*I attach papers dealing with Ord. No. 49/1920. The Ordinance relates only to fish caught for export which so far as Mr. Hennah's application is concerned seems a minor consideration. In any case no provision is made for granting exclusive fishing rights.*

Port Stanley

June 23rd 1925.

Sir:-

I have the honour to apply for the sole fishing rights for Mullet Creek, Port Stanley & Port William within the two Lighthouses Cape Pembroke & Point William.

I would undertake to supply the Public of Stanley with fish at reasonable prices when it is possible to obtain same with nets in the aforesaid waters.

In the event of a Licence being granted to me I would be willing to bind myself to a period up to five years having first preference of an extension or renewal of my Licence should I have complied with the regulations and given satisfaction.

The Public are supplied occasionally with fish but I have known periods of one to three months when there have been no fish obtainable, the people who fish have steady employment and only spoil a living for one who would undertake to keep up a regular supply if there are fish to be caught.

Any surplus fish could be dried and smoked and if the local demand was not sufficient for same they could be exported if it met with the authorities approval.

Should any further explanation be required in connection with the application of this Licence I shall be pleased to attend at your Office and furnish same.

I have the honour to be

Sir

Your obedient servant
