SANTANDER FALLS TO NATIONALISTS

Madrid The Government officially
 announced the fall of Santander
 coupling it with claims that in sectors
 south of Saragossa all Insurgent

positions have been captured.
 Advances are also claimed on
 Granada, Aragon and Teruel with
 movements in the latter area
 aiming at the encirclement of the
 Insurgents. Salamanca denies
 all Government claims adding the
 uneventful mopping up in the
 Santander area proceeding while
 the Asturian, Leon and Aragon
 fronts are quiet. Valencia
 reports further Insurgent air-
 raids.

GOODS NOT TO BE EXPORTED FROM GERMANY

Berlin A list of goods which may not be exported from Germany to Spain was published here on Monday by the Reich Minister for Foreign Affairs, Herr von Neurath, in connection with a law providing for the suspension of German shipping to Spanish harbours. The list includes rifles, machine guns, revolvers, artillery guns, ammunition, armoured cars, flame throwers, grenades, gun powder, aeroplanes, warships of all kinds, repair parts for weapons, or other items mentioned.

A LENGTHY NOTE TO THE LEAGUE OF NATIONS

Geneva. A lengthy note from the Chinese Government to the League of Nations, in which the attention of the League as well as of the United States is called to the Sino-Japanese conflict, was handed in on Monday by the Chinese representative to the League, Wellington Koo. Following a detailed account of the incidents which have transpired since the end of July, it is declared in the note that China has done all in her power to bring about a peaceful settlement of the differences but that Japan has violated her obligations arising from the League Covenant, the Kellogg Pact and the Nine Power Agreement. The note was handed to the United States in its capacity as a member since the 1933 committee was formed in connection with the League for dealing with difficulties arising in the Far East.

GERMAN NATIONAL MURDERED

London The German national, Herr von Bodenhausen was found murdered on a plantation in Mombassa, Kenia Colony, according to a report received here on Monday evening. The murdered man was a director of the Kurwetu plantation Company and had arrived in East Africa only a week ago from Germany. No trace of the perpetrators of the crime has been found.

SOUTH AMERICAN BIRDS

The following is an extract from the "Times".

All the carrion-feeding South American birds known loosely as "Gallinazos" are so despised in their own country that it seldom occurs to an ornithologist to present specimens of them to the London Zoo. The Zoological Society is therefore particularly grateful to Mr. A.G. Bennett, C.M.Z.S., for his gift of three young turkey vultures of a variety peculiar to the Falkland Islands which have been housed in the Birds of Prey Aviaries. They have not yet assumed their adult colours and they are so friendly that they have evidently been reared by hand. Their plumage is dusky grey, and the bare skin of their heads, which will later turn scarlet, is purplish black. Properly, the name "Gallinazo" is applied to a rather similar vulture, whose head remains black throughout life, but the names of Western South Africa several species by this name, which signifies a big, contemptible fowl. When living far from human habitation the birds are true carrion feeders spending a great part of their lives soaring above the pampas on the lookout for dead or dying animals, but those that live near villages have learned to feed on garbage, and they become so tame that they may often be seen feeding with the domestic fowls. In most South American countries "Gallinazos" are protected by law, not on account of any sentimental feeling for bird life, but because they are very efficient scavengers.

CHANGE IN FRENCH ATTITUDE TOWARDS SPANISH SITUATION

London According to the Daily Telegraph the French Cabinet has discussed the possibility of a radical revision of policy in the Spanish conflict, with the Ministers deeply perturbed by the recent attacks on shipping in the Mediterranean and the latest official declarations of the Italian policy. While it is desired that touch shall not be lost with Britain, the French attitude relative to Non intervention will be drastically modified but meanwhile no decision has been reached by the Cabinet on the main points which are the opening of the French frontier to volunteers and also possibly munitions, immediate appeal to the Non-Intervention Committee to note Signor Mussolini's public exchange of messages with the Nationalist leader General Franco. Both courses have been already discussed by the French and British Governments and there will be further conversations within a few days.

OUTBREAK OF CHOLERA IN SHANGHAI

London Shanghai reports two days of comparative quietness in the vicinity of the International Settlement, followed by the capture of Woosung forts, with a further mass landing of Tokio troops anticipated. Woosung fall was not accomplished without strong Chinese resistance. Foreign observers consider that the suspension of Japanese advance gives the Chinese the advantage and Tokio forces, fifty thousand of which have now landed, are likely to experience a severe shock. Cholera has broken out in the French concession at Shanghai and is causing the authorities grave concern.

DEATH OF FORMER GOVERNMENT SCHOOL TEACHER

(The Following is an extract from
The South Pacific Mail).

The death of Mrs. Annie (Nancy) Leitch nee Williams took place in Santiago on June 21st. Mrs. Leitch had been ill for some time, she was a native of Wales, where at a remarkably young age she became a Headmistress. Later she was appointed by the British Government to direct their school in the Falkland Islands. After two years there she found that her health would not stand the climate so she resigned and went to Santiago, joining the Staff of the British High School where she taught for a period of two years.

Mrs. Leitch was one of those fortunate people who never have any doubts about their vocation, she was born to teach. It is sometimes said of a teacher that he or she "stands no nonsense!" This was not necessary in her case, as it never occurred to anyone to offer her any nonsense. Her discipline was strict yet kindly. It was little or no effort for her to take charge of a large class and straightway have every boy working hard and well so that the ringing of the bell would come as a surprise and an interruption both to the boys and to her.

She had all the proverbial Welsh love and talent for music. Her singing classes were particularly happy; in them she created the atmosphere of a jolly crowd working together, enjoying the music and throwing themselves enthusiastically into the song.

There is not a boy who has passed through her hands who is not richer and better for having done so; and many a boy will carry with him through life the lessons he has learnt from her and will be grateful for the inspiration he has received from her teaching.

Our deepest sympathy goes out to her family in Santiago and in England.

SIR MALCOLM CAMPBELL CREATES SPEED RECORD

Locarno Further news of Sir Malcolm Campbell's speed trials states that Sir Malcolm has broken the water speed record averaging 126.3 M.P.H. over Lake Maggiore in his single engine 2350 H.P. speed boat "Bluebird". Two pipes burst causing the boat to finish in a water logged condition. The previous record was made by the American Garwood's four engined 8,000 H.P. Miss America in 1932 with a speed of 124.8 M.P.H. Sir Malcolm Campbell now holds both the land and water speed record.

SUBMARINE ATTACK ON BRITISH DESTROYER

London News of a submarine attack on H.M.S. Havock off the Spanish coast near Cape San Antonio during Tuesday night has again focussed attention on the series of lawless raids by sea and air on shipping in the Mediterranean. Newspapers assert that the attacks number eighteen since the beginning of August. H.M.S. Havock was attacked by an unidentified submarine but was not hit. An Admiralty statement issued yesterday afternoon says "after being attacked by the submarine H.M.S. Havock counter attacked by depth charges in accordance with instructions already issued to the fleet. The result of the counter attack is unknown." The instructions referred to were announced on the 17th August following a meeting of Ministers at which consideration was given to the position of shipping in the Mediterranean. Ships have been torpedoed, bombed and fired upon without warning and usually in the dark by submarines, air craft and surface craft of a nationality unknown. No steps have been taken for the safety of the crews of vessels attacked in defiance of the dictates of humanity and the laws of war. There is a growing indignation in Britain at these outrages the authorship of which is becoming the subject of increasingly wide spread speculation. The Admiralty has made the following announcement "it has proved impossible to ascertain whether the counter attack was successful."

MEDITERRANEAN SITUATION TO BE
DISCUSSED AT GENEVA

YESTERDAY'S MEETING OF MINISTERS
IN LONDON

London A meeting of Ministers,
over which the Chancellor of the
Exchequer presided, was held at the
Foreign Office yesterday, when the
current International situation both
in the far east and in the Mediter-
ranean was considered. In view of
the recent attacks on British ship-
ping it was decided to reinforce the
destroyer strength of the fleet in
western basin of the Mediterranean.
Arrangements have been made for the
meeting of the Cabinet next week.

The Ministerial confer-
ence at the Foreign Office yester-
day morning and yesterday afternoon
lasted for over three hours altoget-
her. The Ministers who were pres-
ent in addition to the Chancellor of
the Exchequer and the Foreign Sec-
retary were the Lord Privy Seal, the
First Lord of the Admiralty, the War
Secretary, the Dominion Secretary,

London The French Charge d'
Affaires called at the Foreign Office
yesterday afternoon and was
seen by the Foreign Secretary who
informed him that the British Gov-
ernment were agreeable to the French
proposal for a discussion at Geneva,
between the Mediterranean powers,
on the situation in the Mediterranean.
The suggestion which was communicated
to the British Government by Monsieur
Cambon earlier this week, has been
widely discussed in the French press
and the summaries of comment reach-
ing London leave no doubt as to the
serious anxiety which the recent
attacks on shipping in the Mediter-
ranean have aroused in France. The
reply which Mr. Eden gave M. Cambon
yesterday, is taken in London to indi-
cate that the British Government
fully understands those anxieties
and feels with the French Governm-
ent that they must be shared by all
Mediterranean powers, whose presence
at Geneva, will give an opportunity
for an exchange of views.

JAPAN ANNOUNCES INTENTION OF
EXTENDING FIGHTING OPERATIONS

Shanghai Fighting is progressing on a ten miles front north and east of the Settlement with the Japanese launching a sledge hammer attempt to shatter the Chinese troop concentrations, aerial bombing and artillery bombardments are unceasing on both sides. The Japanese claim the capture of Paoshan, above Woosung, on the Yangtszekian but the Chinese deny this and state that a counter attack is progressing to recapture Woosung. The heaviest fighting is beyond Kiangwan to the north east of the Settlement, which is now held by the Japanese where villages are ablaze and the Chinese are resisting desperately. Nanking admits heavy losses in a local engagement but General Feng tributes his troops stating that their morale is magnificent and "they went to death as if returning home." Japan has announced the intention of extending her operations to all China and will air raid all aerodromes and military establishments, while Tokio reports the loss of one plane which raided Canton.

BRITISH NAVAL VISIT TO VENICE

Rome Hospitality is being lavished on the crews of the British cruiser squadron, with the visit being hailed as the return of Anglo-Italo friendship.

THE SINKING OF THE "WOODFORD"

London News has been received in London of the torpedoing in the Mediterranean, of the British 6,987 ton steamer "Woodford" which was holed by a submarine while on a voyage from Barcelona to Valencia, and a torpedo was fired without warning. The ship sank and the surviving members of the crew, of whom six were injured, were rescued by a fishing boat. One of the crew was killed. Enquiries are being made regarding the attack upon the "Woodford". The decision of the Ministers to reinforce the British destroyer strength in the western basin of the Mediterranean shows the serious view that the British Government take of the situation which has arisen there. It will be recalled, that in a recent note to the Spanish Nationalist Authorities at Salamanca on the attacks on British ships, the British Government expressly reserved the right in the case of further attacks on British vessels, to take such action as the occasion demanded.

FURTHER PRIVILEGES IN THE BRITISH ARMY

London The recent series of changes in the conditions of the army service, which are part of the considered policy of removing irksome

restrictions not justified or required for reasons of discipline or efficiency, in order to increase the attractiveness of the army to potential recruits, has been carried a stage further by the War Office announcement that in future all soldiers of twenty one years of age, serving at home stations who have completed their recruits training, may as a right sleep out of barracks. Soldiers under twenty one years of age, may also sleep out of barracks provided that they reside locally with their parents, guardians etc., or in such other cases as the Commanding Officer may approve. At present, the right now being accorded to all soldiers is only enjoyed by those not below the rank of sergeant. A permanent pass to sleep out of barracks will in these cases be allowed, except where military exigencies render it impracticable. Men taking the pass must be regular in their duties, orderly in their lodgings or quarters, exact in their dress and must be available for all military duties. The privilege will be withdrawn from any individual, should the Commanding Officer consider it necessary.

REINFORCEMENT OF NAVAL STRENGTH IN MEDITERRANEAN

London The reinforcement of the British destroyer strength in the Mediterranean and prospects of the forthcoming discussion between the Mediterranean powers, are two topics which vie for chief place in to-day's newspapers. The meeting of all the Mediterranean powers concerned, to consider the situation which has arisen in that sea from brutal and lawless attacks on shipping by unidentified submarines, has aroused the liveliest interest in London and in official circles. Very great importance which the British Government attaches to it is stressed. The British, favour the beginning of these discussions as soon as possible after the representatives of all powers concerned have reached Geneva. It is authoritatively stated that the British Government will have an important proposal to make at the meeting.

JAPAN DETERMINED TO RESIST ANY INTERVENTION

Tokio The Foreign Minister, Hirota, addressing foreign press correspondents said that it is impossible to say when the Government would reply to the British note. According to the Daily Telegraph Correspondent, he also declared that Japan would resist any intervention by a third party in China while "appropriate measures" would be taken if the Chinese rail-ways were used for the transport of troops or munitions against the Japanese. Japan is acting not against the Chinese people, Hirota added, but only against the anti-Japanese movement headed by Chiang Kaistek. Shanghai reports confirm the Chinese resistance and the holding up of the Japanese offensive and garrison at Pooshan. The Japanese have landed more troops in the Woosung area but the Settlement is resuming its normal activities with the fighting area transferred to outlying districts.

war. He added that Germany had achieved her greatest successes in peace but nobody must provoke her.

HEAVY STORM IN HONG KONG

Hong-Kong A Typhoon raging at 130 M.P.H. struck the Colony early yesterday morning inflicting incredible damage. Preliminary estimates place the death roll at 100 states the Daily Telegraph Correspondent. Many Chinese houses collapsed during the storm while the west point restaurant quarter was swept by fire. Shipping in the harbour was considerably damaged while rescues from harbour craft, affected at great risk by the police and revenue officers was effected. The streets were blocked with debris, piers were wrecked, buses overturned and all communication with Shanghai and the outside areas destroyed.

THE SPANISH GOVERNMENT CALLS UP RESERVES

Valencia The Government troops have entered Belchite twenty five miles south of Saragossa on the Aragon front after a prolonged siege. The Ministerial Council has issued a decree calling up the 1938 /9 classes of reservists, while refugees from the north are being conscripted for fighting or war material factories. A Salamanca communiqué gives details of a further advance on the Santander front with rapid consolidations and heavy captures. Nationalist columns are advancing on Gijón and frontier reports state that contact has already been established for the town surrender.

FORTHCOMING ARGENTINE PRESIDENTIAL ELECTION

Buenos Aires Three Candidates are contesting for the impending Presidential Election with Senor Artiz, the Finance Minister, in the present Concordia Government as the most favoured candidate. Socialist Repetto has been accorded no change but the Radical Alvear having the support of the strongest party may be unable to match the coalitions trump card of recent prosperity.

PROPOSED DISCUSSION AT GENEVA

Rome Following Britain's acceptance, it is probable that Italy will join in the proposed Four Power Pact Conference or the Mediterranean situation but no official statement has been made. The attack on British war ships have made occasion for the claiming of recognition of belligerent rights for General Franco.

WARSHIPS LEAVE ENGLAND FOR NAVAL EXERCISES

London Ships of the home fleet stationed at Portsmouth, including H.M.S. Rodney the Flagship, left yesterday for Invergordon for their Autumn exercises in Scottish waters. The Flag of the Commander-in-Chief in the home fleet, Admiral Sir Roger Backhouse, was transferred to H.M.S. Rodney from H.M.S. Nelson which is refitting. Friday morning the air craft carrier "Courage" with her attendant destroyer H.M.S. Crusader, escort vessel "Fleetwood" and the destroyer "Blanche" were among the vessels which sailed. The destroyers "Forester" and "Fury" which were to have accompanied the fleet had their orders cancelled as the result of the decision to reinforce the destroyer strength in the Mediterranean where they are proceeding, with H.M.S. "Fortune" and "Firedrake". The air craft carrier "Furious" attended by the destroyer "Stronghold" will sail for Scotland on Thursday next.

LAUNCHING OF "ESKIMO" AND "MASHONA"

London Messers Vickers Armstrong yesterday launched from their naval yard at Walker-on-Tyne the two destroyers "Eskimo" and "Mashona". The two vessels were put into the water within ten minutes. These two destroyers are of a large tribal class, of 1,850 tons displacement, with turbine engines to develop 44,000 H.P.

CONSTRUCTION OF NEW WAR SHIPS FOR SWEDEN

Stockholm The Naval Committee Expert recommends the construction, at a cost of 9,000,000 sterling, of three cruisers, four torpedo boats three submarines and twelve sloops.

NO REDUCTION OF ARMY STRENGTH IN INDIA

Simla "We cannot for one moment face the slightest reduction in the number of British troops at present stationed in India" said Mr. Ogilvie the Secretary of the Defence Department in replying to the opposition motion of the central assembly recommending economy particularly in the army expenditure. The reason for this internal security and the mixture of British and Indian troops gives us the best value for money in the present expenditure which is the lowest since 1914.

ITALIAN PRESS COMMENTS ON MEDITERRANEAN INCIDENTS

Rome Though the Government has not intimated its attitude towards the French proposal of a Geneva conference on the Mediterranean situation, it is understood that Italy will attend if invited and provided that the conference be held outside the frame work of the League. The tightening of the European tension consequent on the attack on H.M.S. Havock and the sinking of merchant ships in the Mediterranean, is the dominating subject in the press which however, refrains from any attacks on Britain in response to charges of a mysterious Italian submarine. The Tribuna says, "At a time when Italy is rebuilding friendly relations with Britain, for what conceivable reason could she have perpetrated this incredible deed?" Meanwhile British war ships visiting Venice are being warmly feted.

DENTAL ESSAY CONTEST.

In connection with the Medical Department's programme of Health Education it has been decided to hold an "Essay Contest". The contest is open to students attending the Government School and St. Mary's School.

The essays must reach the Senior Medical Officer's office not later than October the 1st. 1937.

The subject of the essay shall be "What I know about my teeth". For the best essay of not more than 250 words, submitted by a student under 12 years, a suitable prize of books selected by the Acting Superintendent of Education will be given. For the best essay of not more than 250 words submitted by a student over 12 but under 14 years, a similar prize will be given.

For the best essay of not more than 250 words, submitted by a student over 14 but under 16, a similar prize will be given.

The essays will be judged by a Committee consisting of Mr. Still, Revd. Mr. Lowe and Mr. B. Newing and the Committee's decision shall be final. Essays should be submitted under a suitable non-de-plume and should state the competitor's age.

The winning essays will be read and the prize presented at a public entertainment to be held early in October, 1937.

DENTAL LIMERICK CONTEST.

In connexion with the Medical Department's programme of Health Education it has been decided to hold a "limerick contest". The contest has for its purpose, the stimulation of interest in, and discussion of, Oral Hygiene.

The public are invited to submit limericks dealing with teeth and subjects relating to teeth. The 3 cleverest and most amusing limericks will be published each Saturday in the 'Penguin' during the month of September and a prize will be given to the writer of the best of these.

A committee consisting of

Mr. Still, Mr. Bert Newing and Revd. G. K. Lowe has consented to judge the limericks each week but the public will be asked to decide the winning limerick, at a public concert early in October.

Any number of limericks may be submitted by any member of the public but each "effort" must be accompanied by a penny.

These pennies will be used to provide a prize for the winner.

The writer of a limerick should identify his "effort" with a non-de-plume.

Limericks must be deposited in a special box which will be provided at the Town Hall, not later than 4 p. on Thursday of each week.

As an example of the type of limerick which might be submitted, the following is suggested:

"There was an old fellow of Bath
Who showed **all his teeth** when he
laughed
But now it's no fun
He's got nothing but gum-
And his wife gives him nothing
but chaff!"

CORONATION CELEBRATIONS AT
GOOSE GREEN

The people of Goose Green and their many friends from Walker Creek, North Arm, San Carlos and Port San Carlos had a most enjoyable time on Friday when they celebrated the Coronation of their Majesties with a Fireworks Display and a Dance. The celebrations had been deferred on account of the influenza epidemic.

Ideal weather prevailed for the Fireworks and the Dance was all that could be desired. There were two Novelty Dances included in the programme a Spot Dance, and a Monte Carlo contest, the winners of the former being Miss Maggie Redmond and Mr. William Morrison. During the evening a Lucky Number Draw was held, Miss Ruby Wilson being the winner.

The hall was artistically decorated with flags, and excellent music was provided by the local band and other musicians.

Mr. Michael McCarthy in a speech, thanked the organisers of the dance and the musicians who had provided

THEIR MAJESTIES TO VISIT YORKSHIRE

London It is officially announced that their Majesties the King and Queen will visit Yorkshire on October 19th, when they will be the guests of the Princess Royal and Lord Harewood, at Harewood House. During the following two days they will visit industrial centres Bradford, Halifax, Leeds, Knottingley, Wakefield and Sheffield.

BRITISH PUBLIC INDIGNANT REGARDING RECENT INCIDENTS IN THE MEDITERRANEAN

London The time and place of the conference of the Mediterranean powers, at which important proposals will be put forward by the British Government, have not yet been fixed. Public opinion in Britain had become highly incensed by the course of recent events in the Mediterranean but as steps have now been taken namely the sending of British reinforcements to the western basin of the Mediterranean, and the Government has made an announcement regarding the conference, the tension is now somewhat relieved.

IMPROVEMENT IN B.B.C. SHORTWAVE BROADCASTING

London As the result of improvements carried out during the past two years, the B.B.C. short wave Broadcasting Station at Daventry is now broadcasting on four wavelengths simultaneously, for eighteen hours daily. Generally, two new high powered 50 kilowatt transmitters and two on a lower power are used at the same time. A third high power transmitter is being built. Daventry, by its new system of direction aerials, is now beaming simultaneous transmissions to six different points for the greater part of twenty four hours. As an example of the fuller service offered, it may be stated that programmes radiated from Daventry can be heard in India for a total of from eight to ten hours daily.

DISCOVERY OF PLOT TO ASSASSINATE ARGENTINE PRESIDENT

Buenos Aires The discovery of a plot to assassinate the President and members of the Cabinet, and seize the Naval and Military barracks, was announced just before the Presidential Election held yesterday for the successor of General Justo, whose term expires next February. The President will be elected for six years and will be head of the Army and Navy, making all Civil, Military, Naval and Judicial appointments.

The Candidates are Roberto Ortiz, National Democrat, Marcello de Alvear, Radical, Nicholas Repetto, Socialist.

CLASS STRIFE DEPLORED BY FORMER FRENCH PREMIER

Paris The former Premier, appealed to Frenchmen to sink their differences. The Government will become impossible if class strife continues, he said. He denied that the opposition wished to abolish or obstruct social reforms, but France is becoming more impoverished he stated. General prosperity he said depended on the increased purchasing power of the whole nation, not of privileged classes. This could only be achieved by diminishing production costs.

LONDON TO ANTWERP TRANSPORT

London Weekly sailings have been arranged of ships between London and Antwerp, whereby in conjunction with Canal barge services, cargoes will be carried from the Midland cities in England, almost entirely by water. The Canal journey from London to Birmingham takes about fifty hours, travelling day and night. It is expected that cargo from Antwerp will take about four days to reach

THE JAPANESE BLOCAD OF THE CHINESE COAST

Tokio Japan has extended the blockade, to cover the whole of the coast of China, excluding Tsingtao and territories leased to foreign powers. The blockade applies to all Chinese ships and vessels unengaged in "peaceful commerce".

The Exclusion of Tsingtao arouses curiosity, states The Daily Telegraph Correspondent. It is believed that Japan plans to reoccupy This prosperous Port.

The naval authorities at Shanghai have announced that they reserve the right to hail all merchant vessels within Chinese waters to ascertain their identity, and they request that foreign shipping companies will inform them of the movements of their vessels there.

Hostilities are now extending along the whole coast with fighting taking place at Tientsin and Shanghai and the bombardment of Canton and Amoy, while bombs have been dropped on the Municipal Buildings.

Warships made three attacks on Amoy.

JAPAN'S SUPPLEMENTARY WAR BUDGET

Tokio In outlining the supplementary budget of £120 million to be met by domestic bond issues, the Finance Minister stated that the Government control of Finance, Industry and Commerce is imperative.

In a speech from the throne the Emperor said that he regretted that the Chinese Republic failed to understand the two intentions of Japan and engaged in wanton provocation. Japan's action had no other object than to urge China to reconsider her decisions and establish peace in Eastern Asia.

DECREASE IN UNEMPLOYMENT IN
BRITAIN

Unemployment was down again last month. The Ministry of Labour estimate that at August 23rd the number of insured persons in employment in Great Britain, exclusive of persons within the Agricultural scheme was approximately eleven million five hundred and sixty two thousand. This was forty five thousand more than the month before, and four hundred and ninety thousand more than the year before. At the same date, numbers of registered unemployed were one million three hundred and fifty eight thousand six hundred and twenty one, comprising one million eighty eight thousand and eight five wholly unemployed, two hundred and seventy thousand three hundred and seventy one temporary laid off, and sixty four thousand three hundred and sixty five normally in casual employment. This was twenty thousand, eight hundred and fifty eight less than at the 26th, July, and two hundred and fifty five thousand, three hundred and nineteen less than at the 24th August, 1936.

PIRACY CONFERENCE

It is reported from London that it is proposed to hold the Mediterranean Piracy Conference on Friday at Nyon near Geneva. France and Britain are issuing invitations forthwith to Italy, Yugoslavia, Greece, Romania, Turkey, Egypt, Albania, Russia, Bulgaria and Germany. This Conference on the safety of shipping in the Mediterranean is arousing very great interest in London, and there is no doubt of the importance which is attached to it in Government circles. The British Delegation to the Conference will be led by the Foreign Secretary who will absent himself, as far as necessary for this purpose, from the League Assembly.

London and Paris are at one in belief that the recent illegal attacks on shipping in the Mediterranean by submarines and aeroplanes have created an intolerable situation which all powers, whose merchant ships use the Mediterranean, must desire to see ended as quickly as possible. In their view, therefore, the conference should be brief and business-like and on basis of proposals which it has already been stated the British Government will bring forward, rapid decisions should be possible.

The objects of the Conference are simply to consider steps to end the present state of insecurity in the Mediterranean and to see to strict enforcement of rules of International Law regarding shipping at sea.

R.A.F. FLYING BOAT ACCIDENT.
Crew Rescued by Dutch in North Sea.

The crew of the Royal Air Force flying boat, which made a forced landing in the North Sea on Sunday and was drifting helplessly for some hours, were safely landed at Scarborough. They had been rescued by a Dutch fishing boat and came ashore wearing clothes and wooden clogs borrowed from the Dutchmen. While they were taking part in exercises in the North Sea on Sunday one of the two engines of the flying boat failed and, after the machine had limped along for some miles on the remaining engine the petrol pipe broke.

The ratification of the International Sugar Agreement, signed in London on the 6th of May last, and the declarations under article 4 of the protocol, annexed to the Agreement, have been received from some additional countries. The governments of the following countries have ratified - Australia, Czechoslovakia, Dominican Republic, Germany, Peru, Portugal and the United Kingdom. Declarations have been received from the governments of Cuba, Haiti, Hungary, the Netherlands and Poland notifying their intention to ratify as soon as the necessary constitutional formalities have been fulfilled. Under article 4 of the protocol these declarations are provisionally acceptable as being equivalent to ratification for purposes of bringing the agreement into force. It is understood that a number of other governments will shortly deposit their ratifications or declaration.

DAYLIGHT SAVING.

It is hereby notified, for general information, that under the Daylight Saving System, Government time will this year be advanced one hour from the local mean, at midnight, Saturday/Sunday, the 25th/26th of September, 1937.

By Command,
M, J, Stewart,
Acting Colonial Secretary.

NATIONALIST ADVANCES UNCHECKED.

It is reported from Santander that the forces from Leon have made contact with the Nationalists troops who are advancing on the north coast toward Gijon with the probable objective of turning the Europa Heights and linking up the Oviedo sector for a final assault. The Nationalists have enveloped Llanes and several villages with steady progress unchecked and Nevadella as the last objective. St. Jean de Luz messages state that the blockade of Gijon, covering forty miles of coast-line, is virtually complete.

RIOTING IN BUENOS AIRES.

Bloodshed marked the Argentine elections with the riot centre at Porrego where 300 armed Radicals attacked the polling booth while 70 arrests were made at San Martin where bombs were discovered in possession of the Radicals.

The casualties, are seven dead and many injured.

.. ..
In the polling the unofficial figures credit the government candidate, Sr. Artiz with having 900,000 votes against the Radical, Sr. Alvear's 550,000.

JAPANESE REPLY TO BRITISH NOTE

London In addition to the Foreign Secretary who was with the Prime Minister at No 11 Downing Street for some time yesterday morning was Mr. Malcolm McDonald, (The Dominions Secretary) who called on Mr Chamberlain and remained with him for lunch. All the available Ministers are attending today's Cabinet Meeting. Sir Samuel Hoare who has been at Balmoral Castle as Minister in attendance, left yesterday afternoon for London by train. Lord Hailsham, however, who is on a cruising holiday to South America will not be present. The Meeting will be held at the Cabinet Offices in Whitehall Gardens and it will be the first time that a Cabinet Meeting has taken place there.

REPORTED SINKING OF ITALIAN HOSPITAL SHIP

London Britain and France are determined to end the present intolerable situation in the Mediterranean and they find nothing in the Italo-Soviet tension to disturb the preparations for Friday's Nyon Conference. Russia is not expected to take any immediate action following Italy's rejection of her demands relative to the sinking of her vessels but a new twist has been given to the outlook by reports current in Rome, that an Italian Hospital ship has been sunk by an unknown submarine. France regards the position calmly and refuses to permit the Mediterranean issue to be confused, while the Moscow press continues to fulminate against Italy. Italy and Germany's acceptance of invitations to the Conference remain doubtful but Turkey and Russia are additional acceptors.

FAILURE OF JAPANESE CAMPAIGN

Woosung The Daily Telegraph Correspondent reports that the first phase of the Japanese campaign terminated with an attempt to achieve results with a minimum of

troops and the least possible delay but failed owing to the unexpected unity and savage courage of the Chinese. It is anticipated that a second attempt, with greatly increased forces, will be made shortly and gigantic preparations are being made to turn the present stale-mate into a victory. Over one hundred warships are lying off the coast and twenty thousand troops are awaiting orders to land. Shanghai itself is quiet, but fighting is continuing at Paoshan. Hong Kong reports that British warships are patrolling local waters following allegations that Japanese vessels attacked Customs boats in the British area, while Canton has despatched a Naval unit to watch the blockaders. Lengtingesland is reported to have been seized by the Japanese, with a view to establishment of a sea plane base. The American Chamber of Commerce at Shanghai strongly deprecates President Roosevelt's statement relative to evacuation, but meanwhile the United States Embassy has authorised the closing down of Consulates at Foochow and the Amoy.

SUCCESSSES OF SPANISH NATIONALISTS

Santander The Nationalists have now reached points thirty miles to the west, and twenty miles to the south west of Gijon after negotiating the Europa heights without any appreciable opposition, and further advance is considered easy. Military observers believe that the northern front will be cleared up before the end of this month, thus freeing the troops for the Aragon and centre fronts. Belchite, now in the hands of the Government, is a heap of ruins and the forces are now continuing to advance on this Sector.

THE PIRACY CONFERENCE.Great Interest Aroused in London.

Great interest continues to be taken in London in Friday's conference on the safety of shipping in the Mediterranean. So far replies accepting the invitations issued by the British and French Governments have been received from Egypt, Bulgaria and Rumania. It is generally believed that strong action to suppress piracy will be taken by the conference on basis of proposals which the British Government is prepared to make to the powers which join in these discussions. It is expected the conference will be one of the principal topics at a Cabinet Meeting to-day. Mr. Eden leaves for Geneva to-morrow.

TWO RUSSIAN SHIPS SUNK.Italian Warships Accused.

Rome. On the eve of the "Piracy" Conference the Soviet has presented a note to Italy alleging that Italian warships had sunk two Russian merchant vessels in the east Mediterranean and are demanding immediate compensation and the punishment of the officers responsible. The Government spokesman repudiated responsibility for the sinking, adding that Italy, therefore, rejected Moscow's demands; he further suggested that the note was an attempt to wreck the conference when Italy is prepared to accept the British invitation.

JAPANESE INTERIM REPLY TO BRITAIN

No official statement on the interim reply of the Japanese Government to the British note on the wounding of Sir Hughe Knatchbull Hugessen will be made before the final reply from Tokio, which it is expected will not be long delayed, has been received. It is understood, however, that the terms of the interim reply (had they been the Japanese Government's last word) would in no sense be regarded as satisfactory in London.

B O X I N G .BRITISH SUCCESSES IN AMERICA.

MINISTER OF HEALTH ON CHILD WELFARE.

Speaking at the beginning of his official visit to South Wales, the Minister of Health said that infantile mortality remained at a low level and during the last ten years the rate had been less than what it was at the beginning of the century. The change for the better had been largely due to the efforts of the State and the local authorities in improving environment.

AUSTRALIAN DEFENCE MEASURES

The Defence Minister (Sir Archdale Parkhill) has announced additional purchases of British high speed 'bombers', making a total of one hundred and two, to strengthen the Australian Air Force adding that cruisers would be more heavily armed, Coastal Defence vessels will be built and anti aircraft installations constructed at Sydney and Newcastle.

THE PIRACY CONFERENCE

Uncertainty remains as to Germany and Italy's attendance at the Nyon Conference on the Mediterranean Piracy but the "Daily Telegraph" states that Britain is determined to proceed with the Conference, should they not accept the invitation. The presentation of a further note to Italy by Moscow, relative to the sinking of the Russian ships, is considered to have made Italy's attendance more difficult. Berlin has stated that matter under

consider that it is a matter for the Non Intervention Committee, which official circles regard as a refusal to attend, but Germany and Italy are now conferring and whatever reply is issued, it will be identical it is understood, though refusal is feared. France will be represented at the Conference by the Foreign Minister, with Naval experts, while Mr. Agnides (Greece) head of the disarmament section of the League of Nations will preside. Tension has increased between Rome and Moscow as the outcome of the accusatory notes and the severance of Diplomatic relations is mooted in some quarters.

THE JAPANESE CONFLICT

Shanghai The Chinese are offering strong resistance to the Japanese attacks between the Settlement and Woosung. The Chinese defences now comprise of a line of concrete pill-boxes while the Japanese are using tanks and aerial bombardment in an effort to link the attacking forces on the Settlement-Woosung line. New York reports that another marine detachment is being sent to protect their nationals. The Chinese Government has urged the Foreign Powers to instruct their ships to avoid Japanese vessels as retaliatory air attacks may endanger them. Further Japanese interference with British shipping is reported from Hong-Kong while the Chinese anticipate a raid on Hainan Island. Tokio reports that the Diet has passed all war bills.

THE SPANISH WAR
(Naval Battle of Algiers)

Bilbao Nationalist quarters claim a Naval success off Algiers, when the cruiser "Balcares" engaged five armed trawlers and the Government cruiser "Libertad" in a two hours battle, with the latter escaping in a south westerly direction, severely damaged. In the land fighting the Government are apparently successful in the Asturias region while the Nationalists are continuing to advance on Gijon.

HERR HITLER ON GERMANY'S NEED OF COLONIES

Munich Opening the Nazi Congress, Herr Hitler again insisted on Germany's need of Colonies adding that since Germany's space is too small to guarantee the people's continuous and safe feeding, the attitude of other powers was incomprehensible. Germany could only succeed by a blind trust in leaders he added, thereby making her like Italy a firm rock in the midst of unrest.

U. S STOCK MARKET ADVERSELY AFFECTED

New York The Stock Markets recently suffered the sharpest decline of the year as a consequence of the far East and the Mediterranean situation, traders dumped stocks on the market in large volume and prices closed near the lowest limits, without any signs of rallying.

AUSTRALIAN DEFENCE LOAN

Sydney Following widespread criticisms the Federal Treasurer, Mr. Casey, made a statement on the two million pounds defence loan to be raised in London, declaring that this is only a temporary expedient due to urgent demands for British materials, with the only alternative being steep taxation which would jeopardise the present business recovery. Canberra reports a reduction of five per cent in British steel duties.

New York Labour Day deaths throughout the United States amounted to four hundred and twenty eight, of which three hundred and two were due to motor accidents.

YESTERDAY'S CABINET MEETING

London Two Sessions of the Cabinet were held yesterday and altogether lasted three and a half hours. The International situation was considered and it is assumed that particular attention was given to the Mediterranean Conference. Later it became known that the Admiral of the fleet the First Sea Lord, other naval experts and Sir Robert Vansittart the permanent Under Secretary for Foreign Affairs are leaving London to-day to assist Mr. Eden at the Conference. The Prime Minister returned to Scotland last night to complete his holiday. Mr. Chamberlain will remain in Scotland until about September 18th.

The Foreign Secretary is leaving for Geneva to-day. In the evening on passing through Paris he will be a guest of the French Foreign Minister, Monsieur Delbos, at a dinner at which the French Premier, Monsieur Chautemps, and Monsieur Leon Blum will also be present.

PROBABLE MEETING OF NON-INTERVENTION COMMITTEE NEXT WEEK

London No meeting of the International Non-Intervention Committee has been arranged for this week but there may be a meeting in the course of next week. At the last meeting of the Chairman's sub-committee it was decided to request the Governments parties to the Non-Intervention Committee, to submit their comments on Admiral Van Dulm's report, by to-morrow.

RADIO LISTENERS

Will all those sufficiently interested in receiving good English Programmes without Advertisement from Radi Stentor, Buenos Aires, and who are willing to assist in defraying the necessary expenditure involved in securing such a boon, send their names to Sylvia Summers, of Stanley, or to Sydney Goss, Fitzroy.

The object of this appeal is to assist Mr Bluman, of 25 de Mayo, 267, Buenos Aires, in establishing, through Radi Stentor, The English Radio Circle. Many listeners in these Islands, through the past month, must have heard the splendid programmes, his Radio Greeting to the Falklands, and his appeal for support in establishing a weekly or bi-weekly series of good English entertainment. No cash is at present asked for, just your names, which will be taken as a promise that you are willing to contribute, say, two-shillings and sixpence, yearly towards establishing the proposed circle.

This appeal is addressed not only to owners of Receiving Sets, but to all listeners who enjoy hearing good English Programmes, and are desirous of securing a Broadcast Service to these Islands from a centre where "personal request items" will doubtless be favourably considered.

The scheme is certainly a fascinating one, and would be the means of linking these Islands in a close personal touch with the whole of South America. It would require at least three to four hundred names at the figure suggested (2/6) to realize a sufficient sum to offer as a contribution from the Falkland Islands. Suggestions from anyone interested in the furtherance of the scheme are cordially invited; Send no Cash, for the time being, but let us have your names please before the end of September.

GERMANY AND ITALY REFUSE INVITATION TO PIRACY CONFERENCE.

London News that Germany and Italy will not be represented in the discussions on the proposals to secure respect for International Law and the safety of shipping of all nations from piratical attack, has been received with regret here. In reply to those two Powers to the joint Anglo-French invitation to the Conference at Nyon did not reach the Foreign Office until early yesterday afternoon. No reply has yet come from Albania. Nine other powers, Great Britain, France, Yugoslavia, Greece, Bulgaria, Rumania, Turkey and Egypt have intimated that they will take part in the Conference, which may well be transferred to Geneva, as a more convenient centre for the representatives who will all be there already for the purpose of League Meetings. The discussion are not expected to be prolonged as the purpose of the meeting is severely practical and technical and the British delegation is known to have prepared proposals which, with modifications which may be necessitated by the non-participation of Italy and Germany, are likely to provide a suitable basis for the Conference's work. In the British view, the subject before the Conference is of the greatest urgency and of little scope, and it may be assumed that any tendency to deviate from the immediate and concrete goal, into a political or "ideological" sideplay, will be resisted.

Both the German and Italian Governments stated that they cannot accept the invitation to the Nyon

Conference and suggest the reference to the London Non-Intervention Committee, of the questions to be discussed. The German Government welcomes the attempt to put an end to the insecurity in the Mediterranean and the Italian Government states that it was favourably considering the acceptance of the invitation, before the receipt of the Russian note of September 6th. The possibility of reference of the problem to the Non-Intervention Committee would not have been overlooked in London and Paris before the proposals for the Conference were made, and the same cogent reasons which led the two Governments to reject the first procedure, would now preclude their accepting a German and Italian counter-proposal. The question of the safety of the shipping of all nations far beyond the territorial waters of Spain, goes outside the scope of the Committee set up to deal with the special problem of Non-Intervention, even the gravity and urgency of the circumstances in which the question has arisen did not demand a more authoritative and direct mode of negotiation. A similar necessity was recognised in the case of the Patrol Powers in agreement reached after the "Deutschland" incident regarding the procedure or dealing with serious incidents of concern to those four powers, and this procedure was in fact invoked in the "Leipzig" incident. Apart from these considerations, the proceedings of the Non-Intervention Committee have not always been free from an atmosphere of recrimination, which would be most inappropriate to a case where quick action is required on the principals of law and humanity, upon which all powers may be assumed to be agreed for the purpose which it is the undoubted interest likewise of all powers to see carried out.

NATIONALIST ADVANCE MEETS WITH PIERCE RESISTANCE.

The Nationalist push towards Gijon for the possession of the Maricao Heights, which control Ribad-isalla and Villa Vicarosa, as the key to Gijon, is being met with fierce resistance. Advancing columns of reinforcements are expected to give the necessary impetus to the attack, thereby compelling the Asturians to surrender. Madrid claims that the Government troops are seeking the initiative in the north, with minor retreats in the Majuco Sector, but with the ground subsequently regained in counter-attack. Nationalist pressure is continuing along the coast with pronounced air activities in all regions.

HEAVY FIGHTING IN CHINA

London Tokio describes the fighting of Wednesday and Thursday last as the fiercest so far, but the Chinese resistance is being gradually overcome. Elsewhere it is claimed that the Japanese drive in the north is progressing with the advance along the Tientsin-Fukow railway maintained. Meanwhile, Chinese sources report the shooting down of twenty nine heavy bombers, twenty four light bombers, three pursuit planes and three seaplanes, with eighty one dead air men buried, and ten prisoners taken, between August 14th and August 31st. The Daily Telegraph Correspondent learns from Hong Kong Japanese headquarters that no traffic of any nature is being left unattacked, since the Chinese are moving reinforcements into the Shanghai area to meet the forthcoming Japanese offensive. Hong-Kong reports that fifty million dollars of Chinese silver has been deposited in the local banks, from Canton and Harkow, mostly Chinese Government holdings.

Government claiming a break through the west of Valdemorillo and the repulse of the Nationalist Jarama attack. The Daily Telegraph Correspondent from Algiers states that it is assumed that the Nationalists were victorious in Wednesday's naval battle since the ten thousand ton "Canarias" (or possibly "Balearos" of the same type) has resumed coastal patrol. The Government cruiser Libertad was also sighted in another area. According to a Salamanca message Nationalist columns operating along the Asturian coast have occupied Posada and are now only eight miles from their main objective, Ribadesella.

YESTERDAY'S PIRACY CONFERENCE.

The Chairman, and the British Foreign Secretary, speaking at the Piracy Conference, both expressed regret at the absence of Italy and Germany from the Conference table. Referring to the suggested reference of the question to the London Non-Intervention Committee, M. Delbos said that the French and British Governments had found it impossible to accept the suggestion because it was necessary to act quickly. Referring to the proposal which the French and British delegations are submitting to the Conference, M. Delbos said it had appeared necessary in order to meet the situation in the Mediterranean, to re-establish respect for the universally recognised principle of International law, and to adopt common agreement, for the period during which the danger might continue, special measures to assure the free passage of merchant shipping and to prevent and punish acts impeding such free passage. "The Mediterranean is one of the great arteries of world commerce. It plays a decisive part in the lives of the countries represented here, who have an equal right to navigate it freely. For some of us liberty of communication on the sea is a vital element of security. No one therefore has the right to take liberties to the detriment of the community." He added, that rapid agreement was expected to put an end to the Piracy and the immediate lessening of the insupport-

able situation which exists at the present time in the Mediterranean, and involves the risk of further and more grave incidents. He said that more was hoped for - quick success through collaboration by all for the creation of a better atmosphere which in the last few weeks has become far too heavy. It is also hoped to create more favourable conditions in which to discuss wider European problems in a spirit of collaboration. Later, the British Foreign Secretary proposed that the Conference be organised as a technical committee. This ended the public session.

Details of the proposals, upon which the British and the French Delegates are said to have reached a complete agreement in Paris last night, for submission to the Conference will not be known until the next public Session which it is assumed will also be the final Session of the conference. It is generally believed however that the proposals provide for the widest measure of International Naval

Co-operation whereby warships of the contracting parties will be available for the defence of all shipping subjected to attacks in the Mediterranean. In London there is no disposition to read into the absence of Italy and Germany from today's meeting, unwillingness to co-operate in measures upon which the Conference may eventually decide, and it is regarded as probable that the Conference before breaking up will devise suitable procedure by which absent powers will be able to associate themselves with its conclusions and co-operative action to which they give rise.

A communique issued to-night at the end of the first sitting of the Nyon Conference states "The Conference is sitting as a committee to examine the principles of action to be undertaken to put an end to

Piracy carried out in the Mediterranean against merchant vessels, as well as the manner in which are to be employed to this end, available forces of the various Governments." The discussion which was held shows on certain points the necessity for further study. Various meetings will be held on these subjects this morning. The Conference will meet again in committee to-day at 4 p.m. at Nyon.

SIR KINGSLEY WOOD ON NATIONAL HEALTH

London Sir Kingsley Wood, the Minister of Health, addressing the Welsh local authorities at Cardiff yesterday, announced a number of National Health projects and Social Schemes to be undertaken during the next twelve months. He said that he hoped early in the new Session to introduce in the House of Commons two important measures, one to reduce the age limit for the award of pensions to the blind and the other to provide medical care to young persons who had left school. At least three hundred thousand new homes were required to complete the present slum clearance and over-crowding programme. The nutrition policy will be further extended by making provision to enable milk to be made safer and by extending its supply further to mothers and children. Local authorities would be in a position to extend their present schemes under which milk was made available either free, or at a reduced price, as circumstances might require. The nation must not only insure safeguards against disease, but actively promote good health. Large sums were spent on health and housing services - greater perhaps than any other country in the world - but this money was a great national investment for it returned a high dividend in better houses, improved health and longer lives.

FALKLAND ISLANDS WIN

Falkland Islands carried off the Junior Mackinnon. The wind which prevailed during the shooting seemed to give little trouble to the islanders. A few of the teams could not satisfactorily cope with it. The "Morning Post" Trophy has gone to the Falkland Islands twice. This is their first success in the Junior Mackinnon. Sir Henniker Heaton, Governor of the Falkland Islands, followed the team's shoot to victory and was heartily congratulated in the field on the team's win, which was generally popular.

British Guiana competitors at one period of the match gave promise of repeating their success of yesterday, when they secured the "Morning Post" trophy. They had compiled a two range aggregate of 315. The Falklands team had not finished their shoot. Capt. Fleuret had four shots to go. The signalling of a magpie caused the spirit of the team to drop; a bull's-eye followed and an inner with the last shot placed the Cup in Falklands' possession by one point.

Sir Geoffrey Northcote, the Governor of British Guiana, was again present to encourage the team, and although they did not succeed today he was highly pleased with their performance. Yesterday, when the team won the "Morning Post" prize, Lieutenants Crawford and Middlemas were the coaches. To-day British Guiana had the invaluable assistance of Lieutenant Middlemas and Mr. Hall of Oxford University.

THE PIRACY CONFERENCE
Policing Of Mediterranean

London Saturday's session of the Piracy Conference at Nyon lasted nearly two hours. Later it was announced that complete agreement had been reached so far as the present stage of the negotiations go and that the work of the Conference was practically over. The draft proposals adopted on Saturday evening are being referred to the governments of the States participating and to the Italian government, which has been asked if it is prepared to join in the measures laid down for ensuring the safety of merchant shipping from lawless attack. The German government will also be informed of the Conference's work in accordance with the assurance given by the convening governments in acknowledging the German and Italian replies to the original joint invitation. It is expected that the Conference will be able to conclude its labours today.

Press messages from Nyon say that according to the agreement each nation will police its own territorial waters, while Italy will be asked to cooperate with France and Britain in assuming the policing of the Mediterranean as a whole. If Italy refuses, this will be carried out by Britain and France alone. The idea of the eastern zones, of which would have been assigned to the smaller Mediterranean Powers, has been abandoned. It is provided that all submarines, not complying with the provisions of the London Protocol for the humanising of submarine warfare, will be considered as pirates.

TRAMCARS REPLACED BY TROLLEYBUSES

In early hours of this morning the last tramcar was to leave the streets of west London and enter its depôt at Hammersmith. Only two hours later, the first trolleybus, a hundred of which are replacing trams in this section, will be on the streets. This is the biggest stage in the conversion of tramcar routes, to trolleybus working, yet undertaken by the London Passenger Board and will bring the total of new road vehicles placed on the roads since the Board was formed in 1933, to 1630.

EMPIRE MIGRATION CONFERENCE.

London The Conference on Empire Migration and development being held here in October, is arousing interest in the Dominions. Several Premiers of Canadian states wish the Conference success and some may attend, while a strong New Zealand group is working to induce their Government to adopt the Immigration Policy. Following Melbourne and Sydney investigations, indicating a shortage of skilled workers in many industries, there is a move that British immigration be speedily adopted.

THE ANTI-PIRACY CAMPAIGN.

London The Admiralties of Britain and France are confident that the anti-piracy plan adopted at Nyon will effectually check further submarine attacks on merchant ships in the Mediterranean, states the Daily Telegraph. Sixty destroyers, thirty six British, twenty four French, will be assembled to police the main shipping routes, with orders to sink any submarines attacking non-Spanish vessels without warning, and ensuring the safety of the crews. The plan has been received with general satisfaction in Italy and it is probable that Signor Mussolini will accept Tyrrhenian sea patrol after a discussion with the Non-Intervention Committee. Rome repercussions to Nyon are satisfactory at cross contact maintained in Italy's absence, and the British delegate, Mr Eden's influence in restraining the Soviet delegate from indicating Italy, with subsequent exclusion of Soviet from the Mediterranean patrol. Berlin also approves of the action taken, particularly with regard to Soviet participation. Moscow retaliates with the press suggestion that independent action will now be taken against "Italian Pirates" with Soviet still adopting the decision of the Conference for ensuring the Mediterranean safety.

SINO-JAPANESE FIGHTING CASUALTIES.

Tokio An official statement admits slow progress in the Shanghai area but stresses successes south of Tientsen where it is claimed the Chinese retired in disorder. The Chinese casualties at Shanghai are estimated at 30,000 dead and 20,000 wounded, since August 13th, but the Japanese figures are unrevealed although country wide families have been informed of the losses of sons, states the Daily Telegraph.

BOMBING OUTRAGE CAUSE WIDESPREAD INDIGNATION IN FRANCE.

Paris Intense indignation swept the country following reports of bombing outrages, which wrecked the

headquarters of the French Federation of Industry and the headquarters of the French Ironmasters in the same district, at a late hour on Saturday. According to the Daily Telegraph Correspondent, Premier Chantemps initiated and presided over a police enquiry relative to the affair since Government takes a serious view of the outrages. A charge, involving death sentence, has already been filed against those concerned but outside of material destruction, the only lives lost were those of two policemen on duty at the French Industry building, who were buried by the collapse.

Regarding BUTTER.

Last week we had to advance the retail price of finest Argentine Butter to 1/9d. per lb.

Actually the price should be, on the basis of current wholesale prices, considerably higher, and we are now forced to fix the price at 1/10d. per lb. which will commence from the morning of Wednesday 15th inst.

COOKING MEDIUM.

While butter has been relatively cheap for a number of years past, we know that many of our customers have been using increasing quantities for the purpose of pastry making etc.

For such cooking purposes we strongly recommend them to try any of the following fats, which are now considerably cheaper than butter;-

"SPRY" An ideal 'ready creamed' cooking fat.
In 1-lb. tins. 1/1d. each.

Margarine "Silver Birch" Brand. per lb 1/-

Finest LARD in 2 -lb. tins 2/- each.
in larger tins 4/6 each.

"B. C. L." Compound Lard 1- lb. tins 1/- each.

"LOTUS LIHY" Compound Lard 1- lb. tins. 1/- each.

None of these cooking mediums have been advanced in price as yet, but if the present tendency in wholesale prices persists, it is only to be anticipated that they will also advance in price.

For the present we have sufficient stocks in hand to meet current demands.

CHEESE. "Holanda" type cheeses 2/- each.

"Chubut" cheeses 1/10 each.

"Gruyere" type cheese in boxes of 8 portions each - 1/6 per box.

TRANSFER OF MR. N. W. BEARDMORE.

Mr. Beardmore has been offered and has accepted the post of Treasury Accountant in the Gambia, West Africa. While offering him our heartiest congratulations on his preferment and wishing him every success in his new Colony we must express regret that this Colony is losing the services of such a thoroughly efficient Officer.

Mr. Beardmore's first appointment in this Colony was in 1927 as a Clerk in the Colonial Secretary's Office. He was afterwards appointed Clerk in the Treasury & Customs Department, in due course becoming Chief Clerk on the transfer of Mr. H.C. Ley to Cyprus. Mr. Beardmore also carried out the duties of Registrar, Supreme Court, with marked ability.

MR. AGA KHAN ELECTED PRESIDENT OF THE LEAGUE

London Aga Khan, the Chief Delegate for India, was unanimously elected President of the League of Nations Assembly yesterday afternoon. Of fifty five votes cast, Aga Khan received forty nine.

Opening the eighteenth Assembly of the League of Nations at Geneva today, as President of the Council the Spanish Premier, Señor Negrin, said that although events in Spain were a matter of the gravest International concern he did not intend to refer to them but would content himself with offering the greetings of the Spanish Government, in the eyes of which the League system was the only hopeful form for the organisation of International relations. "If we and those who think like us, do all we can to maintain and strengthen the League, it will prove a true foundation for peace and prosperity of the world. Let us hope that our deliberations and resolutions bear witness to your resolve that International relations shall be governed by the principals of the Covenant and by good faith and respect for International engagements.

CHINA APPEALS TO LEAGUE OF NATIONS

Geneva. Press messages state that the Chinese Government has called the attention of the League of Nations to the invasion of China by Japanese forces, has invoked articles ten, eleven and seventeen of the Covenant, and has asked the Council of the League to study means and take measures, appropriate and necessary, in view of the situation.

JAPANESE FORCE CHINESE TO RETREAT

Shanghai. The Daily Telegraph Correspondent reports that an energetic drive by the Japanese, forced the Chinese to retreat on a thirty mile front, taking up positions on a concrete "Hindenburg line" running north-west of the Settlement. The advancing Infantry suffered heavy casualties from land mines laid on the roads, bridges and fields. The Chinese retreat is considered likely to cause the Japanese junction of the Woosung and Settlement troops to be promptly effected. Nanking claims that a Japanese destroyer was sunk by bombers from Canton outside Kwangchow Bay. Funds for the relief of Catholics in Shanghai and Peking were despatched by his Holiness the Pope, states a Vatican City message.

of the Nationalists at Huesca and Cordoba. A Gibraltar message confirms that the Nationalists cruiser "Balaeres" is undergoing repairs at Cadiz as the result of the Naval engagement off Algiers.

INDIAN SITUATION REVIEWED BY THE VICEROY

Simla. The Viceroy, Marquis Linlithgow, reviewed the Indian situation in addressing the joint Session of the Central Legislature and stated that there were distinct signs of peace on the north west frontier with acceptance by the tribes of the moderate terms imposed. No member of either Congress, or the Congress Nationalist Party, attended the Assembly notwithstanding its political importance.

NYON AGREEMENT CAUSES SATISFACTION IN ITALY

Moscow. The Press expresses satisfaction with the Nyon agreement, particularly that Europe has agreed to act without Italy states a Daily Telegraph Correspondent, but Berlin in making an attack on the Soviet Foreign Minister Litvinoff, as the poisoner of Europe says the most effective outcome of the Conference is the rejection of the Russian demand for the Mediterranean control zone in the Mediterranean. Italy will seek amendments of the Nyon decisions in a friendly spirit says a Rome message. The American view is that Europe is again balanced, although somewhat precariously, on the thin edge of an effective compromise and a difficult ~~Japan~~ has been met with intelligent restraint and firmness, cloaked by common sense.

CANADIAN REARMAMENT

Montreal. Subsequent to the return of the Cabinet members from England, rearmament is being speeded up, particularly aerial and naval construction while additional coast defence batteries are being organised.

GERMAN MINISTER OF ECONOMICS TO RESIGN

Berlin. The resignation of Herr Schacht is expected at the end of September, when Herr Goering will assume the Ministry of Economics while Herr Schacht will remain the Reich Bank President. Other Administrative posts are being allocated to Military and Air Force Officers.

CONFLICTING REPORTS FROM SPAIN

Salamanca. The Nationalists claim an advance in the Leon Sector, with the Government attacks repulsed on the Aragon front, while the Madrid area is comparatively quiet. Valencia continues disputes the Aragon claims, stating that the Alboron heights have been occupied with the repulse

MEXICAN PRESIDENT ISSUES WARNING TO STRIKERS

Mexico City. The President in a message to the Petroleum workers issues the warning that the Pozarica strike is unjustified and the strikers must settle the dispute themselves or the result will be suicidal.

BAN ON FASCIST MARCH.

London. In view of the Government ban the British Union of Fascists are holding their October 3rd march throughout the Southeast District which is outside the banned area.

POLICING OF MEDITERRANEAN

London. The measures for policing the Mediterranean against Piratical attacks on merchantmen, established by the Nyon arrangement, will come into operation forthwith. A Geneva message states that two annexes to the arrangement on which Naval experts have been working, were signed yesterday morning.

BRITISH WARSHIPS LEAVE FOR THE MEDITERRANEAN

London. The Air Ministry announced that No. 209 General Reconnaissance Squadron would leave its base at Felixstowe early this morning for Malta to take part in the Mediterranean Control Scheme. A second squadron, No. 210 General Reconnaissance Squadron, now stationed at Pembroke Dock, will also proceed to Malta at a later date. Both units are equipped with short Singapore Flying boats.

The four thousand, two hundred ton cruiser "Cairo" (Flagship of the Commodore destroyers) sails tomorrow with destroyers "Beagle", "Prazen" and "Brilliant" for Gibraltar to join the anti-Piracy patrol in the Mediterranean. Flotilla leader "Kempfenfelt" and destroyers "Basilisk" "Boreas" "Boadicea" and "Bulldog" will follow in a few days.

MR SOPWITH'S ENDEAVOUR II

London. It was stated in London yesterday that no meeting of the Non-Intervention Committee has been fixed for this week.

Southampton. The yachtsman, Mr. Thomas Sopwith, on his return from America expressed satisfaction with the performances of "Endeavour II" saying that the vessel had never sailed better but that she had met a boat designed one year later and capable of a higher speed.

ITALIAN REFUSAL OF NYON PROPOSAL.

Rome. The Italian reply to the Nyon note was handed to the French and British Diplomatic representatives on Tuesday night. Italy refuses to adhere to the Nyon proposals unless she is admitted to patrol on terms of complete equality, and the reply is stated to be "In agreement with the Government of the Reich". Britain and France regard any major alterations of the scheme as impracticable, states the Daily Telegraph, and the French Delegation at Nyon has informed the other powers that if Italy and Germany intervene more flagrantly in Spain, France will open the Pyrenees frontier. Moscow press commenting upon the Nyon Pact, proclaims a victory over Italian and German adversaries but deplores the technical weakness of the measures against Italian submarines. Nevertheless, the conviction is expressed that stronger measures are prophesied and there is nothing to prevent the Soviet fleet from resorting to independent action and entering the Mediterranean.

THE NATIONALIST ADVANCE ON GIJON.

Salamanca. The Nationalists are continuing to advance on Gijon, with the capture of several villages on the Leon front and the commanding of all road and telegraph communication. The Southern and Asturian fronts are quiet but in Aragon counter-attacks have been repulsed. The Government has issued no communique.

SPECIAL MEETING OF U.S.A. CABINET.

Washington. President Roosevelt returned to the White House after his vacation and immediately conferred with the State Secretary, Mr. Cordell Hull, on the Far East and the European situations, and a special Cabinet meeting was subsequently summoned. The questions to be discussed are the Neutrality Act and Monetary situation in relation to Market declines.

HEAVY CASUALTIES IN SINO-JAPANESE FIGHTING.

Shanghai. The Chinese are showing no signs of demoralisation by the Japanese attacks, states the Daily Telegraph Correspondent, and the troops are convinced that they can hold out through a prolonged warfare better than the Japanese. There is overwhelming evidence of appalling casualties on both sides in the recent engagements, provided by Red Cross trains entering the Settlement, while the dead are not officially estimated it is reckoned that five thousand Japanese, and six thousand Chinese wounded, are receiving treatment in various hospitals. The Japanese General Jujita, states that all bridges in the battle area have been evacuated, while movements are hampered by rain. It is understood that Kwansi troops are occupying Pootung positions with the object of preventing Japanese from landing. Tokio claims successes in North China with the clearance of Charhar province and an advance on Chingchow, along the Hankow railway. Hankow states that the Japanese bombed Waichow, Shaokwan and Shiklung. Japanese official circles are reticent relative to the Chinese appeal to the League, pointing out that Japan is opposed to any intervention in the Sino-Japanese conflict, by third parties. Nanking claims the capture of Kaigan, regarded as the gateway to Chahar Jehol and Mongolia, but the Japanese are apparently launching a counter-attack.

FORMER GERMAN COLONIES.

Montreal. According to the personal opinion of the South African High Commissioner in London, Herr Hitler's claim for the return of the pre-war Colonies would not be entirely opposed by South Africa. He suggests that the matter would be better dealt with in the broad spirit outlined by Herr Hitler at an International Conference Table, since Europe in the past had too often allowed her problems to drag on to a danger point.

NEWS IN BRIEF.

Canberra. Premier Lyons, after interviewing the Governor General, announced in the House of Representatives that the forthcoming Federal Elections have been fixed for October 23rd.

Ottawa. The largest tobacco crop in Canada's history is being harvested, with an estimated total yield of fifty six million pounds, of which Ontario accounts for forty eight million.

Aix-les-Bains. Earl Baldwin, receiving the freedom of the city from Mayor Mollard at a quiet ceremony, referred to this "Home from England" Tribute is paid to Earl Baldwin as a lover of peace and a friend of France.

Washington. President Roosevelt has forbidden merchant vessels owned by the Government to transport arms or ammunition to China or Japan.

Panama. Mr. McKay, controlling the Manganese Lease, has issued a written statement declaring that foreign agents have offered a fifty million pounds guarantee for purchase, but that he declines to negotiate. A suggestion is made that American and Japanese interests are involved.

Prague. The country is plunged into mourning for the President. Every house carries black streamers, while all places of amusement have been closed. It is announced that the burial will take place on September 21st.

London. Princess Aly Khan, formerly the Honourable Mrs Loel Guinness, has given birth to a son. Both mother and child are doing well.

RUMANIA ADOPTS BRITISH AIR SAFETY DEVICE

London. Rumania is the latest country to acquire, for a considerable cash payment, patents or right to use the British air safety device the Handley-Page slotted wing. The other nations concerned are, Great Britain which paid ten thousand pounds for them, Italy, Poland, Canada, France, Germany, Sweden, the United States, India, New Zealand, Finland and Japan. Adopted originally in the interests of safer flying, the slotted wing is nowadays equally important as a means of augmenting speed and the range of the modern, heavily loaded, high performance aeroplane.

THE LONDON GREEN BELT SCHEME

London. Over one million five hundred thousand pounds have been spent already in Middlesex alone, under London's "Green Belt" scheme. The County Council will promote a Private Bill at the next Session of Parliament, to secure the preservation in perpetuity, of the eight thousand acres thus acquired.

ENGINEERING STRIKE UNSETTLED

London. The dispute in the engineering trades regarding the wages of apprentices and the recognition of their Union, which caused a strike in Glasgow in the Spring, has not been settled satisfactorily in the subsequent negotiations, and a number of small strikes of apprentices are reported from Manchester and other districts.

SIR GWYER LEAVES ENGLAND

London. Sir Maurice Gwyer, the first Chief Justice under the new Indian Constitution, left London yesterday for India, to assume his appointment.

PIERCE FIGHTING ON PEKING HANKOW FRONT.

Peking. A strong Japanese offensive is being launched along the front of the Peking - Hankow railway and is developing into the largest battle since the outbreak of hostilities. The Japanese claim a large advance, and following a series of swift thrusts in a south westerly direction across the Hun river threaten to envelop the Chinese northern army now defending the Yen-men-pass after falling back from Kwangling. Shanghai fighting has died down states the Daily Telegraph Correspondent, but the Chinese admit the loss of Lotion twelve miles north of the Settlement. While from a military point of view the north China fighting is now more important, it is pointed out that resistance in this area is inferior to the Shanghai defences. A minor naval engagement occurred in the Gearl river, between Hong-Kong and Canton, when five Japanese warships engaged two Chinese, with the Japanese claiming the disablement of the Chinese cruiser "Chaoho".

PRESIDENT ROOSEVELT AND THE NEW DEAL.

Washington. President Roosevelt, facing a tangled domestic and International situation, has had discussions with advisers and in view of his impaired popularity as a result of the Supreme Court proposals, will carry out a speech-making trip by train to California, urging the support of the New Deal plans. While considerable feeling has been aroused relative to the alleged Kl Klux Klan associations of President Roosevelt's recent Supreme Court Appointee, Justice Black, London reports that Mr. Black and his wife are now in England and refuse to make any statement.

according to reuter, expressed opposing views. The "Cape Argus" says that the High Commissioner has not only complicated the vexed question but has incautiously compromised his country and weakened its power of participation in consultative affairs. The "Durban Daily News" says that he has not embarrassed his Government, but has ventilated the feeling which is strongly shared by thoughtful people. The "Johannesburg Star" refuses to make any comment but points out that he has expressed his personal views and that there is no reason to suppose that the Government is opposed to friendly discussions on the relative question. The "Natal Mercury" considers that whether calculated, or uncalculated, the statement was definitely an indiscretion.

solution on the lines of the British statement of Policy of last July. The Council agreed to the British Government carrying out a study and taking such steps as it might entail and while deferring consideration of the substance of the question until it was in a position to deal with it as a whole, in the meantime reserving its opinion and decision, it pointed out that the Mandate remains in force until such time as it might be modified. The resolution was submitted by the Roumanian Foreign Minister who had drafted it, with the aid of M. Sandler of Sweden and Doctor Munters of Latvia. M. Delbos said the French Government fully approved of the resolution and appreciated the efforts of the British Government to find a solution, just and equitable to all.

PROTECTION OF MEDITERRANEAN SHIPPING

London. There is to be no delay in putting into operation the measures for the security of shipping in the Mediterranean which were established by the Nyon arrangement. The invitation to Italy to co-operate in the police task assumed by the Nyon Powers, remains open. Italy has expressed dissatisfaction with the share in the work which she was asked to take but in Nyon Conference circles it is considered inevitable, as a consequence of her decision to remain away, that the plan adopted by the other Powers should not provide exactly for her particular requirements. Nevertheless, any further initiative from Italy would be placed before the Conference Powers and the arrangement itself provides the possibility of a revision.

SIR FREDRICK PHILLIP IN AMERICA

London. Sir Fredrick Phillip, one of the under Secretaries of the British Treasury, who is spending a holiday in Canada, will visit the United States before returning to England and during his visit he will have talks with the Secretary of the United States Treasury, Mr. Morgenthau. Enquiries in official quarters in London show that there is no question of opening negotiations or of a discussion. The subjects of the conversations which may take place have not been defined and the visitors regarded as being mainly for the purpose of establishing personal contacts. A Washington press message attributes a statement to Mr. Morgenthau, regarding his meeting on Monday with Mr. Phillips, that he had no intention of discussing war debts.

LIMERICK CONTEST.

In announcing the winner limer-
icks this week the Committee wish to
draw attention to the definition of
a limerick. A limerick is defined
as a nonsense verse. It is now
usually applied to the 5 line form
seen in Lear's Nursery Rymes. viz.

There was an old man with a
poker
Who painted his face with red
ochre,
When they said, you're a guy.
He made no reply
But knocked them all down with
his poker!

There were many excellent efforts
submitted this week which were not
limericks and so disqualified.

One entry inadvertently mislaid
by the judges last week was included
in this week's entries.

To win, a limerick should be cle-
ver, amusing and be related to some
aspect of dentistry.

RESULTS OF LIMERICK CONTEST.

1st. I know a young fellow called
Keith,
The dentist took out all his
teeth.
Now this is 'nt fiction,
It altered his diction
Now he says "Will you path the
thalt pleath!?"

'Bosun'

2nd. There was a young dentist
named Sutton,
Who was drilling away at a
glutton.

THE TWO STANLEYS.

Recently there came to the Headmaster of the Government School, a letter from the Headmaster of the School in Stanley, Tasmania asking if the pupils would care to enter for an essay competition in connection with an Agricultural Show to be held there in November. The Subject of the essay was "the Falkland Islands" and the ten senior girls of the Continuation Class complied willingly with the request.

This is not the first time that communication has been established between the two Schools, for in 1910 the pupils of the Tasmanian School presented the Government School with a beautifully-made Union Jack which adorns the table at the Annual Prize giving.

BRITAIN AND FRANCE BITTERLY
ATTACKED BY ITALIAN PRESS

Rome. According to the Daily Telegraph Correspondent Italy has no intention of presenting counter-proposals to Britain and France, as an effort to join the Anti-piracy Pact. The view is held that it is the duty of the Nyon plan promoters to produce a scheme which would acknowledge Italy's request to admission on absolute equality with the other patrolling powers. The press comments acrimoniously on Anglo French encroachment on "Our sea" and confidently anticipates that Italy's "Rights" will be granted. In London, the Daily Telegraph says that neither Britain nor France can make any modification of the technical arrangements now concluded.

U.S. TO JOIN IN DISCUSSIONS
ON THE FAR EAST

Peking. The fiercest fighting continues over a seventy mile front, and the biggest battle of the present hostilities is developing in north China, with the Chinese making a desperate resistance against overwhelming mechanical equipment. The Japanese are nearing their objectives

on the Peking-Hankow railway, with intensified bombing of all towns in that area. Canton, was also raided by Japanese planes. In Washington State Secretary Mr. Cordell Hull informed the press Conference that the United States is prepared to consider the invitation of the League to participate in an advisory committee on the Far East. According to San Pedro reports, nineteen bombing planes consigned to China were removed from the steam ship "Wichita" in accordance with the Government order but it is probable that the machines will be reconsigned in ships unaffected by the Presidential ban.

SPANISH NATIONALISTS SHELL MADRID

Madrid. Nationalists batteries shelled the Royal Palace Sector of the capital, inflicting widespread damage, states a Government message. According to reuter, the Franco-Spanish town, Port Bor, has been set on fire by Nationalist bombers who were subsequently driven off by Government fighter squadrons.

ANOTHER BOMBING INCIDENT

AMENDMENT OF BETTING LAWS IN
SCOTLAND

Scotland. The Coalbridge Council has approved a resolution calling for a Government enquiry into the betting laws with a view to an amendment providing for a more stringent control of credit and ready money betting by a complete state control. The opinions expressed are that the present laws favour the monied classes and that there should be a totalisation in every Post Office.

ATTEMPTED BOMBING OF BRITISH DESTROYER

London. On Saturday, six heavy bombs were dropped by an aeroplane, close to the British destroyer "Fearless", positioned off Gijon. The ship was not hit and no casualties resulted. The aeroplane returned to Gijon.

an entire misapprehension of the conditions under dictatorship. The Airmen press according to reuter sharply attacks Per Roosevelt, adding that his remarks are designed to divert American attention from his own dictatorial aspirations.

SPANISH PRIME MINISTER'S APPEAL TO THE LEAGUE

Geneva. The Spanish Prime Minister, Senor Negrin, addressing the League Assembly declared that Italy was preparing to send an army twice the size of the present number of Italians now in Spain.

He urged the League to take steps to end the German and Italian aggression, remove the embargo on arms for the Spanish government, secure the withdrawal of the foreign combatants and extend the Anti-piracy protection to Spanish ships.

He declared that if the foreign combatants were withdrawn the government could end the war in two months.

The French Foreign Minister, M. Delbos, appealed for International unity in defending peace, and added that the despatch of further arms and men to Spain would increase the war danger.

PRESIDENT ROOSEVELT AND DICTATORS.

London. President Roosevelt's attack on Dictatorships has aroused German and Italian comment. The President declared that Dictators Challenged Democratic ideas by maintaining order by fear at the expense of individual rights. He affirmed that modern men and women would not tamely commit a permanent government to one man or group and would eventually insist on their right to choose their rulers by ballot.

According to the "Sunday Times" the Italians regard the President's observation based

Peking. While a strong Chinese force is attempting to relieve fifty thousand of their army, isolated between Chochow and Lianghsiang by a Japanese encircling movement, the Chinese, holding river canal banks northwest of Peking, are stemming the advance.

The Japanese, who are meeting desperate resistance, claim the capture of an armoured train and five troop trains. The Chinese are concentrating near Laishussien sixteen miles south west of Chochow while a fierce battle is proceeding near the inner great wall to the west of Peking.

The Chinese mined sea approaches to Hong-Kong, and claim a direct hit by a bombing plane, on a Japanese warship at Shanghai.

DETAILS OF NYN AGREEMENT
PUBLISHED

1. The Italian Government have received
1. a copy of the agreement, supplementary
4. to the Nyon arrangement which was sig-
2. ed on Friday last. Its terms were pub-
1. lished in Geneva on Saturday. In com-
1. municating the text to the Italian gov-
1. ernment, the latter were informed that
1. their practical observation on the
3. second agreement, as on the first, woul
1. be given the closest attention by the
1. Nyon Powers. The new agreement applies
to attack by surface vessels, or air-
craft, upon any merchant ship in the
Mediterranean, not belonging the part-
ies engaged in the Spanish conflict,
2. when such attack is accompanied by a
4. violation of the humanitarian princip-
4. les embodied in the rules of Internati-
2. onal law relating to warfare at sea,
0. as laid down in part four of the Treaty
2. of London of 1930, and confirmed in the
2. London Protocol signed in November las
3. Any surface war vessel which witnesses
0. such attack when engaged in carrying
out the Nyon agreement, is authorised
if the attack is by aircraft, to open
fire on such aircraft, or if the attack
is committed by a surface vessel, to
intervene within the limits of its pow-
ers and if necessary to summon assist-
ance in that task. In territorial
waters, each of the participating Pow-
ers concerned, will give instructions
as to the measures to be taken by its
own war vessel in the spirit of the
present agreement. It is pointed out
that nothing in the present agreement
prejudices the right of any country to
defend its shipping from attack of any
kind, whether such attack is in conflic
with humanitarian principles or merely
illegal.

work of the Non Intervention Powers, which are awaited, include a proposal to end the patrol. The Battleship "Resolution" and two destroyers will keep their present station off the north west of Spain. Flotilla leader "Keith" and two other destroyers which have been on patrol duty there, will join the Mediterranean Anti-piracy patrol. British destroyers hitherto engaged on Non Intervention control on the south coast of Spain will also be released for this more urgent duty. With the addition of the fourth flotilla, now being sent from the Home Fleet waters to the Mediterranean, it is understood that there will be thirty eight destroyers and five flotilla leaders available for carrying out the duties imposed by the Nyon arrangement.

THREATENED ENCIRCLEMENT OF SPANISH GOVERNMENT TROOPS.

Bilbao. The "Sunday Times" Correspondent states that Nationalist forces approaching Gijon hold dominating positions following the capture of Pajares Pass and Villamarin. Thousands of Government troops are threatened with encirclement and the Oviedo-Gijon road is under rifle fire.

"ENDEAVOUR 1" STILL MISSING.

Boston. According to reuter, fog hampers the search for "Endeavour 1" missing since mid-night of last Monday, when the tow rope broke, but it is thought possible that the Captain is navigating the vessel across the Atlantic unaided. Shipping is exercising a close watch as fears for the yacht's safety increases.

Special services were held yesterday in a little Church in Essex, the home of eight of the crew, where hope has not been abandoned.

London. In a speech at Geneva, Mr. Eden said that Britain would spare no endeavour to prevent Europe from being engulfed in war. Recalling the origin of the League, he said that it represented a practical application of the principle generally accepted by all nations in 1919—that war could not benefit either victor or vanquished. This principal was still believed in by the British Government. If wars like the great war could have been avoided, the world would be immeasurably more suitable and prosperous to-day. He said there were still some who did not seem to understand this. Though the League were still able to settle some disputes which might arise between its members he added, it could not render its full service to mankind until all understood this principle. There was no dispute which could not be settled by peaceful means. The British Government, he proceeded, was ready at any time to join in an agreement for a reduction and limitation of armaments, but until that time, Britain must be prepared to defend herself in the British Commonwealth, and to carry out her International obligations. Mr. Eden also dealt with various aspects of the world economic situation and dealing with the question of raw materials, he expressed regret that certain countries which had felt themselves at a disadvantage respecting raw materials, should have been unwilling to take part in the Geneva enquiry. The report recently issued as a result of the enquiry was, he added, receiving the most careful attention and its recommendations were being studied.

He also made a short reference to the Nyon Conference, in which he said they could have wished that all Mediterranean powers had been present at Nyon and that they sincerely regret that this was not possible. A practical plan had to be immediately elaborated by the naval experts, and put into operation quickly. This would not have been possible if negotiations had had to be carried on with countries not represented at the Conference.

S/S "LAFONIA".

London. An important speech by the British Foreign Secretary in which he emphasised that irrespective of their political philosophies the Governments of the world could co-operate in economic rehabilitation provided only that they were willing to show the necessary solidarity on behalf of economic welfare, was a feature of to-day's meeting of the League Assembly at Geneva. He stated that Britain was anxious to see International conditions created in which all nations could have greater opportunities economically, and could hope to raise their standard of life. British help to that end would be willingly and indeed wholeheartedly given if a lasting settlement of the world difficulties, including the indispensable condition of an arms agreement could be reached. But well-being or standard of living such as scientific progress seemed to promise, would only be realised Mr. Eder declared, through economic co-operation.

MR CORDELL HULL ON UNIVERSAL

PEACE

New York. State Secretary, Mr. Cordell Hull, supporting the National Peace Conference campaign, for peace through economic co-operation, declared that a policy of complete isolation, even if practicable, would be ineffective. If the rule of law collapsed in the world, the security of the United States would be seriously jeopardised. He added "We are determined not to thrust ourselves into, nor be drawn into, armed conflict between other nations, but this policy must be supplemented." According to the "Daily Telegraph", Mr. Hull affirmed that the United States must contribute towards creating conditions upon which universal peace could be maintained. The way to peace was not aggression, but through armament limitation, non-interference in other nations affairs, respect for agreements and economic co-operation. Economic betterment offered the best hope, as prosperous people were not easily incited to strife whereas needy nations were more ready to gamble with force.

ITALY AND ANTI-PIRACY CONTROL

Rome. An official cominque announces that the Foreign Minister, Count Ciano, received the British and French Charges d'affaires and informed them that Italy would co-operate in the Anti-piracy patrol on condition that her fleet was accorded absolute parity with the British and French. The cominque added that Germany had been informed of the reply.

The "Daily Telegraph" Correspondent states that optimism prevails regarding the possible arrangement for Italy to participate in the patrol.

FRENCH FINANCE

Paris. Reviewing the financial economic situation, the Prime Minister, M. Chautemps, remarked that the foreign trade adverse balance called for urgent measures and expeditious

production. He added that a vast impartial enquiry would conclude within a few days, and would probably advise factory rationalisation and labour reorganisation. Employers and workmen must accept the necessary changes.

According to the "Daily Telegraph" Correspondent the Premier announced that the Finance Minister, M. Bonnet, would submit in two days time, the Budget, "In broad equilibrium, taking account of the resources needed to satisfy life necessities". Thanks to investors support, M. Bonnet would meet without difficulty, the enormous Treasury liabilities for October. Referring to the Franc collapse, the Premier believed that a calm will soon follow the "Squall." The situation had slightly improved during the last two months and the retail prices increase had not exceeded four per cent since July 1st.

FOREIGNERS REQUESTED TO LEAVE NANKING

Shanghai. Sixty three aeroplanes are reported to have been engaged in the biggest aerial battle of the Chinese war, when the Japanese attempted to bomb Nanking. It is believed that about four machines were brought down on each side, while little damage was caused by the two raids.

The Japanese Naval authorities have requested foreigners to leave Nanking by noon to-day, when bombing will commence in order to conclude the hostilities by destroying China's chief war base.

One thousand five hundred American marines arrived at Shanghai where valuable British property has been damaged in a Chinese air raid.

ATTEMPTED SEIZURE OF SPANISH SUBMARINE

Brest. The Commander and the eleven men from the Spanish Government submarine C4, undergoing repairs at Verdon, boarded submarine C2, being repaired here, and endeavoured to seize it for the Nationalists.

The attackers, who said they had turned Nationalist, attempted to bribe the Commander, subsequently overpowering him and the skeleton crew. The vessel was unready for sea and while the attackers hesitated, a sailor fired from the conning tower, killing one, while the others fled. Six were later arrested near Bordeaux.

According to the "Daily Telegraph" Correspondent, the Nationalists anticipate prolonged operations against Gijon, owing to the mountainous country and bad weather.

and the forswearing of economic Nationalism. For such cooperation, there must be agreement that economic well-being was the real objective of policy for, "The possibilities of economic action are circumscribed by the political situation and if non-economic considerations are allowed to over-ride economic requirements, no programme of general International cooperation can be brought to fruition." Mr. Eden

characterised as a fact of the greatest importance, the consistent policy of the United States Government, in favour of the reduction of trade barriers, under the leadership of President Roosevelt and Mr. Cordell Hull.

In the part of the speech devoted to political affairs, the Foreign Secretary instanced the re-armament programme forced on the British people by the deterioration in the International situation, as an example of the way in which failure of people of the world to make effective their universal will for peace, had its results on those not engaged directly, or indirectly, in the conflicts of the moment. Britain had four hundred and fifty thousand tons of war ships under construction. The last three naval programmes represented an aggregate expenditure of one hundred and thirty million pounds. Naval personnel was being expanded at a rate without precedent in Britain in the time of peace. The British air force was being expanded and re-equipped with formidable results and the army also was growing in strength with ever increasing momentum. Yet, the League stood for the principle generally accepted in 1919, that war did not benefit either victor or vanquished. That remained, Mr. Eden declared, the attitude of Great Britain. "We believe war to be both wasteful and futile, to confer no permanent benefit on the nation that wins or the nation that loses." Great Britain believed there were no disputes that could not be settled by Pacific means, and was determined in its policy always to seek such solution.

To be concluded to-morrow.

MR. EDEN'S SPEECH AT GENEVA.

(Continued.)

"We are prepared to join in any International agreement for the reduction and limitation of armaments, but I will state solemnly, that all sections of our people are determined to authorise such expenditure as may be necessary, on the armaments for the defence of our people and Commonwealth and our obligations under the authority of the League".

Turning to the question of the far East, Mr. Eden expressed horror at the appalling loss of life occasioned by the Sino-Japanese hostilities and reminded his hearers that all efforts by Britain and all other third parties to avert this had failed. If cooperation had succeeded, these sufferings would have been avoided, to say nothing of the harm done to trade.

In reference to Spain, the Foreign Secretary said there had been glaring breaches of the Non Intervention agreement, but if the Non Intervention policy were abandoned, Europe would be swept into deep and more dangerous waters.

"One pledge I will give this Assembly. The Government I represent will spare no endeavour to prevent war in Europe."

A Geneva message states that the League Assembly elected Peru and Iraq, yesterday afternoon, to the League Council, in succession to Chile and Turkey. The election for the third vacant seat will be held towards the end of the week.

SEAPLANES LEAVE PEMBROKE DOCK
FOR THE MEDITERRANEAN.

London. Five giant Singapore seaplanes of No. 210 Flying boat squadron left Pembroke Dock yesterday morning for the Mediterranean to take part in the Anti piracy patrol. In view of the hostilities in China, more particularly in the Shanghai area, the Federation of British Industries has decided to convene a meeting of certain firms with large interests in China, to consider the situation. The lodging of claims at the proper time, will be one of the matters for consideration.

BRITISH AND FRENCH EMBASSIES TO
REMAIN IN NANKING.

Shanghai. Replying to the Japanese Commander's request that foreigners and warships leave Nanking before the threatened large-scale bombing commences, the British and French Embassies have informed Admiral Hasegawa that they will not leave, and will hold Japan responsible for any damage or loss of life. The United States Ambassador boarded a gun boat which moved ten miles up stream but the State department in Washington announced that the withdrawal is a temporary measure, not constituting abandonment of the Embassy, as regards diplomatic relations with China.

According to the Daily Telegraph Correspondent most foreigners have already left the city. British gun boats are evacuating women, but the men are remaining. Fifty four Japanese planes bombed the city and the Chinese claim that five raiders were brought down. The population is strictly drilled in air raid precautions and the city is being defended by modern anti-aircraft equipment, while buildings are rendered almost invisible at night.

It is believed that the seat of the Government will be removed from Nanking.

SUSPECTED CONNECTION BETWEEN
PARIS BOMB OUTRAGES AND ATTEMPTED
SUBMARINE SEIZURE.

Paris. The French police believe that the attempted seizure of the Spanish submarine C2 at Brest, is connected with the Paris bomb outrages of September 11th, when the premises of the French Industries Federation and Ironmasters were severely damaged. According to the "Daily Telegraph" Correspondent the man killed in the submarine incident, and one of the six subsequently arrested near Bordeaux, were wanted for questioning regarding the bombing. Police on the watch for the car, stopped it without knowing of the Brest incident. The car contained the Captain and the third engineer of the submarine, who were carried off by the raiders.

THE FRENCH BUDGET FOR 1938.

Paris. Reuter states that the Finance Minister M. Bonnet, in a Broadcast speech stated that the 1938 budget shows an excess revenue over expenditure, amounting to one thousand six hundred million francs. Part of the surplus is being earmarked for the reduction of next year's borrowings, and a sinking fund is being created to liquidate the four milliard francs public debt. M. Bonnet added that increased railway rates had not reduced traffic. Taxation returns were satisfactory, while savings deposits were considerably increased. He concluded, "We are determined to remain faithful to the policy of friendly co-operation with the United States and Britain."

STOCK EXCHANGE SECURITIES
ADVERESLY AFFECTED.

New York. A nervous condition continues at Wall Street, and a severe liquidation spell was experienced owing to selling orders from Paris. Prices later recovered, but the recent decline has caused a noticeable reduction of business, especially in steel, of which production is now only seventy one per cent of capacity. The value of Stock Exchange securities has dropped nearly twenty million dollars since March, of which, about seven thousand five hundred million were lost in the last fortnight.

PROBABLE PARTICIPATION OF ITALY
IN ANTI-PIRACY PATROL.

London. Reports from various centres show the prospect of early developments in connection with the Mediterranean Anti-piracy police scheme, on the lines for which British and French Governments have consistently worked since before the Nyon Conference. In a speech at the League Assembly on Monday, the British Foreign Secretary recalled the circumstances in which it had become imperative to deal urgently with the lawless attacks on shipping in the Mediterranean, and the regret

of the British Government that all the Mediterranean powers had not felt able to attend Nyon. The Conference had had to work under those unfortunate limitations but nevertheless had achieved a workable and complete plan which was already in operation. Mr. Eden added, "The Nyon arrangement contains provisions for its reconsiderations, and the British and French Governments and I make no doubt that the other signatories also, will certainly be at all times ready to consider all suggestions that may be put forward in this connection." Meantimes, on Sunday the Italian Foreign Secretary had asked the British and French Chargé d'affaires to call upon him, and it is understood that Count Ciano, in the course of the interview, made a verbal statement to the effect that Italy was anxious to cooperate in the naval patrol scheme. The reservations which the Italian Government entertains regarding the Nyon arrangement, were further clarified in terms which were published in Rome, as a communique. On the strength of Count Ciano's verbal statement to Mr. Ingram and Monsiemo Bichdel, the British and French Governments have now suggested a meeting of technical experts in Paris at an early date, to discuss possible modification of the patrol scheme, which might be recommended in case of the participation of an Italian naval contingent. Modifications such as experience or circumstances might suggest, were explicitly provided for in the Nyon arrangement itself. Press messages from Rome state that a communique has been issued there officially announcing that Italy has agreed to participate in the policing of the Mediterranean under the Nyon arrangement, while Paris messages speak of the confident expectation in French circles, of an early meeting of naval experts, to examine practical conditions on which the Italian navy can take part in Anti-piracy work.

ATTEMPTED RESCUE OF MAJOR TRONCOSO.

Paris. Following the arrest at Hendaye on Tuesday of the Spanish Insurgent Commandant, Major Troncoso, reports from Malaga state that the French Consul is confined to his home by the local authorities. Major Troncoso is now in Bayonne prison and was visited yesterday by his wife. An unconfirmed report Biarritz gives details of an Insurgent raid across the border, in an attempt to rescue the prisoner, but this was checked by a strong display of armed force.

PROBABLE PARTICIPATION OF ITALY IN ANTI-PIRACY PATROL.

(Continued from yesterday.)

The desire of British and French Governments that Italy should assume her natural share in the responsibilities of the Mediterranean powers for securing respect in that sea, for rules of International law and the principles of humanity, has been repeatedly voiced by Mr. Eden and M. Delbos.

Representations have been made in Tokio by the British Ambassador regarding the threatened bombardment from the air, involving other than military objectives in Nanking. It has been made clear that the British Government reserves the right to hold the Japanese Government responsible for any damage to British lives or property.

A communique issued Monday states that the International Non-intervention Committee have approved of the proposal that the International Board be authorised to give immediate effect to certain recommendations of an administrative character, designed to improve and strengthen the efficiency of the observation scheme, which were made by Vice-Admiral Van Dulm, the Chairman of the Board. The first group of recommendations relate to certain improvements of sea control, in order to reduce inconvenience to ship owners caused by the obligations imposed upon them under the scheme. The second group relates to certain improvements, which experience has shown are urgently required, in the conditions of service and the remuneration of certain classes of the International staff employed by the Board.

JAPANESE REPLY TO BRITISH PROTEST.

London. News has been received here of the reply of the Japanese Government to the British note on the wounding of Sir H. Knatchbull Hugessen, which was handed to His Majesty's Ambassador in Tokio on Monday.

ITALY TO JOIN MEDITERRANEAN PATROL.

Rome. The Daily Telegraph report the official announcement that Italy has agreed to enter into discussions on the Nyon compact for setting up an Anti-piracy patrol in the Mediterranean and British, French and Italian naval experts will meet in Paris at an early date, to discuss the technical details whereby Italy may join the patrol. The announcement, was made subsequent to two meetings between the Italian Foreign Minister Count Ciano, and the British and French Charges d'affaires, Mr. Ingram and M. Blondel. The meeting will probably take place at the end of this week, but there is no probability of the Nyon principles being altered. London diplomatic circles are confident that Italy will be admitted to full naval air cooperation with France and Britain.

=====

AMERICA LODGES STRONG PROTEST TO JAPAN.

Shanghai. Bad weather prevented the Japanese from carrying out the threatened bombing raid on Nanking, while the British, American and other Embassies officials who were warned to leave, by the Japanese, have not done so states the Daily Telegraph Correspondent. A Washington message reports that State Secretary Hull announced that vigorous representations have been made to Japan, that her bombing threat to non-combatants, was outside the International law, while duplicate protests made in Tokio by the Ambassador grew, and by state department to the Japanese Ambassador in Washington. Peiping reports an air raid on Paotingfu, and from Hong-Kong it is learned that Canton was bombed for two hours in the early morning, resulting in heavy native casualties, when the Shameen gates were closed to prevent the panic stricken rush to the European quarter. Tokio claims further advances in the Shensi province, while the Chinese are retreating in the Suiyan Sector.

=====

GOVERNOR OF IRUN ARRESTED IN
FRANCE

Saint Jean de Luz. The French frontier is in a ferment following the detention on French soil, of Major Troncoso, Military Governor of Irun, and the head of the Spanish Insurgent Intelligence Service. Major Troncoso was detained on his return from a visit to Brest, and formally charged with theft, the material involved is understood to be correspondence and documents. The matter is linked up with the alleged complicity of Major Tronco's chauffeur in a raid on the Spanish Government submarine C2, at Brest on Saturday. Additional mobile guards have been drafted to Hendaye, while frontier feeling is, that attempts may be made to release the Major, and grave consequences are feared. The Paris police are now convinced that the recent bomb outrages were perpetrated by Spanish terrorists, with all plots connected and hatched at Irun.

DISCUSSIONS BETWEEN BRITISH
AND AMERICAN TREASURY OFFICIALS

Washington. The British Treasury official, Sir Fredrick Phillips, and the United States Treasury Secretary, Mr. Morgenthau have resumed discussions on International financial matters, with the British Embassy representatives and State Department economists present. War debts were not discussed but the Treasury announced that the conversation were cordial and pleasant. The New York Times, commenting on Mr. Eden's Geneva speech, says that his references to the United States were unusually cordial in the admiration of President Roosevelt's and Mr. Hull's campaign against International Trade barriers, which suggests prospects for an Anglo American trade agreement, brighter than the public believes.

TRIBAL RIOTS IN TANGANYIKA.

Nairobi. Over one hundred natives were arrested in the Moshi district, Tanganyika, following tribal riots against the native Marketing

Union. Extra police were drafted in and Royal air force planes are cooperating in patrols of the disaffected areas.

NEWS IN BRIEF.

Valencia. A Government communique claims advances north of Cordoba, and the repulse of Insurgent attacks in the north. Salamanca makes counter claims of repulsing the Cordoba attacks, with eight more villages captured on the Asturias front. Madrid was subjected to a half hour of shelling, with the former Royal Palace as the apparent objective,

JAPAN'S REPLY TO THE BRITISH PROTEST

London. The texts are published of the note from the Japanese Government regarding the wounding of Sir H. Knatchbull Hugessen which was handed to the British Ambassador in Tokio on Tuesday, and of the British reply. The Japanese note admits that on the afternoon of August 26th, two Japanese planes machine-gunned and bombed two motor cars which, it is stated, they believed to be Military buses or trucks carrying officers or soldiers of the Chinese army, at a certain point south east of Kating, between Shanghai and Nanking. This point differs from the one at which the attack on the British party took place according to the evidence of those accompanying the Ambassador, but the note goes on to point out the discrepancy in various reports as to the position, and says "In the light of all these circumstances, the Japanese Government consider that the incident may have been caused by Japanese planes which mistook the Ambassador's motor as a military bus or truck. As the wounding of the Ambassador may thus have been due to the action, however involuntary, of Japanese aircraft the Japanese Government desire to convey to His Britannic Majesty's Government the formal expression of their deep regret. As regards the question of the punishment of the aviators concerned, it is needless to say that the Japanese Government would take suitable steps whenever it was established that Japanese aviators killed or wounded intentionally, or through negligence, nationals belonging to a third country. As stated in the Interim note of September 6th, instructions had been sent again to the Japanese forces in China to exercise the greatest care in safeguarding non-combatants, it being the desire and policy of the Japanese Government to limit as far as this can possibly be done, dangers to non-combatants resulting from the existence of hostilities in China".

The following reply of His Majesty's Government was handed by Sir Robert Cragie, to the Japanese Minister for Foreign affairs, yesterday, "I have the honour to inform your Excellency that I duly communicated to His Majesty's Government in the United Kingdom, the terms of the note which

Your Excellency addressed to me on the 21st inst, regarding the attack on His Majesty's Ambassador in China, by two aeroplanes in the neighbourhood of Shanghai, on the 26th August last. I have now received instructions from His Majesty's Government to state that they have received this communication with satisfaction and regard the incident as closed".

BRITISH INSTRUCTORS FOR TURKISH AIR FORCE

London. The Turkish Government have engaged two British Air Force officers, Wing Commander A.S.G. Lee and Squadron Leader S. Mc. TERRIBLE AIR RAID ON CANTON
Appalling Loss Of Life

London. Under headings such as "Most frightful air raid of all." "People go mad with terror." "Japanese warplanes swoop down on civilians," "Streets choked with dead." "Thousands dead in worst air raid." "Canton air raid havoc." "Japan shatters Canton", London Evening papers print eye witness accounts of yesterdays attack on Canton by Japanese bombers. While messengers emphasise that estimates of the terrible casualties among non-combatants are unofficial and will not be confirmed for a considerable time, all agree in the statement that no military objectives suffered.

NATIONAL GOVERNMENT PROMISED
SUPPORT OF THE UNIONIST AND
CONSERVATIVE PARTY

London. The first resolution to be moved at the sixty fourth Annual Conference of the National Union of Conservative and Unionist Association which opens at Scarborough on October 7th, congratulates the Prime Minister and the National Government on the continued improvement in industry and employment and thanks them for the steps they are taking for the preservation of the country's security and the maintenance of peace. It also assures them of the wholehearted support of the Conservative and Unionist party. The Prime Minister will address a mass meeting in connection with the conference on the evening of October 8th.

Shanghai. In fulfilment of an earlier threat which the Japanese made, three successive air raids were carried out on Nanking but, according to British observers it is reported by the Daily Telegraph Correspondent that little damage was done owing to the Chinese defences and fighters compelling the attackers to maintain a great height. The correspondent adds that the Japanese are preparing to carry out daily bombing of the Chinese capital until the city suffers total destruction, and they have sufficient material for dropping fifty tons of bombs daily, for a fortnight. Canton reports five air raids causing widespread destruction and loss of life. The Nanking raids were witnessed by British officials from a gun boat in the river, who stated that the only hit of importance was on the Headquarters of Kwomintang which was partially wrecked. The Chinese admit the loss of two planes and claim the destruction of four Japanese machines. Washington sent a second sharply worded protest to Japan against the Nanking bombing, as being contrary to law and humanity, whereby civilians were endangered, and which the United States press describes as unprecedented barbarism. Paris reports that a similar protest has been made by France. According to Tokio messages Japanese advances in the north will complete the control of Lopei province, before the week end, but in the Shanghai area the Chinese remain confident of holding the defence lines against attack although the Soochow railway station has been wrecked by bombs.

RISE IN PRICE OF SCRAP METAL.

New York. With Japan eliminated from the market, big purchases of iron and steel scrap by the European Cartel, are reported by the "Financial Ring" Correspondent. Orders for 258,000 tons were placed within the last few days, in addition to half a million tons last month, but the price shows an advance of two dollars and fifty cents. It is understood that Britain, Italy and Poland are taking the bulk of the consignment.

ITALY WELCOMES NEW ARRANGEMENT

London. According to the Daily Telegraph Correspondent from Geneva, Franco-Italian contracts have been made in connection with the Nyon agreement, when assurances were given on both sides. Some reports the cordial reception of the new arrangement whereby Italy is accorded parity in the Mediterranean arrangements and easy and quick decisions are forecasted. Paris also approves, and gives credit to the British Premier, Mr. Chamberlain, while it is believed that political circles regard the step as a pleasant symptom of improved European relations.

NAVAL EXPERTS TO MEET ON MONDAY

London. Assurances, that Italy would send no more "Volunteers" to Spain, similar to those which it is understood were given to Monsieur Delbos at Geneva by Signor Bovas-coppa, were it is learned, confirmed in Rome on Wednesday by the Italian Foreign Minister, to the British Charge d'affaires. The British Government have been kept informed of the conversations between the Italian Permanent delegate at Geneva, and the French Foreign Minister, and in London these exchanges and the prospects they hold out of Franco-Italian discussions which might lead to wider agreements on Spain, are naturally welcomed. The Nyon arrangement, in which it is hoped that Italian collaboration will now be forthcoming, has made an important contribution towards restoring the situation at sea resulting from the Spanish conflict and it should be possible as a result to take up again the question of the importance of which the British Government have never ceased to lay stress, namely the withdrawal of foreigners engaged on either side in the Civil war in Spain. If friendly discussions between French and Italian Governments can make easier the progress on this question, the view in well informed circles in London is that the way would be opened up for a distinct advance in general European appeasement.

next. At the same time, there is no disposition to under-rate the difficulties still to be overcome. But difficulties become less formidable when tackled with goodwill and it is in that connexion that London sees the potential importance of the developments of the last few days.

The British naval experts for the Paris technical talks under the Nyon arrangement, will leave London during the week end, and conversations with the French and Italian experts will open on Monday. The British delegates are Vice Admiral Sir William James and Captain T. Phillips, accompanied by Paymaster Captain Pertwee and Commander Robuck. The experts are to study the necessary modifications to the arrangement already in operation, to allow of Italian participation.

ANGLO-FRENCH TRADE AGREEMENT

London. By the exchange of notes published yesterday, the British and French Governments have made an agreement whereby unprocessed raffia produced in French Colonies, Protectorates or Mandated Territories will enter the United Kingdom duty free, while coffee from British East Africa and Kauri gum from New Zealand will be exempt from sur-tax d'entrepôt in re-exportation to France from the United Kingdom.

MILITARY APPOINTMENT

London. Colonel Sir Roland F.A. Adam, Commander of the first division of Royal Artillery, has been appointed Commandant of the Staff College at Camberley, succeeding Lieutenant General Viscount Gort and has been granted the temporary rank of Major General.

THE TABERNACLE.

Thursday. (Boys)

Last Thursday the children gave a delightful concert, in the schoolroom, before a crowded audience. Included in the programme were songs, recitations, accordion solos, sketches and a selection of music by the "Chatter-box Band". To conclude the programme all the children who had taken part, sang the chorus "Keep me shining Lord". The Rev. W. F. McWhan wishes to thank all who came along to hear the children, and by their presence, helped to make the concert a success. The door receipts amounted to £5-14s.

LAUNCHING OF TWO LARGE LINERS.

London. Two large liners were launched on Thursday. The "Capetown Castle", the largest vessel to be launched in the United Kingdom since the launching of the "Queen Mary", was named at Harland and Wolff's Belfast yard by the Mayor-ess of Capetown the Mayor and she had travelled from Capetown for the ceremony. Mrs. Low christened the vessel with a bottle of South African wine. The liner, which is of 26,500 tons register, is the largest vessel which the Union Castle Line has yet commissioned and has accommodation for 292 first class, and five hundred cabin class passengers. Almost simultaneously at Vicker Armstrong's yard at Barrow the new F & O liner "Strathallan" was launched, the ceremony being performed by the Countess of Cromer.

CANTON HEAVILY BOMBED.

Hong Kong. The most devastating air raid in military history was staged by the Japanese when Canton was subjected to intensified bombing by forty planes, reducing the poorer quarters of the town to shambles, with three thousand persons being killed within fifteen minutes, states the Daily Telegraph Correspondent, who adds that in no case was any military or Government station hit, Chinese fighter planes, hopelessly outnumbered, put up a gallant fight while in the city sirens warned the population to seek shelter, with the main concentration on the bund where there was comparative safety. Within the city houses collapsed under explosions, burying inhabitants, and fires started by incendiary bombs, rapidly spread. The streets were piled with dead and according to Reuter many inhabitants were driven mad by terror. Preliminary estimates of the casualties are indefinite and there is no possibility of arriving at appreciable facts for a long period. Nanking reports that another raid was intercepted and fifty bombers repulsed, but the Japanese claim hits on forts and naval units. According to a

Washington message, the signatories of Nine power pact are exchanging information relative to their respective activities but so far the United States shows no intention of taking steps for invocation of the treaty.

MADRID AGAIN SUBJECTED TO HEAVY SHELLING.

Valencia. The Government claims advances on the Huesca front, with encirclement of Insurgent positions in the vicinity of Gallego river but Insurgent successes are admitted on the Badajoz and Cordoba borders, with further advances on the Leon front. Madrid was heavily shelled on Thursday night.

FURTHER DECLINE IN WALL STREET BUSINESS.

New York. Wall Street suffered another sinking spell, when there was heavy liquidation in the last hour of trading after a dull session states the Daily Telegraph Correspondent. Business was so active on the decline that the trading volume in the last hour was more than in the previous four hours. The total losses touched four dollars by pivotal issues and the market closed weak with the decline ascribed in part to Mr. Morgenthau's hint relative to possible Anglo-American cooperation on "Hot money" and the potentiality of taxes on foreign investments.

GENERAL FRANCO EXPELS FRENCH RESIDENTS.

Bordeaux. The Spanish Insurgent, Major Troncoso, was conveyed under police guard to Brest, the scene of attempted submarine seizure, and the Surete Nationale identifying him as Commandant Sagraña are investigating certain coincidences in respect of the recent bomb outrages. Leftwing press asserts the Spaniard Montes, concerned in the submarine incident, is Marquis Delinares who is a personal friend of Franco and millionaire

March who crossed the frontier into Spain. France has made a protest against detention of the Malaga Consul, M. Desmartins, while the Insurgents have now refused the entry into Spain of the Saragossan Consul, M. Tur. A St Jean de Luz message states that General Franco expelled seven French residents from San Sebastian, meanwhile, frontier precautions at Hendaye are being intensified.

IL DUCE'S SON VISITS HOLLYWOOD.

New York. Signor Mussolini's son, Vittorio, en route for Hollywood was smuggled ashore at a Quarentine station by the police to avoid a pierhead assembly of cheering Fascists and hissing Communists awaiting the arrival of the liner "Rex".

MR. SOPWITH'S "ENDEAVOUR 1".

London. The news that "Endeavour 1" had been sighted off the Azores has proved incorrect and Lloyds have requested their local agent to clear up the mystery. The master of the vessel, to whom the first report was imputed, denies all knowledge of the report.

H.R.H. THE DUKE OF WINDSOR'S FORMER CHAUFFEUR CHARGED AT BOW STREET COURT

London. The former chauffeur to the Duke of Windsor, G.O. Ladbroke, was acquitted at Bow Street on charges relating to disorderly conduct, the accused stated that he became excited and objected to allegations against His Royal Highness, made by a street speaker at a meeting at Charing Cross Road. From the Dock, Ladbroke said that the speaker's allegations were nonsensical and untrue.

BRITAIN PROTESTS STRONGLY AGAINST JAPANESE BOMBING

London. Instructions were being sent yesterday to Sir Cragie, the British Ambassador in Tokio, to make strong representations to the Japanese Government concerning the bombing of non military objectives and expressing a horror felt in Great Britain at the deplorable loss of life among the civilian population caused by the bombardment of Canton.

BRITISH TRADE INTERESTS IN SPAIN

London. Questions relating to British Trade interests in Spanish territory under the control of General Franco, have been under consideration by the British Government for some time and it is expected that a communication on this subject will be addressed to the Salamanca authorities.

INTERVENTION IN SPAIN Tripartite Discussions Proposed

London. Instructions were sent yesterday to Mr. Ingram, His Majesty's Charge d'affaires in Rome, to tell Count Ciano that His Majesty's Government had been fully informed of the conversation in Geneva between Monsieur Delbos and Signor Bonascompa and to explain that His Majesty's Government were in full agreement with the proposal made by M. Delbos that steps should be taken by means of Tripartite discussions between the British, French and Italian Governments to deal with the problem of intervention in Spain.

CEYLON TEXTILE QUOTAS CAUSE DISSATISFACTION IN LANCASHIRE

London. Arrangements have been made for the Colonial Secretary and the President of the Board of Trade to interview jointly a deputation from Manchester on October the 8th next. The deputation wishes to raise matters connected with textile quotas in Ceylon. Modification of the quotas announced a few weeks ago in Ceylon state the Council, have been the subject of strong criticism among cotton manufacturers in Lancashire.

THE WELSH COAL MINERS AND NON-UNIONISM

Swansea Cooperation between the Welsh coal owners and the miners is being introduced in October, whereby some 14,000 men over non-unionism may disappear, since such threats adversely affect the markets and hamper the forwarding trade. The owners will confer on measures to deal with the Non Unionism, and the miners welcome this step.

LABOUR TO CONTEST BOROUGH SEATS IN NOVEMBER ELECTIONS

London. Labour is preparing a great effort to increase its hold on the Borough Councils and according to the Party Secretary, Mr. Morrison, practically every seat in every borough will be contested at the November elections in an endeavour to "stimulate civic life."

BRITISH SURVEYORS TO STUDY GERMAN MOTOR ROADS

Berlin. Approximately sixty M.P.s with Representatives of sixty County Council, Road Surveyors and Engineers arrived for a one thousand mile tour of German motor roads. The arrangements were made by Committees of the British Automobile Association, the R.A.C. and the Road Federation, and the party will make an especial study of the claims that the new German roads make for safety. Many official functions are scheduled.

U.S. PRESS SEVERELY CRITICIZES JAPANESE BOMBING

London. Sequential to the British protest to Japan relative to bombing of non-military objectives Nanking, Canton, the United States, France, Russia and Italy, made representations to the Japanese authorities states the "Daily Telegraph." New York messages indicate a rising tide of anti-Japanese feeling and editorial comments become increasingly frank

and hostile, with the Japanese bombing described by the "Herald Tribune" as "literally undefendable return to brutal barbarism" while the New York Times says that every bomb destroys something of the decreasing friendliness and admiration for Japan. A Tokyo announcement says that Japan will not participate in League discussions relative to the Sino-Japanese affair, but reaffirms a policy of cooperation while opposing intervention by third parties. The Government reply to the International protest being drafted, is taking the line that the Japanese warning of the Nanking bombing was not based on International law but was merely an expression of goodwill. Hong Kong reports the bombing of Hankow, with one hundred persons killed and two hundred injured.

SPANISH GOVERNMENT SUCCESSSES

Madrid. The Daily Telegraph Correspondent states that the Government activities centered about the Aerodrome region met with success by the capture of Buzarr and Secuer, while Gavin was surrounded and the Thaeres Pass is still being held against attackers. The Toledo arms factory was shelled without apparent result. Toledo, suffering daily bombardment, awaits insurgent relief which is now twenty six miles south of Gijon, and while water is scarce, food remains plentiful.

U.S. STOCK EXCHANGE

New York. Wall Street remains in an insecure position being under a heavy selling barrage with declines so severe that many leading stocks touched a six points loss. Traders are completely bewildered since no news has been received to account for the slump, while short selling from London accelerated the decline.

London. In connection with the National Health Campaign which the Prime Minister will inaugurate on Thursday next. The Minister of Health and The President of The Board of Education have sent the following message to all local authorities. "Over a number of years, and particularly in the three last decades, we, that is the government, local authorities, voluntary organisations, workers, and the medical and allied professions have been building up a network of Health Services which is probably unequalled by any other country today. Some of the services are undoubtedly not being used to the extent which we should all desire. For this reason, the Prime Minister is launching a National Campaign to appeal to all, and especially to parents and others who have charge of children, to see that everyone has the fullest opportunity of benefiting by the numerous health facilities at his call and is in this way helped towards a healthy and happy life". A Poster and General publicity campaign has been planned over the next five months.

NEW AMPLIFICATION SYSTEM AT WESTMINSTER ABBEY.

London. A new system of amplification was to be in use for the first time at the ordinary services at Westminster Abbey yesterday. The new Coronation organ will also be used for the usual services for the first time.

THE CONSERVATIVE MEETING IN WALES.

London. Newspapers forecast that the Conservative Mass Meeting at Llandudno on October 15th, which to be addressed by Mr. Anthony Eden, will provide one of the biggest audiences to which the Cabinet Minister has ever spoken outside London. Applications for tickets alone exceed eighteen thousand and special arrangements are being made to relay the speech to other halls, and a large open space near by.

WEMBLEY DISTRICT BECOMES A BOROUGH.

London. The Wembley District of the north west of London, which is known the world over as the site of the Great Empire Exhibition of 1924 and of the Empire Stadium and the scene of many annual athletic and sporting events, has been incorporated as a borough, and the charter will be handed to the Charter Mayor by the Lord Mayor of London at the end of next week.

GREATER FACILITIES TO BE OFFERED BY BRITISH POST OFFICES.

London. An interesting departure in the continuation of the Series of changes which the Post Office has been making in recent years with a view to a closer understanding with the public it serves, was announced tonight by the Public Relations Officer, Lieutenant Colonel Cruitchley, in a speech at the Conference in Cambridge, of the Association of Special Libraries and the Information Bureau. It is proposed to include in all the new Post Offices, and in existing offices as opportunity offers, a separate room comfortably furnished, where in an unhurried and pleasant atmosphere the public can seek and obtain information about Post Office services. The Post Office information service in the London area will also be strengthened by the establishment of a Central Bureau with which enquirers can get into touch by telephone.

L.C.C. EVENING INSTITUTES.

London. Nearly four hundred different subjects are covered in the winter programme of the London County Council's Evening Institutes, which open a new term to day, with nearly twenty thousand classes. Enrolments are expected this year to pass the 250,000 mark. There is no age limit for classes and the fees are very low, averaging about a shilling per lesson.

MEETING OF NAVAL EXPERTS.

London. A Paris message reports that the British, French and Italian naval experts met yesterday at the Ministry of Navy in Paris. The following official communique was issued later in the day, "Technical naval conversations regarding the Italian participation in the Nyon Mediterranean Agreement, began this afternoon. Monsieur Campinchi, Minister for the Navy, presided at the opening of the sitting, and after welcoming the British and Italian delegates, specified the purely technical character of the work of the experts and expressed the best wishes of the French Government for its success". A later statement issued after the adjournment of the meeting, which lasted for two hours, said, that the experts met to study the best practical manner of assuring the collaboration of the three navies in the protection of shipping in the Mediterranean against piratical attacks, and that to-day's session was devoted to elucidation of the problem, and the preliminary exchange of views between the representatives of the three Admiralties. The experts were to meet again this morning.

MR. SOPWITH'S YACHT FOUND.

London. For the second time in the week, the Lutine Bell - which announces to the Assembled Insurance Brokers the finding of a vessel - was rung at Lloyds yesterday, in connection with the racing yacht "Endeavour 1" which was lost after the parting of her tow line in the Atlantic in a storm thirteen days ago, less than two hundred miles off the American coast, on her way home from the United States. The small sailing craft, which had a crew of nineteen, was sighted yesterday morning, by the Newcastle tanker "Cheyenne", two hundred and sixty miles south west of Malinbeg, Ireland. The crew's condition is unknown. The news has come as a great relief to the relatives after the cruel disappointment of last week's false report, of finding the lost yacht.

MR. MC DONALD TO BENEFIT UNDER LATE FRIEND'S WILL.

London. The personal estate of Sir Alexander Grant, the Scottish philanthropist who started his life as an orphan boy, and finished at the head of a great firm of biscuit manufacturers, and who died last May, has been proved at £1,039,975. The bequest includes £40,000 upon Trust, to pay an income to Mr. Ramsey Mc Donald, who was a very old friend of Sir Alexander's. The residue of the estate will accumulate for ten years on Trust, for the benefit of heirs but in the event of their predecease will revert to a National Library for Scotland.

PROGRESS OF POST OFFICE UNDERGROUND RAILWAY.

London. Ten years after its opening in 1927, the Post Office Underground Railway, built at the cost of £1,750,000, to expedite the transmission of mails, is justifying the foresight and faith of the committee, which recommended it in 1909, by carrying an annual burden of 6,500,000 letter bags and 4,000,000 parcel bags, equivalent in relief of street congestion, to 750,000 motor van miles. Situated seventy feet below the streets of London, the Railway operates automatically - its driverless trains carrying their loads of letters and parcels by day and by night, at an average speed of twenty five miles per hour. The Railway is six and a half miles long and has stations, each connected with the Post Office buildings, or the main line Railway station above. Each station is provided with an up to date plant for the speedy conveyance of mail bags to and from the surface premises. During the busy night periods a continuous three minutes service is maintained. When running, the trains are under automatic control and arrangements of a 'dead conductor rail' section, between any two trains, obviates all possibility of collision.

SIGNOR MUSSOLINI IN GERMANY

Munich. Current reports suggest that Signor Mussolini is seeking to conclude an Italo-German Military Alliance, which is opposed by the German army and the more Conservative Nazi Elements, but Sunday's conversations may result in a non-aggression pact, which is open to other Fascist States. Il Duce carries a report on the Catholic's position in Germany and according to the Sunday Times Rome Correspondent, His Holiness the Pope is relying upon him to influence Herr Hitler on the question of Christianity in Germany. London diplomatic circles consider that the talks will have little influence on the European situation, with Herr Hitler unlikely to support any further Spanish intervention, and Signor Mussolini adhering to the Austrian Independence Policy.

CONTEMPLATED BOYCOTT OF JAPAN

Tokio. The British protest to Japan, which was in the strongest terms, expressing horror at the civilian fatalities caused by the Canton bombing, was formally presented by the Ambassador, Sir Robert Cragie, acting on London instructions. In many European quarters the Boycott of Japan is unofficially considered, but a Reuter message from Sydney states that the Trades Labour Council has already initiated a campaign to this end. In Washington, the Chinese Ambassador Wang denounced Japan's cruel and outrageous activities at the press conference and the text will be conveyed to States Secretary Mr. Cordell Hull. The Japanese Embassy

spokesman in Shanghai, deploras the world impressions of Japan's indiscriminate bombing adding that only Military objectives were attacked, while from Peking, Japanese sources are making veil suggestions that a means for the halting of hostilities would be welcome.

MORE NON-COMBATANT CASUALTIES IN CHINA

Nanking. According to Reuter, another air raid has taken place, which severely damaged the water works and Power Plant, with one hundred non-combatant casualties. The Japanese have landed fresh reinforcements, with heavy artillery, in Shanghai, but their attacks to the north of Lotien have been repulsed. Other sectors are quiet.

ARRESTS MADE IN MADRID INCLUDE ARMY OFFICERS

London. A Valencia Government communique admits that the Nationalists broke through their lines at Molina, on the Asturias front, while Salamanca gives further details of the consolidation of these gains and of advances to the heights overlooking Corregilla, with all Government counter-attacks repulsed. According to a Madrid Reuter message, a plot has been revealed, involving an organisation of seven thousand five hundred within the city, which was preparing to cooperate with the Nationalists outside, to effect the seizure of the capital. Arrests number one hundred and sixty, including army officers and members of the clerical staff of the Argentine and Chilean Embassies.

RECORD ATLANTIC CROSSING.

London. The Imperial Airway's flying boat "Cambria" has set up a new record for the Atlantic crossing. She covered the distance from Botwood, Newfoundland, to Foynes, Ireland in ten hours thirty three minutes at an average speed of about one hundred and ninety miles per hour. The air Secretary, Lord Swinton, has sent hearty congratulations to the "Cambria's" commander on the record crossing which makes he says, "A good ending to a very successful series of experimental flights."

JAPANESE BOMBINGS CONDEMNED BY LEAGUE ASSEMBLY

Shanghai. Japanese aeroplanes are active and bombed the Canton-Hankow railway at Lochang, midway between the terminus, in an attempt to check troop movements from the South, states the Daily Telegraph Correspondent. The terminus of the Tientsin-Bukow railway was also bombed at Pukowon, on the outskirts of Nanking and the attack continued along the line, damaging stations, and killing one hundred and forty civilians. The Japanese authorities announce their intentions of destroying all Chinese railway communications. The Chinese front remains unbroken to the north of the International Settlement, despite repeated Japanese attacks, while in North China, the Japanese are awaiting political developments and resting in the newly captured positions of Paotung and Tsangchow. Hong Kong reported the arrival of a German liner with the survivors of twelve fishing junks, who state that approximately three hundred men, women and children were killed, when a Japanese submarine opened fire and sank the vessels off Cheelong-kau Point, without making any attempt to pick up the crews. At Geneva, the League of Nations Advisory Committee on Sino-Japanese affairs, passed a resolution condemning the bombing of open towns by Japanese planes. This procedure was suggested by the British Under Secretary for foreign affairs, Lord Cranbourne, who said that the committee should express immediately, and in unmistakable terms, the profound horror which the raids had caused throughout the civilised world.

of Germany's commitments will result from the Dictators' talks. The only outside interest is shown by Japan, with the Tokio press commenting upon the possibility of Italy's adherence to the Tokio Berlin anti communist agreement.

REPORTED RISING IN MADRID

Bilbao. The Insurgents have continued their drive towards Gijon, with the capture of the Valdovin Peaks. Salamanca reports of a rising by the Civil Guards and Shock Troops in Madrid, are denied by the Government. On the Aragon front, positions are apparently unchanged, while the Madrid Sector is quiet.

BRITAIN'S REPLY TO GENERAL FRANCO'S DEMANDS.

London. Instructions were despatched to the British Ambassador at Hendaye, Sir Henry Chilton, to open discussions with the Spanish Insurgent representatives on outstanding questions between the two countries, states the Sunday Times. A prominent question is General Franco's renewed demand for Consular Representation in Britain, but Britain will not concede this until satisfaction is given for the past interference with shipping, and assurances are tabled relative to vessels' future safety.

SIGNOR MUSSOLINI ACCORDED AN ENTHUSIASTIC WELCOME IN BERLIN

Berlin. Signor Mussolini received a tumultuous reception on his arrival, and along the five mile drive to the Presidential Palace, with 500,000, spectators lining the route. Before proceeding to Berlin, Il Duce visited Krupp's armament factory at Essen, where an enthusiastic reception was also accorded him. According to the Daily Telegraph Correspondent, official intimation is being circulated that no military alliance or extension

NEWS IN BRIEF.

Colombo. The State Council has adopted a motion for the extension of Imperial Preference, indefinitely, with the right reserved to reopen the question at a future date.

London. Sir J.C. Chubb, charged with another person at Westminster, with incitement to steal £5,000 by means of trick, has been released on bail.

Birmingham. Austin motor employees numbering 27,000, are experimenting with staggered working hours, whereby three groups reach the factory at fifteen minutes intervals and the plan is meeting with unqualified success.

New Jersey. The British lightweight Daly, knocked out Dunbar (Brooklyn) in the second of a ten rounds contest. The heavyweight Zalpala (Jersey City) technically knocked out the Britisher Scally in the first of an eight rounds contest.

Jerusalem. Widespread arrests were made in the Nazareth and Galilee areas, following Monday's murders, and over 100 Arabs are in custody although the actual assailants are undiscovered. Commissioner Andrews and Constable Mc.Ewan were given a Military funeral yesterday.

Adelaide. The South Australia Federal Labour Leader, Mr. Curtin, advocated air strength as the most important link in Australian defence, thereby opposing the General Staff findings that naval defence was primary.

PREPARATION OF ANGLO-FRENCH
NOTE TO SPAIN

London. It is expected here that the joint Anglo French note to Italy, setting forth the views of the two Governments on the main problem presented by foreign intervention in Spain will be delivered in Rome before the end of next week. The terms of the note are under active consideration by the British Government, and between them and the French Government.

The three naval discussions to find a means of bringing Italy into the Anti piracy patrol, were resumed in Paris yesterday morning. After the meeting, which lasted an hour and a half the conference adjourned until today.

HOSPITAL IN NANKING STRUCK
BY BOMBS

London. Sir Robert Cragie, the British Ambassador in Tokio, called at the Japanese Foreign Office on Monday and left a Memorandum on the subject of the bombing of non-military objectives in China. He referred to the earlier representations on the subject, and in the course of conversation called attention to the fact that bombs had fallen on the Central Hospital in Nanking.

WITHDRAWAL OF FOREIGN COMBATANTS
FROM SPAIN STILL ADVOCATED

London. Speaking in the sixth committee of the League Assembly at Geneva today, the French Foreign Minister referred to the joint effort of the French and British Governments to bring to an end abuses which endanger the continuance of the agreement for non intervention in the Spanish Civil War. He said that the equivocal situation resulting from these abuses could not be allowed to continue. The withdrawal of Foreign "Volunteers" from Spain was essential. Should negotiations now in train fail, the whole situation must inevitably be submitted to a new examination.

increased reception of the Empire services of the British Broadcasting Corporation. The report discusses the advantages and possibilities of wireless broadcasting and the system of re-diffusion by wire in relation to the varying local needs in the different Colonial areas, and within each, and having regard to financial difficulties, the committee expressed the opinion that while it would regret to see an extensive development of advertisement as a feature of Colonial Broadcasting programme, it would be better to have the broadcasting system partially financed by sponsored programme or advertisements, than no broadcasting system at all.

APPEAL FOR BOYCOTT OF JAPANESE GOODS

London. Free Church Ministers at the City Temple passed a unanimous resolution calling on the Government and the League to stop the China atrocities, while appeals were made to the public to boycott Japanese goods.

THERE ARE NO REPORTS FROM MADRID

Salamanca. Insurgent columns are closing on Gijon from the east, south east, and the south, for a final attack on the last Asturian stronghold, states the Daily Telegraph Correspondent. The most spectacular fighting is in the Riaro Sector, where favourable weather is facilitating the progress of Navarre columns. Valencia claims Government advances in the Jaca regions, with Insurgent artillery active. There are no reports from Madrid.

INTERIM REPORT ON BROADCASTING.

London. The interim report of the committee on broadcasting the Councils emphasised the importance of Colonial Government's taking all practical steps to encourage

PROPOSED TYNESIDE SMELTING PLANT

London. The official report of the Iron and Steel Exchange states that nearly all the works are operating at capacity, with demand unrelaxed, making the acceptance of orders for delivery this year, almost impossible, while some arrears in deliveries have been reduced. The Jarrow Town Council have received an inquiry from an industrialist group, proposing the establishment of a smelting plant on Tyneside, if the site is available.

CRYSTAL PALACE SITE TO BECOME
PHYSICAL CULTURE CENTRE

London. A plan for developing the Crystal Palace site as a Sports and Physical Culture centre will be considered by Trustees at a meeting next month. The central feature of the scheme would consist of a covered Stadium seating twenty five thousand people and running halfway round the sports arena on which football, baseball, and athletics could take place. Round the arena would be a running and cycling track.

JAPANESE PLANES BOMB YANGTSE
TREATY PORT

Shanghai. The Daily Telegraph Correspondent reports that three squadrons of Japanese warplanes bombed the Yangtse treaty port of Wahu, which is at present packed with foreign refugees from Nanking. Over one hundred bombs were dropped causing immense destructions with huge fires started but with no definite statement as to the civilian casualties yet made. Reuter reports further Japanese advances in North China along the Tien-kin-Pukow railway but the Chinese harrying the flanks and severe fighting is ensuing. Meanwhile, artillery duels continue in the vicinity of Shanghai, where a large scale Japanese offensive is anticipated shortly, if the weather continues good. With reference to the Wahu bombing, it is understood that this area is listed as a safety zone for foreign officials. Canton was

also bombed yesterday states Hong Kong, with Japanese aircraft carriers protected by destroyers and submarines.

SIGNOR MUSSOLINI AND HERR
HITLER ADDRESS LARGE AUDIENCE

Berlin. Approximately one million Germans assembled on May Day on the field on the occasion of the State ordered holiday to hear addresses by Signor Mussolini and Herr Hitler on the subject of Italo-German discussions. According to the Daily Telegraph Correspondent, Signor Mussolini declared there were no secret intentions behind the meeting and no plans were being spun which would further split an already divided Europe adding "To the whole world which anxiously asks what will be the result of the Berlin meeting, the Fuehrer and I answer with loud voice, peace". The peace aimed at he continued, was a fruitful peace, which solved instead of ignoring the problems but there was a common enemy in Bolshevism, which was a Regime of hunger, blood, and slavery.

LEAGUE CONDEMNATION AROUSES
RESENTMENT IN JAPAN

Tokio. Widespread resentment has been aroused by the League Assembly vote, condemning the Japanese bombing in China, and official assertions are made that the rules of warfare were not broken, while every effort was made to spare non-combatants. The Japanese admiralty also categorically deny the sinking of junks off Hong Kong. Elsewhere there is a demand for action against Japan. The Liberal Leader, (Lord Meston) speaking at Oxford, called for action to end the atrocities, at Cardiff the South Wales Miners Federation passed a resolution urging the boycott of Japanese goods, the New Zealand Federation is urging a ban on goods and shipping and local affiliations are unlikely to handle any more exports to Japan which might be considered as munitions.

NEWS IN BRIEF.

London. Their Majesty's the King and Queen will attend a Festival of Remembrance at the Royal Albert Hall on the evening of Armistice day.

Manchester. The Trades Union representatives meeting has decided to issue strike ballot papers to 10,000 cooperative society workers, in reference to the wages issue.

London. A further message from the yacht "Endeavour 1" states that the crew are all well and not needing any supplies.

London. American Legionnaires arriving by the Cunader "Queen Mary" are making a short stay before their departure for Paris, where a pilgrimage to the battle fields officially commences on Friday.

Pretoria. Premier Hertzog addressing the Electoral Meeting, asserted that South African co-operation in Europe, either in peace or war, was a matter for South Africa alone but he felt the Union's interests demanded that she should support the League of Nations.

Wellington. The New Zealand budget contains no surplus detailing buoyant revenues, with estimates framed to meet expenditure and provide a £50,000 surplus without increased taxation.

Vienna. A communique has been issued announcing the protracted Conference at Baden between the Czechoslovakian Premier, Hodza, and the Austrian Chancellor, Schuschnigg, on economic matters, but political circles suggest that the meeting was a direct result of the Mussolini-Hitler conversations.

PROPOSED GRANT TO SIR. H.
KNATCHBULL HUGGESSON.

London. In view of the grievous injuries sustained by Sir H. Knatchbull Huggesson, His Majesty's Ambassador in China, in the attack on the motor car in which he was travelling, by Japanese aeroplanes on August 26th, and the possible prejudice for his future health, His Majesty's Government propose to ask Parliament to vote him a sum of £5,000. In their note of September 21st the Japanese Government tendered a formal expression of deep regret in connection with the wounding of the Ambassador.

HUGE PURCHASES OF BRITISH
CYCLES AND MOTOR CYCLES.

London. The Earls Court Bicycle and Motor Cycle Show closed with orders booked for bicycles to the value of five million pounds, of which, one and a quarter million pounds came from overseas, while motor cycle orders totalled one and a half million pounds, including three hundred thousand pounds from overseas.

GOVERNMENT ASSISTANCE REQUESTED
FOR ASSYRIANS.

London. A Geneva message reports a resolution, of the League Council in public Session, regretting that in spite of all efforts of the last four years it has been found impossible to provide for the settlement of Assyrians outside Iraq and requesting the Iraqi Government to give them every assistance to settle in Iraq as a prosperous and contented section of the Iraqi people.

CANADIAN TIMBER FOR WELSH MINES.

Cardiff. The first cargo of Canadian timber has arrived for South Wales, consisting of 3,000 tons of pit props. Arrangements have been made for further supplies over the next two years.

RIBADASELLA FALLEN TO THE INSURGENTS.

Salamanca. Important Insurgent advances are claimed on the Asturias Sector where Ribadasella, the important road junction two thirds of the distance from Santander, has fallen after an extremely desperate engagement, with the defence holding out to the last man when enfiladed on the south and east. Barcelona claims successes in the vicinity of Jaca, with Insurgent counter attacks repulsed. A comparative lull continues on the Madrid Sector.

MR. KING TO SAIL FOR GENEVA.

Washington. State Secretary Mr. Cordell Hull, informed the press conference that moves towards an Anglo American trade agreement were developing. Simultaneously an announcement was made by the Treasury Secretary that the Internal Revenue Commissioner, Mr. King, would sail for Geneva shortly, to attend the League Tax Committee, when the subject of exchanging tax information might be broached.

EMPIRE CO-OPERATION AND AUSTRALIAN INDUSTRIAL INTERESTS.

Tasmania. Outlining the Government policy at the coming General Election, Premier Lyons said "We consider the policy of isolation from Britain as suicidal and we cannot shut our eyes to the fact that there are aggressive nations that may disturb our peace". The Premier added that the Government believed that Australians would stand for co-operation with the Empire and also that the removal of obstructions to International Trade would be facilitated by a cordial political and economic understanding between the Empire and the United States, and is prepared to forward this end provided that Australian industrial interests are not endangered.

TREMENDOUS WELCOME FOR SIGNOR MUSSOLINI.

Rome. A tremendous welcome has been prepared for Signor Mussolini who will speak from the balcony of Palazzo Venezia tomorrow evening. Meanwhile, Signor Gayda in the "Giornale d'Italia" says that Italy and Germany will offer a definite resistance to the creation of a second Moscow in Madrid or Barcelona. This is interpreted as suggesting that Italy will make reservations in accepting the Anglo French invitation to discuss a Settlement of the Spanish question. If Signor Gayda's words represent official opinion, it appears that a Franco victory is the first condition of any discussion.

"CHINESE MEMORANDUM TO BRITAIN".

London. His Majesty's Government have received a memorandum from the Chinese Ministry for Foreign Affairs, informing them that on 26th September two Japanese monoplanes were observed flying at a low altitude over Kwangteh and Anhwei with the Chinese national emblem distinctly painted on their wings. Two bombs were dropped by these monoplanes before they left. The memorandum declares that in armed conflict the use of the National emblems of an opponent is always considered a treacherous and unlawful act and it is especially dangerous in the present case since Japan would evidently shift her responsibilities to China for any action taken under such camouflage, resulting in the loss of foreign lives, or in damage to foreign property. The Chinese Government takes the opportunity of making the positive affirmation that the Chinese forces have never used, and do not intend to use the Japanese national flag or emblem in the present hostilities.

O B I T U A R Y.

We regret to announce the death of Mrs. Sarah Cross, who passed away on Sunday the 26th September, 1937, at Reading.

Mrs. Cross who came to the Falklands with her parents, Mr. and Mrs. Belcher, in the sailing ship "Lion", lived for many years at Port Purvis West Falklands, where she married Richard Goss, later coming to Stanley. Mr. and Mrs. Goss lived at the First and Last, where nine children were born. Mrs. Goss left the Falklands in August 1896 in the sailing ship "Galgorn Castle" bound for Belfast. Some years later Mrs. Goss went across to England where she married Mr. E. Cross.

Old pal of my heart.
 Whisper your mother's name.
 Shoe shine, boy.
 I want the whole world to love you.
 With my shillelagh under my arm.
 When the poppies bloom again.
 Let's have a jolly good time.
 My old-fashioned home.
 Golden Heart.
 Have you forgotten so soon?
 Covered wagon lullaby.
 In the chapel in the moonlight.
 Look what you've done.
 What a perfect combination.
 One little kiss from you.
 I'll stay with you.
 Till tomorrow.
 Remember our romance.
 Can't we meet again.
 Do you recall.
 The merry peasant.
 The harmonious blacksmith.
 I gotta right to sing the blues.

SHELLING OF FISHING JUNKS
CONFERENCE.

Shanghai. Fine weather enabled the Japanese to proceed with artillery emplacements and the establishment of pontoon bridges across creeks, but active Chinese bombardment checked their main activities. According to the "Daily Telegraph" Correspondent the prime Japanese offensive has now been launched, with all night bombardments followed by aerial attack, behind which bluejackets made infiltrating advances towards the Settlement. Intense and disjointed skirmishing contacts are reported from all quarters of the Settlement, but no advance of any consequence was established. A Hong Kong message give reliable confirmation of the shelling of Chinese fishing junks off the British Colony.

JAPANESE PRESS ATTACKS BRITAIN
AND SOVIET RUSSIA.

Tokio. Vicious press attacks are being launched against the Soviet, and the British Empire, with the main assertion being that London is responsible for the League's condemnation of Japanese aerial attacks, with a view to protecting British interests in China, alleging that an unofficial boycott of Japanese exports is already in operation throughout the Empire and India. In London, the British National Council of Labour called for an embargo on Japanese imports, while from Sydney, Australia, it is learned that Trades Unions are taking definite industrial action against Japanese handlings. Approximately three hundred companies, of all nationalities, have decided to decline the acceptance of insurance against war risks on land, taking the Japanese bombing of open towns as a precedent for regarding all such Policies as a mere gamble. The Marine Market will probably follow suit.

SOVIET AMBASSADOR TO CHINA
RETURNS TO MOSCOW

Shanghai. The Soviet Ambassador to China is making a hurried journey from Nanking to Moscow, suggesting a mission of the utmost importance and urgency. Tokio believes that a new Sino-Soviet understanding has been reached, under which Moscow will give aid to China, when the Red Army purge is completed.

MERGING OF "MORNING POST"
AND "DAILY TELEGRAPH"

London. After a century and a half of independent publication, London's oldest newspaper, the "Morning Post" recently acquired by Lord Camrose, the proprietor of the "Daily Telegraph", has ceased its separate existence. As from Friday, the "Daily Telegraph" will be known as the "Daily Telegraph and Morning Post". The "Daily Telegraph", in a valedictory

leader says "There is pride in taking over a paper having such high traditions and associations, with the confidence that the two will unite in stable and durable harmony,"

ANGLO-FRENCH NOTE TO ITALY
NEARING COMPLETION

London. While the final terms of the joint Anglo French note to Italy on the problems of foreign intervention in Spain have still to immerge from exchanges between London and Paris, the points of view of the two Governments are known to be so close that no delay need be expected, and in London it is considered certain that the note will be delivered in Rome before the week end.

SECOND.

Oh pity my awful plight
I'm now a most terrible sight
Its frightfully sad
My teeth are all bad
Through not being cleaned every
night.

MR.CORDELL HULL'S VISIT TO OTTAWA.

The United States State Secretary, Mr.Cordell Hull, is visiting Ottawa on October 20th, and will stay at Government House. From Washington Mr.Hull states that this is only a courtesy visit without any official discussions projected.

CHINESE DEFY JAPANESE ADVANCE.

Shanghai. According to the "Daily Telegraph" and the "Morning Post" Correspondents, the tide of battle is swaying, with fluctuating fortunes, on a thirty mile front, with the Japanese driving a wedge into the Chinese lines at Liuhang, ten miles north west of the Settlement, but only outposts are effected and the Chinese first line defences remain intact. Nearer Shanghai, in the Kiangwan sector, the Chinese stormed the Japanese posts at Aikuo school, while the Japanese were also driven out from the Pantheon theatre on the Chapei outskirts. The fighting is intensified but the Chinese are holding on. The latest news from the north indicates that the Governor of Shantung province, General Hanfuchu, is supporting Chian Kiashek and will defy the Japanese advance.

JAPANESE REPLY TO U.S. NOTE CAUSES DISAPPOINTMENT.

Washington. Reuter states that the failure of the Japanese reply to Mr. Cordell Hull's note, to give a pacific guarantee against the bombing of Chinese non-combatants, has caused disappointment in political circles, but no surprise. Speaking in London the veteran dockers leader, Mr. Tillett, expressed the hope that dockers throughout the world would follow the New Zealand worker's action in refusing to handle Japanese cargoes, while country-wide Liberal Associations are passing resolutions urging a trade boycott. From Allahabad it is reported that the Congress leader condemns the Japanese bombing activities and supports the boycott, while the New South Wales Trades Unions have issued orders for a boycott and the labour Council will urge the British T.U.C. to call a similar Empire action.

THE FRENCH BUDGET FOR THE YEAR 1938.

Paris. The budget presented to the Chamber of Finance Commission shows the 1938 surplus as being

estimated at approximately one thousand two hundred million francs but according to the "Daily Telegraph" and "Morning Post" Correspondents a memorandum which accompanies the statement points out that the equilibrium of the budget "May be precarious unless it is accompanied by an improvement in trade." Comparative figures given show that French production is decreasing, while foreign imports are excessive. As a result, feeling is growing that another fall in the franc is imminent although the Bourse remained firm yesterday. The crux of the franc problem is the fact that the commercial balance shows a deficit of eleven million.

INSURGENT ADVANCES ON ASTURIAS FRONT.

Valencia. The Spanish Government claims a minor success at Casa de Ruina on the centre front while admitting Insurgent's gains in the coast sector on the northern front, with fighting continuing for the Tarna heights. An Insurgent communique from Salamanca announces continued advances on all sectors of the Asturias front, and the control of new peaks on the Leon front, with many villages captured.

SIGNOR MUSSOLINI'S RETURN TO ITALY.

Rome. Signor Mussolini was accorded an enthusiastic welcome on his return from Berlin, and public reaction to film and press propaganda is a feeling that Italy and Germany as allies are invincible. Nevertheless political circles are concerned with repercussions on the Spanish problem, and what price Germany will demand for her support of Italian policy. Meanwhile, it is anticipated that Italy will remain neutral in the far east conflict. Signor Mussolini's telegram to Herr Hitler, on the conclusion of the visit, terminates with the hope of another meeting, in Italy.

MEASURES TO COPE WITH MURDER CAMPAIGN.

London. The following official communique was issued in Jerusalem today. "The Palestine Government have been gravely concerned by the existence of an organised campaign of terrorism and assassinations directed against individuals in this country. During the last four months the campaign has become intensified in its activities. The action now being taken is a direct result of this murder campaign. On the 13th June, an attempt was made to assassinate Mr. R.G.B. Spicer, Inspector General of the Palestine police force. There followed a number of assassinations of both Arabs and Jews, the campaign culminating on the 26th September, in the dastardly murder of Mr. C.Y. Andrews, District Commissioner of Galilee district and of the British constable, P.R. McEwan, the officer administering the Government has therefore found it necessary to institute action against certain persons whose activities have been prejudicial to the maintenance of public security in Palestine and who thus must be regarded as morally responsible for these events. In virtue therefore of the power taken by the officer administering the Government, by regulations made under the Palestine Defence Order in Council, the Arab Higher Committee and all national committees in Palestine, have been declared to be unlawful associations. Warrants of arrest have been issued in respect of the following persons, who will be deported from Palestine—Jamal Effendi Al Hussein. Ahmad Helmi Pasha. Fuad Effendi Saba. Yacoub Effendi Ghussein. Doctor Hussein Fakhri Uffendi al Khalivi. Haj Amin Effendi Al Hussein has been deprived of his office of President of the Supreme Moslem Council and of membership of the General Wakf Committee, of which he was chairman." The Grand Mufti, who as the communique shows, although deprived of office is not among those to be deported, which includes the leader of the Arab Party, the Secretary of the Arab Higher Committee, the Mayor of Jerusalem, and the President of the Arab Youth Organisation.

FLYING BOAT ACCIDENT.

London. Captain F.S. Wilkins of the accidents branch of the Air Ministry is proceeding at once to Athens to assist the Greek Government in any enquiry which they may hold into the circumstances of the accident, yesterday morning, to the Imperial Airways flying boat "Courtier" which is reported to have occurred as she was landing in poor visibility, at the Marine Air Station at Phateron. There were nine passengers, of whom three were killed. The other passengers and the crew sustained injuries of varying severity. The "Courtier" was due at Southampton this evening from Alexandria.

BURGLARY AT SIAMESE KING'S RESIDENCE.

Surrey. Pleading guilty and offering no defence, forty three year old Harry Lester was committed for trial on burglary charges involving the breaking into of the Siamese King's residence at Virginia Water, and removing jewelled swords, dagger scabbards and other valuables. The accused stated that while he was hiding in the grounds, lights blazed throughout the house, and there was considerable hilarity. Medals taken from other houses were dropped down drains, said Lester.

LAWN TENNIS.

California. Budge, of the United States, eliminated Jones (Great Britain) in the fourth round of the Pacific Coast championship, while Hare (Great Britain) was also victorious. The Misses Ingram and James (Great Britain) were eliminated in the third round, but Misses Dearman and Stammers, also of Britain, were successful.

PROJECTED CLYDE FACTORY

Campbeltown. Manchester and Glasgow interests propose to erect a factory on the Clyde for the refining of shark liver oil to be used for veterinary purposes. Meanwhile local herring fishermen are suffering considerable damage to nets occasioned by thirty foot basking sharks, which for the first time recorded, have remained after the breeding season.

RHODESIA BUYS BRITISH

Bulawayo. The Town Council, who recently purchased British Electrical Equipment costing £6,000 more than similar German goods, followed the same principal in buying a British lorry despite the fact that a German tender was £175 lower.

HEAVY CASUALTIES IN SHANGHAI AREA

Shanghai. According to the "Daily Telegraph" Correspondent all attempts by the Japanese to turn the Chinese left flank north of Lotien, and the right flank at Chapei failed, but at the centre some success was achieved, with the Chinese forced back from Liuhang. The Japanese admit the Chinese implacability, with concreted forts, and wire entanglements covering their light artillery and machine guns. Interviews with Chinese Commanders indicate an increasing solidarity of national feeling, and Colonel Shang, army Chief of Staff of the 36th army says "China does not fear Japan any more." The fighting is continuing with heavy losses on both sides in the Shanghai area, but later news from the north states that the Japanese have captured Taichow and forced the Yenmen Pass.

PRESIDENT ROOSEVELT TOASTS
OUR KING

Victoria, B.C. Extremely cordial contacts were made at the official luncheon, when the United States President spoke of friendship with the late King George, Lord Tweedsmuir and Premier MacKenzie King, and then added "I ask you to drink to the health of the King" President Roosevelt and his wife were accorded an enthusiastic send off by the crowds lining the route to the embarkation point, where the President boarded a destroyer for Washington.

REPATRIATION OF SPANISH REFUGEES

Salamanca. Insurgent communiques claim further advances on Gijon, with successes on the Asturian, Leon, and Aragon fronts. A Madrid statement referring only to local activity says that all Insurgent attacks were held. Perpignan reports that 130,000 Spanish refugees who are dependant on local rates, or the National Exchequer, are being repatriated immediately.

WIDESPREAD SYMPATHY FOR THE
CHINESE.

London. Following the request of the Chinese delegation at Geneva, that the League condemn Japan for violations of international law and contractual obligations, all quarters are expressing sympathy. Borough Councils in England, public bodies in India and political parties of all colours throughout the Empire are urging a Japanese boycott. Repercussion from Tokio, is a press allegation that France and Britain are aiding China with Hong Kong as the supply base.

NAZI MEETING IN ENGLAND.

London. A private meeting of German Nazis in England was held at Forchester Hall, Bayswater, on Friday night, when the German Ambassador and Herr Bohle, the leader of Overseas Nazis, addressed an Assembly. Germans are not bound to attend but comprehensive invitations were issued by the Embassy.

NEW LINER TO REPLACE "LEVIATHAN"

Washington. The Maritime Commission has announced the acceptance of a tender of 15 $\frac{3}{4}$ million dollars by the Newport Ship building Company, for the construction of a liner to replace the "Leviathan" states the Daily Telegraph Correspondent. The "Leviathan" is expected to realise 1 $\frac{1}{2}$ million dollars as scrap, while a construction subsidy of 33 $\frac{1}{2}$ % is being granted, conditional on the completion within 852 days.

HERR HITLER ACCEPTS SIGNOR
MUSSOLINI'S INVITATION.

Berlin. Herr Hitler has accepted Signor Mussolini's invitation to visit Rome but the date is not yet fixed for the visit,

JAPANESE ENTER SHANTUNG PROVINCE

Shanghai. Heavy fighting continues but the Chinese deny the Japanese claims that they have broken the Iron Belt in the Lotien sector. The Japanese entered Shantung capturing Sangyuan and are endeavouring to land troops at Haichow, three hundred miles north of Shanghai, where the Chinese are strongly resisting.

HEATED DISCUSSION AT GENEVA

Geneva. After a heated debate the League Assembly rejected a resolution appealing for a new effort to make non Intervention effective, and recording that otherwise, states adhering to the Non-Intervention Agreement, would consider ending it. Albania and Portugal destroyed the necessary unanimity by opposing the resolution, and fourteen States abstained from voting. The opponents of the resolution declared that it would not improve the atmosphere surrounding the Spanish conflict.

BRITAIN AND FRANCE DESPATCH NOTES TO ITALY

London. The English and French texts of the notes to Italy were completed on Friday, and the English version was despatched to the British Ambassador in Rome the same evening. It is understood that the French Charge d'affaires received the French version about the same time. The terms of the notes are not disclosed but it is known that they express the anxieties of the two Governments regarding the situation in Spain and the desire for a Tripartite Conference to consider a means of making non intervention more effective, particularly by the withdrawal from Spain of non Spanish combatants.

SIR JOHN SIMON AND APPARENT SOLIDARITY

London. The Chancellor of the Exchequer, Sir John Simon, in a speech at Peebles expressed confidence that the good sense and resilience of the British character and judgement would show themselves a match for any new fangled form of Constitution elsewhere. Let them not be misled by these appearances of great mechanical solidarity. The methods of Totalitarian States may give the appearance of great solidarity, and no doubt it is very impressive to see millions of people martialled like one man, but there is a weakness in the very nature and philosophy of a Dictator State, from which we are free. In this country, fiercely as we contend for our political faith, when Election is over there is not one of us that will not accept loyally the decision of the majority. We would sooner see our opponents put in power than see our constitution smashed, he said.

EMPIRE EXHIBITION.

Glasgow. The General Manager, Captain S.J. Graham, has announced that all space for the Industrial Section of the 1938 Empire Exhibition is already sold, but a few sites remain for firms prepared to erect their pavilions. With the co-operation of the British and Dominion Governments the Exhibition will rival that of Wembley. The erection of Engineering and Industry Palaces is well advanced and the arrival of the first exhibits is anticipated within three months.

BRITISH SUMMER TIME.

London. British Summer Time ended at 3 a.m. when the clocks were retired one hour. France, Belgium and Holland are making a similar change;

STEEL SHORTAGE EFFECTS SHIPBUILDING

London. The national steel shortage is causing delay in the delivery of special curved plates for the liner 522, although normal plating is easily obtainable. The underbody is complete except bow and stern castings and completion on schedule is anticipated. Extensive dredging is being undertaken to insure the safe launching, a year hence, and the river channel is being deepened for the ship's passage in March 1940.

PRESS OPINION OF BRITAIN'S ACTION IN PALESTINE.

London. Commenting on the action taken by the British authorities in Palestine, as announced in a communique on Friday last, the "Times" says it will cause relief in many quarters in Palestine. "This relief will not be confined to Jews. Before the end of last year's disturbances several prominent Arabs of moderate views had been killed or attacked by terrorist gunmen. Since the middle of April nine notable Arabs have been murdered, two have been wounded, and many more have been blackmailed. All these men were opponents or critics of the policy of the Mufti of Jerusalem. To this list must be added Salim Haifa, an admirable officer who was on the track of one of the imported murder gangs in northern Palestine and who, with other Arab police officers and detectives paid the penalty for his courage and loyalty. Whatever becomes of the Mufti, who took sanctuary on July 17th, his influence is likely to be shaken. The last two high officers which gave him control of large funds, amounting according to the Royal Commission, to sixty seven thousand pounds yearly, and the appointment of some one thousand five hundred clerics who must preach his politics in their Friday sermons and during their tours of inspection. These losses may well reduce his status from the head of Imperium in imperio to that of an Arab politician among other politicians. As for the gunmen, most of whom are believed to have been hired in Syria, strict

surveillance of the frontier and closer co-operation with the French authorities in Syria, should prevent further incursions. Damascus is notoriously one of the centres where they have been recruited. Wild plans were mooted at the recent Arab anti-Zionist Congress at the mountain village of Bludan, but the new determination of the Palestine Government to restore and maintain order is likely to deter adventurers. At the same time it must be recognised that the unfortunate effects of long, and as events proved useless experiment in the conciliation attempted by Sir Arthur Mauchope, will not disappear immediately and that effect cannot be given to the recommendations of the Royal Commission until the British mandatory authorities have restored public confidence by ensuing order and security which the Holy land deserves.

THE GERMAN COLONIAL QUESTION

London. Addressing 250,000 on Bueckberg Hill at the National Harvest Festival, Herr Hitler attacked foreign countries for misunderstanding Germany and refusing to restore her former colonies. When Germans said they had too little space, the world made idiotic comments showing stupidity and a lack of comprehension. Referring to the idea that Germany could buy necessities, the Fuhrer said that they could have, had they not been plundered for fifteen years. Nations described colonies as valueless burdens but refused to return them to their lawful owners. Germany is over populated and short of raw materials and arable ground.

Referring to the military demonstrations at the festival, Herr Hitler declared that they would not be there if the army was not keeping watch for them.

According to the "Daily Correspondent", the proceedings opened with choral singing by 15,000 and Herr Hitler was presented with a wheat crown.

The Agriculture Minister urged economy in wheat consumption and the partial substitution of wheat for bread.

FASCIST MARCH IN LONDON.

London. Two thousand seven hundred Fascists led by Sir Oswald Mosley marched from Millbank to Brompton accompanied by a strong police guard which diverted the procession where the crowd threatened,

Many were slightly injured in Longland where stones, sticks, fireworks and pieces of brick were used against the police.

JAPANESE PENETRATE CHINESE
MAIN DEFENCES

Shanghai. The Japanese, with artillery, planes and tanks, penetrated the Chinese main defences south west of Shanghai to an average depth of one thousand yards over a five mile front. Advancing in columns, four south and two south west of Peking, they claimed to have surrounded sixty thousand Chinese.

The "Daily Telegraph" Correspondent in Shanghai states that the Chinese offered heroic resistance, inflicting heavy losses on their better equipped opponents. The Chinese admit retreat but state that little ground was lost and that their position is not seriously altered.

New types of Chinese fighting planes appeared at Nanking, while improved anti-aircraft guns forced the Japanese planes to fly higher over Shanghai.

The South Tokio Anglican Bishop, Doctor Heaslett has cabled to the Archbishop of Canterbury to reconsider his decision to preside over the Albert Hall protest meeting today regarding the Japanese bombing.

THE MUFTI DENIES GOVERNMENT
RIGHT TO DEPOSE HIM

Jerusalem. Declaring that he was elected by the Moslems and could be deposed only by them, the Jerusalem Mufti denied the right of the Palestine Government to depose him as President of the Supreme Moslem Council. The Mufti, who remains in Mosque where he fled to avoid arrest, has urged the Arabs to remain

at work.

The situation is quiet but many Arab shops are closed.

UNEMPLOYMENT IN ENGLAND

London. The method of taking count of the unemployed has been revised and the latest figures are compiled on a new basis, allowance being made in comparison with earlier dates. The revision is undertaken with a view to ensuring greater accuracy. The Ministry of Labour provisionally estimates that at the 13th of September the number of insured persons in employment in Great Britain, exclusive of persons within the Agricultural Scheme, was approximately 11,599,000. On a comparable basis there was a decrease of about 7,000 compared with the month before but an increase of about 473,000 compared with the year before. At the same date the number of registered unemployed was 421,737 temporarily laid off and 50,500 normally in casual employment. On a comparable basis there was an increase of about 30,000 compared with the month before but a decrease of 236,000 compared with the year before.

SEQUEL TO FASCISTS' MARCH.

London. No fewer than one hundred and six cases arising from the Fascists South London march on Sunday, were down for hearing at Towerbridge police court and two Magisterial sittings were held simultaneously. The charges included possessing offensive weapons, throwing missiles, igniting fireworks, insulting behaviour, wilful damage and assaulting police officers. Fines ranging from ten shillings to ten pounds, and sentences from fourteen days to six months were inflicted, while some hearings were unfinished. The remaining defendants were remanded, most of which were allowed bail. A demonstrative crowd surrounded the police court but only a few members of the public were allowed through the strong police guard.

H.M.S. "BASILISK" ATTACKED BY SUBMARINE

London. The admiralty announces that the British destroyer "Basilisk", engaged in anti piracy patrol off Alicante, was attacked by an unknown submarine, and detecting the presence of the craft dropped depth charges, while the submarine fired a torpedo which missed. According to Valencia reports two destroyers were attacked and were later joined by five other flotilla craft and two flying boats, all of which joined in depth charge attacks. Smoke columns were seen to rise from the area covered by the second destroyer group.

CHINESE STRONGLY RESIST JAPANESE ATTACKS

Shanghai. Fierce Japanese attacks on Chapei, bordering the National Settlement, met with a desperate Chinese resistance states the Daily Telegraph Correspondent and little progress was made. The point of attack was the North Station, where tanks covered the advance of grenade throwers but the Chinese artillery maintained their lines. Chapei was also subjected to heavy air bombardment. In north China, the invasion of Shantung by the Japanese commenced with a claim to the capture of Tehchow, meanwhile the Chefoo authorities have warned all shipping to leave and it is understood that this is preliminary to the detonating of the mole to prevent the entry of Japanese naval units.

SPEECH BY LORD LINLITHGOW RECEIVED WITH CHEERS

Simla. Indian politicians generally accorded a warm welcome to the speech by the Viceroy, Lord Linlithgow at the luncheon in his honour, held by the State Council President. The Viceroy begged the Dealers' of opinion to consider the alteration to the Federal form in some form or other, which would ultimately result in chaotic conditions. He restated his real lively sympathy with the hopes and aspirations of India's people for whom he felt an abiding affection. The speech was greeted with loud cheers.

Sir John Higgins, famous metall-

the age of 74 years.

U.S. PRESIDENT MAKES DRAMATIC
SPEECH.

Chicago. Inaugurating a new bridge, President Roosevelt took the opportunity of delivering a dramatic warning to the United States, of the traditional isolation policy in view of the increasing international lawlessness and he called for combined action by World Powers to terminate the drift towards a world war. He said: "Peace loving nations must make a concerted effort to oppose violations of treaties, which today are creating International Anarchy, from which there can be no escape through mere isolation or neutrality". He suggested that the world should place in Quarentine those nations responsible for the present epidemic of lawlessness and announced that America was actively engaged in a search for peace. The "Daily Telegraph" Correspondent states that the speech has created a profound impression in Geneva, where the Far Eastern Committee, on which the United States is represented, called for an immediate Nine Power Conference to discuss the restoration of Far Eastern peace, while New York interprets it as an appeal for national support for the policy of the United States co-operation with other Powers against aggression and a positive stand against the Japanese in China.

=====

CHINESE RECEIVE BOMBING PLANES FROM
UNKNOWN SOURCE.

Shanghai. The Japanese war front in north China now extends one thousand two hundred and fifty miles, covering Chahar, Suiyuan, Shansi, Hopei and Shantung provinces while the Chinese having lost important key positions are now apparently preparing a strong defence line from Taiyuanfu, in Shansi, to a junction on the Peking-Hankow railway and the yellow River, with reinforcements being hurried up from Honan province. Further Japanese air raids over Chapei in the vicinity of the International Settlement have apparently failed to dislodge the Chinese defenders while night raids are harrassing the Japanese warships in Whangpoo. American mariners have temporarily withdrawn from outposts on Soochow Creek owing to the immence of fighting. Hong-Kong reports Japanese landings on islands in the Canton river, while Canton has received a large consignment of bombers from an unknown source.

U.S. INDUSTRIAL LEADER ACCUSED
OF HAVING PRESIDENTIAL AMBITIONS

New York. The Daily Telegraph Correspondent reports that the fight between Mr. Lewis of the Industrial Organisation and Mr. Green of the Labour Federation has reached an open declaration of war. Mr. Green addressing workers at Denver said that the time had arrived to choose between democracy or dictatorship, responsibility or recklessness, and accused Mr. Lewis of Presidential ambitions based on a disregard of private property. Mr. Lewis defied Mr. Green and ridiculed his threats to destroy Industrial Organisation.

FASCIST GRAND COUNCIL MEETING
POSTPONED.

Rome. The meeting of the Fascist Grand Council called for today has been indefinitely postponed but no reason is announced.

PRESIDENTIAL ATTACK ON SUPREME
COURT.

Minnesota. President Roosevelt speaking on behalf of the National Farm Act which he hoped Congress would pass, accused the Supreme Court of knocking out the corner stones of his programme, adding that a special Congress Session might be called to enact farm legislation.

ANOTHER GENEROUS GIFT BY
LORD NUFFIELD.

London. Lord Nuffield has given one hundred thousand pounds for the development of Orthopaedic Surgery in South Africa, with the Earl of Athlone and the South African High Commissioner, Sir W.H. Clark, as Fund Trustees. Lord Nuffield will pay a visit to the Union in December or January.

REPAIRING LONDON'S ROADS

London. London's road repairing programme for the next six months involves the re-surfacing of 1,793,000 square yards of carriage ways, which is one and a half times as much as in the corresponding period a year ago. The programme includes the further extension of dual carriage ways along the main traffic arteries and also reconstruction work on the removal of tramway tracks in connection with the substitution on many routes of trolley buses by the London Transport Board.

VISITORS TO BRITAIN

London. Foreign visitors to Great Britain in August numbered 53,923 with the total for the first eight months of the year being 231,727—an increase of 22,671 for the same period of 1936.

ENQUIRY INTO COST OF LIVING

London. Representatives of working class households to the number of thirty thousand are being asked by the Minister of Labour to assist in an enquiry with a view to the revision of the basis of the cost of living index. The procedure to be followed is based on the recommendation of an Advisory Committee on which employers and labour were represented as well as retailers and statistical authorities.

IMPROVEMENT IN FRENCH FINANCIAL SITUATION

Paris. The Finance Minister, M. Bonnet, gave an interview to foreign journalists with reference to the financial situation and furnished statistics indicating that the policy of the Chautemps Government had greater chances of trade stimulation than the Blum Auriol Devaluations, adding "We are firmly convinced that the situation which is already better will continue to improve until definite recovery is reached."

THE AGA KHAN OPTIMISTIC REGARDING LEAGUE

London. The French Ambassador was received at the Foreign Office yesterday afternoon by the Foreign Secretary. It is understood that both the British and French Governments are agreed in hoping for an early reply to their joint note to the Italian Government regarding the problems of foreign intervention in Spain in view of the importance which the two Governments are equally agreed in attaching to the reduction to a minimum of any further delay in making the non-intervention policy fully effective. Mr. Eden, who had returned to London from a holiday in Yorkshire to attend yesterday's Cabinet meeting, lunched with the Prime Minister.

The eighteenth Assembly of the League of Nations stands adjourned after yesterday, when it unanimously adopted the report and recommendations of the Committee of twenty three on the Sino-Japanese conflict. Siam and Poland alone abstained from voting. In accordance with this decision the President of the Assembly, the Aga Khan, has communicated with the signatories of the Nine Power Treaty and five other nations associated with them, asking them to convoke a meeting to discuss the disturbance of peace in the Far East. Japan as one of the signatories, will be invited. It is suggested in Geneva that the far Eastern Advisory Committee may meet again next month and the President of the Assembly is authorised to reconvene that body on the request of the Committee.

Closing this year's Assembly, at Geneva, over which he has presided with conspicuous distinction and success in the opinion of all delegations, the Aga Khan reviewed the work of the Session and spoke optimistically of the League's position, saying "Remember how the League came into being just after the war, when everything was in disorder, how it passed through vicissitudes of crisis after crisis, political, economic and others—crisis not of its own making but the inevitable and unescapable aftermath of pre-war, pre-League

conditions -- and remember how in spite of everything the League still stands deeprooted in the worlds very necessity.

RATIFICATION OF SUGAR CONFERENCE.

London. Following meetings in London of the International Sugar Council a communique issued last night states that the Council considered the ratification of the International Sugar Agreement of May 1937 and took note that fourteen Governments had already either ratified the agreement, or made declarations under article four of the Protocol. The ratifications of other countries, which are not yet forthcoming owing to constitutional or other similar requirements, are expected in the near future. Accordingly the Council resolved to recommend the Governments which had ratified or made declarations under the Protocol to consider the agreement as being in force between themselves until further notice. The Council reviewed the statistical situation and came to the conclusion on the best information at present available, that the requirements of the free market during the present sugar year are likely to exceed 3,500,000 metric tons raw value. The total export quotas to the free market laid down by agreement for the present year are 3,644,000 metric tons raw value, but various delegates have indicated they may be in a position somewhat later in the year to notify the council of such parts of their export quotas as they will not use. In these circumstances the Council were of the opinion that in the absence of some unexpected development, a slack in the free market would not during the present year be increased to any substantial amount and might indeed be actually reduced. The Council therefore decided it to be premature to make any reduction of export quotas under article twenty one of the agreement. They reserved the right however to review the matter again if there was any important change in the situation. After discussing certain matters of Internal Administration, the Council adjourned until some date early in 1938, to be fixed later.

ABANDONMENT OF COMMUNISTS CAMPAIGN.

London. Newspapers express the opinion that as a result of Tuesday's overwhelming vote in the Labour Party Conference condemning the United Front, with the Communists advocates of the proposal in the Labour ranks, chief of which has been Sir Stafford Cripps, will abandon their campaign and Press reports suggested a connection between this and the re-election of Sir Stafford Cripps and Professor Laski to the National Executive among representatives of constituency Labour Parties at the head of whom Mr. Herbert Morrison received 348,000 votes. The new executive member in this section is Mr. Philip Noel Baker. Mr. J.R. Clynes again headed the Trade Union section of the Executive, with 2,057,000 votes.

R.A.F. APPOINTMENT

London. The appointment of Air Marshal P.B. Joubert de la Ferte, Air Officer Command-in-Chief of the Coastal Command of the Royal Air Force since 1936, to the post of Air Officer Commanding the R.A.F. Headquarters at New Delhi, India, is announced.

"CALEDONIA" LEAVES FOR AZORES.

London. The Imperial Airways flyingboat "Caledonia" left Southampton yesterday morning on the two thousand miles flight to Azores to collect data concerning conditions of over the Southerly Atlantic route. She will fly to the Azores in two stages, making a halt at Lisbon. The "Caledonia" is expected to return to Southampton in a few days and the return flight will probably be non-stop.

BRITISH HEALTH CAMPAIGN.

London. The National Health Campaign inaugurated by the Prime Minister last week, was carried into provinces by the Minister of Health, who addressed a great meeting at Liverpool. Sir Kingsley Wood emphasised that the Campaign did not mean that the British people were a decadent race. They were not, but health conditions could be vastly improved and the considerable sums of money and great effort now expended would yield better results if health services were more utilised. The Minister also laid stress on the voluntary character of the movement remarking that the suggestion that British people were to be made fitter by law was totally against national ideas and conceptions.

DUTCH AIR LINER CRASH.

Hague. The Dutch air liner "Specht", en route from Batavia to Amsterdam crashed at Sumatra. Four persons including one passenger were killed. Among those injured was the famous Polish violinist Herr Hubermann whose arms and hands were hurt but Doctor's state that no permanent affliction has been caused. It is understood that one engine failed on taking off and the machine side slipped.

DEDICATION CEROMONY IN VERSAILLES.

Paris. President Lebrim and many Cabinet members attended the dedication of a monument to the United States General Pershing, and the American Expeditionary Force on Picardy Slope at Versailles. The ceremony provided a remarkable demonstration of warm Franco-American friendship.

REPLY TO ANGLO-FRENCH NOTE OFFICIALLY REJECTED.

London. Instructions were sent yesterday morning to Lord Perth, the British Ambassador in Rome, to call at the Italian Foreign Office with a request for a reply to the recent joint Anglo French note proposing a tripartite conference with a view to making non Intervention in the Spanish

Civil war more effective. It is understood that the French Chargé d'Affaires is receiving similar instruction. It is known that the note laid particular stress on the necessity for progress in the question of the withdrawal of non Spanish participants from both sides in Spain. Speaking in the sixth committee of the League Assembly last week the French Foreign Minister spoke of the negotiations then in train to end the abuses of the Non Intervention Agreement and said that if they should fail the situation must inevitably be submitted to a new examination. Mr. Walter Elliot who followed him observed that if breaches of the Non Intervention Agreement were intensified from any quarter the policy itself might be doomed. Since those speeches were made reports of the intensification of aerial activity in Spain of the kind suggestive of the arrival of reinforcements and other events of a character inconsistent with the non intervention policy have increased the urgency in the minds of both the British and French Governments of securing progress by means if possible of tripartite discussion from which in the improved atmosphere due to the Italian participation in the Nyon arrangement much could be hoped. Therefore the Italian reply to the invitation is eagerly and hopefully awaited but there is no attempt to conceal in British official circles that should the reply prove unfavourable it would create a most unfortunate impression and the resulting situation would be one of which the British Government would take a grave view.

A resolution was carried approving of the National Government's Foreign Policy, and at Bournemouth, the Labour Conference by two million one hundred and sixty nine thousand votes to two hundred and sixty two thousand, endorsed the declaration on Defence by the National Council of Labour which had already been approved by the Trades Union Congress. The declaration, which sets out the Labour Parties Foreign Policy of support for the League and economic appeasement, recognises the necessity of British rearmament. Before voting for the Declaration the Conference refused, by a similar majority, to instruct the Parliamentary Party to vote against the Defence Estimates.

At the Conservative gathering speeches were made by Lord Plymouth, the Under Secretary for Foreign Affairs and Chairman of the International Non-Intervention Committee, and by Mr. Winston Churchill. Lord Plymouth said Great Britain had worked hard to make non-intervention effective but they could not conceal from themselves the disappointing results. The position he told the delegates was serious. Foreign Intervention continued in Spain. He spoke also of the embitterment of the relations of Europe which Intervention had caused and the difficulties it raised in the way of real progress towards a general settlement.

NINE POWER MEETING.

London. Regarding the communication which the Aga Khan as President of the League Assembly has addressed to the Powers associated with the Nine Power Treaty and members of the League of Nations conveying the suggestion of the League Assembly that they should arrange consultations under the treaty between themselves and other Powers either adhering to the treaty, or with special interests in the Far East, it is understood that the British Government considers that the proposed meeting

should take place as soon as it can conveniently be arranged. Exchanges between the various Powers concerned are still in the stage of ascertaining different views on suitable procedure for implementing the Assembly's suggestion.

PRINCESS SIBYLLA OF SWEDEN.

Stockholm. Following an operation for appendicitis Princess Sibylla wife of Prince Gustaf Adolf is in a satisfactory condition.

PROBABLE REARMAMENT OF U.S.A.

Washington. According to the Daily Telegraph Correspondent belief is widely current that President Roosevelt's speech was merely preparation for a vast rearmament scheme, with the initial cost approximating two thousand five hundred million dollars. No official comment is made but the impression continues that the United States is compelled to embark upon preparedness against aggression as the best guarantee of peace, and while America is against any armed intervention, the time has come for the nation to play her part in world affairs.

NEW METHOD OF WATERPROOFING

London. As a result of researches carried out in their laboratory at Manchester, the Imperial Chemical Industries have produced a Chemical compound which when impregnated in fabrics such as textile materials, renders them permanently "Water repellent". The substance has been named "Velan". At a demonstration, materials of silk, lace, wool and cotton treated with velan were shown to be impervious to liquids. The substance is said to be as completely satisfactory in waterproofing heavy woollen fabrics such as those used for military uniforms as in rendering silk stockings splash proof.

SIR MALCOLM CAMPBELL'S "BLUEBIRD" ON EXHIBITION

London. Sir Malcolm Campbell's speed boat "Bluebird" in which achieved the world record of 129.5 m.p.h. for speed on water on Lake Maggiore earlier this year will be on view at the Great New Exhibition building at Earls Court next week when the thirty first International Motor Exhibition opens there on Thursday.

H.P.H. THE DUKE OF WINDSOR

Berlin. An official announcement states that the Duke and Duchess of Windsor will arrive there early on Monday morning accompanied by a small suite and will probably stay at a large secluded house in Potsdam district as a hotel or Government building would not endure the privacy which is desired. The Duke will subsequently visit Viefelfeld, Essen, Leipzig, Dresden, Bayreuth, Nuremberg, Stuttgart, Munich.

PRESIDENT ROOSEVELT'S SPEECH WELCOMED BY BRITISH PREMIER.

London. President Roosevelt's speech on Tuesday was warmly welcomed by Mr. Churchill when he spoke at the Conservative Conference. It expressed he said, in eloquent language, exactly the same ideas as were in our minds. They would entertain in Britain no exaggerated expectations of American action but nevertheless an understanding so perfect and so spontaneous between the two English speaking peoples was bound to bring an enormous contribution and consolidation to the forces working for peace and freedom. Referring to the general situation Mr. Churchill said, "We are passing through a time of grave anxiety and I fear of anxiety not soon to be relieved. Terrible deeds of brutal violence are being perpetrated at different ends of the world. Submarines rise from the depths, sink ships, and leave their crews to struggle in the seas. Aeroplanes cast their bombs from the air on crowded streets of women, children and non-combatants, not only in Asia but in Europe, contrary to every rule of humanity and on a scale hitherto unknown. We must in these circumstances give all our support to the Foreign Secretary, Mr. Eden, in the firm and honourable policy which he is pursuing in striving to preserve world peace and to uphold what we would all like to see become world law.

Lord Plymouth told the conservatives at Scarborough that the Prime Minister would deal with the Far Eastern situation in a speech.

U.S.A. AND FAR EASTERN CONFERENCE.

Washington. State Secretary Mr. Hull says he "Presumes" that the United States will accept an invitation to the Nine Power Conference on the Far Eastern crisis, when and if an invitation is received, meanwhile he declined to comment on the proposal. According to the "Daily Telegraph" Correspondent the British Ambassador in Washington was instructed to enquire in what way the United States contemplates co-operation with other peace loving nations, as suggested in the President's speech.

From Tokio it is learned that the President's speech condemning Japanese activities in China came as a cold douche to militarists but angry hostility has given place to the realisation of the grave situation created by Anglo-American Unity and therefore the Moderate Party are encouraged in the belief that war may now be checked before Poland, France and South America generally approve of President Roosevelt's attitude, but Germany and Italy are antagonistic. Many United States Politicians and Trades Unionists favour a Japanese boycott while the Australian Press supports the strong British line to secure effective international co-operation for the preservation of peace.

JAPANESE OCCUPY YUANCHING.

Shanghai. Rain of tropical intensity is checking operations to the north of the Settlement but the Japanese effected a crossing of a creek on the Chinese centre and are attempting to exploit this to advantage, without much success. A Peking message states that the Japanese in Shansi claim the occupation of Yuanping, fifty miles north of the provincial Capital Taiyuan. Japanese air raids are continuing over a wide area.

RAIN IMPEDES FIGHTING IN SPAIN.

Madrid. Rain is reported from all fronts but a temporary lull permitted the Nationalists to advance on the Asturian coast in the Añis Sector, with fifteen bombers in support, but a counter-attack regained the losses and isolated two Nationalist companies.

A noteworthy feature of the speech which the Prime Minister made on Friday night at Scarborough was his reference to President Roosevelt's Chicago speech. Describing it as being as welcome as it was timely in its utterance, Mr. Chamberlain recalled the impression hitherto held that the United States, the most powerful country in the world, would remain content with a frankly isolationist policy. But, the Premier said, the President had seen that if what he had called at Chicago an epidemic of lawlessness, was allowed to spread, no country would be safe from attack. In the declaration of the necessity for a return to belief in the pledged word and the sanctity of treaties, President Roosevelt had voiced the convictions of the British, as much as of the American people, and in his call for concerted effort in the cause of peace the British government would be wholeheartedly with him.

The Prime Minister paid a warm tribute to the Foreign Secretary, who was more than any other member of the government, subjected to such continuous and heavy strain. In Mr. Eden, he said, the country had a Statesman who combined the energy and vitality of youth with the unrivalled experience of men and affairs in all parts of the world and they had reason to be grateful to him for the tact and skill which he had devoted to the maintenance of peace and the care with which he had watched over the country's interests. Mr. Chamberlain went on to speak of the hostilities in China and Spain and the sickening and horrifying use of bombing aeroplanes against non-combatant men, women, and children which characterised them both. But, he suggested, the real point might be overlooked in the natural indignation which these things caused. Cruelty and barbarity, the mutilation and death of non-combatants, starvation and misery, were the inevitable concomitants of modern warfare. The real crime against humanity lay in the resort to force at all, in contradiction of solemn engagements without even an attempt to settle differences by peaceful discussion. As to the Far East, on the initiative of the League Assembly it was proposed to hold a conference of the signatories of the Nine Power Treaty and other Powers with interests in that region. (Continued on page 3.)

MR. CHAMBERLAIN'S SPEECH

(Continued from page 2.)

After President Roosevelt's speech there was little doubt that the United States would agree to be represented and to consult with other members as to how the conflict in China might be ended. The Premier thought it premature to commit the government to any particular course of action but said their governing objective, now as always, was the restoration of peace and the maintenance thereof, and that they would gladly co-operate in any helpful plan to this end. As to the Mediterranean situation, this was still causing the government anxiety which was increasing. They had sincerely rejoiced at Italian participation in the Nyon arrangement and had felt encouraged to hope that the agreement might be followed by further discussions between Britain, France and Italy, with a view to making the policy of non-intervention really effective. They were still awaiting, Mr. Chamberlain said, the Italian reply to the joint Anglo-French invitation, he earnestly hoped it might prove to be of such a character as would bring them all into greater harmony. If once real progress could be made in a settlement of the Spanish problem, the way would be open to those conversations which had formed the subject of the recent correspondence between himself and Signor Mussolini.

The Prime Minister devoted a considerable part of his speech to an encouraging account of the progress of the rearmament programme. He declared that until the world recovered some of its sanity Britain must continue to re-arm. The preparatory stage of the programme, which was vaster than anything before attempted in peacetime he said, was now practically completed and all three Services were sharing in the results of the increased tempo of production. Though the army would not compare in size with the huge conscript armies of the Continent, it would be fully equipped, be thoroughly adapted to its task. The Foreign Secretary had already stated at Geneva that the aggregate tonnage actually now being built, or already sanctioned by Parliament for

the Navy, exceeded half a million tons, while naval personnel was being extended at a rate unknown before in peacetime. The activities of the air force were increasing with great rapidity. Powerful machines, unsurpassed in design and equipment, were now steadily coming forward from the manufacturers. In the space of two years the strength of the home-based force had nearly trebled

ITALIAN REPLY TO ANGLO-FRENCH
REPLY.

London. The Italian note to the British Government in reply to the Joint Anglo-French invitation to conversations on the Spanish problem, which was handed to Lord Perth in Rome on Saturday morning, reached London the same afternoon. The terms of the Italian reply have been taken into consideration and at an appropriate moment next week when sufficient progress has been made with the preliminary consideration of the note the British Government will consult with the French Government, to whom Italy has also replied, with the object of comparing opinions formed by the two Governments on the Italian note, and of establishing a common view.

The Anglo-French note, which was handed in at Rome a week ago, begins by a reference to successful naval talks providing for Italian participation in the Nyon arrangement which had created favourable conditions in which the three Governments examine "In a spirit of perfect frankness, the situation arising from the prolongation of the Spanish conflict." Count Ciano's assurances to the British Charge d'Affaires "There was no present intention of permitting the despatch of further volunteers to Spain" and the declaration of Signor Bovascola to M. Delbos at Geneva, "Italy had no intention of making the smallest change in the territorial status of Spain, had no designs on the Balearic Islands, and that the integrity of continental and insular territory of Spain would be strictly respected" are then noted and satisfaction is expressed, and there follows a declaration by the two Governments that they consider themselves bound to respect the political independence of Spain. The note continues "The Governments of France and the United Kingdom earnestly desire that the civil strife in Spain shall cease because of international unrest and suspicion, and that in that part of Europe conditions shall develop which shall permit of progress being made elsewhere, towards general appeasement. But they are convinced that no considerable improvement in the situation is possible until further measures have been carried out to make the policy of non-intervention effective by the

withdrawal of non Spanish nationals now taking part in the struggle. So long as large numbers of foreigners continue to assist both sides the risk of grave international disturbances will be present and inevitably tend to increase until at least a substantial number are withdrawn.

The Mailman.

"Round up the town horses,
You'll Plonky and Vim take,
Lafonia from Monte
Arrived at daybreak.
Leave early in the morn
And the passes you'll make".

Away rides the mailman
(The sun's way in the east)
With saddle-bags empty
On the pack-horse on lead-
Stops halfway to Stanley
For the food he's in need.

The masts of the wireless
For the nonce within sight;
Chirrup to the horses
To reach town before night-
And his horses, anon,
Tussac bundles to bite.

Return journey started,
Retracing his on tracks,
Mail maletas pressed full
On the off-horse's back
'Tho longer seems journey
With the jolt of the pack.

The sun now a-sinking
An orange and gold tint
When mailman unlatches
The settlement's last gate-
And from peat -boy to boss
All eagerly await.

ITALIAN REPLY TO ANGLO FRENCH

REPLY.

The London committee have of course been already apprised of this programme but the difficulties it came up against have practically paralysed its action and it appears that a previous agreement between the three Powers is necessary to overcome these obstacles. The view of the two Governments is that an elaboration of such an agreement should form one of the essential elements of the frank and cordial conversations to which they invite the Italian Government. Moreover, greatly as the French and United Kingdom Governments desire to maintain the obligations they have undertaken resulting from international agreements respecting the supply of arms and men to Spain, they cannot conceal from themselves the difficulty of preserving these conditions unless some such steps are taken to make the policy of non-intervention really effective". Invitation is then extended to Italy to join in conversations, and the not concludes, "In their view such an agreement would not only make an important contribution to the improvement of the political situation but with such withdrawal before cited, the question of recognition on certain conditions of belligerent rights to the two parties should be capable of solution. It is the earnest desire of the two Governments that these conversations, to which they attach the utmost importance, should be held at the earliest possible moment."

The Italian reply handed to the British Ambassador and the French Charge d'Affaires on Saturday morning begins by reference to the assurances from both sides cited in the Anglo-French note regarding the integrity of Spain and by the re-endorsement of those of Italy. It goes on "The Fascist Government fully share the hope expressed by the British Government that the internal struggles of Spain may cease to be a cause of suspicion and friction between other nations and that a situation may evolve in such a manner that in other fields also progress may be realised towards general detente. They are ready with every possible goodwill to examine

as they have always done in the past all means which may be thought suitable to render effective policy of non intervention." The Italian Government proceeds to recall that Italy and Germany were the first to raise question of volunteers and cites various Italian notes and declarations on the subject, since August 1936. Italy maintains the same order of ideas regarding all aspects and the elements of non-intervention as emerges from those notes and declarations. Turning to the Anglo French invitation and its stated intention of obviating the difficulties which have arisen in the Non intervention Committee the note continues "The Fascist Government appreciate in all its value the British suggestion but doubt whether the difficulties in question can be overcome by way of ingenuities or device of procedure, and above all by that proposed. They draw attention to the fact that the matter under discussion does not regard some States alone but on the contrary, directly interests other States besides France, Great Britain and Italy. Further, the fact should not be overlooked that without the adherence of Burgos and Valencia, and decision on the question would fail to lead to practical results. All the more so when one remembers the attitude of the representative of Valencia who, by specious pretext excluded in his speech at Geneva, any possibility of the evacuation of volunteers enrolled in the armed forces of his Government. The proposed discussion, in the absence of other States, would lack the elements indispensable for reaching an agreement. It is the conviction of the Fascist Government that adoption of procedures, even if only preliminary, outside the London committee and its organs, would in the present situation result not only in not diminishing, but in increasing the possibility of misunderstandings and complications and in retarding instead of hastening the attainment of a general agreement, which the Fascist Government regard as supremely necessary. The Fascist Government are therefore of the opinion that the question of non-intervention should continue to be dealt with at the London Committee." The note concludes

PRESIDENT ROOSEVELT'S SPEECH
CONSIDERED UNIMPORTANT BY JAPAN.

Tokio. Japanese opinion is turning to a disregard of the Roosevelt's speech as of no great importance, with scepticism of the boycott's application, while the Nine Power Treaty is considered a dead letter. It is understood that the Foreign Minister, Herata, told the Cabinet that Britain, France and the United States are too keen on making profits from the Far Eastern conflict to become involved, nevertheless New York reports the cancellation of many Japanese contracts by chain-stores and the export trade to Japan is being gradually placed on a cash basis. From Stockholm it is reported that the Swedish T.U.C. and other organisations have called for a Japanese boycott in joint declaration. In London attempts to demonstrate outside the Japanese Embassy were checked by a strong police cordon.

REPORTED USE OF GAS IN CHINA.

Nansiang. The Shanghai front "Daily Telegraph" Correspondent gives exact details of the poison gas used by the Japanese in the Lotien sector. Official figures give eighty cases of gassing, of which forty were fatal, and the Correspondent describes frightful injuries, with those mainly affected dying of burns and suffocation and the injured unable to speak or hear. This attack is apparently the outcome of the hold up in the Japanese advance which was only partially successful. Heavy fighting continues with the Chinese line still intact. In north China the Japanese have captured another position on the Peking-Hankow railway but well armed irregulars in the western hills are providing the invaders with a serious problem. Floods are also creating difficulties and the Japanese eastern army communications have been cut off, with an area of five thousand square miles inundated in the Japanese rear. The situation in the immediate vicinity of the International Settlement is quiet.

ANGLO-AMERICAN ARRANGEMENTS FOR NINE POWER CONFERENCE

London. According to the "Sunday Times" Britain and The United States are already engaged in preliminary conversations on arrangements for the Nine Power Conference guaranteeing Chinese integrity. Diplomatic exchanges are proceeding in Washington but no venue has been fixed for the conference. Senator Pittman, chairman of the United States Senate Foreign Relations Committee, envisages that the only outcome of the conference must be financial and economic ostracism of Japan, which would be sufficiently repressive and while stamping out present war and preventing its spread, would not involve further wars.

THE SPANISH INSURGENTS OCCUPY COLLADO HEIGHTS.

Salamanca. The Spanish Insurgents claim a breach in the fortified Government line on the Asturian front reaching the river Sardon, and occupying the Collado Heights. Valencia admits that tired troops had to face a full dress Insurgent offensive but doesn't acknowledge any reverse. On the other fronts, the Insurgents are apparently making progress without serious resistance.

MR. MALEN AND GERMAN COLONIAL CLAIMS.

Capetown. The Nationalist leader, Malen, endorsed the Transval Party Congress resolution on the subject of former German colonies, states the "Sunday Times" and added "There will be no peace in the world unless Germany's colonial demands are met, but the future of South West Africa lies within the union." If South West Africa were returned to Germany there would be serious racial problems he said since recent settlers there were from the Union but there would not be a solution while the Germans there refused to throw in their lot with the Union.

ARMY RECRUITING STILL INCREASING.

London. The recruit intake for September was, two thousand two hundred and forty three in the regular army and one thousand nine hundred and six in the Territorial army, showing increases respectively of 12.4 and 22.5 per cent over September last year. Recruits for the regular army in the six months to the end of September numbered twelve thousand one hundred and thirty one as against ten thousand six hundred and sixty three in the same period of last year.

GERMANY SUPPORTS ITALIAN REPLY
TO ANGLO-FRENCH NOTE.

Rome. Authoritative circles express the opinion that the Italian reply to the Anglo-French note "Keeps the ball rolling" and that the League's next move is up to France and Britain. At the same time, the seriousness of the International situation is realised and it is stated that if the French corridor is opened and war material sent to aid Valencia, European war will hang by a thread. At the same time Il Duce's trump cards are his ability to throw many trained volunteers into the Spanish conflict, while Britain is committed in the Far east and Palestine. Berlin fully supports the Italian reply states Reuter, while France finds it dissatisfying. The French Foreign Minister M. Delbos, has conferred with the Premier, M. Chautemps, and informed the Press that there is complete agreement between Britain and France and that Britain is in complete accord with President Roosevelt's speech. If Herr Hitler had praised his troops in Spain and sent them battalion orders, Germany would have been approached in these conversations he added.

CHINESE DESTROY THREE JAPANESE

Shanghai. Japanese warships in Whangpoo engaged in an artillery duel with Chinese batteries at Pootung, with the latter claiming distinct successes by destroying a munition depot and crashing three Japanese planes over Yangtsepoo. In north China the Japanese troops having consolidated Chenting positions are launching a large scale offensive against the Chinese positions on the south bank of Huto, states a Peiping Reuter message.

MISSING AIRMAN FOUND.

London. Brigadier General A. C. Lewin and his wife who have been missing on a flight in the Sudan have been found. Their aeroplane has been sighted from the air and the occupants are apparently uninjured. As it is impossible to land in the vicinity supplies have been dropped. Mr. Lewin was second in the air race round Britain for the King's cup last month.

IRON AND STEEL PRODUCTION.

London. The production of pig iron in September reached the highest daily rate for seventeen years and the output of steel ingots and castings created a new record. 726,600 tons of pig iron were produced, against 650,800 tons in September last year and 1,163,000 tons of steel against 1,027,000 tons in the same month of 1936. The output of steel for the first nine months of the year, at 9,548,300 tons is the highest ever achieved in the same period and is 931,000 tons up on last year. The record steel production is accompanied by a large increase in typical finished products. For example sheets as used in motor cars etc are up twenty one per cent compared with last year, plates for ship building etc by fifteen per cent, joists, sections and bars by twelve per cent.

INTERNATIONAL MOTOR EXHIBITION.

London. An important section of the international motor exhibition which opens at Earls Court today is devoted to motor yachts the demand for which has been unprecedented during the past twelve months. The craft on view ranged from an eight feet dinghy, suitable for use with a small outboard motor and costing as little as five pounds, to compact and capable motor yacht aboard which several people can live in complete comfort, and cruise with safety to such parts as the Mediterranean and Baltic. The number of marine engines on view is probably a record. Petrol units range from a single cylinder outfit of 500 h.p. A large number of engines of the Diesel type are also on view.

REDUCTION OF STREET NOISES.

London. The Departmental committee has reported to the Minister of Transport on the investigation of noises made by motor horns and has recommended a loudness limit of one hundred phones value.

ROYAL AIR FORCE EXPANSION.

London. The Foreign Policy and the Defence Policy work hand in hand for a similar aim—peace. So declared the Air Minister, Lord Swinton in a speech dealing with the expansion of the Air Force. The programme bringing it up to something like three times its previous strength was, he said, a task unparalleled in peace time. He mentioned that recruits were coming from every part of the British Commonwealth to join the Air Force.

BRITISH EMBASSY CARS ATTACKED.

Shanghai. British Embassy vehicles consisting of two cars and a luggage van, travelling from Nanking to Shanghai, were subjected to a machine gun attack by Japanese planes in the Minghong area sixteen miles from the Settlement. All vehicles had Union Jacks painted on the roofs and also flew flags and when the planes swooped to within three hundred feet and opened fire the occupants, comprising of Embassy officials, took shelter on the roadside. Nobody was hurt but the cars were damaged. It is understood that the British Embassy in Nanking had notified the Japanese authorities of their intention to send the cars to Shanghai. The Japanese attitude is that the British are responsible in various technical matters.

INSURGENTS AGAIN ATTACK MADRID.

Madrid. The Insurgents are again centring attacks on the capital after weeks of absolute calm and the fighting continues. Valencia also admits the Insurgent successes east of Asturias, with the occupation of several heights. Minor engagements are reported from other fronts.

NEWS IN BRIEF.

Denver. The American Federation of Labour has empowered the Executive to expel all Unions affiliated to the Lewiss Industrial Organisation.

... ..

Palembang. The Polish violinist, Herr Huberman, who was injured in the Dutch air liner crash last week is suffering from pneumonia, but latest reports indicate an improvement.

... ..

Berlin. An understanding has been reached with Belgium for the conclusion of the unilateral non-aggression guarantee, with Herr Hitler again setting forth his respect for the territory of Belgium, but there will be no formal pact.

... ..

Kent. The United States airman, Colonel Lindberg, and his wife have decided to take up permanent residence in England, returning to America for short visits only. Negotiations are proceeding for the purchase of a south coast house.

... ..

Cape Colony. The Union Justice Minister, General Smuts, referring to South West Africa stated that the Mandate was necessary for the Unions future safety and security and it would be held on to.

... ..

Paris. The Bourse was steadied by the Sunday Elections when the Radicals won six hundred and forty eight seats outright, the Blum Socialists one hundred and eighty five and the Communists only twenty and the reaction has been striking states the "Daily Telegraph" Correspondent. Political reaction shows that popular feeling is running in favour of the Radical element.

... ..

London. The Prime Minister will make a speech at Manchester this evening at a banquet in connection with the autumn meeting of the association of British Chambers of Commerce.

PROPOSED MEETING OF NON-INTERVENTION COMMITTEE

London. When the French Ambassador saw Mr. Eden on Tuesday, he conveyed proposals which the French Government wish to put forward for consideration in London regarding the situation left by the Italian note of last week, which declined the invitation to a Three Power discussion of the problems created by foreign intervention in Spain, and favoured referring the subject back to the non intervention committee. The views expressed by Monsieur Corbin to the Foreign Secretary were, it is inferred, among the matters discussed at the usual weekly meeting of the Cabinet yesterday morning, which lasted for over two and a half hours. As a result of the study which both the British and French Governments have given to the Italian note and the exchange of views between them, it can be stated that a broad agreement exists between the two Governments and that another serious attempt should be made to bring other Powers concerned into agreement on Spain, although it is regarded as necessary that some definite limit on time should be set to such an attempt. With this purpose in view, the two Governments favour the calling together of the Non-Intervention Committee, and it is hoped that a meeting will be held towards the end of this week. The broad agreement between London and Paris embraces likewise, the view that if the effort to obtain agreement in the Non Intervention Committee should fail, the present state of affairs could not be expected to continue. The effort gives irrefutable proof of the patient perseverance of the two Governments in conciliation. The proposal corresponds with the procedure mentioned in the Italian note and it is hoped that the proceedings of the committee will be free from such obstruction and delays as led to the joint Anglo-French invitation to Rome to discuss matters outside it.

Tokio. The proposed Nine Power Conference is receiving as much attention in the press reports as the actual fighting and the suggestion is made that the Conference is already doomed to failure as Japan has been prejudged. Meanwhile, the Government remains secretive relative to their attitude towards the Conference. Elsewhere the boycott movement against Japan is extending. The New South Wales Socialist Council is circulating leaflets advocating a boycott and Freemantle stevedores refuse to coal a Japanese whaling factory. In Denver, Colorado, the labour federation convention voted unanimously in favour of joining British labour in the boycotting of Japanese goods.

EMPIRE BEERS GAIN FIRST PRIZE.

London. With Empire beers entered for the first time in the Canada (Riedle brewery) it gained the first prize for Overseas brews at the bottled beer competition, with New Zealand (Dunedin brewery) first in the light lager class. The foremost authorities were unable to arrive at an adequate comparison between home and overseas brews owing to the divergent types.

DEFENCE NOT DEFIANCE

London. Addressing the Trade Union leaders as the guest of the National Trade Union Club in London on Wednesday, the War Minister said "It is now established in Britain, and for the whole world to know, that this cohesive nation will proceed with rhythmic tread to the attainment of impregnable defence. Let it be realised that on this issue our decisions, whether in Cabinet or Congress, are inflexible and are at one. We do not halt between two opinions. We shall resist aggression on ourselves, our kindred and our ideals. We shall make ourselves fit to do so, both in materials and in men." Mr. More-Belisha also said "Democracies do not declare war for aggressive purposes. Their system of public discussion prevents a hasty decision. How important it is therefore, in view of what is at stake, that their defence should be secure."

BRITAIN AND THE BRUSSELS CONFERENCE.

London. Britain will not make any striking proposals till the forthcoming Brussels Conference on the Far East situation without first ascertaining whether they would command the full support of the United States, says the "Daily Telegraph" Correspondent. This support would be required not only in the first instance, but at all later stages of developments which might ensue from steps taken. This attitude is the outcome of President Roosevelt's recent declaration and the British Government is taking steps to ascertain what are the exact inferences to be drawn therefrom, as they might apply to the United States policy in the Far East conflict.

JAPANESE EMPEROR CONCERNED AT STRAINED FOREIGN RELATIONS.

Shanghai. Advices from Nanking indicate that the Japanese objective are: the complete occupation of all Chinese territory north of the

Yellow River, the occupation of Hainan Island in the south China sea, decisive victory on the Shanghai front. It is intended that the objectives shall be achieved before the end of the year, states the "Daily Telegraph" Correspondent, while the Japanese Emperor is concerned at the "Unfavourable" developments in foreign relations. Peking reports further Japanese advances in Suiyan province, with the investment of Kweihua, while in Shansi province progress towards Taiyuan is sustained, with Sinchow captured. Shanghai positions at Chapei and Kiangwan were again bombed by Japanese air craft.

NATIONALIST SUCCESSES ADMITTED BY SPANISH GOVERNMENT.

Valencia. A Government communique reports intense aerial activity on the Aragon front. Meanwhile Government positions are reported to be improved in the vicinity of Teruel. On the Asturias front, the Nationalists maintained an advance with the capture of several towns and similar progress was made at Andalusia where heavy artillery and tank offensives are proving successful. The Government admits these reverses.

There are nearly 5,600,000 natives in the Union of South Africa. This number constitutes about 68 per cent of the total population.

HEAVY CASUALTIES IN SHANGHAI.

Shanghai. Bombs, shells and bullets raked the International Settlement on Thursday, marking the worst day since August 14th, when two thousand were killed. No foreigners were killed but the native casualties were fifty dead and approximately fifty wounded, while shell splinters injured two United States naval ratings. According to the "Daily Telegraph" Correspondent, Chinese batteries at Chapei engaged Japanese bombers who rained missiles on the Foreign Settlement at Jessfield Park wrecking many houses despite national emblems painted on the roofs. The most casualties were due to Japanese antiaircraft shells which dropped within the Settlement and it is believed that the Soviet Embassy was struck. Nanking messages present brighter Chinese reports, with a big general offensive in Shansi supported by tanks, artillery, aircraft and cavalry, completely routing the Japanese at Hsingkou, south of Yuanping, and capturing twenty two tanks. The left wing reached Sohsien, north of the inner great wall, while guerilla forces were harassing the Japanese rear. Tokio reports further mobilisation with one million under arms shortly.

U.S. STOCK EXCHANGE.

New York. The Chairman of the Chase National Bank, Mr. Winthrop Aldrich, in an outspoken address at Rochester, laid the responsibility for the recent drastic market decline at the door of President Roosevelt's Administration. Siding with the financial community, Mr. Aldrich said the fault was entirely with impaired efficiency of the stock market machinery as a result of excessive Government restrictions which created a market so thin that a break was inevitable. The refuting of foreign selling was the cause, he pointed out that overseas purchases in recent weeks exceeded the sales.

APPREHENSION IN ROME REGARDING  
ANGLO-FRENCH INTENTIONS.

Paris. The French policy on the Spanish situation was unanimously approved by the Cabinet, with semi-official comments on official statement stressing full accord with Britain, particularly in regard to communication lines in the Mediterranean. Rome is nervous as to the Anglo-French intentions, states the "Daily Telegraph" Correspondent, should Italy fail to agree to an early withdrawal of volunteer and the Press asks for free discussion at the Conference. Germany is annoyed by the reintroduction of the volunteers question, says a Berlin message.

FURTHER ADVANCE OF INSURGENTS  
CLAIMED.

Hendaye. Reuter reports that Insurgent forces made a further advance in the Asturias sector, with heavy air attacks being supported by artillery, which crushed the Government desperate resistance. On the Aragon front the fiercest fighting continues with all types of arms being engaged. Barcelona is being heavily bombed. The Government issues denials in general terms.

NATIONAL HEALTH INSURANCE.

London. The Minister of Health speaking of the Jubilee of National Health Insurance said that it had become a successful and essential part of the British Social system. The number of insured persons now exceeded eighteen million he stated and the value of benefits dispersed since the beginning of the scheme was no less than six hundred million pounds. During twenty five years the magnitude of its operations had steadily increased and a recent valuation had revealed net disposable surplus of twenty million pounds. Sir Kingsley Wood paid a tribute to Mr. Lloyd George as the parent of the National Health Insurance Scheme and went on to speak of the further extensions which the Government had in view. Directly Parliament met in the new session he proposed to introduce a bill making medical benefit available to young persons immediately they left school and entered insurable employment, thus filling the gap between school medical service and medical service under the Insurance Acts.

MR. EDEN'S LLANDUDNO SPEECH.

London. The Foreign Secretary had an enthusiastic reception from an audience of five thousand when he addressed the Conservative Party Rally at Llandudno in North Wales last night. The speech was relayed to two other halls and by loud speakers on the pier, and it is estimated that his speech was heard by over ten thousand persons. In the passages devoted to Foreign Affairs, Mr. Eden said it was on Spain and the Far East, where undeclared wars were raging, that attention was fixed today. As to Spain, events had proved right the policy of non-intervention pursued by the British Government, endorsed by the British people, and strictly observed by the country in spirit and in letter. He cited a saying of Wellington made one hundred years ago "There is no country in Europe in the affairs of which

Continued on page 4.

Continued from page 3.

foreigners can interfere with so little advantage as in Spain." But there was distinction between non-intervention and indifference. "We are not indifferent to the maintainance of the territorial integrity of Spain. We are not indifferent to the foreign policy of any future Spanish Government. We are not indifferent to the complications which may arise in the Mediterranean as a result of the intervention of others in Spain. We are not indifferent to vital British interests in the Mediterranean. A clear distinction must be made between non-intervention in what is purely a Spanish affair, and non-intervention where British interests are at stake." The piracy in the Mediterranean was an example of the latter. Mr. Eden said and described the rapid and effective action taken at Nyon. Piracy upon the high seas had ceased, and the British would continue watchful to see that their interests in the Mediterranean and in their maintainance of communications with the near East and India were not endangered. He spoke with regret regarding the Italian refusal of the joint Anglo-French invitation to conversations with the object of coming to some effective arrangement about Spain which would allow of the continuation of non-intervention, because unless progress could be made at once, and rapidly, the situation must - citing the words of the Prime Minister at Scarborough - cause increasing anxiety. Progress in the Non-intervention Committee, in which the Italian Government suggested re-examination of the problem, was difficult. "None the less, the French Government and ourselves did not wish a breakdown to come, if come it must, upon an issue which might be represented as one of procedure, and so we have agreed to the reference to the committee which meets tomorrow. This of course does not mean that we are prepared to acquiesce in delatory tactics. The next few days will show whether or not the nations are prepared to make a sincere effort to deal with the Spanish problem in spirit or real international collaboration. That is certainly our disposition. If it is generally shown, then the most anxious problem of the immediate

present will be on a fair way to a solution. If however, the committee is now unable to make progress, as it was unable to make progress last July, then I fear that it is useless to conceal from ourselves the gravity of the situation that will confront us. One feature of the present situation is proclaimed intervention-glorification of breaches of agreement. In such conditions no one can complain if the patience of those whom have striven to keep their responsibilities towards Europe constantly before them, is well nigh exhausted. I for one should certainly not be prepared to utter criticism of any nation which if such conditions continue, felt compelled to resume its freedom of action." Turning to the Far East, the Foreign Secretary said they would not expect him to enter into details of the Nine Power meeting, which they hoped would be held in a few days. It was earnestly to be hoped that all those whose co-operation was necessary would be present. For their part the British Government would co-operate heartily at the meeting in the spirit of President Roosevelt's declaration regarding which Mr. Eden recalled the welcoming remarks of Mr. Chamberlain at Scarborough. He said the Chicago speech was indeed a clarion call - a call to all nations to return to belief in the pledged word and the sanctity of treaties. "In these days of international violence and lawlessness, it is well for us that the president of the most powerful Republic in the world should remind us in these forceful words that it is not so long since we all pledged ourselves to refrain from resort to force as an instrument of national policy". Mr. Eden pointed out as one satisfactory feature of foreign affairs which had emerged prominently in the last year, the community of interests and outlook between the two great democracies of France and Great Britain, which more and more realised that they were the custodians of a great tradition worth preserving. The United States also, in spite of her distance from the European scene, was equally conscious of that aspect of the present world situation.

LIBEL ACTIONDamages Awarded To Lord Camrose

London. In the King's Bench Division a special Jury awarded Lord Camrose twelve thousand five hundred pounds damages as Plaintiff in a libel action against the Fascist newspaper Action, Argus Press (Printers) and John Beckett (Editor). The Jury found that the words used were defamatory and actuated by malice and were neither fair nor true comment. According to the plaintiffs, the journal had implied that Lord Camrose was a Jewish financier with no loyalty to the crown and no sense of patriotism, while he allowed his duty to the public to be subordinated to his own financial interest.

DISTURBANCES IN PALESTINE

Jerusalem. On Saturday a twenty four hour Curfew was proclaimed in the Arab town of Lydda where airport buildings were destroyed by fire, believed due to arson. According to the "Sunday Times" correspondent, the Jerusalem Grand Mufti who had been in hiding from the authorities, left his retreat disguised as a Redoubt and joined other Arab leaders at Damascus.

It is believed that he motor-ed to the coast and boarded a launch which was stopped by a French coast guard cutter. The cutter escorted the launch to Beirut after ascertaining the Mufti's identity.

One hundred and fifty minor Arab leaders were arrested in twelve hours and the Palestine Government announced their intentions to control Moslem Religious Trust Funds previously administered by the Mufti.

Important Arab Chiefs in Libya affirmed solidarity with the Palestine Arabs in a message to Signor Mussolini who recently described himself as Islam's protective.

JAPANESE BOMBS KILL WOUNDED  
CHINESE.

Shanghai. The Chinese repulsed infantry attacks on Woosung Creek, north of the city, where a fierce struggle continues for the Black Prince Temple and the Liuhoo road. Many Chinese wounded were killed when a plane bombed Keshung railway station. The death roll is mounting in refugee camps owing to malnutrition and a milk shortage.

The "Sunday Times" Correspondent reports that the Chinese eighth Route Army (Communist) cut off fifty thousand Japanese advance troops north of Taiyuan, capital of Shansi who are threatened with annihilation. Tokio admits desperate Chinese resistance and believes that a large scale battle is imminent in the north of Shantung where the provincial Governor is gathering forces to stem the invaders.

FOREIGN PRESS COMMENTS ON  
MR. EDEN'S SPEECH.

Paris. The British Foreign Secretary's speech concerning non-intervention is generally praised in the Press. It is pointed out the Franco-British co-operation continues and while both nations desire conciliation they do not intend gaining it at any cost and whatever the risk. One paper declares that the speech was fourteen months late but that France and Britain are still able to save peace.

The Berlin press blames France and Britain for the delay regarding the volunteer question and fears a Franco-British desire to dominate the future Spanish Government.

Italian opinion sees nothing new in the speech but perceives a sharper tone.

SATURDAY'S NON-INTERVENTION  
MEETING.

London. Lord Plymouth presided over the meeting of the Chairmans Sub committee of the Non Intervention committee, in the Foreign Office on Saturday morning, at which on behalf of the French Government, the Ambassador, Monsieur Corbin, tabled proposals which were given the full support of the British Government. Members of the Sub committee were asked to consult their respective Governments urgently, and to attend the further meeting to be held tomorrow, to present their observations and discuss the French proposals.

The French proposals were comprised  
Continued on page 4.

under five points as follows: Firstly, Agreement of the immediate withdrawal of volunteers; Secondly, When the Commissions have reported that volunteers had been, and were being withdrawn, certain of the rights which International practice accords to belligerents would be granted to both sides; Thirdly, The Governments represented on the committee should exercise all influence possible at Valencia and Salamanca to ensure that within a very short time a definite number of volunteers are withdrawn, account being taken of proportions on both sides; Fourthly, There shall be no new departures of volunteers to Spain; Fifthly, There should be a system of control instituted on the lines of the Van Dulm - Hemming report, containing recommendations based on a review of the work of the Non intervention Board. M. Corbin indicated that failing results, the French Government would be free to take such action as they thought proper. Lord Plymouth said that the Nyon agreement appeared to present a favourable atmosphere for a new effort to secure the effective carrying out of non-intervention. The British Government were prepared to make that further effort to find a solution, but there must be no delay in proceeding with the withdrawal of volunteers, and control should be exercised on the lines of the Van Dulm report. The British Government gave its full support to the French proposal. He appealed for collaboration of all, to overcome the difficulties which would arise. If an agreement could not be reached the British Government would have to consider resuming full liberty of action. On behalf of Germany, Herr Von Ribbentrop recapitulated the past history of non-intervention and claimed that his Government had first raised the withdrawal of volunteers and had not been responsible for the position now reached. If no solution was found Germany too would claim liberty of action. Count Grandi for Italy made a similar claim. He expressed satisfaction that both the French and British Governments were prepared to take up the withdrawal of volunteers question on the basis of the British plan of July 14th, but he

emphasised that point seven of that plan, which deals with the withdrawal of volunteers, must be preceded by the discussion of points which went before, including that dealing with the grant of belligerent rights. He accepted the suggestion that there should be a preliminary token of withdrawals as a substantial beginning of the application of the British plan. It should apply to each side in equal numbers. He referred at some length to "Intolerable misuse of flag" in the Mediterranean by ships carrying supplies to Spain. In the view of the Italian Government non-intervention must mean neutrality, and that meant the grant of belligerent rights. The Soviet Ambassador agreed to refer the proposal to his Government but said he did not think that in the circumstances that had been revealed non-intervention could be made to succeed, and that the Spanish Government should be allowed to buy arms where they could get them. After speeches by the Swedish Minister and the Belgian Ambassador it was decided to call a Technical Sub-Committee for today to make a speedy examination of the Van Dulm report in the light of the observations of the various Governments that had been received, and to divide the controversial from the non controversial sections. A full meeting of the Chairmans Sub-Committee will be held tomorrow afternoon by which time all representatives would have consulted their Governments and would be ready for a discussion of the French proposals. Owing to Lord Plymouth's absence from London this week, the Foreign Secretary, Mr. Eden, will take the chair at tomorrow's meeting. The proposals submitted by the French Government are meanwhile being communicated to all of the powers parties to the Non-Intervention Agreement.

### INCREASED BRITISH IMPORTS OF SCRAP METAL

Middlesborough. Rapidly increasing supplies are expected to end the steel famine several months earlier than anticipated. Scrap imports in September rose to 144,000 tons, while the daily rate of pig-iron production was the highest since 1920. Home ore production is expanding and supplies have been resumed from Northern Spain and Spanish Morocco. The changed situation is believed likely to induce the Government to restore the steel import duty reduced since July.

### H.R.H. THE DUKE OF WINDSOR

Berlin. The Duke and Duchess of Windsor after inspecting the labour and housing conditions of Essen and Dusseldorf left Essen for Leipzig. The Duke spoke to members of the British Colony, who gave him an enthusiastic send off from the station.

### REPORTED SURROUNDING OF JAPANESE TROOPS

Shanghai. Air raids and heavy artillery bombardment forced the Japanese to remove sixty aeroplanes from Yangtzepoo to the new Woosung aerodrome. According to the "Daily Telegraph" the Chinese Air Force is believed to be recovering the initiative here.

Nanking reports state that the surrounding of the Japanese force in Shansi was due to co-operation between Chinese regulars and Communist troops. Messages dropped from Japanese planes into the Chinese lines, but meant for the beleaguered force, urged the troops to hold out pending reinforcement.

The United States Senator, Mr. Pittman, in a newspaper interview expressed the hope that Japan will listen to advice from the friendly Governments at Brussels, adding that if she continued warfare against the judgement of such Governments, she should be ostracised by all civilised countries.

Similar sentiments were expressed by Major Attlee, the British

Labour leader, at a Trafalgar Square demonstration, who urged Britain and the United States to take steps to prevent slaughter in China. He stressed Japanese dependence on external trade, particularly with the British Empire and the United States, indicating the value of economic pressure to stop war.

### FOREIGN OPIONS REGARDING NON-INTERVENTION

Paris. Reuter reports that French opinion regards the non-intervention position with cautious optimism believing that Anglo-French co-operation may overcome the difficult situation. The attitude is considered more conciliatory although somewhat intransigent. France is unwilling to approve of numerically equal withdrawals of volunteers from both sides, or granting belligerent rights to both sides. Herr Von Ribbentrop's speech caused apprehension but feeling remains hopeful.

Berlin sees France and Britain realising the seriousness of the situation and appeals for progress through foresight and patience.

Rome comment suggest that agreement on the London committee would be welcomed.

### IMPROVEMENT OF SITUATION IN PALESTINE

Jerusalem. Although several attacks on Jews and Arabs have occurred throughout the country the authorities regard the situation as being easier, says the "Daily Telegraph" Correspondent. English tourists are able to visit Omar Mosque, the Grand Mufti's stronghold.

### AMERICAN PARTICIPATION IN THE NINE POWER CONFERENCE

Washington. The United States regards the Nine Power Conference as a committee of reference of the League of Nations which will report its findings with recommendations

to Geneva if the mediations effort fails. American delegates are unlikely to take a leading part in the proceedings owing to the Governments reluctance to take an initial step. The State Department anticipates the conference will not exceed three weeks but that subsequent Geneva deliberations are possible.

#### REGULATIONS TO MEET WHEAT SHORTAGE IN ITALY

Rome. Owing to the poor wheat harvest bakers must include five per cent of maize in bread until November the 30th and thereafter ten per cent. This is the first time since the Great War that such regulation has been enforced.

Signor Mussolini is presiding over the Cabinet Council today when the laws promoting national self sufficiency are being examined.

Il Duce's eldest son, Victorio, left New York for Rome after his Hollywood visit had been shortened owing to Anti-Fascist feeling which necessitated a vigilant police guard.

#### BRAZILIAN ANTI-COMMUNIST MEASURES

Pio de Janerio. Three officials supervising the Brazil "State of war" proclaimed that the approved measures of October 7th were designed to eradicate Communism. The measures provide for investigation of suspected Communists' Agricultural Colleges, for reeducating harmless Communists, military concentration camps for young offenders, island penitentiary for leaders and concentration camps for children of arrested Communists. Many Communists have already been arrested.

#### NEWS IN BRIEF.

London. Records are being broken at the Motor Show at Earls Court where 36,960 persons were present on Saturday. The attendance for the first three days, of 62,311 shows

an increase of 2,291 on the corresponding period of last year.

Eton. Collaborating with the local authorities in anti-gas precautions, Eton College will have two gas proof rooms in each of the twenty five houses providing accommodation for all boys.

London. The Annual report, being presented to the City Common Council this week states that the Tower Bridge opened for 5021 ships during the year, causing road traffic delay totalling 361 hours and 59 minutes. On its busiest day the bridge opened forty times and the years maintenance cost £32,820.

Newcastle. Two hundred firemen fought a Tyneside timber yard blaze for four hours before subduing the outbreak. The yard was badly damaged and an adjoining timber yard was involved but fire brigades prevented the flames reaching the nearby petroleum tanks and gasometers.

Washington. It is reported by Reuter that Colonel Lindberg who is now visiting German aircraft establishments has accepted a five years renewal of commission as United States airforce reserve officer, which is considered to refute the suggestion of his adopting British nationality.

London. The Guarantee Fund for the Empire Exhibition to be opened at Bellahouston Park, Glasgow next May, now totals £750,000.

#### OBITUARY.

HOOF BEATS.

We have heard:

That our old friends the Stanley Sports Association are already planning events and improvements for the meeting to be held on December 27th and 28th.

That it is hoped to speed up the events so as to allow more time for lunch and pic-nics.

And that it has been proposed to have a special CORONATION RACE for Falkland Island bred horses, about 700 or 800 yards, with a first prize of £25.- and a cup, with substantial second and third prizes.

That the entrance fee will only be the modest half - a - crown.

That the public will be invited to subscribe a shilling a head in order to make the prize as large as possible.

That £13.- has already been promised.

That the Westers and the Darwinites will surely make a strong bid to carry off the special Coronation Race.

THEIR MAJESTIES THE  
KING AND QUEEN

London. After spending several hours at Hull yesterday morning and lunching at Guild Hall Their Majesties the King and Queen left for York where on arrival they were met by the Princess Royal and Lord Harewood who is Lord Lieutenant of West Riding. Large crowds gave their Majesties an enthusiastic welcome. After a visit to a factory on the outskirts of the city where they saw different processes of manufacture of chocolates, their Majesties the King and Queen had tea with the Lord Mayor at Mansion House and subsequently left by car for Harewood House to spend the night with Princess Royal and Lord Harewood.

Khartoum. Brigadier General Lewin and his wife reached Kongor in good health.

### GERMAN AIR FORCE OFFICERS ENTERTAINED BY ROYALTY

London. Monday evening His Majesty the King received at Buckingham Palace a party of officers of the German Air Force, led by General Mulch the German Air Minister, which had arrived at Croydon that afternoon for a weeks visit as guests of the Air Council. The invitation was given in acknowledgement of the hospitality extended earlier this year by the German Air Force to a number of officers of the Royal Air Force. The party visited the Air Ministry on Monday morning and were received by the Air Secretary, Viscount Swinton. The programme arranged for the party includes an inspection of the fighter station at Hornchurch of the army co-operation units at Odiham and of the big Bomber Station at Mildenhall as well as a visit to Cranwell where cadets are trained at the Royal Air Force College. A flying display will be given at Mildenhall, including if conditions are suitable, a massed fly past of the latest bombers.

### FURTHER JAPANESE SUCCESSES

Shanghai. Japanese forces attained an important objective when the right flank of the army operating in the northern province of Suiyuan reached Paotow city governing the northern route between China and Russia. China's chances of receiving arms from Russia is now reduced. Two Japanese columns were approaching Taiyuanfu, capital of Shansi province, but the Chinese isolated one from the base and are now continuing guerilla tactics. The Japanese now occupy Hopei and entered Honan province on Monday.

### ITALIAN VOLUNTEERS IN SPAIN

Rome. An official statement announces that Italian volunteers in Spain number forty thousand with Staffs, and adds that Valencia volunteers are more numerous. The bulletin attacks Mr. Lloyd George for stating that Signor Mussolini and Herr Hitler had sent one hundred

thousand trained men, describing these as hair-brained figures. The Spanish London Embassy states that Government information indicates that there are one hundred and ten thousand Italians in Spain.

Three French destroyers are searching for the cargo boat "Cens" which wirelessed being captured by Nationalist warships near Gijon.

The German Ambassador, Herr Von Ribbentrop, flew from London to Berlin, continuing to Berchtesgaden, presumably for fresh instructions from the Fuhrer, while the French Premier saw the Russian, Paris Ambassador and is urging Moscow to adopt a more conciliatory attitude.

### CONTINUED DISTURBANCES IN PALESTINE

Jerusalem. Terrorist activities shooting, bombing and telephone wire cutting continue and according to the "Daily Telegraph" Correspondent martial law is unavoidable if the present situation is prolonged. Arabs attacked a police station near Hebron, forcing the constables to surrender their rifles and ammunition. The authorities have demolished two Arab houses in Lydda, retaliating for the Airport destruction.

### AMERICAN AIRLINER CRASH

Salt Lake City. Searching planes discovered the air liner which left New York on Sunday for San Francisco, wrecked in the mountains on Hadens Peak. Heavy snowdrifts and rough terrain hamper the rescue parties which are setting out on horseback. It is thought probable that the pilot probably lost his way in a storm and struck the hill-side while the passengers were asleep. It is feared that the sixteen passengers and the crew of three were killed.

THEIR MAJESTIES VISIT THE HOUSE OF LORDS

London. Their Majesties the King and Queen visited the House of Lords on Monday afternoon remaining for nearly an hour and a half. The visit was one of inspection in view of the state opening of Parliament next Tuesday. Earlier in the day before returning to London from the Royal Lodge, Windsor Great Park Their Majesties visited Windsor Castle and inspected the alterations and improvements which have been carried out in their apartments during their stay in Scotland.

-----

CONSTERNATION IN WALL STREET

New York. On Monday Wall Street experienced one of its worst breaks since President Roosevelt took office prices being lowest at the close when the tape was more than five minutes late. According to the "Daily Telegraph" Correspondent almost panic prevailed while traders tumbled over each other after endeavouring to meet the constant stream of selling orders from home and abroad. Of the day's trading of three million shares, one million three hundred and ninety thousand changed hands in the last hour. The collapse was attributed to general nervousness.

It was rumoured that the closing of the Exchange is believed unlikely but the Government is perturbed by the falling security values.

-----

FLOODS IN AUSTRALIA

Melbourne. Following four days heavy rains, serious floods are causing anxiety throughout Victoria. The Yarra river overflowed and in several places roads and railways are inundated, isolating country districts. Four hundred and fifty inhabitants of Koorweerup are sleeping in a train which removed them to an elevated siding. The position is becoming worse as the rain continues.

### GERMAN OFFICERS VISIT R.A.F. STATIONS.

London. The Party of German Air Force Officers led by General Mulch, the German State Secretary for Air, and Lieutenant General Stumpff, Chief of the German Air Staff, visited Mildenhall Aerodrome on Tuesday where they viewed aircraft accommodated at the Station as well as the representative aircraft of each of the squadrons participating in the subsequent fly past, which are among the most modern in use in the Royal Air Force. Previous to fly past, a 'fake crash' was set on fire and a realistic rescue by asbestos suited fire tender crew and ambulance men was staged. The party proceeded during the afternoon in the Air Council's aeroplane to Cranwell, where they inspected the Royal Air Force college.

### NON-INTERVENTION MEETING RESULTS IN DEADLOCK.

London. The Chairman's Subcommittee of the International Non-intervention Committee met at the Foreign Office on Tuesday afternoon, with the Foreign Secretary in the Chair. After sitting for more than three hours the Committee adjourned until yesterday afternoon. A deadlock was reached when both the Italian and German delegates stated that they preferred to discuss the original British plan for the evacuation of volunteers, laid before the Committee last July, while the Soviet delegate insisted that the recognition of belligerent rights should not be granted until all volunteers had been withdrawn from Spain. Mr. Eden, stating that no progress appeared in sight, adjourned the meeting until yesterday afternoon, meantime Mr. Eden expressed the hope that progress could be made towards bridging the gulf between the two points of view. Czechoslovakia, Belgium, and Sweden supported the French proposals, while the Portuguese representative indicated that his Government is prepared to patrol their own land frontier, provided that the French Government are prepared to restore control in the Pyrenees. The Soviet Government, through M. Miaisky, declared that the

French plan amounted to a continuation of the policy of "So-called Non-intervention" but if the Anglo-French, and other Governments consider it necessary to continue this policy, and still entertained some belief in the possibility of its success, the Soviet Government did not intend to create any difficulties with regard to such policy, but declined any responsibility.

### H.R.H. THE DUCHESS OF GLOUCESTER LAUNCHES CRUISER.

London. The streets of Devonport were lined with cheering people when the Duke and Duchess of Gloucester arrived there after a tour of Cornwall and Devon, in time for luncheon at Admiralty House, given by the Commander-in-Chief. After luncheon the Duchess launched the 5,300 tons cruiser "Gloucester".

The Duke and Duchess of Kent commenced a two days' tour of South Wales, by visiting Carmarthen Tuesday morning. The Duke laid the foundation stone of extensions to Trinit College and the Duchess opened a new Wing comprising a maternity, and general wards, at the County Infirmary. On Tuesday afternoon the Duke and Duchess reached Swansea where the Duke was installed as Chancellor of the University of Wales.

### CHINESE RECAPTURE HSINGKOW.

Shanghai. Fighting flared up along the whole length of the Shanghai front, with the battle fiercest in the vicinity of Tazang, eight miles north west of the Settlement where, according to the "Daily Telegraph" Correspondent, the Japanese have driven a wedge on the narrow front, one thousand yards in depth, which was gained at the suicidal sacrifice of an entire Chinese regiment holding their lines against artillery and air bombing. Japanese tanks were repulsed however, and both sides are now engaged in strategical movements. Nanking was subjected to continuous air raids, and the planes, warned by

last weeks losses are now flying high. The Chinese claim to have recaptured Hsinkow, in Shansi, with vast quantities of war material. The Italian Naval attache Signor Ribezzi, driven by the German chauffeur Fittinghoff was machine gunned by Japanese planes when en route from Nanking to Shanghai.

#### NEWS IN BRIEF.

London. The action brought by Emperor Haile Selassie against Cable and Wireless Limited on account of an agreement for a public Radio-Telegraphic service between England and Ethiopia has been adjourned sine die on the question of Status.

#### ITALIAN INDUSTRY AND FINANCE.

Rome. The Italian Cabinet, over which Signor Mussolini presided, imposed a levy of ten per cent on the capital and reserves of all Joint Stock Companies. The levy is to finance armaments and meet the Abyssinian war costs and is only to be imposed once. Banks and Credit Companies are exempt and also Co-operative Societies with a capital below twenty thousand lire. In certain cases the levy may be paid by share surrender, thus strengthening the Government's control of industry. To attract foreign money, a decree establishes the exemption of foreign investors from death duties for twenty years, and from sequestrations without indemnity, even in cases of war.

London. The apprentices strike movement which was thought to have been checked by the recent agreements of the Engineering Unions spread to Greenwich and Woolwich where unofficial action has been taken by eight hundred youths of the Siemens and Johnson Phillips factories.

London. The death sentence was passed on barman Thomas Rodgers, at the Old Bailey, for the murder of Mrs. Chamberlain (Barmaid) who was working at the same hotel in Northwood. The latter dwelt in a flat opposite the hotel and murder was committed there.

#### AMERICAN AIR LINER FATALITIES.

Salt Lake City. The rescue party have confirmed the deaths of the sixteen passengers and the three members of the crew of the United States air liner which was wrecked on the twelve thousand feet Wyoming Peak. Fragments of the machine and the bodies of the victims were scattered over a seventy yards radius. A federal investigation into the disaster has been ordered.

Batavia. The New Zealander Miss Jean Batten who is on a solo flight from Australia to England has landed safely here.

Berlin. His Royal Highness The Duke and the Duchess of Windsor are leaving Munich on Saturday for an unknown destination, but it is believed that they will visit Herr Hitler at his country home. A Washington message states that Mr. Bodaux is arranging the details of the American visit, which the Duke hopes will be free from publicity.

#### O B I T U A R Y.

London. The death occurred on Tuesday, at the age of sixty three years, of Justice Swift who had been a Judge of the King's Bench since 1920.

Wembley. The decision given to the German heavyweight Walter Neusel in his fight with Maurice Strickland on Tuesday night was an unpopular one.

### H.M. THE KING AND QUEEN ON TOUR IN YORKSHIRE.

London. The whole of the West Riding countryside was shrouded with thick grey mist throughout their Majesties' morning drive on the third day of their Yorkshire tour. Despite the cold the King and Queen used an open car. Great crowds gathered in the towns through which they drove and greeted the Royal car with enthusiastic cheers. In Bradford, crowds thronged the pavement fifteen and twenty deep and in the Town Hall square more than one hundred thousand people cheered their Majesties as they stepped from the car. At Lister Park forty thousand children were gathered, and the King and Queen entered a specially erected box and listened to the children singing "Here's a health unto his Majesty". Despite fog, Their Majesties arrived at Shibden Hall, Halifax, where they lunched with the Mayor, ten minutes before their scheduled time. After lunch they proceeded to the Town Hall where many local citizens and Australian Rugby Football players were presented to them.

### FOG INTERFERES WITH INSPECTION PROGRAMME.

London. Fog interference yesterday with part of the programme arranged for the German Air Force Officers on a visit to Britain. After inspecting the Flying Training School at Wittering yesterday morning, their visit yesterday afternoon to the Bristol Aeroplane Company's works at Filton had to be abandoned.

### BIRTHDAY OF ROUMANIAN PRINCE.

London. General Sir G. Jeffreys is to represent the British army at the celebrations in Bucharest in honour of the birthday of Prince Michael of Roumania. He will leave London on Friday.

### NEWS IN BRIEF.

London. A general advance in wages for steel workers in West Wales was agreed upon at a joint Conference of employers representatives and representatives of the Iron and Steel Trade Confederation held at Swansea yesterday.

=====

... ..

London. At the meeting of Non Intervention Sub Committee yesterday the Italian representative announced that the Italian Government are ready to accept the following proposals. That an International Commission should be sent immediately to Spain to ascertain the exact number of Foreign Nationals fighting with the two parties in conflict. Also that a token withdrawal of volunteers should take place before the granting of belligerent rights.

=====

... ..

Salamanca. A Nationalist communique states that General Franco's forces are within eighteen miles of Gijon which is the last stronghold held by the Government in the North of Spain, and the second largest town in the Asturias sector. Valencia messages admit that the road is severed at Villa Vicioba. From all fronts the Nationalists report advances, while the Government issues no communique.

=====

... ..

Sydney. The Commonwealth Premier, Mr. Lyons, is endeavouring to find a solution of the Trade Union move for an Anti-Japanese boycott, of which he disapproves particularly as it involves the Chinese crew of a Japanese chartered British freighter.

SEVERE FIGHTING IN CHINA.

Shanghai. The Japanese offensive towards Tazang on the Shanghai front continues with the most severe fighting of the campaign. The Japanese warship "Izumo" shelled Chinese positions at long range while the shore artillery concentrated on positions in the vicinity of Woc-sung. In desperate hand to hand struggles no outstanding advantage was gained on either side. From a foreign source at Tsinanfu it is understood that the Japanese forces advancing along the Fukow railway in Shantung are now retiring northwards; with local Chinese forces advancing on Tchchow. Nanking has been again subjected to air-raids.

AMERICAN DELEGATION LEAVES FOR AMERICA.

New York. The Ambassador, Mr. Norman Davis, and the United States Delegation to the Far Eastern Conference at Brussels sailed for Europe, with Mr. Davis informing Press men that the Delegation was open minded, without commitments of any nature. The Ambassador to London, Mr. Bingham, also sailed for Brussels. President Roosevelt has issued a statement that the Delegation to the Nine Power Conference were unfettered by commitments.

### CHANGES IN WAR OFFICE ORGANISATION ANNOUNCED

London. Changes in the War Office Organisation and a Military appointment connected therewith, to which His Majesty the King has given his approval, with a view to marking and providing for the position now occupied by the Territorial Army as an indispensable branch of the fighting services, were disclosed by the War Secretary, Mr. Hore Belisha, in a speech at a dinner of city lieutenants at Mansion House on Wednesday night. There was, he said, no other country a spectacle of competent and resolute voluntary Defence Services on the scale of those of Britain. In the Territorials they had an army almost as large as the Regular army and there was no doubt that in war it must be expected to play a full part. Already it was charged with defending Britain, coastwards and skywards. That was a tremendous responsibility. Mr. Hore Belisha then announced that His Majesty had approved the nominating of General Sir Walter Kirke, Director General of the Territorial army, as a member of the Army Council. All questions affecting the territorial army would henceforth be concentrated and administered at the War Office under the Director-General who will be given an adequate staff. The King also approved the creation of the new post of Deputy Director General of the territorial army and the promotion of a Territorial officer to the rank of Major-General, who would hold that office. Further, another Territorial officer would be appointed as Assistant Adjutant General in the War Office. After commenting on the spirit of co-operation which existed between the Regular and the Territorial armies and which the changes announced would strengthen, the War Secretary said in his remarks that he had dwelt not on armed strength which could be pressed and ordered into service, but on that deep and inexhaustible reserve which was not numbered in men alone, nor counted in cannon, but which was more inpregnable than these - "The persistent and unshakeable resolve of the British people, without permature or permanent dislocation of the balance of its National Economy and life, to endure, and to meet any crisis."

### PROGRESS AT NON-INTERVENTION MEETING

London. Wednesday's Session of the Non-intervention Sub-Committee, following the adjournment on Tuesday night with no progress achieved, attracted considerable interest. The arrival of the members was watched by large numbers of people. The Committee sat for over three hours.

The deadlock was broken at the eleventh hour by Italy and Germany withdrawing their insistence on belligerent rights being granted before the withdrawal of volunteers. Both countries agreed that a token withdrawal should take place and a Commission is to be sent to Spain to report on the numbers whereon the withdrawal proper should be based. An authority, possibly the Chairman of the Sub-Committee, will receive the Commission's report and decide, when the withdrawals have made sufficient progress for the granting of belligerent rights to both sides. A communique says that a substantial degree of progress was achieved towards agreement on the main point at issue. The representatives undertook to report to their respective Governments the substance of the discussion. The Sub-Committee will meet again today, meanwhile the Chairman was to consider the machinery required to carry out the British plan. M. Maisky demurred at this suggestion on the ground that he disagreed to the British plan and reserved the right to formulate reservations. Mr. Eden said that if the next meeting made such a large advance as was made today, the problem would be very largely solved.

### GERMANY IN AGREEMENT WITH MR. EDEN'S VIEWS.

London. According to official circles in Berlin they are delighted to find themselves in agreement with Mr. Eden and echo his praise of Italy's valuable contribution towards a settlement of the Spanish question. It is stated that Germany sincerely wishes that the Nine Power Conference may have tangible results leading to a peaceful settlement.

### PRESIDENT ROOSEVELT AND AMERICAN PROSPERITY

Washington. President Roosevelt officially opening the new Federal Reserve Board buildings, while not referring directly to the Stock Market decline, declared that the Government must improve and co-ordinate with the credit and other machinery "to achieve and maintain enduring prosperity free from disastrous extremes of booms and depressions". With the real mission of the Federal Reserve system aiming at winning for all people the greatest attainable measures of economic well-being security and stability, this goal could not be attained without the proper functioning of the monetary and credit machinery and only by such proper functioning with all other instruments of the Government, could America achieve and maintain enduring prosperity he added.

### IMPROVEMENT IN U.S. STOCK EXCHANGE TRANSACTIONS

New York. According to the "Daily Telegraph" Correspondent, Wednesday's Wall Street closing rally continued Thursday and an active session terminated with a long list of sharp gains in all sections. Orderly machinery of the market again functioned without Wednesday's frantic turmoil, and although most offices were crowded to suffocation and the tape ran late, the general atmosphere showed improvement. Apart from U.S. steels, all leading issues were bought with advances up to ten points on trading, estimated at 4½ million shares. The recovery is regarded as justification for the administration's hands-off policy.

### RE-OPENING OF PARLIAMENT.

London. Parliament re-assembled yesterday after the summer recess and in the House of Commons the Foreign Secretary opened a debate on International Affairs. The House was crowded and the Russian, Belgian, Argentine, Spanish and Chinese Ambassadors listened to the speech from the distinguished strangers gallery.

Mr. Eden began by reviewing events

in the Mediterranean since the House adjourned, including the outbreak of piracy, successfully dealt with at the Nyon Conference. He said His Majesty's Government would not cease to be sincerely grateful for the part played by each one of the signatories of the Nyon Agreement. Subsequently there was an invitation to the Italian Government to join in tripartite conversations. After the Italian reply, despite previous disappointments, the French and British Governments decided to make one more effort, even though it might have to be the last, to refloat the Non-intervention Committee. They had thought it only fair to make it plain that if the Committee could not achieve results within a limited period, their Governments would have to be free to resume their liberty of action. The British Government did this not because it ceased to believe in non-intervention, but because no Government could continue to associate itself for an indefinite period with an international agreement that was being constantly violated. At the end of Tuesday's meeting of the Non-intervention Committee, the Foreign Secretary confessed that he saw no alternative but that next day the committee should report failure, with all the consequences that such a decision must have inevitably entailed, but at length there came a new and welcomed contribution by the Italian Government. "However chastened some of us may be by the international experience of the last few years no one will, I hope, belittle the significance of this offer." The chief difficulty regarding the withdrawal of volunteers, Mr. Eden reminded the House, had been the relation in time between such withdrawal and the granting of belligerent rights. On this issue, both the Italian and German Governments had substantially modified their attitudes. The second stubborn difficulty had been the proportion of withdrawals from either side, on which, without proof of numbers, it had been virtually impossible to reach an agreement. Here too the Italian Government had proposed a solution which should be acceptable. It was that the Powers

Continued on page 3.

Continued from page 2.

should undertake in advance, to agree to the proportions based on the figures ascertained by the Commissions to be sent to Spain, whatever these figures might ultimately prove to be. His Majesty's Government were themselves in full

accord with this and sincerely appreciated the contribution to international agreement which these two concessions undoubtedly implied.

"I should be last to indulge in exaggerated optimism. There are problems enough, and to spare, still outstanding. But today there are real chances of making progress. Can we profit by them? The next few weeks will show, and I say, weeks, deliberately. His Majesty's Government will spare no endeavour to see that the progress now once begun, proceeds speedily and unchecked. With this end in view the Non-intervention Committee will meet again tomorrow, when we hope to receive the replies of all Governments to the Italian Government's new offer." Mr. Eden took occasion to deny reports that Wednesday morning the British Government took some new decision to modify their action. It had even been said that they had approached the French Government on the subject. There was no truth whatever in that story. Mr. Eden said he was convinced that the British people were united and emphatic in not wishing the Government to take sides in Spain and in wishing the Government to do everything in their power by example and by conference, not to let the principle of non-intervention be finally and irrevocably thrown over, but non-intervention must be sharply distinguished from indifference, the respecting of the territorial integrity of Spain, or of British Imperial communications through the Mediterranean. In matters of such delicacy and importance the utmost precision and clarity was necessary. "Let me therefore once again make it plain that our re-armament bears in it neither the overt nor latent strains of revenge, either in the Mediterranean or elsewhere. Our position in the Mediterranean is simply this. We mean to maintain our right of way on this main arterial road. We are justified in expecting such a right to be un-

challenged. We never asked, and we do not ask today that the right should be exclusive. The House had been encouraged to hope by the events of yesterday that a real step forward may be made in eliminating the Spanish question from the sphere of international controversy. His Majesty's Government ardently hope that such will prove to be a fact, but let us be frank about the consequences. The Government are conscious that foreign intervention in Spain is responsible for preventing all progress towards international appeasement. Anyone who wanted to see how completely bad its effect had been, should have been at the League Assembly this year." Turning to the Far East, the Foreign Secretary expressed regret at the tragic situation which had developed there and recounted the efforts of the British Government paralleled by the efforts of other Governments to promote a settlement of the conflict. Speaking of the League Advisory Committee's proposal that parties to the Nine Power Treaty should initiate conversations in accordance with that Treaty, he said that the British Government welcomed the conference which the Belgian Government was calling, because in their view the meeting of the Powers principally concerned, in the Capital of one of the signatories of the Nine Power Treaty, was the best hope of finding a means of putting an end to the conflict. He had received a message today that the French Foreign Minister would attend the conference and he had also learned that the Italian Government were to send a Delegation, while the United States Government would be represented. Mr. Eden said that the paramount desire of everyone must be to see an end put to the slaughter, suffering and misery.

The opposition leader, Major Attlee, complained that throughout Mr. Eden's speech he had seemed to reiterate that the only things which inspired the Government's policy were the interests of British Imperialism. The Labour Party he declared, stood for the rule of law and development of a Commonwealth of nations but the Government was back in pre-war

Continued on page 4.

Continued from page 3.

days, narrowly viewing what they believed falsely to be British interest. The lesson of Nyon was that when Britain in conjunction with other Governments was prepared to act firmly, results accrued. He asked for further information on the proposals before the Non-intervention Committee and regarding the situation in the Balearics. Mr. Attlee referred to the remarkable speech of President Roosevelt at Chicago, which he wished Mr. Eden had welcomed on the floor of the House of Commons as well as on the platform at Llandudno. Sir Archibald Sinclair, for the Liberals, also thought the response to President Roosevelt's speech inadequate. He asked for information about the Italian troop movements to Libya. Regarding the Far East, Sir Archibald Sinclair while urging the use of pressure to bring peace if persuasion failed, thought that the nation which must take the lead in such matters was the United States, with her immense interests in China and her lack of preoccupations in Europe.

#### ATTEMPTED ENCIRCLEMENT OF INTERNATIONAL SETTLEMENT

Shanghai. Intense fighting continues, with the Japanese endeavouring to consolidate on their advantage in the Tzang area and thus break the Chinese front, enabling a complete encirclement of the Settlement. According to the "Daily Telegraph" Correspondent the Chinese have been ordered to maintain their position at all costs, and with three hundred thousand troops now engaged and Tazang completely demolished, neither side have gained any appreciable advantage. Reuter messages state that South African and French Trades Unions have decided to strenuously advocate an anti-Japanese trade boycott.

London. The Duke and Duchess of Windsor called on Herr Hitler yesterday afternoon at Berchtesgaden and remained to tea.

#### EXTENSION OF CONSCRIPTION IN ITALY

Rome. Measures to extend conscription in the Air Force and improve the Army and Navy were approved by a Cabinet meeting, with Signor Mussolini presiding. The navy and army will be popularised by increased pay and promotion prospects, while Air Force pilots recruits registering physical failure will be relegated to constructional work.

#### FAMOUS JOCKEY RETIRES.

London. The famous jockey, Steve Donoghue, as the guest of fellow jockeys at a dinner, was presented with a silver trophy engraved with their signatures as "A token of respect and admiration," on the occasion of his retirement. The presentation was made by Mr. Gordon Richards.

London. The Maharajah of Bhavnagar has donated ten thousand pounds towards the cost of a new elephant house at the Zoo to be called King George Fifth Coronation Elephant House.

#### GRATITUDE TO THE EMPIRE

Capetown. The Agricultural Minister replying to the Nationalist leader at Beaufort West, said "We old Republicans are satisfied that we are more free today than under the old Republic and we have much for which to thank the British Empire," adding that South Africa needed the friendship and goodwill of a Commonwealth of nations and that as a Republic the country would be the prey of aggressive nations.

HIS MAJESTY'S SPEECH.

London. In a speech read in Parliament by the Lord Chancellor, His Majesty referred with deep satisfaction to the proofs of loyalty and affection at the time of his Coronation, and the presence of the Empire Prime Ministers, and expressed hope that the deliverations of the Imperial Conference would result in the enhanced security and prosperity of the British Commonwealth. In the passages devoted to Foreign Affairs, after recording the ratification of the Anglo-Egyptian Treaty and the success of the Montreaux Conference, His Majesty said "Throughout the course of last year my Ministers have followed with concern and anxiety, the tragic events in Spain, and have persisted in their endeavours to prevent the spread of the conflict beyond that country's borders. I am happy to note the successful outcome of the conference at Nyon. I have seen with the greatest concern, the development of hostilities between Japan and China. The sufferings which have been inflicted upon innocent non-combatants, by attacks from the air and at sea, have caused me particular distress. I trust that the Conference of Powers which is shortly to be called, may contribute to bring this deplorable conflict to an end."

EPIDEMIC CAMPAIGN IN CHINA.

London. Details are reported from Geneva of a plan which has been drawn up by the League Council Sub-Committee for the utilisation of twelve million Swiss francs voted by the Assembly to assist China in the organisation of a campaign against epidemics. It has been decided that the work must be limited as regards both geographical area and method. The technical plan has as its object, to help and advise competent Chinese technical services. The Sub-Committee believes that the General organisation should provide a Technical Staff of wide experience and equipped with adequate materials, and that the organisation should have sufficient mobility to move its units rapidly.

-----

FRIDAY'S NON-INTERVENTION MEETING.

London. The Sub-Committee of the International Non-intervention Committee met on Friday last at the Foreign Office, with the Foreign Secretary in the Chair. The particular business before the Sub-Committee was the question of a token withdrawal of volunteers from Spain and arrangement for the approach to the two sides in Spain, to secure their agreement to receive an International Commission to ascertain the actual numbers of foreign troops engaged on either side.

Three difficulties arose during the four hours which the meeting lasted. Firstly, Count Grandi insisted that all members of the Sub-Committee should unanimously agree to the British plan, in the same way as Italy had done. Secondly, the Russian delegate intimated that his government were not prepared to grant belligerent rights to the parties in Spain the withdrawal of volunteers had been completed. Thirdly, the Italian, Portuguese, and German delegates stated that their respective governments could not consider themselves bound to any figures published by the Commission to be sent to Spain, on the numbers of volunteers actually fighting there. It is understood that no agreement was reached regarding the numerical strength of the token withdrawals, but the British

delegate suggested five thousand. The Soviet delegate refused to consider equal withdrawals, and suggested a ratio of five volunteers from the Nationalist side to one from the Government side. The Committee are to meet again on Tuesday, meanwhile the delegates were to refer the questions to their respective governments for consideration.

THE PALESTINE DISTURBANCES

London. The Colonial Secretary speaking in the House of Commons said that he was entirely satisfied with the manner in which the Acting High Commissioner was using his powers under the Palestine Defence Order in Council. He did not consider that the time had yet come to delegate powers to the General Officer Commanding, and this view was shared by the Military authorities. The Acting High Commissioner and the General Officer Commanding, were co-operating on terms of complete harmony in the suppression of murder, arson, and other forms of violence and sabotage.

AUSTRALIA-ENGLAND SOLO FLIGHT RECORD.

London. With an aeroplane escort accompanying her across the Channel, Miss Jean Batten landed at Lympne at 15.45 yesterday breaking the solo flight record from Australia, in five days, eighteen hours, fifteen minutes, which is fourteen hours and ten minutes better than Mr. Broadbent's record. Receiving the enthusiastic declamation of the crowd, Miss Batten, tired and smiling but immaculate, was lifted from her monoplane by aerodrome officials, but within twenty minutes she was aloft again, after completing customs formalities, and reached Groydon to receive another vociferous welcome on landing there. A Reuters message from Baghdad states that Mr. Broadbent endeavouring to beat Miss Batten's record to Australia, was forced back by adverse weather on the Baghdad-Basrah hop.

BRAZILIAN BAN ON SECRET SOCIETIES.

Rio de Janeiro. The Government Commission has issued a decree ordering the closing down of all Secret Societies, including Masonic Lodgings. The Commission is ascertaining whether evidence ever exists of alleged communistic activities.

AUSTRALIAN ELECTIONS.

Melbourne With a comfortable working majority assured in the House of Representatives, the Federal Government's chance of retaining a majority in the Senate now appears to depend on the voting in South Australia. The latest election figures indicate that Labour is likely to make a clean sweep of Senate seats in all other states. Commenting on the possibility of a Labour majority in the Senate the political correspondent of the Sydney "Morning Herald" says that this will probably precipitate a crisis when the new Senate meets in July.

ITALY AND NON INTERVENTION.

Rome. The Italian Press is making much of the British reaction to Signor Mussolini's statement with reference to Non-intervention and the correlated benefits accruing. There is general relief that a break has been averted, while another sign of a new tendency is the absence of undue glorification of the Italian Legionaries' part in reducing Gijon, while Germany considers Mr. Eden's speech "Frosty". The German Ambassador in London, Herr Von Ribbentrop, flew from Berlin to Rome, where talks with Il Duce ensued with the German Ambassador, Von Hassel, and the Italian Foreign Minister, Count Ciano attending.

NO MORE CONCESSIONS FROM ITALY.

Rome. The "Sunday Times" Correspondent quoting an official Italian communique says the blame for the difficulties at Friday's Non-intervention meeting are placed on Russia, while Britain and France are accused of inexplicable indulgence towards the Soviet. The communique continues that Italy will make no more concessions to secure an agreement relative to the withdrawal of volunteers from Spain, adding that previous results were jeopardised when accord was within sight, with the French and Russian agreement providing a stumbling block. If an agreement is not reached today, Italy will resume freedom of action, and retaining legions in Spain, will continue her support so long as the insurgent leader needs it. For the time being, Italy will be a spectator, refraining from further action unless and until the present difficulties are removed.

CHINESE STILL OFFERING STRONG RESISTANCE.

Shanghai. Despite intensive attacks by Japanese tanks, planes and artillery, the Chinese defence shows no signs of collapsing, states the "Daily Telegraph" Correspondent, while Japanese circles admit that their

offensive by one hundred thousand troops has been slowed down by systematic bridge destruction and road mining. The Chinese are stubbornly defending every creek, and while their line is bending, it has not broken and the Chinese losses have been severe. Japanese flights of one hundred bombers attacked simultaneously along a five mile front with no appreciable result. Tazang continues to hold out against the weight of Japan's mechanised might. The funeral of Private McGowan, killed by Japanese machine gun bullets, was attended by the highest officials of all nations, including the United States, France, Italy, Holland and White Russians with Sikh Chinese police and Naval and Military detachments. Chinese officials attended but the Japanese offer to attend was refused. The action of Corporal Osborne in opening fire on the attacking Japanese plane was fully approved by the British General Headquarters, and orders have now been issued to open fire on all accassions when planes approach within threatening distance.

FLUCTUATING PRICES AT WALL STREET.

New York. A violent upswing of prices produced a heavy buying wave on Wall Street after a dull opening, with rumours that the Business Control Board are seeking an explanation of selling operators' actions. Ambassador Bingham arriving at Southampton expressed the opinion that the recent stock Market slump was entirely due to Wall Street financiers, who gave no support to President Roosevelt nor the Administration, while the situation was aggravated by sensational Press inducing the public to believe that war is imminent.

BOYCOTT OF JAPANESE GOODS CONTINUES.

Shanghai. After a seventy hours battle the Japanese attack on Tzang ceased, with Chinese counter attacks infiltrating many positions and the advanced salient thus endangered. In North China guerilla forces are harassing the Japanese' rear and it is understood that the Japanese Commanders are considering withdrawals owing to the difficulty of maintaining communication lines. The Manchurian lines are stated to be in revolt. The boycott of Japanese shipping and goods is gaining ground, with British co-operative societies in support, while at Marseilles and Melbourne dockers are refusing to handle Japanese cargoes.

MR. CHAMBERLAIN INDISPOSED.

London. Owing to an attack of gout the Prime Minister did not attend the opening of Parliament yesterday, but the Chancellor of the Exchequer who spoke in his place in the first stage of the debate on the address said that Mr. Chamberlain hoped to resume his duties in the House of Commons quite soon. He hopes to preside over the ordinary weekly meeting of the Cabinet today, which however may have to be held at No. 11 Downing Street, where he is still resident.

RESIGNATION OF BELGIAN PREMIER.

Brussels. M. Van Zeeland's Government resigned after a one and a half hours Cabinet Meeting. The crisis hinges on the affairs of the Belguim National Bank, with the Premier's opponents alleging irregularities. M. Van Zeeland, making a Broadcast farewell to the nation, stressed the indirect and underhand methods of his opponents. According to the Daily Telegraph Correspondent, the Nine Power Conference scheduled for Brussels on Saturday, is now to be postponed to November 3rd.

CONTINUED ADVANCE OF SPANISH NATIONALISTS.

Burgos. The Nationalists claim a continuance of their advance in the Asturias and Aragon Sectors while a Government communique from Valencia admits retirements owing to the numerical superiority in these regions. The Government claims the destruction of two Insurgent planes over Barcelona, with evidence collected later proving Italian origin. The Air France Base at Minorca was raided by an unidentified seaplane, causing an outbreak of fire.

Announcing the probable course of business in the House of Commons, Sir John Simon said the debate on the address would occupy the remainder of the week and be concluded early next week. Dealing with Government Bills, Sir John Simon mentioned first the Coal Mines Bill, which would be a complicated measure and with which the Government hoped to make substantial progress before the Christmas adjournment. Other Bills most likely to be introduced soon would be the Cinematograph Films Bill, the Sea Fisheries Bill, the Blind Person's Pensions Bill, the National Health Insurance Bill, the Air Raid Precautions Bill, a Bill for appointing additional judges, a Rural Housing Bill for Scotland and an Expiring Laws Continuance Bill. These Bills, said the Chancellor, might be regarded as the first batch.

Replying to an enquiry in the speech of the opposition leader Mr. Attlee, regarding the King's proposed visit to India, Sir John Simon said "I think His Majesty's words, in his gracious speech, that he was looking forward with interest and pleasure to the time when it would be possible for him to visit his Indian Empire,

must be left to express all that can be said on the subject. His Majesty's desire to make this very important visit, well understood and we have no doubt that the time chosen will be one that will be found to be the best."

Speaking after Mr. Attlee in the House of Commons debate, the Chancellor of the Exchequer took up a reference by the latter to the Trade Cycle and the danger of slump. Improvement in the economic position of the country during the past five or six years, had continued during the present year, and he did not think there was any possible indication of it going to be arrested. In each quarter of the present year British Overseas trade had shown all round expansion as compared with the corresponding quarter of the previous year. Imports and domestic exports had increased not only in value but in volume. Industrial production had continued to rise. Sir John Simon stated that the latest index number worked out for the second quarter of this year was the highest index for Industrial production yet recorded for any quarter. At the same time there had been no halt in expansion of Retail Trade. After considering certain less satisfactory pointers, such as the temporary decrease in building plans, the Chancellor concluded that there was no ground whatever for assuming that trade was likely to suffer an early decline. No one could prophesy but they would not do justice to the situation if they did not note the favourable signs and take satisfaction from their encouraging character.

#### MR. CHAMBERLAIN TO ADDRESS SCOTTISH UNIONIST ASSOCIATION.

London. The Prime Minister will address a demonstration of the Scottish Unionist Association at Edinburgh on November 12th.

#### INCREASED DEMAND FOR CHARCOAL.

London. Efforts are being made to revive the skilled craft of charcoal burning in England. This highly skilled occupation formerly much practised in the English countryside, had declined owing to the competition of foreign imports and other causes, but the steadily growing demand for charcoal, some of which is due to the Government's rearmament programme, has given impetus to the movement for re-establishing home production.

#### NEWS IN BRIEF.

The London intake of recruits for the regular army last week doubled the returns for the corresponding week of last year.

Edinburgh University has received a legacy of ten thousand pounds for the promotion of study of forestry.

The Lord Mayor of London has received messages from the Mayors of Shanghai and Nanking, expressing their deep gratitude for the efforts being made in the City of London and Great Britain, to raise funds for the relief of distress in China.

THE JAPANESE ADVANCE ON THE INTERNATIONAL SETTLEMENT.

Shanghai. Death and destruction marks the Japanese advance on the International Settlement, following the fall of Kiangwan, Tazeng and the north and the Chiufu stations before overwhelming Japanese tank, plane and infantry attacks. The Japanese made an orderly retreat during the night and are occupying new defence lines, but they have fired Chapei to check the Japanese advance, and the entire area, comprising one fifth of greater Shanghai, is now in flames states the Daily Telegraph Correspondent. It is alleged that men, women and children were massacred by the advancing Japanese and that launches in the Soochow Creek were destroyed. Planes dropping bombs inside the Settlement, were attacked by British military posts and forced off. The Chinese mined all roads and bridges while the Japanese, are steadily closing in. Mines and bombs are constantly exploding, and warehouses are in flames. Elsewhere, the Japanese are bombarding the Amoy ports and have captured Niangtzekun Pass, which is the gateway to Shan-si province.

London. It is stated that Princess Juliana's baby will be Prince or Princess of Orange Naasau, while the subsequent child will be Prince or Princess of Hippe Hiesterfield.

JAPANESE OCCUPY TAZANG.

Shanghai. After five days intense fighting, Tazang the "Verdun of Shanghai" which constitutes the bulwark of the Chinese North West defences, fell to the Japanese on Tuesday morning, states the "Daily Telegraph" Correspondent. The Chinese have withdrawn from the racecourse area, but are maintaining a stubborn resistance at Ki-angwan and Chapei, although gravely menaced by the Japanese advance along the Shanghai-Nanking railway. Reuter states that the Japanese cut this line, East of Nansiang. The fighting continues. There is no news from the North.

AMERICAN DELEGATE TO NINE POWER CONFERENCE.

Plymouth. The American Statesman Mr. Norman Davis, en route for the Brussels Far Eastern Conference, is extremely reticent on the subject, but stated that America entered the Conference without commitments and hoped that Japan would collaborate in finding a constructive solution of the problem. Mr. Davis added he could not envisage any definite line of action which might be taken.

MR. COSGRAVE AND NATIONAL DOMESTIC PEACE.

Dublin. The Opposition leader, Mr. Cosgrave, denied that steps were being taken to bring about coalition in the Free State for the election of a new President. Mr. Cosgrave addressing his Party said much more than good intentions were needed to bring about Unity, while an amicable settlement with Britain was the first step towards National Domestic Peace.

RESIGNATION OF GERMAN MINISTER OF ECONOMICS.

Berlin. It is generally believed that Herr Schacht has already resigned the Ministry of Economics, but no official announcement has been made. He may also resign the Reich Bank

Presidency, and has pressed Herr Hitler for permission to make a public announcement of his resignation, and disavowal of the responsibility for further progress of the four year plan. Herr Schacht is opposed to increased State control of Industry, and restriction of private capitalist enterprise. Herr Hitler has given no definite reply.

FLYING BOAT RECORD.

Pernambuco. The French flying-boat (Lieutenant Devaisseau) landed at Mucheo from Port Lyautey, Morocco, thus establishing a new, world long distance flying boat record in a straight line of six thousand kilometres flight, occupying thirty four hours forty five minutes.

JAPAN REFUSES INVITATION TO NINE POWER CONFERENCE.

Tokio. The Cabinet approved the Note which was handed to the Belgian Ambassador, refusing an invitation to the Nine Power Conference. The note refutes the League Declaration that Japanese operations in China are a violation of the Nine Power Pact and adds that through its assurance to China of moral support, the League has taken sides, and the Japanese Government cannot but conclude that the convocation of the Conference is linked up with the League's resolution, therefore a frank full discussion to bring about a just, equitable and realistic solution cannot be expected.

REPRESENTATIVES AT NINE POWER CONFERENCE.

London. Mr. Eden stated in the House of Commons that Britain was to be represented in the Far East Conference by himself, Mr. Malcolm McDonald and Sir Alexander Cadogan.

U.S. MARINES IN CHINA ORDERED TO RETALIATE IF ATTACKED.

Shanghai. The American naval Commander-in-Chief has authorised American marines to fire in self defence in the event of attack by aeroplanes of any nationality on Defence Forces or non-combatants of the United States defence sector.

BRITISH DELEGATION TO THE BRUSSELS CONFERENCE.

London. The British Delegation to the Brussels Conference on the Far East, announced in the House of Commons are as follows. The Foreign Secretary, The Dominions Secretary and Sir Alexander Cadogan of the Foreign Office.

CHINESE RESISTANCE ON BANKS OF SOOCHOW CREEK.

Shanghai. The Chinese have announced their intention of making a stand along the banks of Soochow Creek, westward from the Shanghai-Hangchow Railway Bridge, the line to extend thence to Nanhsiang and North to Liuho via Kating.

MEETING OF LEAGUE COMMITTEE POSTPONED.

London. A Geneva message says the meeting of the League Committee to consider Sino Japanese question fixed for November 5th, has been postponed until a date when it can take account of the results of the Brussels Conference.

U.S. INDUSTRIAL ORGANISATION DEMANDS.

Washington. A conference to achieve United States Industrial peace is proceeding with representatives of the Committee of Industrial Organisation and Labour Federation attending. The C.I.O. tabled proposals demanding guarantees of a free hand in the labour fields where the federation were making counter-claims yesterday demanding more territory for their own unions but Government officials fear an outcome will disturb the atmosphere of negotiations.

JAPANESE AUTHORITIES APOLOGISE FOR ATTACK ON BRITISH POST.

London. In answer to a question in the House of Commons, the Foreign Secretary described the attack on the British Post at Shanghai by a Japanese aeroplane on October 24th and after resigning the contents of the Japanese note of apology informed the House that the British Ambassador had been instructed to acknowledge the Note and to say that while His Majesty's Government accepted the apology and assurances at the same time they must make it clear that in their opinion the retaliatory fire by the British post was entirely justifiable and must always be expected if ever a case of this kind should recur. Mr. Eden added "The House will not expect me to add anything further pending the receipt of a report as to the steps taken by the Japanese Government to fulfil their undertaking to deal suitably with the persons responsible."

FORMATION OF BELGIAN GOVERNMENT

Brussels. King Leopold commenced a series of consultations with the political leaders in reference to the formation of a Government to succeed Van Zeeland's, which resigned on Monday. According to the Daily Telegraph Correspondent, discussions will be protracted for representatives of Rexists, Catholics, Liberals and Socialists (who have already visited the Palace) the outcome is that, while general opinion is that a National Government is necessary, the Catholic supporters object to a Socialist Premier.

WEDDING OF KING FAROUK.

Alexandria. King Farouk's wedding has been fixed for 6th January next.

DEBATE ON HIS MAJESTY'S ADDRESS.

London. The debate on the King's address was opened yesterday by Mr. Arthur Greenwood for the Labour Opposition. Mr. Lloyd George is expected to speak today, when Mr. Noel Baker opens for Labour and Lord Cranbourne and Mr. Walter Elliot will reply for the Government. Sir Samuel Hoare will speak on Friday, and on Monday, after Mr. Hugh Dalton, Mr. Anthony Eden and Mr. Attlee have spoken, the debate will be wound up by the Prime Minister, or if he is still prevented from attending by his attack of gout, by Sir John Simon. Mr. Greenwood complained of the omission from His Majesty's speech of reference to the League of Nations, unemployment and distressed areas, which he sought to interpret as evidence of the Government's disinterest in this question. Sir Kingsley Wood said that it was perfectly evident that the Government's Foreign Policy was founded on the League of Nations, and it would be generally agreed that no Foreign Secretary had shown greater devotion or given such unvarying service to the League cause, as Mr. Anthony Eden. Turning to other questions, the Minister of Health recalled that Mr. Greenwood himself had recently said that no other country had done more since the war to deal with housing problems than Britain. The latest figures showed that three hundred and thirty five thousand new houses had been completed since the Armistice. House building by local authorities was still on the increase, and the seventy eight thousand houses under construction by local authorities at the end of September, was also a record. This offset the decline in building by private enterprise, of certain types of houses. The slum clearance programme was being energetically carried through and already six hundred and fifty thousand slum dwellers were in new and better homes.

On nutritional problems, the Minister forecast further encouragement to local authorities to supply milk on favourable terms to expectant and nursing mothers and school-children; Replying to an interjection

by Lady Astor, while he was speaking on maternal mortality, Sir Kingsley Wood said that he had appointed a committee under the chairmanship of Mr. Norman Birkett to consider the problem of abortion. Sir Francis Acland, for the Liberal said that he thought the clue to the right policy in the Sino-Japanese conflict was to be sought in the words of President Roosevelt "There must be concerted effort." That must be the key note. Britain should go forward with the United States. That was the path of safety and of success in bringing an end to the dreadful war in the Far East.

DUKE AND DUCHESS OF WINDSOR
TO VISIT AMERICA IN NOVEMBER.

Paris. His Highness the Duke, and the Duchess of Windsor, are sailing for New York on November 6th. The Duke was the guest of honour at a luncheon of the Anglo-American Press Association, when he informally restated that his German and American tours were made as an independent observer, without political considerations of any kind.

GOVERNMENT BILLS INTRODUCED IN
HOUSE OF COMMONS.

London. Among the Government Bills introduced and read for the first time in the House of Commons yesterday were one to make further provisions for renting and exhibition of a certain proportion of Cinematograph Films and for restricting Blind and advance booking of films and one to amend the Health Insurance Act so as to make certain persons under the age of sixteen years eligible for medical benefit and another to lower from fifty to forty years the age at which blind persons become entitled to old age pensions.

JAPAN CLAIMS JUSTIFICATION FOR
ACTION TAKEN IN CHINA.

London. According to the "Lancet" the forthcoming Brussels Conference will provide a long sought opportunity for personal contacts between the Foreign Ministers of the Great European Powers. While Mr. Eden and M. Delbos will respectively head the British and French Delegations, Count Ciano will probably appear for Italy, while Germany is willing to attend and may send Herr Von Neurath. If the Soviet attends, her leader will probably be M. Litvinoff. Outside the Conference Room, there will be frequent chances for all these Ministers to meet and discuss the larger aspects of World Affairs, particularly European questions awaiting solution for several years. Meanwhile, Japan has refused to attend the Nine Power talks, and in claiming that the Treaty does not apply to her actions, declares that the Chinese campaign is in self defence.

NAVY DAY IN THE U.S.A.

Washington. Navy Day, which is the birthday of the former President Theodore Roosevelt, was marked by a Presidential appeal for nationwide support of the navy which in the view of experts was territorially sufficient, but the Mercantile Marine had to be modernised. Part of the day's observance was the keel laying of the battleship "North Carolina" at Brooklyn navy yard, this vessel being the most powerful ever constructed in the United States, and costing sixty million dollars. The keel of her sistership, "Washington" will be laid at Philadelphia navy yard early in 1938, and both to be completed early in 1942.

NEWS IN BRIEF.

Cairo. The Government has issued a communique formally declaring that the Egyptian pound will not be devaluated, nor will any change be made in the existing method of issuing banknotes.

.....
Berlin. The announcement of Herr Schachts resignation from the Ministry of Economics is postponed apparently because the reorganisation Ministry is not yet accomplished.

Madrid. The Insurgents have been moving up troops against the Capital and gun fire is continuous, with the Government batteries concentrating on Insurgent positions to check group consolidations.

.....
London. Today's meeting of the Non-intervention Sub-Committee will be held at three o'clock this afternoon instead of this morning, as previously arranged.

Melbourne. The latest election figures strengthen the belief that the Ministerialist will retain Senate representation in Queensland and South Australia though there is little hope in other States.

PALESTINE HIGH COMMISSIONER'S RESIGNATION ANNOUNCED.

London. The members of the House of Commons have resumed their Parliamentary duties with vigour and purposefulness after a long summer recess, and at the beginning of yesterday's session the Ministers were faced with one hundred and fifteen questions.

In answer in the House of Commons, the Colonial Secretary announced the resignation, on the grounds of ill health, of Sir Arthur Wauchope, the High Commissioner for Palestine since 1931. He said that since Sir Arthur Wauchope came on leave he had been suffering from illness requiring treatment in a nursing home. He is now recovering and hopes to resume his post towards the middle of November, but he has intimated that he does not feel that his health will permit his completing the full second term to 1941. Therefore, he had asked to be relieved of his duties in the early part of next year. Mr. Ormsby Gore added, "I wish to take this opportunity of expressing the Government's appreciation of Sir Arthur Wauchope's long and distinguished services to the State, and I am sure the House will deeply sympathize with him in his premature retirement from the appointment which he has filled with zeal and devotion in most difficult circumstances, for no less than six years."

HERR HITLER'S CONGRATULATORY MESSAGE TO IL DUCE.

Berlin. Herr Hitler's warm message of congratulations to Signor Mussolini refers to the March in Rome as the turning point in the whole development of Europe and expresses the warmest wishes "For your personal welfare, for your work in the service in Italy and for our common efforts for European civilisation and European peace."

IL DUCE AND FORMER GERMAN COLONIES.

Rome. Signor Mussolini, addressing one hundred thousand Fascists on the fifteenth anniversary of the March on Rome, declared that the restoration of African Colonies to Germany was an essential condition to lasting peace. His further conditions were the elimination of Bolshevism from Europe, commencing with Spain, revision of the jarring and absurd clauses of the Peace treaty, giving back to Germany her place in the African sun, leaving Italy quietly alone. According to the "Daily Telegraph" comment this statement provides a further indication of an agreement for mutual support, reached during Il Duce's visit to Berlin, under which it is understood that Germany would give moral backing to Italy's efforts to secure a Franco victory in Spain. In return Italy would support German Colonial aspirations, leaving her free to extend spheres of influence in the Danubian and Balkan areas. Berlin Press approves of the speech as evidence and effectiveness of the Rome-Berlin axis, and Herr Hitler has cabled congratulations to Il Duce on the Fascist anniversary. The former French Cabinet member, M. Guernut, addressing a Radical Socialist party committee meeting at Lille, said that a few more weeks of dallying and the British Premier, Mr. Chamberlain, will be unable to go to India by Gibraltar or the Cape, unless Herr Hitler or Signor Mussolini give consent.

BRITISH GENERAL UNDER FIRE IN CHINA.

Shanghai. Intense fighting continues in the vicinity of the International Settlement, with the Chinese and Japanese holding opposite banks of Soochow Creek states the "Daily Telegraph" Correspondent, who gives details of Japanese tanks firing on refugees crossing the Creek Bridge at Jessfield. The British General Officer Commanding, Major General Smollett, was an onlooker and also under fire when a Chinese woman was killed, and a number wounded. British Military

crossed into Chinese territory and removed the injured to safety. The Japanese are apparently consolidating positions, while the Chinese are strengthening new defence lines. One Chinese battalion isolated in Chapei, refuses to surrender and is now considered doomed when the bombardment recommences.

PROJECTED BLOCKADE OF SPANISH COAST.

Madrid. The torrential rain which had been falling during the last few days, has ceased and military action has been renewed with the improved weather. Landmines which exploded in the University City area brought little change in the front line states a Government communique, while the attackers replied by sporadic shelling. Reports from Paris state that Majorca is officially designated as the main naval station of the Insurgents under the command of Vice Admiral Fernandez, and from this point a six hundred mile blockade of the Spanish coast is to be established. The same source states that the Spanish Government has been transferred to Barcelona from Valencia and the next Cabinet Meeting is to be held there.

FORMATION OF BELGIAN CABINET.

Brussels. After three days without a Cabinet, Belgium will probably have a new Government under the Premiership M. De Man who was Socialist Finance Minister in M. Van Zeeland's Government. Following M. Van Zeeland's refusal at the King's invitation, M. De Man consented to form a Government, but there are many difficulties ahead.

LABOUR MOVES AN AMENDMENT TO HIS MAJESTY'S ADDRESS.

London. A Labour amendment to the King's address was moved yesterday by Mr. Herbert Morrison, who complained that the Government even within their own policy, which he criticised as one of semi-isolation coupled with national competitive rearmament, were failing to make the progress that they should, through recessive tenderness for private interests. He complained in particular of the delay in anti-air raid precautions. He reiterated Labour faith in the system of collective security. The Home Secretary repudiated Mr. Morrison's statements on the Foreign Policy of the Government, but recalled that the Foreign Secretary would speak on Monday, and passed to domestic affairs. He cited a number of statistical indexes to show the great economic activity in the country which he claimed fully justified the Government economic policy. He argued that it was easy to exaggerate the part played by rearmament orders in the stimulation of trade. Regarding rearmament, he thought that the important stage had now been reached when they would see big production. Turning specifically to air raid precautions, he said that in the course of a week or two he would be in a position to introduce a Bill allocating duties and making clear the financial relations between the centre and local authorities and providing general co-ordination of activities to be mobilised in this new field of defence. He believed they would be able to build up a system that would very materially assist the general system of Defence against air attack. Sir Samuel Hoare added that experience was tending to show that whilst you could not prevent a raid - a certain number of aeroplanes always getting through - you could so organise defence as to make it very dangerous to attacking forces, and with the continuation of a strong air force and effective anti-aircraft guns and other anti-aircraft defences, and of a well organised system of passive defence upon the ground, you could ensure great objectives. You could prevent panic in the great centres of population and could

ensure a continuation of the essential services upon which a highly developed civilisation depended.

In his speech Sir Herbert Morrison asked why it was that Britain was nearly the only country in the world not broadcasting news in Foreign languages, refusal to do so he considered contrary to the interests of the British Commonwealth. Intervening just before the House adjourned, the Postmaster General said that the Government had been considering for some time broadcasting in Foreign languages and had now decided to do so. "I want to say that when we send out news it will be straight news, as I am sure everybody on both sides of the House would wish it to be and not the sort of propaganda that goes out from some Foreign countries - not to their credit and not for the better information of the people who listen to them." The announcement was received with cheers.

ARMY APPOINTMENTS.

London. The last of the three new appointments foreshadowed at Mansion House last week by the War Secretary as part of the reorganisation of relations between the Territorial Army and the War Office, was made public yesterday. Lieutenant Colonel J.K. Dunlop has been appointed assistant Adjutant General of the territorial army at the War Office with the temporary rank of Colonel. Mr. Hore Belisha also disclosed that General Sir Walter Kirke, Director General of the territorial army, was to become a member of the army council and that the territorial army officer was to be appointed Deputy Director General. Sir John Brown's appointment to the latter post was published on Wednesday.
