the Civil Service generally including printers. We find no shred of evidence to suggest that any of these persons was ever in communication with any of those who effected insurances."

NEWS IN BRIEF.

London. The Home Office announce that the King has signified his intention to alter the status of the Royal Victorian Order in order to permit the admission of women to the order.

Canberra, Australia. A favourable trade balance for the ten months which ended in April is reported to be £28,423,000 as compared with £17,871,000 in the corresponding period ending in 1935.

Washington The Senate has passed a commodity exchange control bill designed to regulate trading in American commodities.

Cairo. The High Commissioner, Sir Miles Lampson, left for London yesterday to consult with the British Government concerning the hitch in the Anglo-Egyptian talks. The present discussions are concerned with the British military occupation of the Suez Canal area and Sudan.

Tokio. Newspapers report that next year's national defence appropriations will exceed 1,400,000,000 yen. The navy and the army are expected to demand 700,000,000 yen each. The re-organization of the Japanese combined fleet and the creation of a third air-service unit are plans which were announced on Tuesday.

New York. A message from New York reports that the Italian-Americans contributed towards the cost of a throne for the Viceroy at Addis Ababa and had it made by Brooklyn cabinet makers and it will shortly be despatched to Africa.

Brussels. M. Van Zeeland, the Premier who resigned after the recent Belgian elections, has declined to form a new Cabinet. It is understood that the King is inviting the Socialist leader M. Van Dervelde to form a Ministry.

Rome. By a decree issued by the Italian Government the buying of all home grown and imported grain will be disciplined.

RACE FOR PRIZE OF £10,000

It is reported from London that plans are being prepared for an air race from England to South Africa to coincide with the British Empire Exhibition at Johannesburg in September, with a prize of £10,000 given by Mr. I.W. Schlesinger, the South African magnate.

The entire control of the organization will be vested in the Royal Aero Club and will be confined to aircraft of Empire manufacture.

The route will probably be from London over Europe to Cairo, the Nile Valley, Uganda, Tanganyika and then Johannesburg. A massed start is planned for the opening day of the exhibition. The South African Government have promised their assistance and the British Air Ministry have completely approved of the idea.

CONFIDENCE IN THE LEAGUE OF NATIONS
ATTACK ON THE TREATY OF VERSAILLES.

A message from Capetown states that an attack by the Premier, General Hertzog, on the Versailles Treaty was a feature of an interesting debate on the League of Nations in the South African Senate yesterday.

The Debate was inspired by the motion of Dr. Visser, the Vice-President of the Senate, that "the activities of the League should be limited to the interests of world peace and the application of pacifist measures." Dr. Visser charged the League with hypocrisy and subservience to Britain, France and Soviet Russia.

During the debate Premier Hertzog vigorously attacked "the accursed Treaty of Versailles" which he described as the world's greatest source of friction and a driving force towards war. Replying to Mr. Mallan's amendment that the League should convene a world conference to grapple with cases of fear and strife, the Premier said, that without the League there would have been a dozen wars instead of one. The Premier expressed confidence that the League would yet attain its high ideals, its failure he said, would lead to the destruction of civilization.

ITALIAN CASUALTIES

A message from Rome reports that Italy's losses in Abyssinia were published yesterday and show that 1,304 officers and men of the Italian Divisions were killed or died of wounds in addition to the 1,009 who died from disease, making a total of 2313. 1,593 native troops were killed.

CONTINUED STRIKES IN FRANCE.

It is reported from Paris that the "Stay In" strikes which were thought to be coming to an end have suddenly flared up again and have spread throughout France and have now assumed alarming proportions.

Eighty factories and 100,000 workers are now affected.

IRELAND WINS AGAIN .

POLITICAL MEETINGS FORBIDDEN

It is reported from Madrid that the Spanish Government has forbidden all political meetings in order to stop violence from "the right or left."

RELIEF WORK EXPENDITURE

News from Washington states that the Senate has passed a deficiency appropriation bill providing 1500,000,000 dollars as requested by the President for relief work expenditures.

HIS MAJESTY MAKES A TOUR OF THEDUCHY OF CORNWALL ESTATE.

His Majesty the King received a very warm welcome on his informal tour yesterday of the Duchy of Cornwall Estate. Large crowds had gathered all along the route followed by the Royal Party and a number of impromptu ceremonies were staged by the local bodies at each halt.

The tour started from the small Devonshire village of Bradninch which has not seen a King since the days of the Civil Wars when King Charles II passed through it as a fugitive.

At Exeter His Majesty was met at the City boundary by the Mayor and Corporation and there took place the historical ceremony of the Civic Sword in which the King touches the hilt to signify his satisfaction that Exeter remains worthy to retain the sword which was presented to the City in 1497 by King Henry VII.

The King then drove across Dartmoor and the tour was continued through Cornwall. During his visit to the home farm the King inspected his own herd of prize red Devon cattle. His Majesty left for London at 6 p.m. in his private aeroplane.

EMPEROR ARRIVES IN LONDON.

The Emperor of Ethiopia arrived in England yesterday accompanied by his two sons, the Crown Prince and the Duke of Harar, and his daughter Princess Tshai, also a small suite including Ras Hassa. Both at Southampton where he was met by the Ethiopian Minister and in London where he was met by Dr. Martin, the crowds which had assembled cheered loudly. At Waterloo Station he was greeted by the Private Secretary of the Foreign Secretary on his behalf, and he was also welcomed by a number of public men and women connected with the recently formed Abyssinian Association and by members of the Ethiopian Colony in London.

While in London he is staying at a residence in Prince's Gate, Hyde Park, adjoining the Abyssinian Legation.

MEMORIAL FUND OPENED.

The King George V. Memorial Fund was opened yesterday on the anniversary of the late King's Birthday, with an appeal by the Lord Mayor on behalf of the National Memorial which is to take the form of a statue in Westminster on a specially cleared site between the Houses of Parliament and Westminster Abbey, and of playing fields throughout the country.

Early subscriptions include a thousand guineas from Lord Wakefield and another thousand guineas from the Wakefield Company and five hundred guineas from the match manufacturing firm of Bryant and May.

The Prime Minister broadcast last night to the Nation and to the Empire on behalf of the fund.

Mr. Baldwin appealed to the members of this one great family to resolve that long after our voices are still there shall be some permanent Memorial to King George as a visible sign of the love of the King's people.

The Premier commended the two schemes adopted by the Lord Mayor of London's Committee, firstly the statue between the Houses of Parliament and Westminster Abbey, a site which will prove as beautiful as any in the world when the scheme is completed, and a sacred spot for every member of our own great family, also visitors from America and from all over the world. Secondly the provision of children's playing fields throughout the country where there is an increasing need. Landowners can give land and the rich can give wealth but the Prime Minister said that his wish is to see the real offering of the people, and the most complete realization possible by all classes in the country that we are all members of one family.

BRITISH AIRCRAFT

The total value of British Aircraft exports for 1935 was £2,721,441. which is the highest figure on record and exceeds the figure for 1934 by no less than £800,339. The 1935 total also exceeded the previous record set up in 1929 by £562,774. Despite the demand this year upon the aircraft industry of the Government's programme of expansion for the Royal Air Force, the manufacturers are contriving to fulfil many large orders for export. Three of the leading companies announce orders aggregating hundreds of thousands of pounds in value and coming from nearly a dozen different countries. The Avro Company is supplying aircraft to Greece, Austria, Australia, Finland and Egypt - the most considerable individual contract being for thirty-eight Anson twin-winged monoplanes for Australia. The de Havilland Company, which last year sold aircraft to twenty-five countries has received orders recently from Uruguay, Turkey and Iraq.

The Hawker Company also has large export orders.

Much interest was shown, it is reported, at the recent International aero-exhibition at Stockholm in the General Aircraft Company's Mono-spar twin-engined ambulance monoplane on the British stand. The fittings include specially designed stretchers, containers for medical instruments and stores, oxygen cylinders, a tent and blood-transfusion apparatus. The 'plane is also equipped with electrical starters, radio transmitter and receiver, direction finder and instruments for blind flying.

APPOINTMENT.

Major General L.R.H. Haining has been appointed Director of Military Operations and Intelligence at the War Office, as from the 1st of September next, succeeding Lieutenant General J.G. Dill.

Berlin. Lieutenant-General Wever, the Chief of the General Staff of the German Air Force, was killed when the army aeroplane he was flying crashed near Dresden Airport. His mechanic was killed also.

KING GEORGE VTH PLAYING FIELDS

FOR CHILDREN.

Many members of the Public throughout the country must have listened on the 3rd of June to the moving address by the Prime Minister on the subject of the institution throughout the United Kingdom of Playing Fields for Children in memory of our late beloved Sovereign.

It will undoubtedly be the wish of all citizens of the Falkland Islands that we here should take our share in testifying in like manner in the measure within our means to our devotion to the memory of King George V.

We desire to have if feasible a playing field which the children of the Colony and, in Mr. Baldwin's words, their "children's children" will always have as their own playing ground as a Memorial to the King

I propose in the first instance to appoint a representative Committee to consider the means of achieving an aim which makes so strong an appeal to the loyal sentiments of the whole population of these islands.

A public announcement of the composition of the Committee will be made shortly.

STRIKES IN FRANCE CAUSE GRAVE ANXIETY.

Thirty Suburbs Without Gas.

It is reported from Paris that the "Stay In" strike of French Work ers is spreading alarmingly. Three hundred and fifty factories are now idle and "occupied" by obstinate workers. The Daily Telegraph correspondent says that there are 350,000 strikers in Paris alone and 150,000 in the provinces. The extension of the strike is causing grave disquiet in official quarters. On Wednesday night the gas-worker in Paris joined the strikers and thirty suburbs are without gas.

The strike is accelerating the advent of M. Blum and his Socialist colleagues to office. M. Sarrant's Government was to resign yesterday and M. Blum is expected to introduce his Cabinet to the Chamber on Saturday instead of next week.

M. Salengro, who will be M. Blum's Minister of the Interior, has made strenuous efforts to induce the communists to call off the strikes. The Communists are unwilling unless the new Government will agree to table bills in the Chamber for the improvement of working class conditions and establishing a forty hour week.

RUMOURS OF CIVIL WAR DENIED.

A message from Canton states that the reports of an impending civil war between South China and Nanking Central Government are denied by the Canton Foreign Minister although it is admitted that there are some disagreements which are mainly over the aggression by the Japanese in North China.

According to a reuter message the possibility of grave events is not entirely excluded.

MARSHAL BADOGLIO RETURNS TOROME

Marshal Badoglio arrived in Rome from East Africa yesterday and was greeted by Signor Mussolini. Thousands lined the streets from Rome Station to the Marshal's home and gave him an enthusiastic welcome.

STRIKE IN ANTWERP.

A reuter message says that the French strike fever has spread to Belgium and work at the port of Antwerp is at a standstill and the police are patrolling the docks. The strike is attributed to communist intervention.

COLLAPSE OF FRANC FEARED

It is reported from London that the extension of the French and Belgian strikes is causing fear for the collapse of the franc and the gold currencies of Holland and Switzerland which are linked to it.

Heavy sales of francs are reported from Paris and other Continental centres and quotations closed at 76 9/32 to the pound as compared with 75 31/32 on Tuesday. This is the highest level sterling has reached since August 1934. The Dutch bank rate was raised on Wednesday for the second time this week by 1% to 4½%. The guilder has depreciated and the Swiss franc is also weak.

POLICEMEN INJURED IN BETHLEHEMAttempt To Wreck Train

It is reported from Jerusalem that the Government's emergency regulation on Wednesday empowering the District Commissioners to order all classes of business establishments to reopen is considered to be the first step towards a break in the Arab general strike.

Two policemen were were injured in Bethlehem on Wednesday. The strikers attempted to wreck a troop train from Egypt yesterday, many fishplates being removed from the track near Jerusalem. Two bridges have been blown up on the Hebron road and nearly a mile of telephone wires cut on the same road.

NEWS IN BRIEF.

London. The Duke of Connaught, Grand Master, announced in the Freemasons' Hall on Wednesday that His Majesty the King had accepted the office of Past Grand Master.

Ottawa. The Canadian Government 20,000,000 dollars bond issue opened on Wednesday morning and closed at noon heavily over-subscribed.

Rome. Signor Mussolini is seeing Dr. Schuschnigg, the Austrian Chancellor this week. The talks may have an effect on Italy's attitude towards the League and will be likely to strengthen a desire for reconciliation with Britain, says the Daily Telegraph correspondent. A message from Vienna denies the Paris reports that Dr. Schuschnigg is seeking Signor Mussolini's support for an immediate Hapsburg restoration.

London. The price of tin fell on the London metal market yesterday to £183. 5s. -d., the lowest quotation since May 10th, 1933, and making a decline of £12 on the week.

London. N. Nayadu the Indian googly bowler, brother of Major C.Y. Nayadu the former Indian Cricket Captain, is coming to England to strengthen the Indian Cricket Team.

The motor boat "Dawn" left Stanley yesterday afternoon for Green Patch taking Dr. Edmunds on an urgent Hospital case.

BOXING.

It is reported from London that the boxer Len Harvey has issued a £1,000 challenge for a fight with the German, Walter Neusel, or the British Champion Petterson.

MOBILISATION IN CHINA .

The Canton Government have issued a mandate ordering mobilisation for an expedition against the Japanese in North China. This does not constitute a declaration of war, which would prove disastrous for Canton, but means that by proclaiming themselves anti-Japanese Salvation Forces they have gained the support of the Patriotic Youth Movement throughout the country and have placed the Central Government on the horns of a dilemma, both alternatives before the latter spell disaster.

If they declare against Canton they lose a large amount of the country's support while a declaration in favour of Canton would mean a ruinous war with the Japanese. They must decide within a few days as the Cantonese are apparently driving northward with Hangkow as their objective.

LEAGUE OF NATIONS COUNCIL

A message from Geneva reports that the next meeting of the League of Nations Council is to take place on the 27th of June. The Assembly is being summoned to meet three days later.

London. His Majesty the King has approved that Sir Samuel Hoare shall be appointed to be First Lord of the Admiralty in place of Viscount Eyres Monsell who has resigned.

DISCUSSION OF REARMAMENT POLICY.

The Amalgamated Engineering Union at their Annual Conference on Thursday, discussing the Government's rearmament policy, determinedly oppose the dilution of labour by the introduction of trainees. They adopted a motion affirming that there was no shortage of skilled labour if the available supply was efficiently handled, and instructed the executive committee to use the whole resources of the Union to oppose the dilution, from whatever angle either the Government or employers sought to introduce it.

NEW FRENCH CABINET.

Monsieur Blum has completed his Cabinet and the members are drawn entirely from the Socialist and Radical-Socialist Parties, and includes three women Under Secretaries - Madame Curie for Scientific Research; Mamame Suzanne Lacor, the so-called "Socialist Saint" for Child Welfare; and Madame Brunschrigg (suffragette leader) for State Orphans and War Widows.

The Ministry of the Colonies is retained by M. Moutet. Many people in France will be ignorant of the new Cabinet owing to the decision of the Paris Press Syndicate not to publish newspapers owing to the difficulties of distribution due to the strike.

JOSEPH CHAMBERLAIN CENTENARY

The Centenary of the birth of Joseph Chamberlain is being celebrated next month both in Birmingham and in London. The Chancellor of the Exchequer, Mr. Neville Chamberlain, will be present at Birmingham and Sir Austen Chamberlain will attend the London celebrations

APPOINTMENT.

His Majesty the King has approved the appointment of Colonel the Earl of Athlone as Colonel of the Life Guards, succeeding the late Field Marshal Viscount Allenby.

DISAPPOINTED HOLIDAYMAKERS

The continuous cold weather and overcast skies with rain and frost at night is causing great disappointment to early holidaymakers in England. The highest temperature recorded in London this week was 55 degrees fahrenheit on Thursday.

THAMES BANK IMPROVEMENT SCHEME

The south bank of the Thames from Westminster Bridge and the Court Hall down to Blackfriars Bridge is to be considered at a joint conference of the City Corporation of the London County Council and the Southwark Borough Council to be held shortly.

This south bank has long been a subject of reproach by lovers of London, and of ambitious schemes by town planners.

Proposals for the improvement of this area, projecting into the very heart of London, and a plan of immediate action to arrest the further deterioration of the waterfront will be put forward at the conference.

WARLIKE REPORTS FROM ITALY.

League circles in Geneva are puzzled to know the meaning of the warlike reports from Italy. Firstly, the schools in north Italy have been closed a month before the normal holidays to enable the buildings to be available for military purposes. Secondly, certain naval reserves have been called up. Thirdly, two more classes of reservists have been ordered to remain in readiness. Fourthly, the Italians in Geneva have been warned to be ready to join up. These reports may be a warning to the powers that if Sanctions are intensified or maintained action may be taken.

LICENCE WITHDRAWN.

It is reported from London that the Jockey Club Stewards have withdrawn the licence of Arthur Wragg the famous jockey and the youngest of three famous jockey brothers.

The Racing Calendar says that at Epsom the stewards enquired into the running of "Holyrood" which finished third in the Chipstead Handicap on May 29th and were not satisfied with the explanation given by the jockey, Arthur Wragg, and reported him to the Jockey Club Stewards.

OUR WONDERFUL WORLD.

A most interesting talk on "India - as a Pre-War Soldier Saw It" was given in the Tabernacle School-room on Thursday night by Captain W.M. Allan.

FOLK DANCE SOCIETY.

The winter session of the Folk Dance Society opened on Thursday evening in the Gymnasium when forty-five members were enrolled.

The proceedings opened with the election of officials.

Miss Henniker-Heaton was elected President for the coming year and Mrs. J.E. Hamilton Hon. Secretary and Treasurer. The six members of committee elected were:- Mrs. J.M. Thomson, Mrs. W.D. Jones, Mrs. F. Gleadell, Mrs. F. O'Sullivan, Mrs. S. Summers and Mrs. Hoare.

This business concluded, the members spent a happy hour dancing.

ODDS AGAINST EVEREST EXPEDITION

The leader of the Everest Expedition, Mr. Hugh Ruttledge, in a message to the Daily Telegraph yesterday, says that they have been held up at 19,700 feet owing to a heavy gale which has laid a thick mantle of snow on the mountain.

The party is now endeavouring to move up from Camp 2 to Camp 3 at 21,500 feet.

Ruttledge says that the odds are certainly against them.

NEW ITALIAN DECREE.

A message from Rome reports that a drastic new decree was issued in Italy on Thursday which forbids any persons leaving Italy to take more than 300 lira, and the same figure applies to persons entering.

The measure was made inevitable says the Daily Telegraph, by the continued slump in the value of the lira abroad.

JERUSALEM. As compared with the early part of the week there is a lull in the situation in Jerusalem at present but tension continues throughout the country.

FRENCH STRIKES CONTINUEA Food Shortage Averted

The further wide extension of strikes in France on Thursday coincided with the entry of the popular front Cabinet of M. Blum the Socialist Leader. In many trades the Union leaders have lost all control over the strikers.

No newspapers were being published yesterday. Transport is threatened with a stoppage of petrol distribution and parts of Paris are in danger of having gas, electricity, and water supplies cut off.

Fears of a food shortage were averted on Thursday night when the transport workers' demand for higher wages was granted.

It is reported that M. Blum will immediately introduce emergency legislation to meet the strikers' demands which will include the forty hour week and the restoration of pay cuts with better working conditions.

The flight of the franc continued on Thursday but the extensive use of British and American equalisation funds prevented wide fluctuations.

The chief posts in M. Blum's Cabinet are :- Minister of State - M. Chautemps; National Defence and Vice Premier - M. Daladier; Air - M. Pierre Cot; Foreign Affairs - M. Yvon Delbos; Finance - M. Auriol.

The strike has extended to Marseilles, several metal factories and important naval works at Laciottat being involved.

M. Herriott was elected President of the Chamber by 377/150 votes on Thursday.

NEW SPEAKER ELECTED .

A message from Washington reports that Mr. William Bankhead, representative of Alabama, has been elected Speaker of the House of Representatives in succession to Mr. Joseph Burns who died on Thursday.

HOME NOTES.

Freshly made mustard spread on white linen articles on which ink has been spilled and left on for half an hour will cause the stains to disappear entirely after they have been sponged with water.

A clean rag dipped in very weak ammonia water and squeezed dry is a good thing for cleaning gilt frames. Have the ammonia very weak of course and be sure to remove all loose surface dust and grime with a clean cloth beforehand.

If you wish to use some pieces of fur which have become hard, lay your pieces, hair downwards, on a table, and rub over the skin side with a piece of pumice-stone moistened with a few drops of olive oil. Continue to rub gently, with a circular movement, until the skin is soft and pliable again.

OLDEST AIRSHIP PASSENGER.

The oldest passenger ever to have made a flight in an airship is 93 year old Professor Weise who made a flight on Friday afternoon aboard the airship "Hindenberg" to Frankfurt from Frederickshavn.

EMPEROR OF ABYSSINIA IN LONDON.

The Emperor of Ethiopia, who is in London incognito, drove yesterday morning to the Cenotaph where he placed a wreath. He was accompanied by the Crown Prince Ras Kassa and an Abyssinian Minister. A large crowd in Whitehall watched the ceremony. During the afternoon the Foreign Secretary paid a courtesy call on the Emperor at his house in Kensington where the latter is staying. Mr. Eden remained for about half an hour.

The newspapers suggest that the Emperor may shortly proceed to Switzerland where he owns a residence at Lausanne.

FRENCH STRIKES CONTINUE.

Following an all-day conference between the leaders of French employment and the Trade Unions at M. Blum home on Saturday, strong hopes were held of an early settlement of the French strikes. M. Salenzo, the Minister of the Interior told the waiting journalists that the employers had accepted the principle of higher wages and collective bargaining which are the main demands of the strikers.

Before the meeting commenced general strikes to begin to-day had been declared in the mining and building industries. The bank clerks have decided to join the strikers and many banking institutions may be closed to-day. Wagon-lit employees are on strike and the famous Blue Train from the Riviera to Paris did not run on Saturday for the first time since its inauguration in 1922. M. Blum, replying to the Opposition's question in the Chamber on Sunday night as to how the Government's expensive programme will be met, declared that they had no intention of covering the expenditure by currency in operation and that the country need not expect or fear devaluation from them.

"DAWN" RETURNS

The motor boat "Dawn" returned from Green Patch yesterday afternoon bringing Mrs. E. Curran, Dr. H.G. Edmunds, Mr. W. Halliday and Mr. C. Craigie-Halkett as passengers.

CHINA DECLARES WAR ON JAPAN.

It is reported from Hong Kong that at a meeting of the south China leaders held on Saturday at Canton, they declared war on Japan because of her continued aggression in North China.

In a last attempt to force the Central Chinese Government at Nanking to take action, the joint southern army has been ordered to march north towards Nanking to fight "for the salvation of China".

The Nanking Government is now faced with the alternative of fighting either Japan or Canton.

It is believed that Japan will send the fleet to south China in response to Canton's direct challenge.

Martial Law has been declared in Canton.

SWEDEN'S NATIONAL DEFENCES.

It is reported from Stockholm that a special Parliamentary Commission states that Sweden must spend 150,000,000 kroner annually on her national defences. It is proposed that the Air Force in particular should be augmented.

Jerusalem. It is understood that a reserve of Trans-Jordan frontier troops is being called to check arms smuggling over the frontier. Railway bridges near Haifa were damaged by explosives on Friday night and all telephone wires in the district were cut.

Vienna. Baron Baar Baarenfels who succeeded Prince Starhemberg as Vice-Chancellor said on Saturday that the Austrian Government was ready to co-operate with all parties in building up an independent Austria. Political pasts would be forgotten in the common cause, he declared.

Brussels. Herr Vandervelde, the Socialist leader, was invited by King Leopold on Saturday to form a National Government. Belgium has been ten days without a Government. Herr Vandervelde has accepted the King's invitation.

Haifa. A reuter message says that the police and troops were forced to open fire there on Sunday during disturbances when the police were shot at by snipers. Several rounds were fired and one demonstrator was shot dead. Several arrests were made and troops are patrolling the town with fixed bayonets.

FAMOUS WORKS OF ART TO BE SOLD

A collection of medieval and Renaissance works of art and classical antiquities, which is remarkable among those of recent times, will be dispersed at Christie's famous auction rooms during a sale next month of Mr. H. Oppenheimer's collection.

The sale will last from July the 10th to the 29th, three days being allotted to drawings by old masters including Leonardo da Vinci, Michel Angelo, Durer, Holbein and Goya; two days to engravings and water colours, when etchings by Rembrandt and a notable series of Durer prints will come under the hammer. Two days will be devoted to Egyptian, Greek and Roman antiquities, three days to Medals, Plaques and coins, and three days to jewels, enamels, porcelain, statuettes and busts of medieval and Renaissance periods.

"QUEEN MARY" LEAVES NEW YORK.

The liner "Queen Mary" left New York on her first west to east Atlantic crossing on Friday with 1,855 passengers aboard.

She passed the Ambrose Light at 6 p.m. British summer time. The record time for the journey from this point to Bishop's Rock, Scilly Isles, is four days, three hours, twenty-eight minutes and was established by the French liner "Normandie", and to beat that record the "Queen Mary" must reach Bishop's Rock before 9.28 p.m. on Tuesday.

FIRE AT SOUTHAMPTON DOCKS.

The serious fire which occurred at Southampton Docks on Friday destroyed the accommodation provided there by the Southern Railway for dealing with the trade in bananas, of which 2,348,992 bunches were handled last year.

Between sixty and seventy railway waggons specially equipped for dealing with banana imports were destroyed.

ANGRY SCENES IN PARIS.

It is reported from Paris that angry scenes marked the sitting of the Chamber on Saturday.

When M. Chiappe, the former Prefect of Police, was mentioned, he jumped to his feet and deputies began shouting "Chiappe to the gallows". Such confusion took place that M. Herriot suspended the sitting. On resumption there was a further uproar when M. Vallat declared that it was an historic occasion for France to be governed for the first time by a Jew.

M. Blum began to leave the Chamber but was eventually persuaded to remain and was heartily cheered.

POLITICAL CONFERENCE AT HUNTINGLODGE.

It is reported from Bucharest that the heads of the Little Entente held a meeting during the week-end at King Carol's hunting lodge near Bucharest to confer on political affairs.

Dr. Benes, the President of Czechoslovakia, and Prince Paul, the chief Regent of Jugo Slavia, arrived there on Saturday morning when a military parade lasting two hours was staged in their honour.

SAILORS DETAINED BY JAPANESEAUTHORITIES.

It is reported from Tientsin that two United States sailors who were among 88 other members of the crew of their destroyer sight-seeing, were detained on Saturday by the Japanese Military Authorities when taking photographs of the train carrying Japanese trench mortars south.

It is understood that the United States Embassy is making a formal protest.

REPUBLICAN CONFERENCE.

It is reported from New York that the Republicans are gathering at Cleveland for their convention which opens to-morrow. It is considered that their choice will fall on Alfred Mossman Landon, Governor of Kansas, as the candidate for the Presidency.

Landon's programme includes an onslaught on Roosevelt's New Deal, and a cheaper, simpler and more responsible administration of unemployment relief.

BRITISH WARSHIPS FOR ARGENTINE

A message from London states that Messrs. Vickers Armstrong have received orders for three destroyers for the Argentine Government and armament for four other ships building at other yards.

FURTHER TAXATION IN THE U.S.A.

The Washington Senate has passed a new tax Bill which is expected to yield £20,000,000 dollars additional revenue annually by revising the system of taxing business corporations.

ITALIAN ARMY MANOEUVRES

From Rome comes a report that the Italian armies are staging large scale manoeuvres with two army corps near the French frontier in July, and between 80,000 and 120,000 troops will be engaged.

The report says that this is in accordance with normal practice.

OBITUARY.

Sir John Foster Fraser the journalist, traveller and lecturer, died in London on Sunday aged 67.

ARSENAL FINED .

The Football League has fined the English Cup holders - Arsenal, £250 for playing weak teams in certain matches during the past season. The Arsenal are lodging an appeal.

The last similar case was in 1924 when Newcastle were fined £750.

BILLIARDS .

Mr. J. Davis of Chesterfield retained the professional billiards championship on Saturday by defeating Mr. T. Newman of London, 21,700 to 19,790 in a fortnight's game.

This is the seventh time that Davis has won the title.

YACHTING .

The first race of the season for big yachts opened at Harwich on Saturday and resulted in Mr. Hugh Paul's "Astra" being 1st, Mr. W.L. Stephenson's "Velsheda" being 2nd, and Mr. H.A. Andrew's "Endeavour" 3rd.

HITLER ATTENDS AIRMAN'S FUNERAL

The funeral service for Lieut. General Wever, who lost his life on Wednesday in a plane crash, took place in the Air Ministry in Berlin on Saturday and was attended by Chancellor Hitler, the War Minister Herr Blomberg, the Air Minister and the Commander-in-Chief of the Air Force Herr Goering and the Commander-in-Chief of the Army and Navy, Herr Fritsch and Herr Raeder.

Six Generals stood on guard at the coffin during the Service.

In a decree issued on Saturday night Herr Hitler, after paying a tribute to the services of the deceased, ordered that the fighter squadron Number 253 should henceforth be named "Fighter Squadron General Wever".

SHORE LEAVE STOPPED

It is reported from Hong Kong that all shore leave of British and American sailors stationed in Canton has been cancelled and the men are standing by for emergencies. It is learned that the Hong Kong garrison troops are prepared to move to Shanghai if the situation gets worse. Cantonese troops are now marching northwards to try to persuade the Nanking army to join them against the Japanese troops.

FRENCH STRIKERS WIN.

An agreement was reached in Paris this morning between employers and the Trade Unions.

The employers have agreed to 1. Salary increases varying from 7% to 15% as soon as work is re-started. 2. Immediate establishment of collective labour contracts covering wages, working hours and shop conditions. 3. No reprisals against the workers. 4. Recognition of workers' right to belong to Trade Unions. 5. To make no distinction whether a worker is a member of a Trade Union or not when engaging workers, dispensing discipline or discharging workers.

The Trade Unions agree to 1. Persuade the men to return to work as soon as the employers accept the general agreement. 2. That the exercise of Trade Union rights does not entitle workers to take action contrary to to the law.

Despite this agreement a general strike order was issued this morning to the coalfield and building trade. The port of Dunkirk is paralysed by this new stoppage. Red flags still fly over several factories in the Paris region which have been occupied for a week by the workers. The Official view is that the workers will return to work when they realize that M. Blum's Government has pledged itself to carry out its election promises.

ARRIVAL OF THE "GENTOO"

The M.V. "Gentoo" arrived in Stanley early this morning from Pebble Is. bringing mutton.

UNSUCCESSFUL AGAIN.

It is reported from London that in a cable to the Daily Telegraph, Mr. Hugh Ruttledge the leader of the Mount Everest Expedition, says that Saturday's attempt to re-occupy Camp 4 up 23,000 feet on the north col has failed owing to snow.

Mr. Ruttledge says that Mr. F.S. Smythe has tried a new line straight up towards the crest but found the task impossible. Mr. Ruttledge hopes for one more try.

ITALY AND GERMANY TO SIGN PACT ?

It is reported from Rome that unless Sanctions are lifted by June 30th Italy and Germany will sign a Pact of non-aggression providing for all eventualities, states the Rome correspondent of "Le Matin" who says that it is the result of the exchanges of views between Rome and Berlin.

It is stated that the Pact will provide that Italy will support the German's Colonial claims and Germany will restore the status of Austria.

ALLEGED MURDER OF JAPANESEOFFICER.

A message from Peking reports that General Matsumo, the head of the Japanese Military Mission in North China, describes as unsatisfactory the British enquiry into the alleged murder of a Japanese officer in Peking. "Unless greater satisfaction is obtained it will be necessary to take serious action" he declared.

The Japanese alleged that two unidentified British soldiers were responsible for the death of the Japanese officer. The British authorities, after enquiry, stated that no British soldier was near the officer at the time.

SENSATIONAL REVELATIONS IN DUTCHNEWSPAPER.

From Amsterdam comes a report of sensational revelations made by the Rome correspondent of the Dutch paper "Algemeen Handelsblad" who claims authority for stating that in the event of the League of Nations not raising Sanctions, Mussolini would appeal to the Italian nation and let it decide by Plebiscite whether it is willing to defend its rights to the last and empower him to go to any length if necessary in order to assert these rights in the face of British opposition.

The correspondent claims in this connection that Britain and Italy have already been on the verge of war since last October 17th when the Duce allegedly had informed the French Premier M. Laval that if Britain did not withdraw her warships lying in Port Alexandria within twenty-four hours he would give the order to attack these ships.

The correspondent adds that the tense atmosphere which prevailed during the next twenty-four hours was finally relieved by the British Ambassador appearing at the Palazzo Venezia at four o'clock in the morning on October 18th and suggesting a solution of the crisis which consisted in the British Government declaring themselves willing to withdraw some ships from the Mediterranean if Italy would recall part of her troops in Libya. This solution was, according to the correspondent, finally agreed to by Mussolini and subsequently made known to the world at large.

MORE BATTLESHIPS FOR JAPAN

From Tokio it is reported that in view of the construction of Battleships decided on by Britain and the United States, the Japanese navy is to draw up a new "replenishment programme" scheme to be prepared and possibly executed in 1937, and the cost will probably exceed 700,000,000 yen.

HIS MAJESTY HOLDS LEVEE

His Majesty the King will drive in the State carriage accompanied by Sovereign-escorting Household Cavalry to-day from York House to Buckingham Palace where His Majesty is holding a Levee.

It was announced yesterday that the King is visiting Portsmouth on June 30th to inspect the establishments in the Portsmouth naval command. His Majesty will visit the naval barracks and afterwards the marines' barracks at Eastney and will lunch with Admiral Sir John Kelly, the Commander-in-Chief, at Admiralty House.

The King may also visit the Royal Yacht "Victoria and Albert" which has recently undergone its annual overhaul.

DECREASE IN UNEMPLOYMENTFIGURES.

A further marked decrease in the numbers of the unemployed is shown in the returns for May issued by the Labour Ministry last night. The Ministry estimates at the 25th of May the number of insured persons aged sixteen to sixty-four in employment in Great Britain, exclusive of agricultural workers, was approximately 10,831,000. This was 119,000 more than at the 27th of April and 472,000 more than at the 20th of May 1935. The agricultural workers became insured at the beginning of May but the statistics of numbers of such workers in employment are not yet available. At the 25th of May the number of registered unemployed was 1,705,042, comprising 1,397,755 wholly unemployed, 225,285 temporarily laid off and 82,002 normally in casual employment.

The total was 126,188 less than the month before and 339,710 less than a year ago.

Dublin. Ex-Senator E.J. Duggan, died yesterday while speaking at a public meeting aged 62.

BRITISH WAR DEBT.

A White Paper issued in London last night gives the texts of the correspondence between the United States Government and the British Embassy in Washington regarding the British war debt.

The Department of State addressed a note on May the 22nd to the British Ambassador transmitting a statement of the amounts due half-yearly since the 15th of June 1933 and including the 15th of June next under the debt agreement of 1923 and the moratorium agreement of 1932 and reiterating the willingness of the United States Government to discuss any proposals the British Government might desire to put forward as to the payment.

The statement shows a total amount due on 15th of June next of 85,670,765 dollars.

In acknowledging the notes and accompanying statement on the 7th of June, Sir Ronald Lindsay said "His Majesty's Government explained in their note of the 4th of June 1934 the reasons for which they were reluctantly forced to suspend payments. Those reasons are unfortunately no less valid now than they were then. His Majesty's Government desire me to express their appreciation of your assurance that the United States Government are ready to discuss any proposals in regard to the payment which may be put forward and I am instructed to assure you in return that His Majesty's Government will be glad to reopen negotiations whenever circumstances are such as to warrant the hope that a satisfactory result might be reached."

GRANDSTAND COLLAPSES

Twenty-one people were killed and hundreds of people were injured yesterday, when a grandstand at Bucharest collapsed during the national celebrations which were being held to mark the sixth anniversary of King Carol's return to the throne.

The accident occurred after 25,000 boys and girls, members of the National Youth Movement, had given a gymnastic display before the King.

The parade was suspended and King Carol personally directed the rescue work. Seven city architects were arrested last night in connection with the disaster.

NEWS IN BRIEF

Brussels M. Vandervelde, the Socialist leader, has renounced his attempt to form a National Government and King Leopold has recalled the former Premier M. Van Zeeland to form another ministry.

Berlin. The official returns show a reduction of 200,000 in Germany's unemployed as compared with the lowest figure in 1935. The unemployed at the end of May numbered 1,491,201.

Boston, Massachusetts. His Majesty King Edward VIII has become a member of the Ancient and Honourable Artillery Company of Massachusetts, which claims to be the oldest chartered military organization in the United States.

Washington. President Roosevelt yesterday vetoed a Bill providing for an Air Reserve Training Corps for young men between the ages of 17 and 24 for service in a national emergency. The President is of the opinion that "there is no immediate military necessity."

Jerusalem. A detachment of the Cameron Highlanders was ambushed at Moza near Jerusalem on Monday night and one Cameronian was wounded. A bomb thrown from the rooftop of a citadel on Monday caused 25 people to be wounded.

F O O D (17)

There are still a number of people who wonder why we should devote any time to considering the composition of our meals.

Because their parents and grand-parents did not worry about food they see no reason why they themselves should do so; but such people are either forgetful or ignorant of changes in food during the past century.

Until the middle of the 17th century there was very little food for stock during the winter months; the best animals were kept at pasture for breeding purposes; and the rest of the animals were killed in the autumn and salted, smoked or dried for winter use. There were very few vegetables and during the Middle Ages, there was much scurvy in all large northern towns. Not until root crops were cultivated in the middle of the 17th century could more livestock be kept alive during the winter.

Then more fresh meat was available for eating. From that time until the middle of last century English food was at its best. There was a good supply of home grown food, most of which was eaten fresh and free from preservatives.

Nuts, spices and fruits such as the orange and the lemon were imported from abroad to add a little variety. The people fed upon relatively natural foodstuffs, which had not had their vital elements removed or destroyed by commercial processes. The position at the present time is rather different, since the beginning of the last century sugar has come into general use, and sugar, especially in the form of sweets, is not a natural nor a healthy food. It is merely a fuel food and it does not help to build up the body nor does it help to protect us from disease, it certainly has a bad effect upon the teeth and diabetes has greatly increased since the use of sugar has become more general.

Since machine milling of cereal was introduced our food has become much less healthy. White flour and polished rice are both attractive commercial articles, but wholemeal flour and unpolished rice supply us with vitamins and mineral salts as well as starchy fuel foods. (Continued on Page 4.)

Nowadays so much of our food is factory produce. We do not really know how much the appearance of our tinned foods owes to the colouring matter and how much to nature. Though they look good they may be devitalized. Fruits are turned into jams, bottle or tinned because they travel better in those forms.

Meat is frozen and transported from one end of the world to the other. On the whole we eat an artificial diet.

It must not be assumed that all tinned and preserved foods are bad. Some manufacturers now use the work of food investigators in order to improve their methods of production; and some vitamins can now be better preserved in foods tinned in a large factory than in those prepared in our own homes. It is for these reasons that it is necessary to think about our food, whereas in the past if our grandparents ate the varied diet then obtainable they were practically sure to eat everything necessary for health.

THE SITUATION IN PALESTINE

Mr. Ormsby-Gore was cordially cheered on rising in the House of Commons yesterday to answer questions for the first time as Secretary for the Colonies. He made a comprehensive reply to questions on the situation in Palestine. He said that he much regretted that the improvement observed before the Whitsuntide recess had not been maintained. "The authorities are faced with a continuing series of acts of violence in many parts of the country. The Government of Palestine are taking all possible action to protect lives and property and further emergency powers are being taken by proclamation. The troops in Palestine have been further reinforced. I would like to take this opportunity, which is

the first I have had since assuming office, to express my personal concern for the welfare of all sections of the population of Palestine and my confidence that on the basis of the recommendations of the Royal Commission which His Majesty will be advised to appoint when order is fully restored, means will be found within the framework of the Mandate with its dual obligations, to establish lasting peace and contentment among the people of Palestine."

Asked about the personnel of the Royal Commission Mr. Ormsby-Gore replied that the Government had no intention of appointing a Royal Commission or of publishing any terms of reference until law and order had definitely been restored and acts of violence prevented.

NO REPLY FROM GERMANY YET

The enquiries addressed to Herr Hitler's Government by the British Government with a view to clarifying the former's proposals for the negotiation of peace on a new basis, were mentioned at question time in the House of Commons yesterday.

The Foreign Secretary said that no reply had yet been received to the communication made by the British Ambassador in Berlin on May 6th. Mr. Eden added "on May 23rd the British Ambassador was instructed to remind the German Government of the desire of His Majesty's Government to receive a reply. Sir Eric Phipps was further asked to emphasise that His Majesty's Government were anxious to elucidate as soon as possible the points which were not clear to them in the German Government's Memoranda of the 7th, 24th and 31st of March and that the purpose of His Majesty's Government was to secure that general negotiations should be opened for the conclusion of western and eastern European security arrangements and the return of Germany to the League with a view to the permanent solution of the continuing situation created by the German Government's action of March 7th. In reply, it was intimated to Sir Eric Phipps by the German Government on May 26th, that no reply would be forthcoming until after the formation of a new French Government."

EMPIRE PRESS UNION CONFERENCE

The annual conference of the Empire Press Union opened in London on Tuesday. Major J.J. Astor, the President of the Union, presided over the gathering of representatives of the home, dominions and colonial press.

The delegates were welcomed by the Dominions Secretary, Mr. Malcolm Macdonald, who said that the sovereignty now belonging to the Dominions was complete and final. The freedom of constituent parts of the Commonwealth and the spirit it engendered was an essential condition of harmonious co-operation within the Empire.

The Postmaster-General also spoke and assured the Conference that the Post Office was doing its utmost to give to the Empire communications with the highest efficiency and at the lowest possible rates.

NATIONAL CONVENTION IN OHIO

It is reported from Cleveland, Ohio, that the Republican National Convention opened there yesterday to choose a Presidential candidate against President Roosevelt.

The central figure is Senator Borah who is fighting for the adoption of a Liberal programme as opposed to Eastern "die-hardism". Governor Landon's managers have replied to Mr. Borah's criticism by their readiness to adopt the anti-monopoly clause and to give a pledge to keep America aloof from European entanglements. It is stated that Mr. Landon is well ahead in the race for nomination.

NEWS IN BRIEF .

Bucharest. An enquiry into the disaster caused by the collapse of a grandstand on Tuesday at Bucharest reveals that it was due to overcrowding and structural defects.

Capetown. General Smuts declared yesterday that South Africa's sole hope in the present dangerous times was the strengthening of the bonds of friendship between herself and Britain. General Smuts added that the League had suffered an amazing failure in the Abyssinian war but that he thought that the future of the world lay in the League.

Stoke-on-Trent Stoke City football club made a profit of £8,420 last season and are paying an ordinary dividend of 7½%, the first since 1908.

London. The programme of telephone development which the Post Office has prepared will involve an expenditure of over £1,500,000 on underground cables and equipment alone. The programme is designed to ensure that remote rural areas shall enjoy a service not less efficient than that of the towns and urban districts.

Hurlingham. The Duke and Duchess of Gloucester were among the seven thousand spectators at Hurlingham yesterday who watched the United States and Great Britain in the first International polo match for the Westchester Cup played in Great Britain for fifteen years. This is the sequel to the Kwangsi and Kwangtung provinces' goad to the Central Government to offer greater resistance to Japan

STANLEY SPORTS ASSOCIATION

Annual General Meeting

The Honourable N.K. Cameron presided at the Annual General Meeting of the Stanley Sports Association which was held in the Church Room on Tuesday night. There were also present, the Hon. V.A.H. Biggs (Vice Chairman), Mr. H. Thompson (Hon. Treasurer), Mr. T.W. Campbell (Hon. Secretary) and eleven other members.

After the Secretary had read the minutes the Treasurer presented the accounts which showed a nett profit of £59. 5s. 10d. on the year's working and a balance of "cash in hand" amounting to £404. 7s. 10d. The accounts were unanimously adopted. The Chairman then addressed the meeting :-

"Gentlemen,

You have heard the Treasurer's Report showing that the Association has a balance of about £400 in the Savings Bank and in this respect it is in a stronger position than for many years past, which reflects great credit on the organising committee. Advantage might be taken of it to make further improvements to the course especially with a view to increasing the comfort of the spectators.

Our efforts now should be particularly directed to attracting more men and more horses to come into Stanley and compete in the races. I believe myself that this might be effected by eliminating some of the races for which there have been few entries in recent years and offering substantial cash prizes for the remainder. There would be more entries for each race and the men who spent money on running horses would have the opportunity of recovering some of their outlay.

However, it is a matter that calls for more careful consideration than we have time to give it to-night and I would suggest that we appoint a Sub-Committee of about six members to make recommendations as to how the programme of events might be altered with a view to making the Sports more attractive both to the competitors and the general public.

In conclusion I want to thank you for inviting me to be your Chairman last year, tho' we must all regret the resignation of Mr. Greenshields who has held the position with such success since 1919. Let us hope that in some measure at least he will continue to lend us the co-operation of himself and of his Station which has proved so invaluable in the past."

(Applause)

It was unanimously decided to ask His Excellency the Governor to honour the Association by accepting the Presidency for the coming year. The following were re-elected as Vice-Presidents:- W.A. Harding Esq., the Hon. L.W.H. Young, the Hon. G.J. Felton, G. Bonner Esq., O.B.E., Jos. Aldridge Esq.. The Hon. N.K. Cameron was re-elected to the chair and the Hon. V.A.H. Biggs as Vice-Chairman. The other officers elected were :- Mr. H. Thompson (Hon. Treasurer), Captain D.R. Watson and Mr. F. O'Sullivan (Joint Hon. Secretaries).

It was decided that the next Race Meeting should be held on Saturday and Monday, December 26th and 28th, 1936. After appointing various sub-committee the meeting proceeded to discuss the problem of subscriptions and finally it was agreed that the subscription of 2/6 per member should be abolished. In future all prizes given by the Association will be in cash - no trophies will be ordered from the United Kingdom as in previous years. The Chairman then referred to the suggestion that the special sub-committee be appointed to make recommendations to an extraordinary general meeting regarding the revision of the programme. The following gentlemen were elected to serve on this committee:- The Chairman, Vice Chairman, Treasurer and Joint Secretaries (Ex Officio)., Hon. G.J. Felton, Mr. E.G. Rowe, Mr. A. Newing, Mr. M.G. Creece, Mr. T.W. Campbell, Mr. E.J. McAtasney and Mr. A. Bonner.

ATTORNEY GENERAL WILL NOTTAKE CRIMINAL PROCEEDINGS

The Attorney General stated yesterday in the House of Commons during question time that he had considered taking proceedings against all or some of the persons affected by the findings of the Tribunal of Inquiry into the Budget leakage. He had decided, he said, not to institute criminal proceedings in any case. He explained to the House the considerations which had led him to this decision.

He had had to consider what evidence would be available in a criminal trial involving the difficult questions of admissibility and the effect of statements taken by the Tribunal which possessed and exercised wide powers of compulsory interrogation and access to documents. It would be foreign to the spirit and method of British law to make such evidence the basis of a subsequent criminal charge and there was the additional point that it would be impossible to obtain a jury who were not already familiar with the facts and findings of the inquiry.

The Attorney General also mentioned that the offence of receiving information under the Official Secrets Act required that the unauthorised communication must have been deliberate.

After the Attorney General's statement the Prime Minister announced that the Government would table a formal motion for to-day that the Tribunal report "be now considered", which would not prejudice the course of the discussion.

The Opposition members in supplementary questions suggested that the Government, and the Prime Minister as the leader of the House in particular, had a responsibility to make recommendations arising out of the report but Mr. Baldwin refused to anticipate the course of the debate. He informed the House that Mr. J.H. Thomas and Sir Alfred Butt had expressed their intention of being in their places to make personal statements at the end of the questions on Thursday. The statements are expected to be brief and the two members will then withdraw from the House.

"QUEEN MARY" RETURNS TO ENGLAND.

The liner "Queen Mary" docked at Southampton at 2.25 p.m. G.M.T. yesterday at the end of her first voyage east across the Atlantic.

She had called at Cherbourg four and a half hours earlier where 200 of her passengers disembarked.

For the third time on her crossing the "Queen Mary" was delayed in the Channel yesterday morning by fog.

It was officially announced on the arrival of the liner that she had covered the 3,198 miles from the Ambrose Light to Cherbourg in four days, fifteen hours, fifteen minutes, at an average speed of 28.74 knots. The distances covered in each twenty-three hours and the final period were 621 miles, 679 miles, 670 miles, 679 miles and 549 miles.

The liner was given a great welcome by thousands who had gathered to see her berth.

STRIKES IN PARIS CONTINUE

Apart from the settlement reached with the textile and mining industries in the north of France the strike situation yesterday was much the same as in the past few days. Negotiations are being carried on uninterruptedly but the fact remains that 95% of the metal industry factories in Paris, among them the largest in France, are still occupied by strikers and that thirteen departments are now affected by the strike movement.

Considerable surprise has been caused by the strong line of criticism of the Bill for the forty hour week taken by M. Herriot's paper "Ere Nouvelle" which states that the measure would mean an additional expenditure for the army alone of 850,000,000 francs and still more for the navy. The paper goes on to say that the forty hour week on the railways would necessitate an increase of employees resulting in 1,500,000,000 francs being added to the annual wage bill. The total cost for public services including the army and navy is estimated at 4,000,000,000 francs.

THE LEAGUE OF NATIONS

Mr. Neville Chamberlain, the Chancellor of the Exchequer, referring to the League of Nations in a speech last night said that the policy of collective security based on Sanctions and tried out in the Italian invasion of Abyssinia had failed. "It has failed to prevent war and failed to stop war."

He declared that the part we had tried to impose upon the League was a task beyond its power.

The Chancellor said that it was time to limit the functions of the League to accord with its powers. To localise the world's danger spots regional arrangements or guarantees might be concluded he suggested.

STRIKES IN SPAIN .

MR. J.H. THOMAS RESIGNS HIS SEAT
IN THE HOUSE OF COMMONS.

Mr. J.H. Thomas announced his intention to resign his Parliamentary representation of Derby when he made a personal statement relating to the report of the inquiry into the Budget leakage at the end of question time in the House of Commons yesterday afternoon.

He said that he had reached this decision despite the support which he had received from the political associations in his constituency, the loyalty of which he appreciated.

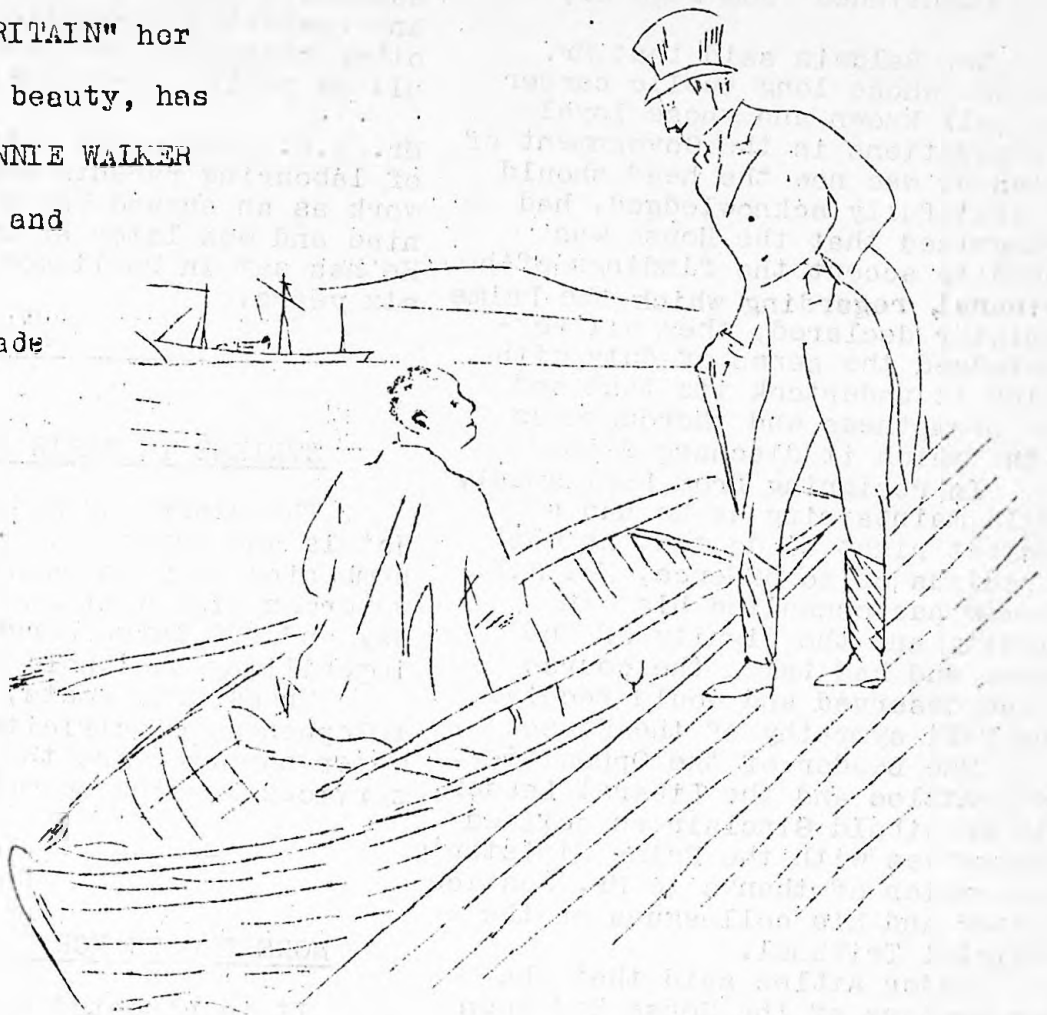

Mr. Thomas said that the House would agree that in resigning from the Government he took the only course open to him in his position. He did not propose to enter into a detailed discussion of the report of the Tribunal, to the impartiality of which he paid tribute, but he was entitled to declare before the House that he had never consciously given away any secret Budget information. Mr. Thomas was followed by Sir Alfred Butt who also signified his intention to resign his seat. These resignations will necessitate bye-elections in Derby, the Division for which Mr. Thomas has sat continuously since 1910, having been returned at the last two General Elections as the National Labour Member; and in the Balham and Tooting Division which has returned Sir Alfred Butt as their Conservative Member since 1922.

The House of Commons debate on the Budget Tribunal report was opened by the Prime Minister who emphasised the difference between the judicial tribunal which Parliament had constituted for the purpose of an inquiry into budget disclosures, and the ordinary court of law, since, he said, grave injustice would be done to the two members affected by the report if this distinction were overlooked and they were regarded as having been found guilty of a criminal act. It was his responsible though distasteful task as Leader of the House to move that the report of the Tribunal be accepted.

RESIGNATION OF MR. J.H. THOMAS.

(Continued from Page 2.)

Mr. Baldwin said that Mr. Thomas, whose long public career was well known and whose loyal co-operations in the Government of which he was now the head should be gratefully acknowledged, had recognised that the House was bound to accept the findings of the Tribunal, regarding which the Prime Minister declared, they all acknowledged the sense of duty with which it undertook its task and the promptness and thoroughness with which it discharged it.

In resigning from Parliament, while maintaining as he had a perfect right to do that he was conscious of no offence, Mr. J.H. Thomas has consulted his own dignity and the dignity of the House and had taken the course which deserved and would receive the full sympathy of the House.

The Leader of the Opposition, Major Attlee and the Liberal Leader, Sir Archibald Sinclair associated themselves with the Prime Minister's expression of thanks to Mr. Justice Porter and his colleagues on the Judicial Tribunal.

Major Attlee said that the two members of the House had been found by the Tribunal to have acted in a manner inconsistent with their positions in public life. It was their clear duty to vindicate the honour of the House. They were proud of the probity of public servants and rightly exacted from them a very high standard and they could not accept a lower one from a member of the House or from those who held high positions in the Government. But they all deeply regretted that Mr. Thomas's long and distinguished career should have had such an ending. Sir

Archibald Sinclair agreed that the incidents disclosed in the Tribunal Report were deplorable but that happily they were of a kind rare in British public life. That that was so was not due to fortuitous circumstances but to the jealousy with which they guarded the probity of public life and the quickness with which they acted whenever it was impugned.

That attitude must be maintained for it was the greatest and the only safeguard against chronic scandals and festering corruption from which other countries had found it difficult to purify their public life.

Mr. J.H. Thomas was born in 1875 of labouring parents and commenced work as an errand boy at the age of nine and was later an engine-cleaner. He has sat in Parliament for twenty-six years.

STRIKES IN PARIS CONTINUE

The staffs of 80% of the large Hotels and Cafes have gone on strike, numbering many thousands. The watermen also went on strike yesterday and 600 large barges are held up, imperilling the whole canal system.

Transport, posts, telegraphs, telephones, electricity, gas and water supplies are the only public services working normally at present.

MORE TROOPS FOR PALESTINE .

It is reported from Palestine that further troops have arrived, making two full brigades, reorganised in three commands all under the control of the Royal Air Force Officer, Air Vice Marshal Piers.

British residents received a letter yesterday announcing the formation of "The Black Legion". The letter says that the movement is "to safeguard Arab interests in spite of the English weapon which the Jews have used against us."

To The Editor
"Penguin"

Dear Sir,
May I recommend to your correspondent a study of page 756 of the Pears Cyclopaedia for 1933, where her complaint is dealt with in detail under the heading :- "Chorea. St. Vitus's Dance; a nervous disorder marked by irregular jerking bodily movements over which the patient has no control. It occurs chiefly in children, in girls more than in boys, and most cases are held to be due to an acute rheumatic infection."

NOTICE.

A meeting of the unemployed will be held at Mr. L. Hardy's Cinema Hall on Tuesday 16th of June, at 7 p.m. All members of the Public are invited to attend.

-: Hoping that this understanding explanation will set the Dancer's mind finally at rest -

The Editor,
The "Penguin"

I remain,
Sir,
Yours faithfully,
ODTAA.

Dear Sir,
I don't like controversial subjects BUT I do like girls - Fair Sex please !

Port Stanley,
Falkland Islands.
12th June, 1936.
To The Editor,
"Penguin"

Yours truly,
"Sailor Jack"

P.S. I'm not going to parties in the U.S.A.. - Leaving for Turkey to-morrow unless you can do something better here!

Dear Sir,
From the recent letter in your correspondence columns it would appear that no dance is really successful unless there are three men to one woman. From this it should be obvious even to the feminine intelligence that it is gross cruelty to make a man dance for more than one third of the evening.

MARSHAL BADOGLIO RESIGNS

It is reported from Rome that Marshal Badoglio has resigned from the Viceroyalty of Abyssinia and Marshal Graziani has been appointed in his place.

Marshal Badoglio has been nominated as the Duke of Addis Ababa.

REFORM OF THE LEAGUE OF NATIONS.

A speech made by Mr. Chamberlain, the Chancellor of the Exchequer on Thursday, advocating the reform of the League of Nations and the dropping of Sanctions against Italy, was keenly discussed in foreign papers yesterday.

The Daily Telegraph correspondent reports that the comments in Berlin are appreciative, "the speech was sensible and the proposals reasonable" says the "Deutsche Allgemeine Zeitung". The paper says "The British foreign policy is reverting from idealogy to strategy. Capetown will be a second Singapore and the new armaments policy involves clear aims."

In Rome it is claimed that the speech is an additional indication of the changed current of opinion in England. "A mortal blow to Sanctions" is the description of the "Giornale d'Italia".

The speech made a deep impression in France and was warmly welcomed by the press generally. The "Temps" says that the speech testifies to a profound evolution of foreign policy in the United Kingdom which implies the formal condemnation of the maintenance of Sanctions.

It is reported from Capetown that the speech startled South African parliamentary circles. The "Argus" asks "Is the new British policy firstly, **abandoning** Sanctions, and reconstructing the League as a purely deliberate body? The reference in the speech to British Dominions seems to indicate it. If this is not the new British policy all may be lost."

H O M E N O T E S .

Next time you dye a garment wind some white cotton on a stick and pop it into the dye bath. You will then be sure of having cotton exactly the right shade for any stitching to be done on the dyed material.

For white spots on furniture there is nothing so effective as rubbing with a cloth dampened with spirits of camphor. Next day polish in the ordinary way and nothing will be seen of the marks. In extremely bad cases, two or three applications may be necessary to restore the wood to its former condition.

The next time you are going to rub down the walls of a room, try using an old net curtain or portion of one instead of a smooth soft duster. The old net curtain does the job much better since the roughness removes the dirt and surface dust and absorbs it.

For cleaning parchment lampshades simply rub over them with fine oatmeal, using cotton wool. Renew the cotton wool as it becomes soiled.

An excellent and economical way to make your stair carpet springy is with corrugated cardboard. Cut it into strips as wide as the treads and equal in the length to a tread, plus half the height of the rise. Fix these pieces in position with drawing pins, making the padding curve over the front of the treads, then put down your carpet. This will double the life of your carpet

To prevent a draining board from rotting through continued exposure to damp, first scrub it thoroughly and, when dry, rub it all over with paraffin wax. Now force the wax into the pores of the wood by going over it with a warm iron. After two or three waxings you will find your board completely water-proof.

HONOUR FOR MARSHAL BADOGLIO .

It is reported from Rome that after a long series of honours heaped upon the national hero Marshal Badoglio, conqueror of Abyssinia, the last and greatest was conferred on Friday when he was formally received into the membership of the Fascist Party as a reward for having, "as Commander of the Italian troops in East Africa, won five great victories that ended in the collapse of the Abyssinian Empire to the glory of the Fatherland." The Marshal was handed a membership card bearing the date of the capture of Addis Ababa

NO NEW CURRENCY EXPERIMENTSTO BE TRIED IN FRANCE.

It is reported from Paris that a flat denial of the rumours that the French Government are contemplating new experiments with currency, was made last night by the Finance Minister, M. Vincent Auriol, who declared emphatically that the French Government had no need to resort to any extraordinary measures. In a country like France where between 40 and 45 milliards of francs were hoarded, experiments such as that attributed to be the intention of the Government, for instance to order the re-stamping of bank notes so as to ascertain in whose possession the hoarded money was hiding, was unnecessary.

What was needed first was a restoration of confidence so that the money lying idle would of its own accord come forward seeking investment.

HIS MAJESTY PAYS SURPRISEVISITS TO INSTRUCTIONAL CENTRES

His Majesty the King in addition to fulfilling a number of official duties yesterday, found time to pay surprise visits to two of the Ministry of Labour Instructional centres for the unemployed.

Yesterday morning he held a Privy Council at Buckingham Palace at which Sir Samuel Hoare took the Oath on his appointment as the First Lord of the Admiralty.

Later His Majesty received in an audience the South African Defence Minister, Mr. O. Pirow, and the British Ambassador in Turkey, Sir Percy Loraine.

The first training centre which the King visited yesterday was at Acton where he toured all the departments and questioned the men undergoing courses of instruction to fit them for employment in other industries than those to which they have been used but in which there is no longer the same demand for labour.

His Majesty then proceeded to Slough where he spent an hour in another instructional centre among some 600 men mostly transferred from specially depressed areas. In this centre there are courses in more than twenty different trades and after a complete tour the King expressed his satisfaction with the success which was attending the methods of practical training adopted at these centres.

DEATH OF PROVOST OF ETON .

The death occurred yesterday afternoon at the age of 73, of the Provost of Eton and former Provost of King's College, Cambridge, Dr. M.R. James, following a severe heart attack on Thursday.

He was Vice Chancellor at Cambridge from 1913 to 1915.

A famous scholar in the more recondite branches of archaeology, whose learned works on ancient and mediaeval manuscripts appealed to specialists, Dr. James also acquired popular fame as a writer of ghost stories. He received the Order of Merit in 1930.

STRIKE SITUATION IN FRANCESHOWS IMPROVEMENT.

The strike situation showed signs of improvement yesterday and the tension in Paris relaxed perceptibly during the course of the day.

Nearly all the Cafes, Hotels and Restaurants were open again and there was an entire absence of street demonstrations of strikers with red flags singing the "Internationale" and making the Communist symbolic gesture of a clenched fist which so disquieted Parisians on Thursday.

The public have also been reassured by the statement made by the Minister of the Interior to the press, that instructions have been given for the police to take all measures for maintaining order on the streets, which was followed yesterday by a similar declaration to this effect, made by M. Blum in the Chamber. The Premier stated that they had a feeling that suspicious characters who had nothing to do with the Trade Unions were trying to exploit the strike movement for their own ends but that the Government would perform its duty in this connection.

"Le Jour" points out that there are many cases where the strike parole has been given by unknown elements not employed in the factories concerned and enforced even against the will of the employees.

The paper also expresses uneasiness at the fact that two cases of this occurred where the proprietors had been dispossessed of their undertakings by the workers who then proceeded to run the factories under their own management.

STRIKES ENDING IN FRANCE

It is reported from Paris that the back of the general strike movement is now broken by the promise of the metal workers to return to work to-day, this covers the motor car, aeroplane and electrical equipment factories.

Settlements have been reached in the coalfields in the north of France and with the textile, dress-making and clothing industries, butchers and "one price" stores, while tentative agreements have been made in the paper making, cabinet making and locksmiths' trades; negotiations are also proceeding with the building trades and the insurance companies.

Sunningdale. The Bath Club Cup Final resulted in the United Services beating Badminton Club by 3/1.

NEW BELGIAN CABINET.

It is reported from Brussels that M. Van Zeeland has formed a Cabinet of six socialists, five Catholics including himself, three Liberals and one Independent, General Denis, as the Minister of National Defence.

HINDU WEDDING.

History was made at Cooch Behar, a native state in India, with the wedding on Saturday between Princess Ila Devi, the sister of the Maharaja of Cooch Behar, and Kumar Dev Burman, the cousin of the Maharaja of Tripura.

The ceremony was conducted in accordance with orthodox Hindu rites.

STRIKE IN VENEZUELA .

Business is at a standstill in Caracas and throughout Venezuela owing to a general strike, and the troops are patrolling the streets. The temperature of popular feeling is rising against the present regime and anarchist activity is growing.

ANIMOSITY AGAINST ROOSEVELT.

It is reported from Cleveland that summing up the general trend of the Republican Convention, observers consider that the hostility and animosity shown against Mr. Roosevelt is personal and not against the broad outlines of the New Deal, with the alienation of votes being owed to his "Dictatorial ambitions". Nevertheless, Wall Street still makes Mr. Roosevelt an 8/5 favourite for the election.

NEWS IN BRIEF .

London. The general managers of the four main railways in Great Britain informed the Trade Unions on Saturday that they are not prepared to improve the terms of the proposed wage settlement. The men's Executive Committee held a meeting later on Saturday to consider the position.

New York. The Dow Jones Agency reports that it is definitely stated in Washington circles that the United States and Great Britain have informally discussed the possibility of a joint action in the event of devaluation or a gold embargo by gold bloc countries. It is evident however that no agreement or understanding has yet been reached but the prospects favour a temporary arrangement rather than a permanent stabilisation gesture.

Natal. The unanimous decision of a commission relative to the Government of Mandated South West Africa, finds the present system is a failure and that there is no legal obstacle to the control of the territories as a province of the Union subject to the Mandate. Premier Hertzog informed the House of Assembly that the Union will probably take over the Administration of Swaziland in two years' time and Bechuanaland and Basutoland soon after. Most of the Bechuanaland Chiefs on Saturday reiterated their desire for direct protection by Britain.

London. The first Liberal National Convention has adopted a Constitution outlining continued support for the Government in the common cause of ministering to the country's best interests during these difficult times.

London. According to the Daily Telegraph correspondent Britain will recommend the dropping of Sanctions against Italy when the subject is raised at the League Assembly on June 30th. This decision is based on severely practical considerations it is stated, supported by the belief that the continuation would not lead to the restoration of the "status quo" in Abyssinia.

CARELESS MOTORISTS IN GERMANY

It is reported from Berlin that although systematic effort by the German police to enforce discipline and the observance of road rules among motor car drivers has considerably reduced the accidents during the past year, the number of mishaps still remains so high that even charging high premiums, business results regularly in a loss, declare the Insurance Companies. To correct this and to force the drivers to exercise more care, it has now been decided that in future drivers must bear part of the risk themselves, namely half of one year's insurance premium every time an accident occurs. For instance if the owner pays one hundred marks insurance money each year, then every time he has an accident he must himself bear the first fifty marks' worth of damage, the insurance company only meeting claims above that amount. This painful reminder of what accidents cost is expected to make drivers more careful, make roads safer, and enable insurance companies to do serious business on sound economic lines.

STRIKE IN BELGIUM CONTINUES

It is reported from Brussels that the strike continues to extend to the Liege coalfields and there are signs of its spreading to the steel industry. Measures have been taken to maintain order and to prevent the occupation of the works by strikers, and the few cases wherein men attempted to cause a "stop in" strike, were promptly settled without resort to arms. A general strike of miners at Broinage is threatened. The situation at Antwerp remains unchanged but apparently the strike is spreading as the motor lorry drivers are threatening to come out and so stop road transport.

PARCELS CARRIED BY THE"HINDENBERG"

The airship "Hindenberg's" next trip to the United States will begin on June 19th when both ordinary and registered letters of all kinds as well as ordinary parcels, will be carried.

The following trip is scheduled for June 29th. German business has begun to reckon on this fast service as an integral part of International communication although in reality the service, as far as the north Atlantic is concerned, is still nominally in the experimental stage.

The South African and British Empire lightweight boxing champion Laurie Stevens, retained the title against Louis Botes on Saturday by a technical knockout in the fourth round.

EGYPT TO JOIN IN AT GENEVA.

It is reported from Cairo that the Cabinet have decided that Egypt will join the International Labour Office at Geneva when formally invited.

MOTOR RACING IN GERMANY.

300,000 Spectators

The tenth international Eifel automobile race, the most hotly contested for many a year, was witnessed yesterday by over 300,000 spectators who, despite the driving rain and drifting mist, stood their ground until the close, cheering themselves hoarse with enthusiasm.

Nuerberg ring, where the race was held, has a track 22.8 kilometres long but it twists up and down in all directions so that in a contest lasting altogether over two hours, the spectators constantly see competitors passing. This contest is really the greatest international test of both the sportsmanlike capacity of the driver and the technical efficiency of the car, both being essential for winning distinction, particularly in a case such as this where the chief competitors are so well matched and three of the greatest makes of cars in Europe take part.

Keen satisfaction was therefore felt in Germany that once again the victory was carried off by the German motorist Bernard Rosemeyer in a German car Autounion, particularly as the weather conditions made the contest extremely difficult. Despite the rain and fog which at times was very thick, the race was one wild chase from start to finish, the danger of collision which during the fog was by no means negligible, being apparently ignored by the contestants.

Herr Rosemeyer finished the 228 kilometres in one hour, 56 minutes, 41 seconds; that is an average speed of 117.1 kilometres per hour. The next person was the Italian champion Nuvolari in an Alfa Romeo car, who finished two minutes, 14 seconds, later. Then came an Italian, Brivio, on an Alfa Romeo, followed by another Italian, Farina, also on an Alfa Romeo. Two Mercedes cars came next driven by Lang and Chiron.

The crowd broke into an uproar of applause when the result was made known, Rosemeyer receiving innumerable ovations and later telegrams of congratulation from all over Germany.

THE DAVIS CUP CONTEST

Germany again had an easy victory on Saturday over Ireland in the third day's play for the Davis Cup tie. The score thus reaching 5 - 0, Germany in defeating Ireland having qualified to play in the European zone finalship.

Saturday's play gave the following scores :- Henkel (Germany) defeated Rogers (Ireland) 6/2, 6/0, 6/1 and Baron Cramm (Germany) beat McVeagh (Ireland) 6/2, 6/3, 6/1.

LAND CONFISCATION IN ADDIS ABABA ?

It is reported from Addis Ababa that Viceroy Graziani issued a decree on Saturday prescribing that **the property and belongings** of all those who were living in Addis Ababa before the Italian troops marched in, but who fled and have not returned within fourteen days will be confiscated.

A division consisting of Italians living abroad at the time of enlistment has just arrived at Addis Ababa from Diredawa, with General Verne at the head.

ANNOYANCE FELT IN ROME .

Strong exception is taken in Rome to the phrase "empty rhetorical exhibitionism" in in a special order published in the Fascist Party Bulletin, which states that this is becoming an increasingly marked feature of speeches glorifying the foundation of the Italian Colonial Empire. "Public utterances in this style," continues the Bulletin, "are by no means in keeping with the dignity of the occasion". All Party authorities are instructed to take measures to counteract this tendency since "the increased historical responsibility of Fascism renders a strict observance of Fascist style more than ever necessary."

ATTEMPT ON MOUNT EVEREST ABANDONED

Communicating from Camp 1 by wireless, the leader of the Mount Everest Expedition, Mr. Hugh Ruttledge, informed the Daily Telegraph that this year's attempt on at the ascent has been abandoned owing to increasing snow and the monsoon. During lulls Smythe and Wyn Harris have made exploring trips and discovered a safer and more direct route to the summit on the north peak. While prevailing conditions and the lateness of the season make the use of this route impossible it may be immensely valuable on a future occasion.

THE CONTROL OF PARASITIC GASTRITISAND ENTERITIS IN SHEEP BY TREATMENT WITH COPPER SULPHATE AND

NICOTINE SULPHATE. (Extract from the Journal of Comparative Pathology and Therapeutics.)

"McEwan treated one-half of a Romney marsh flock throughout the winter, the other half being left untreated as controls, of which some were later treated with copper sulphate or nicotine sulphate alone. Sheep are not usually kept on the marsh in winter, due to the ravages of the smaller species of stomach and intestinal nematodes. Of the lambs treated with the mixture only 8.3% died, while of the entire control group 47% died, mostly among those left untreated. Nicotine sulphate appears to be superior to copper sulphate when used alone, and it is suggested the mixture may owe its efficacy to the action of the copper sulphate in carrying the dose direct to the abomasum. At the conclusion of the experiments the treated animals fetched more than double the price of the entire control group."

LIFEBOATS' BUSY WINTER .

The lifeboat service has been more busy during the **winter** just ended in England than for the last twenty years. Since September 1st, 1935 there have been 283 launches of lifeboats to ships in distress round the coasts of Britain. This is the largest number since the war winter of 1915-16 when there were 297 launches.

TREE 54" ROUND TRUNK

"A perfect willow tree" which has just been felled at Copped Hall, Epping, contained 14 feet of unblemished trunk and measured 54" round.

INCREASE OF ROSE GROWING

Since the imposition of tariffs on foreign roses there has been an astonishing increase in the numbers of British-grown rose trees. No fewer than 18,000,000 rose trees were produced in Great Britain last year, and their cultivation has given constant employment to 5,000 men.

Modern roses are almost perpetual flowering from early summer until late autumn. The National Rose Society has issued a statement pointing out that the present is an ideal time to plant rose trees in England, which are now as cheap as they were in pre-war days.

STINGLESS BEES .

An experimental swarm of stingless bees from Matabeleland has just arrived in London by air mail, and lodged in the Zoological Gardens. The experiment is the result of the interest taken in the matter by the High Commissioner for Southern Rhodesia in London and the Government Entomologist in Salisbury (Rhodesia).

There are a number of varieties of stingless bees in the Rhodesias, the particular type sent to London being the Umgogumtshani ("Grandmother of the Grass"). These bees are considerably smaller than the usual type of honey bee and form their nests in hollow trees. In these they store limited quantities of honey, adopting a pocket-shaped waxen storage cell in place of the more familiar hexagonal cellular comb.

Though without stings, they are said not to be without temper or the means of venting it, as is also the case with stingless bees from Central America, which bite fiercely.

It is reported from Brussels that the principal members of the new Cabinet were sworn-in yesterday. M. Van Zeeland as Premier, the Socialist M. Spaak as Foreign Minister, the Catholic M. Deschryver as Minister of the Interior, the Socialist M. Deman as Finance Minister, and General Denis as Defence Minister.

The Government is facing a difficult situation in the widespread strike threat led by miners and supported by many other industries, demanding a 10% wage increase with a statutory minimum, shorter hours, paid holidays and collective contracts.

EMERGENCY REGULATIONS IN FORCEIN JERUSALEM.

The new emergency regulations have been put into force in Jerusalem, providing the death penalty or life imprisonment for attacks on British troops or Palestine forces, and the same penalties are enforceable for bomb throwing or interference with public services and the obstruction of vehicles.

The Daily Telegraph correspondent reports that aeroplanes and machine guns have been employed in repulsing an Arab attack on Teljosef a Jewish Colony near Mount Gilead. Searchlights picked out the attackers who retired to the hills under heavy fire. Highway outrages continue and British troops convoying traffic engaged with desultory snipers yesterday.

Reports from Damascus indicate that there will be a sympathetic strike commencing on Wednesday.

NOT ENOUGH SUNSHINE

So far June sunshine in England is much below the average, with Kew registering 34 hours which is below normal and Croydon registering 42 hours.

S.S. "LAFONIA"

The s.s. "Lafonia" was reported to be 330 miles from Stanley at noon yesterday.

To The Editor,
The "Penguin"

Stanley,
16th June, 1936.

Sir,
 I have read with much surprise the letter in the "Penguin" of the 12th of June signed "Dancer".
 I think "Dancer" must have only danced with people from the Old Country for if she was to go to Cook House dances she would not need to complain that the men had no stamina.
 If young people don't go to bed until it is time to milk the cows, and then can't get up till they have had what they call breakfast at 10.30 a.m., it is no wonder they want to go to sleep at parties.
 What I say is let them get up at 5.30 a.m. and do a job of work in the garden and get an appetite for meals and be ready for bed at 9.30 p.m. and enjoy a good night's sleep which would be much better for everybody.

I am not grouching only I think things are not what they used to be in this Colony, and the sooner we get back to the old ways the better for all.

Yours,
"Kelper-to-the-Bone"

SECRET OF FORD PROFITS.

It is stated from Detroit that the secret of Ford profits was revealed by a company official in a broadcast talk in which he stated that the average profit on a car was 20 dollars, and since Ford commenced business 33 years ago, 34,500,000 cars have been sold, with bye-products, bringing in a return totalling 12950,000,000 dollars. Material, labour and taxes cost 12105,000,000 dollars and the net profit was 845,000,000.

AEROPLANE CRASHES .

Military air crashes occurred in the Soudan, Austria and Italy on Monday, involving eight fatalities.

A British R.A.F. machine caught fire in mid-air at Acarama and the four occupants were killed;

An Austrian bomber caught fire in mid-air near Linz and the two occupants were killed, while two Italian fighter planes crashed at Montegrappa and the occupant of each was killed.

ENQUIRY INTO THE DEATH OF AJAPANESE OFFICER.

Reference was made at the House of Commons' Question Time on Monday to the death of a Japanese officer in Peking on May 26th, in connection with which allegations have appeared incriminating soldiers belonging to the British Embassy Guard.

Recalling that a preliminary investigation set on foot by the British Embassy as soon as the reports appeared in the local press, had established that there had been no British troops either on the Pass or on duty outside their own quarters at the time when the incident was stated to have taken place, the Foreign Secretary stated that following the receipt of an official notification from the Japanese Embassy a British Military Court of

enquiry was set up on June 1st. Meanwhile, when permission was requested for the body of the murdered man to be examined by doctors attached to His Majesty's Embassy, they were informed that it had been cremated on May 29th, that is, one day before the Japanese note was handed in.

The Court of Enquiry effectively confirmed the result of the preliminary investigations.

The Japanese Embassy however, subsequently submitted the testimonies of a number of witnesses of Japanese or Korean extraction in support of the original Japanese allegation. These witnesses assert that they have identified three members of the British Embassy Guard as being involved in certain disturbances which took place on the night of the murder.

Investigations are proceeding and the witnesses mentioned are to be examined by the Court of Enquiry.

INTERNATIONAL PEACE CONGRESS.

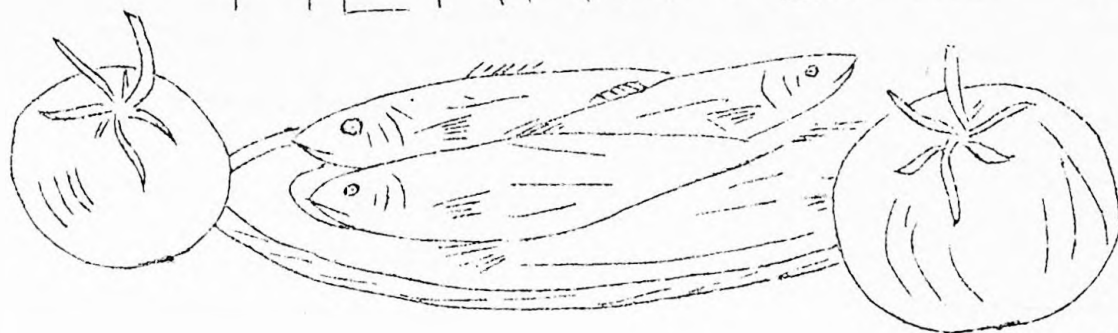

A message from His Majesty the King to the International Peace Congress held at Cardiff and attended by delegates from nearly every part of the world and organized in connection with the Peace Society, was read at the opening session on Monday.

His Majesty expressed the hope that the Congress would help to promote the cause of International peace "which was so dear to His late Majesty, King George V, and which His Majesty has no less sincerely at heart".

The Lord President of the Council, Mr. Ramsay MacDonald, who spoke, delivered a message from the Foreign Secretary in which Mr. Eden said that International peace could be assured only by making a common desire of individuals to live at peace part of the national consciousness of every country.

IMPERIAL CONFERENCE.

The Prime Minister announced in the House of Commons on Monday that an Imperial Conference will be held in London next year in May, immediately after the Coronation.

Mr. Baldwin added that the Colonial Secretary would communicate with the Colonial Governments regarding the holding of another Colonial Office Conference on the lines of those of 1927 and 1930 but that at present he doubted if it would be practical to hold it next summer.

NEWS IN BRIEF.

Bombay. Sir M. Visvesvaraya, the noted engineer and economist is the chief promotor of a million pounds undertaking for motor car manufacture which is the first of its kind in India. The production will be concentrated first on two types of car - one for passengers and the other for commercial uses.

Stockholm. The Socialist Government which has held office since 1932 resigned on Monday following defeat on the Old Age Pensions Scheme. The Agrarian leader Fehrsson is attempting to form a Cabinet.

Djibouti. It is understood that a compromise is likely to be reached relative to the Addis Ababa - Djibouti railway, between the French and the Italian Governments with joint possession established and each nation controlling distinct sections. The country south and west of the railway is far from quiet with strong forces under Ras Desta and Ras Imru waging guerilla warfare.

Belfast. Nationalist and Republican delegates discussed the formation of a United Party known as the "Reunion of Ireland Organization" and a Committee was appointed to consider details.

BELGIAN STRIKES ASSUME ALARMING PROPORTIONS.

It is reported that the strike situation in Belgium is assuming alarming proportions with approximately 170,000 workers now out.

According to the Daily Telegraph correspondent the troops are working the electricity supply services while in the Liege district trains have stopped running.

The strikers threaten to burn the trams unless they are withdrawn but it is possible that the soldiers will also be drafted into these utility services.

The troops are standing by and the mounted police charged the crowds with drawn sabres yesterday, but it is significant that no casualties were reported.

Assemblies in groups of over five are prohibited. The mining industry accounts for the majority of the malcontents but the metallurgical concerns and stores are now involved and the Ghent and Antwerp waterside workers are joining the movement. Meetings between the Union leaders and the employers are proceeding.

BANK OF ENGLAND BUYS GOLD.

The Bank of England announced the purchase yesterday of £1,409,795 gold following the purchase of £1,200,647 made on Monday and which brings their holdings to approximately £212,000,000 as assessed at the old statutory rate of 84s/- per ounce. The purpose of the purchase is to cover the rapidly increasing note circulation which is contributed to by continental hoarding of English currency notes.

DANCERS TOTTER OFF THE FLOOR.

We are publishing below an extract from the "Daily Mirror" sent in by one of our readers, which we think will be of interest in view of the recent correspondence in these pages.

"At Lady Islington's Leap Year Ball, several old-time, really energetic dances were slipped into the programme.

I saw several cases of acute distress among the young men, one or two of them actually tottering off the floor to find resting places. What would they have been like - as grandmamma is so fond of saying - at a typical Assembly Rooms affair way back in the eighties, when men were men and sometimes stiff collars were changed three or four times nightly?"

NATIONAL HOUSING.174,609 Houses Built In 6 Months

The Minister of Health, speaking at Winchester yesterday on the subject of National Housing, announced that the million mark in the number of new houses erected since the war ended had now been passed.

For the half year ended on March 31st, 174,609 houses had been built - an output exceeding by 5,000 any previous six months on record.

Sir Kingsley Wood drew attention to a gratifying feature of the recent building activity, namely, the increasing proportion of houses built for people of moderate means. Houses built for letting were being erected at the rate of 120,000 yearly and houses built with a rateable value not exceeding £13 were being erected at the rate of 160,000 yearly - undoubtedly the largest output of this class of house in the country's history.

NEW ROADS IN ABYSSINIA .

It is reported from Rome that 2,300 miles of roads are to be constructed in Abyssinia at an estimated cost of £25,000,000 under a two-year plan approved by Signor Mussolini.

Plans have been approved for the agricultural development of Abyssinia and include national colonization through authorized bodies and the grant of small holdings free of charge to Italian peasants.

SILVER FOR THE U.S.A.

It is reported from Shanghai that 17,000,000 dollars worth of silver was shipped to the United States yesterday from there.

This brings the total since May 18th to 86,000,000 dollars for the United States.

REVISION OF THE OTTAWAAGREEMENT.

In the House of Commons on Tuesday the President of the Board of Trade announced that preliminary discussions with a view to the revision of the Ottawa Agreement with Canada would begin shortly.

The Association of British Chambers of Commerce, the Federation of British Industries and the National Union of Manufacturers, as well as bodies representing particular industries, had been invited to furnish their observations to the Board of Trade.

Mr. Runciman added that the question of similar consultations with industry in connection with the possible revision of the Ottawa Agreement with other parts of the Empire did not arise at present.

PROPOSED INCREASE IN DESTROYERSTRENGTH.

The Daily Telegraph correspondent in London understands that Britain intends taking early steps to invoke the Escalator Clause of the 1930 London Naval Treaty to increase her destroyer strength.

The clause empowers other parties to make proportionate increases and the United States and Japan will probably follow suit.

The same journal also reports that Germany is re-fortifying the North Sea coast, with reconstruction proceeding from Heligoland, Borkhun, Norderney and Wangeroog to the Sylt Islands.

SCHOOLBOY BUILDS GLIDER .

A model glider built by a 14 years old schoolboy in Hamburg, established a new world record for distance and duration at a competition on Fishbeck Heath near Hamburg yesterday by covering a distance of 91.2 kilometres in three hours, fourteen minutes. A few hours after it was catapulted into the air by its schoolboy owner it was reported to have arrived at Preetz in Holstein.

GOVERNMENT NOTICE.

Colonial Secretary's Office,
Stanley, Falkland Islands.
16th June, 1936.

His Excellency the Governor directs it to be notified, for general information, that His Majesty the King's Birthday will be celebrated on Tuesday the 23rd of June, and that the Public Offices will accordingly be closed on that day.

The following Church Services have been arranged -

Christ Church Cathedral - 10.0 a.m.

St. Mary's Roman Catholic Chapel 10.0 a.m.

Tabernacle..... 10.0 a.m.

All ranks of the Defence Force will attend one of the Church Services according to their respective denominations.

His Excellency will attend personally the service at the Cathedral and will be represented at St. Mary's Roman Catholic Chapel by Major the Honourable M.J. Stewart, and at the Tabernacle by Captain W.M. Allan.

At the conclusion of the Church Services the Defence Force will return to Headquarters, form up as a unit, and proceed to Government House Faadock where a Ceremonial Parade will be held at 11.15 a.m. on the general lines of similar parades held in past years.

The Parade consisting of the Falkland Islands Defence Force, the Sea Rovers, the Stanley Boy Scouts and Wolf Cubs, and the Stanley Girl Guides and Brownies under their respective Officers, will be inspected by the Governor and Commander-in-Chief, who will take the salute during the March Past.

If weather conditions are unsuitable the parade will be held in the Town Hall.

It is desired that all Government Officials and as many members of the public as possible should be present.

By Command,

(Sgd.) M.J. Stewart,

Acting Colonial Secretary.

ORDERS PLACED FOR NEW SHIPS

It is reported from London that the Ellerman Lines have placed orders with British ship-builders for six high speed cargo liners, two with a tonnage of 10,600 for the South African service, two with a tonnage of 9,800 for the Indian service and two with a tonnage of 4,300 for the Mediterranean and Levant services.

QUEEN DECLARES BRIDGE OPEN.

It is reported from Amsterdam that Queen Wilhelmina, accompanied by the Crown Princess Juliana, opened the 5,000,000 florin bridge across the river Waal yesterday amid great enthusiasm.

The bridge is primarily for motorists and has taken five years to build.

FERRY DISASTER.

Ten people were killed in a ferry disaster at Budapest on Tuesday. The passengers panicked when the boat listed and rushed to the opposite side causing a capsizing.

RISE IN STERLING IN NEW YORK.

Sterling in New York rose above 5.04, thus constituting a new record for the year.

SERIOUS FIRE IN DANISH CASTLE

It is reported from Copenhagen that the Castle of the Danish Prince Axel at Bernstorffshøj was seriously damaged by fire which broke out at 5 a.m. yesterday morning.

The fire was discovered by Prince George and Prince Fleming who aroused the house and with their Mother assisted to save the contents. There were no casualties.

FUTURE OF THE NAVAL BASE ATMALTA.

Invited at question time in the House of Commons yesterday to make a statement regarding the future of the British naval base at Malta, the First Lord of the Admiralty, Sir Samuel Hoare, said "I am glad to have this opportunity for contradicting rumours which have received some publicity that Malta is to be abandoned as a naval base. The board of the Admiralty have no intention of discontinuing the use of Malta as the principal naval base in the Mediterranean and the headquarters of the Mediterranean Fleet."

To a supplementary question as to the security of the base, Sir Samuel Hoare replied, "I would never say that I was fully satisfied with any defence position but I would state categorically that as we have no intention whatever of evacuating Malta we shall certainly take every practicable means to make its defences secure against any possible attack."

OBITUARY.

Sir J.H. Miller, formerly Mayor of Londonderry and a solicitor in the city, died yesterday aged 71. He was a member of a family connected with the corporation of Londonderry for the last 100 years.

CHANGES IN THE ROYAL AIR FORCE

The Air Ministry announces that the Air Council have decided to carry out important changes in the system of the command and the administration in the Home Commands of the Royal Air Force in order to provide appropriate organisation for the enlarged force which will function with speed and efficiency in peace or in war. The new organisation has provided for four commands as follows :- First, Bomber Command controlling the bomber squadrons; Second, Fighter Command controlling the fighter squadrons, army co-operation squadrons and the observer corps; Third, Coastal Command controlling the flying boat and general reconnaissance squadrons and the administration and shore training of squadrons of the fleet air arm, and Fourth, the training command which will with a few exceptions control all the training units at home.

The air defence of the country will be vested in three operational commands, the close co-ordination between which will be directly exercised by the Air Ministry.

The first appointments to these Commands are, to the bomber command - Air Marshal Sir John M. Steel; to the fighter command - Air Marshal Sir Hugh C.T. Dowding; to the coastal command - Air Marshal Sir Arthur M. Longmore and to the training command - Air Marshal Sir Charles Burkett.

Changes affecting the administration of a far-reaching nature - the main objects of which are to provide for the decentralisation of administrative duties, for the exercise of fuller powers and for the reduction to the minimum of links in the chain of command, in order to avoid delays and duplicated effort - are also introduced.

The new organization will be brought into force for the bomber, fighter and training commands in July. The change in the coastal command will follow shortly afterwards.

MAIL NOTICE. Registered letters will be received at the Post Office not later than 4 p.m. on Friday (19th June) and Ordinary letters will be received not later than 9 a.m. on Saturday, 20th June for Europe, South America and West Falklands.

To the Editor,
The "Penguin".

Dear Sir,

When your readers have finished writing all sorts of letters about dancing I wonder if one of them could find time to answer my original question. That is if any of them have an answer.

I quite agree with "Kelper-to-the Bone" that the campers have more stamina but even at cook-house dances there are nearly always more men than ladies and so while the ladies dance every dance the men do not have to do so.

F O O D (18)

The first thing to remember in choosing food is that a varied diet is more likely to contain all the essentials to health than a monotonous one. The second thing to remember is the great importance of the "protective foods", those with a high vitamin and mineral salt content, milk and its products, green vegetables and fruit. The point is especially to be stressed here in Stanley where neither milk nor vegetables are adequately represented in our ordinary diet. If sufficient protective foods are taken, the appetite may be almost considered a true guide to the rest of the diet here, where meat is so plentiful.

Remember though that the internal organs, liver and kidney especially are richer sources of vitamins and mineral salts than muscle meat.

Another thing to remember is that Vitamin B is commonly lacking in our diet; so eat wholemeal bread, bemax and marmite.

A simple way of ensuring a varied and representative diet is to think of foods as belonging to four groups:-

- (i) Fats and Oils, containing Vitamins A & D.
 - (ii) Cereals, containing Vitamins B or B1.
- Both these groups are "fuel foods".
- (iii) Lean meat and its equivalents such as fish, cheese or egg containing Vitamin B2 or G.

Body Building foods.

- (iv) Fresh fruit and vegetables - containing Vitamin C.

Having decided that certain types of food contain essential elements it would be advisable at this stage to enumerate some of the more common foodstuffs with their active ingredients.

Lean Meat will supply an abundance of protein, Vitamin B, a little Vitamin A and some mineral salts. Corned (canned) beef is very good and cheap food. Liver, heart, kidneys and sweetbreads are very rich in vitamins therefore strongly recommended. Ham and Bacon are not such good food.

Poultry and Game have much the same value as lean meat except a more easily digestible form of fat.

Fish and Shell Fish, contain first class proteins and are especially rich in Vitamins A & D also B1; the flesh of white fish is rather poor in Vitamins except B2. Canned Salmon is a good food because it contains first class protein, fat, mineral salts and Vitamins A, D, and B2. Sardines if eaten with the bones supply a form of Calcium (Lime) salts. All sea foodstuffs supply Iodine.

Milk, is a combined food and drink containing fine globules of fat suspended in protein, milk sugar and mineral salts, Vitamins A, D, B1 and B2. Races of people who live on milk as their main food live a long time and have very good teeth.

Cheese, is rich in protein and fat, also Vitamin A & D; a very good cheap food and could with advantage be more widely used as an article of diet.

Eggs contain an high value of protein, fat in a digestible form and mineral salts especially Iron and Phosphorous. Eggs contain Vitamin D, B1 and B2 also a little A but no vitamin C; Vitamin C must be added also carbohydrates. Potatoes and eggs together make a square meal.

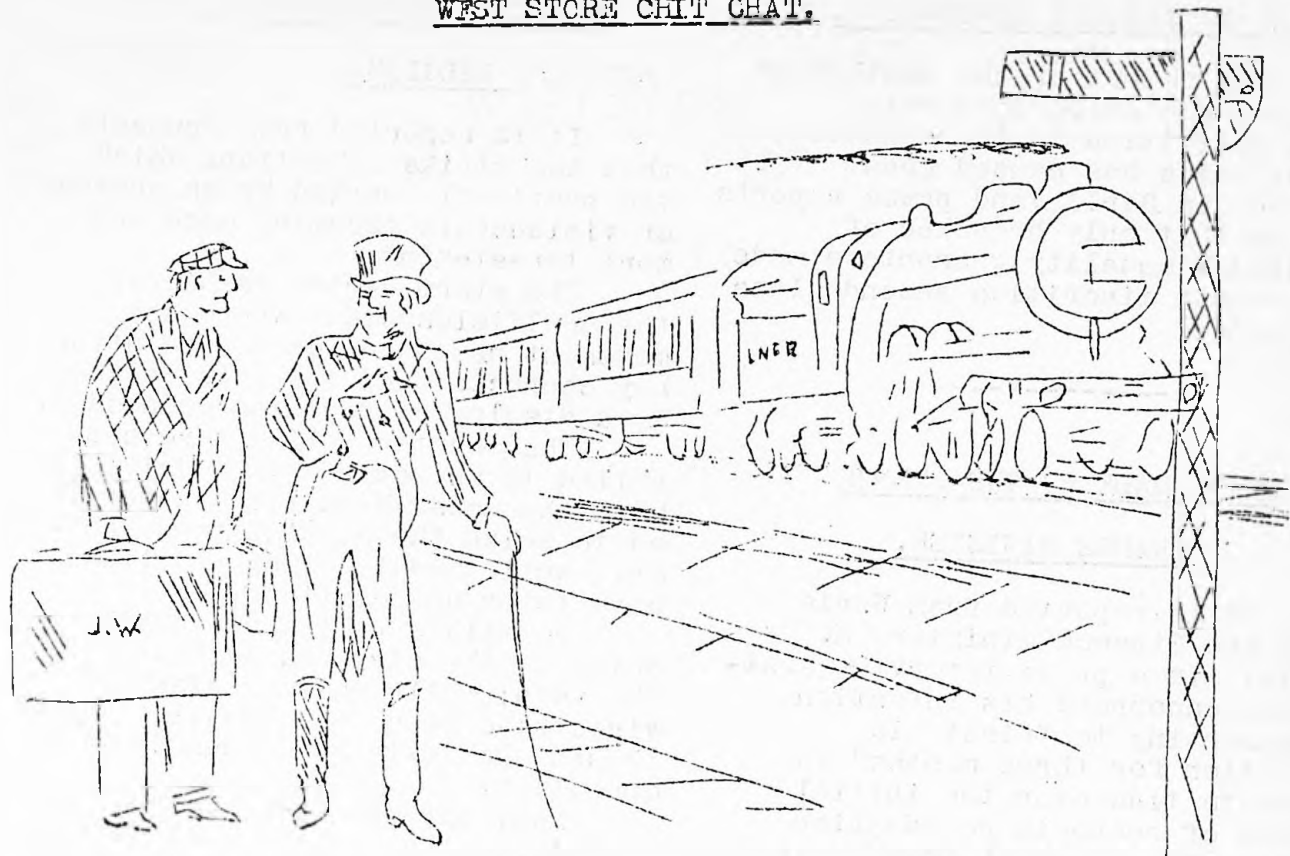

Cereals and Seed Products - Civilized countries tend not to eat enough cereals, but cereals together with milk and green vegetables make an almost complete diet.

White flour has lost many of its valuable constituents by the process of milling. Middlings or Pollard have high protein and salt content also contain Vitamin B, mixed with porridge or made into cakes, pollard is very palatable.

Wholemeal bread is a more valuable food than white bread because the essential elements have been retained.

PLANS MADE BY THE FRENCHFINANCE MINISTER.

It is reported from Paris that the Finance Minister, M. Auriol, in a press interview yesterday, announced his intention of resorting to "first aid inflation for three months" in order to tide over the initial period of economic re-adaption between the rises in price consequent on the new deal and the useful effects of that rise.

The methods to be adopted have not been disclosed but M. Auriol in reiterating his fundamental hostility to devaluation indicated that there would be no heavy discounting of treasury bills or manipulation of exchange control.

Rumours on the Bourse envisage the early conversion of rentes to lower interest rates and it is pointed out that 3% are standing higher than 4% while quotations have become more marked in the past few days.

While the Finance Ministry denies any such forced conversion it is authoritatively reported that relief plans, costing 20,000,000,000 francs will be financed by the issue of new treasury bonds bearing interest of $\frac{1}{2}\%$ above that of the savings banks and redeemable in 10 years' time.

OBITUARY.

The Democratic Senator, Duncan Fletcher, who was Chairman of the Senate Banking and Currency Committee, died yesterday at Washington, aged 77.

VIOLENCE THREATENED INBELGIUM.

It is reported from Brussels that the strike situation, which was previously marked by an absence of violence, is becoming more and more threatening.

The storm centre is Liege, the coalfields area, where the movement has taken on a revolutionary character and was only checked by a display of force on Wednesday.

The mounted police were compelled to use swords when driving back the mobs which twice attempted to seize the Herstal arms factory, while machine guns and tanks have taken up positions.

No milk supplies are available owing to the strikers overturning the vans; while railway signal wires have been cut and all trams, 'buses and taxis have ceased operating.

Many arrests have been made. At Antwerp the port is paralysed owing to the strike.

19 OUT OF 20 PENGUINS REACHENGLAND SAFELY.

Recently we published inform-
ation in the "Penguin" regarding
 the penguins taken from Stanley by
 Mr. A.G. Bennett for the Zoological
 Society of London. We now under-
 stand that of the twenty penguins
 taken by Mr. Bennett, nineteen and
 not eleven, as previously stated,
 arrived safely in England.

The penguins were in excellent
 condition on arrival and are doing
 well.

The care and feeding of peng-
 uins between the Colony and the
 United Kingdom presents many diffic-
 ulties, particularly when substit-
 utes have to be provided for fresh
 fish.

Mr. Bennett has once more
 proved his capabilities in the care
 and handling of these birds and he
 fully deserves the congratulations
 of all on his achievement.

BRITISH PRESTIGE LOWERED ?Vote of Censure

A vote of censure is to be moved by the leader of the Opposition, Major Attlee, on Tuesday which declares that the Government by lack of resolute and straightforward foreign policy have lowered the prestige of Britain, weakened the League of Nations, imperilled peace and thereby forfeited the confidence of the House.

The Parliamentary Labour Party have issued a manifesto to the Nation headed "Great Betrayal". The manifesto appeals to all men and women and to the goodwill of Churches and organisations to rally to the defence of collective security, peace and justice through the League of Nations.

NEWS IN BRIEF.

London. The Railwaymen's Union has rejected the Companies' offer for the partial restoration of the 1931 cuts. The claim now goes to the Tribunal.

Dublin. The first meeting of the Free State Senate Commission, to consider the functions and powers of the Second Chamber in the new constitution, was held behind closed doors on Thursday with all the members sworn to secrecy. The Opposition Leader, Mr. Cosgrave, has forbidden his followers to serve on the Commission.

Wellington, New Zealand. The Marketing Minister, Mr. Nash, has indicated that if Great Britain is prepared to conclude a reciprocal agreement, New Zealand will be willing to take their entire cotton goods requirements from the homeland and disregard Japanese imports.

Washington. The State Secretary Mr. Hull announced yesterday that the United States will pursue a course independent of the League in the Italo-Abyssinian situation. It is probable that the arms embargo will be continued until the League reaches a Sanctions decision.

London. The resignation is announced of Mr. J.C. Dennison Pender, the Chairman and Joint Managing Director of the Cable and Wireless Company.

Vienna. Addressing the ex-soldiers of the East Tyrol, Archduke Eugene, the uncle of Archduke Otto, on Thursday predicted the restoration of the Austrian monarchy in the autumn.

Wimbledon. Every bookable seat for the Lawn Tennis Championships was sold out weeks ago and there is every prospect that 1936 will prove a record breaker. Adequate steps have been taken to prevent ticket touting.

U.S.A. FINANCIAL AND ARMS EMBARGO

A message from Washington reports that it is understood that the financial and arms embargoes against Italy will not be affected by any decision of the League of Nations to remove Sanctions.

President Roosevelt has repeatedly emphasised that the embargoes are not in any way connected with the League and he was represented yesterday by close advisers as not desiring to terminate them until an independent inquiry shows that hostilities have definitely ceased throughout Abyssinia.

LOCAL CORRESPONDENCE.

Port Stanley,
Falkland Is.,
19th June, 1936.

To the Editor
"Penguin"

Sir,

Your correspondent's persistence surprises me; surely in these days of comparative candour it is a trifle unwise to try male chivalry too far. If Dancer really wants to know, men do not dance for the excellent reason that they do not want to - the inducement is insufficient. After all, only an exceptional woman can hope to attract right through the small hours, and not all women are Sirens.

Yours truly,

ODTAA.

ROYAL VISITORS' BOOKS

The Royal Visitors' Books which have been used at Buckingham Palace during the last reign have now been sent to Windsor Castle, where they will be placed among the Royal Archives. These books remain there for several years before being destroyed.

The utmost care is taken to prevent any of them, or pages from them, finding their way into unauthorised hands. The value of the autographs they contain would, of course, be considerable to collectors.

A SYMBOL OF THE NATIONALTRUST.

It has been decided that leaves of the English oak shall be the symbol of the National Trust, and the work of making metal signs to be placed on all properties of the Trust has begun.

The National Trust has about 300 properties in England and Wales, and on almost all of these it is necessary to have notice boards or tablets. The new design consists of an omega-shaped frame, with the words "The National Trust" round the semi-circle, a sprig of oak leaves (four leaves and one acorn) in the centre, and space for the name of the property at the bottom.

Oak leaves were decided on rather than a lion or a rose as being a less common heraldic symbol of England, and their clear outlines are more easily reproduced and are less likely to be altered in the course of time and many copyings.

OBITUARY.

It is reported from Moscow that Maxim Gorky the famous revolutionary writer died yesterday of heart disease, aged 68. His ashes are being placed in the Kremlin behind Lenin's tomb.

SPECIAL FLATS FOR MARRIEDSOLDIERS .

A large block of red-brick flats are being erected in St. John's Wood. The rent for each flat, furnished, is to be 7s/- per week, and they are intended to be used as married quarters for the Regular soldiers who are stationed in London.

Sixty-eight families will thus be accommodated.

The flats will be five storeys high behind a square of pleasant lawns and flower beds. From a high sun balcony at the back the tenants will have a wide view over Primrose Hill and Hampstead in one direction and to St. Paul's and South London in the other.

MOVING 180,000 BOOKS TO NEWLEEDS LIBRARY.

The Leeds University Authorities have performed a huge task in removing 180,000 books and pamphlets to their new home, the Brotherton Library.

So large is the reading room of the new library that it could hold the whole of the existing library. Its 6,000 shelves, each one of which has to be labelled, have a capacity for 200,000 volumes. Below the reading room is accommodation for considerably over 750,000 volumes.

In another part of the building a room has been set aside for the current numbers of the eight hundred periodicals which the library buys. It is one of the most important places in the department. The issues will be kept in 2,000 pigeon holes, and they will be classified under distinctive colours for easy reference.

INCREASED NUMBER OF CIVILSERVANTS.

Twenty-five years ago there were 215,000 Civil Servants employed by the State, the total number at present is approximately 439,000.

MY ZEPPELIN FLIGHT.By The Bishop Of The Falkland Is.

(The following is an extract from the "Sunday Dispatch" and we are publishing it as we feel sure that it will interest our readers.)

Travelling by air frequently means a very early start, at any rate in South America, and the journey by the Zeppelin "Hindenburg" was no exception to this general rule. The hotel night-watchman called me at 2.20 a.m., and at 3.20 a.m. had a taxicab waiting to take me to the Central Station, Rio de Janeiro.

The special train for zeppelin passengers left at 4 a.m., and the journey to Santa Cruz took about an hour and 40 minutes.

There we found an enormous hangar and the "Hindenburg" moored inside, the lower part of the envelope being about eight feet from the ground. From the centre of the ship in the underside steps were lowered and passengers walked on board as though walking up steps on a hatchway. On the first deck we found the smokeroom, bar, and shower bath. No matches were allowed on board - an electric lighter was provided in the smokeroom. On the next deck the cabins were in the centre of the ship, and on the outer side - starboard lounge, writing room, and short promenade.

Happy Party

Windows ran the full length of the promenade on each side. These were of celluloid or some similar material, and were built at an angle in a way so that we could see outward and downward. We were a very happy party, about 35 of us, German, Spanish, and English were the principal languages used. Captain Lehmann had what he called the English table, at which we were two English, two American, one Australian and the Captain. Life was very similar to that on board ship, with the exception that there was not sufficient room to get much exercise. The food was simple and excellently cooked, and at meal times it was difficult to realize that one was not at sea, the whole setting was so like that in a liner. The chief difference was that in the Zeppelin there was no motion at all. The noise of the engines was not more noticeable than the noise of the engines in a liner.

Walking the Plank

We left Rio at 6.30 a.m. on Monday and reached Friedrichshafen at 6.30 p.m. on Friday. On the way we apparently had some trouble with one engine, but we knew nothing about it until the Captain told us. It simply meant that we were reduced in speed. The Captain took the members of the English table over the ship, and it was then that we realized we were not on board a liner. We walked along what I presume is called the keel of the ship (the length of the ship is 750 feet), and we could see the complete length. The walking space was about a foot wide - in fact, we walked the plank - but there was plenty to hold on to each side. On either side were the crew's quarters, stores, tanks, workshops, below merely the envelope. At the time we went over the ship she was travelling at a height of about 5,000 feet. It was a curious sensation to realize that if one fell off the footway there was only the envelope of canvas between us and a drop of 5,000 feet to the sea. The captain afterwards told us that, had he thought of it, he would have demonstrated to us that the canvas would hold the weight of a man. We were also taken into the control car and had everything explained to us. It was just as easy, if not easier, to sleep than on board ship.

(Continued on Page 3. Col. 1)

MY ZEPPELIN FLIGHT.

(Continued from Page 2)

There was plenty of variety in the daytime, as there was the interest of looking at things from a different point of view as we travelled along the coast of West Africa.

We were rather disappointed at not passing Gibraltar in daylight. We passed just as ships, docks, and houses were being lighted up, and it was really a wonderful sight to look down on it all. The interest on Friday was absorbing as we passed over parts of France, Switzerland, and Germany. I can recommend this method of travel to anyone who is inclined to be seasick - there was no sign of anyone being in any way uncomfortable. The landing of the ship at Friedrichshafen was done in a few minutes, and demonstrated how wonderfully this huge ship was under the control of those who navigated her. At no time on the journey was there any sense of risk or danger.

FAMOUS YACHT TO BE SCUTTLED.

The "Britannia", the sailing cutter which belonged to his late Majesty King George, and which is perhaps the most famous racing yacht in history, is to be scuttled at sea. Orders to this effect have been given by His Majesty King Edward.

The "Britannia" is lying at present on the slipway at Cowes. She will be launched for the last time at the next spring tides on July 7th or 8th and handed over to the Admiralty.

The yacht, which has more than 200 victories to her credit will be towed out to sea and then scuttled. The lead keel weighing 60 tons will not be taken out of the yacht when she is sunk.

The "Britannia" was built for the present King's Grandfather, King Edward VII, when he was the Prince of Wales. In her 43 years of racing the "Britannia" has started in 625 races and has won 231 first and 129 other prizes.

BUDGET DEFICIT IN FRANCE

It is reported from Paris that in an interview published in the press there yesterday, the Finance Minister, M. Vincent Auriol, declared that the Budget showed a large deficit, the Treasury was almost dry, and that the money required for the remainder of the present year's Budget expenditure amounted to at least 15,000,000,000 francs.

Absurd rumours were being circulated for the purpose of creating an atmosphere of pessimism, a campaign for devaluation made the merchants and manufacturers uneasy and encouraged speculation against the franc as well as the flight of capital abroad.

Between the hopeless and immoral alternative of devaluation and that of stimulating the vitality of a franc which was still rich and healthy, the Government had chosen the latter. They have been guided in their choice by a desire to be just to the small saver and to ensure the "small man" his daily bread.

The Government appealed for the Nation's confidence. An amnesty gave all the people who had sent money abroad two months' time for reflection and they need have no anxiety about bringing back their capital. Hoarded gold and notes could also be brought from their hiding places - a fruitful field of activity was awaiting this money.

APPEAL FOR FRANCO-GERMANRECONCILIATION

It is reported from Paris that on the occasion of the twentieth anniversary of the Battle of Verdun, Marshal Petain made an appeal for a Franco-German reconciliation in a broadcast speech yesterday.

One problem in France's foreign policy overshadowed all the others declared Marshal Petain, and that was France's relations with her neighbour in the east. Although war memories with regard to this neighbour were too fresh to be able to give way to unconditional reconciliation it was nevertheless

(Continued on Page 4.)

APPEAL FOR FRANCO-GERMANRECONCILIATION.

(Continued from P. 3. Col. 2)

difficult to understand why two nations with great civilisations could not come to an understanding without thereby doing violence to their national traditions.

Could not one, asked Marshal Petain, ever shake hands over a bolted gate? No matter what policy circumstances might demand, France had the duty of keeping her military, naval and air forces up to the highest possible strength since the power resulting from secure independence attracted new friendships and maintained old ones.

CENTENARY CELEBRATIONS IN ITALY

40,000 soldiers of the well-known Bersaglieri corps assembled in Rome yesterday for the first centenary celebrations of the Regionnes foundation. After the March Past before Signor Mussolini at the War Ministry and a parade in honour of the King on the square in front of the Quirinal, the troops lined up before the Palazza Venezia where Signor Mussolini, wearing the uniform of the Corps, appeared on the balcony.

Pointing out that their Centenary fell in a year of an undisputable and solely Italian victory, Signor Mussolini said that he knew what they, and with them the whole Italian army, were capable of in the event of its being impossible to bring those afflicted with mid-summer madness to reason or at least to a state of harmlessness.

OBITUARY.

It is reported from Berlin that one of the most prominent figures in the German Foreign Office, State Secretary Bernhard Wilhelm von Buelow, died there yesterday from pneumonia, aged 54.

IMPRISONMENT FOR 106 POLICEMEN.

It is reported from Warsaw that sentences of imprisonment varying from eighteen months to ten years have been inflicted on 106 German born policemen at Katowice, charged with plotting to separate upper Silesia from Poland. Thirteen policemen were acquitted at the trial which lasted eighteen days.

THE BELGIAN STRIKE SITUATION

It is reported from Brussels that the strike situation is calm everywhere and according to the Ministry of the Interior there have been only a few minor incidents.

At Ghent the troops have been placed in a position to block the roads in the event of the threatened march on Brussels eventuating, but the strikers are not now expected to resort to such action.

The joint committee of mine-owners and employees agreed yesterday on a daily minimum wage and most of the other trades have now accepted the recommendations of their arbitration committees, the employers in practically all the industries leaving the question of the forty hour week to the Government to settle. The matter will be discussed at the Cabinet Council to-day. The general outlook has considerably improved.

CRICKETER SENT HOME .

A sensation without a parallel in modern cricket history has been caused by Amarnath, the best all-round player in the All India Cricket Team being sent home "as a disciplinary measure". This is understood to be the outcome of a Pavilion scene and concerns the alleged attitude of Amarnath towards the Captain of the team.

London. At noon on Saturday the temperature was 81½ degrees Fahrenheit and it rose later to 84 degrees.

WHIST DRIVE AND DANCE.

A most enjoyable Whist Drive and Dance was held in the Town Hall on Monday night under the auspices of the Stanley Benefit Club.

The winners of the Whist Prizes were :-

- 1st Prize for Ladies - Mrs. A. Newing.
- 1st Prize for Gentlemen - Mr. D. Morrison.

MRS. AITKEN.

We offer our good wishes and congratulations to Mrs. Christina Aitken who celebrated her 90th birthday yesterday.

Mrs. Aitken was born at Fort William, Ben Nevis, Invernesshire, and came to the Falklands with her parents in 1867.

She has two sons, six daughters, forty-seven grand-children, forty-four great grand-children and three great great grand-children.

We believe that Mrs. Aitken has the distinction of being the oldest lady in the Falkland Islands.

ALEXANDRA ROSE DAY

The Jubilee of Alexandra Rose Day is being celebrated to-day. 12,000,000 roses are on sale throughout England. The event was started by Queen Alexandra in 1912 to raise money for hospitals and charities for the sick. Her favourite flower, the wild rose, was chosen as an emblem. Three hundred crippled girls have been working for ten months to make the roses. This morning the Duchess of Kent, who is President of the Organization visited many of the rose depots.

NEWS IN BRIEF.

Cannes. It is reported that His Majesty King Edward will spend his summer holiday on the Riviera and has taken a chateau near the Gulf of Juan. The chateau was built in 1931 by Mr. Maxine Elliot the well-known dramatic artiste who still retains the ownership.

Manchester. The cotton spinners' and twiners' Associations have passed a resolution to take immediate steps to terminate the wages agreement made in November 1932 and to press for the restoration of the 14% wages cut.

Ottawa. The Senate has passed a Bill establishing new administration for the Canadian National Railways whereby a Board of Directors has been created in place of the present Trustee Board of three men, whom the Railway Minister, Mr. Howe, stated had failed in co-operative methods.

Rome. The Duce has approved the plans for improving the approach to St. Peter's and the Vatican which have now been submitted to the Pope.

New York. An enormous tourist invasion of Europe is envisaged, reaching the volume of the pre-slump era, with all the important trans-Atlantic sailings fully booked up to the middle of July and many would-be travellers turned away. As compared with 1935 the reservations have increased from 20 to 45 per cent.

Salcombe. The famous barque Hertzogin Cecilie, which has been trapped on the rocks on the Devon coast for nearly two months, was pulled off by tugs on Sunday and was towed to Salcombe after having been lightened of her cargo of grain, hundreds of tons of which were thrown overboard. Subscriptions towards the cost of refloating her have been sent from all parts of Britain. It is not yet known to what extent the ship is damaged, but it is suggested that the comparative ease

with which she was refloated shows that she was not holed as seriously as was first thought. The barque won the 1936 grain race from Australia.

Georgetown. British Ghiana. The trawler "Girl Pat" of Grimsby has surrendered to the police after 2½ months' wandering over 5,000 miles.

The "Girl Pat" sailed for the North Sea fishing in April and was later reported from Spain, Gibraltar, Madeira, Dakar and Cayenne. The mystery of the voyage and ultimate destination have not been revealed but it is believed that she has been engaged in treasure hunting.

Stockholm. The new Cabinet which has been formed includes six Agrarians, six Government Officials and non-political specialists. Only five are members of Parliament.

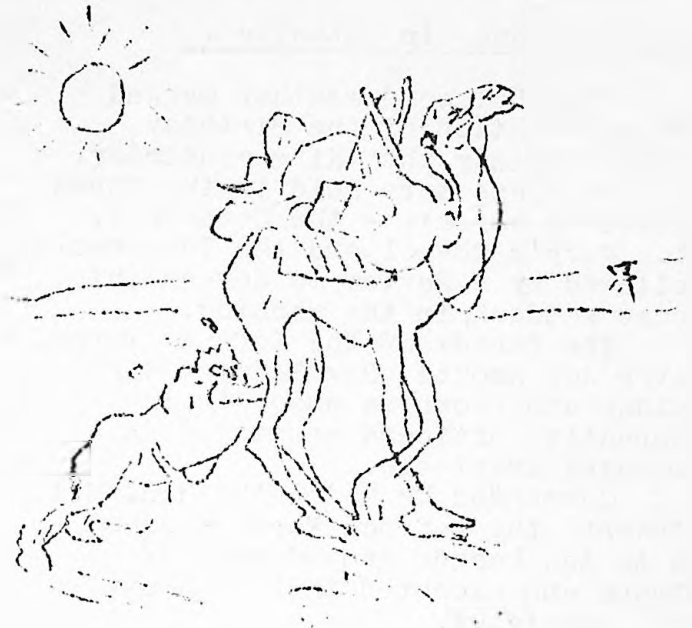

Dublin. The Irish Free State Government on Monday formally declared that the Irish Republican Army was an illegal organization and prohibited the celebrations of the Wolfe Tone commemoration at Bodinstown Churchyard, Kildare, which had been planned. Mr. de Valera made an official pilgrimage to this grave a fortnight ago and speculation is rife as to what will develop. Trouble is feared and all police leave has been cancelled for the time being. The Army's Chief of Staff has been sentenced to three years' imprisonment by the Military Tribunal for membership of an unlawful organization.

London. The British Government is making preparations for resuming Italian trade as soon as Geneva ratifies the removal of Sanctions, states the Daily Telegraph. The Liberal Party Convention have carried a resolution expressing a deep sense of humiliation and indignation at the Governmental surrender to the aggressor but their unfailing allegiance to the League Covenant. France, Poland, Australia and Canada are supporting the British decision for terminating Sanctions and in Belgrade the opinion is that the little Entente cannot resist the lead; but South Africa continued in favour of the continuance of Sanctions.

THE KING'S BIRTHDAY.Celebrations in Stanley.

Fine but cold weather marked the celebration of the Birthday of His Majesty the King yesterday.

Services were held in the three places of worship - the Cathedral, St. Mary's Chapel and the Tabernacle, followed by a Review on Government House Paddock in the morning.

The Parade of the Defence Force, Rover Sea Scouts, Boy Scouts, Girl Guides and Brownies under their respective officers presented an imposing spectacle.

Commanded by Major the Hon. M.J. Stewart, the Defence Force marched on to the Parade Ground some 77 strong and executed their manoeuvres with precision.

The Colour Party under 2nd Lt. L.W. Aldridge took a prominent part and the Brass Band under Cpl. F. O'Sullivan was most efficient.

His Excellency the Governor accompanied by Lt. A.I. Fleuret A.D.C., and the Members of Councils, arrived at the Saluting Base at 11.15 a.m. and inspected the Parade.

The Defence Force then marched past the Base and His Excellency took the Salute, after which the Force reformed on the inspection line for the whole Parade to advance in Review Order, with colours flying, to give the Royal Salute. Colours were then lowered and the National Anthem played. After three cheers for His Majesty the King had been given wholeheartedly on the call of the Governor, His Excellency presented Efficiency Medals to the following members of the Defence Force :-

A Command Order was then read by Major the Honourable M.J. Stewart marking His Excellency's appreciation of C.S.M. E.J. Gleadell's thirty-eight years' service in the Defence Force, which was as follows:

"It is with regret that I learn of the impending retirement of Company Sergt.-Major E.J. Gleadell who now feels that the time has come when he can no longer continue as an active member of the Defence Force.

Company Sergt.-Major Gleadell has to his credit a total of over 38 years continuous and active service both in the Falkland Islands Volunteer Corps and the Defence Force. During this period he has shouldered a great deal of responsibility in connection with the training of the troops and in the building up of the excellent Drill Hall and recreation rooms which are now well established.

While his services will be greatly missed and his absence from parades will be very much felt it is to be hoped that his attendance will be continued at the various other activities in connection with the Defence Force.

I am sure that all ranks will join me in wishing Company Sergt.-Major Gleadell good health and every happiness in the days of his retirement."

By His Excellency H. Henriker-Heaton C.M.G. Governor and Commander-in-Chief of the Colony of the Falkland Islands and Dependencies.

This concluded the morning's proceedings.

During the afternoon His Excellency the Governor, accompanied by Miss Henniker-Heaton and Miss P. Henniker-Heaton, paid a visit to the Children's Party organised by the Working Men's Social Club and held in the Town Hall, where a happy time was spent from 2.30 p.m. to 7 p.m. by some 400 youngsters.

In the evening a pleasant Social Dance held in the Town Hall brought the holiday to a close.

ARABS KILLED

It is reported from Jerusalem that between 25 and 30 Arabs were killed yesterday according to varying accounts out of a total of 60 armed insurgents encountered by Government troops in the mountains near Tulkarem in Samaria.

Official confirmation of this action however has not yet been received.

A lorry convoy belonging to the Palestine Potash Company was ambushed by Arabs on the road to Jericho but the attackers were repulsed by the military escort after a fight lasting forty minutes.

AEROPLANE DISASTER.

Five Lives Lost.

It is reported from Paris that an appalling aeroplane disaster costing five lives occurred yesterday afternoon near the naval harbour of Cherbourg where four hydroplanes belonging to the naval squadron stationed there were making practice flights.

Just as the four machines were about to land two collided. One immediately crashed both the inmates being killed instantly. The second damaged aeroplane flew a few hundred yards further and then likewise crashed, two of its inmates were flung out of the machine during its dive and were smashed beyond recognition. The third inmate, buried beneath the ruined 'plane was also killed.

This is the seventh fatal aeroplane accident within two years in the neighbourhood of Cherbourg.

The authorities have ordered an enquiry.

THE BRITISH EMPIRE CELEBRATES

HIS MAJESTY'S BIRTHDAY.

The King's Birthday was celebrated throughout the Empire by special parades and impressive ceremonies on Tuesday, while many congratulatory messages were sent to His Majesty from capitals outside the Empire. Notable among these latter was one from Big Bill Thompson, the former Mayor of Chicago, who, repentant for his harsh criticism of British institutions in the past, states that those opinions were based on specious newspaper reports.

Cypriots cheered His Majesty at Nicosia. British Guiana, Australia, and Canada provided lavish demonstrations of their loyalty, the parades in India were marked by unparalleled enthusiasm and Malta joyously reiterated its adherence to the Crown. Among the congratulatory messages were those from Herr Hitler and the Emperor of Japan.

SHIPPING FACILITIES

The President of the Board of Trade, Mr. Runciman, announced in the House of Commons yesterday that the Governments of the United Kingdom, Canada, Australia and New Zealand, had asked the Imperial Shipping Committee to report, firstly, as to the traffic possibilities of the British passenger and cargo services between western Canada and Australia and New Zealand. Secondly, whether a service on the lines suggested by the shipping interest concerned would be appropriate in view of the traffic possibilities and any other shipping facilities available. If not what kind of service would be appreciated. Thirdly, as to the probable financial result of such services, taking into account the financial result of the existing British services between San Francisco and Australia and New Zealand. Fourthly, whether such a service would have any ill effect on any other British interest.

Consideration of the matter was begun at a meeting of the shipping committee yesterday.

"EIGHT BALL OVER" ACCEPTED.

The Committee of the M.C.C. has written to the Australian Board of Control accepting an eight ball over for all cricket matches in Australia during the forthcoming tour without prejudice to its application in future tours. The Committee will afterwards receive a report from the team. They have also agreed that an experimental l.b.w. rule shall be in force throughout the tour.

The Foreign Secretary, Mr. Anthony Eden, leaves London by air for Paris to-day, and after dining at the Embassy where he will meet the French Premier, M. Blum and the Foreign Minister M. Delbos, he will proceed by rail to Geneva where he will attend a meeting of the Council of the League of Nations.

ANGLO-GERMAN NAVAL AGREEMENT

In reply to a request in the House of Commons for a statement concerning the points of difference of interpretation regarding the Anglo German naval agreement, the First Lord of the Admiralty, Sir Samuel Hoare, said that he welcomed this opportunity of saying that all the details had been settled in a satisfactory and friendly manner and that there had been no question of any material difference of interpretation on any point.

HIS MAJESTY INSPECTS DEFENCEUNITS

His Majesty the King, who recently carried out several inspections of Army units and will inspect the naval barracks at Portsmouth next Tuesday, will visit certain Royal Air Force aerodromes on July 8th, making the journeys between the various stations by air.

BROADCASTS IN ARABIC FROMITALIAN STATIONS

The Colonial Secretary, Mr. Ormsby Gore, was asked in the House of Commons yesterday whether arrangements would be made for the reception and examination of the broadcasts in Arabic from Italian stations, which were received in all parts of the near East including Palestine and Trans-Jordania, with a view to ensuring that such broadcasts contained nothing of an unsuitable character.

CRICKETERS' LUNCHEON PARTY.

The All India cricketers were the guests of the Lords and Commons' cricket team at luncheon at the House of Commons yesterday.

The health of the visitors was proposed by the Prime Minister.

The company included Lord Willingdon, the ex-Viceroy of India, and after luncheon the visitors were shown over the Houses of Parliament and were present at the opening of the House of Lords at which Lord Willingdon was formally introduced and took his seat for the first time since his elevation to the rank of Marquis.

He replied that the matter was receiving the most careful consideration of the Palestine Government.

NATIONAL DEFENCE

Speaking in London yesterday Mr. Winston Churchill expressed his dissatisfaction with the present methods of discussing arrangements for national defence. In his view Parliament should set up a Committee representing all parties to interrogate the Government secretly under the protection of confidence as to the arrangements they were making in the different spheres of defence.

VOTE OF CENSURE DEFEATED.

The Labour Party's vote of censure of the Government's policy on Sanctions was defeated in the House of Commons late on Tuesday night by 384 votes to 170, a Government majority of 214.

The debate was concluded by the Prime Minister who, dealing with the points raised in earlier speeches, said that the Government had no intention of condoning Italy's action or of proposing or assenting to Italy's annexation of Abyssinia. As to the question of any loans for Italy about which he had been asked, Mr. Baldwin said that the Government had no power to lend money to Italy and they had no intention of seeking such powers.

ROYAL YACHT DISMANTLED NOW

It is reported from Cowes that a sale of the effects of the racing yacht "Britannia" which belonged to his late Majesty King George V, was opened there yesterday in a sentimental atmosphere.

Sir Philip Hunloke who steered her in every race except one under His late Majesty, will be aboard when the vessel is scuttled in July - this end being King George's expressed wish. His Majesty's wish is that there shall be no ceremony.

The members of the crew have been given souvenirs while much of the equipment has been passed on to Empire Clubs and to King George's yachting friends.

REDUCED DUTIES

It is reported from Simla that the Indian Government have announced their acceptance of certain of the Cotton Tariff Board's suggestions with a resultant reduction in the duties on many classes of piece goods. Lancashire is satisfied that the trend against British goods has been checked.

NEW YACHT "TRIED OUT"

Mr. Sopwith's new yacht the "Endeavour II" made its initial appearance at Falmouth local regatta on Wednesday and despite the lack of breeze which prevented an assessment of her capabilities she impressed experienced judges.

BRITAIN AND RUSSIA DIFFER

It is reported from Montreaux that conflict of views has arisen between Britain and Russia relative to Turkey's demand for the re-fortification of the Dardanelles. Russia is demanding an exit for her own Black Sea ships and would impose a restricted entry for others, but Britain supports equal facilities for all.

A message from Tokio states that naval officials are supporting the Turkish demand but draw attention to the Turkish over-indulgent attitude towards the Soviet.

COAL SELLING SCHEME WINSSUPPORT

It is reported from London that the Central Coal Selling Scheme has won the unanimous support of all parties in the House of Commons, while the executive committee of the Miners' Federation have issued a manifesto stating that the scheme should be accepted in order that opportunity can be given for a reasonable trial, but if the promised improvements did not eventuate the responsibility was with the Government and the owners and the wage issue would inevitably be re-opened.

LANCE CORPORAL KILLED INFRACAS WITH ARABS

It is reported from Jerusalem that a Lance Corporal of the Seaforth Highlanders was killed as well as six Arabs, on the Nablus Ramallah road yesterday in one engagement near the village of Kabalan when fierce fighting took place. The engagement lasted five hours and the troops and police afterwards searched the adjacent hillside and villages for arms.

MODIFICATION OF CERTAIN TRADEAGREEMENTS

Negotiations to effect the modifications of certain trade agreements with foreign countries in order to prepare for the changes contemplated in Britain's agricultural policy, will shortly be undertaken. This was announced by Mr. Walter Runciman, the President of the Board of Trade, in the House of Commons yesterday.

He was asked whether it was his intention to give immediate notice of the termination of all trade agreements which could be terminated by the end of the current year by giving six months' notice. Replying, he said that he presumed the question referred to agreements affecting the import facilities accorded in the United Kingdom to certain foreign agricultural and fishery products. The Government proposed to open negotiations with the countries concerned with a view to modifying these agreements.

The primary object would be to render possible certain changes in agricultural policy at the earliest practicable date. The Government intended to proceed with the negotiations as rapidly as possible as soon as the necessary preparatory work could be completed. In the meantime a denunciation of the existing agreements would be premature and unnecessary.

GOVERNMENT NOTICE.ANIMAL SHELTERS.

1. Tenders are invited for the erection of turf shelters.
2. The work consists of erecting three shelters on the Common at sites which will be selected by the Stock Inspector.
3. The shelters are to be shaped in the form of a cross, each leg of cross being 20' in length, 40' x 40' overall at base, walls 6ft high, 4' 6" in thickness at bottom sloping to 2ft in thickness at the top. The top centre for a depth of 1ft is to be filled with earth suitable for planting gorse.
4. The shelters are to be constructed of neatly shaped sods which may be cut from the camp in the vicinity of the shelters, but not within 5 yards of the shelters from any one point.
5. The sides and ends of the walls are to be built in a shapely and even manner, each layer of sods being bonded (not run in straight joints) and each layer being tied at least 2ft apart with pins 1' 6" in length. These pins are to be made of fencing wire.
6. The walls when completed are to be tied overall with lengths of fencing wire spaced every 2 ft and secured to pegs at the bottom of the wall.
7. Each shelter is to be enclosed with a post and batten six wire fence in the form of a square, 3 feet clear of the shelters.
8. The contractor is to price for all the work necessary. He is to provide his own tools and arrange for all transport. Materials for fencing and wire ties will be supplied by the Government at the Dockyard.
9. The whole of the work is to be carried out in a workmanlike manner and to the entire satisfaction of the Government Officer supervising. The sites are to be left in a neat and tidy condition on completion.
10. Sufficient labour is to be maintained to carry out the work in an efficient and expeditious manner, not less than four men being employed at any one time.
11. The price in the tender is to be for the whole of the work and there are to be no extras.
12. Particulars as to the sites can be obtained from the Stock Inspector, and any other particulars can be obtained on application, during working hours, to the Director of Public Works.
13. The Government does not bind itself to accept the lowest or any tender.
14. Should the work not proceed to the satisfaction of the Government Officer supervising, the Government reserves the right to cancel the contract at any time.
15. Tenders should be addressed to "The Chairman of the Tender Board" and marked "Shelters" on the outside of the envelope, and should be deposited in the box marked "Government Tenders" at the Colonial Secretary's Office not later than 12 noon on Monday the 13th July, 1936.

DIRECTOR OF PUBLIC WORKS.

ON A FARM IN PERU.

The following is an extract from a letter received from a young Falkland Islander who is at present the Manager of a farm near Puno in Peru, and is published as we feel that it will be of local interest.

"You will see from the above address that I have moved from Magallanes. I am now in charge of this farm which is called Collacachi. We have here 27,000 sheep, 5,000 cattle and 5,000 alpacas.

The Indians do all the work of the farm. They live in mud huts and each one has about five hundred sheep to look after. If an Indian loses any of the sheep, the value of the animals is deducted from his wages. An Indian's wages consist of one paraffin tin full of corn and a pound of cocoa per month. The cocoa is a dry leaf which they chew like tobacco, and without it they won't work.

We are shearing now (26th April). Even the women shear, and it is interesting to watch them, they bring their children with them, slung on their backs and shear all day with them there.

The sheep that die in the camp are the only meat which the Indians get, and they relish it quite as much as fresh pork.

I left Magallanes on the 5th of March and arrived at Arequipa on the 27th. From Arequipa it is twelve hours by train to Puna and from Puna to Collacachi 45 minutes by car. When I return to Magallanes next year I will go by air.

The weather here is lovely; calm and warm all the year round. We are 12,000 feet above sea level and the air is very thin. When walking one soon becomes exhausted and has repeatedly to stop to rest. At first I found it very uncomfortable and did not seem to be able to get sufficient air, but now I am getting accustomed to it.

I am the only Englishman here and there are only four Peruvians; the bookkeeper, his assistant and two boys. The rest are Indians and only one or two of them can speak Spanish. Wherever I go I have to take one of the Spanish-speaking Indians with me, - I speak Spanish and he interprets to the Indians."

ROYAL AIR FORCE PAGEANT

Many thousands of school-children watched the dress rehearsal of the annual Royal Air Force Pageant yesterday. The Pageant is being held at Hendon to-day.

There will be the usual display of brilliant flying. Not only some of the latest and fastest types of machine will be in the air but Air Force Officers will fly some of the earliest types used in pioneer days of aviation -museum relics which will show the immense advance made in aeroplane construction.

AIRSHIP "HINDENBURG"

The airship "Hindenburg" passed over Cromer on the east coast early yesterday afternoon. She was flying only 300 feet up and her passengers waved to the interested spectators in the town.

MORE SPEED ON THE RAILWAYS.

It is reported from London that the summer services of the L.M.S. Railway will include the speeding up of the journey of the Royal Scot from London to Glasgow to 7½ hours - over the 401½ miles route.

The railway locomotive staffs' Union, numbering 70,000, have placed a claim with the general managers for a standard working day of six hours instead of eight as under the present agreement. The National Union of railwaymen do not support this claim.

ANOTHER ATTEMPT TO BREAK RECORD

Lord Sempill is completing his arrangements for attempting to break the Britain to Australia record flight in a mono-spar machine.

DARDANELLES CONFERENCEADJOURNED

The Dardanelles Conference at Montreux ended its first reading of the Turkish draft of the new Straits Convention and has adjourned until after the League Assembly, leaving the technical committee at work upon those articles on which a measure of agreement has been reached for consideration by the full Conference when it re-assembles. Meanwhile the chief British delegate, Lord Stanhope, has gone to Geneva to discuss points with Mr. Eden.

APPOINTMENTS

His Majesty the King has approved the appointment of Mr. Horace Seymour, Counsellor in the Foreign Office, to be His Majesty's Minister at Tehran in succession to Sir Hugh Knatchbull Hugessen who has been appointed as Ambassador in China.

OBITUARY

Lady Davidson, widow of Dr. Randall Davidson the late Archbishop of Canterbury, died yesterday. She was the daughter of Archbishop Tait.

TOC H

Overseas members of the Toc H who have come to England for the coming-of-age celebrations of that organisation, were received by the King at Buckingham Palace yesterday afternoon.

The Duchess of York attended the festival service of the Toc H League of women helpers at St. Paul's Cathedral yesterday evening; about 2,500 members of the League were present.

NOTICE.

A vacancy has occurred on the King Edward VII Memorial Hospital Staff for a Probationer Nurse at the salary of £36 per annum.

Applicants should be between the ages of 18 and 30 years of age. Period of probation will be for three years.

Forms for application may be had at the Colonial Secretary's Office and should be returned to the Chairman of the Appointments Board not later than noon on the 8th of July, 1936.

PICTURESQUE CEREMONY

A picturesque ceremony took place in the grounds of Buckingham Palace yesterday when the King, wearing full dress uniform as Colonel-in-Chief of the Welsh Guards, inspected the Royal bodyguard known as the Yeomen of the Guard, who in their scarlet and gold uniforms are usually on duty at the Tower of London.

Queen Mary from the Palace balcony was an interested spectator of this ancient ceremony at which the King presented the Captain and other officers of the bodyguard with ebony sticks banded with gold and silver. The Royal bodyguard could trace its traditions through 451 years of its existence.

DELEGATES REACH GENEVA

The representatives of many countries reached Geneva yesterday morning to attend the League meeting. Particular interest was displayed when the Emperor of Ethiopia arrived and a crowd of several thousands assembled at the station to express their sympathy and to cheer him.

The Council was to meet yesterday for the first time since May 13th. Its proceedings were expected to be shorn of much of their interest by the meeting of the League Assembly convened for Tuesday.

GERMAN DERBY

It is reported from Hamburg that the 1936 German Derby provided the crowds who thronged to see the famous race with more sensations than for many a long day. For the first time since 1915 the Derby was won again by a mare - "Nereide", breaking the record by covering the course in 2 minutes 28 seconds, the previous record being held by its stable companion "Athanasius" which did it in 2 minutes 32 seconds two years ago. The 2nd and 3rd in the race were "Alexandra" and "Periander". The weather was bright, cloudless and bracing, with warm sunshine and the racecourse was crowded to the last place, spectators having arrived from all parts of the Reich.

STANLEY SPORTS ASSOCIATION

An Extraordinary General Meeting of the Stanley Sports Association, attended by some twenty-four members, was held in the Church Hall on the evening of the 24th June, 1936, to consider the proposals of the sub-committee appointed to revise the Race Programme with a view to making the Sports more attractive both to the competitors and the general public.

The following eight proposals were submitted and agreed upon unanimously:-

1. Horses that have raced on the Coast should not be allowed to compete in more than four races, Race No. 21, excepted. In future years this number should be reduced. For the 1936 Meeting it is suggested that Race Nos. 3 (S.S.A. 900 yards) 7., (West Falkland Plate) 12., (The Governor's Cup) and 18 (Roy Felton Plate) are those in which these horses should be allowed to compete.
2. That all prizes donated by the Stanley Sports Association should be as follows : 1st Prize £4., 2nd Prize £2., and 3rd Prize £1.
3. That Race No. 3. (900 yards Open) cannot be won by the same horse two years in succession.
4. That the sum of £4 be included with the Challenge Cup to the winner of Race No. 10. (The Weddell Cup)
5. Race No. 11 "One Mile" F.I. Bred should be substituted by one of shorter distance. 900 yards is suggested.
6. Race No. 14. "Ladies' Trotting Race" should be transferred to the second day's events.
7. Race No. 21. "Salvador Cup" to be changed in name and to be called the "Andreas Pitaluga Prize". The prizes for this race are suggested at :- 1st Prize £6., 2nd Prize £3., and 3rd Prize £2.
8. That a Champion Race for F.I. Bred Horses should be included in the programme. This should be the last race of the day and should be of 600 yards distance. The Prizes are suggested to be the same value as those of the "Andreas Pitaluga Prize". i.e. £6, £3, £2.

His Excellency the Governor has signified his intention of donating £5 with his cup should it be won by a Falkland Bred Horse.

The Chairman pointed out that cash prizes to a value of over £150 would be competed for on the first day of the races, and expressed the hope that this would attract more men and horses to Stanley for the Meeting.

Following a suggestion that the minimum weight should be increased to 11 stone a discussion arose as to the advisability of handicapping and on the suggestion of the Chairman the following sub-committee was elected to consider the whole question and to decide what steps if any could be taken in this direction:- The Hon. N.K. Cameron (Chairman), The Hon. V.A.H. Biggs, (Vice Chairman), The Hon. G.J. Felton, Messrs. E. G. Rowe, A. Newing, E.J. McAtasney, A. Bonner, M.G. Creece, H. Thompson, T.W. Campbell, P. Hardy, S. Aldridge and F. O'Sullivan.

NEWS IN BRIEF.

Berlin. Official circles consider that there is little possibility of Germany's reply to the British peace proposals questionnaire being despatched in the immediate future. There will have to be a League Sanctions decision before Germany breaks her silence while she is unwilling to declare her readiness to give guarantees to respect existing territorial and political status especially on the eastern frontiers.

London. The Duke of Kent is probably opening the British Art Exhibition at Amsterdam on July 4th but Princess Marina will be unable to accompany him.

Frankfurt. The airship "Hindenburg" with Max Schmeling on board was greeted by a hurricane of cheers from a huge crowd when he arrived at Frankfurt aerodrome and was secured to the mooring mast and enthusiasm mounted to fever heat when at this moment Max himself alighted while the other passengers as usual only disembarked after the ship had been brought into the shed. The cheering went on without end as Max Schmeling walked along the edge of the flying field towards the entrance to the strains of the Brown Shirt Band. The excited crowd burst the barriers and it was only with the greatest difficulty that the popular boxer could make his way to greet his wife who is the well-known film star Anny Ondra. Schmeling and his wife then drove in an open car through streets lined with dense cheering crowds to the Town Hall when an official reception awaited them.

Berlin. The construction of a sister ship to the "Hindenburg" commences at Frederikshavn to-morrow.

Paris. The Bill for the Nationalization of Armaments has been signed by M. Lebrun but is not immediately enforceable. The firms principally affected are Schneider, Hotchkiss, Brandt and Renault.

HOSPITAL CURE FOR CRIME.

Several famous Harley Street specialists and psychologists are taking an active interest in a movement that has just been launched to form a "Crime hospital", where wrong-doers, instead of being sent to prison, will be given mind treatment.

It is believed that a "Crime hospital" would be of the greatest possible value. Already magistrates have been sending first offenders to the Institute for the Scientific Treatment of Delinquency for treatment, and the courts are increasingly recognising the work of the institute. While many crimes are committed through wickedness or weakness, many are undoubtedly due to disease, mental or physical. In 1934 magistrates sent 35 cases to the institute for treatment. Last year the number of cases treated increased to 75.

The institute has a staff of more than 40 physicians and lay workers who give their services voluntarily.

PRIZES FOR HANDWRITING

An admirable scheme has been promoted by Mrs. John Galsworthy, who offers prizes to the value of over £90 for handwriting in the L.C.C. Schools. Mrs. Galsworthy intimates that she is not desirous of advocating "copper-plate" writing, but is anxious rather to encourage the development of a natural style with beauty, legibility, and character as the objects.

It is proposed that the competition should be open to children who will be 13 and not more than 18 on August 1st, 1936. Candidates will be required to write out a passage from the works of John Galsworthy. There will be five prizes of £10, seven of £5, and ten consolation prizes of 10/6 each. Each school will be invited to send two scripts.

FURTHER STRIKES IN FRANCERiviera Hotels Close

It was reported from Paris yesterday that at mid-day 450 hotels on the French Riviera have closed. This was the outcome of the Hotel Proprietors' Union as a protest against the illegal occupation of several hotels by employees and because of the new decrees passed by M. Blum in the Cabinet imposing heavier welfare obligations.

This closing of all the hotels in Nice, Cannes, Mentone and other Riviera towns causes serious inconvenience not only to the guests visiting the French Riviera but also to all the industries that make their living from supplying the hotels or from purchases made by the tourists.

The hotels will remain closed indefinitely. For the time being one hotel of each class will remain open to receive for one night travellers who arrive not knowing that accommodation is unobtainable. Meanwhile, in Nice alone, 1,200 guests were obliged to pack their bags and disappear on Sunday, the Hotel proprietors apologizing profusely and politely explaining that they were compelled to take this step because while the strike fever lasts it would not be possible to undertake any guarantee that meals could be served or service maintained.

SALE OF FAMOUS WORKS OF ART

It is reported from London that every art centre in Europe and America is being represented at the sale of the £100,000 Oppenheimer collection of drawings by old masters on July 10th, 13th and 14th.

FRENCH INDUSTRIAL WORKERS ONSTRIKE AGAIN.

It is reported from Paris that over 30,000 workers in the heavy industries came out again on Saturday alleging the failure of the employers to carry out their agreement.

10,000 dockyard strikers at St. Nazaire have been joined by the office employees of the Penhoet firm. The clerks of the Pari-mutuel Urbain, which takes bets off the course have struck with the result that many winning bets remain unpaid, but the Grand Prix is being run owing to an agreement with the stable lads.

F.I. DEFENCE FORCE CLUB

BILLIARDS

A very interesting tournament was held in the Defence Force Club rooms during the evenings of Thursday and Saturday of last week between teams drawn from the Defence Force Club and the Working Men's Social Club and resulted in a win for the latter Club by five games to three with a comfortable margin of 112 points.

DEFENCE FORCE BADMINTON CLUB

A novel competition was held on the Drill Hall court on Saturday, 20th June. Two Captains were nominated from amongst the members who entered and they picked teams. The following games were arranged:-

- Ladies' doubles
- Ladies' singles

Gentlemen's singles

The games were of the "knock out" variety. Conditions: the team with the least number of wins had to provide the members with a "sausage supper".

The Captains were Miss L. Davis and Mrs. W.M. Allan. The fun went fast and furious, there was great excitement but there was very little doubt as to who were to provide the supper, for Mrs. Allan's team ran out worthy winners by five matches to two. Miss Davis's team only won one match in the Ladies' doubles and one match in the Ladies' singles. The Gentlemen let her down for they did not win one game. Saturday the 27th June was the best sport of all. In addition to the sausages which were A.1. at Lloyds there were mashed potatoes and swedes, also a full table of good things - from cream puffs to the richest cakes. The losers may not be able to play badminton but they can provide a sausage supper - encore ?

NEWS IN BRIEF

Tokio. A Japanese report from Shanghai states that an agreement to the value of 100,000,000 Chinese dollars for supplying munitions to China, was signed in Berlin last month. According to the propaganda ministry in Berlin nothing of this is known there though it might refer to an agreement for the delivery of several thousands of lorries on barter which was concluded early in the year.

Kuessnacht, Switzerland. Khaki-clad Belgian war veterans with Regimental Colours and National Flags and bands playing, marched through the streets on Sunday to attend the consecration of a Chapel erected in memory of Queen Astrid near the spot where she was killed. The Chapel is near Lake Lucerne to which she drew King Leopold's attention a few seconds before the fatal accident. The Chapel contains nine stained glass windows, one representing the late Queen.

London. Twenty-five priests assisted the Reverend F.T.B. Clayton at All Hallows Church on Sunday when 2,000 members of the ToCH attended the organization's coming-of-age service, many of the members wearing a "uniform" of a blue blazer with the Ypres arms on the pocket and orange, black and white ties. 10,000 attended the festival at the Crystal Palace on Sunday afternoon when the Duke of Kent lit the lamps of maintenance in place of the King.

Montreal. A gigantic birthday cake, nine feet high and with 50 candles, was lighted at Windsor Station on Sunday night to celebrate the fiftieth anniversary of the first train from Montreal to the Pacific coast, and a special flag-bedecked train started on its triumphal commemorative journey to Vancouver.

Brussels. The Chamber has passed Bills concerning collective bargaining, holidays with pay, and the 40-hour week in unhealthy occupations.

CHILDREN'S CONCERTThree Year Olds Take Part

Some 240 people enjoyed a real treat in the Tabernacle schoolroom last night when a most successful concert was given by the Tabernacle children.

Item after item proved most entertaining and throughout the children with their simple lack of self-consciousness and whole-hearted happiness, were indeed charming.

Excellent talent was shown in many cases; it is difficult to discriminate between the items but we particularly enjoyed the item by the "Little Folks", some of whom were only three years old, and the accordion playing of a boy not much bigger than his instrument.

Although we had a "standing seat" throughout and the air was a bit thick by the end, we enjoyed every minute of the performance and shall look forward to other evenings of the same sort.

It was easy to see that the time spent by Pastor McWhan in training the children gave immense pleasure both to the performers and to the audience.

The proceeds are in aid of the King George V Memorial Playing Fields Fund which will benefit to the extent of £6. odd, and, considering that the charge was only 6d, this is a great achievement.

STRIKE THREAT IN NEW YORK

It is reported from New York that the Labour Unions are initiating a drive to establish a "closed shop" and there is a strike threat to the steel industry which employs 500,000 men.

The Employers' Organization has issued a manifesto stating that they will use all their resources to fight the Union's demands and "to protect their employees from coercion and violence."

In view of the attitude on both sides the press anticipate a fight to the finish.

Stop Press. The "Lafonia" is expected to leave Magallanes tomorrow.

CHANGES IN THE B.B.C.

The Postmaster General has issued a memorandum stating the Government's proposals on the main recommendations of the recent report of the Broadcasting Committee which was debated in Parliament on April 29th. The recommendations that are accepted include the following, namely that the B.B.C. Charter should be extended for ten years from December 31st, 1936; that the number of Governors should be increased from five to seven, that the salary of the Chairman should be £3000, and that of the other Governors £1,000 annually and that the Broadcast receiving licences fee should remain at 10/-.
