Comparison of rates of Overtime being paid to Government Printers with their salaries under increased scale of pay.

MINUTES.

H. E.

In view of the increased salaries now being paid to the Government Printers, it would appear necessary to revise their scale of Overtime Fees. Authority for present rates is contained in C. S. 1327/15 and the hours of work in C. S. 825/17.

The Head Printer is now receiving £180 p.a. which works out at 1/9 per hour in a week of 39 hours, and the salary of the Second Assistant Printer (£150 p.a.) calculated on the same basis works out at 1/6 per hour. The present rates of overtime are therefore less than the rates at which the Printers are being paid ordinary salary.

?For consideration when the 1921 Estimates are being framed.

The Hon. Colonial Secretary,

Sir,

On behalf of Messrs. Allan, Coker and myself I am applying to you for an increase in the present rates of our overtime pay.

I think that you will agree with me that 1/6 and 1/- per hour for overtime is to-day totally inadequate.

May I suggest that we be paid on a similar system to that existing in England, that is time and a half for all days except Saturday afternoons and Sundays which are paid for at double time rate.

Our pay for ordinary time per hour works out as follows:-

Mr. Allan	- - - - -	1/7 $\frac{1}{2}$
" Coker	- - - - -	1/5 $\frac{3}{4}$
Myself	- - - - -	1/9 $\frac{1}{4}$

Thanking you in anticipation for giving the foregoing your favourable consideration.

I have the honour to be,

Sir,

Your obedient servant,

H. H. Finch

Govt Printer.
